PREFACE

The 1979 edition of the *Michigan Administrative Code*, published pursuant to Act No. 193 of the Public Acts of 1970, being §§8.41 to 8.48 of the *Michigan Compiled Laws*, is the third in a series of compilations of Michigan administrative rules.

The administrative rules of Michigan were first compiled in 1944 under the supervision of the Secretary of State by authority of former Act No. 88 of the Public Acts of 1943. The rules were arranged in alphabetical order by promulgating agency and published in one volume entitled *Michigan Administrative Code*.

A second compilation of administrative rules was completed in 1954 by the Michigan Compilation Commission under the supervision of the Secretary of State, again by authority of former Act No. 88 of the Public Acts of 1943. The 1954 compilation, also published in one volume, contained the rules of the 1944 compilation as amended, added to, or rescinded by rules appearing in 39 quarterly supplements to the 1944 edition of the *Michigan Administrative Code*.

A uniform numbering system was implemented in 1954, with each rule being assigned a compilation number, or "R" number, which appears in boldface type at the beginning of a rule. This system resulted in a change from an alphabetical arrangement of rules by promulgating agency to a sequential arrangement of rules by R number. The number to the left of the decimal point in the R number originally corresponded to the chapter of the *Michigan Compiled Laws* under which the promulgating agency was created, but the value of this taxonomy depreciated following the adoption of the *Constitution of the State of Michigan of 1963*, wherein Article 5, §2, required the allocation of executive and administrative agencies among and within not more than 20 principal departments. Since that time, the number to the left of the decimal point has generally corresponded to the chapter of the *Michigan Compiled Laws* containing the statutory authority under which an agency promulgates rules. Many

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

rules promulgated by the Department of Agriculture and by the Department of Natural Resources exhibit R numbers containing 2 decimal points. In the case of the Department of Agriculture, the number between the 2 decimal points corresponds to a general regulation number assigned by that department. In the case of the Department of Natural Resources, the number between the 2 decimal points corresponds to a regulation number assigned each county by that department.

The 1979 edition of the *Michigan Administrative Code*, published in 3 volumes, includes rules contained in the 1954 edition as amended, added to, or rescinded by rules appearing in 101 quarterly supplements to the 1954 edition, covering the filing periods for administrative rules beginning October 1, 1954, and ending November 30, 1979. No attempt has been made to indicate any implied effect which one rule may have upon another.

The origin and amendments of each rule are indicated in a history note following the text of the rule. The effective date of each rule promulgated after September 30, 1954, is also indicated in the history note, an editorial feature incorporated for the first time in the 1979 edition of the *Michigan Administrative Code*. Principal abbreviations used in history notes, as well as in editor's notes, are as follows:

AC	Administrative Code
ACS	Administrative Code Supplement
AACS	Annual Administrative Code Supplement
Eff.	Effective

Other editorial features include the appearance of uniform authority paragraphs at the beginning of each set of rules in the Code containing citations to acts authorizing the promulgation of those rules; boldface catchlines preceding each rule indicating major topics covered in the rule; editor's notes furnishing information considered helpful to the reader; and the conversion of internal references by rule number to the corresponding R number.

Editorial revisions mandated by §8.43 of the *Michigan Compiled Laws* include the addition of catchlines to rules that appeared without catchlines in the 1954 edition of the Code; changes in the form and style of rules to correspond to current drafting practices; modification of agency headings, when feasible, to reflect executive reorganization of agencies; and the correction of obvious grammatical, typographical, and clerical errors.

A table of contents for the 1979 edition of the *Michigan Administrative Code* appears at the beginning of each volume. This table is arranged

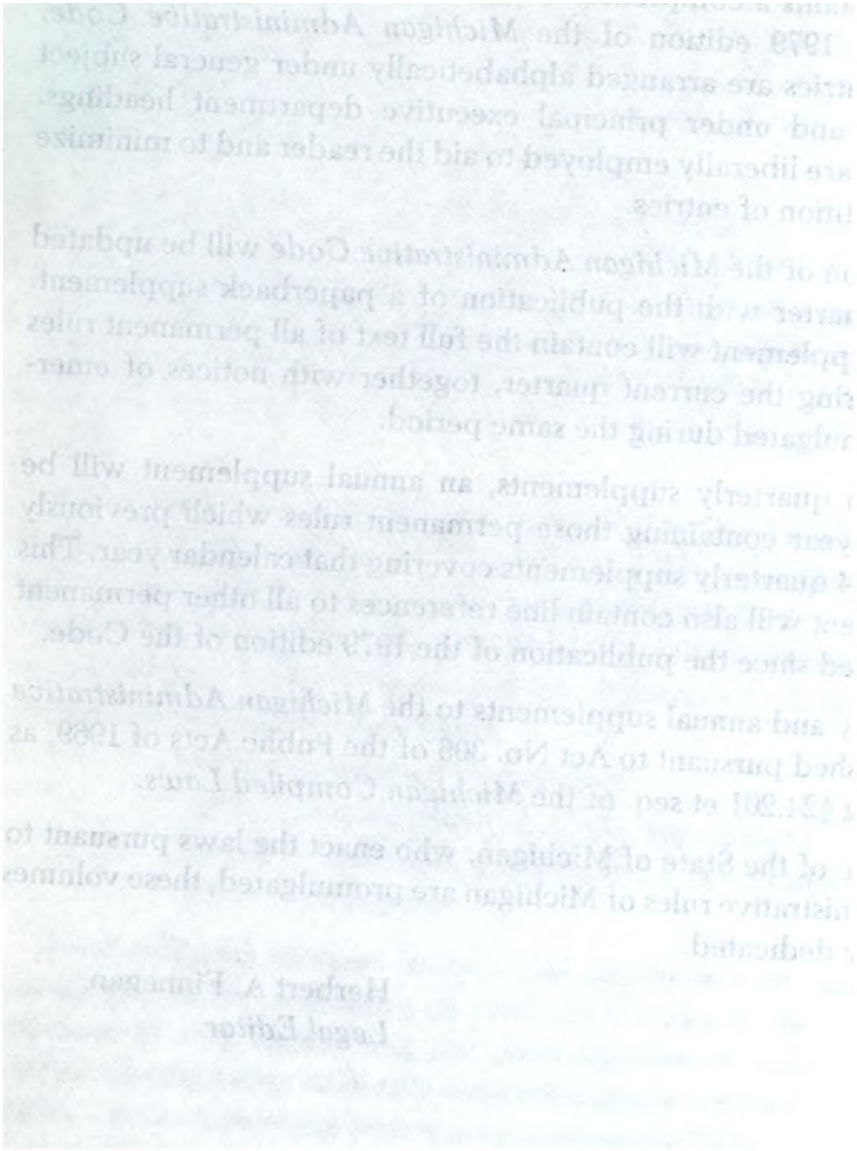
sequentially by R number, with principal executive departments highlighted in boldface capital letters.

Volume III contains a comprehensive index of all administrative rules appearing in the 1979 edition of the *Michigan Administrative Code*. Detailed index entries are arranged alphabetically under general subject matter headings and under principal executive department headings. Cross-references are liberally employed to aid the reader and to minimize unnecessary repetition of entries.

The 1979 edition of the *Michigan Administrative Code* will be updated each calendar quarter with the publication of a paperback supplement. This quarterly supplement will contain the full text of all permanent rules promulgated during the current quarter, together with notices of emergency rules promulgated during the same period.



In addition to quarterly supplements, an annual supplement will be published each year containing those permanent rules which previously appeared in the 4 quarterly supplements covering that calendar year. This annual supplement will also contain line references to all other permanent rules promulgated since the publication of the 1979 edition of the Code.

Both quarterly and annual supplements to the *Michigan Administrative Code* are published pursuant to Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the *Michigan Compiled Laws*.

To the People of the State of Michigan, who enact the laws pursuant to which the administrative rules of Michigan are promulgated, these volumes are respectfully dedicated.

Herbert A. Finnegan
Legal Editor

DEPARTMENT OF PUBLIC HEALTH

BUREAU OF DISEASE CONTROL AND LABORATORY SERVICES

CONTROL OF COMMUNICABLE DISEASES

(By authority of sections 9 and 427 of Act No. 380 of the Public Acts of 1965, as amended, Act No. 146 of the Public Acts of 1919, Act No. 45 of the Public Acts of 1931, Act No. 293 of the Public Acts of 1909, Act No. 272 of the Public Acts of 1919, Act No. 6 of the Public Acts of the Second Extra Session of 1942, section 2 of Act No. 314 of the Public Acts of 1927, and Act No. 207 of the Public Acts of 1937, being §§16.109, 16.527, 325.1 et seq., 325.71 et seq., 329.51 et seq., 329.151 et seq., 329.201 et seq., 329.402, and 551.151 et seq. of the Michigan Compiled Laws)

R 325.1 Introduction.

Rule 1. (1) The regulations of the Michigan department of health for the control of communicable diseases are the minimum requirements in Michigan. Only provisions included in these regulations are required by the Michigan department of health. Local boards of health may make such additional regulations as may be necessary, provided that they are not less stringent than the state requirements.

(2) Cases and suspects of reportable diseases shall be reported immediately to the local health officer. Court decision has interpreted the word "immediately" to mean "within the following 24 hours."

(3) Penalties for violation of state health department regulations are provided in section 12 of Act No. 146 of the Public Acts of 1919, being §325.12 of the Michigan Compiled Laws, as follows: "Any person violating any regulation, rule, or order of the state health commissioner, or of the state health commissioner and the state advisory council of health, shall be deemed to be guilty of a misdemeanor and on conviction thereof shall be subject to a fine of not more than $200.00 or to imprisonment in the county jail for not more than 6 months, or to both such fine and imprisonment in the discretion of the court."

History: 1944 AC, p. 239; 1944 ACS 2, p. 9; 1944 ACS 6, p. 29; 1954 AC, p. 2201.

R 325.2 Reportable diseases.

Rule 2. Reportable diseases are as follows:

Anthrax
Botulism
Cancer
Chickenpox
Cholera
Dengue
Diphtheria
Dysentery, amebic
Dysentery, bacillary
Encephalitis, infectious
  Primary
  Secondary
  Undetermined
Epidemic keratoconjunctivitis
Foodborne diseases and food poisonings
Neonatal infections
  (first 28 days of life)
  Ophthalmia neonatorum (Gonorrheal)
  Diarrhea of newborn
  Staphylococcal disease
Occupational diseases
Pertussis (whooping cough)
Plague
Poliomyelitis
Post partum infections
  Puerperal streptococcic infections
  Staphylococcus disease
Q fever
Rabies (Both human and animal)

Fungus infections, systemic
  Actinomycosis
  Blastomycosis
  Coccidioidomycosis
  Histoplasmosis
  Other (Including severe cutaneous forms with systemic manifestations)
Hepatitis, infectious
Hepatitis, serum
Infectious jaundice (Weil's disease, leptospirosis)
Leprosy
Malaria
Measles
Meningitis, all forms
  Aseptic
  Meningococcal
  Tuberculous
  Other bacterial and unspecified purulent forms
Mumps
Rheumatic fever, acute
Rocky Mountain spotted fever
Rubella (German measles)
Salmonella infections
  (except those due to S. typhi.)
Scarlet fever, and other hemolytic Streptococcal infections of the upper respiratory tract and erysipelas.
Smallpox
Tetanus
Trachoma
Trichinosis
Tuberculosis
Tularemia
Typhoid fever (due to S. typhi.)
Typhus
Undulant fever (Brucellosis)
Venereal diseases
  Chancroid
  Gonorrhea
  Granuloma inguinale
  Lymphogranuloma venereum
  Syphilis
Yellow fever

History: 1944 AC, p. 239; 1944 ACS 2, p. 9; 1944 ACS 6, p. 29; 1944 ACS 19, p. 11; 1944 ACS 30, p. 6; 1954 AC, p. 2201; 1954 ACS 14, p. 8, Eff. May 14, 1958; 1954 ACS 39, p. 7, Eff. Aug. 14, 1964.

R 325.3 Reporting animal bites.

Rule 3. Animal bites shall be reported in the same manner as provided for the reporting of the communicable diseases.

History: 1944 AC, p. 240; 1944 ACS 2, p. 9; 1944 ACS 6, p. 29; 1954 AC, p. 2202; 1954 ACS 39, p. 8, Eff. Aug. 14, 1964.

R 325.4 Reporting of communicable diseases.

Rule 4. (1) Cases and carriers, and suspects of communicable diseases shall be reported immediately to the local health officer, with the exception that in cities or counties not having full-time health officers, cases and suspects of venereal disease and tuberculosis shall be reported directly to the Michigan department of health.

(2) Communicable disease report information shall be recorded by the local health officer and forwarded on official forms to the Michigan department of health.

(3) A case of communicable disease, except venereal disease and tuberculosis which are reported on special blanks, may be said to be reported when the name of the person, address, age, color, and sex, together with the name of the disease existing or suspected is given to the designated authority.

(4) A case of venereal disease or of tuberculosis, for which special forms have been prepared by the Michigan department of health, may be said to be reported when such a report form completely filled out in writing is given to the designated authority.

(5) Occupational diseases shall be reported as provided by Act No. 210 of the Public Acts of 1937, being §419.1 et seq. of the Michigan Compiled Laws.

(6) Cases and suspects shall be reported by the following persons:

Physicians.

Dentists.

Directors of registered laboratories.

Veterinarians.

Parents and guardians.

Superintendents, principals and teachers of all schools.

Nurses, whether engaged in private duty, school, public health or industrial work.

Pharmacists.

Keepers of hotels, lodging houses, cabin camps, and trailer coach parks.

Superintendents of public or private hospitals, nursing homes, clinics, dispensaries, asylums or jails.

Owners or managers of any dairy farm or place where dairy products are handled or offered for sale.

Licensed embalmers, when the death certificate certifies that the primary or contributory cause of death was one of the reportable diseases.

(7) All cases of communicable disease having any animal reservoir or which are transmissible from animal to man, or man to animal, which come to the attention of the health officer shall be reported by that health officer to the state department of agriculture. It shall be the duty of the full-time local health officer to render such reports to the local representative of the state department of agriculture. It shall be the duty of the state health commissioner to notify the state commissioner of agriculture of all such cases coming to his attention, together with such information as he has concerning the case.

(8) It shall be the responsibility of each local health officer to investigate all foodborne diseases and poisonings, or suspected foodborne diseases and poisonings originating or reported in his jurisdiction and to report immediately to the Michigan department of health by telephone or telegram. If the investigation discloses that the source of the foodborne disease or poisoning is outside of the area of his jurisdiction, the investigating health officer shall also notify, by telephone or telegram, the local health officer having jurisdiction of the area. If the source of the foodborne disease or poisoning is located out of this state, it shall be the duty of the Michigan department of health to notify immediately the appropriate state official having jurisdiction.

(9) All reported cases and suspected cases of foodborne diseases and poisonings shall be interviewed by the health officer or his representative who shall be responsible for conducting appropriate epidemiological studies. He shall keep the Michigan department of health informed as to epidemiological findings.

(10) Health officers investigating foodborne diseases or poisonings shall obtain such samples as are necessary, and shall submit them in a manner approved by the state health commissioner to any of the Michigan department of health laboratories or to a laboratory registered for bacteriologic and enteric diagnosis by the Michigan department of health.

History: 1944 AC, p. 240; 1944 ACS 2, p. 10; 1944 ACS 6, p. 29; 1954 AC, p. 2202; 1954 ACS 14, p. 8, Eff. May 14, 1958.

R 325.5 Exclusion of communicable disease suspects from school.

Rule 5. Superintendents, principals, and teachers of any school and nurses in any way responsible for the health program of any school shall exclude from school any child suspected by them of having a communicable disease. The name and address of such child shall then be reported to the local health officer for

investigation. Readmission to school may then be permitted by a satisfactory arrangement with the local health officer.

History: 1944 AC, p. 240; 1944 ACS 2, p. 10; 1944 ACS 6, p. 30; 1954 AC, p. 2203.

R 325.6 "Child" and "children" defined.

Rule 6. Hereinafter when the word "child" or "children" is used, it shall mean all individuals under 15 years of age or under the tenth grade.

History: 1944 ACS 2, p. 10; 1944 ACS 6, p. 30; 1954 AC, p. 2203.

R 325.7 "Isolation" defined.

Rule 7. "Isolation" shall mean the separation of a person suffering from a communicable disease, a carrier of the infectious organism or a person suspected of having such a disease or of being a carrier, from other persons, in such places and under such conditions as will prevent the direct or indirect conveyance of the infectious agent to susceptible persons.

History: 1944 AC, p. 240; 1944 ACS 2, p. 10; 1944 ACS 6, p. 30; 1954 AC, p. 2203.

R 325.8 "Quarantine" defined.

Rule 8. "Quarantine" shall mean the prohibition of persons, animals, or things entering or leaving the premises quarantined except as provided for by the regulations of the Michigan department of health.

History: 1944 AC, p. 240; 1944 ACS 2, p. 10; 1944 ACS 6, p. 30; 1954 AC, p. 2203.

R 325.9 Quarantine and warning placards.

Rule 9. Quarantine and warning placards shall be provided by local health jurisdictions. They shall be approximately 5 by 7 inches in size, with the word "warning" or "quarantine" printed in large letters. They shall be placed conspicuously on or near entrances of the abode.

History: 1944 AC, p. 240; 1944 ACS 2, p. 10; 1944 ACS 6, p. 30; 1954 AC, p. 2203.

R 325.10 Quarantine placard.

Rule 10. A quarantine placard shall read essentially as follows:

QUARANTINE

No person, animal or thing shall enter or leave these premises, except as provided by the regulations of the Michigan department of health. Violation of this regulation is punishable by law. Quarantine is established because of _____

Removal of this placard without the authority of the health officer is a misdemeanor punishable by law. Penalty: $100 and costs of prosecution or imprisonment for not to exceed 90 days (Act 230, P.A. 1885, Sec. 6).

Health Officer.

History: 1944 AC, p. 241; 1944 ACS 2, p. 11; 1944 ACS 6, p. 31; 1954 AC, p. 2203.

R 325.11 Warning placard.

Rule 11. A warning placard shall read essentially as follows:

WARNING

The public is hereby warned that there is _____ in this household. No person who is susceptible to this disease should enter these premises.

Removal of this placard without the authority of the health officer is a misdemeanor punishable by law. Penalty: $100 and costs of prosecution or imprisonment for not to exceed 90 days (Act 230, P.A. 1885, Sec. 6).

_____

Health Officer.

History: 1944 AC, p. 241; 1944 ACS 2, p. 11; 1944 ACS 6, p. 31; 1954 AC, p. 2204.

R 325.12 Contact with patient.

Rule 12. "No contact with the patient" applies to both direct and indirect contact with the patient.

History: 1944 AC, p. 241; 1944 ACS 2, p. 11; 1944 ACS 6, p. 31; 1954 AC, p. 2204.

R 325.13 Health officers who are not physicians.

Rule 13. Health officers who are not physicians, and whose jurisdiction is not subject to that of a county or district health officer, shall ask for the advice or consultation of a physician in all matters where a decision is necessarily based on a knowledge of medical science. (The expense for such service is an obligation of the county, in accordance with §327.2 of the Michigan Compiled Laws.)

History: 1944 AC, p. 241; 1944 ACS 2, p. 11; 1944 ACS 6, p. 31; 1954 AC, p. 2204.

R 325.14 Communicable diseases on dairy farms or places where milk or dairy products are handled.

Rule 14. (1) Whenever a case or suspected case of diphtheria, scarlet fever or other streptococcal infection, poliomyelitis, tuberculosis, typhoid, paratyphoid A (S. paratyphi A), paratyphoid B (S. paratyphi B), other Salmonella infections, dysentery, or a carrier of a causative organism of any of these diseases is found at any place where dairy products are handled or offered for sale, the sale or removal of milk and all other dairy products from these premises shall be stopped at once.

(2) When the local full-time health officer finds that the circumstances are such that animals can be cared for, the milk handled and all utensils cleaned by persons who do not come in contact, either directly or indirectly, with the case or carrier, he may permit milk and other dairy products to be sold from the premises, provided they are shipped to a pasteurizing plant, a powdered milk plant, an evaporated milk plant or a condensary; and provided that all dairy products received by such plants are adequately processed.

(3) In localities not under the jurisdiction of a full-time local health officer, permission for sale of milk or other dairy products from such premises must be obtained from the state health commissioner.

(4) Whenever the sale of milk or other dairy products is permitted from the premises where there is a communicable disease, the health officer in charge shall notify the health officer where the products are being distributed before arrangements are completed.

History: 1944 AC, p. 241; 1944 ACS 2, p. 11; 1944 ACS 6, p. 31; 1954 AC, p. 2204.

R 325.15 Dangerous communicable diseases.

Rule 15. The following diseases have been designated as dangerous communicable diseases:

Cholera	Smallpox
Plague	Yellow fever

History: 1944 AC, p. 242; 1944 ACS 2, p. 12; 1944 ACS 3, p. 32; 1944 ACS 17, p. 6; 1944 ACS 19, p. 11; 1944 ACS 30, p. 6; 1954 AC, p. 2204; 1954 ACS 20, p. 13, Eff. Nov. 14, 1959; 1954 ACS 39, p. 8, Eff. Aug. 14, 1964; 1954 ACS 61, p. 23, Eff. Feb. 16, 1970; 1954 ACS 77, p. 45, Eff. Nov. 6, 1973.

R 325.16 Disinfection.

Rule 16. (1) Disinfection is the destroying of disease producing organisms. This shall be done by:

(a) Burning (papers, magazines, etc.).

(b) Washing with soap or some other detergent and hot water (dishes, milk bottles, bed linen, towels, beds, chairs, floors, woodwork, toys, etc.).

(c) Sunning and airing (mattresses, carpets, rugs, upholstered furniture, etc.).

(d) Chemical disinfection (limited to disinfection of urine and stools, in cases of typhoid and other intestinal diseases). Particular attention shall be given to bedpans and similar receptacles.

(2) Disinfection shall apply to all infectious discharges of the patient and to all articles that may have come in contact with such discharges, or with the communicable disease patient. Disinfection shall be carried on during the period of quarantine or isolation (concurrent disinfection) and at the termination of quarantine (terminal disinfection).

(3) Disinfection at the time of the release of the patient from quarantine shall consist of thorough cleaning, airing and sunning of the sickroom and its contents. Woodwork and furniture shall be scrubbed with hot water and soap. Any furniture that cannot be so washed shall be thoroughly dusted with a damp cloth and the cloth burned. All cooking and eating utensils, as well as sheets, pillow slips, curtains, etc., shall be washed with soap or some other detergent and hot water. Articles which cannot be washed such as mattresses, pillows, etc., shall be thoroughly brushed and sunned.

History: 1944 AC, p. 242; 1944 ACS 2, p. 12; 1944 ACS 6, p. 32; 1954 AC, p. 2205.

R 325.17 Patients dying from certain communicable diseases.

Rule 17. (1) The bodies of those who have died of diphtheria, meningococcic meningitis, plague, poliomyelitis, scarlet fever or smallpox shall not be transported nor accepted for transportation unless they have been prepared for shipment by being thoroughly embalmed and disinfected by arterial and cavity injection with an accepted embalming fluid. This preparation must be performed by an embalmer licensed with the state of Michigan.

(2) When bodies are transported under this rule, notice must be sent by the shipping embalmer to the health officer of the jurisdiction where the body is to be received, advising the date and time of arrival.

(3) Public funerals may be conducted provided that prior permission is obtained from the local health officer. When permission is granted, persons in quarantine areas may be released for the purpose of accompanying the body to a funeral home, church, or cemetery, provided that they:

(a) Use a separate car or means of conveyance.

(b) Remain in separate room or separate from the public and avoid proximity to others in attendance.

(c) Return to the area of isolation and remain there until premises are released from quarantine.

History: 1944 AC, p. 242; 1944 ACS 2, p. 12; 1944 ACS 6, p. 32; 1954 AC, p. 2205.

R 325.18 Chancroid.

Rule 18. See venereal diseases, R 325.46.

History: 1944 AC, p. 243; 1944 ACS 2, p. 13; 1944 ACS 6, p. 33; 1954 AC, p. 2206.

R 325.19 Chickenpox.

Rule 19. (1) Cases and suspects shall be reported. A warning placard may be used at the discretion of the health officer.

(2) Patients shall be isolated until the skin is clear of active lesions or in any case for not more than 10 days from the appearance of the first crop of vesicles.

(3) Suspects shall be isolated as long as there is reasonable suspicion of their having chickenpox. All persons over 12 years of age suspected of having chickenpox may be examined by the health officer to rule out smallpox.

(4) Exposed persons—no restrictions.

History: 1944 AC, p. 243; 1944 ACS 2, p. 13; 1944 ACS 6, p. 33; 1954 AC, p. 2206.

R 325.20 Diarrhea; epidemic.

Rule 20. Epidemic diarrhea in infants under 1 year shall be reported immediately. The circumstances surrounding the development of such disease shall be investigated by the local full-time health department or the Michigan department of health. The health department shall take such measures as are deemed necessary to control the infection.

History: 1944 ACS 19, p. 11; 1954 AC, p. 2206.

R 325.21 Diarrhea of newborn.

Rule 21. Diarrheas of the newborn (infants under 1 month of age) shall be immediately reported. The circumstances surrounding the development of such disease shall be investigated by the local full-time health department or the Michigan department of health. The health department shall take such measures as are deemed necessary to control the infection.

History: 1944 AC, p. 243; 1944 ACS 2, p. 13; 1944 ACS 6, p. 33; 1954 AC, p. 2206.

R 325.22 Diphtheria.

Rule 22. Cultures shall not be submitted for release until at least 7 days have elapsed since the last use of a chemotherapeutic or antibiotic agent.

History: 1944 AC, p. 243; 1944 ACS 2, p. 13; 1944 ACS 6, p. 33; 1954 AC, p. 2206; 1954 ACS 39, p. 8, Eff. Aug. 14, 1964.

R 325.23 Dysentery, amebic.

Rule 23. (1) The regulations governing typhoid fever shall apply except they may be modified in individual situations at the discretion of the director of an approved full-time local health department.

(2) Reference to bile specimens in relation to typhoid fever does not apply to amebic dysentery.

History: 1944 AC, p. 244; 1944 ACS 2, p. 14; 1944 ACS 6, p. 34; 1954 AC, p. 2207; 1954 ACS 39, p. 8, Eff. Aug. 14, 1964.

R 325.24 Dysentery, bacillary.

Rule 24. (1) The regulations governing typhoid fever shall apply except they may be modified in individual situations at the discretion of the director of an approved full-time local health department.

(2) Reference to bile specimens in relation to typhoid fever does not apply to bacillary dysentery.

History: 1944 AC, p. 244; 1944 ACS 2, p. 14; 1944 ACS 6, p. 34; 1954 AC, p. 2207; 1954 ACS 39, p. 8, Eff. Aug. 14, 1964.

R 325.24a Encephalitis, acute.

Rule 24a. (1) Infectious (Arthropod borne):

(a) Cases and suspects shall be reported.

(b) Isolation is not required. Patient should be protected from insects which could transmit the infection.

(c) Exposed persons—no restrictions.

(d) Concurrent disinfection not required. Terminal disinfection not required.

(2) Post-infectious:

(a) Cases and suspects shall be reported. No placard is required.

(b) Isolation is dependent on primary disease.

(c) Exposed persons—dependent on primary disease.

(d) Concurrent disinfection dependent on primary disease. Terminal disinfection dependent on primary disease.

History: 1954 ACS 39, p. 9, Eff. Aug. 14, 1964.

R 325.25 Epidemic keratoconjunctivitis.

Rule 25. (1) Cases shall be reported. A placard may be required at the discretion of the health officer.

(2) Patients shall be excluded from place of employment, school, and public gatherings until recovery.

(3) Suspects shall be excluded from place of employment, school, and public gatherings as long as there is reasonable suspicion of their having epidemic keratoconjunctivitis.

(4) Disinfection of the infectious discharges and of all articles that may have been in contact with such discharges or with the patient shall be carried on during the entire period of the disease.

History: 1944 AC, p. 245; 1944 ACS 2, p. 14; 1944 ACS 6, p. 34; 1954 AC, p. 2207.

R 325.26 Erysipelas.

Rule 26. (1) Cases and suspects shall be reported. No placard is required.

(2) Patients shall be isolated until recovery.

(3) Suspects shall be isolated as long as there is reasonable suspicion of their having erysipelas.

(4) Disinfection of all infectious discharges and of all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation.

History: 1944 AC, p. 245; 1944 ACS 2, p. 15; 1944 ACS 6, p. 34; 1954 AC, p. 2208.

R 325.27 Favus.

Rule 27. (1) Cases and suspects shall be reported. No placard is required.

(2) Patients shall be excluded from school and public gatherings until recovery.

History: 1944 AC, p. 245; 1944 ACS 2, p. 15; 1944 ACS 6, p. 34; 1954 AC, p. 2208.

R 325.28 Gonorrhea.

Rule 28. See venereal diseases, R 325.46.

History: 1944 AC, p. 245; 1944 ACS 2, p. 15; 1944 ACS 6, p. 35; 1954 AC, p. 2208.

R 325.28a Hepatitis, infectious.

Rule 28a. (1) Hepatitis, infectious:

(a) Cases and suspects shall be reported. No placard is required.

(b) Patients shall be placed on enteric isolation for the course of the disease; safe disposal of intestinal discharges, urine and vomitus is essential.

Specific measures must be taken to prevent transmission by equipment contaminated by blood.

(c) Exposed persons—no restrictions.

(d) Concurrent disinfection is required. Terminal disinfection is required.

(2) Hepatitis, serum:

(a) Cases and suspects shall be reported. No placard is required.

(b) Isolation is not required. Measures must be taken to prevent parenteral transmission, by instruments, needles, syringes, or other equipment contaminated with patient's blood.

(c) Exposed persons—no restrictions.

(d) Concurrent disinfection of equipment contaminated with blood. Terminal disinfection is not required.

History: 1954 ACS 39, p. 9, Eff. Aug. 14, 1964.

R 325.29 Impetigo.

Rule 29. (1) Cases and suspects shall be reported. No placard is required.

(2) Patients and persons suspected of having impetigo shall be excluded from school and contact with other children until recovery; except that these restrictions may be waived by the health officer if they are receiving medical treatment and are under observation of the health officer or his representative.

History: 1944 AC, p. 245; 1944 ACS 2, p. 15; 1944 ACS 6, p. 35; 1954 AC, p. 2208.

R 325.30 Influenza.

Rule 30. (1) Cases and suspects shall be reported. No placard is required.

(2) Patients shall be isolated until recovery.

(3) Disinfection of all infectious discharges and of all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation.

History: 1944 AC, p. 245; 1944 ACS 2, p. 15; 1944 ACS 6, p. 35; 1954 AC, p. 2208.

R 325.31 Measles.

Rule 31. (1) Cases and suspects shall be reported. A warning placard may be used at the discretion of the health officer.

(2) Patients shall be isolated until recovery, provided that the period of isolation shall not be terminated before 7 days from the onset of illness.

(3) Suspects shall be isolated as long as there is a reasonable suspicion of their having measles.

(4) No restrictions providing the case is adequately isolated.

(5) Disinfection of all infectious discharges and of all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation.

History: 1944 AC, p. 246; 1944 ACS 2, p. 16; 1944 ACS 6, p. 35; 1944 ACS 19, p. 11; 1954 AC, p. 2208.

R 325.32 Meningitis.

Rule 32. (1) Aseptic:

(a) Cases and suspects shall be reported. A warning placard may be used at the discretion of the health officer.

(b) Patients shall be isolated until recovery from the acute manifestations of the disease, but in no event shall isolation be terminated until 7 days from the onset of the disease.

(c) Suspects shall be isolated as long as there is reasonable suspicion of their having aseptic meningitis.

(d) Exposed persons—no restrictions providing the case is adequately isolated.

(e) Disinfection of all discharges, excreta, and all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation.

(2) Meningococcal:

(a) Cases and suspects shall be reported. A warning placard may be used at the discretion of the health officer.

(b) Patients shall be isolated until recovery.

(c) Suspects shall be isolated as long as there is reasonable suspicion of their having meningococcic infections.

(d) Exposed persons—no restrictions providing the case is adequately isolated.

(e) Disinfection of all infectious discharges and of all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation.

(f) The sickroom and its contents shall be thoroughly cleaned at the time of release from isolation.

(3) Tuberculosis (See R 325.50); other bacterial and unspecified purulent forms:

(a) Cases and suspects shall be reported. No placard is required.

(b) Isolation is not required.

(c) Exposed persons—no restrictions.

(d) Concurrent disinfection is not required. Terminal disinfection is not required.

History: 1944 AC, p. 246; 1944 ACS 2, p. 16; 1944 ACS 6, p. 35; 1944 ACS 19, p. 11; 1944 ACS 30, p. 7; 1954 AC, p. 2209; 1954 ACS 39, p. 9, Eff. Aug. 14, 1964.

R 325.33 Mumps.

Rule 33. (1) Cases and suspects shall be reported. No placard is required.

(2) Patients shall be isolated until recovery.

History: 1944 AC, p. 247; 1944 ACS 2, p. 16; 1944 ACS 6, p. 36; 1954 AC, p. 2209.

R 325.34 Neonatal infections (First 28 days of life).

Rule 34. (1) Ophthalmia neonatorum.

(2) Diarrhea of the newborn.

(3) Staphylococcal disease.

(4) Diarrhea of the newborn, staphylococcus disease of the newborn, and ophthalmia neonatorum occurring in the first 28 days of life shall be immediately isolated and reported to the local full-time health department and the Michigan department of health.

History: 1944 AC, p. 247; 1944 ACS 2, p. 17; 1944 ACS 6, p. 36; 1944 ACS 19, p. 11; 1944 ACS 36, p. 16; 1954 AC, p. 2209; 1954 ACS 39, p. 10, Eff. Aug. 14, 1964.

R 325.35 Paratyphoid A and B.

Rule 35. The regulations governing typhoid shall apply.

History: 1944 AC, p. 247; 1944 ACS 2, p. 17; 1944 ACS 6, p. 36; 1954 AC, p. 2210.

R 325.36 Pediculosis (Infestation with lice).

Rule 36. (1) Cases and suspects shall be reported. No placard is required.

(2) Patients shall be excluded from school and public gatherings until free from infestation.

(3) The health officer may order the disinfection of the home and clothing and isolate the children for the purpose of cleansing, and order parents to rid the family of infestation. Refusal to comply with such order or resisting the health officer constitutes the basis for prosecution of parents under §325.7 of the Michigan Compiled Laws.

History: 1944 AC, p. 247; 1944 ACS 2, p. 17; 1944 ACS 6, p. 36; 1954 AC, p. 2210.

R 325.37 Pertussis (Whooping cough).

Rule 37. (1) Cases and suspects shall be reported. A warning placard may be used at the discretion of the health officer.

(2) Patients shall be isolated for 3 weeks after development of the characteristic cough.

(3) Suspects shall be isolated as long as there is reasonable suspicion of their having pertussis.

(4) Children living in the house with the patient who have had pertussis or who have been vaccinated against pertussis as proved by evidence satisfactory to the local health authority may come and go as usual. Non-immune children shall be excluded from school and from contact with other children for the same length of time as the patient.

(5) Disinfection of all infectious discharges and of all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation.

History: 1944 AC, p. 247; 1944 ACS 2, p. 17; 1944 ACS 6, p. 37; 1954 AC, p. 2210.

R 325.38 Pink eye.

Rule 38. (1) Cases and suspects shall be reported. No placard is required.

(2) Patients shall be excluded from school and public gatherings until recovery.

History: 1944 AC, p. 248; 1944 ACS 2, p. 18; 1944 ACS 6, p. 37; 1954 AC, p. 2210.

R 325.39 Poliomyelitis (Infantile paralysis).

Rule 39. (1) Cases and suspects shall be reported. A warning placard may be used at the discretion of the health officer.

(2) Patients shall be isolated until recovery from the acute manifestations of the disease, but in no event shall isolation be terminated until 7 days from the onset of the disease.

(3) Suspects shall be isolated as long as there is reasonable suspicion of their having poliomyelitis.

(4) Exposed persons—no restrictions providing the case is adequately isolated.

(5) Disinfection of all discharges, excreta, and all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation.

History: 1944 AC, p. 248; 1944 ACS 2, p. 18; 1944 ACS 6, p. 37; 1944 ACS 19, p. 12; 1944 ACS 20, p. 8; 1954 AC, p. 2211.

R 325.40 Rabies.

Rule 40. (1) Cases of rabies in humans and animals shall be reported. Dog bites shall be reported. No placard is required. All laboratories in Michigan making examinations of dogs or other animals for rabies shall report the following data to the state commissioner of health on the first day of the month following the examination: Kind of dog, name and address of owner of dog, name and address of person submitting specimen, and date and results of examination.

(2) Whenever the body of a person having died of rabies, or a disease suspected of being rabies, is autopsied, or whenever a body is autopsied following

death which may be attributed to administration of prophylactic rabies vaccine, the person making the autopsy shall be responsible for immediately transferring a portion of the hippocampus major and spinal cord to the Michigan department of health laboratories in Lansing for pathological examination and animal inoculation. A history of the case shall accompany the specimen.

(3) Any dog or other animal that has bitten a person shall be held in confinement for a period of at least 10 days from the date the person was bitten. If the animal dies during the period of confinement, the head shall be sent to a laboratory for examination for evidence of rabies.

History: 1944 AC, p. 248; 1944 ACS 2, p. 18; 1944 ACS 6, p. 37; 1954 AC, p. 2211.

R 325.41 Ringworm.

Rule 41. (1) Cases and suspects in elementary schools shall be reported. No placard is required.

(2) Patients shall be excluded from school and public gatherings except that these restrictions may be waived by the health officer if they are receiving medical treatment and are under observation of the health officer or his representative.

History: 1944 AC, p. 249; 1944 ACS 2, p. 19; 1944 ACS 6, p. 38; 1954 AC, p. 2211.

R 325.42 Rubella (German measles).

Rule 42. (1) Cases and suspects shall be reported. No placard is required.

(2) Patients shall be excluded from school until clinical recovery but for not less than 4 days from the onset of catarrhal symptoms. No isolation of the patient in the home shall be required except when household contacts include susceptible women in early pregnancy.

History: 1944 AC, p. 249; 1944 ACS 2, p. 19; 1944 ACS 6, p. 38; 1954 AC, p. 2212; 1954 ACS 8, p. 21, Eff. Nov. 14, 1956.

R 325.43 Salmonella, other.

Rule 43. The regulations governing typhoid fever shall apply except they may be modified in individual situations at the discretion of the director of an approved full-time local health department.

History: 1944 AC, p. 249; 1944 ACS 2, p. 19; 1944 ACS 6, p. 38; 1954 AC, p. 2212; 1954 ACS 39, p. 10, Eff. Aug. 14, 1964.

R 325.44 Scabies.

Rule 44. (1) Cases and suspects shall be reported. No placard is required.

(2) Patients shall be excluded from school and public gatherings until recovery.

History: 1944 AC, p. 249; 1944 ACS 2, p. 19; 1944 ACS 6, p. 38; 1954 AC, p. 2212.

R 325.45 Scarlet fever and other streptococcal infections of the upper respiratory tract.

Rule 45. (1) Cases and suspects shall be reported. A warning placard may be used at the discretion of the health officer.

(2) Patients shall be isolated until recovery, but in no event shall isolation be terminated until 14 days from the onset of the disease.

(3) Exposed persons—no restrictions.

(4) Disinfection of all infectious discharges and of all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation. The sickroom and its contents shall be thoroughly cleaned at the time of release from quarantine.

History: 1944 AC, p. 249; 1944 ACS 2, p. 19; 1944 ACS 6, p. 38; 1954 AC, p. 2212.

R 325.46 Smallpox.

Rule 46. (1) Cases and suspects shall be reported. A quarantine placard shall be used.

(2) Patients shall be isolated until the skin lesions have become clear of all crusts, scabs, or scales.

(3) Suspects shall be isolated as long as there is reasonable suspicion of their having smallpox.

(4) Exposed persons shall be vaccinated immediately upon discovery. Those having an immune reaction may be released at once. Those vaccinated within 5 days after first exposure may be provisionally released by the health officer to live elsewhere in isolation pending a successful vaccination at which time they may obtain final release. Those persons who refuse vaccination shall be placed in quarantine for a period of 17 days from the date of last exposure. It shall be the duty of the health officer to investigate all contacts at intervals within the incubation period for the purpose of determining secondary cases of smallpox. When a smallpox patient has attended any school, all children, teachers, and other personnel in the school shall be considered as having been exposed to the disease.

(5) Disinfection of all infectious discharges and of all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation. The sickroom and its contents shall be thoroughly cleaned at the time of release from quarantine.

History: 1944 AC, p. 250; 1944 ACS 2, p. 20; 1944 ACS 6, p. 39; 1954 AC, p. 2212.

R 325.47 Streptococcal infections of the upper respiratory tract, including scarlet fever, scarlatina, and septic sore throat.

Rule 47. (1) Cases and suspects shall be reported. A warning placard may be used at the discretion of the health officer.

(2) Patients shall be isolated until recovery, but isolation shall not be terminated until 7 days from the onset of the illness, except those cases adequately treated by a physician with an effective antibiotic, which cases may be released upon clinical recovery.

(3) Exposed persons—no restrictions providing the case is adequately isolated. See R 325.14.

(4) Disinfection of all infectious discharges and of all articles that may have come in contact with such discharges or with the patient shall be carried on during the entire period of isolation.

History: 1944 AC, p. 250; 1944 ACS 2, p. 20; 1944 ACS 6, p. 39; 1944 ACS 19, p. 12; 1954 AC, p. 2213; 1954 ACS 39, p. 10, Eff. Aug. 14, 1964.

R 325.48 Syphilis.

Rule 48. See venereal diseases, R 325.53 et seq.

tent authority, or on a report from a registered laboratory on tissue, sputum or other body fluid, secretion, or excretion found to contain tubercle bacilli.

(2) Cases and suspected cases of all forms of tuberculosis shall be reported on special forms provided by the Michigan department of public health. The information called for on these forms shall be entered in the records of the local health officer and the report shall be forwarded by the health officer to the Michigan department of public health. The premises of any tuberculous patient or of any person suspected of having tuberculosis may be placarded at the discretion of the health officer if such person refuses to comply with the rules of the Michigan department of public health.

(3) No person having active tuberculosis, whether a pupil, teacher, or employee, shall be permitted to attend school as long as the person is considered in a communicable stage of the disease. No person having active tuberculosis shall engage in any occupation that is in any way connected with milk, dairy products or other food for public consumption. No person having active tuberculosis shall engage in any occupation whereby he might expose associates to the danger of infection.

(4) Persons known to have tuberculosis and persons suspected of having tuberculosis shall submit for examination such specimens as may be required by the director of public health. Specimens shall be examined in a laboratory registered for bacteriology by the Michigan department of public health.

History: 1944 AC, p. 251; 1944 ACS 2, p. 21; 1944 ACS 6, p. 40; 1954 AC, p. 2214; 1954 ACS 10, p. 11, Eff. June 14, 1957; 1954 ACS 51, p. 17, Eff. Aug. 15, 1967.

R 325.51 Typhoid.

Rule 51. (1) As used in this rule:

(a) An "incubatory typhoid carrier" is one who excretes typhoid organisms previous to onset of typhoid.

(b) A "contact typhoid carrier" is one who excretes typhoid organisms without having clinically recognizable typhoid and whose history indicates that exposure occurred less than 1 year previous to date of discovery.

(c) A "convalescent typhoid carrier" is one who excretes typhoid organisms during the period from date of becoming afebrile to 1 year from date of onset.

(d) A "chronic typhoid carrier" is one who continues to excrete typhoid organisms for more than 1 year after onset of typhoid or for more than 1 year after a non-clinical infection.

(e) A "professional food handler" is one who, wholly or in part, makes his or her living by preparing, dispensing, or serving food, dairy products, or water.

(2) Cases, suspects, and carriers shall be reported. Changes of address of carriers shall be reported. The premises of any typhoid patient or carrier, or of any person suspected of having typhoid or of being a typhoid carrier, shall be placarded if such person refuses to comply with the regulations of the Michigan department of health. In addition to those persons reported as typhoid suspects, the Michigan department of health may, in the absence of more definite information, consider as a case or carrier suspect any person from whom a positive agglutination test, blood, feces, urine, bile, saliva, pus, or transudate has been obtained.

(3) Patients shall be conditionally released when 3 consecutive fecal specimens submitted not less than a week apart have been found negative providing that the first specimen not be obtained until the patient has been afebrile for a minimum of 1 week. Final release from health department supervision shall not be given until 1 fecal specimen, submitted 6 weeks after recovery, and 1 fecal specimen, *submitted 3 months after* recovery, have been found negative. Laboratory reports

that indicate "no growth" or that indicate "abnormal flora found" shall not be counted as negative specimens and a new specimen must be submitted a week later. Specimens shall be examined in a laboratory registered for enteric diagnosis by the Michigan department of health.

(4) Suspects shall submit such specimens for examination as may be required by the Michigan department of health.

(5) A typhoid carrier shall not make a change of residence unless the Michigan department of health and the local full-time health officer have been notified of such change at least 5 days previously. No visit shall be made to another state unless the Michigan department of health has been notified as to itinerary and destination.

(6) Typhoid carriers and carrier suspects shall submit for examination such specimens as are required by the state health commissioner.

(7) Typhoid carriers shall not engage in an occupation encompassed by the definition of "professional food handler." No typhoid carrier shall reside on premises where milk or other dairy products are being handled for public consumption. This restriction may be waived provided the circumstances are satisfactory to the state health commissioner. The condensary, evaporating plant or powdered milk producer will be notified of the recommendation made by the state health commissioner.

(8) A chronic typhoid carrier shall be unconditionally released if 12 consecutive fecal specimens submitted at approximately weekly intervals and 2 consecutive satisfactory bile specimens are negative; or, if 6 consecutive fecal specimens collected with an identifying dye and in a manner satisfactory to the state health commissioner, and submitted at intervals of approximately 60 days, are negative. Laboratory reports that indicate "no growth" or that indicate "abnormal flora found" shall not be counted as negative specimens and a new specimen must be submitted a week later. Specimens shall be examined in a laboratory registered for enteric diagnosis by the Michigan department of health. Upon fulfillment of requirements, the former carrier shall receive a statement of his unconditional release from the state health commissioner.

(9) Exposed persons living in the house with the patient shall not engage in any occupation that is in any way connected with public water supplies or with milk, other dairy products or other food for public consumption unless arrangements are made which are satisfactory to the Michigan department of health. Exposed persons shall submit 3 fecal specimens at approximately weekly intervals.

(10) Disinfection of all excreta of patients, persons suspected of having typhoid, typhoid carriers, and of all articles that may have come in contact with such excreta or persons shall be carried out in a manner satisfactory to the Michigan department of health.

History: 1944 AC, p. 251; 1944 ACS 2, p. 21; 1944 ACS 6, p. 44; 1944 ACS 28, p. 11; 1954 AC, p. 2214.

R 325.52 Undulant fever.

Rule 52. Cases and suspects shall be reported. No placard is required.

History: 1944 AC, p. 253; 1944 ACS 2, p. 23; 1944 ACS 6, p. 45; 1954 AC, p. 2215.

R 325.53 Venereal diseases; general procedures.

Rule 53. (1) Reports of venereal disease cases and suspected cases shall be made to the full-time local health officer. Where there is no full-time local health officer, reports shall be made directly to the state health commissioner.

(2) The reports of positive tests submitted in compliance with these rules are confidential and not public records, except in such actions as may be necessary to enforce the venereal disease laws and the rules adopted thereunder.

(3) The local health officer or the state health commissioner or their authorized representative shall cooperate with the patient's physician in the follow-up of reports of positive laboratory tests.

(4) Placarding may be used in those situations where it provides a useful adjunct to the proper enforcement of isolation and quarantine.

(5) A physician who reports or accepts a case for treatment of any one of the venereal diseases shall endeavor to identify and bring under medical observation, in cooperation with the official health agency, the probable source of the patient's infection as well as other persons who may have been exposed to the infection.

(6) If a patient discontinues treatment without furnishing a good and sufficient reason, the attending physician shall report the fact to the proper health authority within 72 hours of the missed appointment.

(7) A person in whom the presence of venereal disease is suggested as the result of laboratory tests, clinical or epidemiologic evidence is subject to the rules pertaining to the reporting, diagnosis, isolation, and quarantine of venereal disease cases.

(8) A food handler, nurse, nurse maid, domestic or other person engaged in an occupation, the duties of which are apt to bring him into close physical contact with others and who is found to be suffering from venereal disease in a stage marked by the presence of open lesions or other external manifestations considered to be infectious in nature, shall be ordered by the health officer or examining physician to discontinue such occupation until sufficient treatment has been given to render him noninfectious.

The local health officer or a physician designated by him shall make the determination of communicability.

In a case of early syphilis, the infected person shall be given a minimum of 2,400,000 units of penicillin, preferably receiving a total dosage of 6,000,000 units of penicillin after which employment may be resumed on condition that the infected person continues to receive treatment until determined by the physician to be either cured or rendered permanently noninfectious.

In a case of gonorrhea, employment may be resumed after the attainment of clinical and bacteriologic cure as judged by complete absence of signs and symptoms, including negative laboratory findings.

(9) A person arrested for prostitution shall be examined by a licensed physician, and if upon examination is found to be suffering with venereal disease, shall upon the recommendation of the local health officer be placed in quarantine and isolated in an approved hospital or institution deemed by the local health officer as suitable for the purpose.

(10) A recalcitrant person required to submit to medical treatment in an institution under a commitment order issued by a probate court judge may be placed in an institution deemed by the full-time local health officer as suitable for the purpose. In areas not served by a full-time health officer such institutions may be designated by the state health commissioner.

(11) A person committed under a probate court order shall be held until he has been rendered noninfectious in the opinion of the local health officer or the state health commissioner.

(12) If suitable isolation and treatment facilities are not available locally, or if it is not advisable to commit a person to a local institution, he may be committed to an institution approved by the state health commissioner for the isolation and treatment of cases from the state at large.

(13) A minor may be examined or treated for a venereal disease in a health department clinic without the consent of the parent or guardian.

In a health jurisdiction which does not have a clinic, the health officer may designate a licensed practicing physician to perform the necessary examinations and treatment indicated. Such designation shall be in writing and shall specify the minor to be examined or treated, the conditions for which the physician shall examine or treat, and the name and address of the designated physician. The results of the examination or treatment shall be reported in writing by the designated physician to the health officer.

(14) In a person who is allergic to penicillin the treatment schedules may be modified in the following manner. In a patient receiving treatment with alternate broad spectrum antibiotics, very careful follow-up (including lumbar puncture) is essential.

(a) Primary and Secondary Syphilis:

Propionyl erythromycin ester lauryl sulfate.

500 mg. 4 times a day for 10 days (total 20 grams).

Only preparation available (1964) is Ilosone.

Tetracyclines. 750-1000 mg. 4 times a day for 10 days (total 30-40 grams).

Doses of tetracyclines in this range are accompanied by high incidence of gastrointestinal disturbances along with bacterial and fungal overgrowth; however, at this time there is no documentation that doses of less than the recommended are effective.

(b) Late and Latent Syphilis:

Erythromycin base or erythromycin stearate.

500 mg. 4 times a day for 15 days (total 30 grams).

Propionyl erythromycin ester lauryl sulfate is not recommended in schedules requiring greater than 10 days' treatment. Erythromycin base or erythromycin stearate should be used.

Tetracyclines. 750-1000 mg. 4 times a day for 15 days (total 45-60 grams). Doses of tetracyclines in this range are accompanied by high incidence of gastrointestinal disturbances along with bacterial and fungal overgrowth; however, at this time there is no documentation that doses less than the recommended are effective.

History: 1944 AC, p. 253; 1944 ACS 2, p. 23; 1944 ACS 6, p. 45; 1944 ACS 39, p. 7; 1954 AC, p. 2216; 1954 ACS 21, p. 6, Eff. Feb. 13, 1960; 1954 ACS 30, p. 11, Eff. May 15, 1962; 1954 ACS 41, p. 9, Eff. Feb. 14, 1965.

R 325.53a Venereal diseases; laboratories.

Rule 53a. (1) A laboratory in Michigan performing tests under the provisions of Act No. 207 of the Public Acts of 1937, being §§551.151 to 551.154 of the Michigan Compiled Laws, or Act No. 272 of the Public Acts of 1919, being §§329.151 to 329.158 of the Michigan Compiled Laws, shall be registered by the commissioner as provided by Act No. 45 of the Public Acts of 1931, being §§325.71 to 325.75 of the Michigan Compiled Laws. It shall perform such check tests and shall submit such check specimens as shall be required by the state health commissioner to insure the accuracy of the testing procedure.

(2) Supervisors of registered laboratories shall submit to the directors of full-time local health departments, or, if none, to the state health commissioner, reports of all tests for venereal diseases as follows:

(a) All reactive (positive) and weakly reactive (doubtful) serologic tests for syphilis.

(b) All reactive (positive) and weakly reactive (doubtful) spinal fluid serologic tests for syphilis.

(c) All positive darkfield microscopic tests for treponema pallidum.

(d) All positive gonococcal smears or cultures.

(e) All positive tests indicating the presence of the Ducrey bacillus or Donovan bodies.

(3) These reports shall include:

(a) The name of the laboratory.

(b) The name of the test; the date performed, and the result.

(c) The name and location of the physician who submitted the specimen.

(d) The name of the patient, and (if available) his sex, age, and address.

(e) The signature of the supervisor of the laboratory.

(4) Reports shall be submitted periodically, but at least twice a month except that positive darkfields shall be reported within 24 hours.

(5) If no reportable tests are performed during any month, the supervisor of the laboratory shall submit a statement to this effect before the fifth usual working day of the month next following.

(6) A laboratory performing tests under the premarital physical examination or prenatal blood test laws shall have the written request of a licensed physician to perform these tests. The results of tests performed under these laws shall be submitted only to the physician requesting the tests except as otherwise provided in these rules.

History: 1954 ACS 41, p. 11, Eff. Feb. 14, 1965.

R 325.53b Venereal diseases; certification for marriage.

Rule 53b. (1) If a patient is found to be infected with gonorrhea or with chancroid, certification for marriage shall not be issued until the absence of gonorrheal infection or chancroid is demonstrated to the satisfaction of the physician.

(2) In addition to the required serologic test for syphilis, the examination required under the premarital physical examination law shall consist of not less than the following:

(a) Syphilis: Physical examination for the presence or absence of skin or mucous membrane lesions.

(b) Gonorrhea:

(i) The examination of the genital tracts of both the male and female for clinical evidence of gonorrhea.

(ii) If clinical evidence is present, a specimen shall be submitted to an approved laboratory as defined in R 325.53a.

(c) Chancroid: Examination of the genitalia and anus for the possible presence of chancroidal lesions. If such lesions are suspected, smears shall be taken and submitted to an approved laboratory, as defined in R 325.53a, to determine the presence or absence of the Ducrey bacillus.

(3) Eligibility for a special medical dispensation certificate for marriage license under the premarital physical examination law is as follows:

(a) Early syphilis: A patient with early syphilis (less than 4 years' duration) shall have had adequate intensive penicillin therapy, except as provided by R 325.53(14). This shall include not less than 6,000,000 units of aqueous procaine penicillin total dosage, or 4,800,000 units of benzathine penicillin G, or 4,800,000 units of procaine penicillin in oil with aluminum monostearate. Recommended treatment schedules are obtainable from the Michigan department of health.

(b) Late latent syphilis: Required treatment same as for early syphilis.

(c) Syphilis in pregnancy: Required treatment same as for early syphilis, unless labor is imminent, then 2,400,000 units of penicillin immediately and follow-up as for early syphilis.

(d) Congenital syphilis: Same as for acquired syphilis. Late congenital syphilis should be treated the same as latent or late syphilis.

(4) An application for special medical dispensation for marriage on the basis of an alleged false positive serologic reaction shall be accompanied by a statement indicating:

(a) The results of 1 of the treponemal antigen tests such as the Reiter protein complement fixation (RPCF), treponemal pallidum complement fixation (TPCF), or treponemal pallidum immobilization (TPI).

(b) No history of syphilis or treatment of same can be secured.

(c) No clinical evidence of syphilis is present.

(d) That the presence of congenital syphilis is satisfactorily eliminated (preferably including an examination of the mother or siblings).

(5) County clerks and directors of full-time local health departments shall distribute state medical certificates for marriage license (form V-90) required under the provisions of the premarital physical examination law only to licensed physicians.

History: 1954 ACS 41, p. 11, Eff. Feb. 14, 1965.

R 325.54 Dangerous communicable diseases.

Rule 54. (1) Provision of medical care for indigent cases of communicable diseases. The cost of medical care for indigent cases of dangerous communicable diseases is paid by the county (§327.15 of the Michigan Compiled Laws). When necessary, the bills may be paid by the township, city, or village and reimbursement made by the county.

(2) Wilful exposure of another person to a dangerous communicable disease is a misdemeanor under Act No. 328 of the Public Acts of 1931, being §750.1 of the Michigan Compiled Laws.

(3) Instruction in public schools regarding dangerous communicable diseases is mandatory under Act No. 319 of the Public Acts of 1927, being §342.1 et seq. of the Michigan Compiled Laws.

History: 1944 AC, p. 256; 1944 ACS 2, p. 26; 1944 ACS 6, p. 48; 1954 AC, p. 2219.

R 325.55 Local health organization.

Rule 55. (1) The law recognizes 4 types of local health organization: Township, municipal, county, district. The township board of health is composed of the township supervisor, the 2 justices of peace whose terms of office will soonest expire, and the township clerk.

(2) Unless special boards of health are established, municipal and village boards of health are comprised of the mayor and council of incorporated cities and the president and council or trustees of incorporated villages.

(3) Each of the local boards of health is required to appoint a health officer who shall be a "well educated physician" unless "it is not practicable," in which case the board may appoint a supervisor or some other person as health officer.

(4) County boards of supervisors may employ public health nurses and appropriate money for necessary expenses incurred.

(5) Township, village, and city boards of health are granted broad general powers through the enactment of local ordinances and through specific powers granted by state law.

History: 1944 AC, p. 257; 1944 ACS 2, p. 27; 1944 ACS 6, p. 49; 1954 AC, p. 2219.

R 325.56 County and district health departments.

Rule 56. The board of supervisors of any county may establish a county department of health, to be maintained out of the general funds of the county. Two or more counties may unite to form a health district.

History: 1944 AC, p. 257; 1944 ACS 2, p. 27; 1944 ACS 6, p. 49; 1954 AC, p. 2219.

R 325.57 Duties of local health officer.

Rule 57. The duties of the local health officer include:

(a) Investigation of all cases or suspected cases of communicable disease coming to his attention from any source, establishment of quarantine or isolation, supervision of funeral arrangements for communicable disease cases, furnishing notice to public and school authorities of the existence of a case of communicable disease, supervision of concurrent and terminal disinfection, providing care for quarantined cases.

(b) Reporting cases of communicable disease to Michigan department of health.

(c) Investigation of nuisances, sources of sickness, public water supplies, and water supplies of boarding houses, schools, restaurants, and other public places.

(d) Investigation of sanitary conditions of public places, restaurants, and places of amusement or entertainment.

(e) Immunization and vaccination of exposed persons.

(f) Inspection of sewage and garbage disposal plants.

(g) Inspection of food.

(h) Examination of food handlers.

(i) Control of milk supplies.

(j) Control of rabies.

(k) Regulation of vaults, sewers, and gutters.

(l) Regulation of offensive trades and nuisances.

(m) Issuance of certain death certificates.

History: 1944 AC, p. 258; 1944 ACS 2, p. 27; 1944 ACS 6, p. 49; 1954 AC, p. 2220.

R 325.58 Shipment of specimens.

Rule 58. Special postal regulations apply where the mail is used to ship specimens to the laboratory. If specimens cannot be transported by mail, shipment by express can be made provided that specimens are properly packed.

R 325.59 Carriers of disease declared to be menace.

Rule 59. All persons found to be carriers of the disease germs of diphtheria, typhoid fever, anterior poliomyelitis, or any other dangerous communicable disease which may be spread by human carriers are declared by the state health commissioner a menace to the public health and subject to isolation or quarantine at the hands of all local boards of health and health officers in this state.

History: 1944 AC, p. 262; 1954 AC, p. 2223.

R 325.60 Silver nitrate solution.

Rule 60. (1) A 1% solution of silver nitrate as a prophylaxis against ophthalmia neonatorum is approved.

(2) Legislative action incorporated in section 472 of Act No. 328 of the Public Acts of 1931, being §750.472 of the Michigan Compiled Laws.

History: 1944 AC, p. 262; 1954 AC, p. 2223.

R 325.61 Roller towels.

Rule 61. The use of roller towels in public places is prohibited. Used in resort sanitation standards as set up by bureau of engineering of Michigan department of health, May, 1940.

History: 1944 AC, p. 262; 1954 AC, p. 2224.

R 325.70 "Typhoid carrier" defined.

Rule 70. As used in these rules:

(a) An "incubatory typhoid carrier" is one who excretes typhoid organisms previous to onset of typhoid.

(b) A "contact typhoid carrier" is one who excretes typhoid organisms without having clinically recognizable typhoid and whose history indicates that exposure occurred less than 1 year previous to date of discovery.

(c) A "convalescent typhoid carrier" is one who excretes typhoid organisms during the period from date of becoming afebrile to 1 year from date of onset.

(d) A "chronic typhoid carrier" is one who continues to excrete typhoid organisms for more than 1 year after onset of typhoid or for more than 1 year after a non-clinical infection.

History: 1944 AC, p. 262; 1954 AC, p. 2224.

R 325.71 Regulations.

Rule 71. (1) A typhoid carrier shall not make a change of residence unless the Michigan department of health and the local full-time health officer have been notified of such change at least 5 days previously. No visit shall be made to another state unless the Michigan department of health has been notified as to itinerary and destination.

(2) Typhoid carriers and carrier suspects shall submit for examination such specimens as are required by the Michigan commissioner of health.

(3) The Michigan commissioner of health may take such steps as may be necessary to assure himself of the authenticity of specimens.

(4) A chronic typhoid carrier shall be unconditionally released if 12 consecutive fecal specimens submitted at approximately weekly intervals and 2 consecutive satisfactory bile specimens are negative; or, if 12 consecutive fecal specimens collected with an identifying dye and in a manner satisfactory to the state health commissioner, and submitted at approximately monthly intervals are negative. Upon fulfillment of requirements, the former carrier shall receive a statement of his unconditional release from the state health commissioner.

(5) Occupational restrictions:

(a) No typhoid carrier shall work in any capacity in a restaurant or other establishment in which food is sold.

(b) No typhoid carrier shall handle food, dishes, or kitchen utensils in his or her own home except for those who have been immunized within the past year and are immunized every year.

(c) No typhoid carrier shall reside on premises where milk or other dairy products are being handled for public consumption. This restriction may be waived provided the circumstances are satisfactory to the state health commissioner.

(6) The excreta of a typhoid carrier shall be disposed of in a manner satisfactory to the Michigan department of health.

(7) No typhoid carrier shall send personal clothing or bed linen to a public laundry unless such is first disinfected in a manner satisfactory to the Michigan department of health.

(8) The premises of any typhoid patient or carrier, or of any person suspected of having typhoid or of being a typhoid carrier, shall be placarded if such person refuses to comply with the regulations of the Michigan department of health.

History: 1944 AC, p. 263; 1954 AC, p. 2224.

R 325.72 Declaration of carrier.

Rule 72. Having been proven and designated a typhoid carrier by competent and registered laboratory tests, I, _____, city of _____, township of _____, county of _____, state of Michigan, for the purpose of cooperating with health authorities in the protection of public health, do hereby agree to strictly observe and abide by the above regulations so long as I remain a typhoid carrier as above defined.

Dated, this _____ day of _____, A.D. 19____.

_____

(Signature of carrier)

History: 1944 AC, p. 263; 1954 AC, p. 2225.

R 325.80 "Hatters' fur," "carroting," and "mercurial carrot," defined.

Rule 80. For the purpose of carrying out the provisions of these rules, the following terms are defined:

(a) "Hatters' fur" is any animal fibre or other substance used in the manufacture of hats, which is treated or otherwise prepared by the process of, or in a manner similar to, that of carroting.

(b) "Carroting" is the process of treating hatters' fur with mercury nitrate or any other solution or material for the purpose of rendering the hatters' fur suitable in the manufacture of hats.

(c) "Mercurial carrot" is any solution or material containing mercury or its compounds in combination with nitric acid or other materials and used in the carroting or preparation of hatters' fur.

History: 1944 AC, p. 263; 1954 AC, p. 2225.

R 325.81 Use of mercurial carrot prohibited.

Rule 81. Effective December 1, 1941, the use of mercurial carrot in the preparation of hatters' fur, or the use of mercurial carroted hatters' fur in the manufacture of hats, is prohibited; provided, that any hat manufacturer or fur cutter having mercurial carroted hatters' fur on hand December 1, 1941, may use said fur until it is consumed.

History: 1944 AC, p. 264; 1954 AC, p. 2225.

COUNTY LIABILITY FOR CARE OF INDIGENT CASES OF MEASLES

R 325.90 Length of time counties are liable for the care of indigent cases of measles.

Rule 90. The consensus of the council was that the period of liability of a county in such cases should be limited to the maximum period of infectivity and that for the purpose of expediency the onset of the case be considered as the date of onset of the rash rather than the date of onset of symptoms.

History: 1944 AC, p. 264; 1954 AC, p. 2225.

R 325.100 Organization of clinics.

Rule 100. (1) The establishment of clinics should meet with the general approval of the Michigan state medical society.

(2) Each individual clinic should first be approved by the local medical society.

(3) In counties having full-time health departments the details concerning the location, number of treatment sessions, etc., shall be worked out by the local health officer in cooperation with the local medical society and the division of venereal disease control of the Michigan department of health. In non-health officer counties, such details will be decided by the local medical profession in cooperation with the state venereal disease control officer.

(4) The local community must provide suitable quarters and upkeep for such clinics.

(5) Clinics shall not be held in the office of private practitioners.

(6) Free drugs and distilled water will be furnished by the Michigan department of health.

History: 1944 AC, p. 264; 1954 AC, p. 2225.

R 325.101 Financial participation in clinics.

Rule 101. (1) The Michigan department of health has been made the recipient of funds from the federal government, which funds may be used to provide small honoraria to private practitioners for diagnostic and therapeutic services rendered patients enrolled in these clinics. In no sense should these honoraria be thought to constitute fees for the bestowal of medical care upon welfare clientele but rather they are intended to serve as some compensation to the physician for time lost from his private practice and for his personal contribution to the program of venereal disease control.

(2) Payment of these honoraria will be at the rate of $7.50 per clinic session. The term "clinic session" as used herein means a certain period of time, usually 1-2 hours, at definite stated intervals devoted to the diagnosis and treatment of venereal disease. It is expected that the average case load at each session will consist of at least 20 patients but not exceed 35-40 patients.

(3) Payments will be made by the Michigan department of health through the local health officer if a full-time health department, or directly to the physician if there be no full-time health department. Payments will be made at the end of each month after the voucher certifying to the service rendered has been completed and signed by the physician and approved by the health officer.

(4) Honoraria will not be paid to physicians serving venereal disease clinics where fees are charged patients. This does not, of course, apply to medical service rendered outside the clinic.

(5) In no instance shall funds for this purpose be used to augment or replace compensation already being paid for this activity.

(6) It should be understood that funds for the payment of honoraria will be dependent on continued allotment of social security funds to the state and

although it is hoped to enlarge this program in the future, it is not possible to guarantee continued payments beyond the commitments for each fiscal year (July 1-June 30).

History: 1944 AC, p. 264; 1954 AC, p. 2226.

R 325.102 Selection of clinicians.

Rule 102. Eligibility for appointment shall be subject to the following conditions:

(a) Appointments as clinicians will be confined to reputable doctors of medicine licensed to practice in the state of Michigan.

(b) The clinician in charge is expected to attend sessions regularly and if unable to be present at a particular session he is expected to provide a substitute which substitute has been previously designated to serve in cases of unavoidable absence of the regularly appointed clinician.

(c) It is desirable to have local physicians rotate on this service, each physician serving a minimum term of service of not less than 3 months. Arrangements for the appointment of physicians willing to cooperate in this program should be made by the local health officer in cooperation with the county medical society.

History: 1944 AC, p. 265; 1954 AC, p. 2226.

R 325.103 Medical standards.

Rule 103. (1) A high professional standard should be maintained and the standard methods of diagnosis and treatment adhered to. A thorough physical examination in addition to any necessary laboratory procedure should precede the administration of any form of treatment.

(2) No attempt should be made to treat medical disorders other than those associated with venereal disease. Patients in need of treatment for other conditions should be referred to proper sources for medical care.

History: 1944 AC, p. 265; 1954 AC, p. 2226.

R 325.104 Persons eligible to receive treatment.

Rule 104. (1) Admission to these clinics will be restricted to frankly indigent persons.

(2) Patients will be accepted for admission upon the written request of any licensed practitioner of medicine. Individuals admitted under this provision will continue to receive the care requested by the physician unless or until the referring physician makes written request to terminate the treatment for the purpose of having the patient resume treatment under his direction or by some other physician designated by him.

History: 1944 AC, p. 265; 1954 AC, p. 2226.

R 325.106 Persons arrested and charged with committing an act of prostitution.

Rule 106. (1) Every person examined in accordance with section 3, Act No. 6 of the Public Acts of the 2nd Extra Session of 1942, being §329.203 of the Michigan Compiled Laws, and who, upon such examination, is found to be suffering with venereal disease, shall upon the recommendation of the local health officer, be placed in quarantine and isolated in an approved hospital or institution deemed by the local health officer to be suitable for the purpose.

(2) In the event that the patient refuses hospitalization, the local health officer is directed to quarantine the patient in his or her residence with placarding of the premises. Violation of such quarantine shall be dealt with in the manner prescribed by law.

History: 1944 AC, p. 265; 1954 AC, p. 2227.

R 325.107 Commitment of recalcitrant venereally infected persons to approved institutions.

Rule 107. In section 5, Act No. 6 of the Public Acts of the 2nd Extra Session of 1942, being §329.205 of the Michigan Compiled Laws, appear the words, "approved institution" in connection with the commitment of recalcitrant venereally infected persons by a probate court. The state commissioner of health with the concurrence of the state council of health hereby makes the following recommendations regarding the approval of institutions for the isolation and treatment of such patients:

(a) Recalcitrant persons required to submit to medical treatment in an institution under a commitment order issued by a probate court judge may be placed in an institution deemed by the full-time local health officer as being suitable for the purpose. In areas not served by a full-time health officer such institutions may be designated by the state commissioner of health acting upon the recommendations of a local medical health officer, or where the local health officer is not a physician, upon the recommendations of a reputable physician designated by him, provided that in the opinion of the state commissioner of health the institution thus named is able to provide suitable facilities for isolation and treatment.

(b) It is recommended that persons committed under a probate court order be held for a minimum period of 60 days, at the expiration of which period the individual, if not as yet rendered permanently noninfectious can be released on probation to the custody of the local health officer or his authorized deputy provided the patient gives a promise in writing that he or she, as the case may be, will continue to receive treatment until the disease is permanently arrested or cured.

(c) In the event that suitable isolation and treatment facilities are not available locally, or if for any reason it be not advisable to commit a particular person or persons to a local institution, the individual or individuals in question may be committed to an institution approved by the state commissioner of health for the isolation and treatment of cases from the state at large.

History: 1944 AC, p. 265; 1954 AC, p. 2227.

R 325.110 Importation of psittacine birds.

Rule 110. After the first day of February, 1939, it shall be prohibited that any person bring into or import into the state of Michigan any bird of the psittacine family, except when such birds are to be used for scientific studies aimed at improving the health of the people. Such importation of psittacine birds for scientific study is to be permitted only upon the approval of the state commissioner of health, following written application for such importation. Copies of this resolution are ordered to be forwarded to all common carriers engaged in interstate traffic serving the state of Michigan, to all health officers, newspapers of this state, to the state health officers of all states and to all known dealers and distributors of such birds within the state of Michigan.

History: 1944 AC, p. 266; 1954 AC, p. 2227.

R 325.115 Fitting shoes on customers without hose.

Rule 115. (1) Shoe retailers shall not hereafter be permitted to fit shoes on customers unless the customers shall wear suitable hose.

(2) A notice to this effect shall be posted in conspicuous places in all retail shoe stores or other stores selling shoes.

History: 1944 AC, p. 266; 1954 AC, p. 2227.

BLOOD BANKS

R 325.125—R 325.127 Rescinded.

History: 1944 AC, pp. 266, 267; 1954 AC, pp. 2228-2233; rescinded 1954 ACS 76, p. 25, Eff. June 19, 1973.

BUREAU OF PERSONAL HEALTH SERVICES

FAMILY PLANNING SERVICES

(By authority conferred on the department of public health by section 7a of Act No. 146 of the Public Acts of 1919, as amended, being §325.7a of the Michigan Compiled Laws)

R 325.151 Family planning services; scope.

Rule 1. Family planning service includes assistance to those women desiring pregnancy, as well as those desiring to prevent or postpone pregnancy.

History: 1954 ACS 45, p. 8, Eff. Feb. 14, 1966.

R 325.152 Request; methods and procedures.

Rule 2. (1) Family planning service may be provided upon the request of an individual woman and in accordance with her own needs, desires, and beliefs by methods and procedures accepted as good medical practice.

(2) Family planning service will be made available when, in the opinion of the physician providing or supervising the service, it is desirable for the woman's physical, mental or social health.

History: 1954 ACS 45, p. 8, Eff. Feb. 14, 1966.

R 325.153 Authorized providers.

Rule 3. Family planning service will be provided only by a licensed physician and such other paramedical personnel who are under his direct and continuing supervision, or by a pharmacist on the order of a physician.

History: 1954 ACS 45, p. 8, Eff. Feb. 14, 1966.

R 325.154 Medical indigency.

Rule 4. Medical indigency is to be interpreted broadly and is to be determined by the health department or board making services available according to specific *criteria established locally. A woman* may be considered medically indigent if she

is receiving funds administered by the welfare department or when the cost of obtaining family planning services from a private physician or family planning clinic is beyond her financial resources or would cause a hardship on her or her family.

History: 1954 ACS 45, p. 8, Eff. Feb. 14, 1966.

R 325.155 Suggestions or persuasion prohibited.

Rule 5. No effort shall be made to suggest or persuade a medically indigent woman to request or not request family planning services.

History: 1954 ACS 45, p. 8, Eff. Feb. 14, 1966.

R 325.156 Notice of family planning services; content.

Rule 6. A notification, written or oral, of the availability of family planning services for a medically indigent woman shall state that receipt of public health services is in no way dependent upon a request or non-request for family planning service.

History: 1954 ACS 45, p. 8, Eff. Feb. 14, 1966.

BUREAU OF DISEASE CONTROL AND LABORATORY SERVICES

RABIES

(By authority of Act No. 146 of the Public Acts of 1919, as amended, being §325.1 et seq. of the Michigan Compiled Laws)

R 325.201 Rabies.

Rule 1. (1) All laboratories in the state of Michigan making examinations of specimens from dogs or other animals (hereinafter covered by the term "dogs") for rabies shall report on the first day of each month to the state commissioner of health the results of their examinations, the owner of the dog and his address, the name of the person who brought in the specimen and his address, and, if possible, the political subdivision in which the dog was resident.

(2) Whenever a suspected case of human rabies or death following prophylactic vaccine comes to autopsy, the person making the autopsy shall be responsible for immediately transferring a portion of the brain and spinal cord to the state laboratories in Lansing for pathological examination and animal inoculation. A history of the case shall accompany the specimen.

History: 1944 AC, p. 273; 1954 AC, p. 2233.

CONVALESCENT SERA AND VACCINES

R 325.210 Convalescent sera; preservative; tests; donors.

Rule 10. Convalescent sera shall contain a preservative such as 1:10,000 merthiolate or mercurophen and must have passed sterility tests and safety tests as outlined below prior to release for distribution. The product shall be a clear solution without precipitated materials, and without objectionable odors of decomposition. Only donors giving a negative Kahn or Wassermann test shall be used.

History: 1944 AC, p. 273; 1954 AC, p. 2233.

R 325.211 Sterility tests.

Rule 11. (1) After a lot of convalescent serum has been filled into the final containers, 3.0% of the vials filled (not less than 3 vials nor more than 10) shall be picked at random *and used for sterility tests as follows:*

(2) A 1 cc. and a $\frac{1}{10}$ cc. sample shall be removed from each vial and used to inoculate 2 separate fermentation tubes of broth. Durham fermentation tubes are recommended. The latter should contain at least 25 cc. of broth. The inoculated tubes shall be placed in an incubator at 37.5 degrees Celsius and observed daily for 7 days. If growth appears in any tube during this time the entire sterility test shall be repeated using twice as many of the final containers of the convalescent serum in the test. If growth again occurs, the lot shall be refiltered and retested, or discarded.

History: 1944 AC, p. 273; 1954 AC, p. 2233.

R 325.212 Safety tests.

Rule 12. Five cc. of the filled-in convalescent serum shall be injected intraperitoneally into a guinea pig and the guinea pig observed for 7 to 10 days. During this time the pig must show no loss of weight or other ill effect from the injection.

History: 1944 AC, p. 273; 1954 AC, p. 2234.

R 325.213 Protocols.

Rule 13. Each lot of convalescent serum shall be given a lot number which shall appear on the protocols of all tests. A copy of the protocols of the sterility and safety tests shall be sent to the Michigan department of health, bureau of laboratories. Two vials of the filled-in material containing at least 5 cc. each shall be sent with the protocols. These samples are for safety and sterility tests. In case of agreement of the protocols and the Michigan department of health tests, the lot will be released. If the 2 tests do not agree, they must be reconciled before the lot can be distributed. The Michigan department of health may release on protocols.

History: 1944 AC, p. 273; 1954 AC, p. 2234.

R 325.214 Recommendations.

Rule 14. (1) It is recommended that sera collected be pooled in lots of not less than 1 liter to minimize the loss in samples used for test. This is especially important in convalescent sera from poliomyelitis.

(2) It is recommended that case histories be placed on record for each person used as a source of convalescent sera.

(3) It is recommended that blood be collected only after at least an 8-hour fast.

(4) It is recommended that all convalescent sera be passed through a Berkefeld, Mandler, or Seitz filter.

History: 1944 AC, p. 273; 1954 AC, p. 2234.

R 325.215 Fluid thioglycollate medium for the sterility test.

Rule 15. (1) The following formula will provide a satisfactory culture medium for sterility testing. At least 2 manufacturers of culture media are now offering this formula for sale in the dried form. The dried preparation is easily restored to the liquid form and will have been checked for growth-promoting qualities before being released by the manufacturer:

Peptone	20.0 grams
Dextrose (anhydrous)	5.0 grams
Yeast extract	2.0 grams
Sodium thioglycollate	1.0 gram
Sodium chloride	5.0 grams
Agar (less than 15% moisture by weight)	0.5 gram
Dipotassium phosphate (K_2HPO_4)	2.5 grams
Distilled water	1000.0 cc.
0.2% solution of methylene blue (cert.)	1.0 cc.

Digitized by Google

(2) Dissolve the agar in half the volume of distilled water by boiling or heating in the Arnold. Dissolve the remaining ingredients, except the methylene blue, in the remaining water with the aid of heat. Now mix the 2 portions, adjust the reaction with sodium hydroxide to such a point as experience shows will result in pH of 7.5, ±0.1, in the completed and sterilized medium. Filter clear while hot and add the methylene blue solution. Distribute into final containers of the desired size and sterilize in the autoclave for 18-20 minutes at 15-17 pounds pressure. (121 degrees Celsius to 123 degrees Celsius.)

History: 1944 AC, p. 274; 1954 AC, p. 2234.

R 325.216 Vaccines.

Rule 16. Stock or autogenous vaccines, other than those made by a doctor of medicine for treatment of his patients, shall be prepared according to the following regulations: The product shall be an even suspension of micro-organisms containing a suitable preservative, such as tricresol, phenol, or an equally effective antiseptic agent.

History: 1944 AC, p. 274; 1954 AC, p. 2234.

R 325.217 Sterility tests.

Rule 17. (1) After the vaccine has been distributed into the final containers, 3.0% of the vials filled (not less than 3 vials nor more than 10) shall be picked at random and used for sterility tests as follows:

(2) From each ampule or bottle at least 2 tubes of sterility test broth shall be planted; 1 tube shall receive 0.25 cc., the other 1.0 cc. of vaccine. Use of Durham fermentation tubes is recommended. Each tube shall contain at least 25 cc. of broth. The inoculated tubes shall be placed in an incubator at 37.5 degrees Celsius and observed daily for 7 days. The vaccine may be released for distribution only if every tube of sterility test broth is free of all evidence of bacterial growth.

History: 1944 AC, p. 274; 1954 AC, p. 2235.

R 325.218 Safety tests.

Rule 18. Two mice shall each receive 0.5 cc. of the filled vaccine intraperitoneally; a guinea pig shall receive 0.5 cc. intraperitoneally for each 100 gm. of its weight. The animals shall be observed for a period of 10 days. All animals dying during this period shall be examined to discover the cause of the fatality. If the cause of death is ascertained as intercurrent infection, the tests shall be repeated. If death is determined as resulting from some cause inherent in the vaccine, the vaccine shall be discarded.

History: 1944 AC, p. 274; 1954 AC, p. 2235.

R 325.219 Protocols.

Rule 19. Each lot of vaccine shall be given a lot number which shall appear on the protocols of all tests, as well as on the labels of each vial. The labels shall also bear the manufacturer's name, the identity of organisms present and the date of filling. A copy of the protocols and safety tests shall be sent to the Michigan department of health, bureau of laboratories. The vials of the filled vaccine each containing at least 3.0 cc. shall be sent with the protocols. These samples are for safety and sterility tests. In case of agreement of the protocols and the Michigan department of health tests, the lot will be released. If the 2 tests do not agree, they must be reconciled before the lot can be distributed. The Michigan department of health may release on protocols.

History: 1944 AC, p. 274; 1954 AC, p. 2235.

POLIOMYELITIS VACCINE

(By authority of Act No. 146 of the Public Acts of 1919, as amended, and Act No. 231 of the Public Acts of 1955, being §325.1 et seq. and §325.551 et seq. of the Michigan Compiled Laws)

R 325.231 Poliomyelitis vaccine; allocation.

Rule 1. Vaccine will be allotted to the local health districts and to cities and counties with full-time approved health departments, and to counties without full-time health departments in proportion to the number of priority persons in each health jurisdiction.

History: 1954 ACS 4, p. 6, Eff. Dec. 23, 1955; 1954 ACS 6, p. 11, Eff. May 15, 1956.

R 325.232 Distribution centers.

Rule 2. Vaccine will be distributed locally through the regularly established distribution centers of the Michigan department of health.

History: 1954 ACS 4, p. 6, Eff. Dec. 23, 1955; 1954 ACS 6, p. 11, Eff. May 15, 1956.

R 325.233 Distribution to private physician.

Rule 3. Local full-time health departments and other approved distributors shall develop a system of distribution to private physicians whereby the individual physician can obtain vaccine with which to vaccinate persons in his practice who are within the priority group.

History: 1954 ACS 4, p. 6, Eff. Dec. 23, 1955; 1954 ACS 6, p. 12, Eff. May 15, 1956.

R 325.234 Priority persons; eligibility.

Rule 4. (1) A physician may obtain vaccine from the established distribution center upon the filing with it, over his signature, the names, ages and addresses of priority persons to be vaccinated, as each priority becomes eligible in relation to the amount of vaccine available.

(2) If there is sufficient vaccine available, physicians could be allotted an advance supply based on the size and nature of their practice, with the understanding that the vaccine allotted to each physician would be given only to persons in his practice who fall within the eligible priority groups. This allotment could then be replenished only upon his filing with the distributor the names, ages and addresses of the persons who were vaccinated.

History: 1954 ACS 4, p. 6, Eff. Dec. 23, 1955; 1954 ACS 6, p. 12, Eff. May 15, 1956.

R 325.235 Use of local health department facilities.

Rule 5. Facilities of local health departments shall be used to provide poliomyelitis vaccinations to those eligible persons who, for any reason, are unable to obtain vaccinations through a private physician.

History: 1954 ACS 4, p. 6, Eff. Dec. 23, 1955; 1954 ACS 6, p. 12, Eff. May 15, 1956.

R 325.236 Record of vaccinations.

Rule 6. Physicians and local health departments shall keep a record of all persons who are vaccinated, which record shall indicate the name, age and address of the person, the site and route of injection, and the name of the manufacturer and the lot number of the vaccine used.

History: 1954 ACS 4, p. 6, Eff. Dec. 23, 1955; 1954 ACS 6, p. 12, Eff. May 15, 1956.

R 325.237 Fees and charges.

Rule 7. No charge may be made for poliomyelitis vaccine distributed by the Michigan department of health. However, nothing in these rules and administrative policies is to be construed as restricting a practicing physician from collecting a fee from his patient for services rendered in vaccinating other than the cost of the vaccine. No fee shall be charged by health departments for this service.

History: 1954 ACS 4, p. 6, Eff. Dec. 23, 1955; 1954 ACS 6, p. 12, Eff. May 15, 1956.

R 325.238 Priority age groups.

Rule 8. Vaccine distributed by the Michigan department of health will be used only to give first, second and third doses to persons aged 1 through 14 and pregnant women, the second dose to be given not sooner than 1 month after the first, and the third dose to be given not sooner than 6 months after the second dose. The person's age at the time of the first injection shall be the deciding factor.

History: 1954 ACS 4, p. 6, Eff. Dec. 23, 1955; 1954 ACS 6, p. 12, Eff. May 15, 1956; 1954 ACS 7, p. 22, Eff. Aug. 14, 1956; 1954 ACS 8, p. 21, Eff. Nov. 14, 1956.

R 325.239 Penalty for violation.

Rule 9. Any local health department, approved distributor or physician who violates these rules and administrative policies will cease to be eligible for further allotments of vaccine.

History: 1954 ACS 4, p. 6, Eff. Dec. 23, 1955; 1954 ACS 6, p. 12, Eff. May 15, 1956.

R 325.240 Recinded.

R 325.257—R 325.265 Rescinded.

History: 1944 AC, pp. 277-279; 1954 AC, pp. 2238-2240; rescinded 1954 ACS 64, p. 25, Eff. Nov. 6, 1970.

BUREAU OF DISEASE CONTROL AND LABORATORY SERVICES

DIABETES RESEARCH

(By authority conferred on the department of public health by section 2 of Act No. 335 of the Public Acts of 1974, being §325.532 of the Michigan Compiled Laws)

R 325.271 Definitions.

Rule 1. (1) "Act" means Act No. 335 of the Public Acts of 1974, being §325.531 et seq. of the Michigan Compiled Laws.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(2) "Department" means the department of public health.

(3) "Diabetes research" means investigation, experimentation, or demonstration projects aimed at the discovery of facts or the practical application of facts concerning the cause, course, treatment, cure, and management of diabetes mellitus.

(4) "Director" means the state director of public health.

(5) "Local health department" means a county or district health department approved by the director under Act No. 306 of the Public Acts of 1927, as amended, being §327.201 et seq. of the Michigan Compiled Laws.

(6) "Medical school" means a public educational institution in this state which trains physicians and is accredited by the American medical association and association of American medical colleges, liaison committee on medical education; or the American osteopathic association; or the council on education for public health.

(7) "Nonprofit voluntary organization" means an organization under Michigan law as a nonprofit association.

History: 1954 ACS 84, p. 31, Eff. July 23, 1975.

R 325.272 Applications for grants.

Rule 2. The department shall receive applications for grants to be used in diabetes research from medical schools, local health departments, and nonprofit voluntary organizations engaged in diabetes control. Application shall be made in a format designated by the department, and received within 60 days after the announcement by the department of availability of funds pursuant to the act. Information to be provided shall include the following:

(a) Purpose and objectives of the project.

(b) Qualifications of professional personnel who will be assigned to the project.

(c) Summary of applicant agency's prior experience in diabetes research or diabetes control activities.

(d) Scope of work and methods.

(e) Methods of evaluating the results of the project.

(f) Project budget.

History: 1954 ACS 84, p. 31, Eff. July 23, 1975.

R 325.273 Criteria for evaluating applications.

Rule 3. (1) The criteria for evaluating and selecting applications for funding shall include:

(a) Overall significance of the project to the diabetes problem in the state.

(b) Capability of the applicant to carry out the work.

(c) Qualifications of professional personnel assigned by the applicant to the project.

(d) Scientific quality of the proposal.

(e) Cost.

(2) The director shall select a technical advisory committee to assist the department in the evaluation of applications.

(3) Applications for projects which involve experimentation with human subjects are subject to review and approval by the applicant's committee for the use of human subjects, or the department's committee for the evaluation of studies involving human subjects.

History: 1954 ACS 84, p. 32, Eff. July 23, 1975.

R 325.274 Distribution of funds.

Rule 4. (1) Grants shall be made by the director from appropriations pursuant to the act following recommendations for funding of projects by the technical advisory committee.

(2) Funding decisions shall be made and grant awards announced no later than 60 days after the deadline for receipt of applications.

(3) Funds shall be distributed in accordance with payment procedures provided in a contractual agreement executed between the grant recipient and the department. The agreement shall also specify the responsibilities of both parties in carrying out and supporting the projects.

History: 1954 ACS 84, p. 32, Eff. July 23, 1975.

R 325.275 Project control.

Rule 5. (1) Key personnel responsible for the project may not be substituted without written permission of the department.

(2) The contractual agreement shall provide for a work plan to be submitted to the department for approval which includes the following:

(a) The organizational structure to be used to carry out the research.

(b) The names and titles of personnel assigned to the project and the amount of time each will devote to the project.

(c) A breakdown of any sub-projects, activities, and tasks, and the resources required and allocated to each.

(d) Where feasible, a time-phased plan which will allow monitoring of the project by the department.

(3) There shall be periodic meetings between representatives of the department and the grant recipient to review progress of the project. Brief quarterly progress reports and a detailed annual report shall be made to the department based on the specific objectives and the time-phased work plan. The first quarterly report shall be due 90 days after the grant is made and shall be submitted in triplicate.

History: 1954 ACS 84, p. 32, Eff. July 23, 1975.

KIDNEY TRAINING

(By authority conferred on the director of public health by section 1 of Act No. 309 of the Public Acts of 1968)

R 325.281 Definitions.

Rule 1. The word "training," as used in these rules, shall include any necessary and appropriate method or means of instruction or practice to bring a patient, member of a patient's family, a volunteer, a professional, or a technical person to a state of efficiency in the application and use of hemodialysis, either in the home or any appropriate facility for the treatment of chronic kidney disease.

History: 1954 ACS 57, p. 9, Eff. Feb. 14, 1969.

R 325.282 Approvals.

Rule 2. A kidney training program carried out under the provisions of section 1 of Act No. 309 of the Public Acts of 1968 shall be conducted in accordance with a written agreement between the department of public health and a medical facility approved by the director of public health. The agreement shall describe the purpose of the program, the personnel and equipment required, and such other matters as the director of public health may deem necessary.

History: 1954 ACS 57, p. 9, Eff. Feb. 14, 1969.

R 325.283 Training candidates.

Rule 3. The training program shall be primarily for the benefit of patients with chronic kidney disease who can be placed upon home hemodialysis, in accordance with guidelines established by the director of public health.

History: 1954 ACS 57, p. 9, Eff. Feb. 14, 1969.

R 325.284 Payments for treatment.

Rule 4. The expenditure of funds shall be made for training only including such treatment, if any, essential to be provided for a patient as part of the training. A record of payments for such care shall be provided to other state agencies providing public assistance for medical care.

History: 1954 ACS 57, p. 9, Eff. Feb. 14, 1969.

OFFICE OF DIRECTOR

QUALIFICATIONS FOR PUBLIC HEALTH NURSES

R 325.291—R 325.305 Rescinded.

History: 1944 AC, pp. 279-281; 1954 AC, pp. 2240-2243; rescinded 1954 ACS 64, p. 26, Eff. Nov. 6, 1970.

BUREAU OF PERSONAL HEALTH SERVICES

MIDWIVES

(By authority of section 7 of Act No. 146 of the Public Acts of 1919, being §325.7 of the Michigan Compiled Laws)

R 325.321 "Midwife" defined; reporting; silver nitrate solution.

Rule 1. (1) The term "midwife" is used in these rules to include attendants at childbirth other than physicians, using no drugs, instruments or medicines.

(2) All midwives are required by law to:

(a) Report to the local registrar within 5 days all the births which they attend.

(b) Use 1% silver nitrate solution, furnished free by the Michigan department of health, in the eyes of the newborn to prevent blindness.

History: 1944 AC, p. 281; 1954 AC, p. 2243.
Editor's note: The provisions of former R 325.320 have been combined with this rule.

R 325.322 Cleanliness; dress; equipment.

Rule 2. (1) The midwife must be clean about her person, clothing, home, and obstetrical equipment. She must keep her hands and nails clean as possible and take special care to avoid any cracks, scratches, or abrasions thereon.

(2) She should wear at all times when on duty a clean dress of washable material which can be boiled; and, for the conduct of labor, she must wear a clean apron or coverall and cap, and her sleeves must be such that they can be rolled above the elbow.

(3) She must possess the following equipment:

(a) 1 bag with extra washable lining.

(b) Bottle of tincture of green soap or jar of soft castile soap.

(c) 1 nail brush.

(d) 1 orangewood stick.

(e) 1 pair blunt scissors for cutting the cord.

(f) Sterile absorbent cotton, ½ lb. (preferably in ¼ lb. packages).

(g) Lysol.
(h) Sterile cord dressings, including tape for cord tie.
(i) 1 thermometer with case.
(j) Silver nitrate solution (1%) in ampules, furnished free by the Michigan department of health.
(k) Clean washable apron or gown and cap.

History: 1944 AC, p. 281; 1954 AC, p. 2243.

R 325.323 Normal labors; records; inspection.

Rule 3. The midwife shall conduct only normal labors; shall keep a record of all cases attended by her with the name of the baby and mother, number of days on the case and outcome of same; shall permit representatives from the Michigan department of health to inspect this record at any time and shall send in the names of pregnant women for prenatal letters and advice to the bureau of maternal and child health, Michigan Department of Health, Lansing, Michigan.

History: 1944 AC, p. 282; 1954 AC, p. 2244.

R 325.324 Prohibited acts.

Rule 4. The midwife shall not make any vaginal examinations or insert into the birth canal any instruments or medications or perform version or administer any drugs either before, during, or after delivery except external antiseptics, and prophylaxis in the eyes of the newborn to prevent blindness; shall not attend any case of labor if she has any sore on her hands or has any communicable disease; shall not pull on the cord to hasten delivery of afterbirth.

History: 1944 AC, p. 282; 1954 AC, p. 2244.

R 325.325 Conditions requiring doctor before confinement; mother.

Rule 5. The midwife shall call a doctor before confinement for the following conditions:
(a) Any bleeding or any abnormal discharge from the vagina.
(b) Abdominal pain.
(c) Persistent headaches, spots before the eyes, puffiness of the eyes, scanty urine.
(d) Swelling of the face, hands, ankles or feet.
(e) Nausea and vomiting persisting after the third month, or if this condition is excessive during the first 3 months.
(f) When the mother feels no motion of the baby during the latter months of pregnancy.
(g) When the mother has fits or convulsions.
(h) When the mother has warts or sores on the genitals.
(i) When the mother is dwarfed or deformed.

History: 1944 AC, p. 282; 1954 AC, p. 2244.

R 325.326 Conditions requiring doctor during confinement; mother.

Rule 6. The midwife shall call a doctor for the mother for the following conditions during confinement:
(a) When any part other than the top of the baby's head appears first.
(b) When pains stop after having been regular.
(c) When 12 hours have passed without any progress or 24 hours have passed since labor pains started.
(d) When convulsions occur.

(e) When swellings or tumors obstruct the birth canal.

(f) When inspection shows that the floor of the birth canal has been torn or that parts of the afterbirth have been torn off.

(g) Excessive bleeding.

(h) If afterbirth is not delivered within 1 hour after birth of baby.

History: 1944 AC, p. 282; 1954 AC, p. 2244.

R 325.327 Conditions in baby requiring doctor during confinement.

Rule 7. The midwife shall call a doctor during confinement for the following conditions in the baby:

(a) Prematurity.

(b) Any deformity (as cleft palate) or any tumors, swelling or injury.

(c) If the baby seems weak, pale, or blue, or does not breathe well.

(d) Failure to pass water or have bowel movement in 24 hours.

(e) Any rash, sores, or snuffles.

History: 1944 AC, p. 282; 1954 AC, p. 2244.

R 325.328 Conditions requiring doctor after confinement.

Rule 8. The midwife shall call a doctor after confinement for the following conditions:

(a) Excessive bleeding.

(b) If the mother has chills or fever.

(c) If the mother has fits or convulsions.

(d) If the mother has pain, tenderness or swelling of the breasts.

(e) If there is any difficulty in getting the baby to take the breast.

(f) If the vaginal discharge has a bad odor.

(g) Any redness or swelling of the eyes of the baby or any discharge from the baby's eyes.

History: 1944 AC, p. 282; 1954 AC, p. 2244.

R 325.329 Classes.

Rule 9. Every midwife shall make every effort possible to attend any classes that may be conducted in her vicinity for instruction in the care of mothers and babies by the Michigan department of health through any of its representatives.

History: 1944 AC, p. 283; 1954 AC, p. 2245.

R 325.330 Examinations of urine; intent.

Rule 10. (1) Every midwife shall urge all expectant mothers under her care to have examination of urine at monthly intervals whenever possible.

(2) These rules are not in any way intended to constitute a license to any individual to practice midwifery, nor is there any intention to conduct a course in the technique of delivery, but the object is to inform the midwife as to her limitations and particularly to emphasize what she is forbidden to do in the care of the mother at childbirth.

History: 1944 AC, p. 283; 1954 AC, p. 2245.

MINIMUM STANDARDS FOR GROUP DAY CARE OF CHILDREN

(By authority of section 7 of Act No. 146 of the Public Acts of 1919, being §325.7 of the Michigan Compiled Laws)

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253

R 325.341 Plant specifications.

Rule 1. (1) The plant should conform to the following specifications:

(a) It is desirable that the day care center be located on the ground or first floor.

(b) It should never be above the second floor unless in a completely fireproof building. If located on the second floor or above or in the basement, proper safety precautions must be taken such as gates at head of stairs, if children under 4 are cared for, handrails at stairways, good lighting on all stairways and exits, and bars on all upper story windows that are easily accessible to the children.

(c) It should never be in a basement where more than ½ of the room height is below grade.

(d) The building should conform to the state and local housing codes, health department standards, and fire laws. All plumbing in the child care center shall comply with the state plumbing code and with any ordinances pertaining to plumbing.

(e) The building shall be so constructed that it is dry.

(f) The walls, ceilings and floors should be finished in such a manner as to be easily cleaned and the floors should be free from splinters.

(g) There should be a minimum of 300 cubic feet of air space and 35 square feet of floor space per child under 5 years exclusive of halls, baths and kitchens.

(h) The rooms should be free from obnoxious odors.

(i) Separate well-ventilated cloakrooms should be provided. If there is no outside window in the cloakroom, artificial light shall be provided.

(j) An isolation room should be provided for complete isolation of any child having or suspected of having any communicable disease.

(k) There should be a minimum of 75 square feet per child.

(l) It is desirable that both shade and sunshine be available during part of morning and afternoon.

(m) At least part of the surface shall be hard so that it may be used in wet weather.

(n) There must be adequate protection from hazards, such as traffic, dangerous playthings, etc.

(2) Heating:

(a) The heating plant should have a proper capacity, be so located and operated as to maintain a temperature of approximately 70 degrees Fahrenheit at a point 24 inches from the floor under average winter weather conditions.

(b) An accurate thermometer should be provided for each room and should be placed not higher than 3 feet above the floor level.

(c) Open fireplaces, steam radiators and stoves within the reach of children shall be kept screened.

(3) Ventilation shall be provided in all rooms where children eat, sleep and play either by an adequate mechanical system or by windows which can be opened.

(4) Lighting:

(a) The ratio of glass area to floor area should be at least 1 to 4 and in no case shall the window area be less than ⅛ the floor area.

(b) Rooms which do not require artificial light except occasionally are preferable, but provision for artificial lighting when necessary should be made.

(c) Adjustable shades should be provided.

(d) Windows should be kept clean at all times.

(5) All rooms where food is prepared, served or eaten, and all sleeping rooms should be screened from April 1 to November 1.

(6) Water supply:

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(a) The child care center shall be provided with an ample supply of water, preferably from a municipal or public water supply system.

(b) If water is obtained from a well, the supply shall conform to the standards for public groundwater supplies issued by the Michigan department of health.

(c) Water supplies not intended for drinking or culinary purposes shall not be connected to lavatories, kitchen sinks and shower heads.

(d) Water shall be dispensed by means of sanitary fountains or covered water coolers and paper cups or individual cups. The use of common drinking cups is prohibited by state law (section 475 of Act No. 328 of the Public Acts of 1931, being §750.475 of the Michigan Compiled Laws)

(e) There should be an adequate supply of hot and cold water at all times.

(7) Toilets:

(a) There should be a minimum of 1 toilet and 1 lavatory to 10 children.

(b) Toilets and basins should be of suitable height and size, or so equipped as to be reached easily by the children.

(c) Toilet seats should be of open front type if possible.

(8) All liquid wastes from the child care center shall be discharged into a public sewer system when possible. When a public sewer system is not available the sewage disposal system shall be approved by the state or local full-time health department.

(9) In child care centers where lunches are prepared and served, fly-proof and water-tight metal containers shall be provided for garbage. Garbage cans shall be emptied at regular intervals and never allowed to become foul smelling or a breeding place for flies.

(10) Equipment for eating:

(a) In child care centers where meals are served, adequate equipment shall be provided. Kitchen utensils, pots, pans and similar devices shall have smooth surfaces free from rust, foreign deposits and corrosion and shall be maintained in a sanitary condition. Table dishes shall be free from cracks or chips and free from film. Silverware shall be free from corrosion. Tables and work benches shall have smooth surfaces. Dishes following washing and sanitization shall be stored in such a manner as not to expose them to contamination.

(b) All utensils, glasses or other dishes other than single service containers used in the serving of food or drink shall be thoroughly washed and cleansed after each separate use in hot water of not less than 110 degrees Fahrenheit containing soap, soap powder, or other effective cleaning agents so as to remove all foreign matter. Such utensils, glasses or other dishes shall then be either immersed in hot water at a temperature of 170 degrees Fahrenheit for at least 2 minutes immediately after washing or subjected to a thorough clear water rinse by immersion or a spraying process, after which they shall be completely immersed for a period of at least 2 minutes in clear water containing a sterilizing solution of not less than 100 parts per million of available chlorine. Drying cloths, if used, shall be clean and shall be used for no other purpose.

(11) Food handling:

(a) All milk, cream and milk products shall be processed in a pasteurization plant which is licensed by the state department of agriculture. Milk should be served in the original container as delivered by the pasteurization plant.

(b) All perishable foods shall be stored in such a manner as to keep the temperature below 50 degrees Fahrenheit. All other foodstuffs shall be kept in covered containers.

(12) Sleeping equipment:

(a) A washable cot shall be available for each preschool child if time spent in *group is longer* than 3 hours.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) There should be at least 2 feet of space on all sides except where the cot touches the wall. It is recommended that children on adjacent cots lie so that heads and feet alternate.

(c) Sanitary storage space for cots and other sleeping equipment shall be provided if separate sleeping room is not available.

(13) The problem of transportation will vary considerably. In many cases parents will be responsible for delivering children to the center and calling for them. In other cases transportation will be primarily in the hands of the center. Great care must be exercised in the selection of the driver and it is recommended that a second adult accompany the driver on the trips to assist in caring for the children and to screen out any child showing suspicious signs of a communicable disease. Valuable help on transportation may be obtained from the state of Michigan department of public instruction bulletin no. 1006, pupil transportation in Michigan.

History: 1944 AC, p. 283; 1954 AC, p. 2245.

R 325.342 Health supervision of staff.

Rule 2. (1) Each staff member should have a physical examination before he or she is employed at the day care center and annually thereafter. Such examination should be recorded on a blank provided by the day care center and should be kept on file by the director of the nursery and be available to representatives from the state or local health department. (Blanks will be made available by the Michigan department of health.) Such an examination shall include vaccination, throat culture for diphtheria, Schick test, Kahn test, chest X-ray, and a stool examination for typhoid.

(2) No person who is a carrier of typhoid or diphtheria bacilli or who has a communicable disease including tuberculosis should be employed or reside in a child care center. Persons should not work at a day care center on days when they have sore throats or colds.

History: 1944 AC, p. 285; 1954 AC, p. 2247.

R 325.343 Health supervision of children.

Rule 3. (1) There should be continuous health supervision for all children in the child care center. This should include (a) a careful history and physical examination by a physician prior to admission and (b) daily inspection and continuous observation of each child.

(2) No child shall be enrolled in a day nursery without a certificate of health signed by a physician in good standing. The certificate of admission shall state that (a) the child has been examined and found to be free from communicable disease; (b) that there is no history of recent exposure to communicable disease; and (c) that the child has been successfully immunized against diphtheria and vaccinated against smallpox or that inoculation and vaccination took place at the time of the examination. Other immunization such as against whooping cough may be recommended. A tuberculin test should be done when indicated.

It is desirable that a child be given a medical examination just prior to admission to the day care center and every 3 months during the second year of life and at least every 6 months from the second to the sixth year. Every effort should be made to have physical defects corrected as soon as discovered by the physician.

Child health record blanks for recording the history and examination of children attending the child care center may be obtained free of charge by writing to the bureau of maternal and child health of the Michigan department of health.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(3) Every day before the child enters the group he should be inspected by a person qualified by special training. The staff of the child care center should carry on continued observation of the children and should immediately and completely isolate any child suspected of having any communicable disease. If there are children from homes which are not open during the time the child is in the group, some provision for care of sick children away from the group should be made.

The child care center staff shall exclude from the center any child showing signs and symptoms of communicable disease such as unusual flushing or paleness of skin, rash, fever, watery eyes, nasal discharge, or any other sign or symptom of communicable disease. If a child is found to be suffering from a communicable disease, the name and address of such child shall then be reported to the family physician or the local health officer for investigation. Readmission to the center may then be permitted only with the consent of the local health officer

Parents and guardians should be advised against sending or bringing a child to the child care center if sickness of a communicable nature exists in the home or if the child himself shows any evidence whatever of illness.

In cases where a bus calls for children it shall be made clear to the parents that a child showing signs of a communicable disease shall not be admitted to the bus.

If a child is absent from the child care center for more than 3 days because of illness, the director of the center should make careful inquiry regarding the nature of the illness and should require the parent to furnish a doctor's certificate before the child is readmitted to the center, unless the parent furnishes a satisfactory explanation.

The director of the child care center shall immediately report to the local health officer all cases of communicable disease or suspected communicable disease occurring in the families of children attending the center.

Every director should obtain a copy of Michigan regulations for the control of communicable diseases from the Michigan department of health, Lansing. This booklet and the wall chart, common communicable diseases, may be obtained free of charge from the state health department.

(4) The name of the family physician of every child should be kept on file in the center so that he may be called in case of sudden illness or accident. Permission should be received from the parent or guardian to call another physician if the family physician cannot be reached.

It is recommended that all staff members of the child care center have certificates for successful completion of the red cross standard first aid course.

A first aid kit containing the following should be kept in the center:

(a) 12 1-inch compresses on adhesive.
(b) 2 2-inch compresses on adhesive.
(c) 2 3-inch compresses on adhesive.
(d) 1 square yard sterile gauze.
(e) 1 tightly stoppered bottle of 2% iodine with glass rod in stopper or 6 iodine ampules.
(f) 1 roll 1-inch adhesive tape.
(g) 2 triangular bandages.
(h) 3 3-inch x 6-yard muslin bandages for fastening splints.
(i) Boards that can be used as arm or leg splints.

As a defense precaution each child shall wear an identification tag at all times.

COMMUNICABLE DISEASES IN CHILDREN IN GROUP RESIDENCE, CARE, EDUCATION, AND CAMPING

(By authority conferred on the department of public health by section 3 of Act No. 169 of the Public Acts of 1966, being §329.523 of the Michigan Compiled Laws)

R 325.351 Examinations for tuberculosis.

Rule 1. For the purposes of Act No. 169 of the Public Acts of 1966, being §§329.521 to 329.526 of the Michigan Compiled Laws, an examination for communicable tuberculosis, in addition to procedures which the physician may wish to carry out, shall include:

(a) A tuberculin skin test consisting of the intradermal administration of not less than 5 tuberculin units of old tuberculin (O.T.) or purified protein derivative (PPD), or a chest x-ray. The physician may accept a report of the results of either test conducted within the preceding 90 days in lieu of performing the test himself.

(b) A person whose tuberculin test is positive shall have a chest x-ray.

(c) A person whose x-ray shows findings suggestive of tuberculosis, other than healed primary, shall have a bacteriologic examination of the pulmonary secretions for tubercle bacilli performed in a laboratory registered by the department of public health.

History: 1954 ACS 51, p. 18, Eff. Aug. 15, 1967.

R 325.352 Results of examinations.

Rule 2. The results of an examination shall be filed with the agency responsible for the operation of the group residence, care, education, and camping experience for each child before the child is accepted into such an experience. The results of all such tests shall be made available upon request to the department of public health through the local health department.

History: 1954 ACS 51, p. 18, Eff. Aug. 15, 1967.

OFFICE OF DIRECTOR

SPECIAL AGENTS OF BUREAU OF RECORDS AND STATISTICS

R 325.361 Appointment of county and district health officers as special agents of bureau of records and statistics.

Rule 1. The commissioner of health may for the purpose of improving registration appoint a full-time county or district health officer as a special agent of the bureau of records and statistics when, in his opinion, the office of the county or district health department is organized and equipped to care for the records properly. A special agent so appointed shall secure the reports of all local registrars in their county or district, abstract such information as he desires from the records and forward the complete county or district report to the state department of health not later than the tenth of each month. He shall follow up and secure any missing records and make every effort to secure complete registration. The appointment of any special agent may be revoked at any time by the commissioner of health for delay in sending reports or any failure to perform satisfactorily the duties with which he is charged.

OUTHOUSES

(By authority of Act No. 273 of the Public Acts of 1939, being §325.271 of the Michigan Compiled Laws)

R 325.421 Principles.

Rule 1. All "outhouses," buildings or other structures which are not connected with a sewerage system or with a properly installed and operated sewage disposal system, and which are used for the reception, disposition or storage, either temporarily or permanently, of feces or other excreta from the human body, shall be constructed and maintained in such manner as to conform at all times to the following:

(a) The receptacle for receiving and storing fecal matter shall be fly-tight and constructed in such manner and of such material as to afford reasonable assurance of remaining fly-tight under ordinary conditions of usage.

(b) The receptacle shall be so located as to prevent the pollution of private and public water supplies, lakes or streams; the overflow of the contents to the surrounding ground; and the flow of surface water into the receptacle. The receptacle should be convenient and accessible to use.

(c) The receptacle shall be constructed of such material and in such manner as to prevent rapid deterioration, to provide adequate capacity, and to facilitate maintenance in a satisfactory manner under ordinary conditions of usage.

(d) The outhouse receptacle should be vented so as to provide a continuous escape of odors through a screened vent.

(e) The outhouse shall be so maintained as to fulfill the foregoing principles at all times.

History: 1944 AC, p. 292; 1954 AC, p. 2255.

R 325.422 Minimum standards for earth-pit outhouses.

Rule 2. (1) The pit should be located 100 feet or more from any well or other source of water supply and upon ground sloping away from the water supply, and should never be located less than 50 feet therefrom, unless upon special approval of the commissioner of the Michigan department of health; provided, however, that no pit shall be located within 200 feet of any source of groundwater used for a municipal water supply. No pit shall be located less than 2 feet from any lot or alley line or less than 25 feet from any lake or stream. In areas underlaid by limestone, or where fissured rock formations are common, or whenever ground-

water is encountered in the construction of the pit, approval of the construction and location of the pit based upon special investigation of the conditions must be obtained from the commissioner of the Michigan department of health.

(2) The pit shall have a capacity of not less than 50 cubic feet per seat and be not less than 4½ feet or more than 6 feet deep, measured from the original ground surface. Where rock formations or groundwater are encountered at shallower depths, a mound may be constructed to permit a pit of sufficient depth.

(3) Sills shall be provided to form the support for the outhouse building. Pit curbings shall extend to the full depth of the pit unless in rock formation, in which case the lower section of the curbing may be omitted. The curbing should not support the building or the sills.

(4) Pit mounds shall be of well-tamped earth installed in thin layers, shall extend outward on the level for a distance of not less than 18 inches in all directions from the sills, and thence outward to meet the surrounding ground surface with a slope not greater than 1 vertical to 3 horizontal. Mounds should be covered with sod or otherwise protected against erosion.

(5) The floor and seat riser shall be built of impervious material or tongue and groove lumber, and in a manner to exclude insects. The seat riser shall be so constructed and bonded with the floor as to prevent seepage through the riser onto the floor.

(6) The seat opening shall be covered with a hinged lid.

(7) The pit should be ventilated from the riser to a point outside the building by a flue or vent having a cross-sectional area of not less than 12 square inches. The joints shall be tight and the opening screened with 16 mesh screening, preferably of copper.

History: 1944 AC, p. 292; 1944 ACS 7, p. 11; 1954 AC, p. 2255.

R 325.423 Minimum standards for septic tank privy or septic toilet.

Rule 3. (1) The tank should be located at least 50 feet from any well or other source of groundwater supply and upon ground sloping away from the water supply. No tank shall be located less than 2 feet from any lot or alley line or less than 25 feet from any lake or stream.

(2) The tank shall be constructed of an impervious material and be watertight. The depth below the outlet pipe shall be not less than 30 inches. When constructed of concrete the side walls, top and bottom shall be of a mixture and thickness which will insure a dense, watertight structure. Sufficient reinforcement shall be used to prevent cracking. When constructed of metal, Armco ingot iron or other rust-resisting material not less than 12 gauge shall be used. All metal surfaces inside and outside shall be thoroughly coated with a good quality asphalt base material. All tanks shall be provided with an outside opening, not less than 12 inches in diameter, fitted with a tight cover, to permit inspection and cleaning. The outlet of all tanks shall be so constructed as to prevent solid material passing into the discharge pipe. Tanks should be filled with water before being put into operation and after each cleaning.

(3) A drop tube, securely fastened to the toilet bowl and to the tank, shall extend into the tank but not more than 2 inches below the water line. A vitreous china toilet bowl with seat and seat cover securely hinged should be used.

(4) A ventilating pipe connected to the bowl and extending above all parts of the building shall be installed.

(5) Cast-iron soil pipe shall be leaded or bonded to the tank and extend not less than 10 feet from the building where it may be connected to the disposal tile.

Disposal tile should be laid so that a 12-inch earth cover is provided. Under no condition shall the tile line be laid below the groundwater level.

History: 1944 AC, p. 293; 1944 ACS 7, p. 11; 1954 AC, p. 2256.

R 325.424 Minimum standards for chemical closets.

Rule 4. (1) The tank should be located at least 50 feet from any well or other source of groundwater supply and upon ground sloping away from the water supply. No tank shall be located less than 2 feet from any lot or alley line or less than 25 feet from any lake or stream.

(2) The tank shall be constructed of Armco ingot iron or other rust-resisting material, not less than 12 gauge thickness. All metal surfaces inside and outside shall be thoroughly coated with a good quality asphalt base material. All tanks shall be provided with an outside opening, not less than 12 inches in diameter, fitted with a tight cover, to permit inspection and cleaning. Every chemical closet tank shall be equipped with an agitating device designed to insure complete mixing of the organic matter with the chemical.

(3) The drop tube shall be securely fastened to the tank and to the toilet bowl. The toilet bowl should be of vitreous china, designed to provide for a seat and seat cover.

(4) A ventilating pipe connected to the bowl and extending above all parts of the building shall be installed.

History: 1944 AC, p. 293; 1944 ACS 7, p. 11; 1954 AC, p. 2256.

R 325.425 Minimum standards of maintenance.

Rule 5. (1) The receptacle of an earth-pit or vault-type outhouse shall not be allowed to fill to a point higher than 12 inches below the under surface of the floor of the outhouse building. When the receptacle is filled a new pit should be provided and the floor and building moved to the new location. The receptacles of other types of outhouses shall be emptied at sufficiently frequent intervals to prevent the creation of an insanitary condition.

(2) All fecal material or other excreta from the human body that has been removed from any outhouse shall be buried with an earth covering of at least 12 inches in thickness and in a location more than 200 feet from any domestic water supply, lake or stream. Feces or other excreta from the human body shall not be deposited in any abandoned or dry well.

(3) The seat, floor, and ground immediately surrounding the outhouse shall be kept clean at all times. The vent shall be maintained in good repair and free from obstructions at all times.

(4) Seat covers shall be kept closed when the outhouse is not in use.

(5) No disinfectants, lime, deodorants, or other chemicals should be used in earth-pits, septic tank privies or septic toilets. Chemical closets should be maintained at such caustic concentration that septic action does not begin.

(6) Types of paper which do not readily disintegrate should be avoided. Garbage, ashes and other kinds of wastes or liquids should not be thrown into earth-pits or tanks.

(7) Enough water should be added to the septic tank privy or septic toilet each day to keep the water up to the level of the overflow. The water added should also be used to keep the drop tube clean.

FOOD ESTABLISHMENTS

(By authority of Act No. 146 of the Public Acts of 1919, as amended, being §325.1 et seq. of the Michigan Compiled Laws)

R 325.592 Minimum requirements for food or drink establishments.

Rule 1. (1) All buildings where food or drink is manufactured, handled, stored, prepared, served, offered for sale or sold, shall be of substantial construction, kept in good repair, and of such size as to properly accommodate the equipment and processes employed therein. The floors, basements and yards shall be drained so as to be free of accumulated water and the premises shall be kept clean at all times.

(2) All establishments where food or drink is manufactured, handled, stored, prepared, served, offered for sale or sold shall be provided with adequate lighting and adequate ventilation, and shall be so constructed and maintained that all food or drink is protected from contamination by dust, vermin, animals, persons, or other sources of contamination. The walls, ceilings, floors and fixtures of such establishments shall be constructed of smooth, easily cleanable material and shall be kept clean at all times.

(3) All windows, doors and other openings to the outside shall be screened or otherwise protected to exclude insects and other vermin. Effective measures for the control of vermin shall be employed within establishments and on the premises, and shall be applied in such manner as not to create a health hazard.

(4) All establishments shall be provided with water from an approved water supply which is sufficient in quantity and of a safe sanitary quality. If such water supply is not a municipal or approved public supply it shall comply with R 325.471 to R 325.a480 of the Michigan Administrative Code. Hot and cold water under pressure shall be provided in all areas where food or drink is manufactured or prepared, or where equipment, utensils or containers are washed or sanitized. Ice which comes in contact with food or drink or with any product-contact surface shall be manufactured from water which comes from an approved source, and shall be used only if it has been manufactured, stored, transported and handled in a sanitary manner.

(5) Each establishment shall provide adequate, conveniently located toilet facilities for its employees. The walls, floors, and fixtures of all toilet rooms shall be constructed of smooth, easily cleanable, nonabsorbent material and all such rooms and fixtures shall be kept in good repair and maintained in a clean and sanitary condition at all times. All toilet rooms shall be completely enclosed and shall be provided with adequate light, ventilation to the outer air and tight-fitting self-closing doors. Only water-flushed toilets and urinals shall be used and all such toilets and urinals shall be properly installed and connected to an approved waste disposal system. An adequate supply of sanitary toilet paper shall be readily available at each toilet. When toilet facilities are provided for patrons, such facilities shall meet the requirements of this subrule.

(6) Each establishment shall be provided with adequate, conveniently located handwashing facilities, including a lavatory or lavatories supplied with hot and cold or tempered running water, hand-cleansing soap or detergent, and sanitary single service towels or other effective sanitary drying devices. Handwashing facilities shall be located within or immediately adjacent to all toilet rooms and shall be convenient to all areas where food or drink is manufactured or prepared, or where equipment, utensils or containers are washed or sanitized. Handwashing facilities shall be kept in good repair and be maintained in a clean and sanitary condition at all times. Facilities used for washing or sanitizing equipment, utensils

or containers, or for the manufacturing or preparation of food or drink shall not be used for handwashing.

(7) Plumbing shall be sized, installed and maintained as to carry adequate quantities of water to required locations throughout the establishment; as to prevent contamination of the water supply; as to properly convey sewage and liquid wastes from the establishment to the sewerage system or sewage disposal system; and so that it does not constitute a source of contamination of food, drink, equipment or utensils, or create an insanitary condition or nuisance.

(8) All sewage and liquid wastes shall be disposed of in a public or municipal sewerage system, or, in the absence thereof, in an approved septic tank system or by some other acceptable method which does not create a nuisance, insanitary condition or public health hazard.

(9) Litter, waste, or any other refuse shall not be allowed to accumulate in or around the buildings or premises of any establishment engaged in manufacturing, handling, storing, preparing, serving, offering for sale, or selling any food or drink for human consumption. All garbage must be kept in clean, nonabsorbent, durable, fly-tight containers either inside or outside the establishment. All garbage, litter, waste, and other refuse shall be disposed of in such a manner as not to create a nuisance or insanitary condition.

(10) By-products or refuse may be retained on the premises only when stored in such a manner as not to create a nuisance by giving off offensive odors, oozing liquids, or by attracting or harboring vermin.

(11) No live birds or animals shall be permitted in establishments, except that guide dogs accompanying blind persons may be permitted in serving or selling areas, and that birds and animals may be permitted in the same building if such birds and animals are caged or otherwise restrained and are located a sufficient distance from all food or drink operations as to eliminate the possibility of contamination by any means. Persons employed in any food or drink operation shall not care for or handle any such birds or animals.

(12) All equipment, utensils, containers, and work surfaces used in manufacturing, handling, storing, preparing, serving, or transporting food or drink shall be so constructed and maintained as to be sanitary at all times. All product-contact surfaces shall be nontoxic, corrosion-resistant, relatively nonabsorbent, and easily accessible for cleaning.

(13) Adequate equipment and facilities shall be provided for the cleaning and sanitizing of all multiuse equipment, utensils, containers and work surfaces used in manufacturing, storing, preparing, serving, or transporting food or drink.

(14) All equipment, utensils, containers and work surfaces shall be thoroughly cleaned after each usage. Thoroughly cleaned shall mean rendered completely free of food particles, film, or other foreign materials.

(15) After thorough cleaning and prior to usage, all product-contact surfaces of equipment, utensils, containers and work surfaces used in the manufacturing, storing, preparing, serving, or transporting of food or drink shall be effectively sanitized. Effective sanitization shall be accomplished by 1 of the following methods:

(a) Immersion for at least ½ minute in clean water at a temperature of at least 170 degrees Fahrenheit.

(b) Immersion for a period of at least 1 minute in a sanitizing solution containing at least 50 ppm of available chlorine at a temperature not less than 75 degrees Fahrenheit.

(c) Immersion for a period of at least 1 minute in a sanitizing solution containing at least 12.5 ppm of available iodine and having a pH not higher than 5.0 and a temperature of not less than 75 degrees Fahrenheit.

(d) Immersion for a period of at least 1 minute in a sanitizing solution containing any other chemical-sanitizing agent which has been demonstrated to be effective and nontoxic under use conditions, and for which a suitable field test is available. Such sanitizing agents, in use solutions, shall provide the equivalent bactericidal effect of a solution containing at least 50 ppm of available chlorine at a temperature not less than 75 degrees Fahrenheit.

(e) Treatment in a mechanical device with hot water, steam or any other sanitizing agent which is nontoxic under use conditions and for which a suitable field test is available; when such treatment will routinely render equipment, utensils, containers or work surfaces which have received bactericidal treatment equivalent to those treated by 1 of the foregoing immersion methods.

(f) Equipment, utensils, containers, or work surfaces too large to be treated by any of the foregoing methods may be treated by 1 of the following methods:

(i) With live steam from a hose, in the case of equipment in which steam can be confined.

(ii) By rinsing with boiling water.

(iii) By spraying or swabbing with a chemical sanitizing solution of at least twice the minimum strength required for the particular sanitizing solution when used for immersion method of sanitization.

(16) All cleaned and sanitized equipment, utensils, containers, and work surfaces shall be maintained in such a manner as to be protected from contamination.

(17) When the provisions of subrules (13), (14), or (15) cannot be complied with, an alternate method of using single service containers, utensils, and other single service articles shall be substituted. All single service articles shall be fabricated in a sanitary manner from sanitary and nontoxic materials, transported and stored in closed cartons or containers, and handled and dispensed in such a manner as to prevent contamination. Single service articles shall be used only once after which they shall be properly discarded.

(18) All food and drink shall be clean and wholesome and shall be manufactured, handled, stored, prepared, transported, served, offered for sale or sold so as to be safe for human consumption. Potentially hazardous food or drink shall be stored or refrigerated at a temperature of 45 degrees Fahrenheit or below, or 140 degrees Fahrenheit or above. All cooked, partially cooked, baked or fried foods must be kept hot (140 degrees Fahrenheit or above) or cold (45 degrees Fahrenheit or below) and may not be displayed unless such requirements are maintained; except those products which do not, under good commercial practices, require heating or refrigeration. Potentially hazardous food and drink shall mean any perishable food or drink which consists of any ingredients capable of supporting rapid and progressive growth of infectious or toxicogenic microorganisms. All coolers, refrigerators, freezers and other storage facilities shall be kept clean and sanitary. A reliable thermometer shall be maintained in each cooler, refrigerator or freezer. Spoiled, tainted or toxic food, drink, or materials unsafe or unfit for human consumption shall not be stored along with food or drink for human consumption. All nonacid or low-acid hermetically sealed foods shall have been processed in a commercial food processing plant.

(19) Milk shall be served to the customer in original, individual containers, or may be served from an approved dispenser as delivered from a licensed dairy or milk plant.

(20) All poisons and any other hazardous substances shall be properly labeled and shall be stored completely separate and apart from any food or drink for human consumption. Such substances shall not be applied or used in any manner which would cause a health or safety hazard.

(21) All persons shall wear clean clothing and be clean about their person. Effective hair restraints shall be used by persons engaged in the manufacturing, preparing or serving of food. Persons while engaged in manufacturing, preparing, or serving food or drink shall not smoke or otherwise use tobacco.

(22) No person who has an infectious disease, or is a carrier of an infectious disease, shall be employed where food or drink for human consumption is manufactured, handled, stored, prepared, served, offered for sale, or sold. All persons connected with a food or drink establishment whose work brings them in contact with the manufacturing, handling, storing, preparing, serving, offering for sale, or selling any food or drink, or brings them in contact with equipment, utensils or containers used therein, shall upon request of the proper authority furnish information to and permit a physical examination by a licensed physician.

(23) All persons employed in the manufacturing, handling, storing, preparing, or serving of food or drink, or while handling food, drink, equipment, utensils, or containers shall keep their hands and nails clean.

(24) All persons employed in the manufacturing, handling, storing, preparing, serving, offering for sale or selling of food or drink or in the cleaning of equipment, utensils or containers shall cleanse their hands immediately before beginning work and upon returning from a rest room, toilet room or rest break, and as often as necessary throughout the working period.

(25) Adequate facilities shall be provided for the orderly storage of employees' clothing and personal belongings. Dressing rooms or designated areas shall be provided when, as a routine procedure, employees change clothes within the establishment.

History: 1954 ACS 35, p. 42, Eff. Aug. 14, 1963.

R 325.593 Additional requirements for establishments dispensing beer, wines, or liquors.

Rule 3. (1) All bars, counters, tables, coolers, extra beer tap rods, refrigerators, and all other fixtures or equipment, and all basements, rooms or other places used to serve or store beer, wine, or liquor shall be kept in a clean and sanitary manner at all times.

(2) All beer coils, lines, barrels, tubes, and any other draught beer equipment shall be thoroughly cleansed as often as may be necessary to keep them in a clean and sanitary condition. Beer shall not be drawn through tubes with rubber inner linings.

(3) All air intakes on pressure pumps used in the drawing of draught beer shall be piped in such a manner that only clean air will be used.

(4) All open windows, doors, and other openings to the outside shall be screened as a protection against flies, bugs, and insects.

(5) All establishments dispensing alcoholic beverages shall be lighted with electricity having a sufficient number of outlets and equipped with lamps of sufficient wattage to register 1 footcandle on an approved light meter in all parts of the premises at tabletop level. All establishments shall have a light under the bar.

(6) All establishments dispensing alcoholic beverages shall be equipped with hot and cold running water from a source approved by an authorized health department.

(7) All dishes, glasses, mugs, steins, cups, and table service used in the serving of food or beverages shall be effectively washed and cleansed in clean hot water of not less than 110 degrees Fahrenheit. Such wash water shall contain an effective detergent or cleansing agent. Immediately after washing and before using, the dishes, glasses, and other utensils shall be effectively sanitized.

(8) Effectively washed and cleansed dishes, glasses, and silverware or utensils shall be interpreted to mean that the dish, glass, silverware, or utensil is free of film and foreign material including lipstick, lipmarks, and fingerprints on the food and lip contact areas. Discoloration due to water spots is considered undesirable but does not constitute a violation of this rule.

(9) Effectively sanitized dishes, glasses, silverware, or cooking utensils shall not exceed a bacterial count of 100 per unit, based upon the average count of at least 4 dishes, glasses, or other representative utensils. The bacterial count shall be determined by the standard plate count and swab method.

(10) Following sanitizing, all dishes, glasses, silverware, and utensils shall be drained in an inverted position on sanitary drain racks, trays, or boards with protection from flies, dust, and other contamination during storage.

(11) All establishments dispensing alcoholic beverages shall provide properly designated flush toilets for each sex. Such toilets shall be so constructed as to assure complete privacy as to segregation of sexes. Toilets shall be easily accessible, with no entrance through a kitchen or living quarters. Each toilet shall have outside ventilation or be vented thereto (vents to be 6 inches in diameter).

(12) The minimum floor space of each toilet shall be 5 feet by 7 feet or 35 square feet. The floor of each toilet shall be made of nonabsorbent material which shall extend 8 inches on the walls above the floor level and be equipped with a drain.

(13) Toilets for men shall have the following equipment: 1 wash bowl with running water, 1 intermittent or flush type wall urinal (minimum length 3 feet), 1 flush stool complete with cover (same to be segregated from urinal by a partition) for each 100 patrons (based on seating capacity of establishment), individual sanitary towels, plenty of soap, sanitary toilet paper, and a metal receptacle for accumulated waste.

(14) Toilets for women shall have the same equipment as for men except urinal, the amount of equipment to be determined the same as for men.

(15) All toilets and washrooms, including walls, floors, ceilings, and fixtures shall be kept in a clean and sanitary condition. Walls and ceilings shall be painted with a light-colored waterproof paint or enamel.

(16) R 325.581 through R 325.591, appearing on pages 2283, 2284, and 2285 of the Michigan Administrative Code of 1954, are rescinded. R 285.525, appearing on page 1547 of the Michigan Administrative Code of 1954, is rescinded.

History: 1954 ACS 35, p. 44, Eff. Aug. 14, 1963.

SANITATION STANDARDS AT CAMPS AND SUMMER RESORTS

R 325.601—R 325.676 Rescinded.

History: 1944 AC, pp. 320-327; 1954 AC, pp. 2286-2294; rescinded 1954 ACS 68, p. 25, Eff. July 2, 1971.

MICHIGAN MILK ORDINANCE

R 325.681—R 325.717

History: 1944 AC, pp. 327-335; 1954 AC, pp. 2295-2303.

Editor's Note: At the request of the department of public health, the above rules have been omitted from the Michigan Administrative Code of 1979. For text of these rules, see the Michigan Administrative Code of 1954, pp. 2295-2303.

SANITATION STANDARDS FOR SCHOOLS

R 325.721 Building and grounds.

Rule 1. (1) The school site which includes the area used for a playground as well as that immediately adjacent to the school building shall be evenly graded

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

and sloped so as to provide adequate surface drainage. Under-drains connected to proper drains may be necessary in large level areas or where soil conditions do not provide sufficient natural drainage. An ample play area shall be provided which shall be either fenced or properly isolated from vehicular traffic. There shall be approximately 1,000 square feet of usable space allowed for each child in the play area at any one time. At least 25,000 square feet should be provided for the play area.

(2) The school building shall have a substantial foundation, water-tight and fire resistant roof and interior walls having smooth even surfaces. The chimney shall rest on solid ground and extend above the highest portion of the roof ridge of the building. The chimney shall be lined with fire-resistant brick or fire-resistant flue lining. The foundation, roof, walls and chimney shall be kept in good repair.

(3) The classroom shall be of sufficient size to provide at least 200 cubic feet of air space and at least 20 square feet of floor space per child. There shall be provided sufficient space to store outer clothing, rubbers, lunch boxes, play equipment, etc., preferably a separate location for each sex. This space shall be easily accessible, well lighted and ventilated and should be located so that it can be supervised by the teacher. This can be made a part of the study or classrooms or located in a separate room.

(4) Floors shall be of substantial material free from cracks or holes and should have a smooth, even surface. Floors shall be sealed with a satisfactory floor sealer or dust laying compounds used while sweeping. The use of oils on the floor is not recommended. Floors in toilet rooms should be of impervious material. All floors shall be kept clean and in good repair.

(5) Study or classroom walls and ceiling shall have surfaces of light color and dull finish. Such walls shall be kept clean and in good repair.

(6) Blackboards shall have smooth, even surfaces with no cracks and as few seams as possible. Blackboards shall have a dull finish and be so located that they will be seen most easily by the intended user. Blackboards located in narrow spaces between windows are difficult to see and shall not be used. Blackboards shall be kept in good repair.

History: 1944 AC, p. 335; 1954 AC, p. 2304.

R 325.722 Heating and ventilation.

Rule 2. (1) Windows opened from the bottom, which cause direct currents of air on children nearby, shall be provided with window ventilators or deflectors. All windows should be adjustable at the top and bottom and when this is the only means of ventilation at least ½ of the windows shall open from both top and bottom. Ducts and fans in connection with mechanical ventilation shall be so arranged and controlled as to eliminate objectionable air currents directly on the children. When mechanical ventilation is provided it is undesirable to open windows as this usually throws the system out of balance.

(2) School heating plants should be so designed and controlled as to properly circulate the air. There shall be not more than a 5 degree Fahrenheit difference in temperature at the 4-foot point above the floor in the various study or classrooms. The heating plant shall have a proper capacity and be so located and operated as to maintain a temperature of at least 68 degrees Fahrenheit at a point 4 feet above the floor under average winter weather conditions. The heating plant shall be kept in good repair.

(3) Steam jets, water sprays or vaporizers, or water evaporators should be provided so that the relative humidity will be maintained above 30% in study or classrooms. Care should be taken, however, to prevent schoolroom air from being

so moist that furniture is covered with condensed moisture and windows are rendered entirely opaque by it. When this condition exists the character of freshness in the air is absent and there are usually unpleasant odors.

(4) A thermometer shall be available and should be mounted about 4 feet above the floor on a movable stand so that temperatures in various parts of the schoolroom can be checked. All thermometers shall record the temperature accurately within 2 degrees Fahrenheit between the range of 50 degrees Fahrenheit to 80 degrees Fahrenheit. Temperature records should be kept with at least 4 readings per day at all schools where automatic heat control is not in use.

History: 1944 AC, p. 335; 1954 AC, p. 2304.

R 325.723 Lighting.

Rule 3. (1) Windows should extend as near to the ceiling as possible and shall be located along 1 side of the study room. They should preferably be along the north side with second choice on the east, the next choice on the west, with the least desirable position being along the south side. The total window area should be approximately ¼ of the floor area. Windows shall be kept reasonably clean at all times that school is in session.

(2) All windows in class or study rooms shall be equipped with adjustable shades of light-colored, translucent material. It is recommended that shades be mounted on 2 rollers near the middle of the window opening, 1 operating upward and the other downward. Louvers or venetian blinds employing reflecting and diffusing surfaces which may be adjusted at various angles are also satisfactory. All shades or blinds shall be kept in a good working condition and so used or adjusted that glare and excessive light intensities are reduced to a minimum.

(3) Whenever electricity is available, the study or classroom shall be artificially lighted at all times that natural lighting is insufficient to provide a proper amount of illumination and a uniform distribution throughout the room. There shall be at least 10 footcandles of illumination on the top of each study desk.

(4) The type of lighting, size of room, ceiling height and reflection characteristics of the walls and ceiling are factors which must be considered before the number and location of fixture, type of globes and size of the lamps or bulbs can be determined. With so many variables there can be no simple formula devised for determining the proper type of installation.

(5) There shall be a sufficient number of properly located fixtures equipped with lamps of adequate size and satisfactory globes to provide at least 10 footcandles of illumination on the study desk. Globes shall be kept clean at all times.

(6) Fluorescent lamps were announced in the spring of 1938 and therefore general standards as recommended for use with (tungsten-filament) lamps are not generally available for fluorescent lighting. The rapid introduction of fluorescent lamps, new types of fixtures and new control equipment, makes it advisable to consult a person familiar with the latest developments in this type of lighting.

History: 1944 AC, p. 336; 1954 AC, p. 2305.

R 325.724 Screening.

Rule 4. All outside openings in toilets, shower or locker rooms, and rooms where food is prepared, served or eaten shall be screened. All windows in class or study rooms which are opened for ventilation shall be screened. All screen doors shall be self-closing. All screens shall be at least 16 mesh per inch. When entrance doors are self-closing, screen doors will not be required.

History: 1944 AC, p. 336; 1954 AC, p. 2305.

R 325.725 Seating.

Rule 5. (1) The modern ideal of classroom equipment requires a completely individualized seating unit for each pupil and at least 1 large table for group projects and activities, with several lightweight chairs for use at the table or separately. Movable seating and small classes permit freedom in movement and placing of seats. The desks should be so arranged that the light is admitted from the left and rear of the seated children. Many times rows of desks beginning near the bank of windows and extending diagonally across the room provide the most advantageous arrangement. Special consideration should be given to left-handed children, and their desks should be so located that light will be over the right shoulder rather than from the left as is desirable in the case of right-handed children.

(2) When the pupil is erectly seated with feet squarely on the floor, there must be no pressure from the forward edge of the seat under the knees. The height of the writing surface shall be such that when the pupil is erectly seated, shoulders well down and elbows fairly close to the sides, with palms flat on the desk, both forearms in writing position will contact throughout the surface.

(3) The seating equipment shall be in good repair, and the desk tops shall be of smooth dull finish.

(4) Research activities of one of the leading school furniture companies has resulted in the standardization of adjustable desks in sizes as shown in the following table:

(a) Size C is suited for any pupils in grades 1 to 3 inclusive.

(b) Size B is suited for any pupils in grades 2 to 5 inclusive.

(c) Size A is suited for pupils in grades V through high school, with possibly a few exceptions in the highest grades.

(d) Size AA is suited for high school and college students and adults.

History: 1944 AC, p. 336; 1954 AC, p. 2305.

R 325.726 Safety.

Rule 6. (1) Each school building shall have first-aid material available and easily accessible. It is recommended that first-aid kits be equipped with the following items:

(a) Compresses and bandages:

(i) 1-inch compress on adhesive in individual packages.

(ii) Assorted sterile bandage compresses in individual packages.

(iii) Triangular bandages.

(iv) Sterile gauze in individual packages of about 1 square yard.

(v) 1-inch and 2-inch roller bandages.

(b) Wire or thin board splints.

(c) Inelastic tourniquet.

(d) Adhesive tape.

(e) Scissors.

(f) Forceps (3 inch splinter).

(g) Toothpicks.

(h) Paper cups.

(i) Iodine (mild).

(j) Aromatic spirits of ammonia.

(k) Burn ointment such as 5% tannic acid jelly.

(l) Picric acid gauze.

(m) Castor oil or mineral oil for use in eyes (this should be sterile; may be obtained in small tubes).

(2) The red cross first-aid manual (current edition) or the boy scout handbook are recommended as guides on technique.

(3) At least 1 manually operated fire extinguisher shall be provided in all school buildings and so located as to be easily accessible. The 1 quart carbon tetrachloride, 2½ gallon soda and acid chemical extinguisher and a 5-gallon water extinguisher with pump are approved types. Each fire extinguisher should be periodically examined and kept at all times in a usable condition. School buildings which are 2 or more stories in height must be equipped with standard fire escapes which meet the approval of the state fire marshal.

(4) All doors to the outside shall open outward and should be equipped with panic latches. Fire drills shall be held at regular intervals and at least once a month is recommended.

(5) The play area shall be such as to make a safe place for the children to play. There should be no rocks or obstructions in the area and the ground should be leveled. If the playground is situated near the road, a safety fence should be provided.

(6) All playground equipment shall be well constructed and maintained in good repair. The equipment should be inspected frequently to detect defects and when found it shall be dismantled or placed out of service until repaired or replaced.

History: 1944 AC, p. 337; 1954 AC, p. 2306.

R 325.727 Water supply.

Rule 7. (1) Each school building shall be provided with an ample supply of water, preferably from a municipal or public water supply system. If such a system is not available, water from an underground source shall be obtained by means of a driven or drilled well on the school property. The pump shall be in good working order at all times so as to adequately supply the water demands of the school.

(2) Any water supply (other than a municipal supply) provided for the school shall comply with the regulation on minimum standards for the location and construction of wells used for the production of untreated public and semi-public water supplies other than municipal supplies, as adopted by the state council of health September 16, 1941.

(3) Samples from school drinking water supplies shall show no evidence of dangerous contamination upon bacteriological analysis. The water supply should produce no disagreeable odors or tastes and should be clear and colorless in appearance.

(4) Water shall be dispensed by means of sanitary fountains or covered water coolers and paper cups. The dipping of water from open containers will not be approved. The use of common drinking cups is prohibited by state law (section 475 of Act No. 328 of the Public Acts of 1931, being §750.475 of the Michigan Compiled Laws). Paper cups should be stored and dispensed in a sanitary manner.

History: 1944 AC, p. 337; 1954 AC, p. 2306.

R 325.728 Handwashing facilities.

Rule 8. (1) Handwashing facilities shall be of such a type that the washing of hands under running water may be accomplished. Waste water shall be drained away to a satisfactory disposal system. The handwashing facilities shall be conveniently located and should be in close proximity with the toilets.

Digitized by Google

(2) In rural schools where handwashing facilities are not located in the toilet rooms, 1 lavatory shall be provided for each schoolroom. In larger installations lavatories shall be provided on the basis of 1 lavatory for every 3 toilet seats and urinals.

(3) Powdered or liquid soap and individual towels shall be provided and made available at all times. Handwashing facilities shall be kept clean and in good repair.

History: 1944 AC, p. 337; 1954 AC, p. 2307.

R 325.729 Showers.

Rule 9. When athletic or gymnastic activities are conducted, showers shall be provided. There should be 1 shower head for each 10 users, based upon the maximum demand at any 1 period. Hot and cold water shall be provided at the showers and sufficient hot water should be available to serve the maximum demand. Foot baths should be provided in the passageway between the shower and locker rooms. Foot baths should be filled with 10% salt solution by weight or a 1% sodium of calcium hypochlorite solution. This solution should be replaced after each day's use. Shower and locker rooms should be kept clean and well ventilated and the lockers, shower heads, and floors in good repair.

History: 1944 AC, p. 338; 1954 AC, p. 2307.

R 325.730 Toilets.

Rule 10. (1) For schools with an enrollment less than 100, toilet facilities shall be provided on the following basis: One toilet seat for each 20 boys or 15 girls or major fraction thereof, 1 urinal for every 30 boys or major fraction thereof, and 1 lavatory for every 3 toilet seats or toilet seats and urinals. When the enrollment is over 100, facilities shall be provided on the following basis: One toilet seat for each 30 boys or 20 girls or major fraction thereof, 1 urinal for every 40 boys or major fraction thereof, and 1 lavatory for every 3 toilet seats or toilet seats and urinals.

(2) Separate toilet facilities for each sex shall be conveniently located.

(3) Toilet facilities should be provided in conjunction with shower or locker rooms. In schools accommodating grades from 1 to 12, separate toilet facilities should be provided for the upper and lower grades.

(4) Toilet rooms shall be well ventilated and have at least 1 window opening to the outside. Toilet rooms shall be well lighted either by natural or artificial means. There shall be at least 3 footcandles of illumination.

(5) Toilet paper shall be available at all times. Toilet rooms and fixtures shall be kept clean and in good repair.

History: 1944 AC, p. 338; 1954 AC, p. 2307.

R 325.731 Sewage disposal.

Rule 11. (1) The state plumbing code applies to all public schools. All liquid wastes from a school building shall be discharged into a public sewer system when possible. When a public sewer system is not available liquid wastes shall be disposed of into a private system consisting of a septic tank, dosing chamber and disposal field or seepage pit. The dosing chamber may be omitted if the septic tank has a capacity of less than 1,000 gallons.

(2) The septic tank shall have adequate capacity to receive the normal 24-hour flow of sewage, but in no case shall be less than 500 gallons. A dosing chamber when provided should have a capacity equal to at least ¼ that of the septic tank.

(3) The tank shall be constructed of concrete or other impervious material. When constructed of concrete the side walls, top and bottom shall be of a mixture and thickness which will insure a dense, water-tight structure. Sufficient reinforcement should be used to prevent cracking.

(4) The water depth in the tank shall be at least 4 feet. The distance between the water level and the underside of the tank cover should be at least 12 inches. All tanks shall be provided with 1 or more openings with covers to permit inspection and cleaning. The outlet of all tanks shall be so constructed as to prevent solid material passing into the discharge pipe.

(5) The disposal tile should be laid with an earth cover of about 12 inches. Under no conditions shall the tile lines be laid below any known high groundwater level. The disposal field tile shall have a capacity sufficient to receive a complete discharge from the dosing chamber.

(6) When a seepage pit is provided, it shall have a capacity sufficient to receive a normal 12-hour flow of septic tank effluent. In no case should a seepage pit penetrate or extend into a water-bearing stratum or overflow to the ground surface.

(7) When earth-pit outhouses, septic toilets, and chemical closets are used, they shall comply with Act No. 273 of the Public Acts of 1939, being §325.271 et seq. of the Michigan Compiled Laws, and the regulation pertaining to the construction and maintenance of outhouses as adopted by the state council of health June 6, 1940.

History: 1944 AC, p. 338; 1954 AC, p. 2307.

R 325.732 Garbage disposal.

Rule 12. (1) In schools where hot lunches are prepared and served, fly-proof and water-tight metal containers shall be provided for garbage. Garbage cans shall be emptied at regular intervals and never allowed to become foul smelling or a breeding place for flies.

(2) Garbage shall be disposed of in a manner which creates neither a nuisance nor a menace to health. The depositing of garbage into any lake, stream or other body of water is prohibited. Garbage may be disposed of in 1 of the following ways: (a) Hauled away by a farmer or other collector of garbage; (b) buried and covered with at least 12 inches of earth; (c) burned in an incinerator or furnace.

History: 1944 AC, p. 338; 1954 AC, p. 2308.

R 325.733 Hot lunch equipment.

Rule 13. (1) In schools where hot lunches are prepared and served, adequate equipment shall be provided. The hot plate or stove shall have a sufficient number of burners. Water-heating equipment shall be capable of furnishing water of the required temperature during the entire dishwashing period. Kitchen utensils, pots, pans, and similar devices shall have smooth surfaces free from rust, foreign deposits and corrosion and shall be maintained in a sanitary condition. Table dishes shall be free from cracks or chips and free from film. Silverware shall be free from corrosion. Tables and work benches shall have smooth surfaces. Dishes following washing and sanitization shall be stored in such a manner as not to expose them to contamination.

(2) All utensils, glasses, or other dishes other than single service containers used in the serving of food or drink shall be thoroughly washed and cleansed after each separate use in hot water of not less than 110 degrees Fahrenheit containing soap, soap powder, or other effective cleaning agents so as to remove all foreign matter. Such utensils, glasses or other dishes shall then be either immersed in hot water at

a temperature of 170 degrees Fahrenheit for at least 2 minutes immediately after washing or subjected to a thorough clear water rinse by immersion or a spraying process, after which they shall be completely immersed for a period of at least 2 minutes in clear water containing a sterilizing solution of not less than 100 parts per million of available chlorine. Drying cloths, if used, shall be clean and shall be used for no other purpose.

(3) Where a municipal sewer system is not available, liquid wastes shall be disposed of into a private system which includes a sanitary means of disposal, the operation of which creates neither a nuisance nor a menace to health.

History: 1944 AC, p. 339; 1954 AC, p. 2308.

R 325.734 Food handling.

Rule 14. (1) All milk, cream, and milk products shall be processed in a pasteurization plant which is licensed by the state department of agriculture. Milk should be served in the original container as delivered by the pasteurization plant.

(2) All perishable food shall be stored in such a manner as to keep the temperature below 60 degrees Fahrenheit. All other foodstuffs shall be kept in covered containers.

History: 1944 AC, p. 339; 1954 AC, p. 2308.

BOTTLE CAPS

R 325.741 Reuse of bottle caps.

Rule 41. Any beverages held in containers sealed with salvaged or reclaimed crown metal caps or similar type caps will be considered adulterated and subject to condemnation and the manufacturer or bottler subject to criminal prosecution until such time as when a sanitary cap which contains a lining which can be sterilized is manufactured and available and such caps should be approved in writing by the state department of health before their use.

History: 1944 AC, p. 339; 1954 AC, p. 2309.

TRAILER COACH PARKS

R 325.746 Restrictions imposed on trailer coach parks.

Rule 46. For the duration of the war the regulations affecting trailer coach parks operating only between May 1 and October 1, adopted by this state council of health, May 7, 1942, shall be enforced to the extent to which it is possible for trailer coach park owners and operators to obtain the materials required by such regulation, and any substitute construction, material, or method of a quality or suitability less than the requirement of the regulations shall be the best possible under the existing conditions. A temporary license may be issued to such camp under the above-mentioned conditions, and annually thereafter for the duration of the war, or until such time as normal construction may be possible, the trailer coach park owner or operator when applying for license shall have a reinspection and the equipment and operating procedure reviewed in the light of their prevailing conditions. If it shall appear at such time that full or more complete compliance with the original regulations is possible, the trailer coach park owner or operator shall be given notice to promptly make such changes as may be found possible to more fully comply with the aforesaid regulations.

History: 1944 AC, p. 339; 1954 AC, p. 2309.

BUREAU OF DISEASE CONTROL AND LABORATORY SERVICES

CONTROL OF TUBERCULOSIS

(By authority conferred on the department of public health by section 7 of Act No. 146 of the Public Acts of 1919, as amended, section 2 of Act No. 314 of the Public Acts of 1927, as amended, section 8 of Act No. 177 of the Public Acts of 1925, and section 427 of Act No. 380 of the Public Acts of 1965, as amended, being §§325.7, 329.402, 332.158, 16.109, and 16.527 of the Michigan Compiled Laws)

PART 1. STATE SUBSIDY

R 325.751—R 325.762 Rescinded.

History: 1944 ACS 21, pp. 14, 15; 1944 ACS 24, pp. 12, 13; 1954 AC, pp. 2309, 2310; rescinded 1954 ACS 32, p. 7, Eff. Nov. 14, 1962.

R 325.763 Compliance with standards.

Rule 113. Each hospital shall comply with the duly established minimum standards for hospitals required by R 325.1001 to R 325.1005, R 325.1021, R 325.1023, R 325.1025 to R 325.1028, and R 325.1060 of the Michigan Administrative Code.

History: 1954 ACS 32, p. 7, Eff. Nov. 14, 1962; 1954 ACS 44, p. 32, Eff. Nov. 14, 1965.

PART 2. ADMISSIONS TO TUBERCULOSIS HOSPITALS

R 325.771 Official application.

Rule 201. An official application (K-64) signed by the patient, a physician, and the health officer of the jurisdiction in which the patient is found or has domicile, must be on file in the sanatorium at the time of admittance, for each patient in the sanatorium, except (1) private paying patients, (2) patients committed to the sanatorium by the probate court in accordance with provisions of section 2a of Act No. 314 of the Public Acts of 1927, as amended, and (3) patients transferred from another sanatorium in accordance with part 6 of these rules.

History: 1944 ACS 21, p. 15; 1954 AC, p. 2310; 1954 ACS 32, p. 7, Eff. Nov. 14, 1962; 1954 ACS 44, p. 32, Eff. Nov. 14, 1965.

R 325.772 Official case report.

Rule 202. An official case report (K-600) shall be submitted in accordance with section 1 of Act No. 314 of the Public Acts of 1927, as amended, being §329.401 of the Michigan Compiled Laws.

History: 1944 ACS 21, p. 15; 1954 AC, p. 2310; 1954 ACS 32, p. 7, Eff. Nov. 14, 1962.

R 325.773 Tuberculosis hospital report.

Rule 203. A tuberculosis hospital report (K-602) shall be sent to the Michigan department of health within 4 days after the admittance of all patients, including private patients.

History: 1944 ACS 21, p. 15; 1954 AC, p. 2310; 1954 ACS 32, p. 7, Eff. Nov. 14, 1962.

R 325.774 Rescinded.

History: 1944 ACS 21, p. 15; 1954 AC, p. 2310; rescinded 1954 ACS 32, p. 7, Eff. Nov. 14, 1962.

R 325.775 Admission of state residents to approved hospital or sanatorium; procedure.

Rule 205. Residents of the state at large may be admitted to any approved tuberculosis hospital or sanatorium in accordance with the usual procedure as

stated in sections 1, 2, and 3. In addition, form K-85 shall be completed and forwarded to the state commissioner of health for approval. This form is filled out by the health department and county department of social welfare. It does not replace, but merely supplements form K-64. Form K-85 shall be submitted within 30 days after admittance whether or not a complete investigation of domicile shall have been completed within that period. If for any reason state at large status cannot be determined within 30 days after admittance, a letter setting forth the reasons for the delay shall accompany the form. In such cases, state at large authorization retroactive to the date of admittance shall be made only at the discretion of the state health commissioner.

History: 1944 ACS 21, p. 15; 1954 AC, p. 2311; 1954 ACS 32, p. 7, Eff. Nov. 14, 1962; 1954 ACS 44, p. 32, Eff. Nov. 14, 1965.

R 325.776—R 325.779 Rescinded.

History: 1944 ACS 21, pp. 15, 16; 1954 AC, p. 2311; rescinded 1954 ACS 32, p. 7, Eff. Nov. 14, 1962.

PART 3. TRANSFERS, DISCHARGES, AND DEATHS

R 325.781 Tuberculosis hospital report.

Rule 301. A tuberculosis hospital report (K-603) shall be sent by the superintendent to the Michigan department of health within 4 days after the transfer, discharge, or death of each tuberculosis patient, including private patients.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2311; 1954 ACS 32, p. 7, Eff. Nov. 14, 1962; 1954 ACS 44, p. 32, Eff. Nov. 14, 1965.

R 325.782 Notice of probable date of discharge.

Rule 302. Whenever the day of discharge can be anticipated, the local full-time health officer of the jurisdiction in which the patient plans to live shall be notified by the superintendent of the sanatorium of the probable date of discharge. If there is no local full-time health officer the report shall be sent to the state commissioner of health.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2311.

R 325.783 Notice of discharge against medical advice.

Rule 303. When a patient leaves the sanatorium against medical advice, the superintendent shall notify, within 24 hours after such discharge, both the local full-time health officer of the county responsible for the patient's hospital care and the local full-time health officer of the jurisdiction to which such patient is believed to have gone. If there is no local full-time health officer in either case, the notice shall be sent to the state commissioner of health.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2312.

R 325.784 Departure of committed patient against medical advice.

Rule 304. When a patient who has been committed to the sanatorium by the probate court leaves the sanatorium against medical advice, the provisions in part 4B of these rules shall be complied with.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2312.

R 325.785 Rescinded.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2312; rescinded 1954 ACS 32, p. 8, Eff. Nov. 14, 1962.

R 325.786 Discharge of non-tuberculous public charge patient; subsidy payments.

Rule 306. A public charge patient admitted with a provisional diagnosis of tuberculosis but later found to be non-tuberculous shall be promptly discharged.

Subsidy payments will not be approved for such a patient for more than 60 days after admittance except by special written approval of the state director of public health.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2312; 1954 ACS 76, p. 17, Eff. June 27, 1973.

R 325.787 Rescinded.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2312; rescinded 1954 ACS 32, p. 8, Eff. Nov. 14, 1962.

PART 4A. VOUCHERS FOR COUNTY CHARGE PATIENTS

R 325.801 Voucher forms.

Rule 401. Prescribed voucher forms (A-135) shall be used and submitted monthly for reporting individual county charge patients treated in accordance with Michigan statutes. The report shall contain the name of each such patient, the county to which the voucher is payable, the dates of beginning and end of the period of time covered by the report and the amount of subsidy calculated at the rate established by law. Subsidy will be paid for the day of admittance, but not for the day of discharge.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2312; 1954 ACS 32, p. 8, Eff. Nov. 14, 1962.

R 325.802 Processing voucher copies.

Rule 402. The original copy of the voucher (white), together with 5 copies (pink, goldenrod, yellow, blue and green) shall be forwarded to the county clerk or clerk of the board of auditors of the county which is to receive the subsidy payments. After such clerk affixes his signature, the original and 4 copies (clerk retains green copy) are forwarded by him to the Michigan department of health at Lansing. This report, when properly signed by the hospital or sanatorium superintendent, county clerk, and the state commissioner of health, constitutes a voucher which is then forwarded through the proper channels. The goldenrod copy accompanies the check which is sent to the payee (county treasurer), from the auditor general of the state of Michigan.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2312.

R 325.803 Subsidy voucher.

Rule 403. Each subsidy voucher shall include a statement to the effect that the county hospitalizing the patient has paid the sanatorium in full for the care of tuberculosis patients, except for that period of time covered by that voucher.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2312.

R 325.804 Adherence to commission decision regarding county of domicile.

Rule 404. When a decision of the state social welfare commission regarding county of domicile has been rendered in accordance with section 3 of Act No. 314 of the Public Acts of 1927, as amended, and the county determined to be responsible fails to adhere to those findings, no state subsidy shall be paid to that county for the care of tuberculosis patients in any sanatorium until payment for the cases under question has been made.

History: 1944 ACS 21, p. 16; 1954 AC, p. 2312; 1954 ACS 44, p. 32, Eff. Nov. 14, 1965.

PART 4B. VOUCHERS FOR STATE AT LARGE PATIENTS

R 325.811 Processing voucher forms.

Rule 411. Prescribed voucher forms (IA-136) for state at large patients shall be processed the same as county vouchers, except that the payee will be the sanatorium where hospital care is being given, instead of the county treasurer.

History: 1944 ACS 21, p. 17; 1954 AC, p. 2313.

R 325.812 At large payments; application form required.

Rule 412. No state at large payments will be made for hospitalization of outpatient care until or unless the application form (K-85) has been received and approved by the state commissioner of health. In the case of persons being readmitted to a sanatorium, a second application form K-85 shall be submitted to the state health commissioner for each subsequent admission of a nonveteran state at large patient. It is not necessary to submit a second K-85 for any person whose care has been previously authorized as state at large on the basis of his having been discharged from the military services of the United States.

History: 1944 ACS 21, p. 17; 1954 AC, p. 2313.

R 325.813 Payment for hospital care on per diem basis.

Rule 413. Payments for hospital care in approved tuberculosis hospitals and sanatoria will be made on a per diem basis on certification of the superintendent that the rates charged are the actual cost of operation for the latest complete fiscal year, as verified by audit. A statement of operating costs of each approved sanatorium for the previous fiscal year shall be submitted to the state commissioner of health not later than 60 days following the close of such fiscal year. All necessary and reasonable services to the patient, over and above the usual cost of care and treatment for tuberculosis, shall be provided by the hospital and included in the per diem rate.

History: 1944 ACS 21, p. 17; 1944 ACS 24, p. 13; 1954 AC, p. 2313; 1954 ACS 6, p. 13, Eff. May 15, 1956; 1954 ACS 44, p. 33, Eff. Nov. 14, 1965.

R 325.814 Certification of vouchers.

Rule 414. All such vouchers shall bear the certification of the superintendent of the sanatorium that no collections have been made from any other source, and shall further certify that if collections are subsequently made from another source, the proper adjustment to the state at large account will be made immediately.

History: 1944 ACS 21, p. 17; 1954 AC, p. 2313.

R 325.815 Adjustments to state at large account.

Rule 415. In the event that subsequent investigation shall show that a patient authorized and paid for as a state at large charge was a legal responsibility of a county in this state, the proper adjustment to the state at large account shall be made immediately by the sanatorium. No state at large payments will be made to the sanatorium until such adjustment has been made.

History: 1944 ACS 21, p. 17; 1954 AC, p. 2313.

R 325.816 Transportation of state at large patient.

Rule 416. In exceptional cases and where it is available through no other source, transportation of a state at large patient to a tuberculosis sanatorium may be approved by the state health commissioner, provided that such approval be secured prior to incurring the expense. When approved, bills should be submitted to the Michigan department of health in triplicate and must have been approved by the full-time or part-time health officer and must certify that no other means was available of getting the patient to the hospital.

History: 1944 ACS 21, p. 17; 1954 AC, p. 2313.

R 325.817 Payment for additional care.

Rule 417. Payment for clothing, dentures, glasses and treatment including surgery for non-tuberculous conditions must be authorized by the state health

commissioner prior to incurring the expense except in the case of extreme emergency. Authorization will in no case be granted if available from any other source or if costs for such services have already been included in the establishment of a per diem rate. It must be definitely shown that such care will contribute toward the patient's recovery from tuberculosis. A certification to that effect shall be filed with the state health commissioner.

History: 1944 ACS 21, p. 17; 1954 AC, p. 2313.

R 325.818 Bills for outpatient care and treatment.

Rule 418. All bills for outpatient care and treatment shall be submitted to the state health commissioner in triplicate and shall have been approved by the full-time or part-time health officer where the patient is living, together with his statement that to his knowledge the patient is an honorably discharged veteran or does not have domicile in any county in Michigan.

History: 1944 ACS 21, p. 17; 1954 AC, p. 2313; 1954 ACS 44, p. 33, Eff. Nov. 14, 1965.

R 325.819 Rescinded.

History: 1944 ACS 21, p. 17; 1944 ACS 24, p. 13; 1954 AC, p. 2314; rescinded 1954 ACS 44, p. 33, Eff. Nov. 14, 1965.

R 325.820 Outpatient services; tuberculosis services; billing.

Rule 420. Outpatient services rendered by clinics in approved tuberculosis sanatoriums shall not be included in the per diem rate to the state for in-patients. Tuberculosis services rendered to outpatients, for whom care and treatment has been approved as a charge against the state at large tuberculosis funds, shall be billed on a fee-for-service basis in accordance with the latest uniform fee schedule for governmental welfare agencies of the Michigan state medical society, accepted for filing by the department of public health.

History: 1954 ACS 51, p. 19, Eff. Aug. 15, 1967.

PART 5. REIMBURSEMENTS FOR CARE OF PATIENTS

R 325.831 Statement of receipts from or for tuberculosis cases.

Rule 501. Each month the board of trustees, or the medical superintendent of the sanatorium or hospital shall prepare and submit to the Michigan department of health a statement on form A-66, statement of receipts from or for tuberculosis cases, setting forth the actual amounts collected and for which a reimbursement is due the state because of previous or current subsidy payments. The statement shall include all such collections made during the month from individual tuberculosis patients, from their relatives or friends or in the form of collections from insurance companies, and from any other source, except moneys received or receivable as state subsidy as provided for under Act No. 177 of the Public Acts of 1925, as amended, to reimburse in whole or in part for their care and treatment.

History: 1944 ACS 21, p. 18; 1944 ACS 24, p. 13; 1954 AC, p. 2314; 1954 ACS 44, p. 33, Eff. Nov. 14, 1965.

R 325.832 Statement; reimbursement by patients.

Rule 502. The statement shall be concerned only with those tuberculosis patients from or for whom moneys have been received and who are or have been listed on vouchers for payment of state subsidy. However, if no such reimbursements have been received for any patients during the month, the form shall be sent to the Michigan department of health with certification that no such funds have been received.

History: 1944 ACS 21, p. 18; 1954 AC, p. 2314; 1954 ACS 44, p. 33, Eff. Nov. 14, 1965.

R 325.833 Reimbursement moneys.

Rule 503. (1) All moneys received as reimbursement for expenses for the treatment and control of tuberculosis of each county patient shall be divided between the state and the county of domicile in the same proportion as was used in paying for the care of that patient. Moneys received for state at large patients shall be paid in their entirety to the state. There shall be no redistribution of collections for reimbursement of hospitalization costs unless and until all tax funds out of which care was provided for that patient have been repaid in full for the entire period of his hospitalization. Hospitalization insurance moneys whether from first or second carriers or from dual carriers shall be distributed pro-rata to the funds out of which the hospitalization costs were paid. Collections of surgical fees are subject to the same pro-rata share as are the hospital benefits. Any surplus remaining after tax expenditures have been reimbursed in full shall be distributed in accordance with law.

(2) The pro-rata share is determined by a ratio of state subsidy to the daily rate charged to, or paid by, the county of domicile, whichever is less.

History: 1944 ACS 21, p. 18; 1954 AC, p. 2314; 1954 ACS 15, p. 6, Eff. Aug. 14, 1958; 1954 ACS 44, p. 33, Eff. Nov. 14, 1965.

R 325.834 Mailing remittance and statement.

Rule 504. A remittance to the Michigan department of health covering the amount set forth in the statement as the state's share shall be mailed with the statement. The statement and remittance must be mailed to the Michigan Department of Health, Lansing, Michigan, each month within 30 days following the end of the month covered by the statement.

History: 1944 ACS 21, p. 18; 1954 AC, p. 2314; 1954 ACS 44, p. 33, Eff. Nov. 14, 1965.

PART 6. RECALCITRANT PATIENTS

R 325.841 Procedure adopted for certain patients; transfer application.

Rule 601. (1) The following procedure shall be adopted with regard to patients who remain in a sanatorium but who refuse to comply with rules and otherwise so conduct themselves that a transfer to another institution seems desirable.

(2) The chief medical officer or superintendent shall complete form K-81 in quadruplicate, retaining 1 copy for his files and sending the other 3 to the state commissioner of health. No information requested on this form shall be omitted.

History: 1944 ACS 21, p. 18; 1954 AC, p. 2314.
Editor's note: The provisions of former R 325.840 have been combined with R 325.841.

R 325.842 Processing transfer application.

Rule 602. Upon receipt of the 3 copies of the transfer application K-81 the state commissioner of health will send 1 copy to the probate court of the county of commitment, 1 copy to the health officer of the county of commitment, and will retain 1 copy for his files. The state commissioner of health will then investigate, and either approve or disapprove the application. If the application is disapproved the superintendent or medical officer will be duly advised.

History: 1944 ACS 21, p. 18; 1954 AC, p. 2314.

R 325.843 Approval of transfer application; notice.

Rule 603. In the event the state commissioner of health approves the application, he will notify the patient by registered mail of the pending transfer, including the date of such transfer. A copy of this notice will be sent to the superintendent or medical officer making application.

History: 1944 ACS 21, p. 18; 1954 AC, p. 2315.

R 325.844 Order for transfer.

Rule 604. The state commissioner of health will then issue an order for transfer and send the same to the probate court of commitment requesting that the court arrange for the physical transfer of the patient and on the date indicated. At the time the transfer is made, the superintendent or chief medical officer requesting the transfer shall transfer to the new institution all records pertaining to the transferred patient.

History: 1944 ACS 21, p. 18; 1954 AC, p. 2315.

R 325.850 Patients leaving sanatorium against medical advice.

Rule 610. The following procedure shall be complied with in regard to patients who have left the sanatorium against medical advice.

History: 1944 ACS 21, p. 18; 1954 AC, p. 2315.

R 325.851 Notice of leaving.

Rule 611. The superintendent or chief medical officer shall immediately notify the state commissioner of health of such leaving, on forms provided (K-81). Such forms shall be completed in their entirety, and shall include recommendations by the superintendent or chief medical officer. These recommendations shall include a statement concerning the ability of the sanatorium to care for the patient should he be returned to it. Upon receipt of the notification, the state commissioner of health shall send a copy of such notice to the probate court of the county of commitment.

History: 1944 ACS 21, p. 18; 1954 AC, p. 2315.

R 325.852 Action to locate and apprehend patient.

Rule 612. The state commissioner of health shall immediately take such action as is necessary to locate and apprehend the patient, using such police facilities as are necessary. As soon as the state commissioner of health has been informed that the patient has been located, he shall order transfer, by any available means, of such patient to any available institution as the case requires. Upon completion of the transfer, the superintendent or medical director of the original sanatorium shall transfer to the receiving hospital all records of such patient.

History: 1944 ACS 21, p. 19; 1954 AC, p. 2315.

PART 7. REIMBURSEMENT PROCEDURE

R 325.861 Application for hearing.

Rule 701. To assist the state commissioner of health in the performance of his duties under section 3a of Act No. 314 of the Public Acts of 1927, being §329.403a of the Michigan Compiled Laws, the local health officer shall in any case in which he feels there is reason to believe that the patient, or the person or persons legally liable for his support, might properly be found able to pay all or part of the costs of hospitalization under the provisions of said section, make application to the state health commissioner on forms provided by the Michigan department of health, for a hearing in accordance with the provisions of said section.

History: 1944 ACS 21, p. 19; 1954 AC, p. 2315.

R 325.862 Application; contents.

Rule 702. This application shall contain the necessary pertinent information regarding the financial assets and liabilities of the patient or the person or persons legally liable for his support, together with complete information regarding his

resources, obligations and responsibilities to dependents. It shall be accompanied by a statement of the medical superintendent of the sanatorium in which the patient is hospitalized regarding the patient's prognosis, on forms to be provided by the Michigan department of health.

History: 1944 ACS 21, p. 19; 1954 AC, p. 2315.

R 325.863 Notice of approval; hearing; evidence.

Rule 703. Should such application for a hearing be approved by the state commissioner of health notice of such approval and the reasons therefor shall be sent by the state health commissioner to the patient, or to the person or persons legally liable for his support, by registered mail. A similar notice shall be sent to the petitioner. Such notices of approval shall contain a notice of hearing which shall include the place, date of such hearing and shall also fully advise the patient, or the person or persons legally liable for his support, of the facts upon which the approval has been based. The hearing shall be conducted informally but the patient shall have the right to be represented by counsel. At any such hearing, evidence may be presented by the petitioner and by the patient. The commissioner may in his discretion give probative effect to any evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs, and the state commissioner of health shall have the right to request any additional information deemed pertinent to the question involved.

History: 1944 ACS 21, p. 19; 1954 AC, p. 2316; 1954 ACS 44, p. 33, Eff. Nov. 14, 1965.

R 325.864 Disapproval of application for hearing.

Rule 704. Should the application for a hearing be disapproved, the state health commissioner shall notify the petitioner stating his reasons therefor.

History: 1944 ACS 21, p. 19; 1954 AC, p. 2316.

R 325.865 Decision; reimbursement.

Rule 705. If the commissioner decides, following such a hearing, that the patient or the person or persons legally liable for his support shall make reimbursement in whole or in part, the amount designated by the commissioner shall be collected by the county department of social welfare in accordance with the provisions of section 77 of Act No. 280 of the Public Acts of 1939, being §400.77 of the Michigan Compiled Laws.

History: 1944 ACS 21, p. 19; 1954 AC, p. 2316.

R 325.866 Inconclusive medical evidence.

Rule 706. Should medical evidence be inconclusive as to the period of treatment required, or as to the probable cost of treatment and rehabilitation and it appears that such information can be furnished at a later date, the hearing may be adjourned for a period not to exceed 1 year from the date of admission.

History: 1944 ACS 21, p. 19; 1954 AC, p. 2316.

R 325.867 Adjournment.

Rule 707. In the event an adjournment is granted to either party, it shall be only given on the condition that any subsequent order issued as a result of the hearing shall be effective as of the date of the original hearing.

History: 1944 ACS 21, p. 19; 1954 AC, p. 2316.

R 325.871 Notice of hearing.

Rule 711. All persons involved shall be provided with reasonable notice of the date of any intended hearing. Effort will be made to adjust the date of said hearing to the convenience of all concerned.

History: 1944 ACS 34, p. 17; 1954 AC, p. 2316.

R 325.872 Hearing before commissioner or authorized person.

Rule 712. The hearing shall be held before the state health commissioner or a person specifically authorized by him to conduct the same in his behalf.

History: 1944 ACS 34, p. 17; 1954 AC, p. 2316.

R 325.873 Conduct of hearing.

Rule 713. The conduct of the hearing shall be on an informal basis insofar as is possible and all parties concerned may present written or oral testimony, be represented by any designated person, and have the right to question any of those present.

History: 1944 ACS 34, p. 17; 1954 AC, p. 2316.

R 325.874 Additional evidence; preliminary decision.

Rule 714. After carefully reviewing all evidence presented in the hearing concerning whether or not the person so hospitalized or treated, or the person or persons legally liable for his support, are possessed of sufficient income or estate to enable them to make such reimbursement in whole or in part without materially affecting their reasonable economic security or support, in the light of their respective resources, obligations, and responsibilities to dependents, the commissioner may request such additional evidence as he believes necessary. He will then arrive at a preliminary decision, which will be submitted to the parties concerned for the opportunity of making a written reply and/or requesting a date for subsequent presentation of additional evidence.

History: 1944 ACS 34, p. 17; 1954 AC, p. 2316.

R 325.875 Decision.

Rule 715. After a reasonable opportunity has been provided for compliance with the conditions set up in the previous paragraph, the commissioner shall render his decision, except that, if specifically requested to do so by either of the parties, the commissioner will present the evidence to the advisory council of health for advice before rendering said decision. Any decision made shall be considered effective from the date of the mailing of the original notice of the hearing to the parties involved.

History: 1944 ACS 34, p. 17; 1954 AC, p. 2317.

PART 8. VOLUNTARY AGREEMENTS BY PATIENTS TO MAKE REIMBURSEMENT

R 325.881 Ability to pay; finding.

Rule 801. In no case shall a patient or any person or persons legally chargeable with the patient's support be requested to pay for such hospitalization or other care or treatment, or sign any notes or other obligations to pay unless or until the state commissioner of health has made a finding of ability to pay, as provided by section 77 of Act No. 280 of the Public Acts of 1939, being §400.77 of the Michigan Compiled Laws.

History: 1944 ACS 21, p. 19; 1954 AC, p. 2317.

R 325.882 Approval of voluntary agreement; application.

Rule 802. The application for the state health commissioner's approval of a voluntary agreement shall be made to the state health commissioner by the local health officer on forms provided by the Michigan department of health.

History: 1944 ACS 21, p. 20; 1954 AC, p. 2317.

R 325.883 Application; contents.

Rule 803. The application shall contain the signed statement of the local health officer that to the best of his knowledge such payments will not interfere with the present or future financial security of the patient or the person or persons legally liable for his support, and that the agreement to pay was made with the patient's, or the person or persons legally liable for his support, full knowledge of the provisions of section 3a of Act No. 314 of the Public Acts of 1927, being §329.403a of the Michigan Compiled Laws.

History: 1944 ACS 21, p. 20; 1954 AC, p. 2317.

R 325.884 Investigation.

Rule 804. The state health commissioner or his authorized representative will make any necessary investigation upon which to base approval or disapproval by the state commissioner of health.

History: 1944 ACS 21, p. 20; 1954 AC, p. 2317.

R 325.885 Formal notice.

Rule 805. Formal notice of the action taken by the state health commissioner will be made to the local health officer.

History: 1944 ACS 21, p. 20; 1954 AC, p. 2317.

R 325.886 Agreement to repay; collection.

Rule 806. If, following the state health commissioner's review of the application, the agreement to repay in whole or in part, is found acceptable by him, the amounts designated by the commissioner shall be collected by the county department of social welfare in accordance with the provisions of section 77 of Act No. 280 of the Public Acts of 1939, being §400.77 of the Michigan Compiled Laws.

History: 1944 ACS 21, p. 20; 1954 AC, p. 2317.

PART 9. WITHHOLDING SUBSIDIES

R 325.891 Withholding subsidies.

Rule 901. Failure to comply with any requirement of these rules and regulations or any requirement of Act No. 314 of the Public Acts of 1927, being §329.401 et seq. of the Michigan Compiled Laws, shall be considered sufficient grounds for withholding state subsidy to the county or the sanatorium failing to comply with these regulations or the statutory requirements of the above act.

History: 1944 ACS 24, p. 13; 1954 AC, p. 2317.

PART 10. REPORTS OF CHEST X-RAYS

R 325.896 Form K-124; additional information.

Rule 1006. (1) Every licensed member of the healing arts and every hospital or laboratory taking or interpreting chest x-ray films shall complete form K-124, report of chest x-rays suspicious for tuberculosis, on or before the fifth of each

month for the preceding month. This form may be obtained from the division of adult health, Michigan department of public health. The completed form shall be forwarded to the director of the local full-time health department in whose jurisdiction the reporting physician, hospital, or laboratory is located. The reports shall be considered confidential and not as public records.

(2) If no reportable x-ray findings are obtained during any month, every licensed member of the healing arts and every hospital or laboratory taking or interpreting chest x-ray films shall submit form K-124 with a statement to this effect on or before the fifth of each month for the preceding month.

(3) The director of the local full-time health department, after consultation with the private physician responsible for the care of the patient whose chest x-ray shows suspicious findings, shall determine such additional information as may be necessary to complete the evaluation of the patient to determine his status with regard to tuberculosis. Upon completion of the evaluation, the director of the local full-time health department shall report the results to the state director of health.

History: 1954 ACS 47, p. 16, Eff. Aug. 14, 1966.

PART 11. EXAMINATION OF PERSONS IN HIGH EXPOSURE GROUPS

R 325.897 Examinations.

Rule 1107. The examination for communicable tuberculosis pursuant to section 2 of Act No. 314 of the Public Acts of 1927, as amended, being §329.402 of the Michigan Compiled Laws, in addition to those procedures which the physician may wish to carry out, shall include:

(a) A tuberculin skin test consisting of the intradermal administration of not less than 5 tuberculin units of old tuberculin (O.T.) or purified protein derivative (PDD) or a chest x-ray. The physician may accept a report of the result of either test conducted within the preceding 90 days in lieu of performing these tests himself.

(b) A person whose tuberculin test is positive shall have an x-ray of the chest.

(c) A person whose x-ray shows findings suggestive of tuberculosis, other than healed primary, shall have a bacteriologic examination of the pulmonary secretions for tubercle bacilli performed in a laboratory registered by the department of public health.

History: 1954 ACS 51, p. 19, Eff. Aug. 15, 1967.

R 325.898 School personnel.

Rule 1108. (1) The school board, or other governing body or individual, of a public, private, parochial, or nursery school, or day care center, shall require a statement of freedom from communicable tuberculosis as a condition of entering its employment for all full- and part-time personnel, or day-to-day substitutes, employed by the board.

(2) The statement shall be on a form provided by the department of public health, completed in full, and signed by a physician licensed to practice in Michigan or by a local health department official. The statement shall be valid for 3 years from the date of signing.

(3) Employees shall hold a valid statement during their period of employment.

(4) A photocopy of the statement shall be filed with the employee's personnel record and shall be available for examination by public health department personnel.

History: 1954 ACS 51, p. 19, Eff. Aug. 15, 1967; 1954 ACS 93, p. 28, Eff. Oct. 29, 1977.

R 325.899, R 325.899a Rescinded.

History: 1954 ACS 51, pp. 19, 20, Eff. Aug. 15, 1967; rescinded 1954 ACS 76, p. 18, Eff. July 6, 1973.

REIMBURSEMENT FOR OUTPATIENT SERVICES

(By authority of Act No. 314 of the Public Acts of 1927, as amended, being §329.401 et seq. of the Michigan Compiled Laws)

R 325.901 Reimbursement by state for outpatient services; sanitoria.

Rule 1. Reimbursement from the state of Michigan for outpatient care and treatment given state at large patients may be obtained under the following conditions:

(a) In each case, application for such care will be submitted to the state health commissioner who will carefully review it and on the basis of the facts submitted approve or disapprove the same.

(b) No reimbursement from the state for outpatient care may be made until or unless a properly executed morbidity report (K-600) and state at large application (K-85) are on file with the Michigan department of health.

(c) Except in extremely unusual conditions, applications to be eligible for approval must show that the patient in question has been previously hospitalized in a sanatorium approved by the Michigan department of health. A statement to this effect should, in addition to giving the dates of hospitalization, summarize the care given, the conditions of discharge, and the recommendations for outpatient care.

(d) Reimbursement for outpatient care cannot be given to approved tuberculosis sanatoria whose per diem cost includes outpatient care by regulation.

(e) Applications for reimbursement for outpatient care may be submitted by local health departments if the local health department gives this care in its clinic or by a private chest clinic or private physician designated by the local health department to provide such care. Reimbursement for this outpatient care will be made in accordance with procedures outlined in R 325.902.

(f) Each case shall be clinically evaluated at the time of the initial request for authorization and every 3 months thereafter by the local full-time health officer or a physician designated by him. It is anticipated that in most instances, this will be the sanatorium director.

(g) Reimbursement in kind will be made for drugs used. Drugs will be sent to the local health department which will then distribute the drugs to its approved clinic or private physician.

(h) Payment for other items shall not exceed amounts paid locally by any governmental or other agency for similar services.

History: 1954 ACS 5, p. 54, Eff. Feb. 15, 1956.

R 325.902 Reimbursement by state for outpatient services; private physicians or outpatient clinics.

Rule 2. Procedures for obtaining reimbursement from the state for outpatient treatment by private physicians or outpatient clinics exclusive of the clinics operated by sanatoria are as follows:

(a) Request form K-73 shall be submitted in duplicate at the time of the initial request for approval of outpatient care payment.

(b) If approved, state at large authorization form K-94 will be issued, to expire in 4 months, by which time the case must have been clinically reevaluated and a second K-73 submitted if a new authorization is to be requested for an additional 4 months.

(c) To secure reimbursement in kind for drugs used, requisition form K-74 in duplicate shall be submitted monthly, listing the patients treated, the amount and type of drug given and the physician or agency to whom the drug is to be shipped.

(d) To secure reimbursement for services and items other than drugs, the payee will prepare state voucher form A-21 monthly, listing the names of patients served, type of service, and cost. This will provide reimbursement for administration of drugs, etc., as outlined in R 325.901(h).

History: 1954 ACS 5, p. 55, Eff. Feb. 15, 1956.

CANCER

R 325.971 Reporting of cancer.

Rule 1. (1) On and after May 1, 1947, every physician, dentist, hospital superintendent, and clinic director who has knowledge of a case of cancer shall, within 10 days, report the same to the Michigan department of health on a form provided by said department. The report shall contain the name and address of the patient and either the name and address of the physician, or of the dentist, or of the hospital superintendent and hospital, or of the clinic director and clinic, and such other data as may be required.

(2) All such reports and records of the Michigan department of health pertaining to cancer are hereby declared to be confidential.

History: 1944 ACS 10, p. 16; 1954 AC, p. 2317.
Editor's note: This rule appears in the Michigan Administrative Code of 1954 as R 325.975.

HUMANE USE OF ANIMALS

R 325.981 Application for registration.

Rule 1. Application for registration shall be made in writing to the state commissioner of health and in addition to the name and business address of the applicant, it shall contain the names and qualifications of those persons who are responsible to the applicant for the proper care or use of animals under the provisions of this act.

History: 1944 ACS 17, p. 6; 1954 AC, p. 2318.

R 325.982 Adequacy of facilities and personnel.

Rule 2. Before granting any requested registration, the state commissioner of health shall be satisfied that the applicant has adequate facilities, and personnel qualified by professional training or experience, to assure the humane use of animals in accordance with these rules.

History: 1944 ACS 17, p. 6; 1954 AC, p. 2318.

R 325.983 Current list.

Rule 3. Each registrant shall from time to time, upon written request by the state commissioner of health, furnish a current list containing the names and qualifications of the persons mentioned in the first rule.

History: 1944 ACS 17, p. 6; 1954 AC, p. 2318.

R 325.984 Inspection of premises.

Rule 4. That portion of the premises of each registrant which is employed in connection with the keeping or use of animals for investigational purposes shall be inspected annually at such times as may be designated by the state commissioner of health.

History: 1944 ACS 17, p. 6; 1954 AC, p. 2318.

R 325.985 Interim inspections.

Rule 5. Interim inspections may be made at such other times as may be specifically directed by the state commissioner of health.

History: 1944 ACS 17, p. 6; 1954 AC, p. 2318.

R 325.986 Inspector; credentials and authorization.

Rule 6. The person making the inspection shall display his credentials and his authorization from the state commissioner of health.

History: 1944 ACS 17, p. 6; 1954 AC, p. 2318.

R 325.987 Report.

Rule 7. Every person who participates in an inspection pursuant to the laws and rules shall promptly report in writing his findings to the state commissioner of health.

History: 1944 ACS 17, p. 6; 1954 AC, p. 2318.

R 325.988 Animal quarters and care.

Rule 8. All animal quarters shall be kept in sanitary condition. Care, consistent with the type of investigation being conducted, shall be given in all cases to assure the comfort of animals.

History: 1944 ACS 17, p. 6; 1954 AC, p. 2318.

R 325.989 Surgical operations.

Rule 9. Any surgical operation which is likely to cause greater discomfort to the animals than that attending anesthetization shall not be undertaken until the animal be first rendered incapable of perceiving pain at the operative site. The animal shall be maintained in that condition until the operation is completed.

History: 1944 ACS 17, p. 7; 1954 AC, p. 2318.

R 325.990 Anesthetization.

Rule 10. Anesthetization shall not be required as a condition precedent to the performance of any particular investigation, operation or treatment if such would not normally be administered were a like operation to be performed or treatment administered to adult humans.

History: 1944 ACS 17, p. 7; 1954 AC, p. 2318.

R 325.991 Destruction of animal.

Rule 11. If at the conclusion of the investigation the animal cannot live without permanent pain or prolonged discomfort, it shall be painlessly destroyed.

History: 1944 ACS 17, p. 7; 1954 AC, p. 2318.

R 325.992 Post-operative care.

Rule 12. Post-operative care for the relief of pain and discomfort shall be of a nature similar to that given in veterinary hospitals.

History: 1944 ACS 17, p. 7; 1954 AC, p. 2318.

BUREAU OF HEALTH CARE ADMINISTRATION

MINIMUM STANDARDS FOR HOSPITALS

(By authority of Act No. 146 of the Public Acts of 1919, Act No. 263 of the Public Acts of 1913, section 5 of Act No. 17 of the Public Acts of 1968, sections 9 and 427 of Act No. 380 of the Public Acts of 1965, Act No. 299 of the Public Acts of 1947,

Act No. 197 of the Public Acts of 1952, section 6 of Act No. 115 of the Public Acts of 1929, and sections 8 and 12 of Act No. 177 of the Public Acts of 1925, being §§325.1 et seq., 331.401 et seq., 331.415, 16.109, 16.527, 331.501 et seq., 24.101 et seq., 332.6, 332.158, and 332.162 of the Michigan Compiled Laws)

PART 1. ADMINISTRATIVE RULES AND PROCEDURES

R 325.1001 Administration.

Rule 1. The state health commissioner shall administer his several responsibilities toward hospitals as an integral unit.

History: 1944 ACS 36, pp. 16-20; 1954 AC, p. 2319.

R 325.1002 Hospital committee.

Rule 2. (1) The state health commissioner, in a manner hereafter stated, shall appoint an advisory committee to be known as the commissioner's hospital committee which will serve to advise him on the administrative aspects of the responsibilities given under the above authority.

(2) The functions of the hospital committee shall be:

(a) To consider rules and regulations concerning hospitals promulgated in accordance with the above authority and any proposed revisions thereof, and to advise the state health commissioner regarding the same.

(b) To review all provisional licenses granted by the state health commissioner.

(c) To sit with the state health commissioner during his conduct of any hearings concerned with the suspension, revocation, or denial of licenses or certification.

(3) The state health commissioner shall appoint 9 persons to the hospital committee in the following manner: Five persons from a list of 10 hospital administrators or trustees submitted by the board of trustees of the Michigan hospital association, 2 members from the list of hospital administrators or trustees submitted by the Michigan osteopathic hospital association, and 2 members at large. In the case of appointments made upon nomination of the Michigan hospital association, at least 1 shall be that of a licensed physician and 1 shall be that of a registered nurse. In the case of appointments made by the Michigan osteopathic hospital association 1 shall be a licensed physician. The members of the committee shall serve for 3-year terms, provided that, of those first appointed, 3 shall be appointed for 1 year, 3 for 2 years, and 3 for 3 years. The hospital committee shall meet at least semiannually and otherwise at the call of the state health commissioner or upon petition of the majority of the members.

History: 1944 ACS 36, p. 16; 1954 AC, p. 2319.

R 325.1003 Advice of state council of health.

Rule 3. If there should be substantial disagreement between the state health commissioner and the hospital committee, the state health commissioner, either upon his own initiative or at the request of the committee, shall present the matter to the state council of health, his statutory advisory body.

History: 1944 ACS 36, p. 17; 1954 AC, p. 2319.

R 325.1004 Special technical consultants.

Rule 4. The state health commissioner may appoint such special technical committees or consultants as may from time to time be indicated.

History: 1944 ACS 36, p. 17; 1954 AC, p. 2319.

R 325.1005 Hearings.

Rule 5. (1) Any hospital aggrieved by any decision of the state health commissioner shall upon request be granted a hearing.

(2) Except in matters concerned with the spread of communicable disease, the state health commissioner shall, in cases of proposed denial or revocation of a license, present his preliminary decision and reasons therefor to the parties concerned, and provide an opportunity for a hearing.

(3) Hearings required or requested under the terms of these rules shall be held by the state health commissioner or his authorized representative.

(4) The commissioner's hospital committee shall be notified of and invited to attend all hearings.

(5) The hearings will be informal, and full opportunity will be given all concerned to question the state health commissioner or his representative.

(6) After the hearing, the state health commissioner will ask the advice of his hospital committee as to the disposition of the case.

(7) If the state health commissioner is unable to accept said advice, he shall present a summary of all facts, together with the advice of the hospital committee, to the state council of health before making a final decision.

History: 1954 ACS 36, p. 17; 1954 AC, p. 2319.

PART 2. LICENSURE AND REPORTS FOR MATERNITY HOSPITALS

R 325.1011 Original and renewal applications.

Rule 11. As provided in section 3 of Act No. 231 of the Public Acts of 1951, applications to conduct a maternity hospital shall be submitted to the state health commissioner. All applications shall be completed in full.

History: 1944 ACS 36, p. 17; 1954 AC, p. 2320; 1954 ACS 24, p. 9, Eff. Nov. 12, 1960.

R 325.1012 Display of current license.

Rule 12. The current license shall be displayed in a conspicuous place in the hospital.

History: 1944 ACS 36, p. 17; 1954 AC, p. 2320; 1954 ACS 24, p. 9, Eff. Nov. 12, 1960.

R 325.1013 Return of license.

Rule 13. The maternity license remains the property of the state health commissioner and shall be returned if the license is revoked or the hospital closes.

History: 1944 ACS 36, p. 17; 1954 AC, p. 2320; 1954 ACS 24, p. 9, Eff. Nov. 12, 1960.

R 325.1014 Rescinded.

History: 1944 ACS 36, p. 17; 1954 AC, p. 2320; 1954 ACS 10, p. 11; rescinded 1954 ACS 24, p. 9, Eff. June 14, 1957.

R 325.1015 Monthly report.

Rule 15. As provided in Act No. 231 of the Public Acts of 1951, each licensed maternity hospital shall make a monthly statistical report on a prescribed form (H-205) to the state health commissioner.

History: 1944 ACS 36, p. 17; 1954 AC, p. 2320; 1954 ACS 24, p. 9, Eff. Nov. 12, 1960.

R 325.1016 Confidential maternity report.

Rule 16. Not later than 48 hours after such a child or its mother leaves the hospital, the memorandum which is required by section 4 of Act No. 231 of the Public Acts of 1951, (MH-1) shall be sent in a strong, sealed envelope marked

"Confidential" to the State Health Commissioner, Attention: Maternal and Child Health Section, Lansing, Michigan.

History: 1944 ACS 36, p. 17; 1954 AC, p. 2320; 1954 ACS 24, p. 9, Eff. Nov. 12, 1960.

PART 3. OPERATIONAL RULES AND MINIMUM STANDARDS FOR ALL HOSPITALS PHYSICAL PLANT, FACILITIES, EQUIPMENT, AND OPERATION

R 325.1021 Compliance with law and regulations.

Rule 21. (1) The hospital shall comply with the housing law of Michigan.

(2) The hospital shall comply with the requirements of the state fire marshal.

(3) The hospital shall comply with the state plumbing code.

(4) The hospital shall comply with the requirements of the federal department of health, education, and welfare as set forth in its latest publication entitled "Health Insurance for the Aged—Conditions of Participation for Hospitals," a copy of which is kept on file in the bureau of medical care administration of the department of public health at Lansing, Michigan.

History: 1944 ACS 36, p. 18; 1954 AC, p. 2320; 1954 ACS 10, p. 12, Eff. June 14, 1957; 1954 ACS 48, p. 15, Eff. Nov. 14, 1966.

R 325.1022 Water and ice supply.

Rule 22. (1) A public water supply shall be used if available.

(2) The location and construction of a well, and the operation of the system, shall comply with standards approved for public water supplies by local and state health departments.

(3) The entire plumbing system and all plumbing facilities shall be so designed and maintained that the possibility of back-flow or back-siphonage shall be reduced to a minimum.

(4) There shall be no physical cross-connection between water supply systems that are safe for human use and those that are or may at any time become unsafe for human use.

(5) All ice used in contact with food or drink shall be clear manufactured ice made from water from a source approved by the state and local health departments and handled in such a manner as to prevent contamination.

(6) All ice containers shall be kept clean.

History: 1944 ACS 36, p. 18; 1954 AC, p. 2320.

R 325.1023 Sewage, garbage, and waste disposal.

Rule 23. (1) All liquid waste shall be discharged into a public sewage system whenever available.

(2) When a private sewage disposal system is required, the type, size and construction shall meet with the approval of the local and state health departments.

(3) The collection, storage and disposal of all garbage shall be done in a manner that will not permit the transmission of a communicable disease, create a nuisance, or provide a breeding place for flies or rodents.

(4) Containers for garbage shall be watertight, have tight-fitting covers to prevent the entrance of flies, and be rodent-proof.

(5) Garbage containers shall be emptied at frequent intervals and thoroughly cleansed and aired before further use.

(6) Facilities shall be provided for the disposal of infectious dressings, surgical and obstetrical wastes, and similar materials by incineration or in a manner approved by the state health commissioner.

History: 1944 ACS 36, p. 18; 1954 AC, p. 2321.

R 325.1024 Laundering and sterilization of linens; sterilization of instruments and utensils.

Rule 24. (1) The hospital shall make arrangements for the laundering of linens and other washable goods.

(2) There shall be provision for the sterilization of dressings, utensils, instruments, and water.

(3) The hospital shall maintain a check on the performance of all sterilizing equipment.

(4) Special precautions shall be taken so that sterile supplies may not be mixed with unsterile supplies.

History: 1944 ACS 36, p. 18; 1954 AC, p. 2321.

R 325.1025 Heating and ventilating.

Rule 25. (1) The temperature in patients' rooms shall be maintained at approximately 72 degrees Fahrenheit throughout the heating season.

(2) A minimum temperature of 75 degrees Fahrenheit shall be maintained in all hospital nurseries.

(3) The hospital ventilating system shall be regulated so that objectionable drafts shall not be created.

History: 1944 ACS 36, p. 18; 1954 AC, p. 2321.

R 325.1026 General maintenance.

Rule 26. (1) Equipment, floors, walls, and ceilings shall be kept clean.

(2) Food service areas, all equipment, and work surfaces shall be kept clean.

(3) Handwashing facilities shall be convenient to each food preparation or serving area:

(a) Tempered running water, soap, and towels shall be available in all kitchens, including diet kitchens, and in washrooms used by food handlers.

(b) The use of a common towel is prohibited.

(4) Food storage areas and refrigeration shall be provided:

(a) Storerooms shall be clean and well ventilated.

(b) Stored food shall be protected from dust, flies, rodents, vermin, unnecessary handling, droplet infection, overhead leakage, and other sources of contamination.

(c) Refrigerated storage space shall be kept at approximately 40 degrees Fahrenheit.

(d) A reliable thermometer shall be installed in each refrigerator.

(e) Refrigerators shall be kept clean.

(f) Prepared foods shall be kept covered.

(5) All dishes and utensils used in storage, preparation, or serving of food and drink shall be sanitized and kept clean:

(a) The use of dish towels for drying dishes is forbidden.

(b) Kitchens and utility rooms shall be provided as needed.

(6) Whenever insects are prevalent all used openings to the outside shall be screened with wire screen or its equal with not less than 16 meshes per lineal inch.

(7) Insects, such as flies, roaches, and mosquitoes, shall be properly controlled. All breeding places for flies and mosquitoes shall be eliminated from the premises.

(8) All openings where rats or mice may gain entrance to the building shall be screened or safely guarded to prevent entrance of such rodents. All rodent control programs shall be carried on in a safe manner.

History: 1944 ACS 36, p. 18; 1954 AC, p. 2321; 1954 ACS 10, p. 12, Eff. June 14, 1957.

R 325.1027 Patient care.

Rule 27. (1) All persons admitted to a hospital shall be under the continuing daily care of a physician licensed to practice in Michigan.

(a) The hospital shall require that an admitting diagnosis be recorded promptly on each patient.

(b) There shall be a written hospital policy denoting when consultation should be held. Consultation shall be recorded.

(c) No medication or treatment shall be given to any patient except on the written order of a physician.

(d) Verbal orders for medication, whether given over the telephone or otherwise, shall be written into the record as such.

(e) Verbal orders, whether given over the telephone or otherwise, shall be received only by a person or persons approved and authorized by the administrator and by the medical staff, and shall be indicated as verbal orders, initialed by the physician's initials per the receiver's initials and countersigned by the physician at the time of the next visit.

(2) The hospital shall provide personnel, space, equipment, and supplies for routine laboratory analyses. It shall utilize regularly the services of an experienced pathologist for the examination of tissue suspected of being diseased, except tonsils, removed at operations.

(3) Equipment shall be provided for diagnostic radiographic examinations. The hospital shall require that the responsibility for film interpretation and the proper protection against radiation, electric shock, and combustion of stored film shall be assigned to the general supervision of a licensed physician with training or experience in radiology.

(4) The hospital shall employ professional and auxiliary personnel to give patients necessary services.

(a) The nursing service shall be in charge of a graduate nurse registered to practice in Michigan.

(b) Each nursing shift shall be personally supervised by a graduate nurse registered to practice in Michigan.

(c) Personnel assigned to the maternity service, including the formula room, and all food handlers shall have a written record of pre-employment and annual physical examination.

(i) Persons found upon examination to have conditions dangerous to patients shall be removed from assignment until recovery.

(ii) All persons with respiratory, skin, gastro-intestinal, or other communicable infection shall be excluded from working on these services.

(d) Duty in the nursery or in food handling areas shall not be resumed until the administrator or his agent has a medical statement based on appropriate physical examination and tests to the effect that return to duty is safe.

(5) Meals provided for the various types of patients shall be planned in accordance with the recommended daily allowances of the national research council.

(a) Only pasteurized milk and milk products or evaporated or dried milk shall be used.

(b) Meals shall be prepared and served in a sanitary manner.

(c) Food returned from patients' trays is considered contaminated and shall not be re-served.

(6) Rooms for adult patients shall provide a minimum of 80 square feet of floor space per bed. In multiple bedrooms, beds shall be at least 3 feet apart.

(7) There shall be sufficient equipment for care according to the type of patients accepted by the hospital.

(a) Individual linens shall be provided each patient.

(b) A wash basin, emesis basin, bedpan, and when indicated, a urinal shall be immediately available for each patient. Bedside equipment shall be sterilized or sanitized between patients in a manner approved by the state health commissioner.

(c) There shall be at least as many thermometers available as there are patients.

(d) Autoclaves and other sterilizers shall be provided as needed.

(e) Each hospital shall have facilities for blood transfusions.

(f) Each hospital shall have facilities for immediate intravenous therapy and for the administration of parenteral fluids, including blood substitutes.

(8) Rules governing visitors shall be posted in a conspicuous place.

(9) Hospitals shall isolate patients with communicable disease, carriers of communicable diseases, or those suspected of having communicable diseases.

(a) A lavatory and a toilet shall be provided within the isolation area.

(b) The hospital shall make written policies concerning isolation techniques available to all personnel concerned.

History: 1944 ACS 36, p. 19; 1954 AC, p. 2322; 1954 ACS 10, p. 12, Eff. June 14, 1957; 1954 ACS 24, p. 9, Eff. Nov. 12, 1960.

R 325.1028 Records.

Rule 28. (1) The hospital shall require that accurate and complete medical records be kept on all patients admitted.

(2) Patients' records shall include the following:

(a) Admission date.

(b) Admitting diagnosis.

(c) History and physical examination.

(d) Physician's progress notes.

(e) Operation and treatment notes and consultations.

(f) The physician's orders.

(g) Nurse's notes including temperature, pulse, respiration, conditions observed and medication given.

(h) Record of discharge or death.

(i) Final diagnosis.

(3) Additional records of patients having surgery shall include the following:

(a) Details of the pre-operative study and diagnosis.

(b) The pre-operative medication.

(c) The name of the surgeon and his assistants.

(d) The method of anesthesia.

(e) The amount of anesthetic when measurable.

(f) The name of the anesthetist.

(g) The post-operative diagnosis, including pathological findings.

(4) The report of special examinations such as laboratory, x-ray and pathology shall be kept in the patient's record.

(5) Medical records shall be preserved as original records, abstracts, microfilms or otherwise and shall be such as to afford a basis for a complete audit of professional information.

(6) The administrative records of the hospital shall include as a minimum:

(a) Records of admissions and discharges.

(b) Patient's records.

(c) Daily census records.

(d) Narcotic register.

(e) Statistics regarding number of deaths.

(f) Statistics regarding number of autopsies.

History: 1944 ACS 36, p. 20; 1954 AC, p. 2323; 1954 ACS 24, p. 11, Eff. Nov. 12, 1960.

ADDITIONAL REQUIREMENTS FOR MATERNITY HOSPITALS AND DEPARTMENTS

R 325.1051 Physical plant.

Rule 51. The physical plant shall provide the following in addition to the requirements of R 325.1021, R 325.1022, R 325.1023, R 325.1025, and R 325.1026:

(a) A hospital providing maternity care shall provide for segregation of maternity patients from other patients by section, wing, or floor, except when the director, upon the application of a hospital, grants permission to use surplus maternity beds in the postpartum suite for clean gynecological patients. Such permission shall be subject to the following restrictions:

(i) The hospital shall have registered 500 or more births in the preceding calendar year.

(ii) The hospital shall have 3 or more postpartum maternity beds over and above the number required to provide adequately for all postpartum patients as determined by the director.

(iii) The hospital shall have maintained a minimum 85% average occupancy in its medical or surgical beds in the preceding year.

(iv) The average length of stay for all patients shall not exceed 9.0 days in the preceding calendar year, except that a hospital with a higher average length of stay shall be given an opportunity to justify its longer average length of stay when a denial is based on this standard.

(v) The hospital shall be free from major physical plant or operational deficiencies and items of noncompliance as determined by the director.

(vi) The hospital shall have submitted a written plan, acceptable to the director, which demonstrates to his satisfaction that alternatives, such as consolidation of hospital obstetrical and newborn services in the community or the reduction of postpartum maternity beds by assignment of surplus beds to another nursing unit, are not feasible or practical. The plan shall designate the rooms and beds to be utilized by clean gynecological patients, and indicate that such patients admitted to the surplus postpartum beds will not be patients with active infection, either acute or chronic; frank malignancy other than carcinoma in situ; patients admitted for radiotherapy; or patients already in the hospital who are on any other service, including the gynecological service.

(vii) The written plan submitted by a hospital shall be acceptable to the director from the standpoint of protecting the health of mothers and babies, as well as other hospitalized patients, and shall demonstrate the development and implementation of effective medical and administrative controls to carry out the plan.

(viii) The plan, if approved by the director, shall be in effect during the license year in which it is issued. Requests for extension of the plan, or any modification thereof, shall be submitted annually to the director with a hospital's application for renewal of licensure and certification.

(b) Separate toilet facilities shall be provided for maternity patients.

(c) There shall be a separate delivery room.

(d) Separate nurseries shall be provided unless complete facilities for "rooming-in" are available.

(e) Each nursery shall have a minimum floor space of 24 square feet per bassinet. Bassinets shall be placed not less than 2 feet apart with a minimum of 3 feet between rows.

(f) A private room with a lavatory and a toilet shall be available for the isolation of any mothers with infection, fever, or diarrhea.

(g) There shall be an isolation nursery or a private room with running water available for the isolation of infants.

History: 1944 ACS 36, p. 20; 1954 AC, p. 2323; 1954 ACS 10, p. 12, Eff. June 14, 1957; 1954 ACS 24, p. 11, Eff. Nov. 12, 1960; 1954 ACS 50, p. 20, Eff. May 15, 1967; 1954 ACS 53, p. 16, Eff. Feb. 14, 1968; 1954 ACS 91, p. 35, Eff. Apr. 19, 1977.

R 325.1052 Minimum policies.

Rule 52. The following minimum policies shall be established and observed:

(a) The hospital shall require that there be staff policies regarding the use and administration of analgesics and anesthetics, and the policies shall be posted in all delivery units.

(b) The hospital shall require that there be staff policies concerning the use of pituitrin extracts and other oxytocics during each of the 3 stages of labor, and the policies shall be posted in all delivery units.

(c) The use of analgesics, anesthetics, pressure on the fetal head, or holding the mother's legs together to prevent birth before the arrival of the doctor is prohibited.

(d) All newborn infants born outside the hospital, infants with infection, or infants with conditions potentially harmful to others shall be admitted to the isolation nursery or private room with running water in the obstetric or pediatric department, and shall never be transferred to the well-baby nursery.

(i) The state health director may designate a hospital to maintain a neonatal intensive care unit or special newborn nursery unit as part of the department's regional perinatal intensive care program.

(ii) The unit shall be under the direction of a physician who is a board eligible or certified neonatologist, or whose experience, qualifications, and training are accepted in writing by the state health director. The unit shall be under supervision of a nurse prepared at the master's level in maternal and infant care, or whose experience, qualifications, and training are accepted in writing by the state health director.

(iii) The state health director may authorize the neonatalogist or physician director to transfer convalescent infants to the hospital's newborn nursery, or the newborn nursery of another hospital, pursuant to a written plan approved by the neonatologist or physician director, the governing bodies of the involved hospitals, and the state health director.

(e) A patient who is pregnant may be admitted to the maternity department during any stage of pregnancy, including an ectopic pregnancy, or following abortion.

(f) Any mother with infection, fever, or diarrhea shall be isolated in a separate room which is equipped with a lavatory and a toilet.

(g) Whenever it becomes necessary for the same nursing personnel to care for both well and infected mothers or infants or other than obstetric patients, individual isolation techniques shall be employed.

(h) A graduate nurse registered in Michigan shall supervise the care given in the maternity department.

(i) All personnel entering the nursery, including physicians and cleaning people, shall be free from the symptoms of infection, fever, and diarrhea, and shall wear clean, fresh gowns.

History: 1944 ACS 36, p. 21; 1954 AC, p. 2324; 1954 ACS 10, p. 12, Eff. June 14, 1957; 1954 ACS 24, p. 12, Eff. Nov. 12, 1960; 1954 ACS 53, p. 17, Eff. Feb. 14, 1968; 1954 ACS 86, p. 47, Eff. Feb. 25, 1976.

R 325.1053 Equipment and supplies.

Rule 53. The hospital shall provide the following equipment and supplies:

(a) Equipment shall be provided for individual breast care.

Digitized by Google

(b) Equipment shall be provided for individual perineal care.

(c) The following items for the immediate care of the newborn infant shall be assembled in the delivery room:

(i) An incubator or heated bed.

(ii) A warm sterile receiving blanket.

(iii) Available oxygen.

(iv) A suction device for the gentle aspiration of the pharynx and trachea.

(v) One percent silver nitrate kept in the original and dated container except where special written permission for the controlled experimental use of another substance has been given by the state health commissioner.

(vi) Equipment for the care of the cord.

(vii) Identification equipment.

(d) All nurseries shall be equipped for individual care of the infants in their bassinets and shall contain:

(i) A 24-hour supply of linen provided by the hospital.

(ii) A lavatory with tempered running water.

(iii) Soap and individual towels, in towel dispenser.

(iv) Hampers for soiled linen other than diapers.

(v) Receptacles for soiled diapers with impervious liners and foot controlled covers.

(vi) A suction device for gentle aspiration of the pharynx and trachea.

(vii) Available oxygen.

History: 1944 ACS 36, p. 21; 1954 AC, p. 2324; 1954 ACS 10, p. 12, Eff. June 14, 1957; 1954 ACS 24, p. 12, Eff. Nov. 12, 1960; 1954 ACS 50, p. 20, Eff. May 15, 1967.

R 325.1054 Delivery room care of newborn infants.

Rule 54. The following techniques shall be observed in the immediate delivery room care of newborn infants:

(a) The eyes of the newborn infant shall be treated with 1% silver nitrate within an hour after birth, except where special written permission for the controlled experimental use of another substance has been given by the state health commissioner. No out-dated silver nitrate shall be used.

(b) Every infant shall be identified by 1 or more of the reliable methods in common use before it is removed from the delivery room. This information shall be sufficient to identify the infant with 1 mother and 1 mother only. If written tags are used identification shall be in waterproof ink.

(c) Provision shall be made for keeping the infant warm and protected from exposure to infection during transit from delivery room to the nursery and at any other time the baby is removed from the nursery.

History: 1944 ACS 36, p. 21; 1954 AC, p. 2325.

R 325.1055 Nursery procedures.

Rule 55. The following procedures shall be observed in nurseries:

(a) If nursery lavatory faucets are not elbow, foot, or knee controlled the water shall be left running during all periods of infant care or sterile paper lifters shall be used each time the hands manipulate the faucet control.

(b) Each bassinet shall be marked with the mother's name and the baby's birth date.

(c) Each infant shall be given completely individual care in his own bassinet.

(d) The use of a common carrier for transporting babies is prohibited.

(e) Receptacles for soiled diapers shall be kept covered.

(f) An immediate report of inflammation or pus in the eyes of the newborn infants shall be made to the physician in charge and to the hospital administrator.

History: 1944 ACS 36, p. 22; 1954 AC, p. 2325; 1954 ACS 24, p. 13, Eff. Nov. 12, 1960.

R 325.1056 Formulas and water solutions for infant feeding.

Rule 56. (1) Infant formulas and water solutions prepared in the hospital for use in infant feeding shall be made and used with the following restrictions:

(a) A separate room shall be provided for the preparation of infant formulas and water solutions and shall be reserved for this purpose only.

(b) The formula room shall contain a handwash lavatory with tempered running water, soap, and individual towels in towel dispenser for handwashing.

(c) The formula room shall have a double compartment sink with hot and cold running water for use in preparation of infant formulas and water solutions.

(d) The formula room shall contain enclosed cabinets for storage of supplies used in the preparation of infant formulas and water solutions.

(e) Cleaning supplies used in the formula room shall be stored in a separate cabinet clearly identified for this purpose only.

(f) A refrigerator shall be available exclusively for the storage of infant formulas and water solutions requiring refrigeration.

(g) After nippling and capping each individual unit of infant formula or water solution prepared in the formula room, the unit shall be subjected to a terminal sterilizing process at a minimum of 230 degrees Fahrenheit at 7 lbs. pressure for ten minutes.

(h) Nipples shall not be changed following sterilization. Provisions shall be made to protect the sterility of the units in transportation from the formula room to the infant.

(i) The sterility of infant formulas and water solutions prepared in the formula room and the attached nipples shall be checked by bacteriologic methods at least once a month.

(j) Records of the bacteriologic check of infant formulas and water solutions prepared in the formula room and the attached nipples shall be available for inspection. Records shall be maintained for 1 year from the date of bacteriologic check.

(k) The hospital shall develop and have available written policies for the preparation, storage, distribution and use of infant formulas and water solutions prepared in the formula room.

(2) Commercially prepared and prepackaged infant formulas and water solutions used for infant feeding shall be used with the following restrictions:

(a) The director of public health shall approve each type of package unit of commercially prepared and prepackaged infant formula and water solution before it can be used for infant feeding.

(b) Disposable components of commercially prepared and prepackaged infant formulas and water solution units shall not be reused.

(c) Enclosed cabinets shall be provided for the short-term storage of commercially prepared and prepackaged infant formulas and water solutions removed from their original shipping carton and not requiring refrigeration.

(d) Nipples shall not be changed following assembly of commercially prepared and prepackaged infant formula and water solution units.

(e) A refrigerator shall be available exclusively for the storage of infant formulas and water solutions requiring refrigeration.

(f) Provision shall be made to protect the sterility of the commercially prepared and prepackaged formula and water solution units in transportation from the point of unit assembly to the infant.

(g) The sterility of commercially prepared and prepackaged infant formulas and water solutions and the attached nipples shall be checked by bacteriologic methods at least once a month. Positive bacteriologic findings shall be immediately reported to the state department of public health.

(h) Records of the bacteriologic check of commercially prepared and prepackaged infant formulas and water solutions shall be available for inspection. Records shall be maintained for 1 year from the date of the bacteriologic check.

(i) The hospital shall develop and have available written policies for the storage, assembly, distribution, and use of commercially prepared and prepackaged units of infant formulas and water solutions used for infant feeding.

History: 1944 ACS 36, p. 22; 1954 AC, p. 2325; 1954 ACS 50, p. 21, Eff. May 15, 1967.

R 325.1057 Care of mothers.

Rule 57. The care of mothers shall include:

(a) Individual perineal care.

(b) Individual breast care.

History: 1944 ACS 36, p. 22; 1954 AC, p. 2326.

R 325.1058 Mothers' records.

Rule 58. (1) Mothers' records shall contain:

(a) Past history, including:

(i) Number, complications, and outcome of all previous pregnancies.

(ii) Number of now living children.

(iii) Type of previous deliveries.

(iv) Birth weights of infants.

(v) Date of delivery of last viable fetus.

(vi) Significant past medical and family history.

(vii) Weight before present pregnancy.

(viii) Weight gain during this pregnancy.

(b) The following information about the present pregnancy and labor:

(i) Prenatal complications.

(ii) History of recent exposure to communicable disease or diarrhea or other communicable disease in the mother or family.

(iii) Time of onset of labor.

(iv) Frequency and intensity of contractions.

(v) Condition of the membranes.

(vi) Any symptoms of toxemia.

(vii) Amount and character of any bleeding.

(viii) Time and amount of last meal.

(2) Except in emergencies, the patient's admission examination shall record the following information:

(a) Temperature, pulse, respiration and blood pressure.

(b) Weight.

(c) Skin lesions, degree of edema, condition of the throat, lungs, and heart.

(d) Presentation and position of the fetus.

(e) The rate and character of the fetal heart.

(f) A urine analysis.

(g) An estimation of the degree of engagement of the presenting part and the amount of cervical effacement dilatation.

(h) A determination of the pelvic measurements, if not already done.

(3) A delivery room record book shall be maintained with chronological entries of all deliveries including items pertinent to the history of each delivery.

(4) Each maternity record shall contain a physician's signed report of the physical condition of the mother immediately before she is discharged from the hospital.

History: 1944 ACS 36, p. 22; 1954 AC, p. 2326; 1954 ACS 10, p. 12, Eff. June 14, 1957; 1954 ACS 24, p. 13, Eff. Nov. 12, 1960.

R 325.1059 Infants' records.

Rule 59. (1) Records of infants shall include information sufficient to duplicate a birth certificate. This information shall be recorded in ink within 48 hours after the birth of each infant.

(2) The record of each newborn infant shall contain the physician's signed report on the physical condition of the infant immediately before the infant is discharged from the hospital.

(3) Infants' records shall be separate from mothers' records.

History: 1944 ACS 36, p. 22; 1954 AC, p. 2326; 1954 ACS 10, p. 12, Eff. June 14, 1957; 1954 ACS 24, p. 14, Eff. Nov. 12, 1960.

R 325.1060 Additional requirements for tuberculosis hospitals and other communicable disease units.

Rule 60. (1) General requirements:

(a) The superintendent or medical director of any tuberculosis hospital shall be a physician, licensed to practice in Michigan, or eligible for licensure, whose training and experience in the care and treatment of tuberculosis is approved by the state health commissioner and whose vocation is restricted to the interests of the institution, the control of tuberculosis, or the practice of public health. He shall be responsible for the proper and adequate care of the tuberculosis patients admitted to the facility.

(b) The administrator of a nontuberculosis hospital shall be responsible for the effective carrying out of all applicable rules in communicable disease units of such hospital.

(2) Housekeeping requirements:

(a) Dry dusting and sweeping shall not be permitted.

(b) The medical director or administrator in the tuberculosis or nontuberculosis communicable disease care units shall make arrangements for the instruction of employees in the proper handling of linens, instruments, and utensils, and in protective techniques.

(c) Employees handling contaminated linens shall wear washable clothing and isolation gowns and masks when handling this material.

(3) Dietary requirements:

(a) The equipment in the food service department shall be adequate for efficient and safe food service.

(b) Employees' dishes shall be readily identifiable from patients' dishes.

(c) Dishwashing shall be handled in such a manner as to preclude the transmission of disease on dishes and utensils.

(4) Facilities:

(a) Fluoroscopy shall be available in tuberculosis hospitals.

(b) Facilities shall be available for all recognized therapy.

(c) There shall be a laboratory within the institution registered with the Michigan department of health under the provisions of Act No. 45 of the Public Acts of 1931.

(d) There shall be adequate provision for the performance of routine dental services for patients.

(e) A locker and dressing room shall be provided for the changing of uniforms and for leaving outside wraps.

(i) This dressing room shall be separate from the nursing unit.

(ii) There shall be adequate handwashing facilities.

(f) There shall be separate toilet facilities for patients and personnel:

(i) All toilet rooms shall have handwashing facilities.

(ii) Patient toilet facilities shall not be used by visitors.

(iii) The use of spring-loaded valves or faucets in handwashing facilities is prohibited.

(g) Each lavatory in patient care, laboratory, and x-ray areas shall be equipped with a gooseneck water supply pipe and foot, knee, or elbow controlled valves.

(h) Each nursing unit shall have a room for gowns. This room shall have a complete handwashing facility.

(5) Patient care:

(a) Patients in whom the diagnosis is not clearly established, and those known to be free of communicable diseases, shall be hospitalized apart from those with known communicable diseases.

(b) Materials for sputum disposal shall be available at the bedside. These shall include: (1) a supply of impervious tissues, (2) a bag for tissue disposal, and (3) a sputum cup when necessary.

(i) Used materials shall be collected and incinerated at least daily.

(ii) The attendant carrying out these procedures shall wear protective clothing and mask and practice good handwashing procedures.

(c) Techniques shall be such as to protect personnel from sensitizing drugs used in the treatment of patients.

(6) Records:

(a) Progress notes shall be written at sufficiently frequent intervals to record significant events and changes in the clinical course and at the time of such physical or x-ray examinations as may be performed.

(b) There shall be complete records of employee health programs.

(c) Each hospital treating tuberculosis patients shall send a monthly report (K-80 form supplied by the Michigan department of health) to the Michigan department of health covering all information requested.

(7) Employee and patient protection:

(a) There shall be written policies and techniques designed for the protection of all personnel.

(b) There shall be routine instruction for patients and orientation for employees whereby they are informed as to the nature and hazards of tuberculosis or other communicable disease cared for so as to better protect all involved from the transmission of communicable disease. This program shall be on a continuing basis and shall include, where applicable, instruction as to hospital rules, procedures, policies and practices.

(c) There shall be protective routines for visitors.

(d) Isolation gowns and masks shall be worn when giving care to patients or when working with contaminated equipment or material or in contaminated areas. Masks, when worn, shall cover the mouth and nose and shall be changed as soon as they become moist, but in no case shall be worn longer than 1 hour.

(e) Receptacles for clean and contaminated masks shall be provided and masks once removed shall not be re-worn until they have been laundered and sterilized.

(f) At necropsy, the examiners and observers shall wear proper protective clothing.

(g) All employees shall have, at the time of employment, an initial examination which shall include a tuberculin test, (unless there is a record of a previous reaction to tuberculin), a chest x-ray examination, a serological test for syphilis, and any other indicated examinations.

R 325.1071 Definition of hospital.

Rule 71. A hospital is:

(1) An establishment which meets the definitions of a maternity hospital as given in Act No. 263 of the Public Acts of 1913, being §331.401 et seq. of the Michigan Compiled Laws.

(2) An establishment offering in-patient services and physical facilities to 4 or more nonrelated individuals requiring diagnosis, treatment, or care for a period of more than 24 hours. Such establishment shall make readily available therein at least clinical laboratory and diagnostic x-ray services, as well as facilities for definitive medical and surgical treatment.

(3) An establishment offering in-patient services and physical facilities in one of the recognized medical specialties to 4 or more nonrelated individuals requiring diagnosis, treatment, and continuing daily care of physicians licensed to practice in Michigan, which establishment shall make readily available therein facilities necessary for definitive treatment in the recognized speciality; provided that the Michigan department of health's written evaluation of the establishment shall be reviewed by the commissioner's hospital committee, favorably recommended to the commissioner, and subsequently approved by him before certification.

History: 1954 ACS 5, p. 55, Eff. Feb. 15, 1956; 1954 ACS 24, p. 14, Eff. Nov. 12, 1960.

R 325.1081 Additional requirements for hospitals.

Rule 81. (1) The medical care available for children in the hospital shall be found to be satisfactory in the judgment of the chief of the bureau of maternal and child health of the department.

(2) Patients 12 years of age and under shall be cared for in a pediatric unit which meets the following requirements:

(a) It shall be segregated from the adult unit and consist of at least 2 rooms.

(b) Each room shall have a hand wash lavatory with gooseneck outlet and wrist, knee or foot controls.

(c) At least 1 room shall be available for use as an isolation room and shall have a toilet in addition to the lavatory for handwashing.

(d) A multipatient room shall provide a minimum of 80 square feet of floor space per bed or crib, and a single room shall provide 100 square feet of floor space per bed or crib.

(e) A multipatient room shall provide a minimum work clearance of 3 feet around beds, cribs, and bassinets.

(f) A room used for bassinets shall provide a minimum area of 40 square feet per bassinet.

(3) A pediatric unit of 16 beds or more shall meet the following additional requirements:

(a) A graduate professional nurse currently registered in this state shall be assigned to the unit at all times and be responsible for nursing care in the unit.

(b) The unit shall have a separate nursing station.

(c) The unit shall have utility rooms.

(d) The unit shall have a room for examinations and treatments.

(e) The unit shall have a playroom.

BUREAU OF DISEASE CONTROL AND LABORATORY SERVICES

TRANSPORTATION AND DISPOSITION OF DEAD BODIES

(By authority conferred on the state commissioner of health by section 1 of Act No. 343 of the Public Acts of 1925, being §326.1 of the Michigan Compiled Laws)

R 325.1141 Preparation and transportation of bodies dead from certain causes; permission for public funeral.

Rule 1. (1) The bodies of those who have died of diphtheria, meningococcic infections, plague, poliomyelitis, scarlet fever, or smallpox shall not be transported or accepted for transportation unless they have been prepared for shipment by being thoroughly embalmed and disinfected by arterial and cavity injection with an accepted embalming fluid. This preparation must be effected by an embalmer licensed with the state of Michigan.

(2) When bodies are transported under this rule, notice must be sent by the shipping embalmer to the health officer of the jurisdiction where the body is to be received, advising the date and time of arrival.

(3) Public funerals may be conducted, provided that prior permission is obtained from the local health officer. When permission is granted, persons in isolated areas may be released for the purpose of accompanying the body to a funeral home, church, or cemetery, provided that they:

(a) Use a separate car or means of conveyance.

(b) Remain in separate room or separate from the public and avoid proximity to others in attendance.

(c) Return to the area of isolation and remain there until premises are released from isolation or quarantine.

History: 1944 ACS 30, p. 5; 1954 AC, p. 2330.

R 325.1142 Transportation of certain bodies in sound shipping case; preparation for shipment; burial-transit or disinterment permit.

Rule 2. Bodies dead from a cause not named in R 325.1141 which shall reach their destination within 48 hours from the time of death, or are addressed to the demonstrator of anatomy of a medical college or for other demonstration purposes, may be received for transportation when encased in a sound shipping case. If the body is not so addressed or cannot reach its destination within 48 hours it must be prepared for shipment as described in R 325.1141. When dead bodies are shipped by common carrier, a burial-transit or disinterment permit shall be securely fastened upon the outside box, and a duplicate of such permit shall be supplied by the funeral director to the person escorting the body, or, if there be no escort, a duplicate of the permit shall be mailed to the receiving funeral director.

History: 1944 ACS 30, p. 5; 1954 AC, p. 2331.

R 325.1143 Disinterment and removal; permit; transportation; container; responsibility of funeral director; receiving vaults; reinterment.

Rule 3. No body shall be disinterred for removal unless a permit has been issued by the local health officer upon request from a licensed funeral director. No disinterred body shall be accepted for transportation by common carrier unless it has been enclosed in a hermetically sealed metal container which will insure against leakage, offensive odors, and other menaces to the public health and safety to its destination. Disinterred bodies may be transported by private vehicle under the supervision of a licensed funeral director when enclosed in any suitable container which will insure against leakage, offensive odors, and other menaces to the public health and safety. The licensed funeral director in charge of disinterment shall be responsible for the proper conduct of the disinterment and removal. Bodies deposited in receiving vaults, or otherwise kept for 30 days after death, will be considered and treated the same as buried bodies. No permit is necessary when reinterment is to take place within the same cemetery.

History: 1944 ACS 30, p. 5; 1954 AC, p. 2331.

R 325.1144 Burial-transit permit.

Rule 4. Permission is hereby given by the Michigan department of health to registrars, mortuary science and funeral director licensees to have full authority to make out and sign a new burial-transit permit where a dead human body is transferred beyond the destination point as given on the burial-transit permit which accompanies the body. The same applies to cases where bodies are placed in a cemetery vault and transferred at some later date. The original burial-transit permit which accompanies the body must be given to the registrar, mortuary science, or funeral director licensee before a new burial-transit permit is made by him authorizing the transfer. The person issuing the new permit must indicate the

point of destination on the original burial-transit permit. When a mortuary science or funeral director licensee issues a new burial-transit permit, the original burial-transit permit must be filed within 72 hours with the registrar in whose jurisdiction the transfer was made.

History: 1944 ACS 30, p. 5; 1954 AC, p. 2331.

R 325.1145 Removal of body from incorporated or unincorporated area; death or stillbirth certificate; burial-transit permit; duty of county clerk.

Rule 5. (1) When a mortuary science or funeral director licensee is called upon to remove a body from an incorporated or unincorporated area, the mortuary science or funeral director licensee may remove the body for the purpose of caring for it but is required to file a completed death or stillbirth certificate and secure a burial-transit permit within 72 hours from the local registrar of the incorporated or unincorporated area in which the death occurred.

(2) If a death occurs in an unincorporated area, when a Sunday or a holiday or both, or when an immediate interment, cremation, or shipment makes it impossible to obtain a burial-transit permit by mail, a mortuary science or funeral director licensee may issue a burial-transit permit to himself, provided that the envelope in which the completed death or stillbirth certificate is mailed to the county clerk in whose jurisdiction the death occurred is postmarked within the 72 hours after the death occurred.

(3) If for any other reason a burial-transit permit has not been received by mail in time for the interment, cremation, or shipment, the mortuary science or funeral director licensee may issue a burial-transit permit to himself, provided that the envelope in which the completed death or stillbirth certificate was mailed to the county clerk in whose jurisdiction the death occurred is postmarked within the 72 hours after the death occurred.

(4) When a county clerk receives a death or stillbirth certificate from his primary registration district by mail, he shall enter on the certificate, as the date of filing, the date on which the certificate or certificates were received and shall also enter beneath the date of filing the postdate appearing on the envelope in which the certificate or certificates arrived.

sentative. Persons appointed on the nomination of the medical schools shall serve at the pleasure of the nominating dean.

(3) Biennially the committee shall elect a chairman, a vice-chairman, and an executive secretary, each to represent a different medical school and each empowered to act for the committee. Interim elections shall be held as necessary to fill unexpired terms.

(4) The committee, by majority vote, shall recommend to the state director of public health such procedures or policies or changes in the rules as it deems appropriate. The committee shall operate within rules, procedures, and policies adopted or approved by the state director of public health.

(5) The committee shall meet in June of each year and at other times as requested by the chairman or the state director of public health. A majority of the committee constitutes a quorum.

(6) The executive secretary shall record the proceedings and decisions of the committee at its meetings and shall draw up an annual report, covering the period July 1 to the following June 30, on all bodies, together with their disposition. Copies of all minutes and of the annual report shall be submitted to the state director of public health.

(7) The chairman, vice-chairman, or executive secretary shall requisition bodies annually and shall keep full records of the bodies received.

(8) The director of the bureau of laboratories shall maintain a complete file of all activities and procedures of the committee and matters relating thereto within the state department of public health.

History: 1954 ACS 45, p. 12, Eff. Feb. 14, 1966.

R 325.1172 Receiving, embalming, and storage of bodies.

Rule 2. A body can be received by the committee at the university of Michigan, Wayne state university, and Michigan state university. The representative of the committee in each institution shall arrange for proper embalming and storage of the bodies received. The body shall be embalmed properly.

History: 1954 ACS 45, p. 13, Eff. Feb. 14, 1966.

R 325.1173 Waiting periods for unclaimed bodies.

Rule 3. The 30-day waiting period before the use of an unclaimed body shall date from the time of receipt of the body by the anatomy committee or its representatives.

History: 1954 ACS 45, p. 13, Eff. Feb. 14, 1966.

R 325.1174 Records of bodies.

Rule 4. An institution shall keep complete records of bodies in its charge. The storing institution shall make records in triplicate, 1 for its own purposes and 1 for deposit with each other storing institution. Records shall be exchanged periodically. Records shall reflect date of receipt, identity, age, sex, race, religion, cause of death, whole or autopsied, physical condition, embalming, storage, location and manner of use, claiming status, and disposition. Accession numbers shall indicate by letter code the preparing and storing institution.

History: 1954 ACS 45, p. 13, Eff. Feb. 14, 1966.

R 325.1175 Value of bodies.

Rule 5. For purposes of the law and distribution to participating institutions, the value of a body shall be determined by the expenses incurred, plus the

proportionate cost of the facilities and materials provided by the preparing and storing institution.

History: 1954 ACS 45, p. 13, Eff. Feb. 14, 1966.

R 325.1176 Allocation and disposal of bodies.

Rule 6. (1) For general usage and so long as supplies are adequate, the committee shall allocate an approximate number of bodies in advance. The basis of allocation shall be 1 whole body to 4 medical students; 1 whole body to 6 dental students; and 1 whole body to 8 nursing or physical education students. Parts of bodies shall be allocated as freely as the supply of autopsied bodies permits. Bodies for research shall be allocated as freely as supplies permit. The above basis of allocation can be altered with variations in supply. The supply of bodies in the 3 storing institutions constitutes a common pool for distribution to the institutions and hospitals requiring them. Teaching needs and undergraduate medical courses shall have priority over other demands.

(2) Final disposal of the remains of a body shall be by cremation and burial of the ashes or by other methods acceptable to society and the local authorities, and approved by the state department of public health. Cremation and burial of the ashes is recommended.

History: 1954 ACS 45, p. 13, Eff. Feb. 14, 1966.

R 325.1177 Requests for bodies.

Rule 7. A request for a body from a hospital and teaching institution shall be evaluated by the committee or its officers jointly, and, if approved, an appropriate body shall be dispatched. In evaluating a request, the committee shall consider the educational standing of the requesting institution, the teaching staff, the number of students to be accommodated, and the character of the educational experience to be offered. It shall require the submission of a definite proposal for the use of the anatomical material and a prospectus of the course in which the material is to be used. An institution receiving bodies for educational purposes shall have facilities for storage and handling that are acceptable to the anatomy committee.

History: 1954 ACS 45, p. 14, Eff. Feb. 14, 1966.

R 325.1178 Rescission.

Rule 8. R 325.1151 to R 325.1161 of the Michigan Administrative Code of 1954, as added in the 1959 Annual Administrative Code Supplement, page 1213, are rescinded.

History: 1954 ACS 45, p. 14, Eff. Feb. 14, 1966.

OFFICE OF DIRECTOR

HEARINGS

(By authority of Act No. 197 of the Public Acts of 1952, being §24.101 et seq. of the Michigan Compiled Laws)

R 325.1201 Requests for rules and hearings.

Rule 1. Any interested person may petition the state health commissioner requesting the promulgation, amendment, or repeal of any rule. Any interested person or agency may petition the state health commissioner for a hearing regarding the application of such rule to a specific case.

History: 1944 ACS 38, p. 31; 1954 AC, p. 2332.

R 325.1202 Notice of hearing.

Rule 2. All persons involved shall be provided with at least 14 days' notice of the date of any intended hearing. Notice shall be given in person or by registered mail. Effort will be made to adjust the date of said hearing to the convenience of all concerned.

History: 1944 ACS 38, p. 31; 1954 AC, p. 2332.

R 325.1203 Conduct of hearing.

Rule 3. The hearing shall be held before the state health commissioner or a person specifically authorized by him to conduct the same in his behalf.

History: 1944 ACS 38, p. 31; 1954 AC, p. 2332.

R 325.1204 Testimony; representation.

Rule 4. All parties concerned may present written or oral testimony, be represented by any designated person, and have the right to question any of those present.

History: 1944 ACS 38, p. 31; 1954 AC, p. 2332.

R 325.1205 Additional evidence; preliminary decision.

Rule 5. After carefully reviewing all evidence presented in the hearing concerning the contested case, the commissioner may request such additional evidence as he believes necessary. He shall then arrive at a preliminary decision, which will be submitted to the parties concerned for the opportunity of making a written reply or requesting a date for subsequent presentation of additional evidence.

History: 1944 ACS 38, p. 31; 1954 AC, p. 2332.

R 325.1206 Decision of commissioner.

Rule 6. After a reasonable opportunity has been provided for compliance with the conditions set up in R 325.1205, the commissioner shall render his decision, except that, if specifically requested to do so by either of the parties, he will present the evidence to the advisory council of health for advice before rendering said decision. Any decision made shall be considered effective from the date of the mailing of the original notice of the hearing to the parties involved.

History: 1944 ACS 38, p. 31; 1954 AC, p. 2332.

REQUESTS FOR DECLARATORY RULINGS

(By authority conferred on the department of public health by section 63 of Act No. 306 of the Public Acts of 1969, being §24.263 of the Michigan Compiled Laws)

R 325.1211 Requests for declaratory rulings.

Rule 1. A person requesting a declaratory ruling as to the applicability to an actual state of facts of a statute, rule, or order administered or issued by the department of public health shall do so on a form provided by and available at the department. The form shall be completed in full and shall be filed, either by mail or in person, in the Office of the Director, 3500 North Logan Street, Lansing 48914. After receipt of a correctly filed request, the department shall have 30 days within which to notify the initiator of the request by mail whether a declaratory ruling will be issued. If the department's response is affirmative, and prior to the issuance of a declaratory ruling, reasonable time shall be provided to the director

COMPLAINTS

(By authority conferred on the director of public health by section 7 of Act No. 146 of the Public Acts of 1919, section 427 of Act No. 380 of the Public Acts of 1965 and section 33 of Act No. 306 of the Public Acts of 1969, as amended, being §§325.7, 16.527, and 24.233 of the Michigan Compiled Laws)

R 325.1213 Definitions.

Rule 3. As used in these rules:

(a) "Complainant" means a person other than the department who files a complaint about a licensee, certificate holder, or permittee regulated by the department.

(b) "Department" means the department of public health.

(c) "Director" means the director of public health.

(d) "Person" means an individual, partnership, copartnership, corporation, association, body politic, or state agency other than the department.

(e) "Respondent" means a licensee, certificate holder, or permittee who is complained against.

History: 1954 ACS 74, p. 51, Eff. Jan. 18, 1973.

R 325.1214 Applicability.

Rule 4. These rules govern the administrative procedures established for the handling of a complaint filed by any person and provide an additional procedure to any procedure established now or hereafter.

History: 1954 ACS 74, p. 51, Eff. Jan. 18, 1973.

R 325.1215 Complaints.

Rule 5. (1) A complaint shall be in writing and signed by the complainant.

(2) A complaint shall be limited to matters involving an alleged unlawful or unreasonable act, practice, or a violation of an applicable law or rule affecting the complainant or, in the case of a public interest group, affecting the public or a portion thereof.

(3) A facility licensed or certified for the purpose of treating or maintaining patients or residents on an in-patient basis may be complained of by a relative or spouse of a patient or resident, by a public health official not a member of the department, an employee of such a facility if the complaint does not relate to the terms or conditions of employment or a public interest group having legal status and a legitimate interest in the quality of care provided in such facilities.

History: 1954 ACS 74, p. 51, Eff. Jan. 18, 1973.

R 325.1216 Receipt and disposition of complaints.

Rule 6. (1) A complaint shall be filed with the director or his designated representative.

(2) A complaint shall be given a file number, a file established, and a letter of acknowledgment sent to the complainant.

(3) A complaint shall be investigated according to a priority established by the director or his designated representative and a memorandum of the investigation prepared and placed in the complaint file.

(4) The memorandum written following investigation of a complaint with copy to the involved complainant and respondent shall detail:

(a) Brief description of the complaint.

(b) Investigatory findings.

(c) Recommendations for indicated change or correction of deficiencies or items of noncompliance.

(d) Need for follow up if indicated.

(5) A letter shall be sent to the complainant and the respondent following investigation of the complaint informing them generally of any action taken.

History: 1954 ACS 74, p. 52, Eff. Jan. 18, 1973.

R 325.1217 Hearings on complaints.

Rule 7. (1) A complainant may request a hearing on his complaint if he is dissatisfied with the investigation or its results.

(2) A request for a hearing shall be submitted in writing to the director within 30 days after receipt of the letter specified in R 325.1216(5).

(3) Notice of the complaint and the time and place of the hearing shall be sent to the respondent.

(4) The hearing shall be conducted informally by the director or his designated representative at the department's offices or such other place as the director may designate.

(5) The complainant and the respondent may present evidence at the hearing and be represented by legal counsel.

(6) A complainant or a respondent shall have access to the complaint file and its content by appointment at a mutually convenient time in the department's offices.

History: 1954 ACS 74, p. 52, Eff. Jan. 18, 1973.

BUREAU OF HEALTH CARE ADMINISTRATION

NURSING HOMES AND HOMES FOR AGED

R 325.1221—R 325.1276 Rescinded.

History: 1954 ACS 12, pp. 33-44, Eff. Nov. 21, 1957; rescinded 1954 ACS 60, p. 24, Eff. Nov. 14, 1969.

OFFICE OF DIRECTOR

PUBLIC INSPECTION OF LICENSE RECORDS

(By authority conferred on the department of public health by section 7 of Act No. 146 of the Public Acts of 1919, and section 33 of Act No. 306 of the Public Acts of 1969, being §§325.7 and 24.233 of the Michigan Compiled Laws)

R 325.1281 "License" and "license records" defined.

Rule 1. (1) A "license" includes a permit, certificate, approval, registration, or similar form of permission required by law.

(2) "License records" include the copy of the application for the license, a copy of the license, copies of reports of inspections made by or for the department, responses of the applicant thereto, and memoranda or other written communications with the licensee pertaining to the granting or denial of a license.

History: 1954 ACS 90, p. 11, Eff. Feb. 11, 1977.

DEPARTMENT OF LICENSING AND REGULATION

BOARD OF EXAMINERS FOR SANITARIANS

(By authority of Act No. 147 of the Public Acts of 1963, being §338.1301 et seq. of the Michigan Compiled Laws)

R 325.1401 Application for registration.

Rule 1. Applications for registration shall be made to the commissioner on forms prescribed and provided by the commissioner. Each application shall be accompanied by the fee prescribed by law. Such fee shall be in the form of a check or money order payable to the state health commissioner.

History: 1954 ACS 38, p. 49, Eff. May 15, 1964.

R 325.1402 Registration requirements.

Rule 2. Requirements for registration under the act shall be (a) the qualifications for registration as set forth in the act provided that a minimum of at least 1 year as a practicing sanitarian be included in the combination of education and experience, (b) satisfactory completion of a written examination approved by the board and administered by an authority acceptable to the board, and (c) a sound moral character.

History: 1954 ACS 38, p. 49, Eff. May 15, 1964.

R 325.1403 Evaluation of applicants.

Rule 3. The board shall carefully evaluate all applicants for registration and forward its recommendations to the commissioner. The board may conduct oral interviews and require affidavits and other supporting evidence of qualification.

History: 1954 ACS 38, p. 49, Eff. May 15, 1964.

R 325.1404 Rejection of application.

Rule 4. The board may reject an application for registration for any of the following reasons: (a) failure to be accompanied by the prescribed fee, (b) failure of the applicant to meet the qualifications of registration as prescribed by law, (c) failure to complete application form, or (d) other good and sufficient cause after due notice and proper hearing.

History: 1954 ACS 38, p. 50, Eff. May 15, 1964.

R 325.1405 Notice of refusal.

Rule 5. The board shall notify by letter, or by form prescribed by the board, each applicant, whose application is refused, of the reasons for refusal and the methods, if any, by which the applicant may reapply.

History: 1954 ACS 38, p. 50, Eff. May 15, 1964.

R 325.1406 Reciprocity.

Rule 6. The secretary shall obtain confirmation of requirements for registration in the state from which an applicant requests reciprocity. The commissioner may upon application therefor and the payment of the fee prescribed by law issue a certificate of registration as a registered sanitarian to any person who holds a certificate of qualification or registration issued to him by the proper authority of any state of the United States, if requirements for the registration of sanitarians

under which said certificate or qualifications of registration was issued do not conflict with the provisions of this act and are of a standard not lower than that specified in these rules, and if equivalent reciprocal privileges are granted the registrants of this state; provided, further, that the applicant shall have practiced as a registered sanitarian for a period of at least 1 year in the state with which reciprocity indorsement is requested.

History: 1954 ACS 38, p. 50, Eff. May 15, 1964.

R 325.1407 Renewal certificate.

Rule 7. A registered sanitarian may renew his certificate by paying to the commissioner an annual renewal fee as prescribed by law. Such renewal certificate will consist of a card showing date of issue and year of validity, certificate number, and shall bear the signatures of the commissioner and chairman of the board.

History: 1954 ACS 38, p. 50, Eff. May 15, 1964.

R 325.1408 Reinstatement of expired registration certificate.

Rule 8. If a registration certificate expires for failure of the registrant to apply and pay renewal fees such certificate may be reinstated by the commissioner as follows:

(a) Reinstatement within 3 years may be made upon receipt of renewal application and renewal fees for the year or years during which registration has lapsed; provided however, that application for renewal after 1 year of lapsed registration shall be reviewed by the board in order to determine qualifications for registration as set forth in section 4 of these rules.

(b) Applicants for renewal after 3 years of lapsed registration shall be required to submit to the board's written examination.

History: 1954 ACS 38, p. 50, Eff. May 15, 1964.

R 325.1409 Charges.

Rule 9. There shall be submitted to the board for review all charges made by any person that the holder of a certificate of registration has violated the provisions of the law. Such charges shall be made in writing and shall bear the signature and address of the person making such charges. The board shall review the written charges as submitted to it and make such investigations as may be required to determine whether it should recommend to the commissioner that he suspend or revoke the holder's certificate of registration. The commissioner may suspend or revoke a certificate of registration for any cause prescribed by law after due notice and proper hearing. The duration of any suspension shall be determined by the commissioner at the time he takes such action, provided, however, such suspension shall not exceed 1 year. The person whose certificate of registration has been suspended may apply to the commissioner for reinstatement of his certificate at the duration of the suspension. Such application shall be made in the manner prescribed for renewal of a certificate.

History: 1954 ACS 38, p. 50, Eff. May 15, 1964.

R 325.1410 Application for reinstatement of certificate.

Rule 10. An application for reinstatement of a certificate of registration shall be made within 1 year of the termination of suspension. If such application is not made within 1 year, the certificate of registration shall not be reinstated by the

commissioner unless the applicant is qualified in the manner prescribed by law and these regulations for the issuance of a new certificate of registration.

History: 1954 ACS 38, p. 50, Eff. May 15, 1964.

R 325.1411 Annual budget.

Rule 11. The board shall prepare an annual budget to be submitted by the secretary to the commissioner on or before August 1 each year.

History: 1954 ACS 38, p. 51, Eff. May 15, 1964.

R 325.1412 Annual report.

Rule 12. The secretary shall prepare a tentative annual report of the board, for the period July 1 to June 30 and submit a copy of such report to each member of the board at least 10 days prior to the last regular meeting of the calendar year. The secretary shall submit to the commissioner the adopted final report, signed by the chairman and the secretary.

DEPARTMENT OF PUBLIC HEALTH

BUREAU OF ENVIRONMENTAL AND OCCUPATIONAL HEALTH

LOCATION AND CONSTRUCTION OF WATER SUPPLIES

R 325.1451—R 325.1461 Rescinded.

History: 1954 ACS 40, pp. 8-12, Eff. Nov. 14, 1964; rescinded 1954 ACS 94, p. 30, Eff. Jan. 12, 1978.

BUREAU OF PERSONAL HEALTH SERVICES

PHENYLKETONURIA TEST ON NEWBORN INFANTS

(By authority conferred on the department of public health by section 2 of Act No. 119 of the Public Acts of 1965, being §325.522 of the Michigan Compiled Laws)

R 325.1471 Phenylketonuria tests; approval.

Rule 1. The test for phenylketonuria screening approved by the state health director is the Guthrie test, which shall be provided without charge by the department of public health to all Michigan physicians and hospitals. The use of other tests under controlled research conditions may be permitted when prior written application has been made and written approval given by the state health director.

History: 1954 ACS 45, p. 14, Eff. Feb. 14, 1966.

R 325.1472 Blood specimens; when obtained.

Rule 2. The blood specimen for testing shall be obtained at least 24 hours after the first protein feeding and within the first 3 days of life except:

(a) An infant receiving only breast milk shall have the specimen taken during the fourth to the tenth day of life.

(b) An infant of less than 4½ pounds birth weight shall have the specimen taken during the seventh to fourteenth day of life.

(c) An infant from whom a specimen cannot be obtained in the hospital within these criteria (for example, discharge from hospital too soon, born outside hospital) shall have the specimen taken within the first 2 weeks of life.

History: 1954 ACS 45, p. 14, Eff. Feb. 14, 1966.

R 325.1473 Laboratories; quality control.

Rule 3. A private or hospital laboratory performing the Guthrie test is subject to quality control by the department of public health. A laboratory shall:

(a) Apply to the state health director for approval.

(b) Use the standard Guthrie test for the screening test, except under controlled research conditions as provided in R 325.1471.

(c) Perform tests on unknown control specimens sent to them by the bureau of laboratories of the department of public health.

(d) Perform tests as soon as possible after receipt of the specimens and not later than 3 days after such receipt.

(e) Include a control series of filter paper discs with known concentrations of phenylalanine (2, 4, 6, 8, 12, and 20 mg. %) with each test plate.

(f) Report immediately presumptive positive tests by telephone to the responsible physician and by telephone or telegraph to the offices of the state health director.

(g) Provide written reports of tests or unsatisfactory specimens to the responsible physician.

History: 1954 ACS 45, p. 14, Eff. Feb. 14, 1966.

R 325.1474 Inadequate specimens.

Rule 4. Upon notification that a specimen is inadequate or unsatisfactory for testing, a repeat specimen shall be submitted within 72 hours.

History: 1954 ACS 45, p. 15, Eff. Feb. 14, 1966.

R 325.1475 Reporting of test results.

Rule 5. (1) A presumptive positive test result shall be immediately reported to the physician by telephone or telegraph and a second specimen shall be requested to be submitted within 72 hours. No therapy should be instituted until confirmatory diagnostic testing beyond the Guthrie screening is reported positive.

(2) Written reports of tests shall be made to the responsible physician through the agency submitting the specimen.

History: 1954 ACS 45, p. 15, Eff. Feb. 14, 1966.

PRESCHOOL VISION TESTS

(By authority conferred on the department of public health by section 376 of Act No. 269 of the Public Acts of 1955, as amended, being §340.376 of the Michigan Compiled Laws)

R 325.1481 Vision tests of preschool children; kinds and procedures.

Rule 1. (1) Vision tests of preschool children shall include tests for monocular and binocular visual acuity and for eye muscle balance.

(2) Public health vision screening tests shall be given by trained persons. The method of their training, and the procedures used in testing, shall be approved by the director of public health.

History: 1954 ACS 64, p. 25, Eff. Aug. 14, 1970.

BUREAU OF DISEASE CONTROL AND LABORATORY SERVICES

DISEASE CONTROL IN SCHOOLS

(By authority conferred on the director of public health by section 376 of Act No. 269 of the Public Acts of 1955, as amended, being §340.376 of the Michigan Compiled Laws)

R 325.1491 Diseases to be immunized or protected against.

Rule 1. Children entering school for the first time shall be immunized or protected against the following diseases: diphtheria, measles, pertussis, poliomyelitis, rubella, and tetanus.

History: 1954 ACS 88, p. 62, Eff. July 17, 1976.

BUREAU OF ENVIRONMENTAL AND OCCUPATIONAL HEALTH

AGRICULTURAL LABOR CAMPS

(By authority conferred on the department of public health by section 9 of Act No. 289 of the Public Acts of 1965, section 7 of Act No. 146 of the Public Acts of

1919, and section 427 of Act No. 380 of the Public Acts of 1965, being §§286.629, 325.7, and 16.527 of the Michigan Compiled Laws)

R 325.1501 Definitions.

Rule 1. (1) The terms defined in the act have the same meaning when used in these rules.

(2) As used in the act or in these rules, or both:

(a) "Act" means Act No. 289 of the Public Acts of 1965, as amended, being §§286.621 to 286.634 of the Michigan Compiled Laws.

(b) "Director" means the director of public health.

(c) "Garbage" means putrescible animal and vegetable wastes resulting from the handling, preparation, cooking and consumption of food.

(d) "Habitable room" means a room or enclosed floor space used or intended to be used at a camp for living, sleeping, cooking or eating purposes, excluding a bathroom, toilet compartment, laundry, pantry, foyer, connecting corridor, closet, or storage space.

(e) "Migratory worker" means a worker engaged primarily in agricultural and related seasonal industry, or who has been so engaged at 1 or more times during the past 2 crop seasons, and who must move so far in the course of his regular agricultural employment schedule that he must establish a temporary residence at 1 or more locations away from the place he calls home. It includes family dependents who may or may not move with the worker in any year for all or part of the season.

(f) "Refuse" means putrescible and nonputrescible solid wastes, except body wastes, including garbage, rubbish, and ashes.

(g) "Sewage" means liquid waste and includes human excreta, wastes from a sink, lavatory, bathtub, shower, or laundry, and any other liquid waste of organic or chemical nature, either separately or in any combination thereof.

(h) "Shelter" means a building or part thereof, tent, or trailer used for sleeping or living quarters at an agricultural labor camp.

(i) "Toilet facilities" means water closets, urinals, lavatories, and the rooms provided for installation of these units and privies.

History: 1954 ACS 45, p. 15, Eff. Feb. 14, 1966; 1954 ACS 58, p. 20, Eff. May 15, 1969.

R 325.1502 Advisory committee.

Rule 2. The director shall appoint an advisory committee, to advise him on the administration of the act and rules, consisting of 14 individuals, 5 of whom shall be growers employing seasonal farm laborers and at least 2 of whom shall be migrant workers or former migrant workers. Each member shall serve at the pleasure of the director, but not to exceed 4 years unless reappointed. The advisory committee shall meet at the call of the director, except that the director shall call a meeting at the request of any 5 members of the committee.

History: 1954 ACS 45, p. 15, Eff. Feb. 14, 1966.

R 325.1503 Applicability of rules.

Rule 3. These rules apply to all agricultural labor camps. A provision in these rules shall not take precedence over a requirement in an applicable local rule, ordinance, or code when such requirement is more stringent than the provision in these rules.

History: 1954 ACS 45, p. 15, Eff. Feb. 14, 1966; 1954 ACS 58, p. 20, Eff. May 15, 1969.

R 325.1504 Applications and issuance of licenses.

Rule 4. A separate application shall be submitted and a separate license issued annually for each agricultural labor camp. In case of an intended change of a camp operator during the period for which the camp is licensed, the new operator shall apply for a transfer of license at least 30 days before the proposed change is effective. On receipt of an application, the director or his authorized representative shall review the application and cause any necessary investigation and inspection to be made. Based thereon, the director shall issue a full license or a temporary license, or give the applicant or his authorized agent a written notice of denial stating the reasons for the denial.

History: 1954 ACS 45, p. 16, Eff. Feb. 14, 1966; 1954 ACS 58, p. 20, Eff. May 15, 1969.

R 325.1505 Camp operators' and occupants' responsibilities.

Rule 5. (1) An agricultural labor camp owner or camp operator or his agent shall clearly explain to camp occupants their responsibilities as to camp occupancy and care. The camp owner or operator or his agent shall at least once a week inspect the camp area, structures, toilets, showers, and other facilities, and see that each is maintained in a clean and orderly condition and that broken or damaged property is promptly repaired.

(2) An employee and occupant of a camp shall use the sanitary and other facilities furnished for his convenience and shall comply with applicable camp regulations which may concern or affect his conduct. An occupant of a camp shall keep in a clean and sanitary manner that part of the camp and premises which he occupies or uses. An occupant of a camp shall dispose of his rubbish and garbage in a clean and sanitary manner by placing it in containers provided for this purpose.

History: 1954 ACS 45, p. 16, Eff. Feb. 14, 1966; 1954 ACS 58, p. 20, Eff. May 15, 1969.

R 325.1506 Camp area and water supply.

Rule 6. (1) An agricultural labor camp area shall be well drained and free from depressions in which water may stagnate. It shall be located where the disposal of sewage is provided in a manner which neither creates nor is likely to create a nuisance or a hazard to health.

(2) The camp shall not be subject to, or in proximity to, conditions that create, or are likely to create, offensive odors, flies, noise, traffic, or any similar hazards.

(3) The camp shall be free from debris, noxious plants such as poison ivy, and uncontrolled grass, weeds, and brush.

(4) The camp shall include a space for recreation reasonably related to the size of the camp and the type of occupancy.

(5) An adequate and convenient supply of water that meets rules for certain water supplies in Michigan, being R 325.1451 to R 325.1461 of the Michigan Administrative Code, shall be provided.

(6) A cold water outlet shall be available within 100 feet of each shelter when water is not provided in the shelter. Adequate drainage facilities shall be provided for overflow and spillage.

(7) The common drinking cup shall not be permitted.

History: 1954 ACS 45, p. 16, Eff. Feb. 14, 1966; 1954 ACS 58, p. 21, Eff. May 15, 1969.

R 325.1507 Shelters; construction; floors; furniture; space.

Rule 7. (1) A shelter shall be structurally sound, in good repair, in a sanitary condition, and shall provide protection to the occupants against the elements.

(2) The shelter shall have flooring constructed of rigid materials, smooth finished, readily cleanable, and located to prevent the entrance of ground and surface water.

(3) The following space shall be provided in the shelter:

(a) For sleeping purposes only, except as provided in subdivision (b), not less than 50 square feet of floor space per adult.

(b) For sleeping purposes in a dormitory using double deck beds only, not less than 40 square feet per adult.

(c) For combined cooking, eating, and sleeping purposes, not less than 60 square feet of floor space per adult.

(d) A child under 12 years shall be provided with ½ the space required for an adult.

(4) The shelter for a family with 1 or more children over 6 years shall have a partitioned sleeping area for the husband and wife. The partition shall be of rigid materials and installed so as to provide reasonable privacy.

(5) A separate sleeping area shall be provided in the shelter for each sex or each family.

(6) A separate facility for hanging clothing and storing personal articles shall be provided in the shelter.

(7) At least ½ of the floor area in the shelter shall have a ceiling height not less than 7 feet. Floor space shall not be counted where the ceiling height is less than 5 feet.

(8) A partition between living units in a multi-family shelter shall extend to the ceiling of the shelter unless other acceptable methods are used to provide privacy. Where an open ceiling is present, the partition shall be either 10 feet high or be of "T" type construction.

(9) Sufficient bed space consisting of comfortable, rigidly-supported beds, cots, or bunks with clean mattresses or mattress covers shall be provided for all persons. Bedding provided by the camp operator shall be clean and sanitary. Triple deck bunks shall not be permitted. The clear space between the top of the lower mattress of a double deck bunk and the bottom of the upper bunk shall be not less than 27 inches. The distance from the top of the upper mattress to the ceiling shall be not less than 36 inches.

(10) For all male crews, a separate bed for each occupant.

History: 1954 ACS 45, p. 16, Eff. Feb. 14, 1966; 1954 ACS 58, p. 21, Eff. May 15, 1969.

R 325.1508 Fire safety and first aid.

Rule 8. (1) Living and sleeping areas above the second floor will not be approved unless authorized by the state fire marshal.

(2) In a 1-story shelter for a family or for less than 10 adults not less than 2 means of escape shall be provided. One may be a readily accessible window with an openable area of not less than 432 square inches and a least dimension of not less than 16 inches. The bottom opening of such a window shall be not more than 3 feet 6 inches above the floor.

(3) In a 1-story shelter a sleeping area for 10 or more adults, a central dining facility, and a common assembly room shall each have at least 2 doors remotely separated so as to provide alternate means of escape to the outside or to an interior hall.

(4) A second story with a sleeping area, a central dining facility, or a common assembly room shall have a stairway, and a permanently affixed approved type exterior ladder or a second stairway.

(5) Fire extinguishing equipment shall be provided and located not more than 100 feet from each shelter. The equipment shall be equal to one 2½ gallon stored pressure or one 5 gallon hand pump extinguisher.

(6) A flammable or volatile liquid or material, except those needed for current household use, shall not be stored in or adjacent a shelter.

(7) An agricultural pesticide or a toxic chemical shall not be stored in a camp area unless in a locked building.

(8) A first aid facility shall be provided and readily accessible for use and shall meet specifications of the director.

History: 1954 ACS 45, p. 17, Eff. Feb. 14, 1966; 1954 ACS 58, p. 21, Eff. May 15, 1969.

R 325.1509 Ventilation, lighting, and electricity.

Rule 9. (1) A shelter shall be provided with adequate ventilation and natural lighting. The natural light area shall be not less than 10% of the floor space. The openable window area in a sleeping room shall be not less than 45% of the window area, except where some other approved device affording adequate ventilation is supplied.

(2) Outside openings shall be protected during the fly season with screening of not less than 16 mesh. A screen door shall be equipped with a self-closing device.

(3) A shelter shall be provided with electric service.

(4) A shelter and a common use room or area such as a laundry room, central toilet, hallway, or stairway shall be adequately lighted. Not less than 1 wall-type electrical outlet shall be provided in each room.

(5) Adequate lighting shall be provided for the yard area and pathways to common use facilities.

(6) Wiring and lighting fixtures shall be installed and maintained in a safe condition.

History: 1954 ACS 45, p. 17, Eff. Feb. 14, 1966; 1954 ACS 58, p. 22, Eff. May 15, 1969.

R 325.1510 Heating.

Rule 10. (1) A shelter and a common use room or area used before May 31 or after September 1 in any year shall be provided with properly installed, operable heating equipment capable of maintaining a temperature of not less than 68 degrees Fahrenheit.

(2) Stoves and other sources of heat utilizing combustible fuel when in a shelter shall be installed and vented to prevent fire hazards and a dangerous concentration of gases. A portable heater, other than electric, shall not be permitted. If a solid or liquid fuel stove is used with wooden or other combustible flooring, a concrete slab, insulated metal sheet, or other fireproof material shall be provided on the floor under the stove.

(3) A wall or ceiling within 18 inches of a solid or liquid fuel stove or a stovepipe shall be of fireproof material. A vented metal collar shall be installed around a stovepipe or vent passing through a wall, ceiling, floor, or roof.

(4) When a heating system has automatic controls, they shall be of the type which cut off the fuel supply on failure or interruption of the flame or ignition, or when a predetermined safe temperature or pressure is exceeded.

History: 1954 ACS 45, p. 17, Eff. Feb. 14, 1966; 1954 ACS 58, p. 22, Eff. May 15, 1969.

R 325.1511 Cooking and eating facilities; refrigeration; central feeding.

Rule 11. (1) When a migratory worker or his family is permitted or required to cook and eat in a shelter, a space shall be provided with:

(a) A cookstove or hot plate with not less than 2 burners.

(b) Adequate food storage shelves and a counter for food preparation.

(c) Mechanical refrigeration for food which will maintain a temperature of not more than 45 degrees Fahrenheit.

(d) A table and chairs or equivalent accommodations commensurate with the capacity of the shelter.

(e) Adequate lighting and ventilation.

(2) When a migratory worker or his family is permitted or required to cook and eat in a common facility, a room or building separate from sleeping areas shall be provided with:

(a) Stoves or hot plates, each with not less than 2 burners, in a ratio of 1 stove or hot plate to 10 persons or 1 stove or hot plate to 2 families.

(b) Adequate food storage shelves and a counter for food preparation.

(c) Mechanical refrigeration for food which will maintain a temperature of not more than 45 degrees Fahrenheit.

(d) A table and chairs or equivalent accommodations commensurate with the capacity of the facility.

(e) Adequate sinks with hot and cold water under pressure.

(f) Adequate lighting and ventilation.

(g) Floors of nonabsorbent, easily cleaned materials.

(3) When a common dining facility is provided, the kitchen and dining area shall be in proper proportion to the capacity of the camp and shall be separate from the sleeping areas. The physical facilities, equipment and operation shall be in accordance with provisions of applicable state codes.

(4) A wall surface adjacent to a food preparation and cooking area shall be of nonabsorbent, easily cleaned materials. A wall surface adjacent to a cooking area shall be fire-resistant.

History: 1954 ACS 45, p. 17, Eff. Feb. 14, 1966; 1954 ACS 58, p. 22, Eff. May 16, 1969.

R 325.1512 Bathing, handwashing, and laundry facilities.

Rule 12. An agricultural labor camp constructed after July 1, 1969, and all camps after January 1, 1971, shall provide:

(a) A bathing facility supplied with hot and cold water under pressure. The facility shall be clean and sanitary and located within 200 feet of each shelter; however, the director or his representative may modify this requirement. The modification shall be made by writing to the camp operator and stating the reasons therefor.

(b) Not less than 1 showerhead per 15 adults. Showerheads shall be spaced not less than 3 feet apart, with not less than 9 square feet of floor area per unit. A commercial prefabricated shower stall of approximately 32 inches x 32 inches floor area is acceptable. Adequate dressing space shall be provided in common use facilities. A shower floor shall be constructed of nonabsorbent, nonskid materials and sloped to a properly constructed floor drain. Except in a single family shelter a separate shower facility shall be provided for each sex. Common use shower facilities for each sex in the same building shall be separated by a solid nonabsorbent wall from the floor to ceiling or roof, and shall be plainly designated "Men" or "Women".

(c) Handwashing facilities in a ratio of 1 unit per single family shelter or 1 unit per 15 adults.

(d) Laundry facilities supplied with hot and cold water under pressure. Laundry trays or tubs shall be in a ratio of 1 unit per 25 adults. Mechanical washers may be in a ratio of 1 washer per 50 adults in lieu of laundry trays, although not

less than 1 laundry tray per 100 adults shall be provided in addition to the mechanical washers.

History: 1954 ACS 45, p. 18, Eff. Feb. 14, 1966; 1954 ACS 58, p. 23, Eff. May 16, 1969.

R 325.1513 Toilet facilities.

Rule 13. (1) A toilet shall be constructed, located, and maintained so as to prevent a nuisance or public health hazard.

(2) If a central toilet facility is provided, a toilet or privy seat for each sex shall be provided therein in the ratio of not less than 1 unit for each 15 adults it serves.

(3) A urinal constructed of nonabsorbent material may be substituted for a man's toilet seat on the basis of not less than 24 inches of trough-type urinal for 1 toilet seat up to a maximum of 1/3 of the required toilet seats.

(4) Except for a single family shelter, a separate toilet accommodation for each sex shall be provided. Toilet facilities for each sex in the same building shall be separated by a solid wall from the floor to ceiling or roof, and shall be plainly designated "Men" or "Women."

(5) A common use toilet or privy shall be well lighted and ventilated and shall be clean and sanitary.

(6) A toilet facility shall be located within 200 feet of each shelter which it serves. A privy shall not be located closer than 50 feet from a shelter or a facility where food is prepared or served.

(7) A privy structure and pit shall be fly-tight. A privy pit shall have adequate capacity for the required seats.

(8) A toilet seat shall be impervious and maintained in a clean condition.

(9) A common use toilet facility shall have adequate and accessible toilet tissue, with holders.

History: 1954 ACS 45, p. 18, Eff. Feb. 14, 1966; 1954 ACS 58, p. 23, Eff. May 15, 1969.

R 325.1514 Sewage, garbage, refuse disposal, and vermin.

Rule 14. (1) Sewage shall be discharged into a municipal sewer system when available. Where municipal sewer connections are not available and a water carried sewerage system is used, sewage shall be discharged into a private sewage disposal system, the operation of which creates neither a nuisance nor a hazard to health, nor unlawfully pollutes any of the waters of the state. In development of a sewage disposal system for a new agricultural labor camp or where major changes are proposed at an existing camp and a municipal sewerage system is not available, plans and specifications shall be submitted to the director for approval before construction. Sewage shall not be permitted to accumulate on the ground surface.

(2) An adequate number of durable, fly-tight, clean containers in good condition shall be provided for storage of garbage and other refuse.

(3) Refuse shall be collected not less than once a week or oftener if necessary. The disposal of garbage and other refuse shall be in accordance with state and local law.

(4) Shelters and common use facilities shall be free of insects, rodents, and other vermin.

History: 1954 ACS 45, p. 18, Eff. Feb. 14, 1966; 1954 ACS 58, p. 24, Eff. May 15, 1969.

R 325.1515 Winter occupancy.

Rule 15. A person shall not occupy, nor shall a camp operator permit occupancy of, a shelter in an agricultural labor camp before April 1 or after November 1 in any year unless the shelter has:

(a) An approved water supply, sewage disposal facilities, and a kitchen sink in working condition and properly connected to an approved water and wastewater disposal system.

(b) At least 2 separate duplex wall-type electrical outlets and 1 ceiling electric light fixture in each room; however, the director or his representative may modify this requirement for bedrooms.

(c) A heating facility properly installed, maintained in good working condition and capable of safely and adequately maintaining a room temperature of at least 68 degrees Fahrenheit.

(d) Double floors, double walls or equivalent, and interior permanent type ceilings. Concrete slab floors are acceptable.

(e) A free air space, if provided under the floor, protected to prevent freezing of plumbing and to assist in maintaining proper room temperature.

(f) Not less than 60 square feet of habitable floor area per person.

(g) Complied with all other rules herein not inconsistent with this rule.

History: 1954 ACS 45, p. 18, Eff. Feb. 14, 1966; 1954 ACS 58, p. 24, Eff. May 15, 1969.

GRANTS FOR IMPROVEMENTS AT AGRICULTURAL LABOR CAMPS

(By authority conferred on the department of public health by section 4 of Act No. 197 of the Public Acts of 1970, and section 7 of Act No. 146 of the Public Acts of 1919, as amended, being §§286.614 and 325.7 of the Michigan Compiled Laws)

R 325.1531 Definitions.

Rule 1. (1) The terms defined in the act have the same meaning when used in these rules.

(2) "Act" means Act No. 197 of the Public Acts of 1970, being §§286.611 to 286.616 of the Michigan Compiled Laws.

(3) "Agreement" means an offer and acceptance arrangement between an applicant for a grant and the department.

(4) "Camp" means an agricultural labor camp licensable under authority of Act No. 289 of the Public Acts of 1965, as amended, being §§286.621 to 286.634 of the Michigan Compiled Laws.

(5) "Grant" or "state grant" means money from the migratory labor housing fund made available to an employer of migratory workers of not more than 50% of the costs of an extensive remodeling project which costs shall not exceed $10,000.00. Projects costing over $10,000.00 are acceptable; however, the grant shall be based upon a $10,000.00 portion of the construction cost of the project.

(6) "Grantee" means an individual, corporation, partnership, association, or any combination thereof which operates or proposes to operate an agricultural labor camp under Act No. 289 of the Public Acts of 1965, as amended, and who makes application for a grant pursuant to the act and who has signed an acceptance agreement with the department.

(7) "Housing" means a building or portion thereof offered as shelter or habitation for migratory workers, including, but not limited to, such facilities as water supply, sewage disposal, and showers.

(8) "Migratory worker" means a person working, or available for work, primarily in agriculture or related food processing who moves seasonally 1 or more times from 1 place to another from within or without the state for the purpose of such employment or availability for seasonal employment.

History: 1954 ACS 69, p. 52, Eff. Sept. 3, 1971.

R 325.1532 Eligibility for grants.

Rule 2. (1) A migrant housing improvement project for which an application is submitted shall comply with the minimum requirements of Act No. 289 of the Public Acts of 1965, as amended, and the rules adopted thereunder, and the department shall determine the necessity of items exceeding these requirements.

(2) An improvement project covering necessary buildings and related facilities shall be considered for a grant. Household furnishings shall not be eligible for a grant. Only that equipment permanently installed as part of the structure shall be eligible for a grant, such as plumbing, lighting fixtures, central heating units, or heating units permanently affixed to the building.

(3) In case of a dual-purpose building, a grant shall be based on those facilities which are strictly for housing of migratory workers only, such as interior partitions, plumbing facilities, and electrical wiring.

(4) A grant may be made for construction performed after July 1, 1970.

(5) An employer of migratory workers is eligible for grants totalling not more than $5,000.00 in any fiscal year.

History: 1954 ACS 69, p. 52, Eff. Sept. 3, 1971.

R 325.1533 Applications for grants.

Rule 3. (1) For the fiscal year 1971-1972 only, the department shall establish an initial date for applicants to submit grant applications.

(2) Applications shall be made on forms provided by the department.

(3) Upon receipt of a properly completed application, it will be placed in a priority sequence based upon post date, with the earliest date assigned highest priority, and, if not legible or hand delivered, upon the date received by the department. If applications bearing the same date request money in excess of the fund, then the priority sequence for such applications will be determined by lottery under supervision of the advisory committee. Applications will be reviewed and field investigation may be made to determine compliance with the provisions of the act and these rules for allocation of the grant monies.

(4) An applicant whose application was received between September 15 and October 14, 1970, but not funded in the fiscal year 1970-1971 under the priority system established, shall be offered a grant based upon the original application before applicants who submitted their applications after October 14, 1970. An application received between October 14, 1970, and July 1, 1971, shall be considered on the same basis as those received on the first date as established under subrule (1).

(5) Applications submitted under the emergency rules shall continue to be valid under these rules with modifications if necessary.

History: 1954 ACS 69, p. 53, Eff. Sept. 3, 1971.

R 325.1534 Agreements between applicants and department.

Rule 4. (1) The department shall submit on a priority basis an offer and acceptance agreement form to all approved applicants until the grant fund for the fiscal year has been exhausted, as determined from a summation of dollar amounts on the acceptance forms.

(2) An offer and acceptance agreement shall be entered into between an applicant and the department to assure that the purposes of the act and these rules are effectively carried out.

History: 1954 ACS 69, p. 53, Eff. Sept. 3, 1971.

R 325.1535 Claims by grantees.

Rule 5. (1) Construction of an approved project shall be completed in accordance with the construction schedule stated on the offer and acceptance form unless an extension is approved in writing by the department.

(2) Only upon completion of the project shall the grantee submit to the department a claim for payment of the grant. Sufficient evidence shall accompany the claim to substantiate the cost of the project for which claim is made.

(3) A grantee shall furnish the department a record covering the costs of a project, including receipts of expenditures for materials and equipment purchased and labor engaged to carry out construction and installation.

(4) If labor is furnished by a grantee or his regular employees, the record shall include the amount and value of the labor.

(5) If materials or equipment are furnished by a grantee, the record shall include a description of the materials or equipment and their estimated value.

(6) An affidavit shall be submitted with the record certifying that items contained therein reflect the actual costs of the project for which a claim is made.

History: 1954 ACS 69, p. 53, Eff. Sept. 3, 1971.

R 325.1536 Processing of claims and payments.

Rule 6. (1) The department shall promptly process a claim for a grant including a field evaluation and examination and auditing of the record covering the cost of the project. If for any reason the claim is denied or reduced in amount, the claimant shall be furnished with an explanation in writing of such action.

(2) If the actual cost of the project upon completion of construction is less than the estimated cost upon which the grant offer is based, the actual cost shall be used to determine the amount of the grant payment.

(3) Payment shall not be paid by the department to an applicant who fails to comply with all provisions of the act and these rules, and such monies shall be reallocated promptly.

(4) Housing constructed or improved with the assistance of grant funds shall continue to be used for housing of migratory workers employed by the grant recipient for at least 3 years after the date of completion of construction, or a proportionate share of the grant shall be refunded to the fund. When it appears to the director that the grant recipient has proceeded in good faith, the director may authorize housing of migratory workers employed by other growers under terms prevailing in the region.

History: 1954 ACS 69, p. 53, Eff. Sept. 3, 1971.

CAMPGROUNDS

(By authority conferred on the director of public health by section 7 of Act No. 171 of the Public Acts of 1970, being §325.657 of the Michigan Compiled Laws)

R 325.1551 Definitions.

Rule 1. (1) As used in these rules:

(a) "Modern campground" means a campground where water flush toilets and water under pressure are available at a service building or where a water outlet and a sewer connection are available at each site.

(b) "Primitive campground" means a campground where a service building with water flush toilets is not provided and where sewer connections are not provided to sites.

(c) "Sanitary station" means a facility where recreational units equipped with fresh water storage tanks and sewage holding tanks can be serviced.

(d) "Service building" means a structure or portion thereof used to house sanitary facilities, such as water closets, lavatories, and showers.

(e) "Site" means the camp space or land area designated for each recreational unit in a campground.

(f) "Temporary campground" means a campground used on a temporary or short-term basis not to exceed a period of 4 weeks.

(g) "Temporary living quarters," as related to camping, means a recreational unit which is occupied or used for more than 4 hours between the hours of 10 p.m. to 6 a.m.

(2) The terms defined in Act No. 171 of the Public Acts of 1970, being §325.651 et seq. of the Michigan Compiled Laws, have the same meaning when used in these rules.

History: 1954 ACS 68, p. 20, Eff. July 2, 1971; 1954 ACS 96, p. 78, Eff. July 19, 1978.

R 325.1552 Location.

Rule 2. A campground shall not be located where it will be detrimental to public health. A campground shall not be located on top of an abandoned landfill which had been used within the past 5 years for disposal of garbage or refuse.

History: 1954 ACS 68, p. 21, Eff. July 2, 1971.

R 325.1553 Applications for construction permits; contents.

Rule 3. (1) An application for a construction permit for a new campground, or for an alteration or addition to an existing campground, shall include information regarding the proposed physical facilities. Three sets of plans drawn to scale, showing the plot plan and details of all planned facilities and clearly indicating how the campground will be constructed in order to comply with these rules, shall be submitted with the application. Where it is proposed to extend water lines to sites, the plans for the water system shall be prepared by an engineer registered in Michigan. All plans for new sanitary facilities, or for additions or alterations to existing sanitary facilities, for modern campgrounds shall be prepared by an engineer registered in Michigan.

(2) An application shall indicate the proposed method of garbage and refuse storage and disposal.

History: 1954 ACS 68, p. 21, Eff. July 2, 1971; 1954 ACS 96, p. 79, Eff. July 19, 1978.

R 325.1554 Construction permits.

Rule 4. A construction permit is nontransferable except with written consent of the director. A permit expires 3 years after its date of issuance except the director may grant an extension. Delays in construction incurred by reason of litigation incident to the planning or construction of a campground shall not be included in calculating the date of expiration of a permit. If a petition for extending a permit is granted, the director may require such alterations in the plans of the campground as would be necessary for approval if the plans for the campground were being submitted at that date. Conditions or stipulations in connection with approval of the application shall be listed on the construction permit.

History: 1954 ACS 68, p. 21, Eff. July 2, 1971.

R 325.1555 Temporary campgrounds; application for license; operational period.

Rule 5. An application for a construction permit for a temporary campground is not required. However, an application, on a form supplied by the director, for a license shall be submitted to the local health department having jurisdiction. The local health department shall, in turn, forward the application to the department

with a recommendation for approval or denial of the license. The temporary campground shall not receive recreational units until a license is issued by the department and displayed at the campground. A temporary campground shall be operated for not more than a 2-week period, unless approval for an extension is obtained from the health officer. An application for an extension shall be submitted to the health officer not less than 3 days before the expiration date of the first 2-week period. A temporary campground shall not operate for more than a 4-week period. Not less than 30 days shall elapse between the end of 1 licensing period for a temporary campground and the beginning of another for the same campground location.

History: 1954 ACS 68, p. 21, Eff. July 2, 1971; 1954 ACS 96, p. 79, Eff. July 19, 1978.

R 325.1556 Sites, primitive campgrounds, and group camping areas; arrangements.

Rule 6. (1) A site in a campground constructed after July 2, 1971, unless designated on an approved plan as a walk-in site, shall abut on a roadway and shall be of such size and so arranged as to provide space for a recreational unit and shall have not less than 15 feet of road frontage width and 1,200 square feet of area.

(2) A primitive campground shall be so arranged that each 25 sites, or fraction thereof, are served with a privy for each sex and a potable water outlet, except that a primitive campground area with not more than 10 sites may be served with a single privy and a potable water outlet. A site in a campground shall be not less than 50 feet from a privy.

(3) A site in a campground shall be so marked or arranged that a camper can readily identify and locate the site.

(4) A site shall be well drained.

(5) A site shall be occupied by not more than 1 family or 1 camping unit comprised of not more than 8 persons. The licensed design capacity of the campground shall not be exceeded.

(6) A group camping area may be provided, but shall be restricted to camping by organized groups, such as camping clubs, church groups, 4-H clubs, boy scouts, or girl scouts.

(7) An individual campsite boundary in group camping areas need not be marked, provided that the area boundary is marked and arranged so that it can be readily located and identified by campers. A group camping area shall be identified by appropriate signs signifying the area name or area number and the maximum number of people that are permitted to use that area. A record shall be kept, at the caretaker's office or home, of the number of campers using the group camping area and their group affiliation. The number of persons camping in a group camping area shall be limited to the number determined by the facilities provided. Four persons shall be used as the equivalent of 1 campsite.

(8) A group camping area shall contain a minimum of 1,200 square feet for each equivalent of 1 campsite.

(9) Where a group camping area is provided, the number of sanitary facilities required shall be determined in accordance with subrule (2) for primitive campgrounds and in accordance with R 325.1571(2), (5), and (6) for modern campgrounds.

(10) A recreational unit shall be arranged in a group camping area so as not to restrict the access of emergency vehicles and recreational units.

History: 1954 ACS 68, p. 21, Eff. July 2, 1971; 1954 ACS 96, p. 79, Eff. July 19, 1978.

R 325.1557 Caretakers.

Rule 7. The owner of a campground shall designate a caretaker or person to be in charge of the campground. A notice indicating where the caretaker can be contacted shall be posted at all times the caretaker is not on duty.

History: 1954 ACS 68, p. 21, Eff. July 2, 1971.

R 325.1558 Roads and vehicles.

Rule 8. (1) A road right-of-way shall be provided having a minimum width of 20 feet. This right-of-way shall be relatively free of obstructions, and an obstruction shall not prevent free and easy access to abutting sites. The traveled portion of the right-of-way shall be maintained in a passable and relatively dust free condition when the campground is in operation.

(2) A vehicle shall not park in the strip of land set aside for a road. Space for vehicle parking equal to a minimum of 1½ the number of sites in a campground shall be provided either on the sites or in a separate parking area.

History: 1954 ACS 68, p. 22, Eff. July 2, 1971.

R 325.1559 Water supplies.

Rule 9. (1) Connection shall be made to a local government water system when available and accessible. If a connection is not available and accessible, the water shall be obtained from a source approved by the department.

(2) A new or existing well, pump, and water system installation intended to serve a campground shall be in compliance with department of public health rules entitled "Supplying Water to the Public," being R 325.10101 to R 325.12606 of the Michigan Administrative Code.

(3) Any well installation to serve a campground shall be constructed by a well drilling contractor and any pump connected to such well shall be installed by a pump installer both of whom shall be registered under authority of Act No. 294 of the Public Acts of 1965, as amended, being §325.221 et seq. of the Michigan Compiled Laws.

(4) A water distribution system for a campground constructed after January 1, 1971, designed for winter use shall be capable of being operated during the winter months without freezing.

(5) Where water under pressure is provided to individual sites, the well and pump capacity shall be adequate to provide ½ gallon per minute to all such sites, in addition to any other water needs in the campground.

(6) Below ground stop and waste valves with weep holes for use on the water lines shall not be used.

(7) Any plastic water line used in a campground shall be made of a material approved by the department and shall have a minimum pressure rating of 125 pounds per square inch. The pipe, plastic fittings, and solvent cements shall be approved by the national sanitation foundation for potable water supply and shall bear the NSF seal of approval.

History: 1954 ACS 68, p. 22, Eff. July 2, 1971; 1954 ACS 96, p. 80, Eff. July 19, 1978.

R 325.1560 Sewage and wastewater control.

Rule 10. Methods and facilities for collection, treatment, and disposal of sewage and other wastewater shall comply with all applicable statutes and rules, and shall be of such a nature and capacity, and shall be so maintained and operated, as not to create unlawful pollution of the waters of the state, a nuisance condition, or a menace to health or safety.

History: 1954 ACS 96, p. 80, Eff. July 19, 1978.

R 325.1561 Sewage disposal in modern campgrounds.

Rule 11. (1) In a modern campground, connection shall be made to a local government sewer system when available and accessible.

(2) Where a local government sewer system is not available, a modern campground shall provide a soil absorption system, a lagoon system, a treatment plant, or combination thereof.

(3) The design capacity of a facility described in subrule (2) shall be based on the following estimated daily liquid flows:

(a) Sites with water and sewer outlets available to each site—100 gallons per site.

(b) Sites served by service building—75 gallons per site.

(c) Primitive sites operated in conjunction with a modern campground—30 gallons per day per primitive site.

(4) A sewer outlet located at a site on a sewer system designed for winter use shall be trapped below the frost line. The trap and riser shall be constructed of cast iron or rigid plastic pipe as approved by the state board of plumbing for buried drain, waste, and vent. The top of the riser shall extend not less than 2 inches above the surrounding ground surface. A riser shall be capped when not in use.

History: 1954 ACS 68, p. 22, Eff. July 2, 1971; 1954 ACS 96, p. 80, Eff. July 19, 1978.

R 325.1562 Soil absorption systems; location.

Rule 12. A soil absorption system shall be isolated as much as possible from camping sites and shall be protected from vehicular traffic or other possible damage. An absorption field shall not be placed in the following locations:

(a) Beneath a building.

(b) Where the soil is unstable or unsettled. Muck or peat soils are unsuitable.

(c) Under a roadway or parking lot or paved area.

(d) Within 100 feet of a lake or stream as a minimum.

(e) In the path of a catchment area of surface runoff.

(f) Where a high groundwater table is closer than 4 feet to the ground surface.

(g) Within the minimum isolation distance of 75 feet from the well.

(h) Where surface flooding may occur.

(i) Where percolation rates above 30 minutes for water to fall 1 inch are encountered.

(j) Where adequate protection cannot be provided for the water-bearing formation.

(k) Where the area is insufficient on which to locate a second absorption field of at least the size of the original field.

History: 1954 ACS 68, p. 22, Eff. July 2, 1971.

R 325.1563 Septic and dosing tanks; soil absorption systems; sewage lift station.

Rule 13. Septic and dosing tanks, soil absorption systems, and sewage pumping systems shall be designed in accordance with accepted engineering practice.

History: 1954 ACS 68, p. 23, Eff. July 2, 1971; 1954 ACS 96, p. 80, Eff. July 19, 1978.

R 325.1564 Lagoon systems and treatment plants.

Rule 14. When a lagoon system or sewage treatment plant is proposed and the treated effluent is to be discharged into a watercourse including a lake, stream,

county drain or drainage ditch, data concerning the specific case shall be submitted to the department of public health on a form furnished by the department.

History: 1954 ACS 68, p. 23, Eff. July 2, 1971.

R 325.1566 Sewage disposal in primitive campgrounds.

Rule 16. A privy, outhouse or chemical closet used as a means of sewage disposal for a primitive campground shall comply with Act No. 273 of the Public Acts of 1939, as amended, being §§325.271 to 325.274 of the Michigan Compiled Laws, and with R 325.421 to R 325.426 of the Michigan Administrative Code promulgated thereunder. The bottom of the pit of an earth privy shall be not less than 2 feet above the known high groundwater table. In a location where this is not feasible a watertight vault shall be installed.

History: 1954 ACS 68, p. 23, Eff. July 2, 1971.

R 325.1568 Seepage pits.

Rule 18. In a campground, a seepage pit on the site may be used for the disposal of sink wastes and shower water where a direct connection is made between the sink drain and the seepage pit. The connection shall not exceed 1½ inches in diameter. No other wastes shall be discharged into such a seepage pit. Approval of such a seepage pit shall be restricted to those areas where the soil affords acceptable seepage, the groundwater table is sufficiently low, and where ground or surface water is not endangered. A seepage pit shall be located not less than 75 feet from a well. Sufficient data shall be submitted to the health department having jurisdiction to permit evaluating these conditions before approval may be given. A recreational unit on a site served by a seepage pit shall not be directly connected to the campground water system, unless approved in writing by the health officer having jurisdiction.

History: 1954 ACS 68, p. 23, Eff. July 2, 1971; 1954 ACS 96, p. 80, Eff. July 19, 1978.

R 325.1571 Service buildings; required facilities.

Rule 21. (1) When a service building is proposed for a campground, the following facilities shall be provided and specified on the plan required by R 325.1553:

(a) An adequate means of ventilation shall be provided in the service building. A window that opens shall be screened. An exterior door shall have a self-closing device.

(b) An adequate amount of lighting for cleaning and safety purposes shall be provided in the service building.

(c) The floors and walls shall be constructed of durable building materials and shall be impervious and easily cleanable. Coved floor and wall joints shall be provided.

(d) The location of all toilets, lavatories, showers, urinals, enclosures, and floor drains shall be specified on the plans.

(e) Type of heating facility, if provided, shall be specified on the plans.

(2) A service building at a modern campground shall be provided with toilet, urinal, and lavatory facilities in accordance with the following schedule:

Campgrounds—Minimum Number of Fixtures

Sites	Toilets		Urinals	Lavatories	
	M	W	M	M	W
1-15	1	1	1	1	1
16-30	1	2	1	2	2
31-45	2	2	1	3	3
46-60	2	3	2	3	3
61-100	3	4	2	4	4
101-130	4	5	3	5	5
131-160	5	6	3	6	6
161-190	6	7	3	7	7
191-220	7	8	4	8	8
221-250	8	9	4	9	9
251-280	9	10	4	10	10
281-310	10	11	5	11	11
311-340	11	12	5	12	12
341-370	12	13	5	13	13
371-400	13	14	5	14	14
401-430	14	15	6	15	15
431-460	15	16	6	16	16
461-490	16	17	6	17	17
491-520*	17	18	7	18	18

*A campground having more than 520 sites shall provide 1 additional toilet and lavatory for each sex for each additional 30 sites or part thereof, and 1 additional men's urinal for each additional 100 sites.

(3) In a modern campground, where all the sites are provided with water and sewer services, and where occupancy for those sites served with such outlets is limited to recreational units connected to the water and sewer systems, a minimum of 1 water flush toilet and 1 lavatory shall be provided.

(4) In a campground where only a portion of the sites are provided with water and sewer services, the fixture schedule shall apply to those sites without water and sewer services. However, for campgrounds constructed after January 1, 1978, an additional minimum of 1 water flush toilet and 1 lavatory for each sex for each 50 sites with water and sewer services shall be provided in the service building.

(5) A minimum of 1 water flush receptacle shall be provided at a service building in modern campgrounds for depositing dishwater and other liquid waste at a location available to both sexes. However, a water flush receptacle is not required in those campgrounds where each site is served with water and sewer services. The receptacle shall be in addition to fixtures required in subrule (2). A sign shall be placed at the water flush receptacles to indicate its purpose and to provide instructions for its proper use.

(6) Providing showers is at the option of the campground owner. A campground constructing service buildings with showers after January 1, 1978, shall comply with the following schedule:

Shower Schedule

*Sites	1-45	46-80	81-100	101-150	151-200	201-250
Male	1	2	3	4	5	6
Female	1	2	3	4	5	6

**Sites	1-15	16-45	46-60	61-80	81-100	101-130	131-160	161-190	191-220	221-250
Unisex	1	2	3	4	5	6	7	8	9	10

*A campground having more than 250 sites shall provide 1 shower for each sex for each 50 sites or part thereof.

**A campground having *more than 250 sites shall provide 1* shower for each 30 sites or part thereof.

(a) An effective method, such as curbing or recessed floors, along with shower curtains, or partitions, shall be provided to keep shower water from dressing rooms and other areas in the service building.

(b) Provision shall be made for regulating the temperature of hot water to provide a maximum water temperature of 120 degrees Fahrenheit.

History: 1954 ACS 68, p. 23, Eff. July 2, 1971; 1954 ACS 96, p. 81, Eff. July 19, 1978.

R 325.1574 Sanitary facilities in campgrounds adjacent to other establishments.

Rule 24. (1) Where a primitive campground is operated adjacent to, or in conjunction with, a modern campground served by a service building, an additional toilet and lavatory shall be provided for each sex for each 50 sites or fraction thereof in the primitive campground.

(2) Where a campground is operated in connection with a resort or other business establishment, the number of sanitary facilities required in excess of those required by the schedule for sites alone will be based on the total number of persons who will use the facilities.

(3) The table on quantities of sewage flows, contained in the manual of septic tank practice, U.S. public health service publication no. 526, 1967 revision, shall be followed in determining the additional design capacity of the sewage facility required because of the application of this rule.

History: 1954 ACS 68, p. 24, Eff. July 2, 1971; 1954 ACS 96, p. 82, Eff. July 19, 1978.

R 325.1576 Sanitary stations.

Rule 26. (1) At least 1 sanitary station of approved design shall be provided for a modern campground and also for a primitive campground constructed after January 1, 1978. A modern campground catering solely to recreational vehicles that connect to the campground's water and sewer systems, and a primitive campground served solely by hand pump wells are exempt from this requirement.

(2) The sanitary station shall be designed and maintained to prevent contamination from being introduced into the fresh water storage tanks or campground water supply system. Sanitary stations shall have a tower for filling fresh water storage tanks and also a separate tower for rinsing sewage spills at the sewage dumping facility. A vacuum breaker shall be installed at the high point of each tower. An automatic device shall be installed to keep hoses off the ground. A foot-operated hatch shall be installed to cover the sewer riser when not in use. Signs shall be placed at a sanitary station to identify its purpose and give instructions for its proper use.

History: 1954 ACS 68, p. 24, Eff. July 2, 1971; 1954 ACS 96, p. 82, Eff. July 19, 1978.

R 325.1577 Campground maintenance.

Rule 27. The service building, grounds, and facilities shall be maintained in a clean and sanitary condition and kept in good repair.

History: 1954 ACS 96, p. 82, Eff. July 19, 1978.

R 325.1578 Plumbing.

Rule 28. Plumbing in a campground shall comply with applicable codes or ordinances, including, but not limited to, the state plumbing code.

History: 1954 ACS 68, p. 24, Eff. July 2, 1971; 1954 ACS 96, p. 82, Eff. July 19, 1978.

R 325.1581 Garbage and refuse disposal; insect control.

Rule 31. (1) Disposal of garbage and refuse shall be in accordance with state and local law, ordinances, and rules. A sufficient number of containers shall be provided for the storage of garbage and other refuse. Garbage and refuse shall be collected and disposed of as often as necessary to prevent overflow, nuisance or odor, but not less than once each week. Containers shall be maintained in a clean and sanitary condition.

(2) Measures shall be taken to reduce populations of mosquitoes and other insects of public health importance in a campground.

History: 1954 ACS 68, p. 24, Eff. July 2, 1971.

R 325.1583 Electrical installations.

Rule 33. An electrical installation in a campground shall comply with applicable codes and ordinances including, but not limited to, the state electrical code. Not more than 1 recreational unit shall be served by 1 electrical outlet.

History: 1954 ACS 68, p. 25, Eff. July 2, 1971; 1954 ACS 96, p. 82, Eff. July 19, 1978.

R 325.1585 Swimming pools and beaches.

Rule 35. (1) An artificial swimming pool at a campground shall comply with Act No. 230 of the Public Acts of 1966, being §§325.601 to 325.620 of the Michigan Compiled Laws, and rules of the department of public health entitled "Public Swimming Pools," being R 325.2111 to R 325.2199 of the Michigan Administrative Code.

(2) A bathing beach to be included as part of a campground project shall be evaluated by the health department having jurisdiction in accordance with department of public health rules entitled "Public Bathing Beaches," being R 325.2101 to R 325.2103 of the Michigan Administrative Code.

History: 1954 ACS 68, p. 25, Eff. July 2, 1971.

R 325.1586 Variances.

Rule 36. A campground shall comply with the requirements of these rules; however, the Michigan department of public health may grant a variance, in writing, in a case where the department determines that strict compliance would cause unusual practical difficulties and hardships; that the variance would not affect the safe and healthful operation of the campground; and that the spirit and intent of the rules can be maintained. A request for a variance shall be made to the department in writing.

History: 1954 ACS 96, p. 83, Eff. Aug. 4, 1978.

R 325.1587 Rescinded.

History: 1954 ACS 68, p. 25, Eff. July 2, 1971; rescinded 1954 ACS 96, p. 78, Eff. July 19, 1978.

R 325.1599 Rescissions.

Rule 49. The following rules of the department of public health or director of public health are rescinded:

(a) Rules entitled "Camps," being R 325.381 to R 325.383 of the Michigan Administrative Code and appearing on pages 2253 and 2254 of the 1954 volume of the Code.

(b) Rules governing "Trailer Coach Parks," being R 325.500 to R 325.538 of the Michigan Administrative Code and appearing on pages 2265 to 2278 of the 1954 volume of the Code.

(c) Rule entitled "Trailer Parks Operated Only During the Period Between May 1 and December 1," being R 325.540 of the Michigan Administrative Code and appearing on pages 2860 to 2862 of the 1963 Annual Supplement to the Code.

(d) Rules entitled "Sanitation Standards for Garbage and Refuse Disposal at Camps and Summer Resorts," being R 325.601 to R 325.604 of the Michigan Administrative Code and appearing on page 2286 of the 1954 volume of the Code.

(e) Rules entitled "Sanitation Standards for Summer Recreation Camps," being R 325.621 to R 325.635 of the Michigan Administrative Code and appearing on pages 2286 to 2290 of the 1954 volume of the Code.

(f) Rules entitled "Sanitation Standards for Cabin Camps," being R 325.641 to R 325.655 of the Michigan Administrative Code and appearing on pages 2290 to 2293 of the 1954 volume of the Code.

(g) Rules entitled "Sanitation Standards for Water Carried Sewage Disposal Systems at Camps and Summer Resorts," being R 325.671 to R 325.676 of the Michigan Administrative Code and appearing on pages 2293 and 2294 of the 1954 volume of the Code.

History: 1954 ACS 68, p. 25, Eff. July 2, 1971.

GROUNDWATER QUALITY CONTROL

(By authority conferred on the director of public health by section 18 of Act No. 294 of the Public Acts of 1965, section 7 of Act No. 146 of the Public Acts of 1919, and sections 9 and 427 of Act No. 380 of the Public Acts of 1965, being §§325.238, 325.7, 16.109, and 16.527 of the Michigan Compiled Laws)

PART 1. WELL CONSTRUCTION CODE

R 325.1601 Definitions; A.

Rule 101. (1) The terms defined in the act have the same meaning when used in these rules.

(2) "Abandoned water well" means a well whose use has been permanently discontinued, or a well which is in such disrepair that its continued use for the purpose of obtaining groundwater is impracticable or may be a health hazard shall be considered to be abandoned.

(3) "Act" means Act No. 294 of the Public Acts of 1965, as amended, being §§325.221 to 325.239 of the Michigan Compiled Laws.

(4) "Annular space" means the space between 2 cylindrical objects, 1 of which surrounds the other, such as the space between a drill hole and a casing pipe, or between a casing pipe and a liner pipe.

(5) "Approved basement" means a basement with walls and floor constructed of concrete or equivalent, reasonably watertight, properly drained, and in ordinary daily use.

(6) "Aquifer" means a water-bearing formation (soil or rock horizon) that transmits water in sufficient quantities to supply a well.

History: 1954 ACS 49, p. 16, Eff. Feb. 14, 1967; 1954 ACS 82, p. 12, Eff. Mar. 6, 1975.

R 325.1602 Definitions; C, D.

Rule 102. (1) "Casing" means an impervious durable pipe placed in a well to prevent the walls from caving and to seal off surface drainage or undesirable water, gas, or other fluids, and prevent their entering the well and specifically:

(a) "Surface or temporary casing" means a temporary casing placed in soft, sandy, or caving surface formation to prevent the hole from caving during drilling.

(b) "Protective casing" means the permanent casing of the well.

(c) "Liner pipe" means a well casing installed without driving within a protective casing or open drillhole.

(2) "Coliform group" means all of the aerobic and facultative anaerobic, gram-negative, nonspore-forming, rod-shaped bacteria which ferment lactose with gas formation within 48 hours @ 35 degrees Celsius.

(3) "Department" means the department of public health.

(4) "Dewatering well" means an opening in the surface of the earth for the purpose of removing water with the intent of lowering the groundwater level temporarily during a construction period.

(5) "Dewatering well contractor" means an individual, partnership, or corporation qualified to engage in dewatering well construction and dewatering well pump installation, who constructs, installs, or plugs dewatering wells or supervises such work.

(6) "Dewatering well pump installer" means an individual, partnership, or corporation qualified to engage in installing and operating dewatering pumps and pulling casing and properly abandoning dewatering wells, who installs and operates pumps, pulls casings and plugs dewatering wells or supervises such work.

(7) "Director" means the director of public health.

(8) "Drawdown" means the extent of lowering the water surface in a well and aquifer resulting from the discharge of water from the well.

(9) "Dug well" means a well excavated into a generally shallow aquifer in which the side walls may be supported by material other than standard weight steel casing. Water enters a dug well by seepage through the side walls and bottom.

History: 1954 ACS 49, p. 16, Eff. Feb. 14, 1967; 1954 ACS 82, p. 13, Eff. Mar. 6, 1975.

R 325.1603 Definitions; E to M.

Rule 103. (1) "Established ground surface" means the intended or actual finished grade (elevation) of the surface of the ground at the site of the well.

(2) "Geological material" means all materials penetrated in drilling a well. The table lists materials other than consolidated rock classified according to average particle size:

Material	Particle Diameters Millimeters		Particle Diameters Inches		Screen Slot No. From	Screen Slot No. To
(a) Clay	Up to	0.005	Up to	0.0002	—	—
(b) Silt	0.005 -	0.062	0.0002 -	0.0025	—	—
(c) Fine Sand	0.062 -	0.250	0.0025 -	0.010	2	10
(d) Medium Sand	0.250 -	0.50	0.010 -	0.020	10	20
(e) Coarse Sand	0.50 -	1.00	0.020 -	0.040	20	40

Material	Particle Diameters Millimeters	Particle Diameters Inches	Screen Slot No. From	Screen Slot No. To
(f) Fine Gravel	1.00 - 2.00	0.040 - 0.080	40	80
(g) Medium Gravel	2.00 - 4.00	0.080 - 0.160	80	160
(h) Coarse Gravel	4.00 - 62.5	0.160 - 2.50	160 and larger	
(i) Cobbles	62.5 - 250.	2.50 - 10.0	—	—
(j) Boulders	250 and larger	10.0 and larger		

(k) "Hardpan" is a term to be avoided if possible, but when used means a hard, impervious layer composed chiefly of clay, cemented by relatively insoluble materials, which does not become plastic when mixed with water and definitely limits the downward movement of water and roots.

(l) "Shale" means rock consisting of hardened silts and clays.

(m) "Sandstone" means cemented or otherwise compacted sediment composed predominately of sand.

(n) "Limestone" means rock which contains at least 80% of carbonates of calcium and has strong reaction with HCl (muriatic acid).

(o) "Dolomite" means rock which contains at least 80% of carbonates of magnesium and has weak reaction with HCl (muriatic acid).

(p) "Gypsum" means a soft, light-colored formation of calcium sulfate crystals and may be found as streaks in a shale formation.

(3) "Grout" means neat cement, concrete, heavy drilling mud, or heavy bentonite water slurry. Heavy drilling mud or heavy bentonite water slurry when used as grout shall be of sufficient viscosity to require a time of at least 70 seconds to discharge 1 quart of the material through an API marsh funnel viscometer.

(4) "Health officer" means the administrative officer in charge of a full-time local health department or his official representative.

(5) "Municipality" means a city, village, township, county, district, or other public body created by or pursuant to state law or any combination of such units acting cooperatively or jointly.

History: 1954 ACS 49, p. 16, Eff. Feb. 14, 1967.

R 325.1604 Definitions; P.

Rule 104. (1) "Pitless adaptor" means a device or assembly of parts which will permit water to pass through the wall of the well casing or extension thereof, and which provides access to the well and to the parts of the water system within the well in a manner to prevent entrance of pollution into the well and the water produced.

(2) "Pollution" means the presence or addition of any substance to water which is or may become injurious to the public health, safety or welfare; or which is or may become injurious to domestic, commercial, industrial, agricultural, or other uses which are being made of such water.

(3) "Potable water" means water which is pure, wholesome, and free from impurities that may cause disease or harmful physiological effects such that the water is safe for human consumption.

(4) "Pressure tank" or "hydropneumatic tank" means a closed water storage container constructed to operate under a designed pressure rating to modulate the water system pressure within a selected pressure range.

(5) "Priming" means the first filling of a pump with water and the action of starting the flow in a pump.

(6) "Pump room" or "well room" means an enclosed structure, either above or below grade, housing the pump, top of the well, a suction line or any combination thereof.

(7) "Pumping water level" means the distance measured from the established ground surface to the water surface in a well being pumped at a specified rate for a specified period of time.

(8) "Pumps and pumping equipment" means equipment or materials used or intended for use in withdrawing or obtaining groundwater for any use, including without limitation, seals and other safeguards to protect the water from pollution and together with fittings and controls to provide sanitary water storage facilities. "Installation of pumps and pumping equipment" means the selection of, and procedure employed in the placement and preparation for operation of, pumps and pumping equipment, including construction involved in making entrance to the well and establishing proper seals and other safeguards to protect groundwater from pollution, and including repairs to existing installations.

History: 1954 ACS 49, p. 17, Eff. Feb. 14, 1967.

R 325.1605 Definitions; S.

Rule 105. (1) "Sewage" means a liquid waste which includes human excreta, wastes from sink, lavatory, bathtub, shower or laundry, and any other liquid waste of organic or chemical nature, either singularly or in any combination thereof, and the definitions of units handling sewage are as follows:

(a) "Cesspool" means an underground pit into which raw household sewage or other untreated liquid waste is discharged and from which the liquid seeps into the surrounding soil or is otherwise removed.

(b) "Seepage pit" or "dry well" means an underground pit into which a septic tank discharges household sewage or other liquid waste and from which the liquid seeps into the surrounding soil through the bottom and openings in the side wall of the pit.

(c) "Septic tank" means a watertight tank of durable materials through which sewage flows very slowly. It allows solids to separate from the liquid and to be decomposed or broken down by bacterial action.

(d) "Sewer" means a pipe or conduit carrying sewage or into which sewage may back up.

(e) "Subsurface disposal field," "seepage bed," "drain field," "percolation system," or "tile absorption field" means a system composed of open-jointed tile lines buried in stones and shallow trenches for final disposal into the ground of sewage effluent from a septic tank. The septic tank effluent is applied to land by distribution beneath the surface through the open jointed lines.

(2) "Static water level" means the distance measured from the established ground surface to the water surface in a well neither being pumped nor under the influence of pumping nor flowing under artesian pressure.

(3) "Subterranean gas" means a gas occurring below the land surface. It may be flammable such as methane or highly toxic as hydrogen sulfide and may be associated with groundwater.

(4) "Suction line" means a pipe or line connected to the inlet side of a pump or pumping equipment.

(5) "Sump" means a shallow excavation into an aquifer or ground in which the side walls may be supported by material other than steel casing. Water may enter the sump by drainage over the ground or by seepage through the side walls and bottom.

History: 1954 ACS 49, p. 18, Eff. Feb. 14, 1967; 1954 ACS 82, p. 13, Eff. Mar. 6, 1975.

R 325.1606 Definitions; W to Y.

Rule 106. (1) Water varieties are defined as follows:

(a) "Groundwater" means the water in the zone of saturation in which all of the pore spaces of the subsurface material are filled with water. The water that supplies springs and wells is groundwater.

(b) "Near surface water" means water in the zone immediately below the ground surface. It may include seepage from barnyards, disposal beds or leakage from sewers, drains and similar sources of pollution.

(c) "Surface water" means water that rests or flows on the surface of the ground.

(2) "Well seal" means a device or method used to protect a well casing or water system from the entrance of any external pollutant at the point of entrance into the casing of a pipe, electric conduit or water level measuring device.

(3) "Well vent" means an outlet at the upper terminal of a well casing to allow equalization of air pressure in the well and escape of toxic or flammable gases when present.

(4) "Working grade" means the elevation of the ground surface at or near the top of the well casing.

(5) "Yield" or "production" means the quantity of water per unit of time which may flow or be pumped from a well under specified conditions.

History: 1954 ACS 49, p. 18, Eff. Feb. 14, 1967; 1954 ACS 82, p. 13, Eff. Mar. 6, 1975.

R 325.1611 Application of rules.

Rule 111. (1) These rules apply to a water supply intended for use or used to supply groundwater but shall not apply to water supplies covered under Act No. 98 of the Public Acts of 1913, as amended, being §§325.201 to 325.213 of the Michigan Compiled Laws. The rules also apply to water supplies presently covered under rules entitled "Location and Construction of Water Supplies," being R 325.1451 to R 325.1461 of the Michigan Administrative Code, and appearing on pages 3205 to 3210 of the 1964-65 Annual Supplements to the Code, insofar as such water supplies are not specifically covered by the above-referenced rules.

(2) These rules are not retroactive, except when an existing water supply becomes polluted or becomes a health hazard. When extensive changes or repairs are made to the system, they shall conform as near as reasonably possible to this code. Extensive changes shall include, but not be limited to, replacing the casing, changing aquifers, doubling the capacity of the pump or increasing the capacity of the pump by more than 50 gallons per minute.

History: 1954 ACS 49, p. 19, Eff. Feb. 14, 1967.

R 325.1612 Compliance with regulations and local codes.

Rule 112. A registered well drilling contractor or registered pump installer when installing a well, pump, or pumping equipment shall comply with applicable laws, regulations, ordinances, and codes, including:

(a) Act No. 98 of the Public Acts of 1913, as amended, being §§325.201 to 325.213 of the Michigan Compiled Laws. (municipal waterworks act)

(b) Act No. 266 of the Public Acts of 1929, as amended, being §§338.901 to 338.917 of the Michigan Compiled Laws. (state plumbing board)

(c) Act No. 89 of the Public Acts of 1963, as amended, being §§408.711 to 408.724 of the Michigan Compiled Laws. (construction safety act)

(d) Regulations cited in R 325.1611 (1).

(e) Any local code of a municipality in regard to installation of a well, pump, or pumping equipment.

History: 1954 ACS 49, p. 19, Eff. Feb. 14, 1967.

R 325.1621 Location of wells; general considerations.

Rule 121. (1) A well shall be located consistent with general layout and surrounding area giving due consideration of the size of the lot, contour of the land, slope of the water table, rock formation, porosity and absorbency of the soil, local groundwater conditions, and other factors necessary to implement the basic policies that follow; and a well shall be:

(a) Located so that the well and its surrounding area can be kept in a sanitary condition.

(b) Adequate in size, design, and development for the intended use.

(c) Constructed so as to maintain existing natural protection against pollution of water bearing formations and to exclude all known sources of pollution from entering the well.

(2) A well shall be protected against surface water and shall be as far removed as reasonably practical from any known or possible source of pollution taking into account the factors hereinbefore listed.

History: 1954 ACS 49, p. 19, Eff. Feb. 14, 1967.

R 325.1622 Wells; distances from pollution sources.

Rule 122. (1) A well furnishing water for any beneficial use shall be located where it is not subject to pollution and a well for any use shall be located at least:

(a) One hundred fifty feet from a preparation area or storage area of spray materials, fertilizers, or chemicals that may result in pollution of the soil or groundwater.

(b) Fifty feet from a buried sewer other than specified in subrule (1)(c), septic tank, subsurface disposal field, dry well, seepage pit, cesspool, animal or poultry yard, outhouse, or any other sewage or liquid wastes draining into the soil.

(c) Ten feet from a buried sewer or sump pit through which sewage may back up; a buried sewer within the 10-foot to 50-foot area shall be constructed of service weight or heavier cast-iron soil pipe with leaded joints or cast-iron water pipe with watertight joints or other material and joints given written approval by the director; or a pit or unfilled space below ground surface level except an approved basement or an approved below-grade pump room or well room.

(2) Where a local board of health in the discharge of its duties to protect the public health deems it necessary to increase these isolation distances, it shall do so and file a record of such requirements with the director.

(3) The health officer responsible for enforcement of this rule may modify the isolation distances in this rule for individual well installations. The modifications shall be made in writing to the owner, with a copy to the director, either increasing or decreasing the minimum isolation distance and shall state for each case the reason for the modification, based on overburden, depth of well, character of aquifer, maximum pumping rate or other factors affecting the movement of pollution.

History: 1954 ACS 49, p. 19, Eff. Feb. 14, 1967.

R 325.1624 Wells; relation to buildings.

Rule 124. A well shall be located:

(a) At least 3 feet horizontally from a building or any projection thereof, unless modified in writing by the health officer.

(b) Accessible for cleaning, treatment, repair, test, inspection and other attention as may be necessary.

History: 1954 ACS 49, p. 20, Eff. Feb. 14, 1967.

R 325.1625 Wells; areas subject to flooding.

Rule 125. (1) A well shall not be located in an area subject to flooding unless protected as prescribed in writing by the health officer.

(2) It shall be the responsibility of the owner to see that the ground surface immediately adjacent to a well casing shall be graded so that surface water is diverted away from the casing.

History: 1954 ACS 49, p. 20, Eff. Feb. 14, 1967.

R 325.1631 Construction of wells; casings for permanent wells.

Rule 131. (1) A permanent well casing used for the protective or outside casing shall be of at least standard weight (schedule 40) steel or iron pipe through 8 inches inside diameter. Larger diameter casing shall have minimum weights and thicknesses as specified in table 1. Dimensions and weights of schedule 40 pipe are given in standard B36.10-1959 of the American Standards Association, 29 West 39th Street, New York 18, New York, and standards A53-65 or A120-65 of the American Society for Testing Materials, 1916 Race Street, Philadelphia 3, Pennsylvania. A protective well casing shall be watertight throughout its length, with threaded or welded joints or other types of joints given written approval by the director. Recessed or reamed and drifted couplings shall be used on threaded casing or as an alternate, other couplings can be used but the design, taper and type of the thread of the coupling shall match that of the pipe, the pipe ends shall butt in the coupling and there shall be no thread exposed on the pipe.

(2) Pipe used as the protective casing in the permanent construction of a well shall be new pipe produced to recognized standards of the American society for testing materials, no. 5L of the American Petroleum Institute, 1271 Avenue of the Americas, New York 20, New York, or no. C202-64T of the American Water Works Association, 2 Park Avenue, New York 16, New York, or other grade weldable new pipe having a quality equal to or greater than those heretofore specified. New pipe, when salvaged from water well test holes or dry holes only, may be used as new pipe if in good condition. Pipe shall be marked with the specification designation or marked "Meets Michigan Department of Public Health Well Construction Code—D67e" and such markings shall include wall thickness, weight per foot and identification of supplier. Pipe intended for water well use that is sold within this state regardless of specification designation is subject to random examination by the director or his authorized representative who may require any lot of pipe containing defective lengths to be rejected. Defective lengths or lots shall include, but not be limited to:

(a) Pipe with girth welded joints.

(b) Pipe with welded patches.

(c) Lots having more than 5% of the pipe with lengths less than 5 feet.

(3) Outer surface casings or temporary casings and liners installed without driving may be standard weight pipe or lighter pipe, but lightweight material shall be of such minimum thickness as is required to withstand the structural load imposed by conditions both inside and outside the well, but in no case shall a liner of 3 inches or larger in diameter have a wall thickness of less than 0.216 inches. A liner which is lighter than the pipe specified in table 1, or installed within an open drillhole shall be surrounded by 2 inches of neat cement grout, concrete grout or other materials given written approval by the director. The annular space between a lightweight liner and a casing shall be grouted with neat cement. A liner shall be grouted for the entire length of the liner pipe with the grout material being added from the bottom upward in 1 continuous operation. Liners to be grouted shall be provided with sufficient centering guides, welded to the liner, to permit unobstructed flow and deposition of the grout.

(4) Under no conditions shall the casing inside diameter be less than 2 inches except a driven well point which shall be equipped with a casing pipe of at least 1¼ inches inside diameter. A casing shall extend at least 25 feet below the established ground surface and, where possible, below the pumping level in a sand or gravel well. A well obtaining water from a depth of less than 25 feet shall not be used without written approval of the health officer.

(5) A well casing or extension thereof shall extend vertically at least 12 inches above ground surface or above the floor of an approved basement or pump room or well room. However, in an above-grade installation, the casing shall extend at least 6 inches above the floor or slab. In a paved area, the health officer may approve in writing a casing termination 2 inches, or greater, above the established ground surface if the area is not subject to flooding and the connections and openings are threaded or welded and watertight. When venting is required in such an installation, an offset may be used, if the vent connection meets the requirements of R 325.1641 to R 325.1643 and the vent construction meets the requirements of R 325.1657.

History: 1954 ACS 49, p. 20, Eff. Feb. 14, 1967.

R 325.1632 Construction of wells; upper casings.

Rule 132. The top 10 feet of a well casing shall not be used as a suction line unless protected by a standard weight outer casing. The top of both casings shall be finished in accordance with R 325.1641 to R 325.1643.

History: 1954 ACS 49, p. 21, Eff. Feb. 14, 1967.

R 325.1633 Construction of wells; grouting.

Rule 133. (1) A well having an open annular space around the casing or between the surface casing and protective casing shall be grouted from a depth of at least 25 feet to the ground surface and shall be accomplished without delay. Grouting shall be performed by adding the mixture through the casing or a grout pipe from the bottom of the space to be grouted upward to the surface in 1 continuous operation. Concrete grout may be used in the dry portion of a hole. Neat cement grout or concrete grout shall be allowed to set a minimum of 12 hours when hi-early cement is used or a minimum of 48 hours when regular cement is used, before drilling operations are resumed. Heavy drilling mud or heavy bentonite water slurry may be used as grout, except where neat cement grout is specified in these rules. Other materials of equivalent sealing properties shall have the written approval of the director prior to their use.

(2) Concrete grout is a mixture of cement, sand, and water, in the proportion of 1 bag of cement (94 pounds), and an equal volume of dry sand to not more than 6 gallons of clean water.

(3) Neat cement grout is a mixture of 1 bag of cement (94 pounds) to not more than 6 gallons of clean water. Additives up to 5% by weight to increase fluidity may be used.

(4) Heavy drilling mud is the fluid used in the drilling of a rotary drilled well and the fluid when used as grout shall contain a high percentage of clay or bentonite to minimize shrinkage of the slurry within the annular space.

(5) Heavy bentonite water slurry is a mixture of 10% by weight of bentonite added to straight water or approximately 5% bentonite added to drilling mud. Bentonite shall contain 85% of the mineral montmorillinite and shall meet API specifications standard 13A-(March 1966). Saline, acid or alkaline substances or other additives to cause a temporary increase in viscosity of the bentonite slurry are not permitted.

History: 1954 ACS 49, p. 21, Eff. Feb. 14, 1967.

R 325.1634 Construction of wells; rotary bored or augered wells.

Rule 134. (1) Bored-type wells shall be constructed with a watertight casing of 2 inches diameter or larger installed in an open hole having a diameter at least 2 inches larger than nominal size of the casing. The annular space around the casing shall be tightly sealed in accordance with material and procedures described in R 325.1633.

(2) Drilling mud additives shall be stored in clean containers and shall be free of material that may adversely affect the well, aquifer, or quality of the water to be pumped from the well.

History: 1954 ACS 49, p. 22, Eff. Feb. 14, 1967.

R 325.1635 Construction of wells; driven casing wells.

Rule 135. (1) Where the upper drillhole is clay or similar material of 10 feet or more in thickness, the annular space between the drillhole and casing shall be kept filled with clay slurry or equivalent material when driving the protective casing.

(2) The bottom of the protective well casing shall be properly protected from damage during construction of the well.

History: 1954 ACS 49, p. 22, Eff. Feb. 14, 1967.

R 325.1636 Construction of wells; caving overburden.

Rule 136. A well drilled into caving overburden material need not be grouted if a tight seal is made around the protective casing and the annular space is closed by washing in caving material around the casing prior to disinfection of the well.

History: 1954 ACS 49, p. 22, Eff. Feb. 14, 1967.

R 325.1637 Construction of wells; rock wells.

Rule 137. (1) Where rock is encountered at a depth greater than 25 feet from the surface, the protective casing shall be equipped with a drive shoe which shall be driven firmly into stable rock to provide a tight joint that will prevent pollution or sand from entering the well. A drive shoe is not required on a casing installed without driving and which is to be grouted with neat cement or concrete in an oversized hole.

(2) Where rock is encountered within 25 feet of the surface, an oversized hole shall be drilled and the casing sealed with neat cement grout for a minimum depth of 25 feet.

(3) In an area where a well can be developed only in fractured, jointed, or cavernous rock, the casing may terminate in the formation if there is at least 25 feet of sand or clay material above the rock, and there is no record of this rock containing polluted water, and geologic conditions offer no natural direct surface or near surface water inlets into the rock aquifer. Where there is less overburden and deeper strata will not produce potable water, the health officer shall be consulted and his written approval obtained by the well owner for water treatment and well construction features necessary to provide a safe supply.

History: 1954 ACS 49, p. 22, Eff. Feb. 14, 1967.

R 325.1638 Construction of wells; flowing artesian wells.

Rule 138. (1) The methods and procedures proposed to be used by the driller to protect the artesian aquifer and confining beds from erosion or loss of artesian head shall be submitted by the driller in writing to the director at least 30 days prior to commencement of drilling operations in an area where flowing wells are normally expected.

(2) Flow control from a flowing well shall be provided, consisting of valved pipe connections, watertight pump connections or a receiving tank set at an altitude corresponding to that of the artesian head. A direct connection between the discharge pipe and a sewer or other source of pollution is not permissible.

History: 1954 ACS 49, p. 22, Eff. Feb. 14, 1967.

R 325.1639 Construction of wells; miscellaneous.

Rule 139. (1) A well installed in unconsolidated sand and gravel aquifers shall ordinarily be fitted with a screen of nominal well diameter for wells up to 4 inches in diameter, having openings properly sized so the aquifer can be properly developed to produce sand-free water at the pumping rate of the permanent pump.

(2) Temporary capping of a well until the pumping equipment is installed shall be such that no pollution can enter the well.

(3) A well in which a pump of a capacity of 30 gallons per minute or more is to be installed shall be tested for yield and drawdown with periodic water level measurements being made, where possible, during the drawdown and subsequent recovery periods. The test pump shall have a capacity at least equal to the pumping rate that is expected from the well during its normal usage.

(4) A well shall not vary from the vertical or from alignment sufficiently to interfere with installation and operation of the pump.

(5) Water used for drilling purposes, other than from the well itself, shall be chlorinated clear water containing a free chlorine residual at the time of use and be conveyed in clean sanitary containers.

(6) A dug well is not permitted without written approval of the health officer which shall cover the details of construction to be used.

History: 1954 ACS 49, p. 23, Eff. Feb. 14, 1967.

R 325.1641 Well casing seals and connections; above grade.

Rule 141. An above grade connection into the top or side of a well casing shall be at least 12 inches above the established ground surface and constructed so as to exclude dirt or other foreign matter, by 1 or more of the following methods as may be applicable:

(a) Threaded connection.
(b) Welded connection.
(c) Rubber expansion sealer.
(d) Bolted flanges with rubber gaskets.
(e) Overlapping well cap.
(f) Extension of the casing at least 1 inch into the base of a power pump mounted and sealed on a concrete pedestal and at least 12 inches above the established ground surface or the floor of an approved basement, pump room or well room.

History: 1954 ACS 49, p. 23, Eff. Feb. 14, 1967.

R 325.1642 Well casing seals and connections; below ground.

Rule 142. (1) A connection to a well casing made below ground, or less than 12 inches above the established ground surface, shall be protected by approved threaded or welded joints or by an approved pitless adaptor. A below ground connection shall not be submerged in water at the time of installation. The director will furnish a listing of approved pitless adaptors that meet the requirements of these rules.

(2) A connection to a well casing located at least 12 inches above the floor of an approved basement offset, pump room, or well room is considered equal to an above grade installation.

History: 1954 ACS 49, p. 23, Eff. Feb. 14, 1967.

R 325.1643 Well casing seals and connections; other methods.

Rule 143. Any other method of connection to a well casing shall be approved in writing by the director before installation.

History: 1954 ACS 49, p. 24, Eff. Feb. 14, 1967.

R 325.1651 Pump installation; pump and well rooms.

Rule 151. A room housing pumping equipment or the top of a well casing shall be constructed above the established ground surface permitting access to the pump for maintenance or repair, or may be located below grade if the containing room is located in or attached to an approved basement. In certain specific locations, deviations from an approved below grade installation may be permitted if approved in writing by the health officer.

History: 1954 ACS 49, p. 24, Eff. Feb. 14, 1967.

R 325.1652 Pump installation; slabs, platforms, and floors.

Rule 152. A well, except where an approved pitless adaptor is used, shall be protected by a durable watertight concrete or equal slab, platform, or floor, at least 4 inches thick, extending horizontally at least 1 foot in every direction from the well casing, and sloped to divert water away from the casing. A watertight seal, which may be asphalt or similar material to provide resiliency, shall be provided between the casing and the platform, pump room or approved basement floor or slab.

History: 1954 ACS 49, p. 24, Eff. Feb. 14, 1967.

R 325.1653 Pump installation; pumps and pumping equipment.

Rule 153. (1) A pump shall be constructed so that no unprotected openings into the interior of the pump or well casing exist.

(2) A hand pump, hand pump head, stand or similar device shall have a closed spout, directed downward, and a pump rod that operates through a stuffing box.

(3) A power driven pump shall be attached to the casing or approved suction or discharge line by a watertight connection, including flange connections, hose clamp type connections, or other flexible couplings, or shall have a base plate meeting the requirements of R 325.1641 (f).

(4) A pump shall be designed, installed, and maintained so that priming is not required for ordinary use.

History: 1954 ACS 49, p. 24, Eff. Feb. 14, 1967.

R 325.1654 Pump installation; water suction lines.

Rule 154. (1) A water suction line shall be constructed of copper, galvanized steel, or plastic pipe as approved in department letter no. 36-1 issued by the director, or other material given written approval by the director.

(2) A water suction line extending outside the well casing shall not be used unless protected by 1 or more of the following methods:

(a) Fully exposed in an approved basement, pump room, or well room and at least 12 inches above the floor of an approved below grade structure.

(b) Fully exposed above grade.

(c) Lying within an outer casing with the annular space filled with water from the system and maintained at system pressure.

(d) Surrounded by air space in a conduit which has positive drainage by gravity to the ground surface or to an approved basement and such conduit shall be directly connected to the well casing by a threaded or welded watertight joint. The openings into the casing shall be welded watertight or sealed in accordance with R 325.1641 to R 325.1643 and the total length of the suction line protected by the gravity drained conduit shall not exceed 10 feet.

History: 1954 ACS 49, p. 24, Eff. Feb. 14, 1967.

R 325.1655 Pump installation; pump discharge lines.

Rule 155. The discharge line between the well casing and the pressure tank in any installation, including a deep well turbine or a submersible pump, shall be under positive pressure at all times. If a check valve is installed in the water line between the well casing and the pressure tank, the water line between the well casing and the check valve shall meet the requirements for a suction line.

History: 1954 ACS 49, p. 24, Eff. Feb. 14, 1967.

R 325.1656 Pump installation; pressure tanks.

Rule 156. It is recommended that a pressure tank be installed in an approved pump room or well room. However, partially buried pressure tanks shall project horizontally above the ground or into an approved basement, or into a room or pit drained by gravity to the ground surface. A totally buried pressure tank may be used if the manufacturer's unit has been approved in writing by the director as to its design, type of material, and specification for its installation. A pressure relief or air release valve on a pressure tank which may contain subterranean gases and which is located within a building shall be vented to the outside.

History: 1954 ACS 49, p. 25, Eff. Feb. 14, 1967.

R 325.1657 Pump installation; vents.

Rule 157. (1) A casing vent, when provided, shall be of materials complying with R 325.1654(1), with watertight joints, terminating at least 12 inches above the established ground surface or the floor of a pump room, well room or approved basement, screened, and be pointing downward. A vent shall terminate at a point not less than 24 inches above any known flood level. Vents may be offset provided they meet the provision of this rule.

(2) If toxic or flammable gases are present, they shall be properly vented from the well and the vent shall extend to the outside atmosphere above the roof level at a point where the gases will not produce a hazard. Openings in pump bases shall be sealed watertight. If the type of gas is not known and is to be carried through the water supply, the health officer shall be consulted for proper identification and treatment.

History: 1954 ACS 49, p. 25, Eff. Feb. 14, 1967.

R 325.1658 Pump installation; sampling faucets.

Rule 158. In a pressure water system provision shall be made for collection of water samples by installation of a faucet in a convenient location as near to the well as possible.

History: 1954 ACS 49, p. 25, Eff. Feb. 14, 1967.

R 325.1661 Disinfection and water samples.

Rule 161. (1) A new, repaired or reconditioned well or pump installation shall be thoroughly pumped to waste until the water is as clear as is reasonably possible dependent upon groundwater conditions in the area. Thereafter the well and pumping equipment shall be disinfected with chlorine so applied that a concentration of at least 50 parts per million of chlorine shall be obtained in all parts of the well. A minimum contact period of 2 hours shall be provided before pumping the well to waste and flushing the chlorine solution from the distribution system. A well drilling contractor or pump installer registered under the act shall be responsible for chlorinating the work he performs on the well, pump, or pumping equipment.

(2) Prior to placing the supply from a new or reconditioned well into service, 1 or more water samples shall be collected from the installation and these shall show the absence of organisms of the coliform group.

History: 1954 ACS 49, p. 25, Eff. Feb. 14, 1967.

R 325.1666 Abandonment of wells.

Rule 166. (1) An abandoned well shall be filled and sealed by 1 of the following methods in accordance with the geological formations penetrated, in such a manner as to prevent it from acting as a channel for pollution, or the escape of subterranean gases, and a report of the method of sealing shall be filed with the health officer:

(a) A well in unconsolidated deposits shall be filled with clean puddled clay, neat cement grout or concrete grout.

(b) The section of a well in a cavernous or creviced rock, such as cavernous limestone or basalt lava rock, creviced granite, etc., shall be filled with concrete or neat cement grout or alternate layers of concrete or neat cement grout, gravel or stone aggregate. The filling shall be completed at the top by a layer of neat cement grout or concrete grout extending at least 20 feet above the top of the cavernous rock or to the ground surface.

(c) The section of a well in a sandstone strata shall be filled with neat cement grout, concrete grout, or sand. The filling shall be completed at the top of the formation by a layer of neat cement grout or concrete grout extending at least 20 feet above the top of the sandstone or to the ground surface.

(d) The flow in a flowing well shall be confined and the well filled in accordance with preceding subdivisions or the well shall be sealed by pressure grouting.

(e) Abandonment of wells containing subterranean gases requires special precautions and a casing in such a well shall be sealed with neat cement grout or concrete grout.

(2) Debris or obstructions that may interfere with sealing operations shall be removed from the well.

History: 1954 ACS 49, p. 25, Eff. Feb. 14, 1967.

R 325.1671 Reuse of water and disposal wells.

Rule 171. (1) Water used for cooling parts of engines, air compressors or other equipment, or water used for air conditioning, shall not be returned to any part of the potable water system.

(2) A well used for the disposal of waste water is regulated by Act No. 245 of the Public Acts of 1929, as amended, being §§323.1 to 323.12a of the Michigan Compiled Laws. An order of determination for such a well shall be obtained from the water resources commission. A well shall not be used for disposal of surface water, near surface water or groundwater without first obtaining approval in writing from the director or his authorized agent. The director or his authorized agent has the right to refuse any such request, or prescribe methods of treatment prior to disposal.

History: 1954 ACS 49, p. 26, Eff. Feb. 14, 1967.

R 325.1672 Storage reservoirs.

Rule 172. If a storage reservoir, excluding a pressure tank, is used, plans shall be submitted to the health officer for approval.

History: 1954 ACS 49, p. 26, Eff. Feb. 14, 1967.

R 325.1673 Notices of pollution.

Rule 173. An owner or occupant using a polluted water supply or a supply which, in the judgment of the health officer, represents an immediate health hazard shall be notified by the health officer of the health hazard.

History: 1954 ACS 49, p. 26, Eff. Feb. 14, 1967.

R 325.1674 Other water sources and cross-connections.

Rule 174. (1) In special cases, permission may be granted by the health officer, following consultation with the director or his authorized representative, to use springs, infiltration tile lines, or other similar sources as a water supply, or to install water treatment facilities. Plans and specifications for such facilities, together with operating procedures, shall be approved by the health officer.

(2) A physical connection is not permitted between a water supply meeting the requirements of these rules and another water supply which does not meet such requirements.

History: 1954 ACS 49, p. 26, Eff. Feb. 14, 1967.

R 325.1675 Water well records.

Rule 175. (1) A well drilling contractor in compliance with section 11 of the act shall furnish the well owner 1 copy and the health officer 2 copies, and retain 1 copy in his files, of a well record containing such available information as required on the form furnished by the director. Terms when used for describing formations on the well log form shall conform to definitions set forth in these rules.

(2) A water well record shall be submitted for a dry hole. Information on several dry holes within a small area may be submitted on a single well record form if the geologic materials are similar.

History: 1954 ACS 49, p. 26, Eff. Feb. 14, 1967.

R 325.1676 Pumping equipment installation records.

Rule 176. Contractors, after installation of a new pump or pumping equipment upon a well, shall furnish the owner 1 copy, the health officer 2 copies within 60 days, and retain 1 copy in his files, of a pump installation record containing such available information as required on a form furnished by the director. The health officer shall send 1 copy of the record to the director of the department of conservation within 30 days after its receipt. The following information may be included on the drilling record by a well drilling contractor or a separate form shall be used. Data to be given on the form shall include a distinction between a well pump of the jet, submersible, reciprocating or other type, the pump capacity in gallons per minute, the length of drop pipe, the horsepower of the pump motor, the pump model number, and the pump manufacturer's name.

History: 1954 ACS 49, p. 26, Eff. Feb. 14, 1967.

PART 2. DRILLING CONTRACTORS' AND PUMP INSTALLERS' REGISTRATION

R 325.1701 Qualifications.

Rule 201. A well drilling contractor, pump installer, or official representative shall meet the following requirements after May 1, 1967, for registration under the act:

(a) A minimum of 2 years' experience in the well drilling field for registration as a well drilling contractor and a minimum of 2 years' experience in the pump installation field for registration as a pump installer.

(b) Completion of grade 10 in high school or submission of proof of equivalent ability demonstrated by successful completion of approved short courses or written examinations. Up to 4 years of work experience may be substituted for equal years of education at the discretion of the advisory board; however, this shall be in addition to the experience requirement in subdivision (a).

(c) A sound moral character.

(d) Reference letters from 2 persons, 1 of whom shall be registered under the act, familiar with the applicant's work experience, honesty, integrity, and ability to perform the work of a well drilling contractor or pump installer, shall be submitted with the application for initial registration.

History: 1954 ACS 49, p. 27, Eff. Feb. 14, 1967.

R 325.1702 Grandfather clause.

Rule 202. A well driller or pump installer with a minimum of 2 years' experience in his respective field of work prior to May 1, 1967, and who has filed by May 1, 1967, a record of experience and background with the director on a form prepared for such purpose may, upon application, be registered in the future at the discretion of the director without meeting the educational qualifications and

without taking written examination, if he has been continuously employed in the water well trade.

History: 1954 ACS 49, p. 27, Eff. Feb. 14, 1967.

R 325.1703 Submission of applications.

Rule 203. An application for an initial or renewal registration shall be made to the director on the form prescribed and provided by the director. An application shall be accompanied by the fee prescribed by the act in the form of a bank draft, check or money order payable to the state of Michigan. A renewal application shall be submitted by March 1 of each year to permit time for issuance of the renewal certificate by May 1, as required by the act. The initial fee shall be refunded to an applicant not qualified to take the written examination.

History: 1954 ACS 49, p. 27, Eff. Feb. 14, 1967.

R 325.1704 Advisory board's evaluation of applicants.

Rule 204. The advisory board created by the act shall carefully evaluate an applicant for registration and forward its advice to the director. The board may conduct oral interviews and require affidavits and other supporting evidence to determine qualifications of the applicant.

History: 1954 ACS 49, p. 27, Eff. Feb. 14, 1967.

R 325.1705 Reciprocity.

Rule 205. The secretary shall obtain requirements for registration in the state from which an applicant requests reciprocity as either a registered well drilling contractor or registered pump installer and confirm that the applicant was in fact registered.

History: 1954 ACS 49, p. 27, Eff. Feb. 14, 1967.

R 325.1706 Examinations.

Rule 206. After the well drilling contractor, pump installer, or official representative meets the requirements in the preceding rules in this part, he shall satisfactorily complete an examination which may be any combination of written, oral, or practical work, administered by the advisory board created by the act. A candidate failing to pass the examination may apply for reexamination at the expiration of 6 months. A reexamination shall be granted upon payment of a fee of $25.00.

History: 1954 ACS 49, p. 27, Eff. Feb. 14, 1967.

R 325.1707 Denial of applications.

Rule 207. An application for registration may be denied for any of the following reasons:

(a) Failure to be accompanied by the prescribed fee.

(b) Failure of the applicant to meet the experience, education, and character qualifications of registration.

(c) Failure to complete the application form.

(d) Other good and sufficient cause after due notice and proper hearing.

History: 1954 ACS 49, p. 27, Eff. Feb. 14, 1967.

R 325.1708 Certificates; initial; renewal; limited.

Rule 208. (1) The initial certificate issued to a registered well drilling contractor or registered pump installer shall be nontransferable and suitable for framing, containing name of the contractor, representative, date of issuance, expiration date, certificate number, and signature of the director.

(2) A renewal certificate shall consist of a registration card in duplicate containing name of the contractor, representative, expiration date, certificate number, and signature of the director. One section of the card shall be kept with the original registration certificate and a copy shall be carried on the person representing the registered contractor.

(3) A well drilling contractor not having practical field experience in the operation of conventional drilling machines such as a cable tool, rotary, hollow rod, auger, or similar drilling machine, but who installs wells such as dug wells, beach wells, driven well points, or other wells of special nature, shall have his certificate limited to such well work as dictated by his previous field experience.

History: 1954 ACS 49, p. 28, Eff. Feb. 14, 1967.

R 325.1709 Reinstatement of lapsed, suspended, and revoked certificates.

Rule 209. (1) A registration certificate which has expired for failure of the registrant to apply and pay renewal fees may be reinstated by the director as follows:

(a) Within 3 years, upon receipt of a renewal application, with the advice of the advisory board, and payment of renewal registration fees for each year during which registration has lapsed in accordance with the fee and penalty schedule in the act.

(b) After 3 years, after examination in accordance with the rules for new applicants.

(2) A holder of a certificate of registration which has been suspended or revoked in accordance with the act, after a waiting period equal to the period of suspension but not to exceed 9 months after the registration certificate was suspended or revoked, may petition the director for a hearing for reinstatement of his registration certificate.

History: 1954 ACS 49, p. 28, Eff. Feb. 14, 1967.

PART 3. DRILLING MACHINES AND SERVICE VEHICLES

R 325.1721 Well drilling machine registration.

Rule 221. (1) A drilling machine registration card shall be issued for identification purposes for each drilling machine registered by a well drilling contractor. The card shall be carried on the drilling machine at all times where it may be inspected at any reasonable hour upon request of the director or his authorized representative or health officer. The card expires on April 30 each year.

(2) The registration card and duplicate seals furnished for a drilling machine are not transferable. The card and seals shall be returned to the director when a drilling machine is sold, traded or otherwise disposed of. A registration card and 2 new seals for a drilling machine so transferred will be provided without cost upon receipt of the old card, the 2 old seals and an application requesting authorization to operate a different drilling machine.

History: 1954 ACS 49, p. 28, Eff. Feb. 14, 1967.

R 325.1722 Registration numbers on service vehicles.

Rule 222. A registrant under the act shall place in a conspicuous location on both sides of each service vehicle his registration number in numbers not less than 2 inches high.

History: 1954 ACS 49, p. 28, Eff. Feb. 14, 1967.

PART 4. DEWATERING WELLS

R 325.1741 Applicability of part 4.

Rule 241. (1) This part applies to construction, operation, and abandonment of dewatering wells and pump installations, except that the exemption in section 2 of the act is construed to mean a dewatering well where the inside casing diameter is not more than 2 inches and the total depth of the casing and well point is not more than 25 feet.

(2) A shallow sump installed for the purpose of removing water that has collected in an underground excavation or water that may seep into a sump, equipped with a low lift pump to remove the water which would enter or interfere with the excavation, is not considered a dewatering well and is exempt from these rules if the sump is:

(a) Constructed within the limits of the excavation.

(b) Not more than 8 feet below the specified excavation elevation.

History: 1954 ACS 82, p. 13, Eff. Mar. 6, 1975.

R 325.1742 Location and general construction.

Rule 242. (1) A dewatering well shall be located to accomplish the temporary dewatering process, and shall be constructed and maintained to prevent surface water and other known sources of pollution from entering the well.

(2) The location of all existing underground structures and utilities shall be determined before any construction to prevent damages or hazards.

History: 1954 ACS 82, p. 14, Eff. Mar. 6, 1975.

R 325.1743 Casings.

Rule 243. (1) The wall thickness of the casing of a dewatering well shall be selected to withstand the forces expected to be exerted on the well casing during installation and removal.

(2) The casing shall extend not less than 12 inches above the working grade. The top of a casing shall be capped or covered in a manner to prevent entry of extraneous objects and to serve as a safety measure as long as the casing remains in place. When flooding is imminent, precautions shall be taken to prevent the entry of flood water into the casing. However, the casing on a well point system may extend less than 12 inches above grade when a closed piping collection network is used under vacuum and the closed piping is maintained to prevent surface waters from entering the well points.

History: 1954 ACS 82, p. 14, Eff. Mar. 6, 1975.

R 325.1744 Well screens and drilling water.

Rule 244. (1) A dewatering well contractor shall select the well screen. However, material and construction of the screen shall be sufficiently strong and durable that the screen may be readily removed intact from the dewatering well.

(2) Water used for drilling purposes shall be obtained preferably from a municipal water system or a well. Water from any other source shall be clean and be chlorinated to a free chlorine residual at the point of discharge into the well. When drilling water is transported to the well site, clean sanitary containers shall be used. An exception may be made to the requirement of chlorinating water used for drilling a dewatering well for legitimate reasons relating to water source, use of the well, site location, aquifers being penetrated or other justifiable reasons, and shall be obtained in writing from the department for each project. Water from a shallow surface pond which is generally polluted, turbid, and contains

algae or other microscopic plants and animals shall not be used for drilling purposes.

History: 1954 ACS 82, p. 14, Eff. Mar. 6, 1975.

R 325.1746 Filter material.

Rule 246. Filtering material shall be clean and free of deleterious materials and placed so as to eliminate debris and surface water from entering the well during placement. After placement the ground surrounding the well casing shall be mounted to divert surface waters away from the well casing.

History: 1954 ACS 82, p. 14, Eff. Mar. 6, 1975.

R 325.1748 Flowing artesian aquifers.

Rule 248. A dewatering well in an aquifer under an artesian head requires special installation practices. A dewatering well contractor shall take necessary precautions if he encounters a flowing artesian aquifer that flows above working grade, to prevent unreasonable waste of the water and to prevent damage of nearby properties or watercourses or both. Methods of construction and abandonment shall be determined in pre-construction conference with all concerned parties, including the consulting engineer, and shall be approved in writing by the department.

History: 1954 ACS 82, p. 14, Eff. Mar. 6, 1975.

R 325.1751 Pump discharge and suction lines.

Rule 251. (1) A discharge line of a dewatering well shall leave the well above working grade. A pump in a dewatering well shall be installed in a manner that will permit discharging water above the working grade. Approval in writing shall be obtained from the department for a below ground discharge connection to a dewatering well casing.

(2) A suction line or header pipe and well points of a dewatering system shall be maintained to prevent surface water from entering the aquifer.

History: 1954 ACS 82, p. 14, Eff. Mar. 6, 1975.

R 325.1752 Electrical connections.

Rule 252. Electrical connections to the pumping equipment shall be made in accordance with applicable electrical codes and shall be made in a manner that protects the safety and welfare of workers and the public from possible electrical shock.

History: 1954 ACS 82, p. 14, Eff. Mar. 6, 1975.

R 325.1753 Gases and mineralized water.

Rule 253. (1) If toxic or flammable gases are present the health officer shall be notified immediately and special construction features shall be used. The gas shall be vented not less than 8 feet above working grade to minimize the explosive hazard and remove the gas from direct human contact. The well casing shall be sealed tight to assure that all gas is exhausted through the vent. R 325.1764 and R 325.1766 prescribe plugging procedures for a dewatering well containing gas.

(2) Where the water resources commission, consulting engineer, municipality, or other governmental unit involved in the dewatering project determines that disposal of contaminated water or water with a high mineral content or dissolved or entrained gases creates a problem, the department may make additional requirements.

History: 1954 ACS 82, p. 15, Eff. Mar. 6, 1975.

R 325.1755 Pump operation.

Rule 255. Water pumped from a dewatering well shall be conveyed to a natural watercourse in a manner that does not cause damage to abutting property, create a hazard, or cause silting in the receiving stream. This water is not considered potable and shall not be used for drinking or domestic purposes. The pumping water level in a dewatering well shall be maintained at the minimum possible depth below the ground surface that will dewater the excavation. Duration of operation shall also be regulated by the contractor to minimize time of pumping to the period actually needed to dewater the excavation effectively. The contractor, consulting engineer, and the owner of the construction project for which the dewatering wells are being drilled shall give due consideration as to what effect lowering the groundwater table will exert on existing wells.

History: 1954 ACS 82, p. 15, Eff. Mar. 6, 1975.

R 325.1761 Abandonment and plugging.

Rule 261. Plugging of an abandoned dewatering well shall be accomplished by 1 of the procedures set forth in R 325.1762 and R 325.1763.

History: 1954 ACS 82, p. 15, Eff. Mar. 6, 1975.

R 325.1762 Wells 40 feet or less below grade.

Rule 262. A dewatering well used in conjunction with underground construction or building excavation when the dewatering well is not more than 40 feet below the working grade shall be plugged as provided in this rule except dewatering wells covered by R 325.1763. At the time the filter material is added, the well shall be backfilled from a depth of not less than 7 feet below the working grade to the working grade with an inorganic parent soil material encountered within the upper 7 feet. A finer textured inorganic soil shall be used when substituted for the parent material. The plugging shall be completed after the casing and screen are removed from the dewatering well by adding and compacting additional inorganic parent material naturally occurring in the upper 7 feet or with finer textured soils in the excavation remaining at the site due to slumping of the filter material. These soils shall be added in a manner to prevent future slumping and assure that the drill hole shall remain filled to the working grade. Where 1 or more dewatering wells are deeper than 40 feet in depth, plugging procedure prescribed in R 325.1763 shall be used on all wells penetrating the deeper aquifer. Exception to this plugging procedure may be requested and a written decision reached through a conference with the department.

History: 1954 ACS 82, p. 15, Eff. Mar. 6, 1975.

R 325.1763 Deep wells; tunnels; relief and municipal wells.

Rule 263. (1) A dewatering well deeper than 40 feet below the working grade, a dewatering well used in conjunction with tunnel construction or a well used as an artesian pressure relief well and all dewatering wells located within 500 feet of a municipal well site shall be plugged during construction as prescribed in this rule. The annular space between the bore hole and the casing shall be backfilled at the time the filter material is added with a mixture of 4 pounds of bentonite to each cubic foot of fine textured inorganic soil, upward from a minimum depth of 10 feet below the working grade. The bentonite and fine textured inorganic soil shall be thoroughly mixed at the time of backfilling.

(2) The following chart relates bore hole diameter to volume and quantity of bentonite needed per foot of bore hole.

Boring diameter	Gallons per 1 foot of depth	Cu. ft. per 1 foot of depth	Pounds bentonite* per 1 foot of depth
12 inches	5.9	0.8	3.2
18 inches	13.2	1.8	7.2
24 inches	23.5	3.1	12.4
30 inches	36.7	4.9	19.6
36 inches	52.9	7.1	28.4
42 inches	72.0	9.6	38.4

*Based on 4 pounds bentonite per cubic foot of excavation.

(3) The plugging shall be completed after the casing and screen are removed from the dewatering well by backfilling the hole with a mixture of 4 pounds of bentonite to each cubic foot of fine textured inorganic soil for a distance of not less than 5 feet of the bore hole. The bentonite and fine textured inorganic soil shall be thoroughly mixed at the time of backfilling. A minimum of 142 pounds of bentonite shall be used in backfilling a 36-inch diameter hole and a minimum of 62 pounds of bentonite in a 24-inch diameter hole. The plugging shall be completed by adding and compacting additional inorganic parent material or fine textured soils. These soils shall be added in a manner to prevent future slumping and assure that the drill hole shall remain filled to the working grade. Approval in writing shall be obtained from the department prior to instituting any modifications in the plugging requirements of this rule.

History: 1954 ACS 82, p. 15, Eff. Mar. 6, 1975.

R 325.1764 Plugging in special situations.

Rule 264. The method of abandonment of a dewatering well installed in the situations described in R 325.1765 and R 325.1766 or other special situations shall be determined after considering the requirements of all parties concerned and shall be approved in writing by the department. The procedures shall be used as a general guide and may be modified by the department after a conference of concerned parties.

History: 1954 ACS 82, p. 16, Eff. Mar. 6, 1975.

R 325.1765 Artesian flows and bedrock.

Rule 265. (1) A dewatering well terminated in aquifers under sufficient head to provide a flow above the working grade shall be sealed with neat cement grout or other method approved by the department to contain completely the flow caused by the artesian head.

(2) A dewatering well penetrating bedrock shall have the part of the well drilled into the bedrock formation sealed with neat cement grout. The plugging shall be completed by a layer of neat cement grout extending at least 15 feet above the top of the bedrock. Neat cement grout shall be added from the bottom of the hole upward in 1 continuous operation, as the casing is removed.

History: 1954 ACS 82, p. 16, Eff. Mar. 6, 1975.

R 325.1766 Water of poor chemical quality or producing methane.

Rule 266. (1) A dewatering well that produces water which is sufficiently contaminated or high in mineral content to constitute a significant hazard to lakes, streams or to groundwater aquifers by direct infiltration or inter-aquifer migration, shall be filled and sealed, with the method of abandonment being determined by a conference.

(2) A dewatering well that is producing methane gas at the time the well is to be filled and sealed shall be plugged with neat cement grout with the precise procedure determined by a conference.

History: 1954 ACS 82, p. 16, Eff. Mar. 6, 1975.

R 325.1768 Dewatering well drilling records.

Rule 268. A dewatering well contractor shall furnish the health officer 2 copies and the contractor responsible for abandoning the dewatering well 1 copy, and shall retain 1 copy for his files, of a well record containing such available information as is required on the dewatering well record form. Data obtained during the dewatering well drilling activities shall be reported on a form furnished by the department or such other form approved by the department. For 1 project location, information on all holes with similar geologic formation may be submitted on a single well record form. However, an individual record shall be provided for a dewatering well drilled into bedrock, or other dewatering well that produces methane gas or produces water which is contaminated or high in mineral content or artesian flow above working grade. The dewatering well drilling contractor may substitute soil boring records for the construction project in lieu of submitting dewatering well drilling records if all dewatering wells are less than 40 feet in depth.

History: 1954 ACS 82, p. 16, Eff. Mar. 6, 1975.

R 325.1771 Registration qualifications.

Rule 271. After April 1, 1974, a person who represents a dewatering well contractor or dewatering well pump installer, except for those qualified under R 325.1772, shall meet the following minimum requirements for registration under the act:

(a) At least 2 years of experience in his respective field in underground contracting with supervisory or actual field experience in this state relating to the drilling of at least 20 dewatering wells for a drilling contractor and 20 pump installations for a pump installer.

(b) Completion of the tenth grade in high school or submission of proof of equivalent ability demonstrated by successful completion of approved short courses or written examination. The board may accept up to 4 years of work experience for equal years of education, in addition to the subdivision (a) experience requirement.

(c) Reference statements from 2 persons, 1 of whom shall be registered as a dewatering well drilling or pump installer contractor under the act and familar with the applicant's work experience, honesty, integrity, and ability to perform the work of a dewatering well drilling or pump installer contractor, shall be submitted before advisory board approval to take the examination.

History: 1954 ACS 82, p. 17, Eff. Mar. 6, 1975.

R 325.1772 Grandfather clause.

Rule 272. An individual who is a member or employee of a registered dewatering well drilling or pump installing firm, with a minimum of 2 years' experience in his respective field of work before April 30, 1974, and who files by April 30, 1975, a record of experience and background with the department on a form prepared for this purpose, may be registered upon application. This individual shall be registered without meeting the educational qualifications and without taking the written examination if he has been employed continuously in the dewatering well trade.

R 325.1773 Submission of applications.

Rule 273. An application for an initial or renewal registration shall be made to the department on forms prescribed by it. An application shall be accompanied by the fee prescribed by the act in the form of a bank draft, check or money order payable to the state of Michigan. A renewal application shall be submitted by March 1 of each year to permit time for issuance of the renewal certificate by May 1 as required by the act. The initial fee shall be refunded to an applicant not qualified to take the examination.

History: 1954 ACS 82, p. 17, Eff. Mar. 6, 1975.

R 325.1774 Advisory board review.

Rule 274. The advisory board created by the act shall evaluate an applicant for registration carefully with the assistance of a representative from the dewatering well drilling industry and forward its advice to the department. The board may conduct oral interviews and require affidavits or other supporting evidence to determine qualification of an applicant.

History: 1954 ACS 82, p. 17, Eff. Mar. 6, 1975.

R 325.1775 Examinations.

Rule 275. A person representing a dewatering well contractor or pump installer may take the examination only after fulfilling all requirements in the rules and having approval of the advisory board. He shall satisfactorily complete an examination covering various aspects of dewatering well operations before being registered under section 5 of the act. This examination may be any combination of written, oral, or practical work administered by the advisory board. A candidate failing to pass the examination may apply for reexamination at the expiration of 6 months.

History: 1954 ACS 82, p. 17, Eff. Mar. 6, 1975.

R 325.1776 Denial of applications.

Rule 276. An application for initial or renewal registration may be denied for any of the following reasons:

(a) Failure to accompany the application with the prescribed fee.

(b) Failure of the applicant to meet the experience and education qualifications of registration.

(c) Other good and sufficient cause after due notice and proper hearing.

History: 1954 ACS 82, p. 17, Eff. Mar. 6, 1975.

R 325.1777 Certificates; initial; renewal; limited.

Rule 277. (1) The initial certificate issued to a registered dewatering well drilling contractor or pump installer shall be nontransferable and contain the names of the contractor and representative, date of issuance, expiration date, certificate number, and signature of the director.

(2) A renewal certificate shall consist of a registration card in duplicate containing the names of the contractor and representative, expiration date, certificate number, and signature of the director. One section of the card shall be kept with the original registration certificate and a copy shall be carried on the person representing the registered contractor.

(3) The initial and renewal certificates shall authorize a registered dewatering well contractor to participate in all dewatering well activities, but he is limited to dewatering well installations and related operations, including pump installation

for dewatering installations and abandonment of dewatering wells. A registered dewatering well pump installer is limited to pump installations, operation, and abandonment of dewatering wells.

History: 1954 ACS 82, p. 18, Eff. Mar. 6, 1975.

R 325.1778 Reciprocity.

Rule 278. The secretary of the advisory board shall obtain requirements for registration in the state from which an applicant requests reciprocity as either a registered dewatering well drilling contractor or pump installer and confirm that the applicant was in fact registered.

History: 1954 ACS 82, p. 18, Eff. Mar. 6, 1975.

R 325.1779 Reinstatement of lapsed, suspended, and revoked certificates.

Rule 279. (1) A registration certificate which has expired for failure of the registrant to apply and pay renewal fees may be reinstated by the department:

(a) Within 3 years, upon receipt of a renewal application, with the advice of the advisory board, and payment of renewal registration fees for each year during which registration has lapsed in accordance with the fee and penalty schedule in the act.

(b) After 3 years, after examination in accordance with the rules for new applicants.

(2) A holder of a certificate of registration which has been suspended or revoked in accordance with the act, after a waiting period equal to the period of suspension, but not to exceed 9 months after the registration certificate was suspended or revoked, may petition the director for a hearing for reinstatement of his registration certificate.

History: 1954 ACS 82, p. 18, Eff. Mar. 6, 1975.

R 325.1781 Dewatering well drilling machine registration.

Rule 281. (1) A drilling machine registration card shall be issued for identification purposes for each drilling machine registered by a dewatering well drilling contractor. The card shall be carried on the drilling machine at all times where it may be inspected at any reasonable hour upon request of an authorized representative of the department or health officer. The registration card expires on April 30 each year.

(2) The registration card and duplicate seals furnished for a dewatering well drilling machine are not transferable. The card and seals shall be returned to the director when a drilling machine is sold, traded, or otherwise disposed of. A registration card and 2 new seals for a drilling machine so transferred will be provided without cost upon receipt of the old card, the 2 old seals, and an application requesting authorization to operate a different drilling machine.

History: 1954 ACS 82, p. 18, Eff. Mar. 6, 1975.

DIVISION OF HEALTH FACILITY STANDARDS AND LICENSING

HOMES FOR THE AGED

(By authority conferred on the director of public health by sections 3 and 6 of Act No. 139 of the Public Acts of 1956, sections 2 and 4 of Act No. 197 of the Public Acts of 1952, as amended, and section 427 of Act No. 380 of the Public Acts of 1965, being §§331.653, 331.656, 24.102, 24.104, and 16.527 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 325.1801 Definitions.

Rule 1. (1) The terms used in these rules have the same meaning as prescribed in the act.

(2) "Act" means Act No. 139 of the Public Acts of 1956, as amended, being §§331.651 to 331.660 of the Michigan Compiled Laws.

(3) "Department" means the department of public health.

(4) "Director" means the director of public health.

(5) "Advisory committee" means the director's advisory committee on nursing homes and homes for the aged.

(6) "Home" means a home for the aged.

(7) "Distinct part" means a clearly identifiable area or section within a licensed home consisting of at least a resident unit, wing, floor, or building containing contiguous rooms providing a specific type or level of care and service. Appropriate personnel are regularly assigned and working in the distinct part under qualified direction. The distinct part may share services, such as management services, building maintenance and laundry, with other units.

History: 1954 ACS 60, p. 13, Eff. Nov. 14, 1969.

R 325.1809 Rescission.

Rule 9. The rules entitled "Nursing Homes and Homes for the Aged," being R 325.1221 to R 325.1276 of the Michigan Administrative Code and appearing on pages 388 to 401 of the 1957 Annual Supplement to the Code, have been rescinded by rule 9 of the rules entitled "Nursing Homes," being R 325.1909 of the Michigan Administrative Code and appearing on page 23 of the 1969 Annual Supplement to the Code.

History: 1954 ACS 60, p. 13, Eff. Nov. 14, 1969.

PART 2. STATE ADMINISTRATION

R 325.1811 License applications; authorized representatives; notices.

Rule 11. (1) An application for a license for a home shall be made on forms authorized and provided by the director and shall be completed in full.

(2) An application for a license for a home shall be made and signed by the individual desiring to establish, conduct, or maintain a licensed home, or by the authorized representative of any individual, copartnership, corporation, or association including any receiver, trustee, assignee, or similar representative thereof, desiring to establish, conduct or maintain a licensed home.

(3) An authorized representative shall be authorized by the applicant to make application and amendments to the application; to provide the director with all information necessary to his determination made in connection with the issuance of a license; and to enter into agreements with the director in connection with the issuance of a license.

(4) A certificate of appointment or other written evidence of the authority vested in the authorized representative shall be attached to the application.

(5) In matters relating to the licensing of the home, the director may continue to deal with the authorized representative until the director is notified in writing that a new authorized representative has been appointed with equal power and the former authorized representative is no longer authorized to act.

(6) The director may use any appropriate means of notice and may direct notices of any administrative action pursuant to licensing of the home to the

applicant or the authorized representative, either personally or by mail at the address of the establishment or institution.

History: 1954 ACS 60, p. 13, Eff. Nov. 14, 1969.

R 325.1812 Licenses and permits; issuance.

Rule 12. (1) Upon determination that the home complies with the act and the requirements of these rules, the director shall issue a license.

(2) The director may issue a provisional license or a temporary unrenewable permit or may deny a license or temporary unrenewable permit in accord with his powers and these rules.

(3) The director, upon issuing a provisional license or denying a license, shall give the applicant or the authorized representative written notice of his action and the reasons therefor.

(4) The director may issue a temporary unrenewable permit not to exceed 6 months when:

(a) He has been presented with evidence that is satisfactory to him that a license can be granted to the applicant within the period of the permit and such application has been made following new construction or change of ownership; or

(b) He has received a recommendation from the state fire marshal that he issue a temporary unrenewable permit.

(5) The director shall cause to have indorsed on the license, provisional license, or temporary unrenewable permit the number of resident beds for which the license or permit is issued.

(6) An establishment or institution issued a license, provisional license, or temporary unrenewable permit as a home, without regard to any other license, is subject to the standards required for homes for the authorized number of resident beds pursuant to which the license or permit is issued.

History: 1954 ACS 60, p. 14, Eff. Nov. 14, 1969.

R 325.1813 Licenses and permits; general provisions.

Rule 13. (1) A license, provisional license, or temporary unrenewable permit is not transferable between owners, or from 1 location to another, or from 1 part of an institution to another.

(2) The applicant or the authorized representative shall give written notice to the department within 5 business days of any changes in information as submitted in the application pursuant to which a license, provisional license, or temporary unrenewable permit has issued.

(3) The number of residents cared for in a home and the complement of resident beds shall not exceed the number authorized by the license, provisional license, or temporary unrenewable permit.

(4) The current license, provisional license, or temporary unrenewable permit shall be posted in a conspicuous public area of the home.

History: 1954 ACS 60, p. 14, Eff. Nov. 14, 1969.

R 325.1815 Hearing requests.

Rule 15. A party in interest to the application for or issuance of a license, provisional license, or temporary unrenewable permit aggrieved by an order of the director may file a written request for a hearing with the director which shall be accompanied by a written statement setting forth the reasons for the request and, where appropriate, affirming or denying each item of noncompliance listed in conjunction with the order. However, nothing contained herein shall interfere with the director in emergency situations involving the public health or welfare

from making orders immediately effective, or taking action summarily, or issuing such interim orders as he deems necessary pending final determination of a contested order.

History: 1954 ACS 60, p. 14, Eff. Nov. 14, 1969.

R 325.1816 Hearing procedures.

Rule 16. A hearing shall be held at the offices of the department at Lansing, Michigan, or such other place as the director may designate. Notice of hearing shall state the date, time, place and a brief statement of the problems involved and shall be mailed to or served personally upon the party in interest requesting the hearing at least 15 days prior thereto.

History: 1954 ACS 60, p. 15, Eff. Nov. 14, 1969.

R 325.1819 Prohibited use of words "state approved" and "hospital."

Rule 19. (1) The use of the words "state approved" or words having a similar meaning is prohibited unless the home is operated under a current license.

(2) The use of the word "hospital" or words having a similar meaning is prohibited.

History: 1954 ACS 60, p. 15, Eff. Nov. 14, 1969.

R 325.1821 Advisory committee on nursing homes and homes for aged.

Rule 21. (1) The advisory committee in existence when these rules become effective is continued.

(2) The advisory committee shall advise the director on matters, related to the home licensing program, which he places before it for consideration. The director may take into consideration, in his determinations, any recommendations of the advisory committee.

(3) The terms of members of the advisory committee shall terminate in accord with their appointment. Appointments thereafter made shall be for a 3-year term.

(4) The committee shall be appointed by the director and shall consist of 15 persons representing the management of nursing homes and homes for the aged, state and county government, and the public at large.

(5) Service on the advisory committee is voluntary, and accordingly without compensation or reimbursement for expenses.

History: 1954 ACS 60, p. 15, Eff. Nov. 14, 1969.

R 325.1825 Delegation of inspections.

Rule 25. The director may delegate the inspection of homes to a local health department, and shall establish procedures and policies concerning such delegation.

History: 1954 ACS 60, p. 15, Eff. Nov. 14, 1969.

R 325.1827 Compliance with other laws, codes, and ordinances.

Rule 27. A home shall comply with all applicable state laws and shall furnish such evidence as the director shall require to show compliance with all local laws, codes and ordinances.

History: 1954 ACS 60, p. 15, Eff. Nov. 14, 1969.

R 325.1829 Conversions to homes for aged.

Rule 29. A nursing home continuously in operation after the effective date of these rules and having a license, provisional license, or temporary unrenewable

permit on the effective date of these rules may convert to a home for the aged and is not required to meet in the authorized area under such existing license the additional requirements for conversion of an existing facility to a home for the aged as hereinafter set forth.

History: 1954 ACS 60, p. 15, Eff. Nov. 14, 1969.

PART 3. ADMINISTRATIVE MANAGEMENT OF HOMES

R 325.1831 Governing bodies, administrators, and supervisors.

Rule 31. (1) A governing body shall assume full legal responsibility for the overall conduct and operation of the home, or in the absence of an organized governing body, the owner or person legally responsible for the overall conduct and operation of the home shall carry out the functions of the governing body.

(2) The governing body shall appoint a competent administrator and shall delegate to him the responsibility for operating the home in accordance with policies established by the governing body.

(3) An administrator and all other persons in supervisory positions shall at least be 21 years of age.

(4) An administrator shall designate in writing a competent person at least 21 years of age to carry out the responsibilities and duties of the administrator in his absence.

History: 1954 ACS 60, p. 15, Eff. Nov. 14, 1969.

R 325.1833 Admission and retention of residents.

Rule 33. (1) A home shall not accept for care a resident with a mental condition disturbing to other residents or personnel. A resident, who after admission to the home shows serious mental disturbances, shall be removed from the home.

(2) A person admitted to residence in the home, on admission, shall present a certificate from a licensed physician indicating that he is free from communicable disease.

(3) A person admitted to residence in the home shall have a chest x-ray or shall have had a chest x-ray performed within the 3 months prior to admission. A report of the results of the chest x-ray shall be available in the home.

(4) A written resident care policy shall govern the annual testing of residents for tuberculosis.

(5) A person requiring nursing care other than the services provided by a home health agency shall not be admitted to a home.

(6) A resident in the home who becomes ill, injured, or disabled following admission, and requires intensive nursing care or nursing care on a 24-hour basis, shall not be permitted to remain in the home.

History: 1954 ACS 60, p. 16, Eff. Nov. 14, 1969.

R 325.1835 Employees' health.

Rule 35. (1) A person on duty in the home shall be in good health and free from communicable disease. Files shall be maintained containing evidence of adequate health supervision, such as results of preemployment and periodic physical examinations, including intradermal skin tests for tuberculosis and chest x-rays, and records of illnesses and accidents occurring on duty.

(2) An employee shall have a chest x-ray and an intradermal skin test for tuberculosis at the beginning of his term of employment. At intervals of 1 year thereafter, an employee shall have an intradermal skin test for tuberculosis. If at

any time this skin test is positive, no annual repetition of this skin test shall be made, but the employee shall thereafter have an annual chest x-ray. A report of the results of such tests shall be included in the individual employee's personnel file.

History: 1954 ACS 60, p. 16, Eff. Nov. 14, 1969.

R 325.1836 Illnesses and accidents.

Rule 36. (1) In case of an accident or sudden change in a resident's condition, the administrator or his designated representative shall immediately notify the physician, the next of kin or legal guardian, and the person or agency responsible for placing and maintaining the resident in the home.

(2) The occurrence of a communicable disease shall be reported immediately to the department and the local health department.

(3) The occurrence of poisoning, foodborne disease, foodborne poisoning, or diarrhea, where 2 or more persons, either residents or personnel, are affected, shall be reported immediately to the department and the local health department.

(4) The administrator or his designated representative shall furnish all available pertinent information related to such disease or poisoning to the department and the local health department.

(5) Immediate investigation of the cause of an accident or incident involving a resident, employee, or visitor shall be initiated by the administrator, and an appropriate accident record or incident report completed. This accident record or incident report shall be maintained in the administrator's office.

History: 1954 ACS 60, p. 16, Eff. Nov. 14, 1969.

R 325.1837 Deaths of residents.

Rule 37. When a resident dies, the administrator shall immediately notify the physician, the next of kin or legal guardian, and the person or agency responsible for placing and maintaining the resident in the home. A signed record of this notification including the names of the persons notified and the time notification was made shall be recorded and such record shall be maintained in the administrator's office.

History: 1954 ACS 60, p. 16, Eff. Nov. 14, 1969.

R 325.1839 Visitors and religious ministrations.

Rule 39. (1) Relatives and friends are allowed to visit residents at reasonable hours, to be determined by the administrator of the home.

(2) Religious ministration at the request of the resident or his family is permitted at reasonable hours.

History: 1954 ACS 60, p. 16, Eff. Nov. 14, 1969.

PART 4. RESIDENT CARE

R 325.1841 Personnel; general provisions.

Rule 41. (1) The feeling, attitudes, sensibility, and comfort of a resident shall be fully respected and given meticulous attention at all times by all personnel.

(2) Personnel shall wear clean garments, maintain a high degree of personal cleanliness, and conform to hygienic practices while on duty.

(3) The administrator of the home shall designate 1 person on each shift to be the supervisor of resident care during that shift, and the supervisor of resident care shall be fully dressed, awake, and on the premises when on duty.

(4) The supervisor of resident care on each shift shall:

(a) Assure that residents are treated with kindness and respect.

(b) Protect residents from accidents and injuries.

(c) Be responsible for safety of residents in case of emergency.

(5) A person shall not be assigned to duty as night supervisor of resident care who has been on duty either in the home or at any other place of business during the preceding 8 hours.

(6) A sufficient number of attendant personnel shall be on duty on each shift to assist residents with their personal care under the direction of the supervisor of resident care.

History: 1954 ACS 60, p. 17, Eff. Nov. 14, 1969.

R 325.1843 Personal care of residents.

Rule 43. (1) A resident shall have necessary assistance with personal care, including care of the skin, mouth and teeth, hands and feet, and the shampooing and grooming of the hair.

(2) A resident shall wash his hands before meals.

(3) A resident shall have a bath or shower at least once a week.

(4) A male resident shall be offered facilities for shaving at least daily.

History: 1954 ACS 60, p. 17, Eff. Nov. 14, 1969.

R 325.1845 Furniture.

Rule 45. (1) An individual bed at least 36 inches wide, with comfortable springs in good condition and a clean protected mattress not less than 5 inches thick, or 4 inches thick if of synthetic construction, shall be provided for a resident.

(2) A bedside stand or its equivalent shall be available for a resident for the storage of small personal articles.

History: 1954 ACS 60, p. 17, Eff. Nov. 14, 1969.

R 325.1847 Bedding, linens, and clothing.

Rule 47. (1) A resident bed shall have a mattress pad or equivalent protection on the mattress, a pillow, and shall be made with 2 sheets, a minimum of 1 blanket and a bedspread.

(2) Bedding shall be washable, in good condition and clean, and shall be changed at least weekly and more often as required.

(3) A cot or rollaway cot shall not be used as a resident bed.

(4) The linen supply shall be sufficient to furnish twice the number of resident beds for which the home is licensed. Additional linen shall be available as is required to meet the needs of a resident.

(5) A resident shall be supplied with clean clothing which shall be marked, laundered, ironed, and mended.

(6) The home shall make provision for the laundering of linens, clothing, and other washable goods.

(7) A clean individual towel and washcloth shall be provided on a towel rack near a bedside and shall be changed at least twice each week and more often if they become soiled.

(8) The room, bed, bedside stand, and bedside equipment shall be thoroughly cleaned and the bed linen changed following the discharge of each resident.

History: 1954 ACS 60, p. 17, Eff. Nov. 14, 1969.

PART 5. RECORDS

R 325.1851 Records; general.

Rule 51. A resident register, resident records, accident records and incident reports, and employee records and work schedules shall be kept in the home and shall be available to the director or his authorized representative.

History: 1954 ACS 60, p. 17, Eff. Nov. 14, 1969.

R 325.1853 Resident records.

Rule 53. (1) An individual resident record shall be provided for each resident in the home.

(2) It shall be the responsibility of the administrator of the home to assure that a current resident record is maintained and that all entries are dated and signed.

(3) The resident record shall include at least the following:

(a) Identifying information, including name, social security number, veteran status and number, marital status, age, sex, and home address.

(b) Name, address, and telephone number of next of kin or legal guardian.

(c) Name, address, and telephone number of person or agency responsible for the resident's maintenance and care in the home.

(d) Date of admission.

(e) Date of discharge and place to which resident was discharged.

(f) Health information, including physician reports and reports of diagnostic procedures.

(g) Name, address, and telephone number of resident's attending physician.

History: 1954 ACS 60, p. 18, Eff. Nov. 14, 1969.

R 325.1855 Resident registers.

Rule 55. A current register of residents shall be maintained and shall include the following information for each resident:

(a) Name, social security number, veteran status and number, marital status, age, sex, and home address.

(b) Name, address, and telephone number of next of kin or legal guardian.

(c) Name, address, and telephone number of person or agency responsible for resident's maintenance and care in the home.

(d) Date of admission, date of discharge, and place to which resident was discharged.

(e) Name, address, and telephone number of resident's attending physician.

History: 1954 ACS 60, p. 18, Eff. Nov. 14, 1969.

R 325.1857 Accident records and incident reports.

Rule 57. An accident record or incident report shall be prepared for each accident to a resident, personnel, and visitor, and shall include the following information:

(a) Name of person involved in accident or incident.

(b) Date, hour, place, and cause of accident or incident.

(c) Effect of accident or incident on person involved.

(d) Name of physician notified and time of notification.

(e) Physician's statement regarding extent of injuries, treatment ordered, and disposition of person involved.

(f) Corrective measures taken to avoid repetition of accident or incident.

History: 1954 ACS 60, p. 18, Eff. Nov. 14, 1969.

R 325.1859 Employee records and work schedules.

Rule 59. (1) A record shall be maintained for each employee in the home and shall include the following:

(a) Name, address, telephone number, and social security number.
(b) License or registration number, if applicable.
(c) Date of birth.
(d) Summary of experience and education.
(e) Beginning date of employment and position for which employed.
(f) References.
(g) Results of annual chest x-ray and intradermal skin test for tuberculosis.
(h) Date employment ceases and reasons therefor.

(2) A daily work schedule for employees shall be prepared in writing and shall be maintained to show the number and type of personnel on duty in the home for the previous 3 months.

History: 1954 ACS 60, p. 18, Eff. Nov. 14, 1969.

PART 6. FOOD SERVICE

R 325.1861 Nutritional need of residents.

Rule 61. The food and nutritional needs of a resident shall be met in accordance with the daily dietary allowances of the food and nutrition board of the national research council adjusted for age, sex, and activity, except as ordered by a physician.

History: 1954 ACS 60, p. 18, Eff. Nov. 14, 1969.

R 325.1863 Meals and special diets.

Rule 63. (1) At least 3 meals or their equivalent shall be served daily at regular times, with not more than a 14-hour span between a substantial evening meal and breakfast unless a substantial snack is served after the evening meal when this time span can be increased to 14¾ hours.

(2) Fluid, supplementary nourishments, and therapeutic or special diets ordered by a physician shall be provided as required.

(3) A meal shall be prepared and served in an appetizing and sanitary manner.

(4) A table or individual free-standing tray of table height shall be provided for a resident who does not go to a dining room.

History: 1954 ACS 60, p. 18, Eff. Nov. 14, 1969.

R 325.1865 Menus.

Rule 65. (1) The menu for regular and therapeutic or special diets for the current week shall be posted. Changes shall be written on the planned menu to show the menu as actually served.

(2) The menu as actually served to residents for the preceding 3 months shall be kept on file in the home.

History: 1954 ACS 60, p. 19, Eff. Nov. 14, 1969.

R 325.1867 Meal and food records.

Rule 67. A meal census, to include residents, personnel, and visitors, and a record of the kind and amount of food used for the preceding 3-month period shall be kept on file in the home.

History: 1954 ACS 60, p. 19, Eff. Nov. 14, 1969.

PART 7. BUILDINGS AND GROUNDS

R 325.1871 Plans and specifications.

Rule 71. (1) A floor plan of the home with description of rooms showing size, use, door locations, window area, and number of beds shall be on file in the home and at the department.

(2) Complete plans and specifications for new buildings, additions, major building changes, and conversion of existing facilities to use as a home shall be submitted to the department for review to assure compliance with the law and these rules.

(3) Plans and specifications meeting the requirements of the law and these rules shall be approved by the department.

(4) Construction of new buildings, additions, major building changes, and conversion of existing facilities to use as a home shall not begin until the plans and specifications have been approved by the department and a certificate of approval issued for such construction to begin.

History: 1954 ACS 60, p. 19, Eff. Nov. 14, 1969.

R 325.1872 Exteriors.

Rule 72. (1) The home shall be located in an area free from hazards to the health and safety of residents, personnel, and visitors.

(2) The premises shall be maintained in a safe and sanitary condition and in a manner consistent with the public health and welfare.

(3) Sufficient light for an exterior ramp, step, and porch shall be provided for the safety of persons using the facilities.

(4) An exterior step or ramp shall have a handrail on both sides. A porch shall have a railing on open sides.

History: 1954 ACS 60, p. 19, Eff. Nov. 14, 1969.

R 325.1873 Entrances for physically handicapped in certain homes.

Rule 73. In a new construction, addition, major building change, or conversion after the effective date of these rules, at least 1 entrance to the home shall provide easy access for the physically handicapped.

History: 1954 ACS 60, p. 19, Eff. Nov. 14, 1969.

R 325.1874 Interiors.

Rule 74. (1) A building shall be of safe construction and shall be free from hazards to residents, personnel, and visitors.

(2) A part of a building in use as a home shall not be used for any purpose which interferes with the care, well-being, and safety of residents, personnel, and visitors.

(3) An occupied room shall have a minimum ceiling height of 7 feet, 6 inches, except as hereinafter provided.

(4) Floor area under a part of a drop or slant ceiling which is less than 6½ feet from the floor shall not be used in computing the usable floor space or maximum number of beds allowed in any sleeping room.

(5) A bed and the working space around a bed shall not be directly under a part of a drop or slant ceiling which is less than 6½ feet from the floor.

(6) Each area of the home shall be provided with lighting commensurate with the use made of each area and in accord with generally recognized standards acceptable to the director.

(7) A stairway or ramp shall have a handrail on both sides.

(8) A room used for living or sleeping purposes shall have a minimum total window glass area on outside walls equal to 10% of the floor area of the room. Forty-five percent of this window glass area shall be openable unless the room is artificially ventilated.

(9) A room shall be provided with a type and amount of ventilation which will control odors and contribute to the comfort of occupants.

(10) A resident room shall open to a corridor, lobby, or day room. Traffic to and from any room shall not be through a sleeping room, kitchen, bathroom, toilet room, or storage room, except where a toilet room, bathroom, or storage room opens directly off the room or rooms which it serves.

(11) A doorway, passageway, corridor, hallway, or stairwell shall be kept free from obstructions at all times.

(12) A floor, wall, or ceiling shall be covered and finished in a manner that will permit maintenance of a sanitary environment.

(13) A basement shall be of such construction that it can be maintained in a dry and sanitary condition.

(14) A minimum of 15 square feet of floor space per resident bed shall be provided for day room, dining, recreation, and activity purposes.

(15) A basement or cellar shall not be used for sleeping or living quarters, except that recreation and activity space may be provided in a basement in addition to the 15 square feet per resident bed required in subrule (14).

(16) A room or compartment housing a water closet shall have a minimum width of 3 feet.

(17) Emergency electrical service as a minimum shall provide battery-operated lighting units sufficient to light corridors and exits.

(18) A functionally separate living, sleeping, dining, lavatory, water closet, and bathing facility shall be provided for personnel and members of their families who live on the premises.

History: 1954 ACS 60, p. 19, Eff. Nov. 14, 1969.

R 325.1875 Elevators and space requirements for certain homes.

Rule 75. A new construction, addition, major building change, or conversion after the effective date of these rules shall provide:

(a) An elevator, if resident bedrooms are situated upon more than 1 floor level. An elevator shall have a minimum cab size of 5 feet by 7 feet, 6 inches.

(b) A sleeping, day, dining, recreation, and activity room with a minimum ceiling height of 8 feet.

(c) In a room requiring windows, a clear unobstructed space having a minimum distance of 20 feet upon which the windows face. One additional foot shall be added to the minimum distance of 20 feet for each 2-foot rise above the first story up to a maximum of 40 feet of required unobstructed space.

(d) A minimum of 30 square feet of floor space per bed for day room, dining, recreation, and activity purposes.

History: 1954 ACS 60, p. 20, Eff. Nov. 14, 1969.

R 325.1876 Public and personnel areas.

Rule 76. (1) A lobby or waiting area for visitors shall be functionally separate from resident care units.

(2) A public lavatory and water closet shall be provided and located convenient to the lobby or waiting area.

(3) Office space shall be provided for the administrator.

(4) Separate dressing rooms shall be provided for male and female employees. A lavatory and water closet shall be convenient to the dressing rooms.

History: 1954 ACS 60, p. 20, Eff. Nov. 14, 1969.

R 325.1877 Resident rooms and units.

Rule 77. (1) A resident bedroom shall have the floor surface at or above grade level along exterior walls with windows.

(2) A single resident room shall have at least 80 square feet of usable floor space.

(3) A multi-bed resident room shall have at least 70 square feet of usable floor space per bed, except that a multi-bed resident room in a home licensed prior to November 15, 1957, and remaining continuously licensed since that date shall have at least 60 square feet of usable floor space per resident bed until January 1, 1975, at which time it shall meet the 70 square feet requirement.

(4) A toilet room or closet shall not be included in usable floor space.

(5) A multi-bed resident room shall have a 3-foot clearance between beds.

(6) A resident room shall have at least 2 duplex electrical receptacles at least 1 of which shall be near the head of each bed.

(7) A resident unit shall have space for storage of clean linen, equipment, and supplies.

(8) Each resident unit shall have a janitor's closet.

History: 1954 ACS 60, p. 20, Eff. Nov. 14, 1969.

R 325.1878 Toilet and bathing facilities.

Rule 78. (1) Resident toilet facilities shall be located in separate rooms or stalls and shall be provided in the ratio of 1 lavatory and water closet for every 8 resident beds per floor.

(2) A bathing facility shall be provided for every 15 resident beds.

(3) A water closet or bathing facility shall have substantially secured grab bars at least 1 foot long.

(4) A resident toilet room or bathroom shall not be used for storage or housekeeping functions.

History: 1954 ACS 60, p. 21, Eff. Nov. 14, 1969.

R 325.1879 Additional resident area requirements in certain homes.

Rule 79. A new construction, addition, major building change, or conversion after the effective date of these rules shall provide:

(a) A resident room with not more than 4 beds.

(b) A minimum of 100 square feet of usable floor space in single resident rooms.

(c) A minimum of 80 square feet of usable floor space per bed in multi-bed resident rooms.

(d) A resident room shall provide a minimum of 5 square feet of floor space per bed for wardrobe and closet in addition to other requirements for usable floor space per bed. A toilet room or vestibule shall not be included in usable floor space.

(e) A bedroom shall permit the functional placement of furniture and equipment essential to resident comfort and safety.

History: 1954 ACS 60, p. 21, Eff. Nov. 14, 1969.

R 325.1880 Water supply systems.

Rule 80. (1) A home located in an area served by a public water system shall connect to and use that system.

(2) When a public water system is not available, the location and construction of a well and the operation of the private water system shall comply with the Michigan department of public health regulations "Minimum Standards for the Location and Construction of Certain Water Supplies," being R 325.1451 to R 325.1461 of the Michigan Administrative Code.

(3) A home using a private water system shall take at least 1 water sample for bacteriologic testing each 3 months and shall submit the sample to the department laboratory, or to a laboratory approved by the department, for examination. The administrator shall report all unsatisfactory examination results to the department within 72 hours of receipt of the report.

(4) A home with 30 beds or more served by a private water system shall provide a secondary well or other reserve source of water.

(5) A physical cross-connection shall not exist between water systems that are safe for human consumption and those that are, or may at any time become, unsafe for human consumption.

(6) Minimum water pressure available to each plumbing fixture shall exceed 20 pounds per square inch.

(7) The plumbing system shall be designed and maintained so that the possibility of back flow or back siphonage is eliminated.

(8) The plumbing system shall supply an adequate amount of hot water at all times to meet the needs of each resident and the functioning of the various service areas.

(9) The temperature of hot water at plumbing fixtures used by residents shall be regulated to provide tempered water not exceeding 110 degrees Fahrenheit.

History: 1954 ACS 60, p. 21, Eff. Nov. 14, 1969.

R 325.1881 Liquid wastes.

Rule 81. (1) Liquid wastes shall be discharged into a public sanitary sewage system when such a system is available.

(2) When a public sanitary sewage system is not available and a private liquid waste water disposal system is used, the type, size, construction, alteration of, or major repairs to the system shall be approved by the department.

(3) The waste water disposal system shall be maintained in a sanitary manner.

History: 1954 ACS 60, p. 22, Eff. Nov. 14, 1969.

R 325.1882 Solid wastes.

Rule 82. (1) The collection, storage, and disposal of solid wastes, including garbage and refuse, shall be accomplished in a manner which will minimize the danger of disease transmission and avoid creating a public nuisance or a breeding place for insects and rodents.

(2) Suitable containers for garbage, refuse, and other solid wastes shall be provided and emptied at frequent intervals and maintained in a clean and sanitary condition.

History: 1954 ACS 60, p. 22, Eff. Nov. 14, 1969.

R 325.1883 Heating.

Rule 83. (1) A home shall provide a safe heating system.

(2) A room in the home used by residents shall be maintained at a regular daytime temperature of at least 72 degrees Fahrenheit measured at a level of 3 feet above the floor.

History: 1954 ACS 60, p. 22, Eff. Nov. 14, 1969.

R 325.1884 Laundry and linen.

Rule 84. (1) A home that processes its own linen shall provide a well ventilated laundry of sufficient size which shall be equipped to meet the needs of the home.

(2) A home that uses a commercial or other outside laundry facility shall have a soiled linen storage room and a separate clean linen storage room.

History: 1954 ACS 60, p. 22, Eff. Nov. 14, 1969.

R 325.1885 Laundry and linen requirements in certain homes.

Rule 85. A new construction, addition, major building change, or conversion after the effective date of these rules shall provide:

(a) A separate soiled linen storage room.

(b) A separate clean linen storage room.

(c) A separate laundry processing room with a lavatory for handwashing in the area in a home that processes its own linen.

(d) Commercial laundry equipment with a capacity to meet the needs of the home in a home that processes its own linen.

History: 1954 ACS 60, p. 22, Eff. Nov. 14, 1969.

R 325.1886 Kitchen and dietary.

Rule 86. (1) A home shall have a kitchen and dietary area of adequate size to meet food service needs of residents. It shall be arranged and equipped for the refrigeration, storage, preparation, and serving of food, as well as for dish and utensil cleaning and refuse storage and removal.

(2) The kitchen and dietary area shall be equipped with a lavatory for handwashing. Each lavatory shall have a goose neck inlet and wrist, knee, or foot control. Soap and single service towels shall be available for use at each lavatory.

(3) The kitchen and dietary area shall be restricted to kitchen and dietary activities.

(4) Separate personnel dining space shall be provided.

(5) The kitchen and dietary area, as well as all food being stored, prepared, served, or transported, shall be protected against potential contamination from dust, flies, insects, vermin, overhead sewer lines, and other sources.

(6) Food and drink used in the home shall be clean and wholesome and shall be manufactured, handled, stored, prepared, transported, and served so as to be safe for human consumption.

(7) Perishable foods shall be stored at temperatures which will protect against spoilage.

(8) A reliable thermometer shall be provided for each refrigerator and freezer.

(9) An individual portion of food which is served and not eaten shall be destroyed.

(10) A separate storage area for poisonous material shall be provided away from food service and food storage areas. Poisonous material shall be identified as such and shall be used only in a manner and under such conditions that it will not contaminate food or constitute a hazard to residents, personnel, or visitors.

(11) Food service equipment and multi-use utensils shall be of such design and material as to be smooth, easily cleanable, and durable.

(12) Food service equipment and work surfaces shall be installed in such a manner as to facilitate cleaning and be maintained in a clean and sanitary condition, and in good repair.

(13) A multi-use utensil used in food storage, preparation, transport, or serving shall be thoroughly cleaned and sanitized after each use and shall be handled and stored in a manner which will protect it from contamination.

(14) A single service eating or drinking article shall be stored, handled, and dispensed in a sanitary manner and shall be used only once.

(15) Ice used in the home for any purpose shall be manufactured, stored, transported, and handled in a sanitary manner.

(16) A storage area for housekeeping items and a janitor's closet shall be provided convenient to the kitchen and dietary area.

History: 1954 ACS 60, p. 22, Eff. Nov. 14, 1969.

R 325.1887 Kitchen and dietary area ventilation in certain homes.

Rule 87. In a new construction, addition, major change, or conversion after the effective date of these rules, the design and operation of the filtered make-up air and exhaust air system in the kitchen and dietary area shall be adequate for the comfort of employees and control of odors, and shall minimize the danger of disease transmission.

History: 1954 ACS 60, p. 23, Eff. Nov. 14, 1969.

R 325.1888 Insect and vermin control.

Rule 88. (1) A home shall be kept free from insects and vermin.

(2) Breeding places for insects and vermin shall be eliminated from a home.

(3) Insect and vermin control procedures involving the use of insecticides or pesticides shall be carried out in a manner consistent with the health and safety of patients, personnel, and visitors.

History: 1954 ACS 60, p. 23, Eff. Nov. 14, 1969.

R 325.1889 General maintenance and storage.

Rule 89. (1) The building, equipment, and furniture shall be kept clean and in good repair.

(2) A room shall be provided in the home or on the premises for equipment and furniture maintenance and repair, and storage of maintenance equipment and supplies.

(3) Hazardous and toxic materials shall be stored in a safe manner.

History: 1954 ACS 60, p. 23, Eff. Nov. 14, 1969.

R 325.1890 Soap and towels.

Rule 90. Soap and single use towels shall be available for the use of personnel and visitors. Use of the common towel is prohibited.

History: 1954 ACS 60, p. 23, Eff. Nov. 14, 1969.

PART 8. EMERGENCY PROCEDURES

R 325.1891 Disaster plans.

Rule 91. (1) A home shall have a written plan of procedure to be followed in case of fire, explosion, or other emergency.

(2) A disaster plan shall be posted and shall specify persons to be notified, locations of alarm signals and fire extinguishers, evacuation routes, procedures for

NURSING HOMES

(By authority conferred on the director of public health by section 7 of Act No. 146 of the Public Acts of 1919, as amended, sections 3 and 6 of Act No. 139 of the Public Acts of 1956, and Act No. 280 of the Public Acts of 1939, as amended, being §§325.7, 331.653, 331.656, and 400.1 to 400.90 of the Michigan Compiled Laws)

PART 1. DEFINITIONS

R 325.1901 Definitions.

Rule 1. (1) The terms used in these rules have the same meaning as defined in the act.

(2) "Act" means Act No. 139 of the Public Acts of 1956, as amended, being §§331.651 to 331.660 of the Michigan Compiled Laws.

(3) "Department" means the department of public health.

(4) "Director" means the director of public health.

(5) "Advisory committee" means the director's advisory committee on nursing homes and homes for the aged.

(6) "Home" means a nursing home.

(7) "Basic nursing home" means a home that complies with all the rules herein contained, excepting the additional rules applicable only to skilled homes, child care homes, and child care units, is licensed and is certified by the department to the department of social services.

(8) "Skilled nursing home" or "skilled nursing facility" for purposes of participation in the state's medical assistance (medicaid) program means a nursing home, county medical care facility, hospital long-term care unit, or distinct part of any of them that complies with 1 of the following:

(a) It is certified by the federal secretary of health, education, and welfare as a "skilled nursing facility" and thereby eligible for participation in the federal medicare and the state's medical assistance (medicaid) programs.

(b) It is licensed under applicable law and certified by the director of public health to the director of social services as meeting standards not less stringent than those required pursuant to subrule (1)(a) of R 325.1928.

(9) "Child care home" means a nursing home that is designed, staffed, and equipped exclusively to accommodate patients under 15 years of age who do not require hospital care but who are in need of nursing care and cannot be cared for satisfactorily in their own homes or home substitutes.

(10) "Child care unit" means a clearly identifiable, separate area or section within a licensed home that is designed, staffed, and equipped to accommodate a specific number of patients under 15 years of age.

(11) "Child" means a person under 15 years of age.

(12) "Distinct part" means a clearly identifiable area or section within a licensed home consisting of at least a nursing unit, wing, floor, or building containing contiguous rooms providing a specific type or level of care and service. Appropriate personnel are regularly assigned and working in the distinct part

under qualified direction. The distinct part may share services, such as management services, building maintenance, and laundry, with other units.

History: 1954 ACS 60, p. 24, Eff. Nov. 14, 1969; 1954 ACS 77, p. 46, Eff. Dec. 6, 1973.

R 325.1909 Rescission.

Rule 9. The rules for nursing homes and homes for the aged, being R 325.1221 to R 325.1276 of the Michigan Administrative Code and appearing on pages 388-401 of the 1957 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 60, p. 24, Eff. Nov. 14, 1969.

PART 2. STATE ADMINISTRATION

R 325.1911 License applications; authorized representatives; notices.

Rule 11. (1) An application for a license for a home shall be made on forms authorized and provided by the director and shall be completed in full.

(2) An application for a license for a home shall be made and signed by the individual desiring to establish, conduct, or maintain a licensed home, or by the authorized representative of any individual, copartnership, corporation, or association, including any receiver, trustee, assignee, or similar representative thereof, desiring to establish, conduct, or maintain a licensed home.

(3) An authorized representative shall be authorized by the applicant to make application and amendments to the application; to provide the director with all information necessary to his determination made in connection with the issuance of a license; and to enter into agreements with the director in connection with the issuance of a license.

(4) A certificate of appointment or other written evidence of the authority vested in the authorized representative shall be attached to the application.

(5) In matters relating to the licensing of the home, the director may continue to deal with the authorized representative until notified in writing that a new authorized representative has been appointed with equal power and the former authorized representative is no longer authorized to act.

(6) The director may use any appropriate means of notice and may direct notices of any administrative action pursuant to licensing of the home to the applicant or the authorized representative, either personally or by mail at the address of the establishment or institution.

History: 1954 ACS 60, p. 24, Eff. Nov. 14, 1969.

R 325.1912 Licenses, permits, and certifications; issuance.

Rule 12. (1) Upon determination that the home complies with the act and these rules, the director shall issue a license.

(2) The director may issue a provisional license or a temporary unrenewable permit or may deny a license or temporary unrenewable permit in accord with his powers and these rules.

(3) The director, upon issuing a provisional license or denying a license, shall give the applicant or the authorized representative written notice of his action and the reasons therefor.

(4) The director may issue a temporary unrenewable permit for a period not to exceed 6 months when:

(a) He has been presented with evidence that is satisfactory to him that a license can be granted to the applicant within the period of the permit and such application has been made following new construction or change of ownership; or

(b) He has received a recommendation from the state fire marshal that he issue a temporary unrenewable permit.

(5) The director shall cause to have indorsed on the license, provisional license or temporary unrenewable permit the number of patient beds for which the license or permit is issued.

(6) An establishment or institution issued a license, provisional license or temporary unrenewable permit as a home, without regard to any other license, is subject to the standards required for homes for the authorized number of patient beds for which the license or permit is issued.

(7) When the applicant for a license for a home desires a certification for all of the home, or a distinct part or parts thereof to the Michigan department of social services in accordance with Act No. 280 of the Public Acts of 1939, as amended, being §§400.1 to 400.112 of the Michigan Compiled Laws, his application shall so indicate and information required therefor shall be supplied to the director.

(8) The director shall determine in conjunction with applications complying with subrule (7), whether the home complies with the requirements for a basic home or a skilled home and he shall cause a separate certificate to be issued, causing to be indorsed thereon the unit or units being certified and the matter of certification applicable thereto whether a basic nursing home or a skilled nursing home. Units in a home may be separately certified.

(9) The director shall not cause the indorsement to be made as set forth in subrule (8), nor shall he certify the home to the Michigan department of social services when:

(a) A license is not issued in conjunction with the indorsement.

(b) A provisional license is issued.

(c) A temporary unrenewable permit is issued upon recommendation of the state fire marshal.

(d) The director determines that the home shall not be indorsed in accordance with subrule (8).

(10) When a certificate is issued in accordance with subrule (8), it shall be considered an action independent of the license and the certification may be reviewed, suspended, or revoked for noncompliance with 1 or more rules applicable to basic nursing homes and skilled nursing homes as theretofore certified or for such a change in licensure for which the director shall not cause indorsement to be made as required by this rule.

(11) Where the director has indorsed the certificate in accordance with subrule (8), he shall notify the Michigan department of social services and such notice shall constitute a certification of the facts therein contained.

History: 1954 ACS 60, p. 25, Eff. Nov. 14, 1969.

R 325.1913 Licenses and permits; general provisions.

Rule 13. (1) A license, provisional license, or temporary unrenewable permit is not transferable between owners, or from 1 location to another, or from 1 part of an institution to another.

(2) The applicant or the authorized representative shall give written notice to the department within 5 business days of any change in information as submitted in the application pursuant to which a license, provisional license, or temporary unrenewable permit has issued.

(3) The number of patients cared for in a home and the complement of patient beds shall not exceed the number authorized by the license, provisional license, or temporary unrenewable permit.

(4) The current license, provisional license, or temporary unrenewable permit shall be posted in a conspicuous public area of the home.

R 325.1914 Standards for and certification of basic nursing facilities.

Rule 14. A licensed nursing home, county medical care facility, hospital long-term care unit, or distinct part of any of them shall, at the facility's request, be certified by the director of public health to the director of social services as a basic nursing facility and provider of intermediate care when it is determined by the director of public health on the basis of facility survey and evaluation that the facility complies with applicable federal standards for intermediate care facilities. Such regulations are incorporated herein by reference and the most recent and currently applicable copies of same are available without charge as of the effective date of this rule from the Social and Rehabilitation Service, United States Department of Health, Education and Welfare, Washington, D.C., and the Bureau of Health Facilities, Michigan Department of Public Health, 3500 North Logan Street, Lansing, Michigan 48914.

History: 1954 ACS 84, p. 33, Eff. Aug. 26, 1975.

R 325.1915 Hearing requests.

Rule 15. A party in interest to the application for or issuance of a license, provisional license, temporary unrenewable permit or a certificate aggrieved by an order of the director may file a written request for a hearing with the director which shall be accompanied by a written statement setting forth the reasons for the request and, where appropriate, affirming or denying each item of noncompliance listed in conjunction with the order. However, nothing contained herein shall interfere with the director in emergency situations involving the public health or welfare from making orders immediately effective, or taking action summarily, or issuing such interim orders as he deems necessary pending final determination of a contested order.

History: 1954 ACS 60, p. 26, Eff. Nov. 14, 1969.

R 325.1916 Hearing procedure.

Rule 16. A hearing shall be held at the offices of the department at Lansing, Michigan or such other place as the director may designate. Notice of hearing shall state the date, time, place, and a brief statement of the problems involved and shall be mailed to, or served personally upon, the party in interest requesting the hearing at least 15 days prior thereto.

History: 1954 ACS 60, p. 26, Eff Nov. 14, 1969.

R 325.1919 Prohibited use of words "state approved" and "hospital."

Rule 19. (1) The use of the words "state approved" or words having a similar meaning is prohibited unless the home is operated under a current license.

(2) The use of the word "hospital" or words having a similar meaning is prohibited.

History: 1954 ACS 60, p. 26, Eff. Nov. 14, 1969.

R 325.1923 Advisory committee on nursing homes and homes for the aged.

Rule 23. (1) The advisory committee in existence when these rules become effective is continued.

(2) The advisory committee shall advise the director on matters, related to the home licensing program, which he places before it for consideration. The director may take into consideration, in his determinations, any recommendations of the advisory committee.

(3) The terms of members of the advisory committee shall terminate in accord with their appointment. Appointments thereafter made shall be for a 3-year term.

(4) The committee shall be appointed by the director and shall consist of 15 persons representing the management of nursing homes and homes for the aged, state and county government, and the public at large.

History: 1954 ACS 60, p. 26, Eff. Nov. 14, 1969.

R 325.1925 Delegation of inspections.

Rule 25. The director may delegate the inspection of homes to a local health department, and shall establish procedures and policies concerning such delegation.

History: 1954 ACS 60, p. 27, Eff. Nov. 14, 1969.

R 325.1927 Compliance with other laws, codes, and ordinances.

Rule 27. A home shall comply with all applicable state laws and shall furnish such evidence as the director shall require to show compliance with all applicable local laws, codes, and ordinances.

History: 1954 ACS 60, p. 27, Eff. Nov. 14, 1969.

R 325.1928 Standards for and certification of skilled nursing facilities.

Rule 28. (1) A licensed nursing home, county medical care facility, hospital long-term care unit, or distinct part of any of them shall at the facility's request be certified by the director of public health to the director of social services as a skilled nursing facility when it is determined by the director of public health on the basis of facility survey and evaluation that the facility:

(a) Complies with the federal skilled nursing facility standards in the regulations of the United States department of health, education, and welfare entitled "Conditions of Participation; Extended Care Facilities," dated February, 1970, and in a revision thereof under the same or a similar title to be issued in 1973 or 1974, as of the date such revision is effective. These regulations are incorporated herein by reference and are available without charge as of the effective date of this rule from the Social Security Administration, Washington, D.C., and the Bureau of Health Facilities, Michigan Department of Public Health, 3500 North Logan Street, Lansing, Michigan 48914.

(b) Complies with provisions of the life safety code 101 of the national fire protection association (21st edition, 1967) applicable to nursing homes which are incorporated herein by reference. The code is available at a cost of $2.00 as of the effective date of this rule from the National Fire Protection Association, 60 Batterymarch Street, Boston, Massachusetts 02110, and the Bureau of Health Facilities, Michigan Department of Public Health, 3500 North Logan Street, Lansing, Michigan 48914.

(2) The requirement in the regulations referred to in subrule (1)(a) that a skilled nursing facility for certification shall have a "sufficient number of nursing personnel on duty" means that it shall have at least 1 licensed nurse on duty on a shift for each 64 patients or fraction thereof on the day shift, each 96 patients or fraction thereof on the afternoon shift, and each 120 patients or fraction thereof on the night shift.

History: 1954 ACS 77, p. 46, Eff. Dec. 6, 1973.

PART 3. ADMINISTRATIVE MANAGEMENT OF HOMES

R 325.1931 Governing bodies, administrators, and supervisors.

Rule 31. (1) A governing body shall assume full legal responsibility for the overall conduct and operation of the home, or, in the absence of an organized

governing body, the owner or person legally responsible for the overall conduct and operation of the home shall carry out the functions of the governing body.

(2) The governing body shall appoint a competent administrator and shall delegate to him responsibility for operating the home in accordance with policies established by the governing body.

(3) An administrator and all other persons in supervisory positions shall be at least 18 years of age.

(4) An administrator shall designate in writing a competent person at least 18 years of age to carry out the responsibilities and duties of the administrator in his absence.

History: 1954 ACS 60, p. 27, Eff. Nov. 14, 1969; 1954 ACS 77, p. 47, Eff. Dec. 6, 1973.

R 325.1933 Admission and retention of patients.

Rule 33. (1) A patient shall not be admitted to a home except on the recommendation and referral of a licensed physician.

(2) A home shall not accept for care a patient with a mental condition disturbing to other patients or personnel. A patient who, after admission to the home, shows serious mental disturbances shall be removed from the home.

(3) A home shall not accept for care a patient who is not at least 15 years of age unless that home is specifically licensed and approved by the director to accept children as patients, except that the director, upon written application by a child's parent or guardian and written recommendation by a child's physician, may authorize a child's admission to a home not so licensed when the director shall determine that there is no licensed child care home or child care unit in the service area as defined by the department and the admission is in the interest of the child's health and welfare.

History: 1954 ACS 60, p. 27, Eff. Nov. 14, 1969.

R 325.1935 Employees' health.

Rule 35. (1) A person on duty in the home shall be in good health and free from communicable disease. Files shall be maintained containing evidence of adequate health supervision, such as results of pre-employment and periodic physical examinations, including intradermal skin tests for tuberculosis and chest x-rays, and records of illnesses and accidents occurring on duty.

(2) An employee shall have a chest x-ray and an intradermal skin test for tuberculosis at the beginning of his term of employment. At intervals of 1 year thereafter, an employee shall have an intradermal skin test for tuberculosis. If, at any time, this skin test is positive, no annual repetition of this skin test shall be made, but the employee shall thereafter have an annual chest x-ray. A report of the results of such tests shall be included in the individual employee's personnel file.

History: 1954 ACS 60, p. 27, Eff. Nov. 14, 1969.

R 325.1936 Illnesses and accidents.

Rule 36. (1) In case of an accident or sudden change in patient condition, the administrator or his designated representative shall immediately notify the physician, the next of kin or legal guardian, and the person or agency responsible for placing and maintaining the patient in the home.

(2) The occurrence of a communicable disease shall be reported immediately to the department and the local health department.

(3) The occurrence of poisoning, foodborne disease, foodborne poisoning, or diarrhea where 2 or more persons, either patients or personnel, are affected, shall be reported immediately to the department and the local health department.

PART 4. PATIENT CARE

R 325.1941 General provisions.

Rule 41. The feelings, attitude, sensibility, and comfort of a patient shall be fully respected and given meticulous attention at all times by all personnel.

History: 1954 ACS 60, p. 28, Eff. Nov. 14, 1969.

R 325.1942 Policies.

Rule 42. (1) The home shall have and implement a written policy governing the nursing care and other services provided to a patient.

(2) The policy shall be developed with the advice and assistance of a professional policy group, consisting of at least 1 licensed physician and the director of nursing.

(3) The policy shall be reviewed at least annually and amended as necessary to meet the needs of a patient in the home.

(4) The policy shall cover at least the following:

(a) Admission, discharge, and transfer of patients.

(b) Categories of patients accepted and not accepted by the home.

(c) Physician services.

(d) Nursing services.

(e) Dietary services.

(f) Restorative services.

(g) Pharmaceutical services.

(h) Diagnostic services.

(i) Care of patients in an emergency, during a communicable disease episode, when critically ill or when mentally disturbed.

PART 5. PHYSICIAN SERVICES

R 325.1951 Medical direction of patients.

Rule 51. (1) The care of a patient admitted to a home shall be under the continuing direction of a licensed physician except as exempted in section 9 of the act.

(2) The administrator of the home shall be responsible for promptly arranging for this continuing medical direction and necessary medical care by a licensed physician.

(3) The name and telephone number of the licensed physician to be called in case of emergency when the patient's attending physician is not available shall be posted at each nursing station.

History: 1954 ACS 60, p. 29, Eff. Nov. 14, 1969.

R 325.1952 Medical examinations of patients.

Rule 52. (1) A patient admitted to a home shall be examined by a licensed physician within 72 hours after admission, unless the patient has been examined by a licensed physician within 5 days before admission and a copy of that examination is available in the home at the time of the patient's admission.

(2) A written record of the examination with diagnosis and treatment plan shall appear in the patient's clinical record.

(3) The examination shall include a chest x-ray, unless a chest x-ray has been taken within 3 months of admission and a report of the results of that x-ray examination is available in the home at the time of the patient's admission.

(4) A written report of the x-ray examination shall appear in the patient's clinical record.

R 325.1953 Medical visitation of patients.

Rule 53. A patient shall be seen by a licensed physician at least every 90 days and a record of each visit with pertinent clinical observations shall be recorded in the patient's clinical record by the physician.

History: 1954 ACS 60, p. 29, Eff. Nov. 14, 1969.

R 325.1954 Treatment of patients.

Rule 54. (1) Treatment rendered to a patient shall be in accordance with the specific or standing written orders of a licensed physician. Standing orders shall be reproduced in the patient's clinical record and signed by the physician.

(2) Telephone or other verbal orders from the physician shall be written on the patient's clinical record by the nurse in charge and signed by her. Telephone or other verbal orders recorded by the nurse in charge shall be countersigned by the physician within 72 hours.

History: 1954 ACS 60, p. 29, Eff. Nov. 14, 1969.

R 325.1957, R 325.1958 Rescinded.

History: 1954 ACS 60, p. 30, Eff. Nov. 14, 1969; rescinded 1954 ACS 77, p. 46, Eff. Dec. 6, 1973.

R 325.1959 Utilization review plans.

Rule 59. (1) A utilization review plan shall provide for a review, on a sample or other basis, of the following with respect to the medical necessity of each and to assure the efficient utilization of a home and its services:

(a) Admissions.

(b) Duration of stays.

(c) Professional services provided to a patient.

(2) A utilization review plan shall be in writing and shall describe and provide for the following:

(a) Organization and composition of a utilization review committee to include at least 2 physicians, 1 of whom shall not have a financial interest in the home.

(b) Frequency of meeting.

(c) Type of records to be kept.

(d) Method to be used in selecting cases for review on a sample or other basis.

(e) A definition of extended duration of stay.

(f) Relationship of the utilization review plan and the committee responsible for the utilization review program to claims administration by a third party or a fiscal intermediary.

(g) Arrangements for preparation and dissemination of a committee report.

(h) Administrative services to the utilization review committee.

History: 1954 ACS 60, p. 30, Eff. Nov. 14, 1969.

PART 6. NURSING SERVICES

R 325.1961 Personnel; general provisions.

Rule 61. (1) A person employed in the home to give nursing care shall be at least 17 years of age.

(2) A person employed in the home to give nursing care on the night shift shall be at least 18 years of age.

(3) A person shall not be assigned to duty on the night shift who has been on duty either in the home or at any other place of business during the preceding 8 hours.

(4) A member of the nursing staff shall not be deemed to be on duty unless awake, fully dressed, and on the premises.

(5) A person designated as a full-time member of the nursing staff shall not be engaged in providing basic services, such as food preparation, housekeeping, laundry, or maintenance services.

(6) The administrator of the home shall not serve as the director of nursing or a member of the nursing staff in homes of 30 or more beds.

(7) In homes of 30 or more beds, the director of nursing shall not be counted in the number of nursing personnel required to meet the minimums specified for each shift in these rules.

(8) The home shall employ sufficient nursing personnel to provide continuous 24-hour nursing care and services sufficient to meet the nursing needs of each patient in the home.

(9) A continuing in-service educational program shall be provided for all nursing personnel and a thorough job orientation for new personnel.

History: 1954 ACS 60, p. 30, Eff. Nov. 14, 1969.

R 325.1962 Personnel; supervision and number.

Rule 62. (1) Nursing personnel employed in the home shall be under the direction of a registered nurse or licensed practical nurse who shall be known as the director of nursing.

(2) The director of nursing shall be on duty 8 hours per day during the daytime and 40 hours per week.

(3) The staff of nursing personnel employed in the home and engaged in the direct care, treatment, and supervision of patients shall include the following:

(a) For the work period commonly termed the morning shift (approximately 7 a.m. to 3 p.m.), there shall be nursing personnel in the ratio of 1 for each 8 patients or fraction thereof, except that in a home of 50 beds or less it shall be a major fraction thereof.

(b) For the afternoon shift (approximately 3 p.m. to 11 p.m.), there shall be nursing personnel in the ratio of 1 for each 12 patients or fraction thereof, except that in a home of 50 beds or less it shall be a major fraction thereof.

(c) For the night shift (approximately 11 p.m. to 7 a.m.), there shall be nursing personnel in the ratio of 1 for each 15 patients or fraction thereof, except that in a home of 50 beds or less it shall be a major fraction thereof.

(4) Additional nursing personnel shall be provided for each shift, over and above the minimums specified in these rules, as is necessary to care adequately for and meet the nursing needs of each patient in the home.

History: 1954 ACS 60, p. 30, Eff. Nov. 14, 1969.

R 325.1963 Rescinded.

History: 1954 ACS 60, p. 31, Eff. Nov. 14, 1969; rescinded 1954 ACS 77, p. 46, Eff. Dec. 6, 1973.

R 325.1964 Personal care and services.

Rule 64. (1) Nursing care and services shall include the following:

(a) Care of skin, mouth, teeth, hands, and feet, and shampooing and grooming of hair.

(b) Prevention and treatment of skin irritation and decubiti.

(c) Washing of hands and face of a patient before and after all meals and snacks.

(d) Facilities for shaving for a male patient or, if assistance is required, shaving as often as necessary for comfort and appearance unless the patient or the physician writes an order to the contrary.

(e) A complete tub bath or shower taken by or given to an ambulatory patient, under supervision, at least once each week, unless the physician orders otherwise.

(f) A complete bath given at least twice a week to a bed patient, unless the physician orders otherwise.

(g) Immediate changes of clothing and bedding of a patient upon becoming wet.

(2) The clothing of each patient shall be marked, laundered, ironed, mended, and stored individually for each patient.

History: 1954 ACS 60, p. 31, Eff. Nov. 14, 1969.

R 325.1965 Equipment and facilities.

Rule 65. (1) A flameproof cubicle curtain, or its equivalent, which shall be used to insure privacy, shall be provided for a patient.

(2) An individual bed at least 36 inches wide, with comfortable springs in good condition, a clean protected mattress not less than 5 inches thick, or 4 inches thick if of synthetic construction, a pillow, an available reading light and a comfortable chair shall be provided for a patient.

(3) A bedside stand designed to hold bedside nursing equipment and small personal articles shall be provided for a patient.

(4) A sufficient supply of washbasins, mouthwash cups, denture cups, emesis basins, bedpans and urinals shall be available in the home so that a patient requiring same may have 1 assigned to him for individual use.

(5) A sufficient supply of oral and rectal clinical thermometers shall be provided in the home, and cleaned in accordance with procedures approved by the department.

(6) A bedpan or urinal shall be washed immediately after use.

(7) Individual personal equipment shall not be transferred from 1 patient to another without being thoroughly disinfected.

(8) Single service or disposable equipment shall be stored, handled and dispensed in a sanitary manner, and shall be used only once.

(9) A cot or rollaway cot shall not be used as a patient bed.

(10) A patient shall be provided with clean linen and clean clothing.

(11) The linen supply shall be sufficient to furnish twice the number of patient beds for which the home is licensed. Additional linen shall be available as is required to meet the nursing needs of a patient.

(12) A clean individual towel and washcloth shall be provided on a towel rack near a bedside and shall be changed at least every other day and more often if they become soiled.

(13) A mattress pad or its equivalent, a bedspread and a minimum of 1 blanket shall be on each bed and each bed shall be made daily with 2 sheets.

(14) Bed linen shall be changed as necessary and at least twice weekly for a bed patient and at least weekly for an ambulatory patient.

History: 1954 ACS 60, p. 31, Eff. Nov. 14, 1969.

R 325.1967 Rescinded.

History: 1954 ACS 60, p. 32, Eff. Nov. 14, 1969; rescinded 1954 ACS 77, p. 46, Eff. Dec. 6, 1973.

R 325.1968 Restorative services.

Rule 68. (1) The nursing personnel in each home shall be sufficiently skilled in the techniques of restorative nursing to carry out the following procedures and shall have the necessary equipment available:

(a) Bed positioning.

(b) Preventive skin care.
(c) Transfer.
(d) Range of motion.
(e) Training in self care; feeding, dressing, grooming, and toilet activities.
(2) A sufficient supply of wheelchairs, walkers, crutches and canes shall be available to meet the needs of patients requiring them.

History: 1954 ACS 60, p. 32, Eff. Nov. 14, 1969.

R 325.1969 Rescinded.

History: 1954 ACS 60, p. 32, Eff. Nov. 14, 1969; rescinded 1954 ACS 77, p. 46, Eff. Dec. 6, 1973.

PART 7. FOOD SERVICES

R 325.1971 Nutritional needs of patients.

Rule 71. Food and nutritional needs of a patient shall be met in accordance with the physician's orders and the recommended daily dietary allowances of the food and nutrition board of the national research council adjusted for age, sex, and activity, except as ordered by the physician.

History: 1954 ACS 60, p. 32, Eff. Nov. 14, 1969.

R 325.1972 Meals and special diets.

Rule 72. (1) At least 3 meals or their equivalent shall be served daily at regular times, with not more than a 14-hour span between a substantial evening meal and breakfast unless a substantial snack is served after the evening meal when this time span can be increased to 14¾ hours.
(2) Therapeutic or special diets shall be provided upon written prescription of the physician.
(3) Supplementary fluids and special nourishments as required shall be provided.
(4) A meal shall be prepared and served in an appetizing and sanitary manner.
(5) A table or individual free-standing tray of table height shall be provided for a patient who is able to be out of bed to eat, but who does not go to a dining room.

History: 1954 ACS 60, p. 32, Eff. Nov. 14, 1969.

R 325.1973 Menus.

Rule 73. The menu for regular and therapeutic or special diets for the current week shall be posted. Changes shall be written on the planned menu to show the menu as actually served. The menu as actually served to patients for the preceding 3 months shall be kept on file in the home.

History: 1954 ACS 60, p. 33, Eff. Nov. 14, 1969.

R 325.1974 Meal and food records.

Rule 74. A meal census to include patients, personnel and guests, and a record of the kind and amount of food used for the preceding 3 months shall be kept on file in the home.

History: 1954 ACS 60, p. 33, Eff. Nov. 14, 1969.

R 325.1975 Rescinded.

History: 1954 ACS 60, p. 33, Eff. Nov. 14, 1969; rescinded 1954 ACS 77, p. 46, Eff. Dec. 6, 1973.

PART 8. PHARMACEUTICAL SERVICES

R 325.1981 Medication kits.

Rule 81. (1) An emergency kit shall be maintained in a locked cabinet and shall be accessible only to the nursing personnel in charge.

(2) The emergency kit shall be obtained only on prescription of a licensed physician and shall be prepared and sealed by a registered pharmacist.

(3) Supplies from this kit shall be removed only upon direct order of the physician.

(4) The kit shall contain a list of its contents on the lid and a complete record of usage and disposal shall be available.

(5) A narcotic drug (class A or B) shall not be included as part of the emergency kit.

History: 1954 ACS 60, p. 33, Eff. Nov. 14, 1969.

R 325.1982 Medications; dispensing and storage.

Rule 82. (1) A legend drug shall not be dispensed except by a registered pharmacist. It shall be contained in properly labeled individual containers, kept in a locked cabinet, and shall be accessible only to the nurse in charge.

(2) A narcotic or barbiturate shall be kept in a separate locked box within the locked medication cabinet.

(3) A medication requiring refrigeration shall be kept in a separate locked box within a refrigerator.

(4) A medication for external use only shall be kept in a locked cabinet separate from other medications.

History: 1954 ACS 60, p. 33, Eff. Nov. 14, 1969.

R 325.1983 Medications; administration.

Rule 83. (1) Medications shall be administered only by medical or nursing personnel.

(2) A dose of medication administered shall be properly recorded in the patient's clinical record and, when applicable, in special records for narcotics and such other drugs as required by law.

(3) A medication shall be listed on an approved medication card or its equivalent and shall be checked against the physician's orders before being administered.

(4) A medication prescribed for a patient shall not be administered to another patient.

(5) Self-administration of medication by a patient shall not be permitted.

History: 1954 ACS 60, p. 33, Eff. Nov. 14, 1969.

R 325.1984 Medications; errors and reactions.

Rule 84. Medication error or drug reaction shall be immediately reported to the charge nurse and to the physician and shall be recorded in the patient's clinical record as well as on an incident report form which shall be forwarded to the administrator and kept on file.

History: 1954 ACS 60, p. 33, Eff. Nov. 14, 1969.

R 325.1985 Dangerous drug stop orders and policies.

Rule 85. An automatic stop order and policy governing the use of dangerous drugs shall be formulated and shall be made a part of the written patient care policy in effect in the home.

History: 1954 ACS 60, p. 34, Eff. Nov. 14, 1969.

R 325.1986 Medications; disposal and release.

Rule 86. (1) A medication no longer in use or outdated shall be disposed of immediately in accordance with federal or state laws and regulations.

(2) A medication shall not be released or sent with a patient upon discharge except on the written order of the physician.

History: 1954 ACS 60, p. 34, Eff. Nov. 14, 1969.

PART 9. OTHER SERVICES

R 325.1991 Diagnostic services.

Rule 91. (1) An arrangement shall be made by the administrator for obtaining promptly and conveniently a clinical laboratory, x-ray, or other diagnostic service ordered by the physician.

(2) A diagnostic test or service shall be provided only on written order of the physician.

(3) An arrangement for transporting a patient to and from a source of services outside the home shall be made by the administrator.

(4) A written report of each diagnostic test and service shall be included in the patient's clinical record within 1 week. When written reports are not received within 1 week, the home shall continue to take action to obtain a report at the earliest possible time. A record of this action shall be maintained in the patient's clinical record.

History: 1954 ACS 60, p. 34, Eff. Nov. 14, 1969.

R 325.1993 Dental services.

Rule 93. A patient shall be assisted in obtaining regular and emergency dental care.

History: 1954 ACS 60, p. 34, Eff. Nov. 14, 1969.

R 325.1995 Medical social services.

Rule 95. Services shall be provided to meet the medically related social needs of a patient as follows:

(a) A designated member of the staff shall be responsible for assisting the patient and the patient's family in securing help with medically related social problems.

(b) The designated member of the staff, in providing this assistance, shall be aware of such public and private resources as are available in the community.

History: 1954 ACS 60, p. 34, Eff. Nov. 14, 1969.

R 325.1997 Diversional activities.

Rule 97. A patient shall be provided diversional activities suited to his needs, capabilities, and interests as an adjunct to treatment to encourage him to resume self-care and normal activities insofar as possible.

History: 1954 ACS 60, p. 34, Eff. Nov. 14, 1969.

PART 10. RECORDS

R 325.2001 Records; general.

Rule 101. A patient register, patient clinical records, accident records and incident reports, and employee records and work schedules shall be kept in the home and shall be available to the director or his authorized representative.

History: 1954 ACS 60, p. 34, Eff. Nov. 14, 1969.

R 325.2002 Patient clinical records.

Rule 102. (1) A clinical record shall be provided for each patient in the home. The clinical record shall be current and entries shall be dated and signed.

(2) The clinical record shall include at least the following:

(a) The identification and summary sheet which shall include patient's name, social security number, veteran status and number, marital status, age, sex, and home address.

(b) Name, address, and telephone number of next of kin or legal guardian.

(c) Name, address, and telephone number of person or agency responsible for patient's maintenance and care in the home.

(d) Date of admission.

(e) Date of discharge and place to which patient was discharged.

(f) Physician's admission examination and treatment plan.

(g) Admission diagnosis and amendments thereto during the course of the patient's stay in the home.

(h) Physician's orders for medications, diet, restorative procedures, and other treatments to be provided to the patient.

(i) Physician's progress notes written at the time of each visit, describing changes in the patient's condition and other pertinent clinical observations.

(j) Nurse's notes containing observations made by nursing personnel.

(k) Medication and treatment records.

(l) Laboratory and x-ray reports.

History: 1954 ACS 60, p. 34, Eff. Nov. 14, 1969.

R 325.2004 Patient registers.

Rule 104. A current register of patients shall be maintained and shall include the following information for each patient:

(a) Name, social security number, veteran status and number, marital status, age, sex, and home address.

(b) Name, address, and telephone number of next of kin or legal guardian.

(c) Name, address, and telephone number of person or agency responsible for patient's maintenance and care in the home.

(d) Date of admission.

(e) Date of discharge and place to which patient was discharged.

History: 1954 ACS 60, p. 35, Eff. Nov. 14, 1969.

R 325.2005 Accident records and incident reports.

Rule 105. An accident record or incident report shall be prepared for each accident or incident involving a patient, personnel, or visitor and shall include the following information:

(a) Name of person involved in accident or incident.

(b) Date, hour, place, and cause of accident or incident.

(c) Effect of accident or incident on person involved.

(d) Name of physician notified and time of notification.

(e) Physician's statement regarding extent of injuries, treatment ordered, and disposition of person involved.

(f) Corrective measures taken to avoid repetition of accident or incident.

History: 1954 ACS 60, p. 35, Eff. Nov. 14, 1969.

R 325.2007 Employee records and work schedules.

Rule 107. (1) A record shall be maintained for each employee in the home and shall include the following:

(a) Name, address, telephone number, and social security number.
(b) License or registration number, if applicable.
(c) Date of birth.
(d) Summary of experience and education.
(e) Beginning date of employment and position for which employed.
(f) References.
(g) Results of annual chest x-ray or intradermal skin test for tuberculosis.
(h) Date employment ceases and reasons therefor.

(2) A daily work schedule for employees shall be prepared in writing and shall be maintained to show the number and type of personnel on duty in the home for the previous 3 months.

History: 1954 ACS 60, p. 35, Eff. Nov. 14, 1969.

PART 11. BUILDINGS AND GROUNDS

R 325.2011 Plans and specifications.

Rule 111. (1) A floor plan of the home with description of rooms showing size, use, door locations, window area, and number of beds shall be on file in the home and at the department.

(2) Complete plans and specifications for new buildings, additions, major building changes and conversion of existing facilities to use as a home shall be submitted to the department for review to assure compliance with the law and these rules.

(3) Plans and specifications meeting the requirements of the law and these rules shall be approved by the department.

(4) Construction of new buildings, additions, major building changes and conversion of existing facilities to use as a home shall not begin until the plans and specifications have been approved by the department and a certificate of approval issued for such construction to begin.

History: 1954 ACS 60, p. 35, Eff. Nov. 14, 1969.

R 325.2012 Exteriors.

Rule 112. (1) The home shall be located in an area free from hazards to the health and safety of patients, personnel and visitors.

(2) The premises shall be maintained in a safe and sanitary condition and in a manner consistent with the public health and welfare.

(3) Sufficient light for an exterior ramp, step, and porch shall be provided for the safety of persons using the facilities.

(4) An exterior step or ramp shall have a handrail on both sides. A porch shall have a railing on open sides.

History: 1954 ACS 60, p. 36, Eff. Nov. 14, 1969.

R 325.2013 Entrances for physically handicapped in certain homes.

Rule 113. In a new construction, addition, major change or conversion after the effective date of these rules, at least 1 entrance to the home shall provide easy access for the physically handicapped.

History: 1954 ACS 60, p. 36, Eff. Nov. 14, 1969.

R 325.2014 Interiors.

Rule 114. (1) A building shall be of safe construction and shall be free from *hazards to patients, personnel* and visitors.

(2) A part of a building in use as a home shall not be used for any purpose which interferes with the care, well-being and safety of patients, personnel and visitors.

(3) Each area of the home shall be provided with lighting commensurate with the use made of each area and in accord with generally recognized standards acceptable to the director.

(4) A stairway or ramp shall have a handrail on both sides.

(5) A room used for living or sleeping purposes shall have a minimum total window glass area on outside walls equal to 10% of the floor area of the room. Forty-five percent of this window glass area shall be openable unless the room is artificially ventilated.

(6) Each area of the home shall be provided with a type and amount of ventilation commensurate with its use, to minimize the occurrence of transmissible disease, control odors and contribute to comfort.

(7) A patient room shall open to a corridor, lobby or day room. Traffic to and from any room shall not be through a sleeping room, kitchen, bathroom, utility room, toilet room or service room except where a utility room, toilet room or bathroom opens directly off the room or rooms which it serves.

(8) A doorway, passageway, corridor, hallway or stairwell shall be kept free from obstructions at all times.

(9) A floor, wall or ceiling shall be covered and finished in a manner that will permit maintenance of a sanitary environment.

(10) A basement shall be of such construction that it can be maintained in a dry and sanitary condition.

(11) A minimum of 20 square feet of floor space per patient bed shall be provided for day room, dining, recreation and activity purposes, except that a home that is licensed on the effective date of these rules shall provide in the authorized area under such existing license a minimum of 15 square feet of floor space per patient bed for day room, dining, recreation and activity space until January 1, 1975, at which time it shall meet the 20 square feet requirement.

(12) All occupied rooms shall have a minimum ceiling height of 7 feet, 6 inches. Floor area under a part of a drop or slant ceiling which is less than 7 feet, 6 inches from the floor shall not be used in computing the day room, dining, recreation and activity space per patient bed.

(13) A basement or cellar shall not be used for sleeping or living facilities, except that recreation and activity space may be provided in a basement in addition to day room, dining, recreation, and activity space required in subrule (11).

(14) A handrail shall be provided in a corridor used by patients.

(15) A room or compartment housing a water closet shall have a minimum width of 3 feet.

(16) Emergency electrical service as a minimum shall provide battery-operated lighting units sufficient to light corridors, exits, and nursing station.

(17) A functionally separate living, sleeping, dining, lavatory, water closet, and bathing facility shall be provided for personnel and members of their families who live on the premises.

History: 1954 ACS 60, p. 36, Eff. Nov. 14, 1969.

R 325.2015 Elevators and emergency electrical service in certain homes.

Rule 115. A new construction, addition, major change, or conversion after the effective date of these rules shall provide:

(a) An elevator, if patient bedrooms are situated on more than 1 floor level. An elevator shall have a cab size not less than 5 feet by 7 feet, 6 inches.

(b) Emergency electrical service capable of providing not less than 4 hours service at full load. It shall serve lights at nursing stations, telephone switchboard, night lights, exit and corridor lights, heating plant controls, and other critical mechanical equipment essential to the safety and welfare of patients, personnel, and visitors in the home.

History: 1954 ACS 60, p. 37, Eff. Nov. 14, 1969; 1954 ACS 77, p. 47, Eff. Dec. 6, 1973.

R 325.2016 Additional interior requirements for certain homes.

Rule 116. A new construction, addition, major change, or conversion after the effective date of these rules shall provide:

(a) A sleeping, day, dining, recreation, or activity room with a minimum ceiling height of 8 feet.

(b) In a room requiring windows, a clear unobstructed space having a minimum distance of 20 feet upon which the windows face. One additional foot shall be added to the minimum distance of 20 feet for each 2 foot rise above the first story, up to a maximum of 40 feet of required unobstructed space.

(c) A minimum of 30 square feet of floor space per bed for day room, dining, recreation, and activity purposes.

(d) A handrail with ends returned to the wall on both sides of a corridor, ramp, or stairway used by patients.

History: 1954 ACS 60, p. 37, Eff. Nov. 14, 1969.

R 325.2017 Public and personnel areas.

Rule 117. (1) A lobby or waiting area for visitors shall be functionally separate from patient care units.

(2) A public lavatory and water closet shall be provided and located convenient to the lobby or waiting area.

(3) Office space shall be provided for the administrator.

(4) Office space shall be provided for the director of nursing.

(5) Separate dressing rooms shall be provided for male and female employees. A lavatory and water closet shall be convenient to the dressing rooms.

History: 1954 ACS 60, p. 37, Eff. Nov. 14, 1969.

R 325.2018 Patient rooms.

Rule 118. (1) A patient bedroom shall have the floor surface at or above grade level along exterior walls with windows.

(2) A single patient room shall have at least 80 square feet of usable floor space.

(3) A multi-bed patient room shall have at least 70 square feet of usable floor space per bed, except that a multi-bed patient room in a home licensed prior to November 15, 1957, and remaining continuously licensed since that date shall have at least 60 square feet of usable floor space per patient bed until January 1, 1975, at which time it shall meet the 70 square feet requirement.

(4) Floor area under any part of a drop or slant ceiling which is less than 7 feet, 6 inches shall not be used in computing usable floor space per patient bed.

(5) A toilet room or closet shall not be included in usable floor space.

(6) A patient room shall provide a minimum of 5 square feet of floor space per bed for wardrobe and closet in addition to other requirements for usable floor space per bed, except that a home that is licensed on the effective date of these rules shall not be required to provide in the authorized area under such existing license 5 square feet of floor space per bed for wardrobe and closet until January *1, 1975, at which time it shall* meet the 5 square feet requirement.

(7) A bedroom shall permit the functional placement of furniture and equipment essential to patient care, comfort, and safety.

(8) A multi-bed patient room shall have a 3-foot clearance between beds.

(9) A patient room, toilet room, or corridor shall be provided with night lighting.

(10) A bed in a multi-bed patient room shall have flameproof cubicle curtains or their equivalent.

(11) A patient room shall have at least 2 duplex electrical receptacles at least 1 of which shall be near the head of each bed.

History: 1954 ACS 60, p. 37, Eff. Nov. 14, 1969.

R 325.2019 Rescinded.

History: 1954 ACS 60, p. 38, Eff. Nov. 14, 1969; rescinded 1954 ACS 77, p. 46, Eff. Dec. 6, 1973.

R 325.2020 Patient room requirements in certain homes.

Rule 120. In a new construction, addition, major change, or conversion after the effective date of these rules the following shall be required:

(a) A patient room shall not have more than 4 beds.

(b) A patient room shall have at least a 3-foot clearance available on both sides and at the foot of each bed.

(c) An isolation room shall be a single patient room with attached lavatory, water closet, and bathing facility reserved for the use of the occupants of the isolation room only.

(d) A door to a patient water closet compartment shall be at least 2 feet, 10 inches in width and shall be equipped with suitable hardware to assure the safety of the patient.

(e) A single patient room shall have at least 100 square feet of usable floor space.

(f) A multi-bed patient room shall have at least 80 square feet of usable floor space per bed.

(g) A toilet room, closet, or vestibule shall not be included in usable floor space.

(h) A patient room shall be provided with a lavatory and water closet attached to the room.

History: 1954 ACS 60, p. 38, Eff. Nov. 14, 1969.

R 325.2021 Isolation rooms.

Rule 121. (1) A room shall be available for isolation of patients with, or suspected of having, transmissible infections.

(2) An isolation room shall be a single patient room with attached lavatory and water closet reserved for use of the occupants of the isolation room only.

History: 1954 ACS 60, p. 38, Eff. Nov. 14, 1969.

R 325.2022 Nursing stations and call systems.

Rule 122. (1) A nursing station shall be provided for a nursing care unit not more than 120 feet from any patient room which it serves.

(2) A nursing station shall have the following:

(a) A telephone connected to an outside service line.

(b) Space for charting on patient clinical records and space for other record keeping related only to patient care.

(c) A nurses' call system from each patient bed, patient toilet room, and a bathtub *and shower room to register at the* nursing station, except that a home that

is licensed on the effective date of these rules shall not be required to provide in the authorized area under such existing license such a nurses' call system until January 1, 1975, at which time it shall meet the requirement for a nurses' call system.

(3) A room with lavatory and water closet shall be provided for the nursing staff convenient to a nursing station.

History: 1954 ACS 60, p. 38, Eff. Nov. 14, 1969.

R 325.2023 Nursing care units.

Rule 123. A nursing care unit shall have:

(a) A medication storage and preparation area which shall be well lighted, equipped with a sink with gooseneck inlet and hot and cold water, and locked storage for medications.

(b) Space for storage of clean linen, equipment, and supplies.

(c) A soiled utility room.

(d) A janitor's closet.

History: 1954 ACS 60, p. 38, Eff. Nov. 14, 1969.

R 325.2024 Toilet and bathing facilities.

Rule 124. (1) A patient toilet facility shall be located in a separate room or stall, and shall be provided on each patient floor in the ratio of 1 lavatory and water closet for every 8 patient beds on that floor.

(2) A bathing facility shall be provided for every 20 patient beds.

(3) At least 1 of each 5 bathing facilities shall provide sufficient clearance to accommodate a wheelchair and attendant, except that at least 1 bathing facility per floor shall meet this requirement on floors where wheelchairs are used.

(4) A water closet or bathing facility shall have substantially secured grab bars at least 1 foot long.

(5) A patient toilet room or bathroom shall not be used for storage or housekeeping functions.

History: 1954 ACS 60, p. 38, Eff. Nov. 14, 1969.

R 325.2025 Lavatories and nursing stations in certain homes.

Rule 125. A new construction, addition, major change, or conversion after the effective date of these rules shall provide:

(a) A patient room with a lavatory in the room or in an attached toilet room.

(b) A nursing station on each floor of the home.

History: 1954 ACS 60, p. 39, Eff. Nov. 14, 1969; 1954 ACS 77, p. 47, Eff. Dec. 6, 1973.

R 325.2026 Water supply systems.

Rule 126. (1) A home located in an area served by a public water system shall connect to and use that system.

(2) When a public water system is not available, the location and construction of a well and the operation of a private water system shall comply with the Michigan department of public health regulations, "Minimum Standards for the Location and Construction of Certain Water Supplies," being R 325.1451 to R 325.1461 of the Michigan Administrative Code.

(3) A home using a private water system shall take at least 1 water sample for bacteriologic testing each 3 months and shall submit the sample to the department laboratory, or to a laboratory approved by the department, for examination. The administrator shall report all unsatisfactory examination results to the department *within 72 hours of receipt* of the report.

(4) A home with 30 beds or more served by a private water system shall provide a secondary well or other reserve source of water.

(5) A physical cross-connection shall not exist between water systems that are safe for human consumption and those that are, or may at any time become, unsafe for human consumption.

(6) Minimum water pressure available to each plumbing fixture shall exceed 20 pounds per square inch.

(7) The plumbing system shall be designed and maintained so that the possibility of back flow or back siphonage is eliminated.

(8) The plumbing system shall supply an adequate amount of hot water at all times to meet the needs of each patient and the functioning of the various service areas.

(9) The temperature of hot water at plumbing fixtures used by patients shall be regulated to provide tempered water not exceeding 110 degrees Fahrenheit.

History: 1954 ACS 60, p. 39, Eff. Nov. 14, 1969.

R 325.2027 Liquid wastes.

Rule 127. (1) Liquid wastes shall be discharged into a public sanitary sewage system when such a system is available.

(2) When a public sanitary sewage system is not available and a private liquid wastewater disposal system is used, the type, size, construction, alteration of, or major repairs to the system shall be approved by the department.

(3) The wastewater disposal system shall be maintained in a sanitary manner.

History: 1954 ACS 60, p. 39, Eff. Nov. 14, 1969.

R 325.2028 Solid wastes.

Rule 128. (1) The collection, storage, and disposal of solid wastes, including garbage, refuse, and dressings, shall be accomplished in a manner which will minimize the danger of disease transmission and avoid creating a public nuisance or a breeding place for insects and rodents.

(2) Suitable containers for garbage, refuse, dressings, and other solid wastes shall be provided, emptied at frequent intervals, and maintained in a clean and sanitary condition.

(3) Dressings, bandages, and similar materials shall be disposed of in an incinerator provided with auxiliary fuel or in some other manner approved by the department.

History: 1954 ACS 60, p. 39, Eff. Nov. 14, 1969.

R 325.2029 Heating.

Rule 129. (1) A home shall provide a safe heating system.

(2) A room in the home used for patients shall be maintained at a regular daytime temperature of at least 72 degrees Fahrenheit measured at a level of 3 feet above the floor.

History: 1954 ACS 60, p. 39, Eff. Nov. 14, 1969.

R 325.2031 Laundry and linen.

Rule 131. (1) The collection, storage, and transfer of clean and soiled linen shall be accomplished in a manner which will minimize the danger of disease transmission.

(2) A home that processes its own linen shall provide a well ventilated laundry of sufficient size which shall include the following:

(a) Commercial laundry equipment with the capacity to meet the needs of the home.

(b) A separate soiled linen room.

(c) A separate laundry processing room.

(d) A separate clean linen storage area.

(e) A lavatory for handwashing in the laundry processing area.

(3) A home that uses a commercial or other outside laundry facility shall have a soiled linen storage room and a separate clean linen storage room.

History: 1954 ACS 60, p. 40, Eff. Nov. 14, 1969.

R 325.2032 Kitchen and dietary.

Rule 132. (1) A home shall have a kitchen and dietary area of adequate size to meet food service needs of patients. It shall be arranged and equipped for the refrigeration, storage, preparation, and serving of food, as well as for dish and utensil cleaning and refuse storage and removal.

(2) The kitchen and dietary area shall be equipped with a lavatory for handwashing. A lavatory shall have a gooseneck inlet and wrist, knee, or foot control. Soap and single service towels shall be available for use at each lavatory.

(3) The kitchen and dietary area shall be restricted to kitchen and dietary activities.

(4) Separate personnel dining space shall be provided.

(5) The kitchen and dietary area, as well as all food being stored, prepared, served or transported, shall be protected against potential contamination from dust, flies, insects, vermin, overhead sewer lines and other sources.

(6) Food and drink used in the home shall be clean and wholesome and shall be manufactured, handled, stored, prepared, transported and served so as to be safe for human consumption.

(7) Perishable food shall be stored at temperatures which will protect against spoilage.

(8) A reliable thermometer shall be provided for each refrigerator and freezer.

(9) An individual portion of food which is served and not eaten shall be destroyed.

(10) A separate storage area for poisonous material shall be provided away from food service and food storage areas. Poisonous material shall be identified as such and shall be used only in a manner and under such conditions that it will not contaminate food or constitute a hazard to patients, personnel or visitors.

(11) Food service equipment and multi-use utensils shall be of such design and material as to be smooth, easily cleanable, and durable.

(12) Food service equipment and work surfaces shall be installed in such a manner as to facilitate cleaning and be maintained in a clean and sanitary condition, and in good repair.

(13) A multi-use utensil used in food storage, preparation, transport, or serving shall be thoroughly cleaned and sanitized after each use and shall be handled and stored in a manner which will protect it from contamination.

(14) A single service eating or drinking article shall be stored, handled, and dispensed in a sanitary manner and shall be used only once.

(15) Ice used in the home for any purpose shall be manufactured, stored, transported, and handled in a sanitary manner.

(16) A storage area for housekeeping items and a janitor's closet shall be provided convenient to the kitchen and dietary area.

R 325.2033 Kitchen and dietary area ventilation in certain homes.

Rule 133. In a new construction, addition, major change, or conversion after the effective date of these rules, the design and operation of the filtered makeup air and exhaust air system in the kitchen and dietary area shall be adequate for the comfort of employees and control of odors, and shall minimize the danger of disease transmission.

History: 1954 ACS 60, p. 40, Eff. Nov. 14, 1969.

R 325.2034 Insect and vermin control.

Rule 134. (1) A home shall be kept free from insects and vermin.

(2) Breeding places for insects and vermin shall be eliminated from a home.

(3) Insect and vermin control procedures involving the use of insecticides or pesticides shall be carried out in a manner consistent with the health and safety of patients, personnel, and visitors.

History: 1954 ACS 60, p. 40, Eff. Nov. 14, 1969.

R 325.2035 General maintenance and storage.

Rule 135. (1) The building, equipment, and furniture shall be kept clean and in good repair.

(2) A room shall be provided in the home or on the premises for equipment and furniture maintenance and repair, and storage of maintenance equipment and supplies.

(3) Hazardous and toxic materials shall be stored in a safe manner.

History: 1954 ACS 60, p. 41, Eff. Nov. 14, 1969.

R 325.2036 General storage space in certain homes.

Rule 136. In a new construction, addition, major change, or conversion after the effective date of these rules, 10 square feet of general storage space shall be provided per bed in the home.

History: 1954 ACS 60, p. 41, Eff. Nov. 14, 1969.

R 325.2037 Examination and treatment rooms in certain homes.

Rule 137. A new construction, addition, major change, or conversion after the effective date of these rules shall provide an examination and treatment room equipped with a treatment table, instrument table, and lavatory with gooseneck inlet and wrist, knee, or foot controls.

History: 1954 ACS 60, p. 41, Eff. Nov. 14, 1969; 1954 ACS 77, p. 47, Eff. Dec. 6, 1973.

R 325.2038 Miscellaneous.

Rule 138. (1) An autoclave shall be provided in all homes reusing medical supplies which require sterilization between uses.

(2) Personnel shall wear clean garments, maintain a high degree of personal cleanliness, and conform to hygienic practices while on duty.

(3) At least 1 patient water closet room on a patient floor where wheelchair patients are located shall be of sufficient size to accommodate wheelchair, patient, and attendant.

(4) Soap and single use towels shall be available for the use of employees and visitors at all times. Use of the common towel is prohibited.

History: 1954 ACS 60, p. 41, Eff. Nov. 14, 1969.

PART 12. EMERGENCY PROCEDURES

R 325.2041 Disaster plans.

Rule 141. (1) A home shall have a written plan of procedure to be followed in case of fire, explosion, or other emergency.

(2) A disaster plan shall be posted and shall specify persons to be notified, locations of alarm signals and fire extinguishers, evacuation routes, procedures for evacuating patients, frequency of fire drills, and assignment of specific tasks and responsibilities to the personnel of each shift.

(3) Personnel shall be trained to perform assigned tasks.

(4) A disaster plan shall meet with the approval of the state fire marshal.

(5) A disaster plan shall be posted throughout the home.

(6) A regular simulated drill shall be held for each shift at least 3 times per year.

History: 1954 ACS 60, p. 41, Eff. Nov. 14, 1969.

PART 13. CHILD CARE HOMES AND CHILD CARE UNITS

R 325.2051 Skilled nursing facility requirements.

Rule 151. A child care home or a child care unit shall comply with all requirements for a skilled nursing facility.

History: 1954 ACS 60, p. 41, Eff. Nov. 14, 1969; 1954 ACS 77, p. 48, Eff. Dec. 6, 1973.

R 325.2052 Admission of children and records.

Rule 152. (1) A child shall not be admitted to a home or child care unit after January 1, 1970, unless the home is licensed and approved by the director as a child care home or a child care unit.

(2) A person 15 years of age or older shall not be admitted to a child care home or a child care unit.

(3) A patient shall be admitted to a child care home or a child care unit only on recommendation of a licensed physician and concurrence of the home's consulting pediatrician and administrator.

(4) The name, address, and telephone number of the parent or legal guardian and the person or agency responsible for placing and maintaining the child in the home shall be on file in the administrator's office and on the patient's clinical record.

History: 1954 ACS 60, p. 41, Eff. Nov. 14, 1969.

R 325.2053 Physicians' services.

Rule 153. (1) A child care home or child care unit shall have on its staff a consulting physician who is a board certified pediatrician.

(2) The consulting pediatrician shall provide pediatric consultation and recommend policies concerning the management of children who are patients in the home with regard to their total welfare and their physical, mental, and social health. When the attending physician does not comply with rules governing the frequency of visits to patients or fails to record physician orders and other medical information as required, the consulting pediatrician and the administrator together shall undertake corrective measures.

(3) The consulting pediatrician may serve as attending physician for 1 or more of the individual patients or may serve as a staff pediatrician for the home.

(4) The consulting pediatrician may serve as 1 of the physicians to be called in case of emergency.

(5) The initial examination of the patient shall be completed on admission and *shall include an evaluation* of physical and mental health and diagnosis.

(6) A written plan for continuing care and eventual discharge shall be prepared at the time of the admission examination and shall be placed in the patient's clinical record.

(7) A hematocrit, hemoglobin, and a urine analysis shall be included in a patient's initial examination and shall be repeated at least semiannually thereafter.

(8) An intradermal tuberculin skin test shall be included in a patient's initial examination and shall be repeated at least annually. If at any time this test is positive, the patient shall be studied to determine whether or not active tuberculosis is present and shall be given appropriate treatment if indicated. No annual repetition of the skin test shall be made if the skin test is positive but the patient shall have at least an annual chest x-ray.

(9) A patient is not required to have a routine admission chest x-ray unless the patient's tuberculin test is positive or unless the physician considers it necessary.

(10) Medical service shall include physician visits at least every 30 days, recommended medical treatment, and consultation by medical specialists as ordered by the physician.

(11) A patient who has been immunized for smallpox, diphtheria, tetanus, pertussis, measles and poliomyelitis shall receive booster inoculations as ordered by the physician.

(12) A patient who has not been immunized for smallpox, diphtheria, tetanus, pertussis, measles, and poliomyelitis shall be immunized as ordered by the physician, unless it is against the religious convictions of the patient as stated in writing by the parent or guardian.

History: 1954 ACS 60, p. 42, Eff. Nov. 14, 1969.

R 325.2055 Nursing services.

Rule 155. (1) Nursing personnel in a child care home and child care unit shall be in accordance with the rules for skilled homes.

(2) The director of nursing in a child care home or the charge nurse on duty in the daytime in a child care unit shall be a registered nurse who, in the opinion of the director, is qualified to supervise pediatric nursing care.

(3) A charge nurse who is either a registered nurse or a licensed practical nurse shall be on duty at all times during a shift in a child care unit. She shall receive regular in-service training in pediatric nursing care.

(4) Nursing personnel assigned to provide care to children who are patients in the home shall not be assigned to provide care to adult patients in the home on the same shift.

(5) A patient shall not be physically punished.

(6) A restraint shall not be used unless ordered by the physician.

(7) A patient shall be identified on his person by 1 or more methods of patient identification in common use.

History: 1954 ACS 60, p. 42, Eff. Nov. 14, 1969.

R 325.2057 Patient care policies.

Rule 157. (1) A child care home and the child care unit shall have a written patient care policy governing the nursing care and other services provided to patients.

(2) The professional patient care policy group which advises in the development of a written patient care policy, as required by these rules, shall include at least 1 board *certified pediatrician.*

(3) The patient care policy shall cover those items of patient care required in these rules, and shall be applicable to children and consistent with the age and condition of the patients.

History: 1954 ACS 60, p. 42, Eff. Nov. 14, 1969.

R 325.2059 Food services.

Rule 159. Food and liquid served to children who are patients in the home shall be appropriate for age, level of maturity, and physical condition.

History: 1954 ACS 60, p. 43, Eff. Nov. 14, 1969.

R 325.2061 Preparation of infant formulas and water solutions.

Rule 161. (1) A separate room shall be provided for preparation of infant formulas and water solutions and shall be reserved for this purpose only.

(2) The formula room shall contain a handwash lavatory with tempered running water, soap, and individual towels in a towel dispenser.

(3) The formula room shall have a double compartment sink with hot and cold running water for use in preparation of infant formulas and water solutions.

(4) The formula room shall contain enclosed cabinets for storage of supplies used in the preparation of infant formulas and water solutions.

(5) Cleaning supplies used in the formula room shall be stored in a separate cabinet clearly identified for this purpose only.

(6) A refrigerator shall be available exclusively for the storage of infant formulas and water solutions requiring refrigeration.

(7) After nippling and capping each individual unit of infant formula or water solution prepared in the formula room, the unit shall be subjected to a terminal sterilizing process at a minimum of 230 degrees Fahrenheit at 7 pounds pressure for 10 minutes.

(8) Nipples shall not be changed following sterilization. Provisions shall be made to protect the sterility of the units in transportation from the formula room to the infant.

(9) The sterility of infant formulas and water solutions and the attached nipples prepared in the formula room shall be checked by bacteriologic methods at least once a month.

(10) Records of the bacteriologic check of infant formulas and water solutions and the attached nipples prepared in the formula room shall be available for inspection. Records shall be maintained for 1 year from the date of bacteriologic check.

(11) The home shall develop and have available written policies for the preparation, storage, distribution, and use of infant formulas and water solutions prepared in the formula room.

History: 1954 ACS 60, p. 43, Eff. Nov. 14, 1969.

R 325.2062 Commercial infant formulas and water solutions.

Rule 162. (1) The director shall approve each type of package unit of commercially prepared and prepackaged infant formula and water solution before it is used for infant feeding.

(2) A disposable component of commercially prepared and prepackaged infant formula and water solution units shall not be reused.

(3) An enclosed cabinet shall be provided for the short-term storage of commercially prepared and prepackaged infant formulas and water solutions removed from their original shipping carton and not requiring refrigeration.

(4) A nipple shall not be changed following assembly of commercially prepared and prepackaged infant formula and water solution units.

(5) A refrigerator shall be available exclusively for storage of infant formulas and water solutions requiring refrigeration.

(6) Provision shall be made to protect the sterility of the commercially prepared and prepackaged formula and water solution units in transportation from the point of unit assembly to the infant.

(7) The sterility of commercially prepared and prepackaged infant formulas and water solutions and the attached nipples shall be checked by bacteriologic methods at least once a month. Positive bacteriologic findings shall be immediately reported to the department.

(8) A record of the bacteriologic check of commercially prepared and prepackaged infant formulas and water solutions shall be available for inspection. Records shall be maintained for 1 year from the date of the bacteriologic check.

(9) A home shall develop and have available a written policy for the storage, assembly, distribution and use of commercially prepared and prepackaged units of infant formula and water solution used for infant feeding.

History: 1954 ACS 60, p. 43, Eff. Nov. 14, 1969.

R 325.2064 Patient activities and rehabilitation.

Rule 164. (1) Recreational and social activity shall be provided in sufficient amount and variety to meet the needs and interests of a patient and shall be consistent with the patient's age, maturity, and physical condition.

(2) An individual shall be designated as being in charge of patient recreation and activities and shall be responsible for supervising and directing these activities.

(3) A bed patient shall be taken out of bed at least twice daily unless there are written physician orders to the contrary.

(4) The physician and the administrator are responsible for making necessary arrangements to obtain physical therapy, occupational therapy, and such other special forms of therapy as may be required in the care of a patient.

History: 1954 ACS 60, p. 44, Eff. Nov. 14, 1969.

R 325.2065 Educational activities.

Rule 165. (1) The administrator shall notify the board of education having jurisdiction that he is operating a child care home or a child care unit and that he has children of school age in the home.

(2) The administrator shall request assistance from the board of education having jurisdiction in providing for the educational needs of children of school age.

History: 1954 ACS 60, p. 44, Eff. Nov. 14, 1969.

R 325.2066 Physical environment.

Rule 166. (1) No more than 4 beds or 4 bassinets shall be in a patient room.

(2) A room used for the care of small infants shall be used exclusively for that purpose.

(3) A minimum of 40 square feet of usable floor space per bassinet shall be provided in a room used for the care of small infants.

(4) A minimum of 30 square feet of floor space per bed shall be provided for day room, dining, recreation and activity purposes.

(5) A minimum of 75 square feet of outdoor play space per bed shall be *provided, safely enclosed and supervised* when in use.

(6) A choice of toys, games, books and recreational equipment shall be available for children who can use them. A radio and a television shall be available for the use of the children.

History: 1954 ACS 60, p. 44, Eff. Nov. 14, 1969.

R 325.2068 Transfer agreements.

Rule 168. A written, signed transfer agreement shall be in effect between the child care home or the home with a child care unit and at least 1 hospital that has a pediatric department certified by the department of public health to provide care and services to children. The transfer agreement shall provide reasonable assurance that transfer of patients will be effected between the home and the hospital when such transfer is medically indicated as determined by the physician. The transfer agreement shall also provide for the interchange of necessary medical and other information.

History: 1954 ACS 60, p. 44, Eff. Nov. 14, 1969.

PART 14. NURSING FACILITIES FOR CARE OF MENTALLY RETARDED PATIENTS

R 325.2071 Applicability of part.

Rule 171. A nursing home or nursing facility requesting special certification to the department of social services for the care of mentally retarded patients under the medicaid program, hereinafter sometimes referred to as a facility, in addition to all other applicable requirements for licensure and skilled nursing facility certification under these rules, shall comply with this part.

History: 1954 ACS 77, p. 48, Eff. Dec. 6, 1973.

R 325.2072 Patient capacity and admissions.

Rule 172. A special mental retardation nursing home or nursing facility shall:

(a) Be an entire facility or a distinct part of a facility of not more than 150 patient beds nor less than 25 patient beds and shall be able to care for a mentally retarded patient of any age in need of nursing care.

(b) Have a written agreement in effect with the department of mental health and shall admit only mentally retarded individuals as defined and authorized by the department of mental health under that agreement.

History: 1954 ACS 77, p. 48, Eff. Dec. 6, 1973.

R 325.2073 Specialized physician services.

Rule 173. A special mental retardation nursing home or nursing facility shall have on its staff a physician who is a specialist in the diagnosis, treatment, and care of the mentally retarded. The physician specialist, in accord with written policy of the facility, shall:

(a) Have special training and experience in the diagnosis, treatment, and care of the mentally retarded.

(b) Serve as a consultant to the administrator of the facility in planning and implementing a continuing program designed to meet the special needs of patients in the facility.

(c) Serve as consultant to other physicians attending patients in the facility.

(d) Care for mentally retarded patients as may be appropriate at the request of the patient or his guardian, the patient's attending physician, and the facility.

(e) Assist in development of, and approve written patient care policies for, the diagnosis, treatment, and care of patients in the facility.

(f) Assist in writing of individual patient care plans and approve such plans.

(g) Assure that patients are seen and evaluated by the attending physician not less than every 30 days and more often as may be required to care adequately for patients.

History: 1954 ACS 77, p. 48, Eff. Dec. 6, 1973.

R 325.2074 Specialized nursing services.

Rule 174. Specialized nursing services in a mental retardation nursing home or nursing facility shall:

(a) Be directed by a registered nurse who has not less than 1 year of work experience in the care of mentally retarded patients or in the opinion of the physician specialist on the staff of the facility is qualified to supervise the nursing care and habilitative and developmental training services for mentally retarded patients.

(b) Provide that nursing care for patients on all shifts in the facility shall be in charge of a registered nurse or licensed practical nurse experienced in the care of mentally retarded patients.

(c) Provide that the nursing staff shall receive orientation in the provision of habilitative and developmental training services necessary to the care of mentally retarded patients. Nursing personnel shall receive specialized inservice training on a regular and continuing basis.

(d) Provide, in addition to personnel required for compliance with nurse staffing requirements for licensure and skilled nursing facility certification, additional licensed and unlicensed personnel required to meet the needs of individual patients, but not less than an average of 3 hours of nursing care per patient per day.

History: 1954 ACS 77, p. 48, Eff. Dec. 6, 1973.

R 325.2075 Other specialized services.

Rule 175. A mental retardation nursing home or nursing facility shall:

(a) Provide an organized program of diversional activities and training services required to meet the needs of individual mentally retarded patients. Such programs, in accord with the needs of individual patients, shall be consistent with the patient's physical condition, level of functioning, and mental capacity.

(b) Provide necessary arrangements to obtain other specialized diagnostic services and forms of therapy as may be required by the individual patient.

(c) Keep the state mental retardation facility designated by the department of mental health in its area advised of the availability of beds for the care of patients and the name of the physician specialist on its staff.

(d) Have on its staff by assignment from the department of mental health a full-time (40 hours per week) employee of the department of mental health for each 25 mentally retarded patients or major fraction thereof in the facility. This employee shall coordinate and assist in the specialized developmental and habilitative training activities to meet the needs of the mentally retarded patients.

History: 1954 ACS 77, p. 49, Eff. Dec. 6, 1973.

BUREAU OF ENVIRONMENTAL AND OCCUPATIONAL HEALTH

PUBLIC BATHING BEACHES

(By authority conferred on the director of public health by section 3 of Act No. 218 of the Public Acts of 1967, being §325.633 of the Michigan Compiled Laws)

R 325.2101 Definitions.

Rule 1. (1) "Act" means Act No. 218 of the Public Acts of 1967, being §§325.631 to 325.635 of the Michigan Compiled Laws.

(2) "Bathing beach" means a beach and bathing area offered to the public for bathing or swimming. It does not include a swimming pool as defined in section 1 of Act No. 230 of the Public Acts of 1966, being §325.601 of the Michigan Compiled Laws.

(3) "Fecal coliform" means a type of coliform bacteria found in the intestinal tract of humans and other warm-blooded animals.

(4) "Geometric average" means the antilog of the summation of the logarithms of the values for the samples examined, divided by the number of samples.

(5) "Health officer" means the administrative officer of a city, county or district health department.

(6) "Sanitary or environmental survey" means a survey and an evaluation of data of the applicable contributory watershed for pollution, including but not limited to, domestic, industrial, commercial and agricultural sources; a survey and an evaluation of data of the bathing beach for sources of pollution and safety hazards, including but not limited to, soil conditions, drop offs, water movement, submerged and other hazardous objects, water depth in diving areas; and an evaluation of proposed or existing bathing and swimming loads.

(7) "Standard methods" means standard methods for the examination of water and wastewater, 13th edition-1971, published by the American public health association, the American water works association, and the water pollution control federation. This publication is on file and available for inspection in the Bureau of Environmental Health, Department of Public Health, 3500 North Logan Street, Lansing, Michigan. Copies are available from the American Public Health Association, 1740 Broadway, New York, New York 10019, at a cost of $22.50, or from the Department of Public Health, Bureau of Environmental Health, at a cost of $22.50, plus mailing cost.

History: 1954 ACS 54, p. 37, Eff. May 15, 1968; 1954 ACS 83, p. 31, Eff. June 10, 1975.

R 325.2102 Sanitation and safety determinations.

Rule 2. (1) The water at a bathing beach, following standard methods for bacterial determinations, shall contain not more than 200 fecal coliforms per 100 milliliters determined on the basis of the geometric average of any series of 5 or more consecutive samples taken over a period of not more than 30 days.

(2) Chemical determinations shall follow standard methods and shall show that the water is free of chemical substances capable of creating toxic reactions or irritations to the skin or membranes of a bather or swimmer.

(3) Physical determinations shall show the water to be free from turbidity, color, deposits, growths, oils, greases, or other substances in the water capable of creating a health or safety hazard or a nuisance to a bather or swimmer.

History: 1954 *ACS 54, p. 37, Eff. May 15, 1968; 1954 ACS* 83, p. 31, Eff. June 10, 1975.

R 325.2103 Determinations and closing of beaches.

Rule 3. (1) When in the judgment of a health officer having jurisdiction, an evaluation of information provided by a sanitary survey and bacteriological, biological, chemical, or physical data provides evidence that a bathing beach may be detrimental to the health or safety of the bathers or swimmers, it shall be determined to be unsafe.

(2) If voluntary closure of a bathing beach cannot be accomplished, the health officer shall take action as provided by section 1 of the act.

History: 1954 ACS 54, p. 38, Eff. May 15, 1968.

PUBLIC SWIMMING POOLS

(By authority conferred on the department of public health by section 7 of Act No. 146 of the Public Acts of 1919, as amended, and section 5 of Act No. 230 of the Public Acts of 1966, being §§325.7 and 325.605 of the Michigan Compiled Laws)

PART 1. ADMINISTRATION

R 325.2111 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 230 of the Public Acts of 1966, and amendments thereto, being §§325.601 to 325.620 of the Michigan Compiled Laws.

(b) "Department" means the Michigan department of public health.

(c) "Designated city, county, or district health department" means a city, county, or district health department which is authorized by the department to participate in certain phases of the enforcement of the act.

(d) "Swimming pool" means a public swimming pool as defined in section 1 of the act.

(e) "Wading pool" means a swimming pool which is shallow enough throughout for wading.

History: 1954 ACS 67, p. 24, Eff. Mar. 24, 1971.

R 325.2113 Plans and specifications.

Rule 3. (1) Plans and specifications submitted for a construction permit for a new swimming pool or modification of an existing swimming pool shall:

(a) Be prepared by and bear the seal of a registered professional engineer or architect in accordance with Act No. 240 of the Public Acts of 1937, as amended, being §§338.551 to 338.576 of the Michigan Compiled Laws.

(b) Be submitted in triplicate to the department and accompanied by completed construction permit application forms as prescribed and provided by the department.

(c) Be accompanied by the fee prescribed by the act, in the form of a bank draft, check, or money order payable to the state of Michigan.

(2) Plans and specifications submitted for a construction permit for a new swimming pool shall:

(a) Include a plot plan showing the property boundaries, adjacent streets, pertinent buildings on the site, pertinent site grades, the swimming pool, and related deck areas.

(b) Show in detail the swimming pool structure and related facilities; water treatment and recirculation equipment and piping; dressing, locker, shower, toilet, storage, office, and mechanical equipment rooms; source of water supply; and wastewater disposal facilities.

(3) Plans and specifications submitted for a construction permit for modification of an existing swimming pool shall show the proposed modifications and the pertinent existing facilities.

(4) When plans and specifications are submitted to the department, 1 set shall be submitted to the designated city, county, or district health department.

History: 1954 ACS 67, p. 24, Eff. Mar. 24, 1971.

R 325.2114 Variances.

Rule 4. (1) A swimming pool shall comply with the requirements of part 2, except that the department may grant a variance in a case where the department determines that strict compliance would cause unusual practical difficulties and hardships and that the variance would not seriously affect the safe and healthful operation of the swimming pool.

(2) For an equipment item, material, design feature, or construction method not specifically covered in part 2, the department may require adequate proof that it will perform the intended function so as to produce a safe and healthful swimming pool.

History: 1954 ACS 67, p. 24, Eff. Mar. 24, 1971.

R 325.2115 Operation permit applications and revocations.

Rule 5. (1) An application for an initial or renewal operation permit or for transfer of an operation permit shall be made to the department on the forms prescribed and provided by the department. An application shall be accompanied by the fee prescribed by the act in the form of a bank draft, check, or money order payable to the state of Michigan.

(2) Before revocation of an operation permit, the department shall notify a swimming pool owner or operator in writing, stating the reasons for which the permit is subject to revocation and advising that the permit will be revoked at the end of 10 days after service of the notice, unless a request for a hearing is filed with the department by the owner or operator within the 10-day period.

History: 1954 ACS 67, p. 25, Eff. Mar. 24, 1971.

R 325.2116 Violations.

Rule 6. When a representative of the department or of a designated city, county, or district health department inspects a swimming pool and finds a violation of the act or these rules which does not seriously endanger the public health or safety, he shall issue a written violation notice to the owner or his representative and shall give a reasonable time period for correction.

History: 1954 ACS 67, p. 25, Eff. Mar. 24, 1971.

R 325.2117 Closing of swimming pools; reasons.

Rule 7. An agent or representative of the department or of a designated city, county, or district health department may order the owner or operator of a swimming pool to prohibit any person from using it until correction for any of these reasons:

(a) Failure of the swimming pool equipment, structure, area, or enclosure such as to jeopardize the health or safety of the persons using or operating it.

(b) Lack of properly functioning equipment or proper material for recirculating, treating, or testing the swimming pool water.

(c) Lack of required supervisory personnel or required lifeguards.

(d) Presence of a pollutant or of a hazardous object or substance in the swimming pool.

(e) Failure to meet a water quality standard.
(f) Failure to possess a valid operation permit.

History: 1954 ACS 67, p. 25, Eff. Mar. 24, 1971.

325.2118 Closing of swimming pools; procedure.

Rule 8. (1) When a representative of the department or of a designated city, unty, or district health department orders closing of a swimming pool, he shall ue a written order to the swimming pool owner or operator or his representa- e, stating that the swimming pool is to be closed immediately and specifying rrective action to be taken. The order shall be served upon the owner, operator, presentative or a person in charge of the swimming pool. The person on whom e order is served shall close the swimming pool immediately and shall prohibit y person from using it.

(2) After the specified corrective action has been taken, the owner or operator his representative shall notify the department or the designated city, county, or strict health department that the swimming pool is ready for reinspection.

(3) If upon reinspection the corrective action is approved, the swimming pool ay be opened for use.

(4) If upon reinspection the corrective action is not approved, the swimming ol shall be kept closed and out of use until corrective action is approved.

History: 1954 ACS 67, p. 25, Eff. Mar. 24, 1971.

325.2119 Rescission.

Rule 9. The rules entitled "Construction and Alteration of Public Swimming ols," being R 325.391 to R 325.395 of the Michigan Administrative Code and pearing on page 2254 of the 1954 volume of the Code, and the rules entitled peration and Use of Public Swimming Pools," being R 325.401 to R 325.406 of e Michigan Administrative Code and appearing on pages 2254 and 2255 of the 54 volume of the Code, are rescinded.

History: 1954 ACS 67, p. 25, Eff. Mar. 24, 1971.

PART 2. CONSTRUCTION

325.2121 Locations.

Rule 21. A swimming pool location shall be conducive to good operation and aintenance, safety, and freedom from contamination. It shall have suitable site ainage, availability of utilities, and separation from sources of debris.

History: 1954 ACS 67, p. 26, Eff. Mar. 24, 1971.

325.2122 Construction shapes, materials, surfaces, and loads.

Rule 22. (1) A swimming pool structure and appurtenances shall be so shaped d arranged that maintenance of safe, sanitary conditions and recirculation of the ater are not impaired. An obstruction shall not extend into or above the imming pool so as to create a safety hazard.

(2) A swimming pool structure and appurtenances shall be constructed of aterials which are inert, nontoxic to man, impervious, permanent, durable, and ong enough to withstand structural stresses.

(3) The finished surface of the swimming pool wall and floor shall be smooth, cracks or open joints, non-slip, easily cleaned, and light colored, except serted against a light background.

(4) The swimming pool structure shall be designed and constructed to withstand all anticipated loadings for both full and empty conditions. A hydrostatic relief valve shall be provided if the swimming pool is in the ground.

History: 1954 ACS 67, p. 26, Eff. Mar. 24, 1971.

R 325.2123 Walls and floors.

Rule 23. (1) Where the water depth is 6 feet or less, a swimming pool wall shall be vertical or slope uniformly at no more than 1 foot horizontally in 5 feet vertically. Where the water depth is more than 6 feet, the wall shall be vertical or slope uniformly at no more than 1 foot horizontally in 5 feet vertically, either (a) to a water depth of at least 6 feet or (b) to a water depth of at least 3 feet and be curved to the floor with a radius not greater than the difference between the depth at that point and the depth at the point of curvature or (c) to a water depth of at least 3 feet and slope to the floor at no more than 30 degrees from vertical.

(2) The joint between a swimming pool wall and the floor shall be coved with a radius of at least 1 inch. Where the water depth is 6 feet or less, the cove radius shall not exceed 8 inches.

(3) The swimming pool floor shall slope toward the main outlets at no less than 1 foot vertically in 80 feet horizontally.

(4) Where the water depth is 4 feet or less, the swimming pool floor shall slope uniformly at no more than 1 foot vertically in 12 feet horizontally. Where the water depth is between 4 feet and 7 feet, the floor shall slope no more than 1 foot vertically in 3 feet horizontally.

History: 1954 ACS 67, p. 26, Eff. Mar. 24, 1971.

R 325.2125 Water supplies.

Rule 25. (1) The water serving a swimming pool and all plumbing fixtures shall be obtained from a municipal supply if it is available. If it is not available, the water shall be obtained from a supply which meets the rules entitled "Minimum Standards for the Location and Construction of Certain Water Supplies," being R 325.1451 to R 325.1461 of the Michigan Administrative Code.

(2) The supply of water shall be adequate for service to all plumbing fixtures and for furnishing to the swimming pool at least 1 gallon per minute per 1,500 gallons of the swimming pool volume. Water at a temperature of at least 90 degrees Fahrenheit shall be supplied to each shower and lavatory.

History: 1954 ACS 67, p. 26, Eff. Mar. 24, 1971.

R 325.2126 Water supply backflow.

Rule 26. A water supply system serving a swimming pool and all plumbing fixtures shall be protected against backflow. Water introduced into the swimming pool or recirculation system shall be supplied through either of the following:

(a) An acceptable air gap, consisting of an unobstructed vertical distance through the atmosphere of at least 2 diameters of the water supply pipe between the lowest free flowing discharge of the water supply pipe and the overflow level of the receiving tank or vessel.

(b) An approved backflow preventer installation, consisting of a reduced pressure zone backflow preventer which has been accepted by the department and the state board of plumbing and which is installed where it is readily accessible for inspection and maintenance, is not subject to flooding, and has no direct connection between the drain port and a wastewater system.

History: 1954 ACS 67, p. 26, Eff. Mar. 24, 1971.

R 325.2127 Wastewater disposal facilities.

Rule 27. (1) A wastewater disposal facility shall be adequate to serve the entire swimming pool facility. It shall have sufficient capacity to prevent flooding during the swimming pool filter backwash cycle and during draining of the swimming pool.

(2) Sanitary waste shall be discharged to a public sanitary sewerage system if it is available, and wastewater from the swimming pool shall be discharged to a public storm sewerage system if it is available. If a public sanitary sewerage system or a public storm sewerage system is not available, the substitute system shall meet the requirements of the department or designated city, county, or district health department.

(3) A swimming pool and its recirculation system shall be protected against backflow from the sewers. A pipe from the swimming pool or its recirculation system to a sewer shall discharge through an air gap of at least 2 pipe diameters unless the elimination of the air gap can be hydraulically justified.

(4) A permanent facility to enable complete emptying of the swimming pool shall be provided.

History: 1954 ACS 67, p. 27, Eff. Mar. 24, 1971.

R 325.2128 Enclosures.

Rule 28. (1) A swimming pool shall be enclosed completely by a wall, fence or other protective enclosure. The entire enclosure, including doors and gates, shall be at least 4 feet high as measured on the outside, shall not provide ready footing for climbing, and shall prevent passage by children through it. The height of an opening under the bottom of the enclosure shall not exceed 4 inches.

(2) The enclosure shall have at least 1 entrance. Each entrance shall be equipped with a door or gate equipped with self-closing and self-latching mechanisms and a lock. An entrance shall lead to the shallowest area of the swimming pool, except that a service gate for maintenance personnel only may be provided at another location.

(3) Two or more swimming pools may be within a single enclosure, except that a wading pool shall be enclosed separately.

(4) An entrance to a wading pool shall be arranged to prevent traffic directly between it and a swimming pool. An entrance shall not be provided in a common barrier between a wading pool and a swimming pool.

(5) A spectator area shall be separated completely by a barrier without an entrance from an area used by bathers. A balcony shall not overhang any portion of the swimming pool water surface and shall have a continuous curb at least 4 inches high, a suitable barrier at the outer edge, and a separate floor drainage system.

(6) An area for dispensing and consuming food and beverages shall be separated completely by a barrier from an area used by bathers.

History: 1954 ACS 67, p. 27, Eff. Mar. 24, 1971.

R 325.2129 Walkways and decks.

Rule 29. (1) A continuous, unobstructed walkway at least 4 feet wide shall extend completely around a swimming pool. A walkway between 2 swimming pools shall be at least 8 feet wide. An unobstructed walkway at least 3 feet wide shall be provided at the side and behind a piece of diving or deck equipment.

(2) The entire deck area between the swimming pool and the swimming pool enclosure shall be paved or otherwise constructed and maintained to prevent

surface drainage, dirt and other deleterious material from being carried into the swimming pool.

(3) The walkway and the deck shall be of impervious, non-slip and easily cleaned material.

(4) The deck shall be so constructed that pooling of water will not occur. It shall slope at a grade of at least ¼ inch per lineal foot to drains or other unobstructed points of disposal. It shall not slope to the swimming pool or the overflow gutters. A deck drain shall discharge to waste only.

(5) An opening in the deck or walkway within the swimming pool enclosure shall have a locking-type cover which is flush with the deck or walkway surface.

History: 1954 ACS 67, p. 27, Eff. Mar. 24, 1971.

R 325.2131 Drinking fountains.

Rule 31. A drinking fountain of a design acceptable to the department shall be provided inside a swimming pool enclosure. A drinking fountain shall be designed and located to be readily accessible to the bathers and not be a safety hazard. A drinking fountain shall not be located in a toilet area or shower area.

History: 1954 ACS 67, p. 28, Eff. Mar. 24, 1971.

R 325.2132 Water depths, depth markings, and life lines.

Rule 32. (1) In a swimming pool smaller than 800 square feet in area, with a shallow area for walking or standing, the water depth shall not exceed 5½ feet, and no diving board shall be installed. The water depth in a wading pool shall not exceed 18 inches.

(2) The depth of water in a swimming pool shall be plainly marked above the water surface on the swimming pool wall and on the deck next to the swimming pool at maximum and minimum depths, the change in the floor slope between shallow and deeper areas, other critical points, and intermediate points no more than 25 feet apart measured peripherally. A depth marker shall be at each side and at each end of the swimming pool. A marker shall be in legible numerals at least 4 inches high of color contrasting with the background.

(3) The change in floor slope between the shallow area and deeper area, or the 5.0-foot depth if there is no change in slope, shall be clearly designated with a life line. The life line shall be ¾-inch minimum diameter, have floats at 5-foot maximum intervals, and have recessed anchors in both side walls near the water line.

History: 1954 ACS 67, p. 28, Eff. Mar. 24, 1971.

R 325.2133 Diving areas and facilities.

Rule 33. (1) A diving area shall have dimensions conforming to the following:

Maximum Height of Diving Board Above Water	Minimum Distances		
	Water Depth, at End of Diving Board and for 12 feet Beyond	From End of Diving Board to End Wall	From Center of Board to to Side Wall
0.5 meter	8 feet*	2.0 feet	10 feet
1 meter	10 feet	5.0 feet	10 feet
3 meters	12 feet	5.0 feet	12 feet

*Water depth from 5 feet to 12 feet beyond end of the diving board.

(2) A diving facility higher than 3 meters shall not be installed except with specific approval in writing from the department.

(3) A diving board shall be at least 10 feet from an adjacent diving board, center to center.

(4) Free and unobstructed vertical clearance above the diving board of at least 13 feet, or of at least 16 feet if the diving board is more than 12 feet long or is 1 meter or higher above the water, shall be provided throughout a 10-foot diameter circle centered above the end of the diving board over the water.

(5) The diving board, platform and appurtenances shall be constructed to insure stability and safely carry the maximum anticipated loads. The stairway shall be of corrosion-resistant material, easily cleanable, and of non-slip design. A diving board or platform more than 1 meter above the water shall have a handrail on each side of the stairway or ladder leading to it and shall have guard railings.

(6) A diving board shall not extend toward another diving board. A diving board at an outdoor swimming pool shall extend northward or eastward over the water.

History: 1954 ACS 67, p. 28, Eff. Mar. 24, 1971.

R 325.2134 Ladders and stairways.

Rule 34. (1) A swimming pool other than a wading pool and less than 30 feet wide shall have at least 2 means of egress, located at opposite ends. A swimming pool other than a wading pool and 30 or more feet wide shall have at least 2 means of egress at each end, located on opposite sides. A means of egress shall consist of a ladder or stairway. The distance from a point in the swimming pool to a means of egress shall not exceed 50 feet. At least 1 ladder per diving board shall be provided in a diving area.

(2) A swimming pool ladder shall be corrosion-resistant, sturdy, and have non-slip treads, side rails extending over the deck, and no more than 6 inches of clearance to the swimming pool wall. A recessed ladder shall have stepholes that drain into the swimming pool and can be cleaned readily and shall have grab rails at each side, above the deck.

(3) A stairway leading into a swimming pool shall be of non-slip design and shall have uniform size treads of at least 12 inches and uniform size risers of no more than 10 inches. The stairway shall be located where the water depth is 3½ feet or less and where the stairway will not constitute a hazard to swimmers. One sturdy handrail per 12 feet of the stairway width, extending for the length of the stairway, shall be provided.

History: 1954 ACS 67, p. 28, Eff. Mar. 24, 1971.

R 325.2136 Water circulation.

Rule 36. A swimming pool shall be equipped for continuous, uniform circulation of treated water within the swimming pool structure and for continuous removal, treatment and reuse of the water. The water recirculation and treatment system shall be adequate for recirculating and treating the entire swimming pool volume of water in 8 hours or less, and in 2 hours or less for a wading pool, and in less time if necessary to meet the hydraulic design requirements for the surface skimmer system.

History: 1954 ACS 67, p. 29, Eff. Mar. 24, 1971.

R 325.2137 Swimming pool water piping.

Rule 37. (1) Swimming pool water piping shall be of non-toxic material, resistant to corrosion, and able to withstand operating pressures. It shall be copper, galvanized iron, cast iron, aluminum, or other material approved by the department. Plastic pipe approved by the department may be used for the water

recirculation system, except for the inlet and outlet piping between a water heater and the main recirculation system.

(2) The piping shall be designed to carry the required quantities of water at velocities not exceeding 5 feet per second in suction piping and 10 feet per second in pressure piping unless greater velocities can be hydraulically justified.

(3) The piping shall be protected against erosion, corrosion, mechanical damage, and other deterioration. It shall be provided with fittings necessary for disassembly of any part of it. It shall be arranged to allow ready, safe, proper operation and maintenance of the swimming pool facilities.

History: 1954 ACS 67, p. 29, Eff. Mar. 24, 1971.

R 325.2138 Flow controls.

Rule 38. (1) A valve for regulating the rate of flow through a swimming pool shall be provided in the recirculation pump discharge piping.

(2) A rate-of-flow indicator shall be installed for the swimming pool. It shall be located so that the recirculation flow rate will be indicated and so the filter backwash flow rate for sand type filters will be indicated. If the design flow rate is no more than 30 gallons per minute, a rate-of-flow controller approved by the department may be installed instead of a rate-of-flow indicator.

(3) The rate-of-flow indicator shall be a type approved by the department, be of the proper size and design for the pipe and system on which it is to be installed, have a range of readings appropriate for the anticipated flow rates, and be installed where it is readily accessible for reading and maintenance and with straight pipe upstream and downstream from it to any fitting or restriction in accordance with the manufacturer's recommendations.

History: 1954 ACS 67, p. 29, Eff. Mar. 24, 1971.

R 325.2141 Inlets.

Rule 41. (1) A swimming pool water inlet system shall have inlets adequate in design, number, and location to insure uniform distribution of treated water throughout the swimming pool.

(2) An inlet shall be equipped for flow rate adjustment. It shall not extend from the swimming pool wall or floor so as to create a hazard. Except at a wading pool, an inlet fitting shall be either at least 12 inches below the water level or at least 6 inches below it and be designed to direct the flow downward.

(3) One inlet per 20 lineal feet of swimming pool periphery, and more if necessary for uniform circulation of water, shall be provided.

(4) A wall inlet system shall have inlets spaced no more than 20 feet apart as measured along the swimming pool wall. A floor inlet system shall have uniformly spaced inlets. At least 1 inlet shall be located in each recessed stairwell or other space where water circulation might be impaired.

History: 1954 ACS 67, p. 29, Eff. Mar. 24, 1971.

R 325.2142 Main outlets.

Rule 42. (1) A swimming pool shall have 2 or more main outlets in its deepest part for continuous removal of water for treatment and reuse and for emptying the pool. A main outlet shall be no less than 3 feet nor more than 20 feet from another main outlet and no more than 15 feet from a swimming pool wall.

(2) A main outlet opening shall be covered with a grating which is not hazardous to bathers, is secured in place, and is removable with tools. The grate opening area shall be large enough to have water entrance velocities not exceeding 2 feet per second.

(3) Main outlet discharge piping shall be sufficient for removal of the water through it at a rate of at least 100% of the swimming pool design recirculation flow rate. The piping system shall be valved to permit adjustment of flow through it.

History: 1954 ACS 67, p. 30, Eff. Mar. 24, 1971.

R 325.2143 Overflow systems.

Rule 43. (1) A swimming pool not larger than 2,400 square feet in water surface area shall have either overflow gutters or surface skimmers. A swimming pool larger than 2,400 square feet in water surface area shall have overflow gutters, unless the department grants special approval for surface skimmers for the swimming pool.

(2) An overflow gutter shall:

(a) Extend completely around the swimming pool.

(b) Have the overflow lip at the same level throughout.

(c) Be usable as a handhold.

(d) Prevent entrapment of bathers' arms, legs, and feet.

(e) Permit ready inspection, cleaning, and repair.

(f) Prevent overflow water from returning directly to the swimming pool.

(g) Be designed for removal of the water at a rate of at least 100% of the design recirculation flow rate.

(h) Have provisions for discharging the water for treatment and reuse and for discharging the water to waste.

(i) Prevent flow of water between the walkways and the swimming pool.

(3) An overflow gutter recessed into the swimming pool wall shall be at least 6 inches wide and 6 inches deep and shall have a curb at the edge of the walkway. A platform-type overflow gutter shall have a trough at least 8 inches wide and 3 inches deep. Drain fittings in an overflow gutter shall be spaced no more than 15 feet apart, and 1 shall be no more than 3 feet from a major change of direction of the gutter. An overflow gutter drain fitting shall have a grating which has open area at least equal to twice the area of the connecting pipe and which can be removed for cleaning. A facility for reuse of the water shall provide for free discharge from the overflow gutter system into an open tank which has an overflow enough lower than the overflow gutter lip to assure continuous flow of at least 100% of the design recirculation flow rate.

History: 1954 ACS 67, p. 30, Eff. Mar. 24, 1971.

R 325.2144 Surface skimmers.

Rule 44. (1) A swimming pool equipped with surface skimmers shall have at least 2 of them and shall have 1 surface skimmer for every 500 square feet of water surface area or fraction thereof, except that a wading pool smaller than 500 square feet in water surface area may be equipped with 1 surface skimmer. Additional surface skimmers shall be provided if necessary for effective skimming or to meet the hydraulic design requirements. A surface skimmer shall be located to insure proper skimming of the entire water surface with minimum interference and minimum short circuiting.

(2) A surface skimmer shall be of a type approved by the department. It shall be equipped with an automatically adjustable weir and with a device for regulating the flow through it. An equalizer pipe shall have a valve or similar device that will remain tightly closed under normal operating conditions. A surface skimmer shall be built into the swimming pool wall, with no protrusion beyond the wall face or above the deck.

(3) The swimming pool shall be designed for a flow of 30 gallons per minute per surface skimmer and for 80% of the total swimming pool recirculation flow to be through the surface skimmer system. The surface skimmer piping system shall have a valve to permit adjustment of flow through it.

(4) A swimming pool equipped with surface skimmers shall have a continuous coping which will serve as a handhold and will prevent water from flowing from the deck into the swimming pool.

History: 1954 ACS 67, p. 30, Eff. Mar. 24, 1971.

R 325.2145 Recirculation pumps.

Rule 45. (1) The recirculation system shall be equipped with a pump with sufficient capacity for recirculating the swimming pool volume of water within the required time period and for providing flow adequate for backwashing the filters.

(2) The pump shall be of a type approved by the department. If the pump or suction piping is above the swimming pool water level, the pump shall be self-priming. The pump and motor shall be capable of continuous operation.

(3) A gauge to measure the pump discharge pressure and a fitting for installing a gauge to measure the pump suction pressure shall be installed.

(4) If the water is pumped from the swimming pool to the filters, a strainer shall be provided on the suction side of the pump. The strainer basket shall be corrosion-resistant, readily removable, and easily cleanable. It shall have openings no more than ⅛ inch across and a free flow area at least 4 times the pump suction pipe area. The piping system shall be equipped with valves to permit removal of the strainer basket without water flowing through the chamber. A spare strainer basket shall be available at all times.

History: 1954 ACS 67, p. 31, Eff. Mar. 24, 1971.

R 325.2151 Filters.

Rule 51. A swimming pool water treatment system shall have 1 or more filters for clarifying the water. A filter shall be of a type approved by the department. It shall be installed with adequate clearance and facilities for ready and safe inspection, operation, maintenance, disassembly and repair.

History: 1954 ACS 67, p. 31, Eff. Mar. 24, 1971.

R 325.2152 Sand type filters.

Rule 52. (1) A sand type filter system shall have sufficient filter bed area to meet the flow rate required for the prescribed turnover without exceeding the filtration rate approved by the department.

(2) A sand type filter system shall be equipped for backwashing the largest filter at a minimum rate of 15 gallons per minute per square foot of filter bed area and as recommended by the manufacturer. The backwash water shall be discharged to waste. A sight glass or other means for viewing backwash water clarity shall be provided.

History: 1954 ACS 67, p. 31, Eff. Mar. 24, 1971.

R 325.2153 Diatomaceous earth type filters.

Rule 53. (1) A diatomaceous earth type filter system shall have sufficient filtering area to meet the flow rate required for the prescribed turnover without exceeding the filtration rate approved by the department.

(2) A pressure diatomaceous earth type filter system shall be equipped with a precoat pot.

(3) Such a filter system shall provide for discharging the filter effluent to waste or to an open tank for recirculation through the filter, and not to the swimming pool or through a closed recirculation system, during the filter precoat operation. A means for viewing the precoating effluent clarity shall be provided.

(4) Such a filter system shall provide for effectively removing the filter-aid and filtered material from the septums and the filters to waste without disassembly of the filters.

History: 1954 ACS 67, p. 31, Eff. Mar. 24, 1971.

R 325.2154 Filter accessories.

Rule 54. (1) A filter system shall be equipped with valves and piping necessary to isolate individual filters for maintenance and repair and to completely drain all parts of the system.

(2) A pressure type filter system shall be equipped with pressure gauges to indicate the filter influent and effluent pressures. A pressure gauge shall be graduated in pounds per square inch, indicate the pressure to the nearest 1 pound per square inch, have a range of readings appropriate to expected conditions, be of a size and location so it can be read easily, and be mounted at the same elevation as the other pressure gauge.

(3) A pressure filter tank shall have an air release connected to the top to expel air from the tank. The air release shall be equipped for manual operation.

(4) A vacuum type filter system shall be equipped with a vacuum gauge in the piping between the filter and the recirculation pump. The vacuum gauge shall be graduated in inches of mercury, indicate the vacuum to the nearest 1 inch of mercury, have a range of readings appropriate to the expected conditions, and be of a size and location so it can be read easily.

History: 1954 ACS 67, p. 31, Eff. Mar. 24, 1971.

R 325.2156 Disinfectants and other chemicals.

Rule 56. (1) A chemical or other additive for disinfecting or otherwise treating swimming pool water may be used only after it has been demonstrated to the department's satisfaction that it:

(a) Does not create objectionable physiological effects.

(b) Does not impart toxic or other deleterious properties to the water.

(c) Is compatible in the water with other chemicals and processes normally used in swimming pool water treatment.

(d) Can be safely and simply handled and closely controlled in its usage.

(e) Can be measured by readily applied poolside tests to determine its concentration, residual or effectiveness.

(2) A disinfectant may be used only after it has been demonstrated to the department's satisfaction that it is as effective in disinfection as a free available chlorine residual of 0.4 milligrams per liter at a pH of 7.2 when applied in a concentration which is appropriate, practical and safe under swimming pool conditions.

(3) The disinfectant shall be applied at a suitable point in the recirculation system for effective disinfection of the recirculating water.

History: 1954 ACS 67, p. 32, Eff. Mar. 24, 1971.

R 325.2157 Chemical feeders.

Rule 57. (1) A chemical feeder shall be of a type and capacity approved by the department.

(2) The swimming pool shall be equipped for the continuous, controlled application of a chemical for disinfection of the water and the production and maintenance of a suitable residual of the disinfectant in it. The equipment and piping shall be of a material resistant to the action of the chemicals to be used therein and shall be of such size and design that will provide for ready cleaning and for avoiding their clogging.

History: 1954 ACS 67, p. 32, Eff. Mar. 24, 1971.

R 325.2158 Chlorine.

Rule 58. Liquid chlorine (liquefied elemental chlorine gas) shall not be used except with specific approval in writing from the department. Where it is used, the chlorinator and the containers of chlorine shall be housed in a separate, gas-tight, rust-resisting room at ground level. The room shall have a louvered fresh air intake near its top, an airtight duct from its bottom to a suitable outdoor location, and positive ventilation equipment capable of producing 1 complete air change in the room every minute. The room door shall have panic hardware, shall swing outward, shall open to the outdoors, and shall not open onto the swimming pool deck. The room shall have a window at least 18 inches square and artificial illumination so that the essential parts of the clorinator are readily visible from the operating area outside the room. Electrical switches for lighting and ventilation shall be outside and adjacent to the door. Scales for weighing chlorine cylinders in service shall be provided and have the platform at floor level. Chlorine cylinders shall be anchored to prevent their falling over. A gas mask designed for use in a chlorine atmosphere, chlorine leak detection equipment, and chlorine leak repair equipment shall be provided near, but not in, the chlorine room. A positive displacement type chemical feeder for application of chemicals for pH control shall be provided.

History: 1954 ACS 67, p. 32, Eff. Mar. 24, 1971.

R 325.2159 Chemical test equipment.

Rule 59. Equipment for testing the disinfectant residual, the pH, and any other chemical characteristic of the water determined by the department as important in the control of water quality shall be provided at a swimming pool. Test equipment shall be a type approved by the department. When a cyanurate is used, test equipment for cyanuric acid level shall be provided.

History: 1954 ACS 67, p. 32, Eff. Mar. 24, 1971.

R 325.2161 Water heaters and thermometers.

Rule 61. (1) A swimming pool water heater piping system shall be equipped with a bypass to continue recirculation of the water without the heater.

(2) A heating coil, pipe or steam hose shall not be installed in a swimming pool.

(3) A swimming pool shall have a fixed thermometer in the recirculation system at a point in the return piping from the pool to the water treatment equipment, ahead of any pool water heater. A swimming pool equipped with a water heater shall also have a fixed thermometer in the recirculation system at a point downstream from the heated bypass.

(4) A thermometer shall be graduated to indicate temperature to the nearest 2 degrees Fahrenheit in the range of 60 to 100 degrees. It shall be installed where it will measure temperature of the flowing water, can be read easily, and will not be subject to damage.

History: 1954 ACS 67, p. 33, Eff. Mar. 24, 1971.

R 325.2163 Vacuum cleaning systems.

Rule 63. (1) A swimming pool vacuum cleaning system shall be provided for a swimming pool. It shall be capable of removing lint, fine sand and other sediment from the swimming pool floor, be equipped to be readily manipulated from the deck to reach any part of the floor, and provide for discharging the effluent to waste.

(2) When the vacuum cleaning system is an integral part of the swimming pool recirculation system, a connection in the swimming pool wall shall be 8 to 12 inches below the normal water level. Piping from it to the pump shall be at least 1½ inches in diameter, be free of air pockets, and be equipped with a valve and a strainer adjacent to the pump.

History: 1954 ACS 67, p. 33, Eff. Mar. 24, 1971.

R 325.2165 Safety equipment.

Rule 65. (1) A swimming pool other than a wading pool shall be provided with the following safety equipment: 12-foot long rescue pole with blunted ends; ¼-inch diameter throwing rope as long as 1½ times the maximum width of the swimming pool or 50 feet, whichever is less, with 1 end attached to a 15-inch outside diameter ring buoy or a small float; American red cross 16-unit or equivalent first aid kit; stretcher or spineboard; and whistle, megaphone or public address system. This equipment shall be mounted in a readily accessible, well marked place at the swimming pool and shall be kept in repair and ready condition.

(2) A telephone or other suitable means of communication shall be provided on the premises when the swimming pool is open for use.

History: 1954 ACS 67, p. 33, Eff. Mar. 24, 1971.

R 325.2171 Mechanical equipment rooms.

Rule 71. (1) Swimming pool mechanical equipment shall be housed in an approved, properly lighted and ventilated room or space which affords protection from the weather, is readily accessible and convenient for operation and maintenance, prevents unauthorized access, is properly drained, and enables servicing of the equipment.

(2) A hatch-type opening to the mechanical equipment room shall not be located in the swimming pool enclosure.

History: 1954 ACS 67, p. 33, Eff. Mar. 24, 1971.

R 325.2172 Storage areas, offices, and other rooms.

Rule 72. (1) Suitable space shall be provided for storage of chemicals, tools, equipment, supplies, and records where they will be readily available and protected from weather.

(2) A storage area, office, or other room adjacent to a swimming pool shall be accessible from outside the swimming pool enclosure without crossing the deck.

History: 1954 ACS 67, p. 33, Eff. Mar. 24, 1971.

R 325.2174 Bathhouse facilities and design.

Rule 74. (1) A swimming pool shall be provided with dressing, shower, and toilet facilities, except that dressing and shower facilities shall not be required for a wading pool only.

(2) The bathhouse shall be designed to route the swimmers from the dressing rooms to the shower rooms and then directly onto the swimming pool deck, and to return in reverse order.

(3) A dry area toilet room accessible directly from the dressing room and a wet area toilet room accessible directly from the shower room shall be provided. A wet area toilet room shall be located where the people will be routed from it to the shower room on their way to the swimming pool.

(4) Omission of part or all of the poolside shower and toilet facilities may be approved for a swimming pool at a motel, apartment complex, or the like when others nearby are readily accessible from the swimming pool. The extent of permissible reductions from the minimum bathhouse fixtures prescribed by R 325.2175 shall depend upon the number and accessibility of the nearby facilities.

History: 1954 ACS 67, p. 33, Eff. Mar. 24, 1971.

R 325.2175 Bathhouse plumbing fixtures.

Rule 75. (1) A bathhouse shall have showers and toilet facilities as follows:

Minimum Bathhouse Fixtures

Swimming Pool Area in Square Feet*	Showers for Each Sex**	Toilet Fixtures		
		For Males		For Females
		Water Closets	Urinals	Water Closets
Up to 1,200	2	2	2	2
2,400	4	4	2	4
4,800	6	4	4	6
7,200	8	4	6	7
9,600	10	6	6	9

*The number of fixtures for another size shall be interpolated.

**At a swimming pool used by school classes, 1 shower for every 3 people in the largest class shall be provided for each sex.

(2) A shower shall be enclosed either individually or in a room with others.

(3) A toilet room for males shall have at least 1 water closet, 1 urinal, and 1 lavatory. A toilet room for females shall have at least 1 water closet and 1 lavatory. A toilet facility for a wading pool only shall have at least 1 water closet and 1 lavatory.

(4) A dry area toilet room shall have 1 lavatory for every 2 toilet fixtures, including urinals.

(5) The bathhouse shall have hose and hose connections adequate for cleaning it.

History: 1954 ACS 67, p. 34, Eff. Mar. 24, 1971.

R 325.2176 Bathhouse construction.

Rule 76. (1) A bathhouse shall be designed and constructed to promote safe, sanitary conditions.

(2) A bathhouse floor, wall, or partition shall be of smooth-finished, non-slip, impervious material, with no open joints or cracks. A junction between the floor and a wall or partition shall be coved. The floor shall be sloped to drains.

(3) A partition between stalls shall either terminate at least 10 inches above the floor or be placed on a continuous raised masonry or concrete base at least 4 inches high. A stall curtain shall be of fire-resistant material of a texture that will discourage its use as a towel.

(4) A locker shall be of rigid construction and properly vented. It shall be set on legs with the bottom of the locker at least 10 inches above the floor or on a solid masonry base at least 4 inches high.

History: 1954 ACS 67, p. 34, Eff. Mar. 24, 1971.

R 325.2178 Foot sprays.

Rule 78. A foot spray shall be provided at a swimming pool enclosure entrance other than through a shower room. A foot spray shall be supplied from the potable water system, have a spray head 18 to 24 inches above the walkway and a conveniently located valve, be arranged to spray the bathers from knees to feet as they enter the enclosure, and have a drain to discharge the water immediately to an outlet without ponding at the drain. A foot spray shall be located where it will be effective without creating an accident hazard.

History: 1954 ACS 67, p. 34, Eff. Mar. 24, 1971.

R 325.2181 Plumbing, electrical, heating, and ventilating equipment.

Rule 81. (1) The water and wastewater piping and fixtures, except piping in a swimming pool water recirculation system, shall be subject to provisions of the state plumbing law and code. A hose bib shall be provided within the swimming pool enclosure.

(2) Electrical wiring and equipment shall be installed in accordance with requirements of the state electrical board.

(3) The lighting system shall illuminate sufficiently the entire swimming pool area, bathhouse, mechanical equipment room, and storage areas for safe operation. The lighting system shall not cause glare in the swimming pool enclosure. A fixture shall be protected against breakage.

(4) A bathhouse, mechanical equipment room, storage area or an indoor swimming pool enclosure shall be adequately heated and ventilated. A heating unit shall be kept from contact with swimmers. A fuel-burning heating unit shall be properly vented to the outdoors. Room ventilation shall prevent direct drafts on swimmers and shall minimize condensation damage.

History: 1954 ACS 67, p. 35, Eff. Mar. 24, 1971.

PART 3. OPERATION AND USE

R 325.2191 Swimming pool facilities.

Rule 91. (1) A door or gate in a swimming pool enclosure shall be kept closed when not in use and shall be locked when the swimming pool is not open for use.

(2) Safety equipment shall not be used for any but its intended purpose and shall not be removed from its established location.

(3) The swimming pool wall, floor, walkway, deck, and bathhouse floor shall be kept clean and free from accumulations of algae.

(4) A chemical shall be stored in the original container, away from flammables and heat, in a clean, dry, well ventilated place which prevents unauthorized access to it.

(5) Where swimming suits or towels or both are furnished to swimming pool users, they shall be laundered after each usage by a method approved by the department. The supply of clean suits and towels shall be kept separated in storage and handling from used, unlaundered ones.

(6) Soap shall be provided at each lavatory and at each shower.

History: 1954 ACS 67, p. 35, Eff. Mar. 24, 1971.

R 325.2192 Swimming pool use.

Rule 92. (1) A person having an infectious or communicable disease shall be excluded from a swimming pool. A person with a bandage or with a possibly infectious condition such as a cold, skin eruption, open blister, or inflamed eyes shall be excluded from a swimming pool. A person with such a condition may be granted use of a swimming pool upon presentation of a physician's written statement that the condition is not communicable.

(2) A person using a swimming pool shall take a cleansing shower bath in the nude, using warm water and soap and thoroughly rinsing off all soap suds, before entering the swimming pool enclosure. A person leaving the swimming pool to use toilet facilities shall take another cleansing shower bath before returning to the swimming pool.

(3) The apparel worn in a swimming pool shall be clean.

(4) Spitting or otherwise polluting the swimming pool water or related facilities is prohibited.

(5) Running, boisterous or rough play except supervised water sports shall not be permitted in the swimming pool enclosure or bathhouse.

(6) A person in street clothes or shoes, except a person whose official duties require that he enter the swimming pool enclosure, shall not be permitted in it.

(7) Glass, soap, lotion, or other material which might create hazardous conditions or interfere with efficient operation of the swimming pool shall not be permitted in the swimming pool enclosure. Food or drink shall be permitted only in an area separated completely by a barrier from an area used by bathers.

History: 1954 ACS 67, p. 35, Eff. Mar. 24, 1971.

R 325.2193 Bather loads.

Rule 93. (1) The number of persons in bathing attire within a swimming pool enclosure shall not exceed the bather load limit established by the department.

(2) The bather load limit shall not exceed the sum of 7 persons per 100 square feet of water surface area where the water depth does not exceed 5 feet, 4 persons per 100 square feet of water surface area where the water depth is greater than 5 feet, and 1 person per 100 square feet of usable deck area within the swimming pool enclosure. A smaller bather load limit may be established for irregular conditions.

(3) The bather load limit shall be posted by the owner or operator at a conspicuous place within the swimming pool enclosure.

History: 1954 ACS 67, p. 35, Eff. Mar. 24, 1971.

R 325.2194 Water quality standards.

Rule 94. (1) A suitable residual of the disinfectant shall be maintained throughout the swimming pool water. The water shall be tested frequently enough before and during each period of swimming pool usage to assure maintenance of suitable residuals. The minimum disinfectant residual maintained, in milligrams per liter, shall be as follows:

Disinfectant	Type of Residual	pH	
		7.2 - 7.6	Higher than 7.6
Bromine	Bromine	1.0	2.0
Chlorine	Free available chlorine	0.4	1.0
Chlorinated cyanurate	Free available chlorine	1.0	1.5

The minimum disinfectant residual maintained with a different disinfectant shall be that which is as effective as a free available chlorine residual of 0.4 milligrams per liter at a pH of 7.2.

(2) The pH of the swimming pool water shall be maintained between 7.2 and 8.0 unless the department gives approval for a variance from this range. The pH shall be tested at least once each day and more frequently if necessary for control.

(3) The cyanuric acid level of the swimming pool water shall not exceed 200 milligrams per liter. When a cyanurate is used, the cyanuric acid level shall be tested at least once each week and more frequently if necessary for control.

(4) The water temperature of an indoor swimming pool shall not be less than 76 nor more than 86 degrees Fahrenheit except with approval from the department.

(5) A swimming pool shall be used only when the water is sufficiently clear that the main outlet grating is clearly discernible from the edge of the swimming pool at a horizontal distance up to 10 yards.

(6) If a swimming pool becomes polluted with feces, vomit, sewage, or other material, the swimming pool shall be closed from use immediately. It shall be drained, scrubbed, and refilled, or other suitable action taken as approved by the department before further usage.

(7) Visible dirt on the bottom of the swimming pool shall be removed at least once each day. Visible scum or floating material on the water surface shall be removed within 1 day.

History: 1954 ACS 67, p. 36, Eff. Mar. 24, 1971.

R 325.2195 Bacteriologic analysis.

Rule 95. (1) A water sample for bacteriologic analysis shall be collected from a swimming pool at least once each week, or more often if directed by the department or by the designated city, county or district health department when unusual conditions dictate, and shall be submitted promptly to a laboratory acceptable to the department. The department may reduce the sampling frequency if there are both an acceptable history of bacteriologic quality and bi-weekly inspections of the swimming pool by representatives of the department or of the designated city, county or district health department. The swimming pool owner or operator shall be responsible for collection and analysis of the sample but may arrange for them with the department or the designated city, county or district health department. The water sample shall be collected and examined in accordance with procedures acceptable to the department.

(2) The presence of organisms of the coliform group, or a standard plate count of more than 200 bacteria per milliliter, or both, in 2 consecutive samples or in more than 10% of the samples in a series shall be deemed as unacceptable water quality.

History: 1954 ACS 67, p. 36, Eff. Mar. 24, 1971.

R 325.2196 Water treatment.

Rule 96. (1) Swimming pool water shall be recirculated, filtered and disinfected continuously, at a flow rate sufficient to recirculate the swimming pool volume of water within the required time period, without interruption except for cleaning the filters, other maintenance and repairs.

(2) A swimming pool shall not be used when water treatment equipment is not functioning properly.

(3) The water level in a swimming pool shall be maintained at an elevation suitable for continuous skimming flow into the overflow system without flooding it.

R 325.2197 Supervisory personnel.

Rule 97. A person knowledgeable in the operation of the water treatment equipment and in testing the water shall be on duty in the immediate vicinity of a swimming pool when it is open for use.

History: 1954 ACS 67, p. 37, Eff. Mar. 24, 1971.

R 325.2198 Lifeguards.

Rule 98. (1) One person meeting the lifeguard qualifications for every 75 people within the swimming pool enclosure shall be on duty in the enclosure when the swimming pool is open for use, unless the swimming pool is not more than 2,400 square feet in water surface area and is at a motel, hotel, apartment, trailer coach park or resort.

(2) A lifeguard shall:

(a) Be a capable swimmer and be competent in life saving methods.

(b) Be trained in administration of artificial respiration and other first aid measures.

(c) Have satisfactorily completed a senior course of instruction in life saving and water safety as offered by the American red cross or the young men's Christian association. The valid and current certificate of completion of the course of instruction shall be at the swimming pool when the swimming pool is open for use.

(d) Be dressed suitably to enter the water and act in an emergency.

(e) Not engage in activities which would distract his attention from proper supervision of persons using the swimming pool or prevent immediate attention to a person in distress in the water.

(f) Have authority and responsibility to enforce rules pertaining to safety and sanitation.

(3) At a swimming pool where lifeguard service is not required and is not provided, a warning sign stating "Warning. No lifeguard on duty," in clearly legible letters at least 4 inches high shall be posted prominently.

History: 1954 ACS 67, p. 37, Eff. Mar. 24, 1971.

R 325.2199 Operation reports.

Rule 99. A swimming pool operator shall record daily, on a report form furnished by the department, the swimming pool operational data. He shall submit the completed operation report to the department or the designated city, county or district health department within 10 days after the end of the month.

History: 1954 ACS 67, p. 37, Eff. Mar. 24, 1971.

OFFICE OF DIRECTOR

AMBULANCES

(By authority conferred on the director of public health by section 2 of Act No. 258 of the Public Acts of 1968, being §257.1202 of the Michigan Compiled Laws)

R 325.2201 Definitions.

Rule 1. (1) The terms used in these rules have the same meaning as prescribed in the act.

(2) "Act" means Act No. 258 of the Public Acts of 1968, being §§257.1201 to 257.1217 of the *Michigan Compiled Laws*.

(3) "Nonprofit volunteer ambulance" as used in the act means an ambulance owned or operated by a group of individuals joined together for the express purpose of providing ambulance service to a community on a nonprofit basis.

History: 1954 ACS 60, p. 44, Eff. Nov. 14, 1969.

R 325.2202 Ambulance licenses; applications and issuance.

Rule 2. (1) An application for an ambulance license shall be made on forms provided by the director. The check or other instrument for the fee prescribed in the act shall be made payable to the State of Michigan and shall accompany the application.

(2) A temporary license shall be issued to a new applicant for a period of 6 months when the application shows that the applicant complies with the minimum requirements of the act.

(3) A conditional license shall be issued for a limited period to allow the applicant to correct deficiencies and comply with the minimum requirements of the act.

(4) An annual license shall be issued:

(a) Following a temporary license when inspection shows that the ambulance is in compliance with the act and these rules.

(b) Following a conditional license when inspection shows that deficiencies have been corrected.

(c) Upon renewal application when the ambulance is in compliance with the act and these rules.

(5) An ambulance license remains the property of the department of public health.

History: 1954 ACS 60, p. 45, Eff. Nov. 14, 1969.

R 325.2203 Ambulance licenses; expiration, termination, and display.

Rule 3. (1) An ambulance license expires on June 30 of each year and an application for renewal shall be made at least 1 month before that date for continuation without a lapse.

(2) A change in ambulance ownership terminates the license and requires a new application and a new license.

(3) An ambulance license sticker shall be displayed on the right side window of the ambulance so it is visible from the outside of the ambulance. An unlicensed vehicle shall not display a license sticker.

(4) An ambulance license shall be available for inspection at the base station of the ambulance.

History: 1954 ACS 60, p. 45, Eff. Nov. 14, 1969.

R 325.2204 Ambulance attendant and attendant-driver licenses.

Rule 4. (1) An application for an ambulance attendant or attendant-driver license shall be made on forms provided by the director. The fee prescribed in the act shall be payable to the State of Michigan and shall accompany the application.

(2) An ambulance attendant or attendant-driver license shall be issued to an individual who meets the requirements of the act for attending patients carried by an ambulance.

(3) An attendant and an attendant-driver shall have a currently valid certificate evidencing successful completion of the advanced course in first aid given by the American red cross, the U.S. bureau of mines, or the equivalent, including *medical self-help or St.* John's ambulance corps training, certification by the

national ambulance training institute, or recognized training as a medical corpsman in the armed forces.

(4) A nonrenewable temporary attendant license shall be issued for a period of 90 days to an individual who:

(a) Meets all requirements of the act except as to training.

(b) Has completed a minimum of 10 hours of training in 1 of the training programs described in subrule (3).

(c) Is enrolled in 1 of the training programs described in subrule (3).

(d) Is accompanied by a licensed attendant or attendant-driver while performing duties as an attendant.

(5) A license is valid for 1 year, unless otherwise stated.

(6) The license remains the property of the department of public health.

(7) The license shall be carried by the licensee while performing the duties for which he is licensed.

History: 1954 ACS 60, p. 45, Eff. Nov. 14, 1969.

R 325.2205 Ambulance equipment.

Rule 5. (1) An ambulance shall carry a minimum of first aid equipment as recommended by the committee on trauma of the American college of surgeons or its equivalent, and appearing in appendix A.

(2) Oxygen equipment shall consist of at least 2 series D or E oxygen cylinders, or the equivalent, with reducing valves and appropriate mask.

(3) An ambulance shall carry a minimum of 2 stretchers or cots, 1 or both of which may be a folding stretcher and shall have a means of securing a stretcher or cot in a stationary position.

History: 1954 ACS 60, p. 45, Eff. Nov. 14, 1969.

R 325.2206 Sanitation and equipment condition.

Rule 6. (1) The interior of an ambulance and the equipment in the ambulance shall be clean and sanitary and maintained in good working order at all times.

(2) Equipment shall be of smooth and easily cleanable construction.

(3) Freshly laundered or disposable linen shall be provided on a cot used to transport a patient. The linen shall be changed after each patient is transported. Clean linen storage shall be provided. Pillows and mattresses shall be kept clean and in good repair. Protective covers shall be provided. Blankets shall be laundered or dry cleaned at reasonable intervals.

(4) A closed compartment, kept free from dust, insects and rodents, shall be provided in the ambulance for first aid supplies. This compartment may be a portable container.

(5) A covered container or compartment shall be provided for soiled supplies where deemed necessary.

(6) Storage spaces used for storage of linens, equipment, first aid and other supplies at base stations shall be kept clean and free from unnecessary articles.

(7) An implement to be inserted into a patient's nose or mouth should be single-service, wrapped, and properly stored and handled. The local health department shall be consulted for instructions in sanitization and handling of multiple-use items when used.

(8) The exterior surface of an ambulance shall be cleaned routinely.

(9) When an ambulance has been used to transport a patient known to the owner of the ambulance service or his agent to have a communicable disease other than a common cold, the vehicle shall be cleansed and all contact surfaces shall be washed with soap and water before another patient is transported.

APPENDIX A

Minimal Equipment List
for
Ambulances and Dual Purpose Vehicles Serving as Ambulances
Approved by the Committee on Trauma,
American College of Surgeons, as Published in
Bulletin of the American College of Surgeons
Volume 52, March-April, 1967, Number 2.

1. Hinged half-ring lower extremity splint with webbing ankle hitch.
2. Two or more padded boards, 4½ feet long by 3 inches wide, and 2 or more similar padded boards, 3 feet long by 3 inches wide, of material comparable to 4-ply wood, for coaptation splinting of fracture of leg or thigh.
3. Two or more padded 15-inch by 3-inch wood or cardboard splints for fractures of the forearm.
4. Short and long spine boards with accessories.
5. Oxygen tanks and masks of assorted sizes.
6. Hand-operated bag-mask resuscitation unit with adult-, child-, and infant-size masks, a unit which can be attached to oxygen supply being preferred.
7. Simple suction apparatus with catheter.
8. Mouth-to-mouth, 2-way resuscitation airways for adults and children.
9. Oropharyngeal airways.
10. Mouth gags made of 3 tongue blades taped together and padded.
11. Universal dressing, approximately 10 inches by 36 inches, packaged folded to 10 inches by 9 inches.
12. Sterile gauze pads.
13. One-, 2-, and 3-inch adhesive tape on cylinder.
14. Six-inch by 5-yard soft roller-type bandages.
15. Triangular bandages.
16. Safety pins, large size.
17. Shears for bandages.
18. Several pillows.

History: 1954 ACS 60, p. 46, Eff. Nov. 14, 1969.

BUREAU OF HEALTH CARE ADMINISTRATION

ADVANCED EMERGENCY MEDICAL SERVICES

(By authority conferred on the department of public health by section 8 of Act No. 275 of the Public Acts of 1974, being §338.1908 of the Michigan Compiled Laws)

PART 1. DEFINITIONS

R 325.2211 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 275 of the Public Acts of 1974, being §338.1901 et seq. of the Michigan Compiled Laws and known as the advanced emergency medical technician practices act.

(b) "Advanced emergency medical technician course" means a training program which is specifically structured in course content and which meets the criteria guidelines set forth by the department.

(c) "Advanced emergency vehicle" means a private or publicly owned vehicle complemented with advanced life support equipment which is intended, maintained, and operated for on-the-scene advanced emergency treatment.

(d) "Advisory council" means the Michigan emergency services health council appointed by the director.

(e) "Airway intubation" means the insertion of a tube into the upper respiratory tract.

(f) "Appropriate drugs" means those drugs introduced into a patient's system under the authorization of a licensed physician or a registered nurse designated by the physician.

(g) "Basic emergency medical technician course" means a training program dealing in areas of basic life support technologies, which meets the recommendations of the United States department of transportation and has been approved by the department.

(h) "Cardiac monitoring" means the use of an apparatus which displays an electrocardiogram.

(i) "Cardiopulmonary resuscitation" means the application of artificial ventilation and external cardiac compression, by physical means, to provide adequate circulation and ventilation to a patient suffering from a cardiac arrest.

(j) "Communications failure" means the loss of communications, either verbal or telemetry, between the certified advanced emergency medical technician and the attending licensed physician or registered nurse designated by the physician, at a time when advanced emergency care is being administered.

(k) "Continuing education" means a training program, approved by the department, designed to assist the certified advanced emergency medical technician in maintaining the skill levels of the technician.

(l) "Cooperating hospital" means a licensed hospital which is capable of receiving transmitted electrocardiogram data and maintaining verbal communication between the scene of the emergency and the licensed physician, or registered nurse designated by the physician, and the hospital 24 hours a day, 7 days a week.

(m) "Defibrillation" means the application of a DC electrical shock to terminate life-threatening ventricular arrhythmias.

(n) "Emergency medical services advisory committee" means a committee chaired by a licensed physician, designated by a cooperating hospital and approved by the department, to coordinate all aspects of the hospital advanced emergency medical services system.

(o) "Gastric intubation" means the insertion of a tube into the upper gastrointestinal tract through the naso-pharynx or oral-pharynx.

(p) "Licensed physician" means a medical doctor or doctor of osteopathy possessing a valid license to practice in the state.

(q) "Program coordinator" means the licensed physician who is responsible for a state-approved advanced emergency medical technician training program.

(r) "Relief of pneumothorax" means the introduction of a needle into the pleural cavity for purposes of decompression.

(s) "Telemetry" means the electronic transmission of biological data.

(t) "Training center" means a college, university, medical school, licensed hospital, or other organization having access to clinical facilities through a licensed hospital acceptable to the department for purposes of conducting an advanced emergency medical technician training program.

(2) The terms and definitions used in the act have the same meaning given therein when used in these rules.

History: 1954 ACS 90, p. 11, Eff. Jan. 13, 1977.

PART 2. ADVANCED EMERGENCY MEDICAL TECHNICIAN CERTIFICATION

R 325.2221 List of persons successfully completing program; applications for examination and certification.

Rule 21. (1) The program coordinator of an advanced emergency medical technician training program shall provide the director with a written list of each person, including the home address and telephone number of each person, who has successfully completed the advanced emergency medical technician training program. The list shall be made available to the department not later than 30 calendar days following course completion.

(2) The department shall furnish each training center, upon request by the program coordinator, applications for examination and certification, for distribution to each candidate.

(3) The application shall be completed and returned to the department within 1 year of course completion. An application received by the department subsequent to this time period may be accepted if the applicant submits proof of having completed a refresher training program approved by the department.

History: 1954 ACS 90, p. 12, Eff. Jan. 13, 1977.

R 325.2222 Written and practical examination; notice; rescheduling; refresher training program.

Rule 22. (1) The director or the designee of the director shall make available a written and practical examination to all successful graduates of an advanced emergency medical technician training program that has been approved by the department.

(2) A candidate shall obtain a passing score on the written examination before being permitted to participate in the practical examination.

(3) Each known candidate shall be notified by the department as to time, date, and location of the examinations.

(4) An individual who for good cause is unable to attend the examination session as scheduled, and who has so notified the department in writing, shall be rescheduled for another examination date.

(5) A candidate for certification who fails to take the examination within 1 year following course completion shall be required to successfully complete a refresher training program, approved by the director, prior to admission to a subsequent examination.

History: 1954 ACS 90, p. 13, Eff. Jan. 13, 1977.

R 325.2223 Failure on examination; reexamination.

Rule 23. (1) A candidate for certification who fails an examination shall be permitted to be reexamined not more than 2 consecutive times beyond the initial written or practical examinations.

(2) A candidate who fails to attain a passing score on either the written or practical examinations in 3 attempts shall be required to retake and successfully complete an advanced emergency medical technician course approved by the department and then to reapply to the department for examination for certification.

(3) A provisionally certified advanced emergency medical technician shall lose provisional status if the passing of either the written or practical examination is not attained following 2 total attempts.

History: 1954 ACS 90, p. 13, Eff. Jan. 13, 1977.

R 325.2224 Issuance and effect of certificate; change of name or address; valid license or certificate from another state; duration of certificate.

Rule 24. (1) The department shall issue a certificate to each applicant who successfully meets the requirements of section 4 of the act and these rules. The certificate shall state the name of the applicant and shall serve to notify all concerned that the named applicant is certified, in accordance with the act, as an advanced emergency medical technician. The certificate holder shall notify the department of any change of name or address.

(2) An advanced emergency medical technician who possesses a valid license or certificate from another state, and who wishes to practice in Michigan, shall present to the department a copy of that person's valid license or certificate, and shall be required to successfully pass the written and practical examinations prior to becoming employed as a certified advanced emergency medical technician.

(3) A certificate shall be valid for 3 years from date of issue unless earlier revoked or suspended by the director.

History: 1954 ACS 90, p. 13, Eff. Jan. 13, 1977.

R 325.2225 Recertification; notice; proof of program completion; examination.

Rule 25. (1) A certified advanced emergency medical technician who practices in this state shall be recertified every 3 years.

(2) Not less than 6 months prior to the date of certification expiration, a notice of requirement for recertification shall be sent to the last known address of the certified advanced emergency medical technician. Failure to receive the notice of renewal requirement does not relieve the party in question of the responsibility of renewing his certification.

(3) Prior to participation in the recertification examination, the certified advanced emergency medical technician shall provide the department with proof of completion of continuing education programs approved by the department.

(4) The department or its designee shall administer a written and practical examination for purposes of recertification. An individual who, for good cause, is unable to attend the recertification examination as scheduled, and who has so notified the department in writing, shall be rescheduled for another examination date.

History: 1954 ACS 90, p. 13, Eff. Jan. 13, 1977.

R 325.2226 Failure to pass recertification examination; expiration of certification.

Rule 26. (1) A candidate who fails to attain a passing score on either the written or practical examination for recertification, following 3 total attempts, shall be required to successfully complete an advanced emergency medical technician course approved by the department prior to subsequent reexamination.

(2) An individual whose certification has expired shall satisfactorily complete a refresher training course approved by the department prior to examination.

History: 1954 ACS 90, p. 14, Eff. Jan. 13, 1977.

R 325.2227 Denial, revocation, or suspension of certification; grounds; complaint; investigation; notice; cease and desist order.

Rule 27. (1) The department may deny, revoke, or suspend certification upon proof that a person:

(a) Is guilty of fraud or deceit in procuring, or attempting to procure, certification to practice as an advanced emergency medical technician.

(b) Has been convicted of a criminal offense of a nature inconsistent with certification as an advanced emergency medical technician, as determined by the director.

(c) Is addicted to, or has illegally obtained, possessed, used, or distributed, habit-forming drugs or narcotics.

(d) Has practiced as an advanced emergency medical technician after certification has expired, has been revoked, or has been suspended.

(e) Has violated, or aided or abetted others in the violation of, the act or these rules.

(2) Upon filing of a written complaint with the department, charging a person with any of the acts described in subrule (1), the department shall conduct an investigation. If grounds for the suspension or revocation of an existing certificate exist, the department shall inform the certificate holder.

(3) If the department finds that the public health, safety, or welfare requires emergency action, and incorporates this finding into the revocation or suspension notice, the department may issue a temporary order requiring the certified advanced emergency medical technician to immediately cease and desist practice as an advanced emergency medical technician pending completion of a hearing and determination.

History: 1954 ACS 90, p. 14, Eff. Jan. 13, 1977.

R 325.2228 Notice of intended action and reasons therefor; notice of right to hearing.

Rule 28. (1) Prior to the director's determination to suspend or revoke an existing certificate, the director shall give the certificate holder a written notice of intent, setting forth the intended action and reasons therefor.

(2) Notification to the certificate holder shall be by certified mail and shall include notice of the certificate holder's right, within 30 days, to request a hearing according to Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 90, p. 14, Eff. Jan. 13, 1977.

PART 3. ADVANCED MOBILE EMERGENCY CARE SERVICE

R 325.2231 Advanced mobile emergency care services; requirements.

Rule 31. (1) A service which intends to operate as an advanced mobile emergency care service shall:

(a) Submit to the department a formal application to render that service.

(b) Receive approval from the department prior to implementation of the service.

(c) Provide the department with a current list of the names of the certified advanced emergency medical technicians employed by that service.

(d) Notify the department of the prime geographical service area in which it intends to operate.

(e) Maintain, on a standard report form provided by the department, accurate files on cases which require the use of advanced emergency skills. The files shall be made available to the department for review.

(f) Inform the department of an advanced mobile care unit placed in service, or permanently removed from service, within 10 working days of the transition date.

(g) Acquire and replace drugs, hypodermic syringes, and hypodermic needles through a licensed hospital pharmacy and under the direct supervision of a licensed hospital pharmacist.

(h) Obtain a prescription or medication order from the prescriber for the replacement of a drug, hypodermic syringe, and hypodermic needles used.

(i) Obtain any replacement of drugs, hypodermic syringes, and hypodermic needles through a licensed hospital pharmacy.

(j) Provide the licensed hospital pharmacist with a written proof-of-use record of a drug dispensed before replacement is made.

(k) Have a licensed hospital pharmacist inspect, not less than quarterly, the drug inventory of a vehicle, and replace drugs, as deemed appropriate, in accordance with all state and federal regulations.

(l) Provide drug storage containers, which shall have an inventory of contents attached in full view on the outside or inside of the container. All storage containers shall be sealed and secured by the licensed hospital pharmacist.

(m) Stock only those drugs which have been approved by the advisory committee of the cooperating hospital.

(n) Comply with procedures of drug storage, security, dispensing, and accountability in accordance with R 338.486.

(2) An advanced mobile emergency care service based in an adjacent state, whose service area includes part of Michigan, shall comply with the act and these rules.

History: 1954 ACS 90, p. 14, Eff. Jan. 13, 1977.

R 325.2232 Advanced mobile emergency care vehicles; requirements.

Rule 32. An advanced mobile emergency care vehicle shall:

(a) Be evaluated on a periodic basis by the department to ensure compliance with these rules.

(b) Be equipped with a defibrillator; a 2-way radio system which is capable of providing both 1-way telemetry and 2-way verbal communications between the emergency scene and the licensed physician, or the designee thereof, stationed at the cooperating hospital; a portable radio component capable of establishing and maintaining the above telemetry and verbal communications at a minimal distance of ½ mile, over average terrain, from the advanced mobile emergency care unit; an electrocardiogram monitor capable of direct interface into the portable radio component and into an ordinary telephone terminal for direct data transmission by either means to the cooperating hospital; and an inventory of drugs and intravenous fluids deemed essential by the advisory committee of the cooperating hospital.

(c) If in service prior to July 1, 1976, be equipped to transmit telemetry by ordinary telephone receivers to the cooperating hospital and be equipped with a mobile or portable radio capable of 2-way voice contact with the cooperating hospital. A vehicle placed in operation subsequent to July 1, 1976, shall be equipped with radio telemetry and 2-way voice equipment with portable

capability at the scene of an emergency. Effective July 1, 1978, all advanced mobile emergency care vehicles shall be equipped with radio capabilities as described.

(d) Be equipped with an inventory of basic life support supplies specified in the most current version of the American college of surgeons' essential list for ambulances, and with other types of equipment deemed necessary by the emergency medical services advisory committee or by the department. Non-transporting vehicles shall be exempt from carrying patient litters and equipment permanently installed in an ambulance for use in transport.

History: 1954 ACS 90, p. 15, Eff. Jan. 13, 1977.

R 325.2233 Cooperating hospitals; requirements.

Rule 33. A licensed hospital wishing to serve as a cooperating hospital to an advanced mobile emergency medical care service shall:

(a) Establish an emergency medical services advisory committee, which shall be chaired by a licensed physician and be composed of at least a licensed pharmacist, a registered nurse, and a certified advanced emergency medical technician.

(b) Be staffed by licensed physicians available on a 24-hour, 7-day week basis.

(c) Provide the department with the name of the chairman of the emergency medical services advisory committee.

(d) Be capable of receiving transmitted electrocardiogram data and maintaining verbal communications with a certified advanced emergency medical technician at any scene of an emergency through an advanced mobile emergency care communications system, as specified in R 325.2232(b).

History: 1954 ACS 90, p. 15, Eff. Jan. 13, 1977.

R 325.2234 Communications.

Rule 34. A cooperating hospital and advanced mobile emergency care service shall:

(a) Develop a radio communications plan coordinated through the department.

(b) Secure radio equipment licensed by the federal communications commission for medical telemetry.

(c) Obtain radio equipment which meets equipment design specifications established by the department.

History: 1954 ACS 90, p. 16, Eff. Jan. 13, 1977.

PART 4. ADVANCED EMERGENCY MEDICAL TECHNICIAN TRAINING PROGRAM

R 325.2241 Advanced emergency medical technician training program; requirements.

Rule 41. An advanced emergency medical technician training program shall:

(a) Be approved by the department prior to implementation.

(b) Be coordinated under the direction of a licensed physician.

(c) Be monitored by the department.

(d) Address student competencies based upon a format developed by the department.

(e) Include clinical learning experiences in affiliation with a licensed hospital.

(f) Address clinical activities in an educational context, with clearly stated behavioral objectives and performance criteria by which to evaluate, on a

continuous basis, the student proficiency and to determine relatedness of clinical and academic components.

History: 1954 ACS 90, p. 16, Eff. Jan. 13, 1977.

R 325.2242 Training centers; requirements.

Rule 42. A training center shall:

(a) Make formal application to the department to conduct an advanced emergency medical technician training program.

(b) Conduct programs in adequate classrooms and laboratories, with appropriate modern, functional equipment and supplies in sufficient quantities, and provide a readily accessible library containing adequate, up-to-date resources of current emergency medical technician texts, periodicals, and other reference materials pertinent to the training program.

(c) Make available to the department textbooks and learning materials for purposes of review.

(d) If a college or university, develop and make available to the department a formal contractual agreement with the licensed hospital providing the clinical learning atmosphere. The agreement shall incorporate areas of shared responsibility and areas of separate responsibility.

(e) Select students for admission to the program by use of an admissions committee. The committee shall include the program coordinator.

(f) Establish an advisory committee for purposes of reviewing the curriculum and course content. The committee shall be composed of, but not be limited to, the program coordinator, a practicing licensed physician, a registered nurse, and a certified advanced emergency medical technician.

(g) Provide the student with a statement indicating that the training program is approved by the department.

(h) Not discriminate against an applicant or student on the basis of sex, color, race, or creed.

(i) Provide the student with the objectives of the training program and with the requirements which shall be met to satisfactorily complete the program.

(j) Provide the department with a current curriculum vitae of the program coordinator and the principal faculty members, outlining the details of education, training, and experience.

(k) Maintain records for each student, which shall include all documents submitted by an applicant for admission.

(l) Maintain records of attendance and achievement in both academic and clinical aspects of the program.

(m) Periodically evaluate and record student performances, using written and practical examinations.

History: 1954 ACS 90, p. 16, Eff. Jan. 13, 1977.

R 325.2243 Program coordinators; qualifications and duties.

Rule 43. A program coordinator shall possess a current license to practice medicine, and shall:

(a) Be responsible for assisting in the organization, administration, periodic review, continuing development, and quality of the program.

(b) Be involved in program development, evaluation, and coordination of curricular elements, including those of clinical nature, by the faculty and representatives of the training center or institution.

History: 1954 ACS 90, p. 17, Eff. Jan. 13, 1977.

R 325.2244 Faculty members; qualifications.

Rule 44. A principal faculty member shall possess credentials approved by the department and have experience in the field of emergency medical care or specialty areas relevant to the subject of instruction.

History: 1954 ACS 90, p. 17, Eff. Jan. 13, 1977.

R 325.2245 Refresher training programs.

Rule 45. (1) A refresher training program shall be developed and implemented in accordance with R 325.2241 to R 325.2244.

(2) The program coordinator shall inform the department of those persons having successfully completed a refresher training program not later than 30 calendar days after the completion date thereof.

History: 1954 ACS 90, p. 17, Eff. Jan. 13, 1977.

R 325.2246 Continuing education programs.

Rule 46. (1) A certified advanced emergency medical technician shall participate in continuing education programs approved by the department.

(2) The department shall establish minimum continuing education requirements.

(3) Successful completion of continuing education courses offered through a training center shall be validated by the program coordinator and be made available to the department on a yearly basis.

(4) A certified advanced emergency medical technician wishing approval of a course for continuing education credit, which is not conducted through a training center, shall be responsible for the submission of the course summary to the department.

(5) The department shall review for course content all continuing education courses.

BUREAU OF DISEASE CONTROL AND LABORATORY SERVICES

CLINICAL LABORATORIES

(By authority conferred on the director of public health and the laboratory facilities council by section 3 of Act No. 235 of the Public Acts of 1968, being §325.83 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 325.2301 Definitions; A to C.

Rule 1. (1) For the purposes of these rules, the words and phrases have the same meanings as words and phrases defined in the act.

(2) "Act" means Act No. 235 of the Public Acts of 1968, being §§325.81 to 325.92 of the Michigan Compiled Laws.

(3) "Assistant to the director" means an individual who under the general direction of a laboratory director or associate director supervises technical personnel, reports findings and performs tests requiring special skills.

(4) "Associate director" means a person who assists a laboratory director in the direction of a clinical laboratory and who possesses qualifications equivalent to those required for a laboratory director in those laboratory fields and procedures he directs. He need not possess a certificate of qualification as a laboratory *director.*

(5) "Cytology" means the examination of preparations of cells taken from surfaces or cavities of the body for the detection of the presence of disease.

History: 1954 ACS 61, p. 24, Eff. Feb. 16, 1970.

R 325.2302 Definitions; D to P.

Rule 2. (1) "Dentist" means a person licensed as a dentist by the Michigan state board of dentistry.

(2) "Department" means the state department of public health.

(3) "Dermatopathology" means the histopathological examination of specimens of skin for the determination of the presence of disease.

(4) "Histology and pathology" mean the histopathological examination of tissues from patients for the determination of the presence of disease.

(5) "Laboratory" means a clinical laboratory.

(6) "Oral pathology" means the histopathological examination of tissues or cells removed from the oral cavity for the determination of the presence of disease.

(7) "Physician" means a person licensed as a physician by the board of registration in medicine or board of osteopathic registration and examination.

History: 1954 ACS 61, p. 24, Eff. Feb. 16, 1970.

R 325.2311 Effect of rules on physicians' and dentists' licenses.

Rule 11. These rules shall not be interpreted to restrict the license of a physician or dentist except to the extent provided in the act.

History: 1954 ACS 61, p. 24, Eff. Feb. 16, 1970.

R 325.2315 Reviews and revisions.

Rule 15. These rules shall be reviewed annually at a meeting of the laboratory facilities council. The director may call additional meetings of the laboratory facilities council and shall call additional meetings upon petition of at least 3 members of the council.

History: 1954 ACS 61, p. 24, Eff. Feb. 16, 1970.

R 325.2319 Rescission.

Rule 19. The rules and regulations for the "Operation of Public Health Laboratories," being R 325.251 to R 325.256 of the Michigan Administrative Code and appearing on pages 2237 and 2238 of the 1954 volume of the Code, are rescinded.

History: 1954 ACS 61, p. 24, Eff. Feb. 16, 1970.

PART 2. LICENSING OF LABORATORIES

R 325.2321 Applications and fees.

Rule 21. (1) An application for a license for a laboratory shall be made on forms authorized and provided by the director of public health and shall include the name of the proposed laboratory director, or, if he is not certified, an application for his certificate of qualification.

(2) The owner shall pay by check or money order the fee prescribed in the act and transmit it with the initial or renewal application.

History: 1954 ACS 61, p. 24, Eff. Feb. 16, 1970.

R 325.2322 Scope of licenses.

Rule 22. A laboratory may be licensed for:

(a) *Microbiology.*

(b) Serology.
(c) Biochemistry.
(d) Hematology.
(e) Immunohematology, but may be limited to diagnostic tests or transfusion services.
(f) Pathology, but may be limited to histopathology, dermatopathology, oral pathology, or a combination of any 2 of these.
(g) Cytology.
(h) Biophysics.

History: 1954 ACS 61, p. 24, Eff. Feb. 16, 1970.

R 325.2323 Locations and transfers.

Rule 23. (1) A license shall be effective only for a laboratory operated at a single location. To obtain a license for a laboratory at a different location, a separate application shall be filed regardless of ownership or laboratory director. However, a separate license will not be required for separate buildings on the same grounds.

(2) A license is valid only in the hands of the owner to whom it is issued and shall not be subject of sale, assignment or transfer.

History: 1954 ACS 61, p. 25, Eff. Feb. 16, 1970.

R 325.2324 Terminations and renewals.

Rule 24. (1) A license is valid for 1 year and terminates on its anniversary date unless sooner suspended or revoked.

(2) A laboratory owner shall file with the director of public health an application for renewal of a license at least 30 days before expiration of the license. The application shall be made on forms furnished by the director of public health.

(3) When the license becomes void due to a change in the laboratory director, the director of public health shall be notified immediately. The laboratory owner shall designate an individual to be the laboratory director who is either certified or has a temporary certificate of qualification as a laboratory director. The laboratory upon application may be relicensed with the same anniversary date as the original license with no additional fee.

(4) A laboratory shall apply to the director of public health for a change in the scope of its license. The director of public health shall act on the application within 30 days. A laboratory shall notify the director of public health of an addition to the lists of tests furnished with the application for license within 90 days after the addition.

History: 1954 ACS 61, p. 25, Eff. Feb. 16, 1970.

R 325.2325 Denials.

Rule 25. The grounds for denial of a laboratory license are:

(a) Falsification of a statement on an application for a laboratory license or on any other document required by the director of public health.
(b) Failure to pay a proper license fee.
(c) Failure to execute the required agreement form.
(d) Refusal to permit entry by an authorized representative of the director of public health at any reasonable time to inspect laboratory operations, equipment, conditions or records.
(e) Refusal to participate in the state conducted or approved proficiency *testing program.*

(f) Failure to correct laboratory deficiencies in accordance with standards of the director of public health.

History: 1954 ACS 61, p. 25, Eff. Feb. 16, 1970.

R 325.2326 Revocations, suspensions, and limitations.

Rule 26. A laboratory license may be revoked, suspended or limited if the director of public health, after notice and opportunity for hearing finds that the owner of the laboratory, the laboratory director or an employee acting with the knowledge of the owner or laboratory director has violated any part of section 9 of the act or conditions have changed which led to a provisional certification of the laboratory director.

History: 1954 ACS 61, p. 25, Eff. Feb. 16, 1970.

R 325.2327 Inspections.

Rule 27. (1) A representative of the director of public health shall inspect each laboratory at least biennially.

(2) Pertinent information relating to personnel, facilities, and equipment shall be obtained at the time of inspection, and reports and records shall be reviewed by the department.

History: 1954 ACS 61, p. 25, Eff. Feb. 16, 1970.

PART 3. CERTIFICATES OF QUALIFICATIONS OF LABORATORY DIRECTORS

R 325.2331 Applications and fees.

Rule 31. (1) A laboratory director shall submit a fully completed application for a certificate of qualification on a form prescribed by the director of public health. The application shall be accompanied by documents or give information as to training and experience for each discipline for which the certificate is sought.

(2) The laboratory director shall pay by check or money order the fee prescribed in the act and transmit it with his initial or renewal application.

History: 1954 ACS 61, p. 26, Eff. Feb. 16, 1970.

R 325.2332 Certification; extent; physicians and dentists.

Rule 32. (1) An applicant shall be certified in all fields for which he applies and qualifies.

(2) A physician certified in anatomical pathology by the American board of pathology or the American osteopathic board of pathology or who possesses formal training equivalent to that required for certification by these boards at the time of completion of training shall be certified as a laboratory director in histology, pathology, and cytology.

(3) A physician certified in clinical pathology by the American board of pathology or the American osteopathic board of pathology or who possesses formal training equivalent to that required by these boards at the time of completion of training shall be certified as a laboratory director in microbiology, serology, biochemistry, hematology, immunohematology, and biophysics.

(4) A physician or dentist who is certified by the American board of oral pathology or who has a certificate of completion of residency or a master of science degree in oral pathology shall be certified in oral pathology.

(5) A physician who is certified by the American board of dermatology, and has taken full-time formal training in dermatopathology for at least 1 year shall be certified in *dermatopathology*.

(6) A physician who qualified under subrule (2) or has 1 year of full-time formal cytology training in an institution approved for training in cytology shall be certified in cytology. The practice of cytology shall be limited to tests on anatomic sites for which the physician is qualified.

History: 1954 ACS 61, p. 26, Eff. Feb. 16, 1970.

R 325.2333 Certification in microbiology.

Rule 33. A person shall be certified as a laboratory director in microbiology who meets either of the following requirements:

(a) He holds an earned doctoral degree in medicine, osteopathic medicine, microbiology, chemistry, or a biological science from an accredited institution and is certified by the American board of microbiology or has 3 or more years of appropriate laboratory training and experience of which at least 1 year was spent acquiring proficiency in the specialty of microbiology with a laboratory director at the doctoral level of a hospital, health department, university, or medical research institution.

(b) He holds an appropriate master's degree from an accredited institution and has 5 years of appropriate laboratory experience of which at least 2 years were spent acquiring proficiency in the specialty of microbiology with a laboratory director at the doctoral level of a hospital, health department, university or medical research institution.

History: 1954 ACS 61, p. 26, Eff. Feb. 16, 1970.

R 325.2334 Certification in serology.

Rule 34. A person shall be certified as a laboratory director in serology who meets either of the following requirements:

(a) He holds an earned doctoral degree in medicine, osteopathic medicine, microbiology, chemistry or a biological science from an accredited institution and has 3 years of appropriate laboratory experience of which at least 6 months were spent acquiring proficiency in serology with a laboratory director at the doctoral level of a hospital, health department, university or medical research institution.

(b) He holds an appropriate master's degree from an accredited institution and has 5 years of appropriate laboratory experience of which at least 6 months were spent acquiring proficiency in serology with a laboratory director at the doctoral level of a hospital, health department, university or medical research institution.

History: 1954 ACS 61, p. 26, Eff. Feb. 16, 1970.

R 325.2335 Certification in hematology.

Rule 35. A person shall be certified as a laboratory director in hematology who meets either of the following requirements:

(a) He holds an earned doctoral degree in medicine, osteopathic medicine, microbiology, chemistry, or a biological science from an accredited institution and has 3 years of appropriate clinical laboratory training and experience, of which at least 1 year was spent acquiring proficiency in the specialty of hematology with a laboratory director at the doctoral level of a hospital, health department, university, or medical research institution.

(b) He holds an appropriate master's degree from an accredited institution and has 5 years of appropriate laboratory experience of which at least 1 year was spent acquiring proficiency in the specialty of hematology with a laboratory director at the doctoral level of a hospital, health department, university or medical research institution.

History: 1954 ACS 61, p. 27, Eff. Feb. 16, 1970.

R 325.2336 Certification of immunohematology.

Rule 36. (1) A person shall be certified as a laboratory director in immunohematology, which includes all laboratory procedures necessary for transfusion services, if he holds an earned doctoral degree in medicine or osteopathic medicine and has 1 year of experience in immunohematology including transfusion services.

(2) A person shall be certified as a laboratory director in immunohematology, but which excludes all laboratory procedures involving transfusion services, if he holds an earned doctoral or master's degree in an appropriate field from an accredited institution and has 3 years of appropriate laboratory experience of which at least 1 year was spent acquiring proficiency in the specialty of immunohematology with a laboratory director at the doctoral level of a hospital, health department, university or medical research institution.

History: 1954 ACS 61, p. 27, Eff. Feb. 16, 1970.

R 325.2337 Certification in biochemistry or biophysics.

Rule 37. A person shall be certified as a laboratory director in biochemistry or biophysics who meets either of the following requirements:

(a) He holds an earned doctoral degree in medicine, osteopathic medicine, microbiology, chemistry, biophysics, or a biological science from an accredited institution and is certified by the American board of clinical chemistry or has 3 years of appropriate laboratory training and experience of which at least 1 year was spent acquiring proficiency in specialties of chemistry or biophysics with a laboratory director at the doctoral level of a hospital, health department, university, or medical research institution.

(b) He holds an earned master's degree in an appropriate field from an accredited institution and has 5 years of appropriate laboratory training and experience of which at least 2 years were spent acquiring proficiency in the specialties of chemistry or biophysics with a laboratory director at the doctoral level of a hospital, health department, university, or medical research institution.

History: 1954 ACS 61, p. 27, Eff. Feb. 16, 1970.

R 325.2338 Certificates for present laboratory directors.

Rule 38. A laboratory director who was responsible for direction of a laboratory in this state for 12 months within 3 years before January 1, 1969, shall be issued a certificate of qualification in those fields and procedures performed in this laboratory if he meets either of the following requirements:

(a) He holds at least a bachelor's degree from an accredited institution with chemistry or a biological science as his major subject.

(b) He has achieved in fields and procedures performed a satisfactory grade in the general and specialty examinations conducted by or under the sponsorship of the United States public health service for independent laboratories under the federal health insurance for the aged program or through examinations prescribed by the director of public health.

History: 1954 ACS 61, p. 27, Eff. Feb. 16, 1970.

R 325.2339 Provisional certificates.

Rule 39. If the requirements for education, training, and experience set forth in R 325.2333 to R 325.2337 cannot be met, the director of public health with the advice of the laboratory facilities council may give provisional certification subject to a semiannual review to a laboratory director in the specialties covered by such rules if he ascertains that the laboratory directed by this individual can be

operated competently and will best serve the public health. If the conditions which led to a provisional certification change, the certification shall be considered void. This provisional certification is valid only while the individual is employed at the specific laboratory for which it was necessary to issue a provisional certificate to the laboratory director.

History: 1954 ACS 61, p. 27, Eff. Feb. 16, 1970.

R 325.2340 Suspension and revocation.

Rule 40. A certificate of qualification or a provisional certificate may be suspended or revoked pursuant to the procedure and based on the grounds set forth in R 325.2326.

History: 1954 ACS 61, p. 28, Eff. Feb. 16, 1970.

PART 4. LABORATORY DIRECTION AND SUPERVISION

R 325.2341 Laboratory directors; full-time and part-time.

Rule 41. A laboratory director shall serve the laboratory on either a full-time or on a regular part-time basis. If he serves on a regular part-time basis, he shall not serve as laboratory director of more than 3 laboratories unless he provides an associate laboratory director to serve in each laboratory either on a full-time or regular part-time basis. Such an associate may not serve more than 3 laboratories. However, if a laboratory director serves more than 3 laboratories on a part-time basis and is unable to provide an associate director to serve in the additional laboratories he directs, the director of public health with the advice of the laboratory facilities council may make an exception to this rule if any additional laboratory can be operated competently and will best serve the public health.

History: 1954 ACS 61, p. 28, Eff. Feb. 16, 1970.

R 325.2342 Laboratory directors and owners; responsibilities.

Rule 42. (1) Commensurate with the laboratory workload, a laboratory director shall spend an adequate amount of time in the laboratory to direct and supervise the technical performance of the staff and shall be readily available for personal or telephone consultation.

(2) If the laboratory director is to be continuously absent for more than 1 month, arrangements shall be made for a qualified substitute laboratory director.

(3) The laboratory owner is responsible for the proper performance of tests made in the laboratory and the employment and in-service training of qualified laboratory personnel. The owner may delegate all or part of these responsibilities to a laboratory director.

History: 1954 ACS 61, p. 28, Eff. Feb. 16, 1970.

R 325.2343 Assistants to laboratory directors; qualifications.

Rule 43. (1) A laboratory may perform tests in disciplines in which the laboratory director or associate is not qualified or where the director serves in a part-time capacity, if a person designated as an assistant to the director has either of the following qualifications:

(a) He meets the educational requirements for a laboratory director in the specialty he directs pursuant to R 325.2332 to R 325.2337 and has 1 year of appropriate experience.

(b) He has a combination of 7 years' appropriate education, training, and experience and has achieved a satisfactory grade through an examination conducted under sponsorship of the department. An examination shall be taken in

each specialty performed in the laboratory that is supervised by the assistant to the director. The examination shall be offered annually or oftener if in the opinion of the director of public health the need arises. Interim approval may be given by the director of public health if the laboratory meets other requirements and the assistant to the laboratory director has indicated his intent in writing to take the examination.

(2) A person who can demonstrate that he served as an assistant to the director for 12 months within 3 years before January 1, 1969, may be designated as an assistant to the director without examination if he is otherwise qualified.

History: 1954 ACS 61, p. 28, Eff. Feb. 16, 1970; 1954 ACS 66, p. 11, Eff. Jan. 19, 1971.

R 325.2344 Assistants to laboratory directors; approval.

Rule 44. If the requirements for an assistant to a laboratory director cannot be met, the director of public health with the advice of the laboratory facilities council may approve an assistant to the laboratory director if the director of public health ascertains that the laboratory can be operated competently and will best serve the public health.

History: 1954 ACS 61, p. 28, Eff. Feb. 16, 1970.

PART 5. LABORATORY OPERATIONS

R 325.2351 Specimen examinations.

Rule 51. (1) A laboratory may examine specimens at the request of a physician, dentist, or other person authorized by law to receive such results. A laboratory performing examinations in a community oriented screening program organized by governmental or recognized charitable organizations may examine specimens without such a request.

(2) The name of the laboratory actually performing the examination shall be indicated on the report to the authorized person submitting the specimen. The address shall also be indicated for laboratories outside of this state.

(3) A laboratory owner or director shall not solicit either personally or through an agent referral of specimens to his or any other laboratory in a manner which implies an offer of rebates to persons submitting specimens or other fee-splitting arrangements. A laboratory shall not enter into a contractual provision of laboratory services for a fixed fee, independent of the number of specimens submitted.

History: 1954 ACS 61, p. 29, Eff. Feb. 16, 1970.

R 325.2352 Specimen reports and records; identification and contents.

Rule 52. A specimen received shall be numbered or otherwise appropriately identified and a record or copy of the relevant report shall be kept as evidence of its receipt. The record shall contain the following:

(a) The laboratory number of other identification.

(b) The name and other identification of the person from whom the specimen was taken.

(c) The name of the licensed physician or other authorized person or laboratory who submitted the specimen.

(d) The date the specimen was received in the laboratory.

(e) The condition of an unsatisfactory specimen when received, such as broken, leaked, hemolyzed or turbid.

(f) *The type of test performed.*

(g) The results of the laboratory test; the name, initials, or other symbols identifying the examiner; and the date the test was completed and reported.

History: 1954 ACS 61, p. 29, Eff. Feb. 16, 1970.

R 325.2353 Specimen reports; preservation and distribution.

Rule 53. (1) The original or duplicate report shall be preserved for at least 1 year and shall be accessible to the authorized individual inspecting the laboratory.

(2) The results of laboratory tests or procedures or copies thereof shall not be given or sent to the patient concerned, except with the written consent of the physician or other authorized person who requested the test.

(3) A laboratory receiving specimens for examination from another laboratory shall report to the submitting laboratory.

(4) An annual report giving the number of examinations and tests performed shall be submitted before license renewal. The report shall cover the 12-month period to be designated by the laboratory director.

History: 1954 ACS 61, p. 29, Eff. Feb. 16, 1970.

R 325.2354 Personnel reports and records.

Rule 54. (1) A laboratory director shall submit lists of personnel with their technical qualifications. The director of public health shall be notified within 90 days of changes in technical personnel.

(2) Current personnel records shall be maintained either in the laboratory or personnel office. The records shall include a resumé of the employee's training and experience, including dates of previous and current employment.

History: 1954 ACS 61, p. 29, Eff. Feb. 16, 1970.

R 325.2355 Facilities and equipment.

Rule 55. (1) Laboratory location and facilities shall conform to local building safety and fire codes and ordinances.

(2) Space shall be adequate to perform services offered by the laboratory. Suggested standards for space and storage requirements may be recommended periodically by the director of public health.

(3) Sufficient storage space shall be provided so that it will not be necessary to store surplus supplies in working areas.

(4) Provision shall be made for sterilization of contaminated materials.

(5) Fire precautions shall be observed and unnecessary physical, chemical, and biological hazards shall be prohibited.

(6) Laboratory equipment shall be examined periodically to assure that it is precisely calibrated and is in good working order.

History: 1954 ACS 61, p. 29, Eff. Feb. 16, 1970.

PART 6. PERFORMANCE EVALUATION AND QUALITY CONTROL PROCEDURES

R 325.2361 Performance evaluations.

Rule 61. (1) A review of quality control procedures, calibration of instruments, standardization of reagents, maintenance of records and safety precautions shall be made at the time of the on-site inspection survey by a representative of the department.

(2) Test samples for analyses may be delivered by the department to the laboratory during an on-site inspection or by mail or common carrier.

(3) The laboratory shall examine the samples using its routine methods and *personnel.*

(4) Proficiency evaluation programs of recognized professional organizations, such as the college of American pathologists and the American association of bioanalysts and others approved by the director of public health, shall be accepted in lieu of state evaluation programs.

(5) Copies of reports of analyses made on test samples from these evaluation programs shall be sent to the director of public health. Analyses and reports of proficiency testing may be considered by the director of public health in making a finding under section 9 of the act.

History: 1954 ACS 61, p. 30, Eff. Feb. 16, 1970.

R 325.2362 Quality control programs; general provisions.

Rule 62. (1) A laboratory shall maintain a quality control program adequate and appropriate for accuracy and reproducibility of the laboratory procedures and services.

(2) An acceptable quality control program shall include:

(a) Preventive maintenance.

(b) Periodic inspection or testing for proper operation of equipment and instruments.

(c) Evaluation of reagents and volumetric instruments.

(d) Surveillance of results.

(e) Appropriate records.

(3) Facilities, equipment and instruments shall be adequate to perform the procedures for which licensing is granted under R 325.2322.

(4) Temperature controlled spaces and equipment, including water baths, incubators and refrigerators shall be checked each day of use to assure proper performance.

(5) Reagents and solutions shall be labeled to indicate identity, titer strength or concentration and date prepared.

(6) An adequate description of analytical methods used by the laboratory shall be available at all times to those performing procedures.

(7) The laboratory director shall review the procedures used at least biennially and initial and date the master copy.

History: 1954 ACS 61, p. 30, Eff. Feb. 16, 1970.

R 325.2363 Clinical chemistry standards and controls.

Rule 63. (1) Standards for clinical chemistry procedures shall include the following:

(a) A clinical chemistry procedure shall include at least 1 solution of known concentration and purity (standard) with each group of specimens analyzed.

(b) Standardization shall be performed not less than once each month for procedures not amenable to subdivision (a). Standard curves shall be labeled as to instrument, wave length, procedure and date calibrated.

(2) Controls for clinical chemistry procedures shall include the following:

(a) A clinical chemistry procedure shall be subjected to evaluation by serum, urine or other applicable control approximating the unknown composition at least once on each day of use.

(b) Control limits for such materials shall be established and recorded.

History: 1954 ACS 61, p. 30, Eff. Feb. 16, 1970.

R 325.2364 Hematology procedures.

Rule 64. (1) A hematological procedure shall be subjected to a control for evaluation *at least once on each day* of use where applicable.

(2) Where appropriate, records shall be available which document the routine precision of each method.

(3) Differential smears shall be kept for at least 30 days.

History: 1954 ACS 61, p. 31, Eff. Feb. 16, 1970.

R 325.2365 Immunohematology procedures.

Rule 65. An immunohematological procedure shall conform to the standards approved by the director of public health.

History: 1954 ACS 61, p. 31, Eff. Feb. 16, 1970.

R 325.2366 Bacteriology and mycology procedures.

Rule 66. (1) A staining procedure shall be checked at least weekly for intended reactivity by concurrent application to smears of microorganisms with predictable staining characteristics.

(2) A record shall be kept of procedures for preparation of media or sources of commercially prepared media.

(3) Chemical and biological solutions, reagents and antisera shall be checked periodically to insure that they have not deteriorated and that they maintain their proper reactivity.

History: 1954 ACS 61, p. 31, Eff. Feb. 16, 1970.

R 325.2367 Parasitology procedures.

Rule 67. (1) A stain shall be prepared and used according to recorded procedures.

(2) The specific gravity of a solution used for flotation or sedimentation shall be checked to insure that it meets required specifications.

(3) An illustrated reference source of identified parasites shall be available in the laboratory for comparison with diagnostic specimens.

History: 1954 ACS 61, p. 31, Eff. Feb. 16, 1970.

R 325.2368 Serology procedures.

Rule 68. (1) Where applicable, a serologic procedure performed on unknown specimens shall simultaneously include a positive control serum of known titer to insure sensitivity and a negative control serum to insure specificity of antigen reactivity.

(2) Adequate controls for all test components, such as antigens, complements or erythrocyte indicator systems, shall be employed to insure reactivity or uniform titer.

(3) A new lot of reagent shall be tested in parallel with one of acceptable reactivity before the new reagent is placed in routine use.

(4) Controls of graded reactivity shall be included each time tests are performed in order to detect variations in reactivity levels. Tests shall not be performed or results reported unless the predetermined reactivity pattern of the controls is obtained.

(5) Serologic tests for syphilis shall be run with standards and controls which conform to venereal disease research laboratory, national communicable disease center recommendations.

History: 1954 ACS 61, p. 31, Eff. Feb. 16, 1970.

R 325.2369 Cytology procedures.

Rule 69. (1) A laboratory director or his associate laboratory director qualified in cytopathology shall review for proper staining and interpretation a random sample of each day's specimens.

(2) A smear suspected of being abnormal by a cytology technologist or cytotechnician shall be reviewed and the report signed by a physician qualified in cytology.

(3) A smear shall be preserved for at least 1 year.

History: 1954 ACS 61, p. 31, Eff. Feb. 16, 1970.

BUREAU OF ENVIRONMENTAL AND OCCUPATIONAL HEALTH

OCCUPATIONAL AIR CONTAMINANTS AND PHYSICAL AGENTS

(By authority conferred on the director of public health by section 7 of Act No. 146 of the Public Acts of 1919, as amended, and sections 9 and 427 of Act No. 380 of the Public Acts of 1965, being §§325.7, 16.109, and 16.527 of the Michigan Compiled Laws)

R 325.2401 Scope.

Rule 1. These rules apply only to places of employment.

History: 1954 ACS 61, p. 32, Eff. Feb. 16, 1970.

R 325.2402 General definitions.

Rule 2. As used in these rules:

(a) "Aerosol" means particulate matter suspended in air.

(b) "Contaminant" means an airborne material capable of causing occupational disease or significant physiological disturbances to a person, and includes but is not limited to the substances listed in R 325.2413 to R 325.2419.

(c) "Director" means the director of public health or his authorized representative.

(d) "Employer" means an individual or type of organization which has in its employ 1 or more individuals performing services for it in employment.

(e) "Gas" means a normally formless fluid which occupies a space or enclosure and which can be changed to the liquid or solid state by the effect of increased pressure or decreased temperature or both.

(f) "Inert gas" means a gas or vapor which acts primarily as a simple asphyxiant without other significant physiological effect, recognizing that an inert gas may have flammable or explosive characteristics.

(g) "Inert particulate" means an aerosol which does not produce significant organic disease or toxic effect in any lung-tissue reaction therefrom:

(i) The architecture of the air spaces remains intact.

(ii) Collagen (scar tissue) is not formed to a significant extent.

(iii) The tissue reaction is potentially reversible.

(h) "Particulate matter" means fine solid or liquid particles.

(i) "Physical agent" means a form of energy transmitted directly or through the air from the point of emission to the receiver.

(j) "Vapor" means the gaseous state of a substance.

History: 1954 ACS 61, p. 32, Eff. Feb. 16, 1970; 1954 ACS 68, p. 26, Eff. June 10, 1971.

R 325.2403 Definitions pertaining to contaminants.

Rule 3. As used in these rules:

(a) "Maximum allowable concentration" or "MAC" means the threshold limit value or the time-weighted average 8-hour airborne concentration of a contaminant to which a person may be safely exposed. See R 325.2413 to R 325.2419, tables 1 to 7, for the MAC of a particular contaminant.

(b) "Mg/M³" means milligrams of particulate per cubic meter of air.

(c) "mppcf" means millions of particulates per cubic foot of air based on impinger samples counted by light field microscopic techniques.

(d) "Non-respirable atmosphere" means an atmosphere which contains insufficient oxygen, or an elevated level of contaminants which may render a person incapable of self-rescue.

(e) "ppm" means parts of vapor or gas per million parts of air by volume at 25 degrees Celsius and 760 millimeters of mercury pressure.

(f) "Source" means a process or equipment which releases a contaminant into the air in concentrations exceeding the MAC.

History: 1954 ACS 61, p. 32, Eff. Feb. 16, 1970.

R 325.2404 Definitions pertaining to noise.

Rule 4. As used in these rules:

(a) "Auditory protective equipment" means ear plugs, muffs, or other protective devices worn by an exposed person to attenuate airborne noise pressure in the ear canal.

(b) "Broad-band noise" means noise generally distributed throughout the sound frequency spectrum.

(c) "Continuous noise" means an interrupted noise or more than 60 noises per minute.

(d) "dBa" means the airborne sound pressure level measured with the "A" weighting network of a sound level meter.

(e) "Decibel" or "dB" means a dimensionless unit expressing the ratio of 2 sound quantities in logarithmic form, 1 of which quantities is a reference level of 0.0002 microbar.

(f) "Impact noise meter" means an instrument used for the measurement of peak sound pressures of impulse.

(g) "Impulse noise" means a single noise or 60 or less noises per minute.

(h) "Noise" means airborne sound in the frequency range from 20 to 20,000 hertz or cycles per second.

(i) "Sound level meter" means an instrument, whose characteristics comply with those specified in the American standards association, standard S1.4-1961, used for the measurement of the airborne sound pressure level.

History: 1954 ACS 61, p. 32, Eff. Feb. 16, 1970.

R 325.2405 Definitions pertaining to respirators.

Rule 5. As used in these rules:

(a) "Atmosphere immediately dangerous to life or health" means a non-respirable atmosphere.

(b) "Canister" means a container filled with air-purifying media to remove gases and vapors from air drawn through the container. The canister may also contain an aerosol filter to remove solid or liquid particulate matter.

(c) "Cartridge" means a canister having reduced air-purifying capacity.

(d) "Facepiece" means that portion of a respirator that is designed to make a *gastight or dusttight fit* with the face and includes the headbands, exhalation

valves, and connections for an air-purifying device or respirable-gas source. A half-mask facepiece covers the wearer's nose and mouth. A full-mask facepiece covers the wearer's nose, mouth and eyes.

(e) "Filter" means a media used in a respirator to remove solid or liquid particulate matter from air drawn through the respirator.

(f) "Respiratory protective equipment" means a device or system designed to protect the wearer from inhalation of unhealthful atmospheres.

(g) "Respirator" means a type of respiratory protective equipment.

History: 1954 ACS 68, p. 26, Eff. June 10, 1971.

R 325.2410 Definitions pertaining to controls.

Rule 10. As used in these rules:

(a) "Control" means the limitation of worker exposure to contaminate levels not exceeding the MAC.

(b) "Controlled process" means an arrangement of equipment to control the contaminant by means of suitable design measures.

(c) "Enclosure" means a room, booth, or exhaust hood that confines contaminants at their sources.

(d) "General ventilation" means the supply and removal of air from a space to dilute or remove contaminants.

(e) "Local exhaust ventilation system" means an arrangement of exhaust hoods, ducts and fans that removes air to control a contaminant at its source.

(f) "Process space" means a tunnel, process equipment, shaft, or enclosed space.

(g) "Supply ventilation system" means an arrangement of inlet openings or equipment to introduce outside air into the working environment.

History: 1954 ACS 61, p. 32, Eff. Feb. 16, 1970; 1954 ACS 68, p. 27, Eff. June 10, 1971.

R 325.2411 Contaminants; exposure; MACs.

Rule 11. (1) An employer shall not allow the exposure of a person to concentrations of a contaminant in excess of the limit expressed by the contaminant's MAC as established in R 325.2412 to R 325.2419.

(2) An employer shall not allow the exposure of a person to a contaminant or combination of contaminants in such concentrations which are hazardous or injurious to the person's health.

History: 1954 ACS 61, p. 33, Eff. Feb. 16, 1970.

R 325.2412 Maximum allowable concentrations.

Rule 12. (1) Maximum allowable concentrations of air contaminants based on a repeated 8-hour work day exposure are to be found in tables 1 to 7 in R 325.2413 to R 325.2419.

(2) A substance found in tables 1 to 6 in R 325.2413 to R 325.2418, which is preceded by A, C, or S, is an especially hazardous contaminant and the following precautions shall be taken:

(a) If the substance is preceded by "A," the employer shall not allow a person or any part of his anatomy to be exposed to or come in contact with the substance by any respiratory, oral, or skin route.

(b) If the substance is preceded by "C," its MAC means the highest concentration at which an employer may allow a person to be exposed at any time.

(c) If the substance is preceded by "S," an employer shall provide necessary precautions against skin absorption of the contaminant by a person.

***History:** 1954 ACS 61, p. 33, Eff. Feb. 16, 1970.*

R 325.2413 Maximum allowable concentrations for substances A and B.

Rule 13. Table 1 reads as follows:

TABLE 1
Substances A and B

Substance	MAC	
	ppm	Mg/M³
Abate	—	15
Acetaldehyde	200	360
Acetic Acid	10	25
Acetic Anhydride	5	20
Acetone	1,000	2,400
Acetonitrile	40	70
Acetylene	Inert gas	
Acetylene Dichloride, see 1, 2 Dichloroethylene		
Acetylene Tetrabromide	1	14
Acrolein	0.1	0.25
S Acrylamide	—	0.3
S Acrylonitrile	20	45
S Aldrin	—	0.25
S Allyl Alcohol	2	5
Allyl Chloride	1	3
C Allyl Glycidyl Ether (AGE)	10	45
Allyl Propyl Disulfide	2	12
Allundum	Inert dust	
2-Aminoethanol, see Ethanolamine		
2-Aminopryridine	0.5	2
Ammonia	50	35
Ammonium Sulfamate (Ammate)	—	15
n-Amyl Acetate	100	525
sec-Amyl Acetate	125	650
S Aniline	5	19
S Anisidine (o,p-isomers)	—	0.5
Antimony & compounds (as Sb)	—	0.5
ANTU (Alpha Naphthyl Thiourea)	—	0.3
Argon	Inert gas	
Arsenic & compounds (as As)	—	0.5
Arsine	0.05	0.2
S Azinphos - methyl	—	0.2
Barium (soluble compounds)	—	0.5
S, C Benzene (Benzol)	25	80
A, S Benzidine	—	—
p-Benzoquinone, see Quinone		
Benzoyl Peroxide	—	5
Benzyl Chloride	1	5
Beryllium	—	0.002
Biphenyl, see Diphenyl		
Bisphenol A, see Diglycidyl ether		
Boron Oxide	—	15
Boron Tribromide	1	10
C Boron Trifluoride	1	3

TABLE 7
Mineral Dusts

Substance	MAC
	mppcf
Silica	
Crystalline	
Quartz	$MAC = \frac{250}{\%\ SiO_2 + 5}$
Cristobalite	MAC same as Quartz
Amorphous, including natural diatomaceous earth	20
Silicates (less than 1% crystalline silica)	
Asbestos, all types	5
Mica	20
Portland Cement	50
Soapstone	20
Talc	20
Talc (non-asbestiform)	20
Talc (fibrous)	MAC is same as for asbestos
Tremolite	MAC is same as for asbestos
Graphite (natural)	15
Inert or nuisance particles**	50 (or 15 Mg/M^3 whichever is the smaller) of total dust less than 1% SiO_2

*The percentage of crystalline silica, SiO_2, in the formula is the amount determined from airborne samples.

**The following are some examples of inert or nuisance particulates when toxic impurities are not present; e.g. quartz less than 1%.

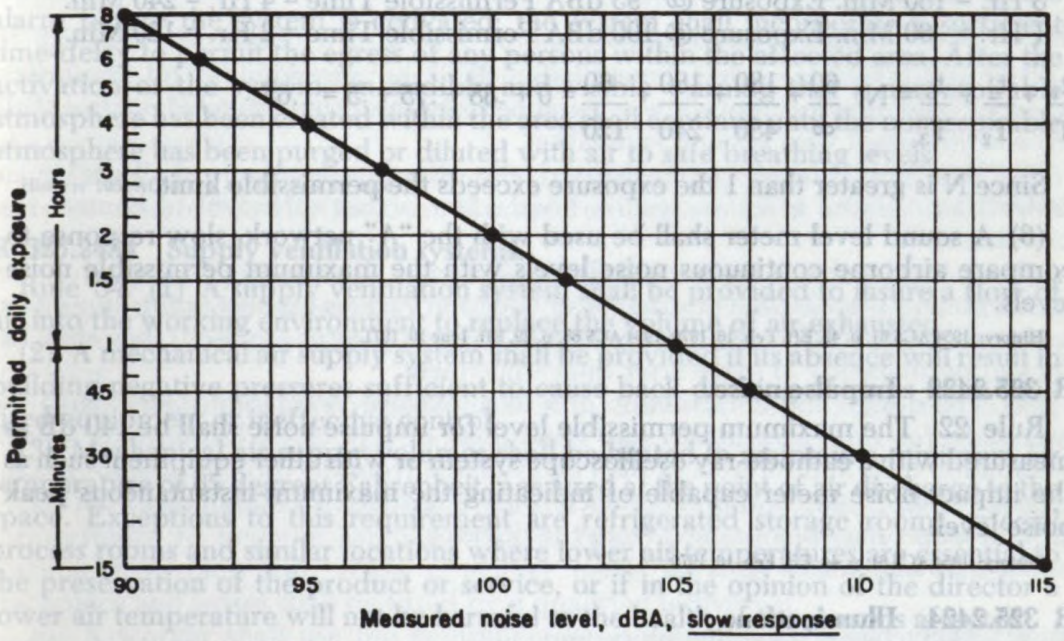
Alundum (Al_2O_3)	Gypsum	Pentaerythritol
Calcium carbonate	Vegetable oil mists (except castor, cashew nut, or similar irritant oils)	Plaster of Paris
Cellulose		Rouge
Portland cement		Silicon carbide
Corundum (Al_2O_3)		Starch
Emery	Limestone	Sucrose
Glycerine mist	Magnesite	Tin oxide
Graphite (synthetic)	Marble	Titanium dioxide

History: 1954 ACS 61, p. 42, Eff. Feb. 16, 1970; 1954 ACS 68, p. 29, Eff. June 10, 1971.

R 325.2421 Continuous, broad-band noise.

Rule 21. (1) The following are maximum permissible levels of continuo broad-band noise based on daily exposure time in places of employment:

Permitted Daily Exposure Time, Hours	Maximum Permissible Noise Level, dBA, Slow Response
00	



Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253

Original from UNIVERSITY OF MICHIGAN

Permitted Daily Exposure Time, Hours	Maximum Permissible Noise Level, dBA, Slow Response
1	105
¾	107
½	110
¼	115

(2) If a noise level is between 2 listed maximum permissible noise levels in subrule (1) then chart A shall be used to determine the permitted daily exposure time. In applying the chart, measured noise levels will be taken to the nearest whole number.

CHART A

Noise Exposure Chart

(3) If airborne noise levels and exposure times exceed the values in subrules (1) or (2), noise control measures or reduction of exposure time shall be provided or auditory protective equipment shall be provided by the employer and used by the employee.

(4) If the daily noise exposure is composed of 2 or more periods of noise exposure of different levels, each period of noise exposure shall be determined by dividing the actual exposure time in minutes at the measured noise level by the permitted exposure time in minutes at that measured noise level pursuant to subrule (1). The noise exposure for the periods shall be totaled. The total noise exposure shall not exceed the unit number 1.

If an actual exposure time is measured at a noise level less than 90 dBA, that period of noise exposure shall be unlimited or infinity (∞).

(5) The following are examples of the use of the formula in accordance with subrule (4):

$$N = \frac{t_1}{T_1} + \frac{t_2}{T_2} + \frac{t_3}{T_3} + \ldots\ldots\ldots\ldots$$

N = total noise exposure

$t_1 + t_2 + t_3$ ..... = actual exposure times in minutes, at different noise levels.

$T_1 + T_2 + T_3$ ..... = permitted exposure times in minutes, at different noise levels.

Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

Example #1

5 Hr. = 300 Min. Exposure @ 83 dBA Permissible Time = ∞
2 Hr. = 120 Min. Exposure @ 95 dBA Permissible Time = 4 Hr. = 240 Min.
1 Hr. = 60 Min. Exposure @ 97 dBA Permissible Time = 3 Hr. = 180 Min.

$$\frac{t_1}{T_1} + \frac{t_2}{T_3} + \frac{t_3}{T_2} = N: \frac{300}{\infty} + \frac{120}{240} + \frac{60}{180} = 0 + .5 + .33 = .83$$

Since N does not exceed 1 the exposure is less than the permissible limit.

Example #2

1 Hr. = 60 Min. Exposure @ 87 dBA Permissible Time = ∞
3 Hr. = 180 Min. Exposure @ 90 dBA Permissible Time = 8 Hr. = 480 Min.
3 Hr. = 180 Min. Exposure @ 95 dBA Permissible Time = 4 Hr. = 240 Min.
1 Hr. = 60 Min. Exposure @ 100 dBA Permissible Time = 2 Hr. = 120 Min.

$$\frac{t_1}{T_1} + \frac{t_2}{T_2} + \frac{t_3}{T_3} = N: \frac{60}{\infty} + \frac{180}{480} + \frac{180}{240} + \frac{60}{120} = 0 + .38 + .75 + .5 = 1.63$$

Since N is greater than 1 the exposure exceeds the permissible limit.

(6) A sound level meter shall be used with the "A" network, slow response to compare airborne continuous noise levels with the maximum permissible noise levels.

History: 1954 ACS 61, p. 42, Eff. Feb. 16, 1970; 1954 ACS 68, p. 29, Eff. June 10, 1971.

R 325.2422 Impulse noise.

Rule 22. The maximum permissible level for impulse noise shall be 140 dB as measured with a cathode-ray oscilloscope system or with other equipment such as the impact noise meter capable of indicating the maximum-instantaneous peak noise level.

History: 1954 ACS 61, p. 44, Eff. Feb. 16, 1970.

R 325.2424 Illumination.

Rule 24. The level of illumination shall be adequate as determined by the director for the performance of the task.

History: 1954 ACS 61, p. 44, Eff. Feb. 16, 1970.

R 325.2429 Control methods for enclosures and controlled processes.

Rule 29. (1) An enclosure shall be provided at a stationary source unless the omission of the enclosure does not impair control.

(2) A controlled process shall be designed and regulated to prevent the creation of a hazard to health or life. If the director determines that there may be an immediate danger to health or life due to the failure of the process design or regulatory device he may require that the process fail-safe in such manner to avert the hazard.

History: 1954 ACS 61, p. 44, Eff. Feb. 16, 1970.

R 325.2430 Control methods for process spaces containing known or suspected nonrespirable atmosphere.

Rule 30. (1) Before an unprotected person enters a process space, the atmosphere shall be thoroughly ventilated and tested to determine the presence of a respirable atmosphere. Precautions shall be taken to prevent the creation of non-*respirable atmosphere in the* process space during the time that a person is inside.

(2) In the absence of ventilation or tests, or if a test shows the presence of a nonrespirable atmosphere, a person trained in the use of protective equipment shall be provided with an approved supplied air respirator or self-contained breathing apparatus, safety harness, and lifeline before entering the process space. Persons, capable, trained, and equipped to perform rescue shall be stationed outside the process space to maintain surveillance over the person entering.

History: 1954 ACS 61, p. 44, Eff. Feb. 16, 1970; 1954 ACS 68, p. 29, Eff. June 10, 1971.

R 325.2431 Inert gas or foam systems.

Rule 31. If an inert gas or foam system is provided in an occupied area for the prevention or extinguishment of fire or explosion, the affected area shall be conspicuously posted to call attention to the potential creation of a nonrespirable atmosphere. Provision shall be made for the actuating of an audible and visible alarm before the system is activated; the system shall incorporate a sufficient time-delay to permit the egress of any persons within the affected area. After the activation of the system, an audible and visible warning that a nonrespirable atmosphere has been created within the area shall continue until the nonrespirable atmosphere has been purged or diluted with air to safe breathing levels.

History: 1954 ACS 61, p. 44, Eff. Feb. 16, 1970.

R 325.2434 Supply ventilation systems.

Rule 34. (1) A supply ventilation system shall be provided to insure a flow of air into the working environment to replace the volume of air exhausted.

(2) A mechanical air supply system shall be provided if its absence will result in building negative pressures sufficient to cause back-drafting of vents from fuel-fired equipment or ineffective control.

(3) Mechanical air supply volumes shall be heated to maintain a minimum air temperature of 65 degrees Fahrenheit measured at the point of air discharge to the space. Exceptions to this requirement are refrigerated storage rooms, special process rooms and similar locations where lower air temperatures are essential to the preservation of the product or service, or if in the opinion of the director a lower air temperature will not be harmful to the health of the persons affected.

History: 1954 ACS 61, p. 45, Eff. Feb. 16, 1970.

R 325.2435 Direct-fired air heaters.

Rule 35. (1) A direct-fired air heater, wherein combustion products are released in the supply air stream, may be installed in buildings of industrial occupancy, garages, laundries, and commercial kitchens. They shall not be installed in offices, schools, hospitals, and places of public assembly.

(2) A direct-fired air heater shall have an inlet duct connected directly to the out-of-doors. Room air shall not be circulated across the burner.

(3) A direct-fired air heater shall deliver air which contains no more than 10 ppm of carbon monoxide and is free from odors of combustion products. Permissible concentrations of other contaminants in the delivered air may be established by the director pursuant to their MAC and the degree of exposure to a person.

(4) The air volume supplied to the building by a direct-fired air heater shall not exceed 110% of the total air volume exhausted. The director may require interlocking of a heater control system with an exhaust ventilation system if necessary to insure that the exhaust systems are operating.

(5) A direct-fired air heater shall have (a) a pre-ignition purge of fresh air; and (b) a *positive fuel supply closure in the* event of fuel supply failure, ignition

failure, flame failure, power failure or interruption, or air flow reduction below 50% of its rated capacity.

History: 1954 ACS 61, p. 45, Eff. Feb. 16, 1970.

R 325.2436 Exhaust ventilation systems.

Rule 36. The minimum rate of exhaust ventilation for places of manufacturing, processing, assembling, maintenance and repair, or storage of material shall be 1 cubic foot of air per minute per square foot of floor area. This amount of exhaust ventilation may be provided by local exhaust, general exhaust, or both. The director may permit a variance if contaminant control can be accomplished at a lesser rate of ventilation.

History: 1954 ACS 61, p. 45, Eff. Feb. 16, 1970.

R 325.2437 Local exhaust ventilation.

Rule 37. (1) Local exhaust ventilation shall be provided at all stationary sources. The director may allow a variance from this requirement if control shall be accomplished with general ventilation.

(2) If a local exhaust system is used, the exhaust air volume shall create an indraft air volume at an enclosure, hood, duct or fan sufficient to control the contaminant.

(3) A local exhaust system shall be designed to capture and control the contaminant. Distribution of exhaust air between various exhaust points should be accomplished by balanced duct design. If balancing gates are used, they shall be locked permanently in place after final adjustment.

(4) The design and construction of a local exhaust ventilation system shall be adequate for the contaminant and conditions of service. A listing of practical ventilation texts and references shall be available from the director upon request. Technical information and experience regarding specific contaminants and control measures may be obtained from the director.

History: 1954 ACS 61, p. 45, Eff. Feb. 16, 1970.

R 325.2438 General ventilation system.

Rule 38. A general ventilation system may be used for contaminant control. The ventilation air volume shall be sufficient to dilute the airborne contaminant to levels not exceeding the MAC.

History: 1954 ACS 61, p. 46, Eff. Feb. 16, 1970.

R 325.2439 Exhaust system discharge locations.

Rule 39. The discharge locations of local exhaust or general exhaust systems shall not permit exhausted air to re-enter a workroom or other buildings directly, or indirectly, through air supply systems without substantial dilution.

History: 1954 ACS 61, p. 46, Eff. Feb. 16, 1970.

R 325.2440 Recirculation of air from exhaust systems.

Rule 40. (1) The recirculation of air containing a contaminant whose MAC is equal to or exceeds 1000 ppm, 15Mg/M^3, or 50 mppcf, shall be permitted if the exhaust ventilation system is equipped with an air cleaning device capable of reducing the contaminant concentrations to 10% or less of their MAC in the returned air.

(2) The director may allow the recirculation of air containing a contaminant *whose MAC is less than 1000* ppm, 15Mg/M^3 or 50 mppcf, if the toxicity of the

contaminant and the degree of air cleaning to be achieved create an environment which will not impair the health of the workers, and if the contaminant concentrations in the returned air shall not exceed 10% of its MAC.

(3) A recirculation system shall include an alternate air duct connection to discharge the returned air outside of the building if necessary to protect the workers' health.

History: 1954 ACS 61, p. 46, Eff. Feb. 16, 1970.

R 325.2441 Air pollution control.

Rule 41. A local exhaust and general exhaust ventilation system shall comply with rules adopted by the air pollution control commission, being R 336.11 to R 336.62 of the Michigan Administrative Code.

History: 1954 ACS 61, p. 46, Eff. Feb. 16, 1970.

R 325.2442 Respiratory protective equipment; selection and use.

Rule 42. (1) Respiratory protective equipment for the safeguarding of the workers' health shall be provided by the employer if other methods do not control the contaminants.

(2) Respiratory protective equipment for the safeguarding of a worker's health may be used in lieu of other control measures in intermittent or temporary work situations.

(3) Respiratory protective equipment shall be of a type approved for protection against the contaminant and degree of exposure to be encountered. A listing of approved types of respiratory protective equipment shall be available from the director.

(4) Responsibility for equipment selection, issuance, use, training, and maintenance shall be vested in a qualified individual who shall have sufficient knowledge of the subject.

(5) A worker shall be trained in the use of the equipment and shall have an opportunity to become familiar with it, have it fitted properly, and test its facepiece to face seal. When a worker needs to wear corrective lenses the facepiece and lenses shall be fitted by a qualified individual.

(6) A worker shall use the equipment in accordance with instructions, shall report any malfunctioning of the equipment to the person responsible, and shall guard the equipment against damage.

(7) If the equipment is to be used in an atmosphere immediately dangerous to life or health the worker shall be required to use it in normal air for a reasonable familiarity period.

(8) Emergency equipment shall be readily accessible at all times and its location shall be clearly marked.

History: 1954 ACS 61, p. 46, Eff. Feb. 16, 1970; 1954 ACS 68, p. 29, Eff. June 10, 1971.

R 325.2442a Respiratory protective equipment; maintenance.

Rule 42a. (1) Respiratory protective equipment shall be maintained in clean and effective condition.

(2) Routinely used equipment shall be cleaned, inspected, and sanitized as frequently as necessary to insure that proper protection is provided for the wearer.

(3) Emergency equipment that is not routinely used shall be inspected, cleaned, and sanitized after each use and inspected at least monthly to insure that it is in effective working condition. A record shall be kept of inspection dates and findings.

(4) Equipment inspection shall include a check of the tightness of connections and the proper functioning of all parts.

(5) Replacement or repairs shall be made by trained persons with parts designated for the specific equipment. Reducing valves or regulators shall be returned to the manufacturer or to a trained technician for adjustment or repair.

(6) Equipment shall be stored to protect against dust, sunlight, heat, extreme cold, excessive moisture, or damaging chemicals.

History: 1954 ACS 68, p. 29, Eff. June 10, 1971.

R 325.2442b Respiratory protective equipment; types for certain hazards.

Rule 42b. Where the following hazards exist the equipment prescribed shall be used:

Hazard	Required Equipment
Oxygen deficiency	Hose mask with blower Self-contained breathing apparatus
Gas, vapor, particulate contaminants	
Atmospheres immediately dangerous to life or health	Hose mask with blower Self-contained breathing apparatus Self-rescue mouthpiece respirator (for escape only)
Atmospheres not immediately dangerous to life or health	Air-line respirator Air-line abrasive blasting respirator (particulate only) Gas mask with canister or with canister and filter Hose mask with blower Respirator with chemical cartridge or filter or both

History: 1954 ACS 68, p. 30, Eff. June 10, 1971.

R 325.2442c Respiratory protective equipment; supplies and components.

Rule 42c. (1) Compressed or liquid oxygen used with respiratory protective equipment shall be of high purity. Compressed oxygen shall not be used in supplied-air respirators or in open-circuit self-contained breathing apparatus that have previously used compressed air.

(2) Air may be supplied to equipment from cylinders or air compressors with proper pressure regulation and control. Air shall contain 19-23% oxygen and no more than 20 ppm carbon monoxide and 5 mg/M^3 oil mist.

(3) A compressor or compressor air intake shall be situated so as to prevent entry of contaminants into the system in amounts which may be injurious to the health of an exposed person.

(4) An oil lubricated compressor shall incorporate suitable inline air purifying sorbents and filters, temperature regulators, and high-temperature cut-off to assure breathing air quality. An oil lubricated compressor shall not use vegetable oil lubricants.

(5) An air-line coupling or connector shall be incompatible with outlets for other gas systems to prevent connection with non-respirable gases or oxygen.

(6) A self-contained breathing apparatus and universal type gas mask shall *incorporate an audible or visible* alarm, or window to indicate impending failure

of the device to provide respirable air. It is recommended that warning be given when 20-25% of rated service time remains.

History: 1954 ACS 68, p. 30, Eff. June 10, 1971.

R 325.2443 Variances.

Rule 43. Variances as provided in R 325.2436 and subrule (1) of R 325.2437 may be granted by the director upon written request. Variances granted by the director shall be in writing and shall give due consideration to the potential health hazard and the control measures to be employed.

History: 1954 ACS 61, p. 46, Eff. Feb. 16, 1970.

R 325.2444 Hearing procedures.

Rule 44. (1) The director shall serve a written notice upon an employer alleged to be in violation of these rules. The notice shall describe the alleged violation and set a date, time, and place for a hearing to determine whether a violation exists. The notice shall be delivered at least 15 days before the hearing date.

(2) The hearing shall be held in accordance with rules entitled "Rules of Procedure for the Conduct of Hearings," being R 325.1201 to R 325.1206 of the Michigan Administrative Code. At a hearing, evidence and testimony may be introduced and all interested parties shall be given the full opportunity to present evidence and to cross-examine witnesses.

(3) If a violation is found to exist, the director shall issue an order directing the person, firm or corporation to correct the violation on or before a specified correction date. The correction date shall be established with due consideration of the health hazard involved and the difficulty of eliminating the violation.

(4) At the time of the hearing, or within 30 days after receipt of an order from the director, the person, firm or corporation may request an extension of the correction date. The director may grant an extension of the correction date, with due consideration of the health hazard and the difficulty of correction, for a reasonable time, if it is shown that the violation can and will be corrected on or before the extended correction date.

(5) If a violation is not eliminated within the time specified, the director shall issue a final order directing the person, firm or corporation to cease the operation of the source that is in violation.

History: 1954 ACS 61, p. 46, Eff. Feb. 16, 1970.

R 325.2445 Emergency procedure.

Rule 45. If the director has knowledge that there is an immediate and serious hazard from exposure to a contaminant and he believes that a delay of 15 days would be prejudicial to the health or life of exposed persons, he shall notify the employer by written notice that he shall discontinue immediately the exposure to the contaminant. Within not more than 15 days the director shall provide the employer the opportunity to be heard and to present any proof that exposure to the contaminant does not constitute a danger to the health or life of the exposed persons.

History: 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

R 325.2446 Appeals.

Rule 46. An employer aggrieved by a decision of the director may appeal the decision pursuant to sections 8 and 9 of Act No. 197 of the Public Acts of 1952, being §§24.108 and 24.109 of the Michigan Compiled Laws.

History: 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

R 325.2447 Amendments; revisions.

Rule 47. (1) If the director has knowledge that rule revision is required for the prevention of occupational disease or significant physiological disturbance, or after consideration of a request by any person, he may proceed to amend these rules in accordance with the administrative procedures act.

(2) If the director believes that there is a significant hazard to the health of exposed persons, he may proceed to amend these rules and provide for the immediate effect of the amendment in accordance with the administrative procedures act.

History: 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

R 325.2448 Rescission.

Rule 48. The rules entitled "Basic Guides for Control of Exposure to Atmospheric Contaminants in Places of Employment," being R 325.1351 to R 325.1355 of the Michigan Administrative Code and appearing on pages 2592 to 2599 of the 1962 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

TELECOMMUNICATIONS INDUSTRY

(By authority conferred on the occupational health standards commission by section 24 of Act No. 154 of the Public Acts of 1974, being §408.1024 of the Michigan Compiled Laws)

R 325.2491 Adoption of federal standards.

Rule 1. (1) Except as noted in R 325.2492, the safety and health standards of the occupational safety and health administration of the United States department of labor relative to the telecommunications industry, being section 268 of part 1910 of title 29 of the Code of Federal Regulations, are incorporated herein by reference. These standards may be inspected at the Lansing office of the department of public health, or may be purchased at a cost of 20 cents by ordering the March 26, 1975, volume 40, number 59, edition of the Federal Register from either the Superintendent of Documents, Washington, D.C. 20402, or the area office of the Occupational Safety and Health Administration, 226 Bagley, Detroit, Michigan 48226. The standards may also be purchased at a cost of 20 cents from the Michigan Department of Public Health, 3500 North Logan Street, P.O. Box 30035, Lansing, Michigan 48909.

(2) Specifically enumerated, the subsections of 29 C.F.R. §1910.286 that are incorporated by reference are as follows: (a)(1), (a)(2)(ii), (b)(1)(i), (b)(2), (b)(3), (b)(8), (c), (d)(1), (e), (i)(3), (i)(3)(ii), (i)(4), (o), (o)(1), (o)(2), (o)(3), (p), (s), (s)(11), (s)(18), (s)(24), (s)(27), (s)(29), (s)(33), (s)(37), (s)(40) to (43).

History: 1954 ACS 89, p. 18, Eff. Nov. 16, 1976.

R 325.2492 Exceptions.

Rule 2. (1) Subsections (a)(2)(i) and (a)(3) of the standards specified in R 325.2491 are not incorporated by reference.

(2) Relative to the presentation of employee training information, the term "assistant secretary for occupational safety and health," as used in subsection (c) of the standards referred to in R 325.2491, being 29 C.F.R. §1910.268(c), means the director of the department of public health.

(3) The following subsections of the standards specified in R 325.2491, have *been adopted by the* department of labor and are not incorporated herein by

reference: (b)(1)(ii) to (v), (b)(4) to (7), (d), (f), (g), (h), (i)(1), (i)(2), (i)(3)(i), (i)(5) to (9), (j) to (n), (q), (s)(1), (s)(2), (s)(4) to (10), (s)(12) to (17), (s)(19) to (23), (s)(25), (s)(26), (s)(28), (s)(30) to (32), (s)(34) to (36), (s)(38), (s)(39), (s)(44), and (s)(45).

History: 1954 ACS 89, p. 18, Eff. Nov. 16, 1976.

R 325.2493 Applicability of other standards or rules.

Rule 3. (1) Operations or conditions in the telecommunications industry not specifically covered by R 325.2491 are subject to all the applicable occupational health standards for construction incorporated by reference by section 14 of Act No. 154 of the Public Acts of 1974, being §408.1014 of the Michigan Compiled Laws, or promulgated by the occupational health standards commission. A publication by the department of public health entitled "Occupational Health Standards for Construction" may be obtained from the department at a cost of $1.50.

(2) The standards appearing in the publication of the department of public health entitled "Occupational Health Standards for General Industry" shall apply to construction operations and hazards in the telecommunications industry when the standards contained in subrule (1) do not cover the same condition, practice, means, method, operation, or process. This publication may be obtained from the department at a cost of $3.00.

History: 1954 ACS 89, p. 18, Eff. Nov. 16, 1976.

FOOD SERVICE SANITATION

(By authority conferred on the director of public health by sections 7 and 9 of Act No. 269 of the Public Acts of 1968, being §§325.807 and 325.809 of the Michigan Compiled Laws)

R 325.2501 Definitions.

Rule 1. As used in these rules:

(a) "Food service sanitation program" means the systematic activity of a local health department for effective administration and enforcement of Act No. 269 of the Public Acts of 1968, being §§325.801 to 325.813 of the Michigan Compiled Laws. It includes a periodic inspection of food service establishments, vending machines, and vending machine locations for compliance with the requirements of law; recommendations for licensure with appropriate records; review of plans for new and extensively remodeled establishments; educational activities; investigation of reports of foodborne illnesses; and such other activities which may be necessary.

(b) "Local health department" means a district, county, or city health department.

History: 1954 ACS 67, p. 37, Eff. May 10, 1971.

R 325.2502 Certifications.

Rule 2. (1) A certified local health department shall meet the requirements for approval prescribed by Act No. 306 of the Public Acts of 1927, as amended, being §§327.201 to 327.208b of the Michigan Compiled Laws, and rules adopted thereunder and the provisions of Act No. 269 of the Public Acts of 1968.

(2) In determining eligibility for certification, due consideration shall be given to the relationship of the food sanitation activities to the entire environmental health needs and programs of the health department as set forth in its biennial program plan.

History: 1954 ACS 67, p. 38, Eff. May 10, 1971.

R 325.2503 Personnel.

Rule 3. (1) A person having direct responsibility for administration of the food service sanitation program in a local health department shall be a registered sanitarian, registered professional engineer, or doctor of veterinary medicine licensed in Michigan, and shall have experience in environmental health and demonstrated competence in the field of food service sanitation.

(2) A staff member conducting food service sanitation program activities shall meet the applicable qualifications prescribed in R 327.41 to R 327.77. He shall be competent in the field of food service sanitation and shall be under the direct supervision of a person meeting the requirements of subrule (1).

History: 1954 ACS 67, p. 38, Eff. May 10, 1971.

R 325.2504 Evaluations.

Rule 4. (1) An evaluation of a local health department's food service sanitation program shall be conducted by the Michigan department of public health, food service sanitation section, at least once in any 3-year period. A lesser time interval between evaluations may be justified when an evaluation or other evidence indicates the food service sanitation program to be marginal or inadequate, when substantial improvements are made, or when changes are made in the personnel of the local health department.

(2) If, on evaluation, the food service sanitation program is found to be inadequate, appropriate recommendations for corrections shall be made and the program reevaluated after a probationary period to be determined by the director of public health.

(3) If the food service sanitation program is still found to be inadequate as revealed by a reevaluation conducted in accordance with subrule (2), an additional probationary period, not exceeding 6 months, may be granted if progress suitable to the director has been made since the previous evaluation.

History: 1954 ACS 67, p. 38, Eff. May 10, 1971.

R 325.2505 Removal of certifications.

Rule 5. (1) If a local health department is not maintaining an adequate food service sanitation program satisfactory to the director, the program shall be reviewed by a board convened by the director. The board shall be comprised of 1 representative of each of the following: Michigan health officers association, Michigan environmental health association, engineering advisory committee, food service industry, food service sanitation advisory committee and the bureau of community health, Michigan department of public health. The board shall select its chairman for each review.

(2) Within 1 month after conclusion of a review, the review board shall recommend to the director either initiating statutory proceedings to remove certification of the local health department or continuance of certification based on evidence of extenuating circumstances presented at the review, in which case the board shall make appropriate recommendations for improvements and reevaluation.

(3) Failure to comply with such recommendations of the board may result in the director initiating statutory proceedings to remove certification.

History: 1954 ACS 67, p. 38, Eff. May 10, 1971.

MARINA FACILITIES

(By authority conferred on the department of public health by section 7 of Act No. 146 of the Public Acts of 1919, as amended, sections 5 and 5a of Act No. 167 of the Public Acts of 1970 and section 427 of Act No. 380 of the Public Acts of 1965, being §§325.7, 323.335, 323.335a, and 16.527 of the Michigan Compiled Laws)

R 325.2581 Definitions.

Rule 1. (1) The terms defined in the act have the same meaning when used in these rules.

(2) "Act" means Act No. 167 of the Public Acts of 1970, being §§323.331 to 323.342 of the Michigan Compiled Laws.

(3) "Backflow preventer" means a device or other method to prevent a backflow of contaminants into a potable water supply system.

(4) "Department" means the department of public health or a city, county, or district health department authorized by the director to participate in administration of the act.

(5) "Director" means the director of public health.

(6) "Marina" means a public, private, or commercial facility used for mooring, serving, or otherwise handling watercraft capable of being equipped with a marine toilet, except as otherwise provided in the act.

(7) "Pump-out facility" means a device or method for removing sewage from a holding tank connected to a marine toilet or from a self-contained marine toilet on a pleasure or commercial watercraft.

(8) "Vacuum" means a pressure less than that exerted by the atmosphere.

History: 1954 ACS 76, p. 18, Eff. June 19, 1973.

R 325.2583 Water supply systems.

Rule 3. (1) A marina shall obtain water from a public water supply system when available and accessible for connection.

(2) A water supply system other than a public water supply system serving a marina shall comply with department rules entitled "Minimum Standards for the Location and Construction of Certain Water Supplies," being R 325.1451 to R 325.1461 of the Michigan Administrative Code and appearing on pages 3205 to 3210 of the 1964-65 Annual Supplements to the Code.

(3) The water supply shall be protected by properly designed and located backflow preventers including the installation of a vacuum breaker on the discharge side and near the last valve for each water outlet to which a hose can be connected.

History: 1954 ACS 76, p. 18, Eff. June 19, 1973.

R 325.2584 Hose lines for water.

Rule 4. (1) A hose used for potable water shall be blue or green or labeled and designated by use of a blue or green color code. The nozzle or outlet of the hose shall be protected from contamination.

(2) A hose used for placing water in a sewage holding tank for flushing purposes shall be separate from hose used for potable water and shall be red, yellow, or brown.

History: 1954 ACS 76, p. 18, Eff. June 19, 1973.

R 325.2586 Litter containers.

Rule 6. (1) A litter container shall be provided and conveniently located at each dockside service *center, launching* ramp, and special use location.

Digitized by Google

(2) A litter container, in addition to those furnished at a service center, launching ramp or other special use location shall be furnished in the ratio of 1 container for every 6 boat slips.

(3) A litter container shall be designed, constructed of material, and emptied at frequent enough intervals to prevent overflowing, foul odors, fly breeding, and attracting of rodents.

History: 1954 ACS 76, p. 18, Eff. June 19, 1973.

R 325.2587 Toilet facilities.

Rule 7. (1) A marina furnishing boat docking facilities for in excess of 10 transient customers shall provide minimum toilet facilities in accordance with the following table:

Number of Boat Slips	Number of Toilets M	Number of Toilets F	Number of Urinals	Number of Lavatories M	Number of Lavatories F	Number of Showers
10-25	1	1	0	1	1	2
26-50	2	2	0	2	2	2
51-80	2	3	1	3	3	4
81-125	2	4	2	4	4	4
126-200	3	5	2	5	5	6
201-250	3	6	3	6	6	8
251-300	4	7	3	7	7	8

(2) If showers are provided for each sex, the number in the preceding table shall be divided evenly between the sexes.

(3) A marina operator who has other facilities at the marina location, such as boat launching ramp or restaurant, shall provide additional toilet fixtures for his customers using such facilities.

History: 1954 ACS 76, p. 19, Eff. June 19, 1973.

R 325.2588 Pump-out facilities.

Rule 8. (1) A marina required to install a pump-out facility as specified in sections 5 and 5b of the act, shall provide a facility capable of lifting sewage not less than 12 feet under vacuum and delivering it to the receiving facility free from spillage and clogging. Equipment used in connection with the pump-out facility shall be designed to be serviced easily in case of clogging.

(2) A vacuum hose used in connection with a pump-out facility shall be pliable, collapse-proof, nonkinking, and equipped with a connection or insert device which will preclude leakage or spillage during the pump-out operation.

History: 1954 ACS 76, p. 19, Eff. June 19, 1973.

R 325.2589 Receiving units for sewage.

Rule 9. (1) Sewage removed from a watercraft holding tank shall be handled in 1 of the following ways and in the order of preference as listed:

(a) Discharged to a public or governmental sewer by means of a gravity line or a force main.

(b) Stored in an on shore or dockside holding tank, which is watertight and so positioned, or movable to such a site, that it can be serviced easily in a sanitary manner.

(c) Discharged to a wastewater treatment facility with final disposal on the land owned by or under the control of the marina operator. Plans for this

treatment facility showing the method of final disposal shall be submitted to the department and approval obtained before construction is commenced.

(2) The discharge of sewage from 1 watercraft into another watercraft is prohibited unless the equipment and method of operation is approved by the department.

History: 1954 ACS 76, p. 19, Eff. June 19, 1973.

R 325.2590 Letters of approval.

Rule 10. When the department has determined that these rules have been complied with, a letter of approval shall be issued to the marina which shall expire on June 30 next following. If subsequent inspections reveal a violation of these rules and correction is not made within a specified time period, approval shall be withdrawn by the department. Any marina required to install a pump-out facility as specified in sections 5 or 5b of the act which does not have a valid letter of approval is in violation of section 12 of Act No. 146 of the Public Acts of 1919, as amended, being §325.12 of the Michigan Compiled Laws.

History: 1954 ACS 76, p. 19, Eff. June 19, 1973.

R 325.2591 Variances.

Rule 11. A variance from these rules may be granted by the director for a device or method the use of which, in the opinion of the director, accomplishes the intent of these rules. A variance granted by the director shall be obtained in writing before installation and use of the device or method.

History: 1954 ACS 76, p. 20, Eff. June 19, 1973.

OFFICE OF DIRECTOR

MERCURY LEVELS IN FISH FROM MICHIGAN WATERS

(By authority conferred on the director of public health by section 7 of Act No. 146 of the Public Acts of 1919, as amended, and section 427 of Act No. 380 of the Public Acts of 1965, being §§325.7 and 16.527 of the Michigan Compiled Laws)

R 325.2601 Definitions.

Rule 1. As used in these rules:

(a) "Director" means the director of public health.

(b) "ppm Hg" means parts per million mercury expressed as the concentration of total mercury found, on a net weight basis, in an edible portion of fish as determined by a method approved by the director.

(c) "Valid sampling procedure" means a procedure which includes sampling of a sufficient number of fish to allow the determination of the level of mercury in the fish with a reliability acceptable to the director.

History: 1954 ACS 69, p. 54, Eff. Nov. 11, 1971.

R 325.2602 Action on certain waters.

Rule 2. (1) The director hereby determines that the presence of mercury in fish is a source of contamination potentially hazardous to human health and that eating such fish over time can result in a toxic accumulation of mercury in human tissue, so that the following steps are necessary to protect the health of the people.

(2) When on the basis of valid sampling procedures more than 50% of a species of fish from waters of Michigan are found to contain more than 0.5 ppm Hg, fish from these waters may be taken and kept, but:

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(a) Warnings shall be given to the public that eating such fish may be harmful to health, especially to children and pregnant women. Local health departments having jurisdiction over such waters, upon notification by the director, shall post all public accesses to the waters with appropriate signs warning of the potential hazard, and shall further notify the public of such hazard by all reasonable means, using such language as shall be acceptable to the director.

(b) Special warnings shall be provided by the director to the department of natural resources for attachment to, or publication on, fishing licenses and fish law digests issued to fishermen using the affected waters.

(3) When on the basis of valid sampling procedures more than 20% of a species of fish that might be a significant source of food from waters of Michigan are found to contain more than 5 ppm Hg, those waters shall be closed to all fishing. The department of public health shall see to it that all public accesses to the waters are posted with signs explaining the provisions of this rule and the penalty for violating it. The department shall further notify the public of the provisions of this rule by all reasonable means.

History: 1954 ACS 69, p. 54, Eff. Nov. 11, 1971.

R 325.2603 Reports of tests.

Rule 3. A laboratory performing tests to determine the level of mercury in fish from waters in Michigan shall report the results of such tests to the department of public health on a form approved by the director. The form shall be completed in full and shall include, but not be limited to, answers to the following: date of the sample; number of fish and species used in the sample; approximate location and body of water from which the fish were taken; tests employed; name of the laboratory performing the tests; and the results of the tests for each fish or specimen tested.

History: 1954 ACS 69, p. 54, Eff. Nov. 11, 1971.

R 325.2604 Notices of determinations.

Rule 4. When upon consideration of reports submitted to the director in accordance with R 325.2603, he determines the existence of a source of fish contaminated with mercury requiring action under R 325.2602, he shall notify the governor, the department of natural resources, the department of agriculture, and any other agencies he deems appropriate.

History: 1954 ACS 69, p. 55, Eff. Nov. 11, 1971.

R 325.2605 Exclusion.

Rule 5. This rule does not apply to fish being caught or sold for commercial purposes which are controlled by Act No. 39 of the Public Acts of 1968, as amended, being §§289.701 to 289.727 of the Michigan Compiled Laws.

History: 1954 ACS 69, p. 55, Eff. Nov. 11, 1971.

BUREAU OF DISEASE CONTROL AND LABORATORY SERVICES

TESTS FOR BLOOD ALCOHOL

(By authority conferred on the department of public health by section 625g of Act No. 300 of the Public Acts of 1949, as amended, being §257.625g of the Michigan *Compiled Laws)*

Digitized by Google

R 325.2651 Definitions.

Rule 1. (1) "Act" means sections 625a to 625g of Act No. 300 of the Public Acts of 1949, as amended, being §§257.625a to 257.625g of the Michigan Compiled Laws.

(2) "Department" means the department of public health.

(3) "Breath analyzer instrument" means a device for determining the blood alcohol concentration of a person in terms of percent (weight/volume) by the analysis of a sample of his essentially alveolar breath when the results may be used in his subsequent prosecution.

History: 1954 ACS 78, p. 25, Eff. Feb. 28, 1974.

R 325.2652 Equipment selection.

Rule 2. (1) The Borkenstein breathalyzer is approved for use in this state for the purpose of determining blood alcohol concentration by means of quantitative alcohol analysis of an essentially alveolar breath sample. Accessories and supplies necessary for use with the breathalyzer must be approved by the department. Application for approval should be sent to the department in care of bureau of laboratories, division of crime detection.

(2) Other equipment for determining blood alcohol concentrations by means of the analysis of essentially alveolar breath specimens must be approved by the department prior to the time it is used for testing a person charged with an offense involving alcohol.

History: 1954 ACS 78, p. 25, Eff. Feb. 28, 1974.

R 325.2653 Equipment accuracy.

Rule 3. (1) A breath analyzer instrument shall be checked for accuracy at least weekly, or more frequently as the department may require, by a certified operator. The test for accuracy shall be made in a prescribed manner using a standard alcohol solution or vapor provided or approved by the department. For the instrument to meet the requirements for accuracy, a test result of .096 to .100% shall be obtained when using a carefully controlled device delivering an alcohol vapor concentration equivalent to a blood alcohol concentration of .100% w/v. Other vapor concentrations shall show proportionally accurate results.

(2) A Borkenstein breathalyzer instrument shall be inspected, serviced, checked for accuracy, and certified as to its proper working order by a certified inspector-operator every 3 months or after 200 breath tests, whichever is first. Other breath analyzer instruments shall be inspected, serviced, checked for accuracy, and certified as the department requires.

History: 1954 ACS 78, p. 25, Eff. Feb. 28, 1974.

R 325.2654 Equipment maintenance.

Rule 4. (1) Maintenance and repairs of the Borkenstein breathalyzer shall be conducted by inspector-operators certified by the department.

(2) Maintenance and repair of other equipment approved by the department for determining blood alcohol concentrations through the analysis of essentially alveolar breath specimens shall be at the expense of the agency using the equipment.

History: 1954 ACS 78, p. 25, Eff. Feb. 28, 1974.

R 325.2655 Techniques and procedures.

Rule 5. A procedure used in conjunction with breath alcohol testing shall be approved by the department and shall include, but not necessarily be limited to, the following:

(a) The instrument shall be operated by an operator certified by the department.

(b) A person may be administered a breath test only after being observed for 20 minutes prior to collection of the breath specimen, during which period the subject shall not have ingested alcoholic beverages or other fluids, eaten, smoked, or vomited.

(c) The department shall analyze chemically the contents of samples from each lot of ampoules of chemical solutions used in the state in conjunction with breath analyzer instruments. The department shall certify for use those lots of ampoules which are found to be proper in chemical composition.

(d) A test shall be conducted using the approved test report form and procedure.

(e) Proper and adequate records of operation, analysis, and results shall be maintained at the instrument location.

(f) A breath specimen collected for analysis shall be essentially alveolar in composition.

(g) A person shall be tested on a properly working, certified instrument. The test shall consist of 2 separate breath samples analyzed individually, using the same technique on both, except when the subject refuses to give the second sample.

(h) The results of an analysis of a person's breath shall be expressed in terms of percent by weight, that is grams of alcohol per 100 milliliters of blood, to the second decimal place. For example, 0.237% found shall be reported as 0.23%.

(i) The purpose of conducting a second breath alcohol analysis is to confirm the result of the first analysis. For this reason, the second analysis result must vary not more than the value given below from the first analysis result. If the variation is greater than that allowed, it is necessary that a third breath sample be requested from the person being tested and a third analysis conducted. Should this third analysis not confirm 1 of the 2 previous tests, the subject shall be requested to submit a blood or urine sample for analysis by an approved laboratory.

Blood alcohol concentration range	Allowable variation of second analysis result from the first:
0.00%-0.14%	0.01%
0.15%-0.24%	0.02%
0.25%-0.34%	0.03%
0.35%-up	0.04%

(j) A person's welfare shall be protected by requesting medical assistance if he has either a blood alcohol concentration of .35% or greater or apparent severe intoxication accompanied by a low blood alcohol concentration.

History: 1954 ACS 78, p. 26, Eff. Feb. 28, 1974.

R 325.2656 Operator certifications.

Rule 6. (1) Breath analyzer instrument operator certification training courses supervised by the department are offered only to authorized police agency personnel.

(2) To be eligible for certification, an applicant shall successfully complete an approved basic course of instruction consisting of at least 40 hours of classroom and laboratory instruction. The instruction shall be consistent with the recommendations of the national safety council committee on alcohol and drugs and *approved by the department.*

(3) Every breath analyzer instrument operator shall successfully pass the examinations given by the department to obtain certification as an operator. Upon successful completion of the examinations, he shall be issued a certification card. In the case of failure to pass the prescribed written or laboratory examination, a second opportunity to take the examination shall be provided in the next scheduled training school or as the department may direct. Failure to complete successfully the examination a second time necessitates repeating the basic course of instruction in order to qualify to take the certification examination again.

(4) A certified operator shall conduct a test for accuracy as described in R 325.2653 at least once each month. The omission of more than 1 test during a calendar year shall result in the revocation of certification of the offending operator. Reinstatement of the operator's certification may be considered by the department only if unusual extenuating circumstances prevented the performance of the required simulator test and this information is submitted in writing to the department or the operator in violation attends a regularly scheduled 1-day recertification school and successfully passes both written and laboratory examinations.

(5) An operator shall adhere to and maintain all department rules, policies, and procedures or his certification may be revoked and his certification card forfeited to the department.

History: 1954 ACS 78, p. 26, Eff. Feb. 28, 1974.

R 325.2657 Operator recertifications.

Rule 7. (1) To retain certification, an operator shall be recertified once each calendar year by successfully completing a regularly scheduled recertification school with the included examinations. An exception shall have the approval of the department.

(2) Upon failure to pass the prescribed written and laboratory examinations for recertification, the operator will not be certified to test subjects upon the instrument until such time as he satisfactorily meets the certification requirements. A second opportunity to take the examinations shall be provided during the next scheduled recertification school or as the department may direct.

(3) An operator who fails to pass either prescribed recertification examination a second time shall repeat the basic course before taking the certification examination again.

(4) An operator who does not attend his regularly scheduled recertification school shall attend the next scheduled recertification school in order to retain his certification.

(5) An operator choosing to surrender his certification voluntarily may regain it by successfully passing the recertification examinations at any of the scheduled recertification schools.

History: 1954 ACS 78, p. 27, Eff. Feb. 28, 1974.

R 325.2658 Inspector-operator certification.

Rule 8. (1) The department shall certify selected breath analyzer instrument operators as inspectors after additional training. An inspector-operator shall serve as an agent for the department to perform the following:

(a) Service and repair of breath analyzer equipment.

(b) Conduct breath analyzer instrument location inspections for compliance with the department rules, policies, and procedures.

(c) Serve as an instructor in at least 1 basic breath analyzer instrument course per year. Exceptions shall have prior department approval.

(d) Serve as instructor in 1 or more of the annual recertification schools conducted in the inspector-operator's assigned district.

(e) Conduct inspection of approved breath testing equipment other than the breathalyzer for compliance with the department rules, policies and procedures.

(2) Assignment and activities of an inspector-operator regarding the breath-alcohol testing program shall be coordinated by the safety and traffic division of the department of state police.

History: 1954 ACS 78, p. 27, Eff. Feb. 28, 1974.

R 325.2659 Laboratory tests.

Rule 9. Laboratory testing of blood, urine, or other bodily substances for its alcoholic content, for the purpose of the act, shall be made by the department or a laboratory either licensed under Act No. 235 of the Public Acts of 1968, being §§325.81 to 325.92 of the Michigan Compiled Laws or approved by the department. The director of the department shall approve equipment, personnel, and procedures to be used in the determination of the alcoholic content of blood, urine, or other bodily substances for the purpose of enforcement of the act. Failure to maintain the standards prescribed by the department may result in the limitation or revocation of the laboratory license issued under Act No. 235 of the Public Acts of 1968 or approval of the laboratory by the department to conduct alcohol tests.

History: 1954 ACS 78, p. 27, Eff. Feb. 28, 1974.

BUREAU OF ENVIRONMENTAL AND OCCUPATIONAL HEALTH

SOLID WASTE DISPOSAL

(By authority conferred on the department of public health by section 7 of Act No. 146 of the Public Acts of 1919, as amended, section 6 of Act No. 87 of the Public Acts of 1965, and sections 9 and 427 of Act No. 380 of the Public Acts of 1965, as amended, being §§325.7, 325.296, 16.109, and 16.527 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 325.2701 Definitions.

Rule 1. As used in these rules:

(a) "Cell" means compacted refuse completely enveloped by cover material.

(b) "Central garbage grinding" means the grinding by mechanical means of garbage accumulated by municipal, commercial, or private delivery vehicles.

(c) "Director" means the director of the department of public health.

(d) "Disposal area" means a site, location, tract of land, area, building, structure, or premise used or intended to be used for partial and/or total refuse disposal.

(e) "Groundwater" means water in the ground that is in the zone of saturation.

(f) "Habitable building" means a structure or part thereof where persons live, sleep, reside, or congregate.

(g) "Hazardous material" includes, but is not limited to, explosives, pathological wastes, radioactive materials, and chemicals.

(h) "Health department" means an approved city, county or district health department, including the Michigan department of public health.

(i) "Open dump" means a site where refuse is dumped and which, due to lack of control, may create a breeding place for flies and rats, may catch fire, or may produce air pollution.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(j) "Premises" means a tract or parcel of land with or without habitable buildings.

(k) "Salvaging" means the controlled removal of reusable materials.

(l) "Sanitary landfill" means a method of disposing of refuse on land without creating nuisances or hazards to public health or safety, by utilizing principles of engineering to confine the refuse to the smallest practical area, to reduce it to the smallest practical volume, and to cover it with a layer of suitable cover at the conclusion of each day's operation or at more frequent intervals as necessary.

(m) "Scavenging" means the uncontrolled picking of materials.

(n) "Surface water" means a body of water whose top surface is exposed to the atmosphere, including a flowing body as well as a pond and a lake.

History: 1954 ACS 45, p. 8, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1101.

R 325.2702 General requirements for licensing.

Rule 2. Where refuse is removed from premises, to a location other than its point of origin, for disposal or where refuse is not removed from the premises but disposed at the point of origin in such quantities as to become of public health concern:

(a) Refuse disposal facilities shall be designed in accordance with these rules by a registered professional engineer. Detailed plans, specifications and necessary reports shall be submitted in triplicate to the health department having jurisdiction for review, approval and file. Alterations or deviations from these plans shall also be submitted for approval and file. In the development of the required plans and specifications for sanitary landfill, hog feeding and open dump operations when the health department, in their judgment, believe that technical problems will not be encountered, the services of a registered professional engineer may be waived.

(b) The director or health department having jurisdiction shall make routine inspections and evaluations of solid waste disposal operations. A written notice of deficiencies, together with recommendations for their correction, shall be provided to the operator or the appropriate individual, firm, corporation, governmental unit, or agency thereof responsible for the solid waste disposal operation.

History: 1954 ACS 45, p. 9, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1102.

PART 2. SANITARY LANDFILLS

R 325.2721 Sanitary landfills; design.

Rule 21. (1) The design of the sanitary landfill shall include 1 or more topographic maps at a scale of not over 100 feet to the inch with contour intervals which clearly show the character of land. These maps and accompanying data shall indicate the following: the proposed fill area; any borrow area; access roads; on-site roads; grades for proper drainage of each lift required and a typical cross-section of a lift; special drainage devices if necessary; fencing; structures on the site; existing and proposed utilities; and all other pertinent information to indicate clearly the soil characteristics, water table, orderly development, operation and completion of the sanitary landfill. A sanitary survey and a land use plan of the adjacent areas may be required.

(2) The geological characteristics of the site shall be determined by on-site testing or from earlier reliable survey data to indicate soil conditions, water tables and subsurface characteristics.

(3) Cover material shall be of such character that it can be compacted to provide a tight seal and shall be free of putrescible materials and large objects.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(4) Sanitary landfill operations shall be so designed and operated that conditions of unlawful pollution will not be created and injury to ground and surface waters avoided which might interfere with legitimate water uses. Water-filled areas not directly connected to natural lakes, rivers or streams may be filled with specific inert material not detrimental to legitimate water uses and which will not create a nuisance or hazard to health. Special approval of the inert material to be used in this manner is required in writing from the health department having jurisdiction. Such approval shall be filed with the director. Inert material shall not include residue from refuse incinerators, unless evidence, satisfactory to the director, is submitted by the licensee substantiating that such residue will not create a nuisance or hazard to health.

(5) Adequate numbers, types, and sizes of properly maintained equipment shall be used in operating the landfill in accordance with good engineering practice and with these rules. Emergency equipment shall be available on the site or suitable arrangements made for such equipment from other sources during equipment breakdown or during peak loads.

History: 1954 ACS 45, p. 9, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1103.

R 325.2722 Sanitary landfills; preparation of sites.

Rule 22. (1) On-site roads shall be designed and constructed so that traffic will flow smoothly and will not be interrupted by ordinary inclement weather.

(2) Suitable measures shall be available to extinguish accidental fires.

History: 1954 ACS 45, p. 10, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1104.

R 325.2723 Sanitary landfills; operations.

Rule 23. (1) A landfill operation shall be under the direction of a responsible individual at all times.

(2) Access to a sanitary landfill shall be limited to those times when an attendant is on duty and only to those authorized to use the site for the disposal of refuse, except as otherwise approved in writing by the health department having jurisdiction and concurred in by the director. Access to the site shall be controlled by a suitable barrier.

(3) Unloading of refuse shall be continuously supervised, except as may be modified by subrule (2).

(4) Measures shall be provided to control dust and blowing paper. The entire area shall be kept clean and orderly.

(5) Refuse shall be spread so that it can be compacted in layers not exceeding a depth of 2 feet of compacted material. Large and bulky items, when not excluded from the site, shall be disposed of in a manner approved by the health department.

(6) Volumes of individual cells shall not exceed the daily quantity of wastes.

(7) A compacted layer of at least 6 inches of suitable cover material shall be placed on all exposed refuse by the end of each working day. The placing of cover material may be modified in writing by the health department having jurisdiction when deemed necessary.

(8) A layer of suitable cover material compacted to a minimum thickness of 2 feet shall be placed over the entire surface of each portion of the final lift not later than 1 week following the placement of refuse within that portion.

(9) All daily cover depths must be continually maintained and final cover depths shall be maintained for a period of 2 years.

(10) Hazardous materials, including liquids and sewage, shall not be disposed of in a sanitary landfill unless special provisions are made for such disposal through the health department having jurisdiction. This provision in no way precludes the right of a landfill operator to exclude any materials as a part of his operational standards.

(11) No garbage or refuse containing garbage shall be burned at a sanitary landfill. Burning of select materials shall be severely restricted and shall be conducted only in designated areas with the permission of the health department having jurisdiction and other appropriate authorities.

(12) Salvaging, if permitted, shall be organized so that it will not interfere with prompt sanitary disposal of refuse or create unsightliness or health hazards. This provision in no way precludes the right of a landfill operator to prevent salvaging as a part of his operational standards. Scavenging shall not be permitted.

(13) Conditions unfavorable for the production of insects and rodents shall be maintained by carrying out routine landfill operations promptly in a systematic manner. Supplemental insect and rodent control measures shall be instituted whenever necessary.

(14) The entire site, including the fill surface, shall be graded and provided with drainage facilities to minimize runoff onto and into the fill, to prevent erosion or washing of the fill, to drain off rainwater falling on the fill, and to prevent the collection of standing water.

(15) An inspection of the entire site shall be made by the health department having jurisdiction to determine compliance with approved plans and specifications before the earth-moving equipment is removed from the site. Any necessary corrective work shall be performed before the landfill project is accepted as completed. Arrangements shall be made for the repair of all cracked, eroded, and uneven areas in the final cover during the first 2 years following completion of the fill.

(16) Modifications of the rules on sanitary landfills as applicable to existing disposal areas may be made by the health department having jurisdiction. These modifications may continue in effect to May 31, 1968, providing the modifications are: approved in writing, supported by a comprehensive improvement plan, the modified operations are not a hazard to public health nor contribute to a nuisance and are concurred in by the director.

History: 1954 ACS 45, p. 10, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1105.

PART 3. MISCELLANEOUS DISPOSAL METHODS

R 325.2731 Open dumps.

Rule 31. Open dumps shall not be permitted unless the location and specific method of operation has been approved in writing by the health department and concurred in by the director, and provided further that the isolation and operation and maintenance does not constitute a nuisance or hazard to health.

History: 1954 ACS 45, p. 11, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1106.

R 325.2732 Hog feeding.

Rule 32. (1) Garbage, as defined in Act No. 87 of the Public Acts of 1965, when fed to hogs shall be fed on a readily cleanable impervious feeding area.

(2) The general area including cooking facilities, when provided, shall be kept in a sanitary manner to prevent the attraction, harborage, and breeding of insects and rodents and shall not create a nuisance.

Digitized by Google

(3) All residues resulting from the day's feeding operation shall be disposed of by a method approved by the health department having jurisdiction.

(4) Garbage cooking operations licensed under Act No. 173 of the Public Acts of 1953 are exempt from the license provision of Act No. 87 of the Public Acts of 1965, but shall comply with all other applicable sections and these rules.

History: 1954 ACS 45, p. 12, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1107.

R 325.2733 Central garbage grinding.

Rule 33. Central garbage grinders receiving wastes categorized under introductory paragraph of R 325.2702 shall be designed to provide reasonable safety for employees and to incorporate operating features which will assist in maintaining and operating the facility in a sanitary manner. The general sanitation in and around the central garbage grinder, as well as the operational procedures employed, shall be subject to the approval of the health department.

History: 1954 ACS 45, p. 12, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1108.

R 325.2734 Refuse burners.

Rule 34. Refuse burners receiving wastes categorized under introductory paragraph of R 325.2702 shall be designed to provide reasonable safety for employees, and to incorporate operating features which will assist in maintaining and operating the facility in a sanitary manner and in accordance with Act No. 348 of the Public Acts of 1965 (the air pollution control act) and applicable local requirements. The general sanitation in and around the refuse burner as well as the operational procedures employed shall be subject to the approval of the health department.

History: 1954 ACS 45, p. 12, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1109.

R 325.2735 Other methods.

Rule 35. Any other method of solid waste disposal not covered by these rules shall be reviewed by the health department for the purposes of evaluating the design and operational methods with reference to the nuisance factor, the safety of employees, and the protection of the public health. Such disposal methods shall be subject to the evaluation and approval of the director.

History: 1954 ACS 45, p. 12, Eff. Feb. 14, 1966.
Editor's note: Transferred from R 325.1110.

PART 4. REFUSE TRANSPORTING UNITS

R 325.2741 Applicability.

Rule 41. A refuse transporting unit shall comply with this part if it is used to move solid waste, including waste sludge and slurries recognized as being a solid and not containing a noticeable releasable fluid content when placed under normal landfill operating pressures.

History: 1954 ACS 74, p. 53, Eff. Mar. 8, 1973.

R 325.2742 License applications and processing.

Rule 42. (1) An application for a license for a vehicular refuse transporting unit shall be submitted to the health officer whose jurisdiction includes the *maintenance garage or storage* yard where the transporting unit is based.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(2) The health officer or his representative shall complete an inspection of the refuse transporting unit on forms provided by the director and, based on the findings, make a recommendation for license processing to the director.

(3) If the director finds the refuse transporting unit equipment is not in compliance with the rules he shall not issue a license. The applicant shall be notified in writing of the license denial and the reasons for denial by the reviewing officer. The applicant may request a hearing before the director if the applicant is aggrieved by such decision.

History: 1954 ACS 74, p. 53, Eff. Mar. 8, 1973.

R 325.2743 Markings.

Rule 43. (1) A refuse transporting unit shall display its assigned unit license number permanently applied on the upper corner of the highway centerline side of the unit. The license number may also be displayed at additional locations. The license numbers shall be at least 2 inches in height and spaced to be legible from 50 feet.

(2) The 2 seals furnished with the license by the director shall be attached and displayed on each side of the refuse transporting unit in plain view and in an area not susceptible to unwarranted destruction or removal. Seals shall not be transferred from 1 unit to another.

(3) A transporting unit licensed and inspected by local units of government under local ordinances reviewed by the director and determined to be equal to or more stringent than these rules shall display current department of public health seals.

History: 1954 ACS 74, p. 53, Eff. Mar. 8, 1973.

R 325.2744 Construction and maintenance.

Rule 44. (1) The waste-carrying portion of a refuse transporting unit shall be a vehicle body or container designed to prevent the accidental discharging of refuse. The refuse transporting unit shall have a suitable cover that will effectively prevent loss of refuse and will not be easily torn, shredded, or broken under normal use.

(2) A refuse transporting unit available to an individual for the deposit of refuse shall be constructed with easily operated and preferably self-closing covers.

(3) A refuse transporting unit that after its licensing fails to meet the requirements of these rules shall be repaired or its use discontinued.

(4) A refuse transporting unit shall be cleaned at intervals frequent enough to maintain the unit in a sanitary condition and as free from disagreeable odor as possible to prevent a nuisance or vermin attraction. Wastewater generated from the cleaning operation shall be considered sewage and shall be treated accordingly.

History: 1954 ACS 74, p. 53, Eff. Mar. 8, 1973.

R 325.2745 Operation.

Rule 45. (1) A refuse transporting unit's openings shall be closed and doors or covers secured by an adequate latch or restraining mechanism to keep them closed while transporting refuse. The driver and licensee shall be responsible for the proper positioning of the cover. A special covering shall be used where conditions require control of odor, vermin, liquids, dust, or smoke.

(2) A refuse transporting unit shall be loaded in a manner to minimize the spilling *of materials.*

(3) Where accidental spillage does occur from a refuse transporting unit, the material shall be picked up by the operator or a designated agent as soon as possible and the area suitably cleaned.

(4) Where refuse is purposely dumped from a refuse transporting unit due to a hot load or fire, the fire shall be immediately extinguished by the most effective means and the area properly cleaned as soon as reasonably possible.

(5) A refuse transporting unit when transporting refuse shall be emptied only in a disposal area approved by the director, health officer or the representative of either. An approved area may include a refuse processing plant, incinerator, sanitary landfill, refuse transfer station or other facility.

(6) A refuse transporting unit during the collection process shall not be parked in a residential area longer than necessary to collect refuse unless it is parked not less than 500 feet from adjacent residences. A refuse transporting unit shall not be parked, stored or established at any location so as to cause a hazard to health or at any residentially zoned location so as to cause a nuisance.

History: 1954 ACS 74, p. 53, Eff. Mar. 8, 1973.

R 325.2746 Toxic and hazardous wastes.

Rule 46. A refuse transporting unit used for collection and transportation of toxic or hazardous wastes shall be durable, enclosed and leakproof and shall be constructed, loaded, moved and unloaded in a safe manner in compliance with the applicable rules and regulations of federal, state and local governments and their regulatory agencies.

History: 1954 ACS 74, p. 54, Eff. Mar. 8, 1973.

R 325.2747 License revocations and enforcement.

Rule 47. (1) A refuse transporting unit license issued by the director may be revoked if in his judgment the equipment used is not in compliance with Act No. 87 of the Public Acts of 1965, as amended, being §§325.291 to 325.300 of the Michigan Compiled Laws, hereinafter referred to as the act, or these rules. Notice of proposed revocation shall be served on the licensee who may within a 15-day period request a hearing before the director. Service may be made by personal service or by mail.

(2) The director, health officer, or the representative of either shall make routine inspections and evaluations of refuse transporting units as often as necessary to assure compliance with the act and these rules. A written notice of any deficiencies observed, together with recommendations for their correction, shall be provided the licensee.

History: 1954 ACS 74, p. 54, Eff. Mar. 8, 1973.

R 325.2749 Variances.

Rule 49. A variance from these rules may be granted by the director upon written request. A variance granted by the director shall be in writing and shall give consideration to the potential health hazard and the control measures to be employed.

History: 1954 ACS 74, p. 54, Eff. Mar. 8, 1973.

PART 5. REFUSE TRANSFER FACILITIES

R 325.2751 Applicability.

Rule 51. (1) A refuse storage area which is exclusively for the waste generated *on the premise serving a private* home, apartment or a business is not considered a

Digitized by Google

refuse transfer facility. If such a facility is available to the public, it shall not be exempt from the provisions of the act and these rules.

(2) A volunteer special recycling collection center for such things as glass, paper, and cans is exempt from licensing as a refuse transfer facility, but the area shall be maintained in a clean and sanitary condition, and each site operated 4 or more days per month shall be approved by, and its location recorded with, the local health department.

History: 1954 ACS 74, p. 54, Eff. Mar. 8, 1973.

R 325.2752 Classification.

Rule 52. A refuse transfer facility is classified as follows based on its material handling design, capabilities and use:

(a) A type I facility is a facility designed and operated to receive refuse from individual users and from hand unloaded vehicles of not more than ½-ton capacity.

(b) A type II facility is a facility designed and operated to receive refuse primarily from vehicles of more than ½-ton capacity.

History: 1954 ACS 74, p. 54, Eff. Mar. 8, 1973.

R 325.2753 Construction.

Rule 53. (1) A type I facility container shall be leakproof and manufactured of rat-proof material.

(2) A type II facility shall consist of a building roofed and walled on 4 sides or otherwise enclosed to satisfactorily control dust and papers.

History: 1954 ACS 74, p. 54, Eff. Mar. 8, 1973.

R 325.2754 Plans and specifications.

Rule 54. A person, firm, corporation, or governmental unit proposing to construct or to place in use a refuse transfer facility shall submit plans and specifications through the local health department to the director for approval before construction. The plans for the facility shall be prepared by a registered professional engineer, except that this requirement may be waived by the health department for a type I facility. The submission of plans to the director shall not usurp the right of a local governing body from developing and enforcing local ordinances, codes, or rules and regulations of refuse transfer facilities and will not excuse the applicant from obtaining locally required permits or from complying with all applicable local ordinances, codes, or rules and regulations not in conflict with the act. The plans and specifications shall include:

(a) Specific location of the facility as shown on a vicinity map.

(b) Location of public roadways, habitable structures and places of public use on the site and other properties influenced by the project.

(c) Legal description and site boundaries.

(d) Means of limiting access including fencing, gates, natural barriers, or other methods.

(e) Details of the method of treating or disposing of liquid wastes resulting from operation of the facility.

(f) Detailed drawings and specifications of all structures, equipment, and site plan.

(g) General layout of equipment and flow pattern.

(h) Detailed description and statement, in paragraph form, of appurtenances and procedures intended to handle heavy or bulky items; store refuse beyond the end of the *working day; and control dust*, odors, and fire.

(i) Location of existing and proposed utilities available to the site.

(j) Method of volume reduction, if used, such as compacting, grinding, compression, or tamping equipment.

(k) Daily clean-up procedures.

(l) Other details necessary for the director to approve the proposal.

History: 1954 ACS 74, p. 55, Eff. Mar. 8, 1973.

R 325.2755 Fences.

Rule 55. A refuse transfer facility located not more than 500 feet from a residence shall be obscured by a fence not less than 8 feet high with 75% screening, whether the residence is established before or after installation of the facility. This rule may be modified or an exemption therefrom granted in writing by the health department where the director is satisfied with the criteria submitted that the public health will not be adversely affected.

History: 1954 ACS 74, p. 55, Eff. Mar. 8, 1973.

R 325.2756 Time of operations.

Rule 56. (1) Access to a type I refuse transfer facility, where mechanical equipment is a part of the operation or a type II facility, shall be limited to times when an operational employee is on duty. Access restrictions and an attendant may be required for a nonmechanical type I facility.

(2) A notice stating the hours designated to receive refuse shall be conspicuously posted at the entrance to the property where the facility is located.

History: 1954 ACS 74, p. 55, Eff. Mar. 8, 1973.

R 325.2757 Container removal periods.

Rule 57. (1) Containers shall be removed from a type I facility at least once per week and more frequently if health conditions warrant.

(2) Refuse shall not be stored overnight in the building or yard at a type II facility, except in closed containers or in licensed transporting units. Buildings and appurtenances thereto in conjunction with the refuse transfer facility shall be cleaned at least once every day the facility is in use. Dumping or storage of refuse shall be only in approved, designated areas. Dumping shall be within the enclosed structure.

History: 1954 ACS 74, p. 55, Eff. Mar. 8, 1973.

R 325.2758 Operations.

Rule 58. (1) Refuse shall be confined to the unloading, loading, and handling area.

(2) The refuse transfer facility and the adjacent area shall be kept clean and free of litter.

(3) A large, heavy, or bulky item which cannot be handled in the routine operation shall be excluded from the facility unless special provision is made for handling.

(4) Salvaging may be permitted in a manner acceptable to the director if salvaged material is removed from the site within 24 hours, unless confined to approved storage.

(5) Sewage solids or liquids and other liquid or hazardous substances in quantities considered to be detrimental to normal operation of the facility shall be excluded from the facility. An exception may be granted when the nature of the *material, the equipment,* and the method of handling have been submitted to the

director for his written approval. This rule does not preclude the right of a facility operator to exclude any material as a part of his operational standards.

(6) Equipment adequate in size and quantity and in an operative condition shall be available at all times. If for any reason the facility is rendered inoperable for more than 24 hours, an alternate method shall be used to handle refuse.

(7) A sufficient number of containers shall be available to preclude storage in the building of excessive refuse awaiting transfer. Overflow of refuse from containers shall not be permitted.

(8) Adequate provision shall be made for routine operational maintenance of the facility and all appurtenances.

(9) Necessary operations of the transfer facility shall be carried out promptly in a systematic manner so that conditions are unfavorable for harborage and production of insects and rodents. Supplemental effective vector control measures shall be initiated immediately by the operator when necessary.

(10) A type II facility shall be operated under close supervision of a responsible individual who is thoroughly familiar with the requirements and the operational procedures of the facility.

(11) The operator shall maintain a daily log of quantities of refuse processed. A copy of the daily log covering the previous 3 years shall be on file and available to the director and local units of government upon request.

History: 1954 ACS 74, p. 55, Eff. Mar. 8, 1973.

R 325.2759 Nuisances.

Rule 59. (1) Dust and odor resulting from unloading of refuse and operation of a refuse transfer facility shall be reasonably controlled at all times.

(2) Roadways on the property shall be all-weather roads and maintained in a condition to prevent a dust nuisance.

(3) Operation of the facility shall be carried on in a manner as to prevent noise and vibration nuisance to adjoining property.

History: 1954 ACS 74, p. 56, Eff. Mar. 8, 1973.

R 325.2760 Fires.

Rule 60. (1) Refuse shall not be burned at the transfer facility.

(2) Refuse which is burning or is at a temperature likely to cause fire shall not be accepted in the transfer facility. Highly flammable or explosive materials shall not be accepted unless approved by the health department.

(3) Upon request by the director, health officer, or the representative of either, the licensee shall provide evidence of arrangement for adequate fire protection.

(4) The licensee is responsible for extinguishing an accidental fire.

History: 1954 ACS 74, p. 56, Eff. Mar. 8, 1973.

PART 6. REFUSE PROCESSING PLANTS

R 325.2761 Applicability.

Rule 61. A volunteer special recycling collection center for such things as glass, paper, and cans is exempt from licensing as a processing plant, but the area shall be maintained in a clean and sanitary condition, and each site operated 4 or more days per month shall be approved by and its location recorded with the local health department.

History: 1954 ACS 74, p. 56, Eff. Mar. 8, 1973.

R 325.2762 Plans and specifications.

Rule 62. A person, firm, corporation, or governmental unit proposing to construct or to place in use a refuse processing plant shall submit plans and specifications through the local health department to the director for approval before construction. The plans for the facility shall be prepared by a registered professional engineer. The submission of plans to the director shall not usurp the right of a local governing body from developing and enforcing local ordinances, codes, or rules and regulations of refuse processing plants, and will not excuse the applicant from obtaining locally required permits or from complying with all applicable local ordinances, codes, or rules and regulations not in conflict with the act. The plans and specifications shall include:

(a) Specific location of the processing plant as shown on a vicinity map.

(b) Location of public roadways, habitable structures, and places of public use on the property and other properties influenced by the project.

(c) Legal description and site boundaries.

(d) Means of limiting access including fencing, gates, natural barriers, or other methods.

(e) Details of the method of treating or disposing of liquid wastes resulting from operation of the processing plant.

(f) Detailed drawings and specifications of all structures, equipment, and site plan.

(g) General layout of equipment and flow pattern.

(h) Detailed description or statement, in paragraph form, of appurtenances and procedures intended to handle heavy or bulky items; store refuse beyond the end of the working day; and control dust, odors, and fire.

(i) Location of existing and proposed utilities available to the site.

(j) Method of separation and volume reduction, if used, such as compacting, grinding, compression, or tamping equipment.

(k) Description of daily clean-up procedures.

(l) Other details necessary for the director to approve the proposal.

History: 1954 ACS 74, p. 56, Eff. Mar. 8, 1973.

R 325.2763 Fences.

Rule 63. A refuse processing plant located not more than 500 feet from a residence shall be obscured by a fence not less than 8 feet high with 75% screening, whether the residence is established before or after installation of the plant. This rule may be modified or an exemption therefrom granted in writing by the health department where the director is satisfied with the criteria submitted that the public health will not be adversely affected.

History: 1954 ACS 74, p. 57, Eff. Mar. 8, 1973.

R 325.2764 Times of operation.

Rule 64. Public access to a refuse processing plant shall be limited to times when an operational employee is on duty. A notice stating the hours designated to receive refuse shall be conspicuously posted at the entrance to the property.

History: 1954 ACS 74, p. 57, Eff. Mar. 8, 1973.

R 325.2765 On-site refuse storage.

Rule 65. (1) Refuse storage before processing shall be limited to approved containers or confined to specially designed enclosed areas. Refuse of a nature or in quantities that cause odors or pose a threat to the public health or is detrimental *to the environment of the* surrounding area shall not be accumulated.

R 325.2767 Nuisances.

Rule 67. (1) Dust and odors resulting from unloading of refuse and operation of a processing plant shall be reasonably controlled at all times.

(2) Roadways on the property shall be all-weather roads and maintained in a condition to prevent a dust nuisance.

(3) Operation of the plant shall be carried on in a manner as to prevent noise and vibration nuisance to adjoining property.

History: 1954 ACS 74, p. 58, Eff. Mar. 8, 1973.

PART 7. COLLECTION CENTERS FOR JUNK VEHICLES AND FARM IMPLEMENTS

R 325.2771 Applicability.

Rule 71. The following rules are applicable to a governmentally developed collection center for junk vehicles and farm implements that are established under the provisions of the act.

History: 1954 ACS 74, p. 58, Eff. Mar. 8, 1973.

R 325.2772 Plans.

Rule 72. A local governmental unit proposing to establish and operate a collection center shall submit a site plan through the local health department to the director for review and approval. The plan shall include:

(a) A location map showing the relationship of the site to nearby cities and villages, major roads, bridge load limits on secondary access roads, and other significant physical features.

(b) A site map showing access, on-site roads, type of screening provided, surface drainage, general soil type, topography, size, legal description, location of the operation relative to a refuse disposal area if on the same parcel of property, and other information as may be required.

History: 1954 ACS 74, p. 58, Eff. Mar. 8, 1973.

R 325.2773 Size.

Rule 73. A collection center site shall be not less than 2 acres in size.

History: 1954 ACS 74, p. 58, Eff. Mar. 8, 1973.

R 325.2774 Isolation and visual screening.

Rule 74. A collection center shall be located not less than 500 feet from the nearest residence other than the residence of the caretaker and be reasonably screened by natural objects, plantings, fences, or other appropriate means from streets, roads, or highways open to public vehicular travel and nearby residences.

History: 1954 ACS 74, p. 58, Eff. Mar. 8, 1973.

R 325.2775 Operations.

Rule 75. (1) Roadways at a collection center shall be constructed and maintained so that traffic will flow smoothly and not be interrupted by inclement weather.

(2) Access to a collection center shall be limited to times when an attendant is on duty except as otherwise approved in writing by the health department having jurisdiction and concurred in by the director. Access to the site shall be controlled by a suitable barrier.

(3) Open burning shall not be carried on in a collection center.

(4) Suitable measures shall be available to extinguish accidental fires.

Digitized by Google

(5) The collection site area shall be maintained in a sanitary manner at all times so as not to create general unsightliness or health and safety hazards.

(6) Materials at the collection center shall be removed on an established schedule or when deemed necessary by the health department.

(7) Scavenging shall not be permitted.

History: 1954 ACS 74, p. 58, Eff. Mar. 8, 1973.

R 325.2776 Administration.

Rule 76. A collection center developed under the provisions of the act, even though contracted to a licensed vehicle dealer, is subject to these rules.

History: 1954 ACS 74, p. 59, Eff. Mar. 8, 1973.

R 325.2777 Inspections and evaluations.

Rule 77. The director or health department having jurisdiction shall make inspections and evaluations of the collection center operation. A written notice of deficiencies and recommendations for their correction shall be given to the appropriate governmental unit or agency responsible for the collection center operation.

History: 1954 ACS 74, p. 59, Eff. Mar. 8, 1973.

R 325.2778 Other applicable laws.

Rule 78. Nothing in these rules or the act shall preclude the necessity to comply with Act No. 219 of the Public Acts of 1966, being §§252.201 to 252.211 of the Michigan Compiled Laws, or any other applicable law.

History: 1954 ACS 74, p. 59, Eff. Mar. 8, 1973.

PART 8. SOLID WASTE PLAN DEVELOPMENT

R 325.2781 Plans.

Rule 81. (1) The report requirements of section 7b of the act shall be complied with by the acceptance by the director of a plan to meet present and future disposal needs through the year 1990 with subsequent upgradings as required.

(2) A person familiar and competent in the field of solid waste management systems shall prepare or oversee the preparation of the general plan. Development of a general plan involves principles of engineering, planning, economics, fiscal policy, environmental and social science, and as such should be a result of a cooperative effort of the various elements of the unit of government. It is not intended that detailed engineering design of the facilities necessarily be a part of this general plan. Area-wide, county-wide and multi-county regional units submitting reports and proposals shall, during the development stages, notify and invite participation of each local unit within its jurisdiction.

History: 1954 ACS 74, p. 59, Eff. Mar. 8, 1973.

R 325.2782 General goals and objectives.

Rule 82. A section of the report required by section 7b of the act shall deal with general goals and objectives and shall include, but not be limited to:

(a) Elimination of pollution resulting from solid waste.

(b) Establishment and maintenance of a high quality environment.

(c) Development of an administrative and technical framework to provide a complete solid waste management program to serve the total needs of industrial, residential, and commercial units of the area.

(d) Coordination of local solid waste management programs.

(e) Development of the necessary financial support for solid waste management needs.

(f) Reduction, through recycling where possible, of the volume of solid wastes for ultimate disposal and the conservation of natural resources.

(g) Development of methods, phases, procedures, and a time schedule for implementation of the plan.

History: 1954 ACS 74, p. 59, Eff. Mar. 8, 1973.

R 325.2783 Jurisdictions and commitments.

Rule 83. A section of the report required by section 7b of the act shall deal with jurisdictions and commitments and shall include, but not be limited to:

(a) Identification of the cities, villages, townships, special authorities, and counties included in the area.

(b) An official resolution indicating concurrence with the report by each local unit of government with a population of over 10,000 and each county that is included as a part of the report; provided, however, if the agency submitting the plan has legal jurisdiction over certain local governmental units included within the plan, such units will not be required to submit official concurrence resolutions.

History: 1954 ACS 74, p. 59, Eff. Mar. 8, 1973.

R 325.2784 Description of areas.

Rule 84. A section of the report required by section 7b of the act shall deal with a description of the applicable area and shall include, but not be limited to:

(a) Description of the basic economic activity centers in the area identifying the prime influences in terms of domestic, commercial, institutional, recreational, industrial, and agricultural activity.

(b) Description of the population densities and growth projections of the area, including fluctuations of a seasonal or special activity nature, such as recreation, employment, summer home occupancy, seasonal manufacturing, and agricultural activities.

(c) Description of the geographic location of the study area, incorporating summary comments on the topography and general physical characteristics of the area.

History: 1954 ACS 74, p. 60, Eff. Mar. 8, 1973.

R 325.2785 Transportation networks.

Rule 85. A section of the report required by section 7b of the act shall deal with transportation networks and shall include, but not be limited to:

(a) A map showing existing rail and highway transportation systems which will be available to serve the area.

(b) Identification on the map of the most frequently used route for refuse hauling from the collection area to the existing or proposed disposal site.

(c) A narrative summary of the rail and highway transportation network and a discussion indicating seasonal and permanent weight and width limitations existing on this network and local ordinance restrictions.

History: 1954 ACS 74, p. 60, Eff. Mar. 8, 1973.

R 325.2786 Solid waste generation and inventory of systems.

Rule 86. A section of the report required by section 7b of the act shall deal with solid waste generation and inventory of solid waste systems and shall include, but *not be limited to:*

(a) An analysis of all refuse generated in the area including tonnage and classification, such as residential, institutional, recreational, commercial, industrial, or agricultural.

(b) A listing of collection, processing, transfer, and disposal activities, describing the techniques employed therein and identifying their location on a map of the area.

(c) Identification of the existing administrative organization for the solid waste systems and descriptions of their policy for planning, developing, and operating the existing systems and a determination of how changes are planned, how operating and capital revenues are obtained, and how service to new areas or to new waste generators is determined.

(d) Description of patterns of organization for solid waste management and of the limitations of this service in the area from the administrative, technical, legal, and fiscal standpoints.

(e) Description of the deficiencies of the area's solid waste system and of pertinent legislative requirements for control of solid waste storage, collection, processing, and disposal.

(f) Identification of the needed legislative, administrative, technical, and fiscal requirements for the provision of solid waste management services in the area.

(g) A statement of the future limiting factors expected to influence solid waste systems, including: land availability, physical problems, transportation limitations, pollution, flood plain and land use regulations, and zoning or other ordinances for the area.

History: 1954 ACS 74, p. 60, Eff. Mar. 8, 1973.

R 325.2787 Recommended systems and feasible options.

Rule 87. A section of the report required by section 7b of the act shall deal with solid waste systems and feasible options and shall include, but not be limited to:

(a) A list and description of the recommended storage, collection, transportation, processing, and disposal systems and the feasible options considered.

(b) A discussion of other alternative systems considered and the reasons for their rejection.

(c) Description of the recommended administration and management prescribed for the system.

(d) Description of the recommended technological applications for the system.

History: 1954 ACS 74, p. 60, Eff. Mar. 8, 1973.

R 325.2788 Implementation of plans.

Rule 88. A section of the report required by section 7b of the act shall deal with requirements for implementation and shall include, but not be limited to:

(a) Description of the legislative need necessary for implementing the plan.

(b) Description of the administrative requirements in terms of organization and personnel.

(c) Development of the projected costs for operating and implementing the plan.

(d) The financial resources for design, procurement, operation, and maintenance of the system.

(e) An implementation schedule.

BLOOD BANKS

(By authority conferred on the director of public health by section 9133 of Act No. 368 of the Public Acts of 1978, being §333.9133 of the Michigan Compiled Laws)

R 325.2941 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 368 of the Public Acts of 1978, being §333.1101 et seq. of the Michigan Compiled Laws.

(b) "Blood bank" means a facility which provides through its ownership or operation a system for the collection of blood from donors for the purpose of transfusion or for the preparation of a component or product intended for transfusion.

(c) "Department" means the department of public health.

(d) "Director" means the director of the department of public health.

(e) "Physician" means a person licensed to practice medicine or osteopathic medicine under the laws of this state.

History: 1954 ACS 99, p. 43, Eff. Apr. 17, 1979.

R 325.2942 Federal standards; adoption by reference.

Rule 2. The standards of the bureau of biologics, food and drug administration, being 21 C.F.R. §§600 to 680, dated April 1, 1978, are adopted by reference. Copies of the adopted standards may be obtained from the Superintendent of Documents, U.S. Government Printing Office, 710 North Capitol Street N.W., Washington, D.C. 20402, and from the Department of Public Health, Bureau of Disease Control and Laboratory Services, P.O. Box 30035, Lansing, Michigan 48909, at a cost of $4.25.

History: 1954 ACS 99, p. 43, Eff. Apr. 17, 1979.

R 325.2943 Annual report; inspections.

Rule 3. (1) A blood bank collecting blood in this state or preparing components or products intended for transfusion shall file with the director an annual *report as designated* by the director.

(2) A representative of the director of public health may inspect a blood bank at any reasonable time.

History: 1954 ACS 99, p. 43, Eff. Apr. 17, 1979.

R 325.2944 Performance of tests in licensed laboratories required; exceptions.

Rule 4. Clinical laboratory tests performed in or for a blood bank subject to these rules shall be performed in a clinical laboratory licensed under sections 20501 to 20554 of Act No. 368 of the Public Acts of 1978, being §§333.20501 to 333.20554 of the Michigan Compiled Laws. This rule does not apply to laboratory tests performed in any of the following when part of routine blood bank procedures:

(a) A blood bank operated exclusively as a donor center by the American red cross or other community-sponsored program holding a U.S. federal license issued by the bureau of biologics, food and drug administration.

(b) A plasmapheresis center holding a U.S. federal license issued by the bureau of biologics, food and drug administration.

(c) A clinical laboratory in another state holding an interstate clinical laboratory license in immunohematology issued by the federal government.

(d) A laboratory operated by the federal government.

History: 1954 ACS 99, p. 43, Eff. Apr. 17, 1979.

R 325.2945 Rescission.

Rule 5. R 325.2901 to R 325.2936 of the Michigan Administrative Code, appearing on pages 6611 to 6620 of the 1973 Annual Supplement to the Code and page 8563 of the 1976 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 99, p. 44, Eff. Apr. 17, 1979.

BUREAU OF HEALTH CARE ADMINISTRATION

CERTIFICATION OF SPECIAL SERVICES IN HOSPITALS

(By authority conferred on the director of public health by section 5 of Act No. 17 of the Public Acts of 1968, section 7 of Act No. 146 of the Public Acts of 1919, section 109 of Act No. 280 of the Public Acts of 1939, and section 427 of Act No. 380 of the Public Acts of 1965, being §§331.415, 325.7, 400.109, and 16.527 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 325.3001 Certification.

Rule 1. In accord and compliance with section 106 of Act No. 280 of the Public Acts of 1939, being §400.106 of the Michigan Compiled Laws, providing for certification of medical institutions by the state department of public health, and the written agreement between the department of social services and the department of public health dated January 2, 1968, providing for the delineation and approval of the scope of services provided by health facilities and agencies for reimbursement under the medical assistance program, these rules establish standards as a basis for certification of special services in hospitals.

History: 1954 ACS 77, p. 50, Eff. Oct. 27, 1973.

PART 2. CARDIAC CARE UNITS

R 325.3051 Applicability.

Rule 51. This part applies to new or remodeled cardiac care units planned or opened after the effective date of this part. Previously existing units shall achieve substantial compliance with the operational and procedural provisions of this part. Previously existing units shall comply with the physical plant provisions of this part. However, in cases of alleged difficulty or undue hardship, exceptions thereto may be made and the hospital desiring an exception shall submit a written request to the director of public health stating the justification for the exception and documenting that the exception will not jeopardize the health and safety of patients and employees. An exception, if granted, applies only to the petitioner for the period of time specified.

History: 1954 ACS 77, p. 51, Eff. Oct. 27, 1973.

R 325.3053 Definition of cardiac care unit.

Rule 53. "Cardiac care unit" or "unit" means a readily accessible, designated area of a hospital providing competent, specially trained nursing and supportive personnel and the necessary diagnostic, monitoring and therapeutic equipment, operated under supervision of a physician qualified for such responsibilities by special training or experience, to provide for the constant, close observation of patients with acute cardiac conditions, the immediate recognition of potential or developing complications, and the prompt institution of indicated treatment.

History: 1954 ACS 77, p. 51, Eff. Oct. 27, 1973.

R 325.3055 Combined cardiac-intensive care units.

Rule 55. Smaller hospitals, where patient loads do not justify separate cardiac and intensive care units, may have combined cardiac-intensive care units. In a combined unit the central nurses' station shall be equipped to monitor the heart rates and electrocardiogram (ECG) for each cardiac care patient on a visual screen. These combined units shall comply with all other applicable provisions for intensive care units set forth in Part 3. Intensive Care Units.

History: 1954 ACS 77, p. 51, Eff. Oct. 27, 1973.

R 325.3057 General administration.

Rule 57. (1) A medical director, a nursing supervisor, and an adequate supporting medical and nursing staff shall be selected and qualified through appropriate instruction and experience.

(2) Written operational objectives, policies, admission criteria and procedures, and detailed rules for the unit shall be developed by the medical director and advisory committee, be approved by the medical staff, nursing staff, administration, and hospital governing body before opening of the unit, and be strictly enforced.

(3) The responsibility and authority of the medical director, deputy, attending and house staff physicians, supervising nurse, cardiac care nurse, and all other supportive personnel assigned to the unit shall be prescribed in detailed written rules accepted and supported by all persons concerned.

(4) When there is a patient in the unit, staffing for each shift shall include a specially oriented cardiac care registered nurse and additional trained and experienced supportive personnel. The nurse shall be physically present in the unit. Carefully selected and trained licensed practical nurses, technicians, and aides trained for specific assignments may be used for supportive tasks, always *under close general supervision* of the cardiac care nurse.

(5) An adequate supply of basic equipment, maintained in an immediately usable condition, shall be kept in the unit.

History: 1954 ACS 77, p. 51, Eff. Oct. 27, 1973.

R 325.3058 Special administrative matters.

Rule 58. (1) A cardiac care advisory committee shall be established and composed of representatives of the hospital's medical staff and clinical services most frequently called on to serve cardiac care patients, administration, nursing service and electrical safety staff, and other appropriate persons. The committee shall meet at regular intervals to review the policies, procedures, performance, and results accomplished by the unit and develop recommendations for revising and updating them to assure optimal results consistent with current knowledge.

(2) A permanent log book shall be maintained containing minimal information recorded in chronological sequence for each admission, including name, age, and sex of patient, admission and discharge dates, admitting and discharge diagnoses, attending physician, and disposition. A listing of critical episodes and emergency care required and the end result of care in the unit should be kept in the log book or separately.

(3) A special study sheet giving profile information of the patient's illness, care received, and end results should be developed and regularly used.

(4) On order of the hospital governing body, the medical director shall enforce policies and rules established for operation of the unit, direct its continuing operation, and make emergency decisions not covered by written policy.

(5) The medical director shall originate, solicit, coordinate, and forward recommendations for improvement of the unit.

(6) When a patient presents uncontrollable behavioral problems disturbing to other patients in the unit, consideration should be given to transfer of the patient to other sources of care in the hospital, or with the patient's medical condition permitting, to another hospital better equipped to provide such care.

(7) Visiting should be restricted to immediate family members. Less restricted visiting may be allowed to intermediate care area patients in accord with determinations made by the medical staff. When immediate family members are not available, close friends may substitute for family as specified by the responsible physician.

History: 1954 ACS 77, p. 51, Eff. Oct. 27, 1973.

R 325.3061 Patient admissions.

Rule 61. (1) Criteria for the admission of patients to the unit shall be recommended by the cardiac care advisory committee and approved by the medical staff, administration, and governing body. In general, a patient with actual or suspected coronary occlusion or myocardial infarction should be admitted. A patient with acute cardiac disease may be admitted. A patient with chronic cardiac decompensation or with concurrent terminal illness ordinarily should not be cared for in the unit. The criteria shall specify the latitude given the medical director in varying this restriction for valid reasons.

(2) A diagnostic and treatment program for acute cardiac cases shall be established with the collaboration and approval of the medical staff and shall include delineation of authority extended to the specially trained and qualified nursing staff.

(3) Criteria shall be established for determining the appropriate length of stay in, and time for transfer out of, the unit. These shall be based on the patient's

response to therapy, stabilization of his cardiac rhythm and associated clinical phenomena.

(4) When admission demand exceeds the bed capacity of the unit, the medical director or deputy medical director shall determine priorities for admissions and discharges based on the clinical condition of the patients in the unit and persons seeking admission.

History: 1954 ACS 77, p. 52, Eff. Oct. 27, 1973.

R 325.3063 Medical director; qualifications.

Rule 63. The medical director of the unit shall be a physician, preferably a qualified and experienced cardiologist, with the necessary interest and qualifications to assume responsibility for coordinating, supervising, and directing the program and unit. Where a cardiologist is not available, an internist or other physician with special interests in and willingness to direct the unit shall be selected and appropriately trained. A qualified deputy medical director may be appointed to assist and relieve the medical director when necessary. The director and a deputy shall possess or acquire special training and experience in the operation of cardiac care units by visiting and observing the operation of other established units or attending conferences or symposia offered by universities, heart associations, and other teaching facilities providing instruction.

History: 1954 ACS 77, p. 52, Eff. Oct. 27, 1973.

R 325.3064 Medical director; functions.

Rule 64. (1) The medical director shall:

(a) Supervise and direct operation of the unit and see that its operational policies are enforced.

(b) Direct treatment in an emergency in the absence of the patient's own physician.

(c) Make discretionary decisions to vary from established rules and policies when circumstances justify.

(d) Adjudicate differences which arise among the staff in the operation of the unit.

(e) Consult with the nursing supervisor or nursing staff on duty on specific problems when necessary.

(f) Make decisions on patient admission and transfer priorities when the unit is filled and the admitting office, responsible physician, supervisor of nursing, and house staff cannot reach agreement.

(g) Develop standing orders in collaboration with the nursing supervisor and appropriate representatives of the concerned clinical services for the daily routines to prevail in the operation of the unit, and for meeting emergencies in the absence of the physician.

(h) Arrange and participate in orientation and teaching sessions for the attending and house staff to familiarize them with the policies and rules to govern operation of the unit.

(2) The medical director or deputy may act for the attending physician, the alternate or the physician on call to the unit in emergencies, in accord with his best judgment.

History: 1954 ACS 77, p. 52, Eff. Oct. 27, 1973.

R 325.3065 Medical staff functions.

Rule 65. (1) An intern or resident in an approved intern or residency program who is available for assignment to the cardiac care unit, shall be given appropriate

orientation and instruction. When assigned to the unit and on call he shall be immediately available to the unit.

(2) When qualified house staff coverage is not available, the attending staff shall develop plans to provide for specially oriented and qualified physicians to be regularly available on call to the unit on an assigned rotational basis.

(3) An emergency physician and any physician authorized to admit patients and having responsibility for their continuing care in the unit shall be provided special instruction in the policies, rules, and procedures of the unit.

History: 1954 ACS 77, p. 53, Eff. Oct. 27, 1973.

R 325.3066 Educational programs.

Rule 66. (1) The medical director shall develop a planned educational program for a physician having responsibility for patient care in the unit. The physician shall be given appropriate instruction before assuming responsibilities in the unit.

(2) The instruction shall be provided on a continuing basis both for new staff members and to assure updated knowledge and effective performance of the professional staff responsible for patient care in the unit.

(3) A nurse assigned to the unit shall be provided special formal instruction by the unit nursing supervisor and other professional and technical staff, including periods of bedside observation and supervised experience sufficient to qualify the nurse for service in the unit.

(4) A nurse selected for preparation for future service shall be provided the opportunity to attend special training programs.

(5) The practical nurse and supportive staff shall be given appropriate didactic and demonstrational instruction.

(6) Continuing education shall be provided to the nursing staff assigned to the unit through workshops, seminars and conferences.

(7) Continuing evaluation of the effectiveness of the medical and nursing care program in the unit, detection of deficiencies and remedial programs for correction shall be provided.

History: 1954 ACS 77, p. 53, Eff. Oct. 27, 1973.

R 325.3067 Hospital cardiac nursing care courses.

Rule 67. (1) An educational course in intensive cardiac care nursing provided in a hospital shall include:

(a) Initial orientation delineating the underlying philosophy, broad purposes, and necessary teamwork approach essential to a successfully functioning unit.

(b) Principles of comprehensive nursing in cardiac care units.

(c) Anatomy and physiology of cardiovascular systems.

(d) Pathophysiology of coronary heart disease.

(e) Early recognition and treatment of complications and major arrhythmias.

(f) Electrocardiography and cardiac monitoring.

(g) Principles and practice of cardiac resuscitation.

(h) Pharmacology of cardiac drugs.

(i) Emotional and rehabilitation aspects of patient care.

(j) Use of equipment and safety precautions pertaining thereto.

(2) Additional instruction such as auscultation for the detection of abnormal heart sounds and recognition of early heart failure should be encouraged in the hospital course.

History: 1954 ACS 77, p. 53, Eff. Oct. 27, 1973.

R 325.3068 Nursing staff.

Rule 68. (1) A written policy of the hospital, approved by the hospital medical staff, nursing department, administration, and the governing body, shall prescribe the scope and limits of responsibilities assigned to the unit nursing staff within the limitations of their competence.

(2) A supervising nurse qualified by experience and education, who preferably has had detailed instruction and professional orientation and experience in an organized educational program in cardiac care nursing, shall be assigned to be in charge of the nursing care in the unit.

(3) Registered nurse staffing shall be sufficient to assure that a nurse is not responsible for more than 3 patients at a time in the cardiac care unit, except that a specially prepared practical nurse may be used to reduce this ratio by assuming assigned bedside duties under close supervision of the registered nurse. Supplementation for the assigned nursing staff shall be provided for emergencies by instructional preparation of other nurses from the intensive care unit or medical wards of the hospital, to assure a standby pool of qualified registered nurses.

(4) A private duty nurse shall not serve in the unit.

History: 1954 ACS 77, p. 54, Eff. Oct. 27, 1973.

R 325.3069 General nursing care.

Rule 69. Total nursing care of the patient shall be the major focus of the nurse, including routine care, prevention of complications, teaching the patient and his family the significance of the illness and how to avoid additional risk factors, and recommending improvements in the program.

History: 1954 ACS 77, p. 54, Eff. Oct. 27, 1973.

R 325.3070 Specialized nursing care.

Rule 70. Specialized nursing care shall be provided including:

(a) Interpretation of the arrhythmias as displayed on the oscilloscope and physical signs and symptoms, appropriate action including further observations, calling the physician, and instituting appropriate therapy.

(b) Administration of oxygen.

(c) Starting of intravenous infusions and the intravenous administration of emergency drugs in accord with the physician's orders or established medical policy of the unit.

(d) Preparation of drugs needed for anticipated emergency administration.

(e) Administration of external counter-shock in cases of ventricular fibrillation or ventricular tachycardia, when a physician is not immediately available.

(f) Cardio-pulmonary resuscitation.

(g) Activation or adjustment of the pacemaker for cardiac pacing where indicated.

(h) Application of rotating tourniquets in acute pulmonary edema.

(i) Preparation in other techniques as specified by the medical staff and in accord with accepted nursing practice and as the addition of new methods or procedures within the unit requires.

History: 1954 ACS 77, p. 54, Eff. Oct. 27, 1973.

R 325.3071 Other services.

Rule 71. (1) The services of the dietitian, social worker, pharmacist, and other professional staff shall be available, and they shall be familiarized with the program of the cardiac care unit and contribute their services to the fullest extent required in its successful operation.

(2) The engineering, inhalation therapy, x-ray, and clinical laboratory staffs, and other persons of the hospital organization who might be required, shall be familiarized with the program and available on call to render needed services to assure successful and safe operation of the unit.

(3) In addition to the usual range of clinical laboratory services essential to and provided by an acute general hospital, provision for blood gas studies, intravascular pressure monitoring, and other more complex services, as determined by the medical staff, should be provided.

History: 1954 ACS 77, p. 54, Eff. Oct. 27, 1973.

R 325.3073 Location.

Rule 73. The patient care area shall not be a passageway to other services or areas of the hospital, shall have ready access to elevator service, and should be located away from heavy traffic areas. The unit should be readily accessible from the emergency room and to medical and supportive services, such as the clinical laboratory, x-ray, and cardio-pulmonary laboratory.

History: 1954 ACS 77, p. 55, Eff. Oct. 27, 1973.

R 325.3074 Space.

Rule 74. (1) The minimum usable floor space for a 4-bed cardiac care unit should be 1,100 square feet.

(2) A patient bed area in the unit shall contain a minimum of 132 square feet of usable floor space per bed, any dimension of which shall be not less than 11 feet.

(3) A minimum of 4 feet of floor space shall be provided at both sides and the foot of a bed and between adjacent beds.

(4) Adequate space shall be provided for a central nurses' station.

(5) An adequate medication preparation area opening into or adjacent to the nurses' station, containing a locked medicine cabinet, shall be provided.

(6) A readily accessible janitor's closet shall be provided in or convenient to the unit.

(7) Floor space shall be provided in the unit for adequate storage of medications, supplies and supportive equipment.

(8) Clean and soiled utility rooms shall be provided in or immediately adjacent to the unit.

(9) Toilet facilities sufficient to accommodate the patient load shall be provided in or immediately adjacent to the unit.

(10) Additional room space in or near the unit for conference room use, a physician's sleeping room, and a nurses' lounge is recommended.

(11) A family room remote from, but convenient to, the unit should be provided.

History: 1954 ACS 77, p. 55, Eff. Oct. 27, 1973.

R 325.3075 Physical design and structure.

Rule 75. (1) Functional usefulness and quick accessibility from the nurses' station to patient bed areas shall be stressed in designing the unit.

(2) The unit shall provide relative privacy and close proximity of a patient to the nurses' station.

(3) Visual access to the out of doors through appropriately located outside windows shall be provided for each patient room or bed space. This should include at least 1 window for each patient room or cubicle.

(4) Individual rooms with full height walls, with wire or safety glass, and curtained windows between rooms and into the corridor area should be provided.

(5) An intercommunication signal and alarm system shall be provided between the nurses' station and (a) patients, (b) physician's sleeping room, and (c) nurses' lounge.

(6) A central alarm signal call system or an exclusive direct telephone line at the nurses' station shall be provided to immediately alert the page operator to institute appropriate cardiac emergency alarms.

(7) Air conditioning, heating and humidity control shall be provided throughout the unit.

(8) Illumination of variable intensity shall be provided in a patient's room. A minimum of 100 foot candles of light shall be provided at bed level for routine and emergency examinations.

(9) A handwashing lavatory with a gooseneck inlet and wrist, knee, or foot controls shall be conveniently located in the unit and in each room to be used for a patient with an infection or a communicable disease. The water outlet shall be at least 5 inches above the rim of the sink.

(10) The unit shall be acoustically treated.

(11) A nightlight shall be provided in each patient's room.

(12) A bedside outlet, preferably from a central source, shall be provided for oxygen and suction.

(13) A clock with a sweep hand shall be conveniently located in the unit.

History: 1954 ACS 77, p. 55, Eff. Oct. 27, 1973.

R 325.3077 Electrical wiring installation.

Rule 77. (1) Electrical circuitry shall be properly grounded.

(2) A minimum of 6 single phase duplex 3-wire 110 volt receptacles, or an equivalent of single outlets, shall be provided for each bed for monitoring and other equipment

(3) A 220 volt wall receptacle for portable x-ray and other high voltage equipment shall be available in the unit, except when battery or 120 volt powered units are used.

(4) A receptacle shall be at least 30 inches above the floor.

History: 1954 ACS 77, p. 56, Eff. Oct. 27, 1973.

R 325.3078 Electrical maintenance.

Rule 78. (1) Equipment used in a cardiac care unit shall be thoroughly inspected for grounding and other potentially hazardous electrical conditions by an engineer or other person qualified in hospital electrical safety or specially trained personnel, initially and frequently thereafter at regular intervals according to a written schedule. The results of the inspections shall be recorded.

(2) Competent electrical engineering consultation service shall be regularly used to safeguard against electrical hazards and equipment failure.

(3) Competent expert electrical engineering attention shall be given to specifications for wiring circuitry, development of equipment usage, inspection and testing routines at regular intervals of sufficient frequency to assure safe and effective operation of the unit and when electrical or structural changes are made in the unit.

History: 1954 ACS 77, p. 56, Eff. Oct. 27, 1973.

R 325.3079 Monitoring equipment.

Rule 79. (1) An individual bedside electrocardiographic monitor screen shall *be provided.*

(2) An individual heart rate indicator with alarm shall be provided at the nurses' station.

(3) A monitor to display a patient's electrocardiogram at the nurses' station shall be provided, preferably equipped with selective controls for audible and visible signals.

(4) A direct writing electrocardiographic recorder shall be provided as an integral part of the monitoring system.

History: 1954 ACS 77, p. 56, Eff. Oct. 27, 1973.

R 325.3080 Resuscitative equipment.

Rule 80. (1) At least 1 DC defibrillator shall be provided in the unit.

(2) A backup defibrillator shall be provided to meet requirements of a unit of not more than 6 beds in size.

(3) Additional defibrillators shall be provided for a unit of more than 6 beds.

(4) A defibrillator and resuscitative equipment shall be immediately available at the bedside when new equipment is attached to a patient having a low resistance conductor in his heart such as a pacing catheter.

(5) A minimum of 2 transvenous pacemaker catheters and 2 battery powered external demand pacemakers and the necessary accessory equipment shall be available in the unit for the first 2 beds. An additional pacing catheter and battery powered external demand pacemaker shall be available for each additional 3 beds or fraction thereof.

(6) An emergency cart shall be provided in the unit containing necessary and usual drugs and emergency equipment required for the immediate care of cardiorespiratory emergencies, including tracheostomy sets, endotracheal tubes, laryngoscopes, airways, resuscitation bags and cutdown sets. The cart shall be checked daily and immediately after each use by an appropriate designated member of the nursing staff to assure that all items planned for immediate availability are contained in the cart and in usable condition.

(7) A resuscitation board and an appropriate airway shall be available in each patient's room for immediate use.

(8) Mechanical ventilatory apparatus shall be available to the unit when needed.

(9) A tray with sterile equipment for parenteral therapy, including the syringes, needles, solutions, and drugs commonly used in medical services but planned with particular reference to the needs of circulatory failure patients, shall be immediately available in the unit.

History: 1954 ACS 77, p. 56, Eff. Oct. 27, 1973.

R 325.3082 Electrical systems.

Rule 82. (1) The system supplying power to a cardiac care unit shall be designed and maintained to minimize the micro-shock hazard and to protect against macro-shock and fire hazards.

(2) Electrical service to life-support equipment shall be as nearly uninterruptible as possible. A major breakdown shall be followed by changeover to emergency power within 10 seconds or less. An emergency on-site single phase electrical power unit with an automatic switch shall be provided. The emergency power system shall share the same common ground as the primary power distribution system.

(3) Electrical equipment connected to or used for caring for patients in the unit shall be served by a separate branch circuit. The electrical distribution system

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

shall be designed and maintained so that surges of current do not occur in the patient's branch circuit as a result of using heavy duty equipment.

(4) A grounded conductor in the immediate environment of the patient shall be determined to be safe under any but the most unusual condition. A metal object that reasonably could be touched by a patient or a person attending him shall be considered as a current pathway and connected to the patient reference ground. However, ordinary metal furnishings, such as a metal chair and waste can, need not be grounded because of the improbability of a shock hazard resulting from them and because of the possibility of a trip hazard due to ground straps. Nonconductive surfaces on bedside equipment and devices should be used to the extent reasonably possible.

(5) A patient bed shall be served by a cluster of closely grouped 3-wire electrical receptacles connected to the patient reference ground. An electrical device used in connection with the patient shall be plugged into 1 of these receptacles.

(6) The use of an isolation transformer for special care units is not recommended.

(7) An alternating current receptacle shall be of the 3-wire type connecting the third wire to the ground lead.

(8) An alternating current receptacle and grounded surfaces shall be tested and inspected periodically in accord with an established schedule. The polarity, grounding, contact tension, and physical integrity shall be checked and corrections made when indicated.

History: 1954 ACS 77, p. 57, Eff. Oct. 27, 1973.

R 325.3084 Electrical equipment.

Rule 84. (1) Leakage currents of equipment connected, singly or in combination, to a patient shall be determined to be safe as measured from patient leads to building ground or between any 2 patient leads in any configuration of applied power to the instruments and with the ground wire removed.

(2) Electrical equipment shall be constructed in a safe and workmanlike manner and shall be built to withstand heavy hospital use. Device markings shall be clear and should resist cleansing agents. Equipment shall be so designed and maintained that spilled liquids, small metal objects, soil, or other foreign material will not readily enter the interior. Heavy duty, inspectable power plugs shall be provided for equipment and devices used in the unit for patient care.

History: 1954 ACS 77, p. 57, Eff. Oct. 27, 1973.

R 325.3085 Safety practices.

Rule 85. This rule applies to a medical electronic device, an aspirator, lamp, radio, television, call button, or other electrically operated device connected to the power line and used in the immediate environment of an electrically sensitive patient.

(2) A cheater adaptor, multiple outlet adaptor, or extension cord shall not be used.

(3) An electrical device that has been dropped, or otherwise physically abused or had liquid spilled in it, shall be removed from service until it has been appropriately cleaned, inspected, and, if necessary, tested and repaired.

(4) An electrical device that has caused a shock in connection with its use shall be removed from service until tested and repaired.

(5) An electrical device that is overheating, as evidenced by odor or touch, shall be removed from service until tested and repaired.

(6) Damage to an equipment power cord, plug, insulation, or chassis housing shall be immediately reported and repaired.

(7) A malfunctioning cable connector, switch, control knob, pilot light, or meter shall be reported and repaired as quickly as practical.

(8) A wall receptacle that is loose, in poor repair, damaged, or inoperative shall be reported and repaired.

(9) More than 1 line-operated device shall not be connected to the same patient at the same time except in unusual and compelling circumstances.

(10) Manual or hydraulic beds should be used in monitored care areas. If electrical beds are used for monitored patients, only those models with acceptable and demonstrated safe double insulation, isolation transformers, or other method considered electrically safe by a competent and unbiased evaluation and testing authority shall be used. Electrical beds shall be inspected carefully and frequently to assure their safety for electrically susceptible patients.

(11) A temporary, makeshift repair is not permitted.

History: 1954 ACS 77, p. 57, Eff. Oct. 27, 1973.

R 325.3087 Monitors and electrocardiographs.

Rule 87. (1) A patient cable shall be disconnected before switching power on or off.

(2) A monitor or electrocardiograph shall not be used to determine the position of a pacing catheter or a pericardiocentesis needle, unless the instrument is battery operated or known to have a leakage current within safe limits.

(3) The following shall be reported and appropriately corrected:

(a) Poor tracing on the oscilloscope screen.

(b) Rate meter malfunction.

(c) Alarm malfunction.

(d) Poor quality ECG tracing.

(e) An automatic direct writer that fails to trigger on time or does not self-center.

(f) Any other apparent or suspected malfunction.

(4) When an electrocardiogram is taken, a patient shall be disconnected from the monitor by detaching the patient cable from the monitor, unless the electrocardiograph machine is battery operated.

History: 1954 ACS 77, p. 58, Eff. Oct. 27, 1973.

R 325.3088 Defibrillators.

Rule 88. (1) A defibrillator is the most critical device used in a cardiac care unit. It shall be regularly tested and maintained in optimal operating condition at all times. Personnel participating in defibrillating patients shall be appropriately instructed in use of the equipment and hazards to be avoided. A person shall not touch the patient, the bed, defibrillator, or defibrillator cart during discharge.

(2) A malfunction of a defibrillator shall be reported and appropriately corrected. Malfunction includes:

(a) Bent electrode paddles.

(b) Meter that does not operate smoothly.

(c) Defibrillator circuit breaker or fuse that opens during rapid repetitive discharges.

(d) Defibrillator that fails to operate.

(e) Defibrillator that will not hold its charge.

(f) Any other evidence or suspicion of malfunction.

History: 1954 ACS 77, p. 58, Eff. Oct. 27, 1973.

R 325.3089 Pacemakers.

Rule 89. (1) The external tips of a pacing catheter and all metal parts of a pacemaker in electrical continuity with them shall be covered with insulating material.

(2) A deviation from expected performance, such as failure to pace, unusual changes in apparent cardiac threshold, failure to sense R waves, or inaccurate rate, shall be reported immediately and appropriately corrected.

History: 1954 ACS 77, p. 58, Eff. Oct. 27, 1973.

R 325.3091 Equipment inspection and maintenance.

Rule 91. Equipment used in a cardiac care unit shall be inspected by designated qualified personnel in accord with an established schedule and detailed records of the date and observations made in the inspections shall be kept. Technical personnel qualified to detect leakage currents from equipment and electrical circuitry and to determine if they are properly grounded and are performing according to the manufacturer's specifications, shall record any malfunction and remedial action taken. Replacement parts shall be in accord with the manufacturer's specifications.

History: 1954 ACS 77, p. 58, Eff. Oct. 27, 1973.

PART 3. INTENSIVE CARE UNITS

R 325.3101 Applicability.

Rule 101. This part applies to new or remodeled intensive care units planned or opened after the effective date of this part. Previously existing units shall achieve substantial compliance with the operational and procedural provisions of this part. Previously existing units shall comply with the physical plant provisions of this part. However, in cases of alleged difficulty or undue hardship, exceptions to the physical plant provisions may be made and the hospital desiring an exception shall submit a written request to the director of public health stating the justification for the exception and documenting that the exception will not jeopardize the health and safety of patients and employees. An exception, if granted, applies only to the petitioner for the period of time specified.

History: 1954 ACS 77, p. 59, Eff. Oct. 27, 1973.

R 325.3103 Definition of intensive care unit.

Rule 103. "Intensive care unit" or "unit" means a readily accessible, designated area of a hospital providing competent, specially trained nursing and supportive personnel and the necessary diagnostic, monitoring, and therapeutic equipment needed to care adequately for selected seriously ill patients, operated under qualified medical supervision to provide for the constant, close observation of patients, the immediate recognition of potential or developing complications, and the prompt institution of indicated treatment.

History: 1954 ACS 77, p. 59, Eff. Oct. 27, 1973.

R 325.3105 Combined intensive-cardiac care units.

Rule 105. Smaller hospitals, where patient loads do not justify separate intensive and cardiac care units, may have combined intensive-cardiac care units. In a combined unit the central nurses' station shall be equipped to monitor the heart rates and electrocardiogram (ECG) for each cardiac care patient on a visual screen. These combined units shall comply with all other applicable provisions for cardiac care units set forth in Part 2. Cardiac Care Units.

History: 1954 ACS 77, p. 59, Eff. Oct. 27, 1973.

R 325.3107 General administration.

Rule 107. (1) A medical director, a nursing supervisor, and an adequate supporting medical and nursing staff shall be selected and qualified through appropriate instruction and experience.

(2) Written operational objectives, policies, admission criteria and procedures, and detailed rules for the unit shall be developed by the medical director and advisory committee, be approved by the medical staff, nursing staff, administration, and hospital governing body before opening of the unit, and be strictly enforced.

(3) The responsibility and authority of the medical director, deputy, attending and house staff physicians, supervising nurse, intensive care nurse, and all other supportive personnel assigned to the unit shall be prescribed in detailed written rules accepted and supported by all persons concerned.

(4) When there is a patient in the unit, staffing for each shift shall include a specially oriented intensive care registered nurse and additional trained and experienced supportive personnel. The nurse shall be physically present in the unit. Carefully selected and trained licensed practical nurses, technicians, and aides trained for specific assignments may be used for supportive tasks, always under close general supervision of the intensive care nurse.

(5) An adequate supply of basic equipment, maintained in an immediately usable condition, shall be kept in the unit.

History: 1954 ACS 77, p. 59, Eff. Oct. 27, 1973.

R 325.3108 Special administrative matters.

Rule 108. (1) An intensive care advisory committee shall be established and composed of representatives of the hospital's medical staff and clinical services most frequently called on to serve intensive care patients, administration, nursing service and electrical safety staff, and other appropriate persons. The committee shall meet at regular intervals to review the policies, procedures, performance, and results accomplished by the unit and develop recommendations for revising and updating them to assure optimal results consistent with current knowledge.

(2) The medical director shall enforce policies and rules established for operation of the unit, direct its continuing operation, and make emergency decisions not covered by written policy.

(3) The medical director shall originate, solicit, coordinate, and forward recommendations for improvement of the unit.

(4) When a patient presents uncontrollable behavioral problems disturbing to other patients in the unit, consideration should be given to transfer of the patient to other sources of care in the hospital, or with the patient's medical condition permitting, to another hospital better equipped to provide such care.

(5) Visiting should be restricted to immediate family members. When immediate family members are not available, close friends may substitute for family as specified by the responsible physician.

History: 1954 ACS 77, p. 59, Eff. Oct. 27, 1973.

R 325.3110 Patient admissions.

Rule 110. (1) Criteria for the admission of patients to the unit shall be recommended by the intensive care advisory committee and approved by the medical staff, administration, and governing body. The criteria shall specify the latitude given the medical director in varying this restriction for valid reasons. Medical need in *terms of treatability* of the patient shall be the dominant

consideration in establishing the criteria. The criteria shall specify by type and severity of illness the classification of patients admissible to the unit.

(2) Standing written orders and procedures for emergency and crisis use shall be adopted and include authority extended to the specially trained and qualified nursing staff.

(3) The unit shall not be used as an alternative bed resource for a patient not requiring intensive care when regular service beds are unavailable nor as an alternative to the furnishing of private duty nursing.

(4) The unit shall not be used as a resource for care of a terminal patient, except for a presumably treatable patient originally placed there whose condition has deteriorated, as with serious post-surgical complications.

(5) An appropriate isolation room shall be provided for children, a patient suffering from a communicable or infectious disease, a patient requiring protective isolation and a disoriented or mentally disturbed patient requiring services of the unit until placement elsewhere is possible.

(6) A communicable disease patient shall be cared for in the unit only when appropriate isolation techniques can be carried out.

(7) When admission demand exceeds the bed capacity of the unit, the medical director or deputy medical director shall determine priorities for admissions and discharges based on the clinical condition of the patients in the unit and persons seeking admission.

History: 1954 ACS 77, p. 60, Eff. Oct. 27, 1973.

R 325.3112 Medical director; qualifications.

Rule 112. The medical director of the unit shall be a physician, preferably a qualified and experienced internist or surgeon, with the necessary interest and qualifications to assume responsibility for coordinating, supervising, and directing the program and unit. A qualified deputy medical director may be appointed to assist and relieve the medical director when necessary.

History: 1954 ACS 77, p. 60, Eff. Oct. 27, 1973.

R 325.3113 Medical director; functions.

Rule 113. The medical director shall:

(a) Supervise and direct operation of the unit and see that its operational policies are enforced.

(b) Direct treatment in an emergency in the absence of the patient's own physician.

(c) Make discretionary decisions to vary from established rules and policies when circumstances justify.

(d) Adjudicate differences which arise among the staff in the operation of the unit.

(e) Consult with the nursing supervisor or nursing staff on duty on specific problems when necessary.

(f) Make decisions on patient admission and transfer priorities when the unit is filled and the admitting office, responsible physician, supervisor of nursing, and house staff cannot reach agreement.

(g) Develop standing orders in collaboration with the nursing supervisor and appropriate representatives of the concerned clinical services for the daily routines to prevail in the operation of the unit, and for meeting emergencies in the *absence of the physician.*

(h) Arrange and participate in orientation and teaching sessions for the attending and house staff to familiarize them with the policies and rules to govern operation of the unit.

History: 1954 ACS 77, p. 60, Eff. Oct. 27, 1973.

R 325.3114 Medical staff functions.

Rule 114. (1) An attending physician is responsible for care of his own patients in the intensive care unit, within the medical staff privileges granted, for medical attention and the writing of treatment orders as indicated, consistent with established policies and limitations of the unit as adopted by the medical staff. The physician is fully responsible for the patient's care until written arrangements are made to transfer responsibility to another physician of the medical staff, with the knowledge and concurrence of the patient or a responsible family member.

(2) The attending physician shall initiate consultation requests when indicated.

(3) An intern or resident in an approved intern or residency program, who is available for assignment to the intensive care unit, shall be given appropriate orientation and instruction. When assigned to the unit and on call, he shall be immediately available to the unit.

(4) When qualified house staff coverage is not available, the attending staff shall develop plans to provide for specially oriented and qualified physicians to be regularly available on call for emergency coverage of the unit on an assigned rotational basis.

(5) An emergency physician and any physician authorized to admit patients and having responsibility for their continuing care in the unit shall be provided special instruction in the policies, rules, and procedures of the unit.

(6) The policies and rules adopted for operation of the unit shall clearly specify the delegation and succession of emergency medical care authority to govern in emergencies and when the responsible physician cannot be reached.

(7) Necessary instruction shall be provided on a continuing basis both for new staff members and to assure updated knowledge and effective performance of all professional staff members responsible for patient care in the unit.

History: 1954 ACS 77, p. 61, Eff. Oct. 27, 1973.

R 325.3116 Nursing supervisors.

Rule 116. A supervising nurse qualified by experience and education and who preferably has had detailed instruction and professional orientation and experience in an organized educational program in intensive care nursing shall be assigned to be in charge of the nursing care in the unit. The supervisor should have emotional stability, leadership qualities, teaching ability, experience in an actively functioning intensive care unit, and general staff nursing experience sufficient to have acquired broad insight into patient care problems and treatment methods and procedures in use on the various clinical services for the care of seriously and critically ill patients. The supervisor shall be able to work effectively with colleagues and the medical staff.

History: 1954 ACS 77, p. 61, Eff. Oct. 27, 1973.

R 325.3117 Nursing staff.

Rule 117. (1) A sufficiently high ratio of nurses to patients shall be maintained in the intensive care unit to meet adequately the nursing care needs of patients in the unit. In general, adequate care requires not less than 1 registered professional nurse to each 3 patients. The need may be as high as 1 nurse for each patient. Specially oriented licensed practical nurses, working under close professional

nurse supervision to perform assigned bedside duties, may be used to reduce this ratio.

(2) A private duty nurse shall not serve in the unit.

(3) Planned inservice instruction programs shall be organized by the nursing supervisor in charge of the unit in collaboration with the medical director, appropriately selected medical staff members and the administration and teaching staff of the nursing department and offered on a continuing basis to the nursing personnel in the unit.

(4) The nursing supervisor and medical director, in collaboration with other members of the clinical or teaching staffs, shall plan and provide appropriate formal on the job supervised instruction for licensed practical nurses and aides to be assigned to the unit.

(5) In the selection of nursing personnel, on the job training, and continuing inservice instruction, appropriate emphasis shall be made to prepare the personnel assigned to the unit for the emotional stresses they will encounter in a working environment where more critically ill and dying patients are concentrated.

History: 1954 ACS 77, p. 61, Eff. Oct. 27, 1973.

R 325.3118 Registered nurses.

Rule 118. A registered professional nurse assigned to an intensive care unit shall have received special instruction and orientation and have supervised experience in the treatment methods, procedures, monitoring, and observation techniques in use adequate to enable her to function competently. The orientation and experience shall be acquired by any of the following:

(a) Attendance at formal training courses offering the instruction.

(b) Supervised on the job instruction at the hospital, including sufficient orientation into the anatomical, pathophysiological, and psychological principles involved in the conditions and patient care problems encountered in the unit to enable the nurse to perform procedures and understand reasons for observations to be made and responses to be initiated in specific situations.

(c) Prior experience in an intensive care unit of another hospital or course attendance of sufficient content and duration to provide the knowledge and competence specified in subdivision (b).

History: 1954 ACS 77, p. 62, Eff. Oct. 27, 1973.

R 325.3119 Nursing care.

Rule 119. (1) Total nursing care of the patient shall be the major focus of the nurse, including routine care, prevention of complications, teaching the patient and his family the significance of the illness and how to avoid additional risk factors, and recommending improvements in the program.

(2) The extent of authority granted the nurse to initiate remedial emergency treatment in a crisis and within the limits of accepted nursing practice, in the absence of a physician, shall be stated in writing and approved by the medical staff, nursing staff, and administration.

(3) The nurses assigned to the unit shall be appropriately instructed in recognition of the need for the initiation of such procedures. These will involve largely cardio-respiratory resuscitation measures in cases of cardiac arrest, defibrillation, and provision of artificial respiration in the sudden and unexpected cessation of respiration.

History: 1954 ACS 77, p. 62, Eff. Oct. 27, 1973.

R 325.3121 Other services.

Rule 121. (1) The services of the dietician, social worker, pharmacist, and other professional staff shall be available, and they shall be familiarized with the program of the intensive care unit and contribute their services to the fullest extent required in its successful operation.

(2) The engineering, inhalation therapy, x-ray, and clinical laboratory staffs and other persons of the hospital organization who might be required shall be familiarized with the program and available on call to render needed services to assure successful and safe operation of the unit.

(3) The usual range of clinical laboratory services essential to and provided by an acute general hospital shall be available. Blood gas studies, intravascular pressure monitoring, and other more complex services as determined by the medical staff should be provided.

History: 1954 ACS 77, p. 62, Eff. Oct. 27, 1973.

R 325.3123 Location.

Rule 123. The patient care area shall not be a passageway to other services or areas of the hospital, shall have ready access to elevator service, and should be located away from heavy traffic areas. The unit should be readily accessible from the emergency room and to medical and supportive services, such as the clinical laboratory, x-ray, and cardio-pulmonary laboratory.

History: 1954 ACS 77, p. 62, Eff. Oct. 27, 1973.

R 325.3124 Space.

Rule 124. (1) The minimum usable floor space for a 6-bed intensive care unit should be 1,350 square feet.

(2) A patient bed area in the unit shall contain a minimum of 132 square feet of usable floor space per bed, any dimension of which shall be not less than 11 feet.

(3) A minimum of 4 feet of usable floor space shall be provided at both sides and the foot of a bed and between adjacent beds.

(4) Adequate space shall be provided for a central nurses' station.

(5) An adequate medication preparation area opening into or adjacent to the nurses' station, containing a locked medicine cabinet, shall be provided.

(6) A readily accessible janitor's closet shall be provided in or convenient to the unit.

(7) Floor space shall be provided in the unit for adequate storage of medications, supplies and supportive equipment.

(8) Clean and soiled utility rooms shall be provided in or immediately adjacent to the unit.

(9) Additional room space in or near the unit for conference room use, a physician's sleeping room, and a nurses' lounge is recommended.

(10) A family room remote from, but convenient to, the unit should be provided.

History: 1954 ACS 77, p. 62, Eff. Oct. 27, 1973.

R 325.3125 Structure and general equipment.

Rule 125. (1) Functional usefulness and quick accessibility from the nurses' station to patient bed areas shall be stressed in designing the unit.

(2) The unit shall provide relative privacy and close proximity of a patient to the nurses' station.

(3) Visual access to the out of doors through appropriately located outside windows shall be provided for each patient room or bed space. This should include at least 1 window for each patient room or cubicle.

(4) Individual rooms with full height walls with wire or safety glass, and curtained windows between rooms and into the corridor area should be provided.

(5) An intercommunication signal and alarm system shall be provided between the nurses' station and (a) patients, (b) physician's sleeping room, and (c) nurses' lounge.

(6) A central alarm signal call system or an exclusive direct telephone line at the nurses' station shall be provided to immediately alert the page operator to institute appropriate cardiac emergency alarms.

(7) Air conditioning, heating, and humidity control shall be provided throughout the unit.

(8) The unit shall be acoustically treated.

(9) Construction materials, cabinet work, and fixtures shall permit ease of cleaning and maintaining a sanitary environment.

(10) An adjustable hospital bed with a sufficiently low or removable headboard to permit ready access to the patient's head shall be provided.

(11) A bedside outlet, preferably from a central source, shall be provided for oxygen and suction.

(12) A clock with a sweep hand shall be conveniently located in the unit.

History: 1954 ACS 77, p. 63, Eff. Oct. 27, 1973.

R 325.3127 Lighting and plumbing.

Rule 127. (1) Illumination of variable intensity shall be provided in each patient's room. A minimum of 100 foot candles of light shall be provided at bed level for routine and emergency examinations.

(2) A nightlight shall be provided in each patient's room.

(3) Toilet facilities sufficient to accommodate the patient load shall be provided in or immediately adjacent to the unit.

(4) A handwashing lavatory with a gooseneck inlet and wrist, knee, or foot control shall be conveniently located in the unit and in each room to be used by a patient with an infection or a communicable disease. The water outlet shall be a minimum of 5 inches above the rim of the sink.

(5) A private toilet and lavatory shall be provided for each patient requiring isolation.

(6) A toilet and lavatory for personnel shall be provided in or adjacent to the unit.

(7) When hemodialysis is to be performed in the unit, the water supply serving hemodialysis equipment shall be designed to provide a minimum water pressure adequate to the needs of the equipment used with the waste line designed to prevent backflow and necessary check valves and shut off valves appropriately located in the plumbing system.

History: 1954 ACS 77, p. 63, Eff. Oct. 27, 1973.

R 325.3128 Electrical wiring installation.

Rule 128. (1) Electrical circuitry shall be properly grounded.

(2) A minimum of 6 single phase duplex 3-wire 110 volt receptacles, or an equivalent of single outlets, shall be provided for each bed for monitoring and *other equipment.*

Digitized by Google

(3) A 220 volt wall receptacle for portable x-ray and other high voltage equipment shall be available in the unit, except when battery or 120 volt powered units are used.

(4) A receptacle shall be at least 30 inches above the floor.

(5) An emergency on-site single phase electrical power unit with an automatic transfer switch shall be provided to service the intensive care unit. Changeover shall occur in 10 seconds or less.

History: 1954 ACS 77, p. 63, Eff. Oct. 27, 1973.

R 325.3129 Electrical maintenance.

Rule 129. Equipment used in an intensive care unit shall be thoroughly inspected for grounding and other potentially hazardous electrical conditions by an engineer or other person qualified in hospital electrical safety or specially trained personnel, initially and frequently thereafter at regular intervals according to a written schedule. The results of the inspections shall be recorded.

History: 1954 ACS 77, p. 64, Eff. Oct. 27, 1973.

R 325.3131 Monitoring and resuscitative equipment.

Rule 131. (1) The following monitoring and resuscitative equipment shall be maintained in an intensive care unit in usable condition:

(a) Portable electrocardiographic monitor screen with writer.

(b) Cardiac defibrillator.

(c) Oxygen mask with accessory equipment.

(d) Emergency cart containing necessary and usual drugs and emergency equipment, including tracheostomy set, endotracheal tubes, laryngoscopes, airways, resuscitation bags, and cutdown sets. The cart shall be checked daily and immediately after each use by an appropriate designated member of the nursing staff to assure that all items planned for immediate availability are contained in the cart and in usable condition.

(e) Resuscitation board and an appropriate airway shall be available in each room for immediate use.

(2) The following shall be available either in the unit or from a readily accessible source in the hospital:

(a) Mechanical ventilatory apparatus.

(b) Transvenous cardiac pacemaker, preferably battery powered.

History: 1954 ACS 77, p. 64, Eff. Oct. 27, 1973.

R 325.3132 Supportive equipment.

Rule 132. The following supportive equipment shall be maintained in an intensive care unit in usable condition:

(a) Tray with sterile equipment for parenteral therapy containing syringes, needles, solutions, and drugs commonly used in medical and surgical services, but planned with particular reference to needs of shock and circulatory or respiratory failure patients.

(b) Catheterization tray and accessory supplies, including drainage bag or bottle.

(c) Thoracentesis tray set.

(d) Venesection tray set.

(e) Irrigation equipment.

(f) Adequate refrigerated storage for biologicals and all other supplies requiring refrigeration storage.

History: 1954 ACS 77, p. 64, Eff. Oct. 27, 1973.

R 325.3134 Supplies.

Rule 134. An intensive care unit shall maintain at all times adequate stocks of the usual supplies essential to the care of acutely ill medical, surgical, and pediatric patients, unless a separate pediatric unit is provided. These stocks shall include:

(a) Individual patient bedside utensils such as thermometers, hand basins, emesis basins, bedpans, and urinals.

(b) Drugs and biologicals regularly stocked for general use as determined by types of patients to be cared for in the unit and in accord with the hospital pharmacy drug policies.

(c) Intravenous fluid and blood expander or plasma.

(d) Dressings and sterile supplies.

(e) Bed and bath linens.

History: 1954 ACS 77, p. 64, Eff. Oct. 27, 1973.

R 325.3136 Electrical systems.

Rule 136. (1) The system supplying power to an intensive care unit shall be designed and maintained to minimize the micro-shock hazard and to protect against macro-shock and fire hazards.

(2) Electrical service to life-support equipment shall be as nearly uninterruptible as possible. A major breakdown shall be followed by changeover to emergency power within 10 seconds or less. The emergency power system shall share the same common ground as the primary power distribution system.

(3) Electrical equipment connected to or used for caring for patients in the unit shall be served by a separate branch circuit. The electrical distribution system shall be designed and maintained so that surges of current do not occur in the patient's branch circuit as a result of using heavy duty equipment.

(4) A grounded conductor in the immediate environment of the patient shall be determined to be safe under any but the most unusual condition. A metal object that reasonably could be touched by a patient or a person attending him shall be considered as a current pathway and connected to the patient reference ground. However, ordinary metal furnishings, such as a metal chair and waste can, need not be grounded because of the improbability of a shock hazard resulting from them and because of the possibility of a trip hazard due to ground straps. Nonconductive surfaces on bedside equipment and devices should be used to the extent reasonably possible.

(5) A patient bed shall be served by a cluster of closely grouped 3-wire electrical receptacles connected to the patient reference ground. An electrical device used in connection with the patient shall be plugged into 1 of these receptacles.

(6) The use of an isolation transformer is not recommended.

(7) An alternating current receptacle shall be of the 3-wire type connecting the third wire to the ground lead.

(8) An alternating current receptacle and grounded surfaces shall be tested and inspected periodically in accord with an established schedule. The polarity, grounding, contact tension, and physical integrity shall be checked and corrections made when indicated.

History: 1954 ACS 77, p. 65, Eff. Oct. 27, 1973.

R 325.3138 Electrical equipment.

Rule 138. (1) Leakage currents of equipment connected singly or in combination to a patient shall be determined to be safe as measured from patient leads to

building ground or between any 2 patient leads in any configuration of applied power to the instruments and with the ground wire removed.

(2) Electrical equipment shall be constructed in a safe and workmanlike manner and shall be built to withstand heavy hospital use. Device markings shall be clear and should resist cleansing agents. Equipment shall be so designed and maintained that spilled liquids, small metal objects, soil, or other foreign material will not readily enter the interior. Heavy duty, inspectable power plugs shall be provided for equipment and devices used in the unit for patient care.

History: 1954 ACS 77, p. 65, Eff. Oct. 27, 1973.

R 325.3139 Safety practices.

Rule 139. (1) This rule applies to a medical electronic device, an aspirator, lamp, radio, television, call button or other electrically operated device connected to the power line and used in the immediate environment of an electrically sensitive patient.

(2) A cheater adaptor, multiple outlet adaptor, or extension cord shall not be used.

(3) An electrical device that has been dropped or otherwise physically abused or had liquid spilled in it shall be removed from service until it has been appropriately cleaned, inspected, and, if necessary, tested and repaired.

(4) An electrical device that has caused a shock in connection with its use shall be removed from service until tested and repaired.

(5) An electrical device that is overheating, as evidenced by odor or touch, shall be removed from service until tested and repaired.

(6) Damage to an equipment power cord, plug, insulation, or chassis housing shall be immediately reported and repaired.

(7) A malfunctioning cable connector, switch, control knob, pilot light or meter shall be reported and repaired as quickly as practical.

(8) A wall receptacle that is loose, in poor repair, damaged, or inoperative shall be reported and repaired.

(9) More than 1 line-operated device shall not be connected to the same patient at the same time, except in unusual and compelling circumstances.

(10) Manual or hydraulic beds should be used in monitored care areas. If electrical beds are used for monitored patients, only those models with acceptable and demonstrated safe double insulation, isolation transformers, or other method considered electrically safe by a competent and unbiased evaluation and testing authority shall be used. Electrical beds shall be inspected carefully and frequently to assure their safety for electrically susceptible patients.

(11) A temporary makeshift repair is not permitted.

History: 1954 ACS 77, p. 65, Eff. Oct. 27, 1973.

R 325.3140 Monitors and electrocardiographs.

Rule 140. (1) A patient cable shall be disconnected before switching power on or off.

(2) A monitor or electrocardiograph shall not be used to determine the position of a pacing catheter or a pericardiocentesis needle unless the instrument is battery operated or known to have a leakage current within safe limits.

(3) The following shall be reported and appropriately corrected:

(a) Poor tracing on the oscilloscope screen.

(b) Rate meter malfunction.

(c) Alarm malfunction.

(d) Poor quality ECG tracing.

Digitized by Google

(e) An automatic direct writer that fails to trigger on time or does not self-center.

(f) Any other apparent or suspected malfunction.

(4) When an electrocardiogram is taken, a patient shall be disconnected from the monitor by detaching the patient cable from the monitor unless the electrocardiograph machine is battery operated.

History: 1954 ACS 77, p. 66, Eff. Oct. 27, 1973.

R 325.3141 Defibrillators.

Rule 141. (1) A defibrillator is the most critical device used in an intensive care unit. It shall be regularly tested and maintained in optimal operating condition at all times. Personnel participating in defibrillating patients shall be appropriately instructed in use of the equipment and hazards to be avoided. A person shall not touch the patient, the bed, defibrillator, or defibrillator cart during discharge.

(2) A malfunction of a defibrillator shall be reported and appropriately corrected. Malfunction includes:

(a) Bent electrode paddles.

(b) Meter that does not operate smoothly.

(c) Defibrillator circuit breaker or fuse that opens during rapid repetitive discharges.

(d) Defibrillator that fails to operate.

(e) Defibrillator that will not hold its charge.

(f) Any other evidence or suspicion of malfunction.

History: 1954 ACS 77, p. 66, Eff. Oct. 27, 1973.

R 325.3142 Pacemakers.

Rule 142. (1) The external tips of a pacing catheter and all metal parts of a pacemaker in electrical continuity with them shall be covered with insulating material.

(2) A deviation from expected performance, such as failure to pace, unusual changes in apparent cardiac threshold, failure to sense R waves or inaccurate rate, shall be reported immediately and appropriately corrected.

History: 1954 ACS 77, p. 66, Eff. Oct. 27, 1973.

R 325.3144 Equipment inspection and maintenance.

Rule 144. Equipment used in an intensive care unit shall be inspected by designated qualified personnel in accord with an established schedule and detailed records of the date and observations made in the inspections shall be kept. Technical personnel, qualified to detect leakage currents from equipment and electrical circuitry and to determine if they are properly grounded and are performing according to the manufacturer's specifications, shall record any malfunction and remedial action taken. Replacement parts shall be in accord with the manufacturer's specifications.

History: 1954 ACS 77, p. 66, Eff. Oct. 27, 1973.

PART 4. HEMODIALYSIS UNITS

R 325.3151 Applicability.

Rule 151. This part applies to new or remodeled hemodialysis units planned or opened after the effective date of this part. Previously existing units shall achieve substantial compliance with the operational and procedural provisions. Previously *existing units shall comply* with the physical plant provisions of this part. However

in cases of alleged difficulty or undue hardship, exceptions thereto may be made and the hospital desiring an exception shall submit a written request to the director of public health stating the justification for the exception and documenting that the exception will not jeopardize the health and safety of patients and employees. An exception, if granted, applies only to the petitioner for the period of time specified.

History: 1954 ACS 77, p. 67, Eff. Oct. 27, 1973.

R 325.3153 Definitions; A to C.

Rule 153. (1) "Acute hemodialysis" means the use of hemodialysis in support treatment of sudden renal failure which is presumably reversible, until adequate function is restored.

(2) "Chronic hemodialysis" means the application of hemodialysis as the long range form of treatment and maintenance for a patient with chronic irreversible renal failure with uremia, or the maintenance and preparation of a patient for kidney transplantation and the patient's support during the immediate postoperative period and in case of organ rejection.

(3) "Chronic hemodialysis unit" means a hospital based treatment or training program either rendering intermittent hemodialysis treatment in the hospital, or training a patient and a supportive person to perform the hemodialysis procedure using intermittent in-hospital hemodialysis as a learning by doing training mechanism and ultimately resulting in the patient performing the treatment procedure in and out of hospital setting.

History: 1954 ACS 77, p. 67, Eff. Oct. 27, 1973.

R 325.3155 Definitions; H to S.

Rule 155. (1) "Hemodialysis" means a treatment procedure accomplished by use of an artificial kidney machine through which blood is circulated on 1 side of a semipermeable membrane while the other side is bathed by a salt solution. The accumulated toxic products diffuse out of the blood into the bath solution and the concentration and total amount of water and salt in the body fluid is adjusted by appropriate alterations in composition of the bath fluid.

(2) "Home hemodialysis" means the performance of the hemodialysis procedure in a patient's home environment. It involves installation of an artificial kidney machine with the necessary supportive equipment, plumbing, and arrangements for the regular procurement of consumable supplies.

(3) "Kidney transplantation" means the surgical removal, under aseptic conditions, of a viable human kidney from a living donor or a deceased person immediately after death and surgically grafting it into a suitably evaluated and prepared patient.

(4) "Satellite unit" means a unit within a hospital not engaged in a large treatment or training program, but functioning as an intermediate resource between a chronic in-center program and a home treatment maintenance program.

History: 1954 ACS 77, p. 67, Eff. Oct. 27, 1973.

R 325.3157 General planning and policies.

Rule 157. The hospital shall establish a written plan and policies which shall include:

(a) A documentation of need based on a careful study of the number of potential cases in the hospital's service area and other hemodialysis resources available.

(b) A statement of well defined program objectives, including the rehabilitation of patients with chronic renal failure.

(c) A description of resources needed to accomplish program objectives and a description of how the resources will be used.

(d) The method of evaluating how well program objectives are being met.

(e) A projected budget.

(f) The method of patient selection.

(g) The criteria for selection of the medical director and delineation of the director's authority, responsibilities, and status in the organizational structure of the hospital.

History: 1954 ACS 77, p. 67, Eff. Oct. 27, 1973.

R 325.3158 Operating policies.

Rule 158. The hospital shall establish written operating policies which shall include:

(a) An operating protocol.

(b) A policy statement for handling patients with acute renal failure and the priority accorded them in relationship to the patients with chronic renal failure.

(c) Designation on the basis of the estimated needs of the part of the program to be devoted to home training, chronic center dialysis, and support for transplant and acute hemodialyses.

History: 1954 ACS 77, p. 68, Eff. Oct. 27, 1973.

R 325.3159 Resources.

Rule 159. The designation of resources shall include:

(a) A job description for each staff position and detailed qualifications essential for competent performance in each position.

(b) A designation by name of persons assigned to various staff positions.

(c) Documentation that the selected staff personnel have the prescribed qualifications, or description of a planned training program to help the personnel attain them.

(d) A plan for recruiting for unfilled staff positions.

(e) A design and layout of the unit.

(f) A list of permanent equipment.

(g) A list of disposable supplies needed per unit of time.

History: 1954 ACS 77, p. 68, Eff. Oct. 27, 1973.

R 325.3160 Budgets.

Rule 160. A budget shall be developed and include:

(a) Capitalization of expenses.

(b) Yearly operating expenses.

(c) Estimated cost per hemodialysis.

(d) Source of funding both for capital and operating expenses.

History: 1954 ACS 77, p. 68, Eff. Oct. 27, 1973.

R 325.3161 Patient selection.

Rule 161. A patient selection plan shall:

(a) Establish criteria which will qualify or disqualify a patient for treatment. These shall include: medical diagnosis and status of the disease necessary for qualifying for treatment, and medical problems which would disqualify a patient; appropriate emphasis on the patient's social, emotional, and economic status as *they relate to his ability* to be effectively maintained on a program; evaluation of

the ability of the patient and his family to accept and adjust to the rigorous hemodialysis regimen; and age.

(b) Designate the person to gather evaluation information.

(c) Specify the information to be obtained for evaluation.

(d) Designate the persons to make the final decision.

History: 1954 ACS 77, p. 68, Eff. Oct. 27, 1973.

R 325.3162 Reports.

Rule 162. (1) An annual report shall be prepared based on ongoing daily and monthly statistics of patients cared for by name, sex, age, diagnosis, results, complications, and problems encountered and a copy sent to the bureau of health facilities of the department of public health.

(2) The unit shall participate in state and national registry reporting. Patient names may be included in registry reporting only in cases of individual signed patient consents.

History: 1954 ACS 77, p. 68, Eff. Oct. 27, 1973.

R 325.3165 Medical director.

Rule 165. The medical director shall be a physician with knowledge, interest, and skills in hemodialysis as well as the physiology and pathology of kidney disease essential to its diagnosis and management. The director's job may be full-time in a large unit or part-time in a small unit.

History: 1954 ACS 77, p. 68, Eff. Oct. 27, 1973.

R 325.3166 Medical staff.

Rule 166. (1) The medical staff shall consist of physicians who have been trained or are undergoing training in the techniques of hemodialysis, including adequate knowledge and understanding of the physiology and pathology of kidney disease to enable them to become proficient in the care and management of patients requiring continuing hemodialysis. The medical staff shall provide professional coverage during hemodialysis and between hemodialyses.

(2) A qualified surgeon shall be available to construct internal arteriovenous fistulas, and external shunts when not done by the nephrologist, and to deal with shunt complications.

History: 1954 ACS 77, p. 69, Eff. Oct. 27, 1973.

R 325.3167 Nursing staff.

Rule 167. The head nurse shall be a registered nurse experienced in hemodialysis technique. She shall provide nursing care for patients undergoing hemodialysis, and direct and supervise the rest of the nursing staff. Other members of the nursing staff shall include registered nurses, licensed practical nurses, and aides as needed. In a smaller unit, the nursing staff may also perform technician duties.

History: 1954 ACS 77, p. 69, Eff. Oct. 27, 1973.

R 325.3168 Technical, social, and dietetic services.

Rule 168. (1) Adequate programs for day-to-day equipment operation and maintenance by a hemodialysis technician or other competent personnel shall be established.

(2) Social service and dietetic service shall be available as needed.

History: 1954 ACS 77, p. 69, Eff. Oct. 27, 1973.

R 325.3169 Other services.

Rule 169. Other disciplines and services shall also be available and participate as needed, depending on the program scope and community resources. These shall include:

(a) A unit administrator or a deputy medical director, or both.
(b) Pharmacy service.
(c) Blood service.
(d) Laboratory service.
(e) Occupational therapy service.
(f) Physical therapy service.

History: 1954 ACS 77, p. 69, Eff. Oct. 27, 1973.

R 325.3170 Training.

Rule 170. (1) A physician, nurse, technician, or other participant in the program of the unit may also be responsible for training colleagues. A trainee shall be supervised closely and shall not be allowed to assume responsibility until satisfactorily completing the training.

(2) A patient who is planning home hemodialysis shall be trained intensively by a team of hemodialysis physicians, nurses, and technicians especially selected for ability to teach.

History: 1954 ACS 77, p. 69, Eff. Oct. 27, 1973.

R 325.3171 Physical design and structure.

Rule 171. (1) A grade level access or ramp and in a multistory structure where a unit is above grade level, ready access to an elevator shall be provided.

(2) A 30 ampere electrical circuit with a 3-wire grounded system shall be available in the unit with a minimum of 2 duplex 110-volt receptacles convenient to each bed. The outlets should be located at least 30 inches above the floor.

(3) Plumbing for the unit shall provide a minimum water pressure adequate to the needs of the equipment used with waste lines serving the hemodialysis equipment to prevent back flow, and necessary check valves and shut-off valves appropriately located in the plumbing system.

History: 1954 ACS 77, p. 69, Eff. Oct. 27, 1973.

R 325.3172 Space.

Rule 172. (1) A patient bed area in a unit shall provide a minimum of 110 square feet of floor space. The bed area shall be designed to permit a clearance of 4 feet on at least 1 side of the bed. The bed shall be located in the room so that connections to either arm or leg may be made.

(2) Privacy for a patient shall be provided by separate cubicle or use of cubicle curtains.

(3) Adequate space shall be provided for a central nurses' station, which should allow direct visual observation of patients, except that in home training units a central nurses' station is not needed.

(4) In a teaching unit, the physical arrangements shall encourage the patient to assume responsibility for his own care as rapidly as possible, consistent with his learning capacity.

(5) Space shall be provided for storage of linen.

(6) A janitor's closet shall be provided either in or immediately adjacent to the unit.

(7) Space shall be provided for adequate refrigerated as well as nonrefrigerated storage. These spaces shall be separate from the food storage facilities.

(8) Space shall be provided for instrument maintenance and storage of equipment and for disassembling, preparation, and testing of dialyzers.

(9) A conference room conveniently located in or near the unit should be provided.

History: 1954 ACS 77, p. 69, Eff. Oct. 27, 1973.

R 325.3173 Electrical equipment and dialysate water.

Rule 173. (1) Electrical equipment in a unit shall be in good repair and routinely checked for electrical safety. Equipment to be used in a patient's home shall be checked for electrical safety before release from the unit.

(2) The medical director shall give the attention he deems necessary to the quality of water used in the dialysate. While many authorities are recommending increasingly the use of deionized water as a precaution against systemic damage, the need for this has not been fully documented or accepted. The mineral content of water supplies varies greatly by community. For that reason and also probably developing knowledge of the subject it remains a matter for individual determination at this time.

History: 1954 ACS 77, p. 70, Eff. Oct. 27, 1973.

R 325.3174 Sanitation.

Rule 174. (1) A work area shall be designed and maintained to separate clean activities from soiled activities.

(2) A handwashing lavatory shall be convenient to a patient bed.

(3) A toilet room with water closet and handwashing lavatory convenient to the unit shall be provided for patient use.

(4) Appropriate arrangements shall be made for the sanitary handling and disposition, preferably by incineration, of solid wastes in home hemodialysis.

(5) Equipment shall be appropriately cleaned after each hemodialysis.

(6) Sterilization equipment shall be available to process items requiring it.

History: 1954 ACS 77, p. 70, Eff. Oct. 27, 1973.

R 325.3176 Acute hemodialysis units.

Rule 176. (1) In an acute hemodialysis unit the additional requirements of this rule shall be met, but where consistent with the program objectives they may be shared with other hospital services.

(2) The patient care area shall not be a passageway to other services or areas of the hospital.

(3) The unit shall be located away from heavy traffic areas.

(4) The unit shall have ready access to medical and supportive services, such as clinical laboratory, radiology, and ancillary services.

(5) Adequate lighting shall be provided for the unit with a minimum of 100 foot candle intensity appropriately placed to illuminate the patient connection and equipment area.

(6) Suction and oxygen equipment shall be available to the unit.

(7) A bed shall be provided with a nurse call signal.

(8) A bed shall be adjustable, in good repair, and, if electrically operated, properly grounded and regularly checked for current leakage.

(9) Appropriate isolation of a patient who is disturbed or has a transmissible infection shall be provided.

(10) A clean utility room shall be provided for clean instruments, solutions, and other clean and sterile supplies.

Digitized by Google

(11) A soiled utility room shall be provided for cleaning and temporary storage of contaminated equipment, storage of soiled linen, and temporary storage of waste material.

(12) A telephone shall be provided at the nurses' station.

(13) A separate refrigerated storage for nourishments shall be provided.

(14) A clock with a sweep hand shall be conveniently located in the unit.

(15) For new construction or major remodeling, the entire area should be acoustically treated.

(16) Air conditioning throughout the unit is recommended.

History: 1954 ACS 77, p. 70, Eff. Oct. 27, 1973.

R 325.3178 Equipment and supplies.

Rule 178. A hemodialysis machine and the following equipment shall be available for acute care in a unit or readily accessible to it:

(a) Cannulation trays with instruments necessary for inserting a prosthetic shunt or creating an arteriovenous fistula.

(b) Constant infusion pumps.

(c) Intubation, other emergency equipment, and drugs usually contained on a crash cart.

(d) Emergency resuscitation, defibrillation, and cardiac monitoring equipment.

History: 1954 ACS 77, p. 71, Eff. Oct. 27, 1973.

R 325.3181 Home hemodialysis supervision and physician care.

Rule 181. (1) Adequate and continuing professional and technical supervision shall be provided and available to home hemodialysis patients to prevent untoward occurrences and to care for emergencies.

(2) A physician qualified to handle problems of the home hemodialysis patient shall be on call at all times.

(3) A local physician in the area where the patient resides shall be encouraged to assume responsibility for the patient's overall medical care. A medical summary of the patient's prior care and specific medical and standing orders signed by the responsible hemodialysis physician in the hemodialysis center responsible for the patient shall be provided to the patient's own physician and the home health agency or hospital nurse when the hospital provides the nursing supervision.

(4) A home hemodialysis patient shall be seen by a physician qualified to manage the problems of the hemodialysis patient with the frequency he deems necessary. A written report of the visit, including evaluation, any change of orders, and results of laboratory or other tests performed, shall be sent to the patient's own physician and the home health agency or hospital nursing service concerned.

History: 1954 ACS 77, p. 71, Eff. Oct. 27, 1973.

R 325.3182 Home hemodialysis supervising nurses.

Rule 182. (1) A nurse responsible for the nursing care and patient supervision and teaching aspects of the home hemodialysis program shall be selected for ability to provide the essential nursing knowledge and skills and to teach and supervise. Unless this nurse has had prior experience at another hemodialysis center, special training and supervised experience shall be provided. The nurse's qualifications and continuing training shall include:

(a) Registration as a graduate professional nurse in this state.

(b) Training at an established hemodialysis center or by a qualified physician experienced in dialysis.

(c) Attendance at continuing lectures or conferences with physicians on evaluation of laboratory studies and the principles and problems of chronic hemodialysis.

(d) Continuing instruction from, and consultation with, the social service, dietary, and other departments providing services to the hemodialysis center.

(2) The supervising nurse shall train other nursing personnel assigned to the unit, in collaboration with the medical director and other discipline representatives concerned with the program. The supervising nurse, in collaboration with the director, shall develop a course outline for the teaching program to include educational objectives for the nursing staff, a procedure manual for the nursing staff, educational objectives for the patient and his family, and an instruction manual for the patient and his family.

(3) The supervising nurse, in collaboration with the medical director and other discipline representatives assigned to the program, shall:

(a) Design and implement the use of a daily and monthly record-keeping form for use of the nursing staff and for individual home dialysis patients.

(b) Establish and provide for the continuing staffing of a call system to assure the competent handling of home hemodialysis patient calls when the unit is not in operation.

(c) Serve as coordinator for other disciplines involved with hemodialysis patients.

(d) At the discretion of the medical director, participate as a member of the screening committee for patient selection.

History: 1954 ACS 77, p. 71, Eff. Oct. 27, 1973.

R 325.3184 Home hemodialysis nurses; source and qualifications.

Rule 184. (1) Nursing assistance, observation, and direction in the home shall be provided in accord with individual needs, by the hemodialysis unit, by arrangement with the local public health nursing service or the visiting nurse association, depending upon available resources.

(2) A home hemodialysis nurse need not be a fully trained and qualified hemodialysis nurse, but orientation shall include visits to the hemodialysis unit for planned instruction and orientation to the general aspects of hemodialysis, with subsequent visits or attendance at workshops sufficient to maintain continuing up-to-date knowledge and orientation in:

(a) Objectives and philosophy of the home training program.

(b) Fundamental principles of hemodialysis.

(c) Factors involved in medical therapy and diet therapy.

(d) Criteria for selection of patients.

(e) Resources for obtaining, proper use, cleaning, and maintenance of supplies and equipment.

(f) Home evaluation.

History: 1954 ACS 77, p. 72, Eff. Oct. 27, 1973.

R 325.3185 Home hemodialysis nurses; duties.

Rule 185. A home hemodialysis nurse shall:

(a) Participate in predischarge planning.

(b) Assist in the assessment of reactions of patients and families to illness and treatment.

(c) Provide emotional support to patients and families.

(d) Assist with organization of schedules in the home.

(e) Reinforce teaching and supervising of patients and families.

(f) Evaluate continuing adequacy of resources.

(g) Evaluate need for other professional services or community resources and making appropriate referral, with appropriate consultation with the unit staff when indicated.

(h) Provide to the unit accurate written reports of the patient's status.

(i) Make monthly, or more frequent, home visits when indicated, until the patient and family are stabilized.

(j) Assist in education of the community in the problems of hemodialysis patients and efforts to improve treatment resources available to such patients.

History: 1954 ACS 77, p. 72, Eff. Oct. 27, 1973.

R 325.3187 Home hemodialysis equipment and supplies.

Rule 187. The unit shall provide through the medical director and its staff members assigned by the director, assistance in home planning which shall include:

(a) Arrangements for checking the patient's home for placement and installation of equipment and storage of supplies.

(b) An inventory of home supplies necessary for carrying on hemodialysis.

(c) An organized system for a home patient to order supplies established by the unit and appropriate instruction of the patient on supply procurement.

(d) Arrangement by the patient for picking up supplies when an order is filled.

History: 1954 ACS 77, p. 72, Eff. Oct. 27, 1973.

BUREAU OF DISEASE CONTROL AND LABORATORY SERVICES

IMMUNIZATIONS IN SCHOOLS, DAY CARE CENTERS, AND CAMPING PROGRAMS

(By authority conferred on the department of public health by section 9227 of Act No. 368 of the Public Acts of 1978, as amended, being §333.9227 of the Michigan Compiled Laws)

R 325.3501 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 368 of the Public Acts of 1978, as amended, being §333.1101 et seq. of the Michigan Compiled Laws.

(b) "Certificate of immunization" means a medical, school, or personal record which indicates the dates when each dose of a vaccine was given and which is certified by a health professional or local health department.

(c) "Exemption" means a temporary or permanent waiver of 1 or more of the specific immunization requirements for medical, religious, or other reasons.

(d) "Medical exemption" means a written statement from a physician licensed to practice medicine or osteopathy in any jurisdiction in the United States or Canada that an immunization is medically contraindicated for a specified period of time. A valid medical contraindication shall include all of the following:

(i) The vaccines that are contraindicated.

(ii) The period of time during which the exemption shall remain in effect.

(iii) The signature of the physician requesting the exemption.

The medical exemption shall be filed with the child's school immunization records until it can be replaced with proof that the vaccines exempted have been received.

(e) "Religious or other exemption" means a written statement signed by the *parent, guardian, or person* in loco parentis of a child which certifies that

immunization is in conflict with his or her religious or other convictions and which includes the name and birthday of the child.

(2) The terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 101, p. 30, Eff. Nov. 14, 1979.

R 325.3502 Immunizations required.

Rule 2. For purposes of implementing section 9227 of the act, a child entering school or registered in a program of group residence, care, or camping shall fulfill the immunization requirements for the following diseases:

(a) Diphtheria.
(b) Measles.
(c) Mumps.
(d) Pertussis.
(e) Polio.
(f) Rubella.
(g) Tetanus.

History: 1954 ACS 101, p. 30, Eff. Nov. 14, 1979.

R 325.3503 Diphtheria, tetanus, and pertussis.

Rule 3. The following shall fulfill the requirements for diphtheria, tetanus, and pertussis immunization:

(a) For a child 4 weeks to 5 years of age (up to the sixth birthday): 4 doses of diphtheria and tetanus toxoids and pertussis vaccine (DTP) given in accordance with the manufacturer's instructions.

(b) For a child 6 years of age and older: 3 doses of tetanus and diphtheria toxoids, adult type, (Td) given in accordance with the manufacturer's instructions.

(c) For a child over 12 years of age: a booster dose of Td for a child who has completed a primary series, but who has not received any immunizations containing tetanus toxoid during the preceding 10 years.

History: 1954 ACS 101, p. 31, Eff. Nov. 14, 1979.

R 325.3504 Polio.

Rule 4. Three doses of oral polio vaccine or 3 doses of inactivated polio vaccine plus 1 oral polio vaccine booster, given in accordance with the manufacturer's instructions, shall fulfill the requirements for poliomyelitis immunization.

History: 1954 ACS 101, p. 31, Eff. Nov. 14, 1979.

R 325.3505 Measles.

Rule 5. Any of the following shall fulfill the requirements for measles immunization:

(a) A single dose of live measles virus vaccine or any vaccine combination containing measles virus vaccine given in accordance with the manufacturer's instructions after the child's first birthday. A vaccine dose administered prior to January 1, 1967, cannot be accepted as evidence of measles immunity unless supported by evidence that live attenuated measles vaccine was given more than 3 months after any inactivated measles vaccine, and that gamma globulin was not simultaneously administered with a further attenuated live measles virus vaccine.

(b) A physician-diagnosed history of measles.

(c) Laboratory evidence of measles immunity.

(d) These requirements may be waived for a child less than 15 months of age.

History: 1954 ACS 101, p. 31, Eff. Nov. 14, 1979.

R 325.3506 Rubella.

Rule 6. Any of the following shall fulfill the requirements for rubella immunization:

(a) A single dose of rubella virus vaccine or any vaccine combination containing rubella virus vaccine administered in accordance with the manufacturer's instructions after the child's first birthday. Any vaccine dose administered prior to July 1, 1969, cannot be accepted as evidence of rubella immunity.

(b) Laboratory evidence of rubella immunity.

(c) These requirements may be temporarily waived for all children under 15 months of age and for any female who is now pregnant or is likely to become pregnant within the 3-month period following the proposed immunization.

History: 1954 ACS 101, p. 31, Eff. Nov. 14, 1979.

R 325.3507 Mumps.

Rule 7. Any of the following shall fulfill the requirements for mumps immunization and shall apply only to children entering school for the first time after September 1, 1979:

(a) A single dose of mumps virus vaccine or any vaccine combination containing mumps virus vaccine administered in accordance with the manufacturer's instructions after the child's first birthday.

(b) Laboratory evidence of mumps immunity.

(c) These requirements may be waived for all children under 15 months of age.

History: 1954 ACS 101, p. 31, Eff. Nov. 14, 1979.

R 325.3508 Admittance of partially immunized students.

Rule 8. If the requirements for immunization cannot be completed due to medical reasons by February 1 or within 4 months of admittance, a child shall be permitted to remain enrolled in a school, day care center, or camp for a reasonable length of time which is consistent with the immunization schedule set forth in these rules. A statement requesting the enrollment of the child beyond the exclusion date shall be signed by a physician or local health officer and shall certify that the child is in the process of complying with all immunization requirements. Upon completion of the required series of immunizations, the parent shall present the school, day care center, or camp with a certificate of immunization.

History: 1954 ACS 101, p. 31, Eff. Nov. 14, 1979.

R 325.3509 Standard school immunization records.

Rule 9. A standard record of immunization shall hereafter be maintained by every school for every pupil on forms supplied by, and containing information required by, the Michigan department of public health. When a pupil transfers to another school or school district, this record, or a true copy thereof, shall be sent to the new school by the original school.

History: 1954 ACS 101, p. 32, Eff. Nov. 14, 1979.

R 325.3510 Annual status reports.

Rule 10. The minimum information necessary to fulfill the requirements of section 9209 of the act shall be a listing by child of the number of doses of each vaccine received and the date of last immunization for each vaccine given in the series. Children who have exemptions shall also be listed with the type of exemption granted.

History: 1954 ACS 101, p. 32, Eff. Nov. 14, 1979.

R 325.3511 Minimum levels of immunization for children in schools, day care centers, or camps.

Rule 11. For the purpose of meeting the requirements in section 9209(2) of the act, the minimum level of immunization for children in a day care center, school, or camp shall be 100% of the total enrollment, less those holding a medical, religious, or other exemption.

History: 1954 ACS 101, p. 32, Eff. Nov. 14, 1979.

R 325.3512 Inspection of school immunization records.

Rule 12. A principal or other person in charge of a school, day care center, or camp shall make immunization records available for inspection by authorized representatives of the Michigan department of public health or the local health department in whose jurisdiction records are located. The local health officer shall also make public clinic immunization records available to authorized representatives of local schools for the purpose of verifying pupil immunizations.

History: 1954 ACS 101, p. 32, Eff. Nov. 14, 1979.

R 325.3513 Outbreak control.

Rule 13. The occurrence of a case of a vaccine-preventable disease in a school, day care center, or camp shall require the following procedure:

(a) The principal or other person in charge shall immediately inform the local health department in whose jurisdiction the school, day care center, or camp is located of all diagnosed and suspected cases. The name, age, sex, address, and home phone numbers, if known, of each child shall be given.

(b) The local health department shall seek to confirm the diagnosis of all suspected cases by gathering and analyzing medical and epidemiological data available from school records, interviews with children or their parents, or both, or consultation with the children's private physician. When a case has been confirmed, both the school principal, day care center operator, camp director, and the Michigan department of public health shall be informed.

(c) The individual confirmation of all cases of vaccine-preventable diseases by local health department investigations shall be waived in large scale outbreaks when the local health officer determines that sufficient information exists to characterize the extent of risk and that available personnel can be more appropriately employed in other aspects of outbreak control.

(d) When the local health officer or the state director of public health determines that an epidemic is threatening, appropriate control procedures, which may include the review of health records, the establishment of immunization clinics, and the exclusion of remaining susceptibles, shall be instituted.

History: 1954 ACS 101, p. 32, Eff. Nov. 14, 1979.

TOXIC SUBSTANCE LOAN COMMISSION

TOXIC SUBSTANCE LOAN PROGRAM

(By authority conferred on the toxic substance loan commission by section 5 of Act No. 273 of the Public Acts of 1978, being §325.835 of the Michigan Compiled Laws)

R 325.3701 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 273 of the Public Acts of 1978, being §325.831 et seq. of the Michigan Compiled Laws.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) "Applicant" means a person applying for a loan under the act.

(c) "Contamination" means a condition indicated by either of the following:

(i) The quarantine of a farm or livestock by the Michigan department of agriculture for the presence of a toxic substance.

(ii) The presence of a toxic substance in livestock as determined by the commission based on evidence presented by the applicant, including, but not limited to, a toxic substance laboratory analysis.

(d) "Loan plan" means the plan made part of the application which sets forth the items or purposes for which the loan will be used, detailed to the extent deemed necessary by the commission.

(2) A term defined in the act has the same meaning when used in these rules.

History: 1954 ACS 100, p. 77, Eff. Sept. 1, 1979.

R 325.3702 Eligibility for loan.

Rule 2. (1) To be considered eligible for a loan under the act, an applicant shall meet the following conditions:

(a) Have been a Michigan resident at the time of the contamination or when the financial loss occurred.

(b) Have owned or leased a farm in Michigan after January 1, 1970.

(c) Have suffered a financial loss as a result of contamination on a farm after January 1, 1970.

(d) Have filed a completed loan application with the commission in accordance with R 325.3703.

(e) Have furnished sufficient information, records, test results, or other scientific evidence to satisfy the commission that a toxic substance was present after January 1, 1970, and that all other requirements of the act and these rules have been met.

(2) An applicant shall not be considered eligible if any of the following exists:

(a) The applicant has received compensation for the loss in an amount equal to the loss as specified by section 7(b) of the act.

(b) The loss was primarily the result of an act of gross negligence of the applicant.

(c) The applicant has been found guilty of committing an unlawful act under section 14 of the act.

(d) The commission determines that the applicant does not meet the requirements of the act or these rules.

History: 1954 ACS 100, p. 78, Eff. Sept. 1, 1979.

R 325.3703 Application for loan.

Rule 3. (1) An application for a loan under the toxic substance loan program shall be submitted to the toxic substance loan commission on forms provided by the commission. Forms may be obtained from the department of public health or at other locations designated by the department. Inquiries shall be made to the:

Toxic Substance Loan Commission
Michigan Department of Public Health
Office of Finance and General Services
P.O. Box 30035
Lansing, Michigan 48909

(2) All applicable entries on the application form shall be completed according to instructions before the application will be considered by the commission. An applicant shall certify subject to the penalties provided by law, that the information on the application form and supporting documentation is true, correct, and *complete.*

(3) At the time of application, an applicant shall disclose to the commission any circumstances under which disclosure of the material supplied by the applicant may damage or be detrimental to the applicant's civil remedy for recovery of the loss for which the applicant seeks a loan.

(4) Upon receipt, an application shall be assigned an application number and reviewed to determine whether it has been fully completed and contains the necessary supporting documentation. Each application shall be analyzed and scheduled for commission review, as appropriate. The commission staff shall assist applicants, as necessary, to complete their applications.

History: 1954 ACS 100, p. 78, Eff. Sept. 1, 1979.

R 325.3704 Loan plans.

Rule 4. (1) After an application has been accepted, but before commission review, a loan plan shall be developed in consultation with an applicant to comply with section 12(1)(b) of the act. The loan plan shall contain a statement which identifies in detail the amounts and purposes for which the applicant pledges the use of loan funds. The plan shall provide that the proceeds of the loan shall be used only to invest in land, livestock, agricultural supplies and equipment, household and medical needs, or, if the loan applicant chooses not to remain in farming, in a nonfarm economic enterprise.

(2) The loan plan shall include the anticipated date or dates when the loan proceeds will be expended by the applicant for the purposes stated in the plan, and the dates when repayment will occur. An amendment to a loan plan shall conform to R 325.3708.

History: 1954 ACS 100, p. 78, Eff. Sept. 1, 1979.

R 325.3705 Action on application; financial condition of applicant.

Rule 5. (1) A completed application, with all required documentation, including a loan plan, shall be considered by the commission in the order the applications were completed, except that the commission may review and consider applications out of this sequence based upon the serious financial condition of the applicant as determined by the commission pursuant to subrule (2).

(2) In determining the financial condition of an applicant, the commission shall evaluate the financial data provided on the application form and any other pertinent documentation relative to the financial condition of the applicant and the intended use of the proceeds of the loan.

History: 1954 ACS 100, p. 79, Eff. Sept. 1, 1979.

R 325.3706 Loan application; approval, disapproval, or suspending action.

Rule 6. (1) The commission, based upon the application, the loan plan, and any additional information it considers necessary for final action, shall approve, disapprove, or delay a decision on the loan application. The commission may require that the applicant be in attendance during its deliberations, to provide additional supporting information considered necessary to reach a decision on the application.

(2) A loan shall be approved by the commission in a specified amount. Following approval of a loan, the commission shall issue an authorization for disbursement of the approved loan amount to the applicant upon proper execution or completion of the required note of indebtedness, subrogation agreement, and other required documents.

(3) A delayed decision on an application shall result whenever the commission determines the information supplied is inadequate at the time of review or that funding is unavailable for the loan or that another condition exists which prevents either approval or disapproval of the loan at the time of review. An applicant shall be notified formally by the commission whenever a decision on an application has been delayed. The notification shall include the reasons for the commission action.

(4) If an application is disapproved by the commission, the commission shall formally notify the applicant of such action.

History: 1954 ACS 100, p. 79, Eff. Sept. 1, 1979.

R 325.3707 Use of loaned funds.

Rule 7. A loan under the act may be used only for the purposes stated in the loan approved by the commission. Use of the loaned funds shall be subject to audit, and unauthorized use may result in default or other actions specified in the loan agreement.

History: 1954 ACS 100, p. 79, Eff. Sept. 1, 1979.

R 325.3708 Amendment of loan plan; modification of repayment schedule.

Rule 8. (1) A person who has received a loan under the act may request the amendment of a loan plan by submitting the proposed plan changes to the commission with a statement of the reasons justifying the proposed change. The commission may approve an amendment to a loan plan if it determines that the proposed changes are consistent with the act and these rules. Funds shall not be expended in accordance with an amended loan plan until the commission has approved the amendments.

(2) A person who has received a loan under the act may apply to the commission for modifications of the repayment schedule by submitting to the commission the proposed changes and a statement of the reasons for the requested changes. The commission may approve a change in the repayment schedule of a loan if it determines that the changes are consistent with the act and these rules and are in the best interest of the state.

History: 1954 ACS 100, p. 79, Eff. Sept. 1, 1979.

R 325.3709 Request for reconsideration of staff action or commission decision; finality of decision.

Rule 9. (1) An applicant who does not concur in a decision of the staff in the implementation of the program may request that the commission review the staff action by submitting a statement of the specific action in question, the reasons for the requested reconsideration, and the action desired by the applicant. The commission may review the request for reconsideration of staff action at its regular meeting and, following review, may affirm, modify, or revoke the staff action.

(2) An individual who does not concur in a decision of the commission may apply to the commission for reconsideration of the action at a subsequent meeting. The request shall state the specific action in question, the reasons for the requested reconsideration, and the action desired by the applicant. The commission may review the request for reconsideration at any regular meeting and may affirm, modify, or revoke a prior commission action if it determines such action is *appropriate.*

BUREAU OF HEALTH CARE ADMINISTRATION

FREESTANDING SURGICAL OUTPATIENT FACILITIES

(By authority conferred on the director of public health by sections 2 and 6 of Act No. 274 of the Public Acts of 1974, being §§331.472 and 331.476 of the Michigan Compiled Laws)

R 325.3801 Definitions; A.

Rule 1. (1) "Act" means Act No. 274 of the Public Acts of 1974, being §§331.471 to 331.493 of the Michigan Compiled Laws.

(2) "Anesthetic" means a drug, gas, or other agent used to abolish the sensation of pain. There are 3 classifications as follows:

(a) "General anesthetic" means an anesthetic agent which produces a temporary loss of consciousness by the administration of a gas; oral, intramuscular, and intravenous drugs; or a combination of these methods.

(b) "Local anesthetic" means a drug whose action is limited to an area of the body around the site of its application.

(c) "Spinal," "epidural," or "caudal" anesthetic means the injection of an appropriate local type of anesthetic into the spinal canal, epidural area, to produce a local loss of sensitivity to the body areas at and below the sensory nerve distribution at the level of injection.

(3) "Anesthesia" means a state of loss of feeling or sensation and is normally used to denote the loss of sensation to pain purposely induced by the use of a specific gas or drug to permit the performance of surgery or other painful procedure.

(4) "Anesthesiologist" means a physician specializing in the field of anesthesiology, who may or may not be a diplomate of his specialty board.

(5) "Anesthetist" means a person qualified to administer anesthetic. In common usage the term applies to nurses and lay persons who have had special training and experience under medical auspices in the administration of anesthetics.

History: 1954 ACS 86, p. 48, Eff. Feb. 10, 1976.

R 325.3802 Definitions; D to S.

Rule 2. (1) "Department" means the department of public health.

(2) "Director" means the director of the department of public health.

(3) "Freestanding surgical outpatient facility" or "facility" means an establishment offering any type of surgical procedures and related care which, in the opinion of the attending physician, can be performed safely without requiring inpatient overnight hospital care and exclusive of such surgical and related care as licensed physicians ordinarily may elect to perform in their private offices.

(4) "Hospital" means an establishment offering inpatient and outpatient services for the medical, surgical, obstetrical, and other care of persons as specified and currently licensed under the provisions of Act No. 17 of the Public Acts of 1968, as amended.

(5) "Physician" means a person licensed to practice medicine or osteopathy in this state.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(6) "Nurse" means an individual currently licensed or registered as such by the state.

(7) "Surgery" means the treatment of human beings by a physician, by the use of 1 or more of the following procedures:

(a) Cutting into any part of the body by surgical scalpel, electro-cautery, or other means for diagnosis or the removal or repair of diseased or damaged tissue, organs, tumors, or foreign bodies.

(b) Reduction of fractures or dislocations of a bone, joint, or bony structure.

(c) Repair of malformations or body defects resulting from injury, birth defects, or other causes that require cutting and manipulation or suture.

(d) Instrumentation of the uterine cavity including the procedure commonly known as dilatation and curettage for diagnostic or therapeutic purposes.

(e) Any instrumentation of or injection of any substance into the uterine cavity of a woman for the purpose of terminating a pregnancy.

(f) Human sterilization procedures.

(g) Endoscopic procedures.

History: 1954 ACS 86, p. 49, Eff. Feb. 10, 1976.

R 325.3811 Licenses; requirements; applications.

Rule 11. (1) A freestanding surgical outpatient facility shall not be established, maintained or operated without first obtaining a license. The term "freestanding surgical outpatient facility" or other similar term shall not be used on unlicensed places.

(2) An application for a license for a facility shall be made on forms authorized and provided by the director. The application shall include the identity of the owner of the facility.

(3) An application for a license for a facility shall be made and signed by the individual desiring to establish, conduct, or maintain a licensed facility, or by the authorized representative of an individual, co-partnership, corporation or association desiring to establish, conduct, or maintain a facility. The application shall include a statement of the intended purpose of the facility by specifying the types of surgery to be performed in it. When appropriate, the name of the facility may include a brief statement of the services provided; for example, hand surgery, general surgery, industrial surgery. The brief designation may appear under the name of the facility on an external sign of the building visible to the public if a sign is used.

(4) The owner or governing body may designate a qualified administrator of a facility, who may be the authorized representative, and delegate to the administrator the responsibility for the day-to-day operation in compliance with licensing requirements and such additional policies or regulations as the owner or governing body may adopt.

(5) An authorized representative shall be authorized to make application and amendments to the application to provide the director with all information necessary to the director's determination made in connection with issuance of the license and to enter into agreements with the director in connection with the issuance of the license. A certificate of appointment or other written evidence of the authority vested in the authorized representative shall be attached to the application.

(6) In matters relating to licensing, the director may continue to deal with the authorized representative until notified in writing that a new authorized representative has been appointed with equal power, and the former authorized *representative is* no longer authorized to act.

(7) The director may use any appropriate means of notice and may direct notices of any administrative action pursuant to licensing of a facility to the applicant or the authorized representative, either personally or by mail, at the address of the facility.

History: 1954 ACS 86, p. 49, Eff. Feb. 10, 1976.

R 325.3812 Licenses; permits; issuance.

Rule 12. (1) If the director determines that a facility complies with the act and these rules, the director shall issue a license.

(2) The director may issue a provisional license or temporary unrenewable permit in accord with the act and these rules.

(3) The director, upon issuing a provisional license or denying a license, shall give the applicant or the authorized representative written notice of the action and the reasons therefor.

History: 1954 ACS 86, p. 50, Eff. Feb. 10, 1976.

R 325.3813 Licenses; permits; transferability; notice of change; display.

Rule 13. (1) A license, provisional license, or temporary unrenewable permit is not transferable between owners or from 1 location to another.

(2) The applicant or authorized representative shall give written notice to the department within 5 business days of any change in information as submitted in the application pursuant to which a license, provisional license, or temporary unrenewable permit was issued.

(3) The current license, provisional license, or temporary unrenewable permit shall be posted in a conspicuous public area of the facility.

History: 1954 ACS 86, p. 50, Eff. Feb. 10, 1976.

R 325.3815 Construction and major alterations of physical facilities.

Rule 15. (1) The owner or governing body of a proposed freestanding surgical outpatient facility shall submit plans of the proposed facility to the director for review and approval prior to the initiation of any construction project, including modernization, addition to, or conversion of an existing structure. The purpose of the review is to require that the proposed facility is designed and constructed in accord with applicable rules.

(2) A facility shall not be constructed nor major alterations undertaken without first obtaining a construction permit from the department.

(3) A major alteration is deemed to be any extensive structural alteration of an existing building area involving significant changes in the interior configurations or intended use by the moving of partitions of a number of rooms and involving an expenditure of an amount in excess of $25,000.00. Removal of the partitions between 2 adjacent rooms to provide additional room space is not deemed to be a major alteration unless it exceeds $25,000.00 in cost and multiple changes are to be made for a changed use of an entire wing or area and extensive plumbing and electrical wiring changes are required.

History: 1954 ACS 86, p. 50, Eff. Feb. 10, 1976.

R 325.3816 Compliance with other laws, codes, and ordinances.

Rule 16. A facility shall comply with applicable state laws and shall furnish such evidence as the director may require to show compliance with applicable local laws, codes, and ordinances.

History: 1954 ACS 86, p. 50, Eff. Feb. 10, 1976.

R 325.3817 Determinations of compliance; inspections.

Rule 17. (1) The director or his authorized representative shall make an inspection yearly within the 3-month period before the facility's license expiration date. The director shall not renew a license until the completion of such an inspection, and a favorable recommendation by the health department inspector is on file.

(2) Additional inspections shall be made as often as necessary in the judgment of the director or his authorized representative.

History: 1954 ACS 86, p. 50, Eff. Feb. 10, 1976.

R 325.3818 Hearing requests.

Rule 18. A party in interest to the application for or issuance of the license, provisional license, or temporary unrenewable permit aggrieved by an order of the director may file a written request for a hearing with the director within 30 days, which shall be accompanied by a written statement setting forth the reasons for the request and, where appropriate, affirming or denying each item of noncompliance listed in conjunction with the order.

History: 1954 ACS 86, p. 50, Eff. Feb. 10, 1976.

R 325.3819 Hearing procedures.

Rule 19. A hearing shall be held at the offices of the department in Lansing, or such other place as the director may designate. Notice of hearing shall state the date, hour, place, nature of the hearing, statement of the legal authority, reference to the particular sections of the statutes and rules, a short plan statement of the matters asserted, and shall be mailed to or served personally upon the party in interest requesting the hearing at least 15 days prior thereto.

History: 1954 ACS 86, p. 51, Eff. Feb. 10, 1976.

R 325.3820 Prohibitions.

Rule 20. (1) The use of the words "state approved" or similar words is prohibited. The word "licensed" may be used by a licensed facility.

(2) The use of the word "hospital" or words having similar meaning is prohibited in reference to a facility, except to identify a facility owned and operated by a licensed hospital by including, if desired, the name of the parent hospital in the name or by a modifying phrase or a clause as a subtitle of the facility's name.

History: 1954 ACS 86, p. 51, Eff. Feb. 10, 1976.

R 325.3822 Disaster and emergency procedures.

Rule 22. (1) A facility shall have a written plan of procedure to be followed in case of fire, explosion, or other emergency.

(2) A disaster plan shall specify persons to be notified, location of alarm signals and fire extinguishers, evacuation routes, emergency procedures for patient care, and assignment of specific tasks.

(3) Personnel shall be assigned and trained to perform specific tasks.

History: 1954 ACS 86, p. 51, Eff. Feb. 10, 1976.

R 325.3825 Patient care.

Rule 25. (1) A facility shall be planned, staffed, equipped, and operated with the individual patient's welfare and safety to be of paramount concern.

(2) The feelings, sensibilities, and comfort of the patient shall be fully respected *and given meticulous* attention by all personnel.

(3) A person cared for in a facility shall be seen by, and be under the care of, a currently licensed physician.

History: 1954 ACS 86, p. 51, Eff. Feb. 10, 1976.

R 325.3826 Surgical procedures; medications.

Rule 26. (1) A surgical procedure performed in a facility shall be done by a licensed physician. A licensed podiatrist or licensed dentist may also perform surgical procedures in a facility under the direction of a physician and in accord with written facility policies and procedures adopted by the governing body or owner.

(2) A qualified physician shall be present on the premises of a facility through the postoperative period of a patient's stay in the facility.

(3) Medications, diagnostic procedures, and treatments customarily given or performed by nurses or other qualified personnel shall be given only upon written order of the responsible physician, except that:

(a) In emergencies, verbal orders of the physician for medications or treatments may be carried out with subsequent notation of such care being entered in the patient's record and signed by the physician.

(b) Standing orders for specific tests and pre- and postoperative care may be established and honored when provided in writing and approved by the medical staff or physician owner or operator of the facility.

History: 1954 ACS 86, p. 51, Eff. Feb. 10, 1976.

R 325.3827 Admission and registration.

Rule 27. (1) A person referred, or applying, for care in a facility shall be received and treated in a kindly and sympathetic manner.

(2) An applicant for care shall be registered promptly with the procurement of the identification, vital and financial information essential to the initiation of requisite medical and business records and any required departmental reports.

History: 1954 ACS 86, p. 51, Eff. Feb. 10, 1976.

R 325.3828 Informed consents.

Rule 28. The owner or governing body shall adopt and enforce a policy which will require that informed consents will be obtained from a patient or, in case of an unemancipated minor, the responsible relative or guardian prior to the performance of surgical procedures, and shall require that signed written consent forms be placed in each patient's chart.

History: 1954 ACS 86, p. 52, Eff. Feb. 10, 1976.

R 325.3831 Records.

Rule 31. (1) Medical records shall be initiated and kept on all patients receiving any type of surgical care.

(2) A facility shall maintain administrative records to include as a minimum:

(a) Records of surgical procedures performed each day. These shall be maintained in chronological sequence in a permanent bound register or logbook.

(b) Monthly statistical summary of numbers of surgical procedures performed, appropriately classified according to standard nomenclature.

(c) Narcotics register.

(d) Transfers to a hospital for post-surgical care and case outcome.

History: 1954 ACS 86, p. 52, Eff. Feb. 10, 1976.

R 325.3832 Transportation services.

Rule 32. A facility shall have available immediately adequate transportation services for emergency patients requiring transfer to a hospital. A facility shall be located not more than 30 minutes normal travel time from the hospital with which written emergency admission arrangements are made. When indicated, a physician or nurse from the facility shall accompany the patient to provide emergency care en route.

History: 1954 ACS 86, p. 52, Eff. Feb. 10, 1976.

R 325.3833 Counseling and referrals for subsequent care.

Rule 33. (1) When procedures having present or future social implications for a patient are performed, such as human sterilizations or pregnancy terminations, or when indicated in other situations, a facility shall make available and offer appropriate counseling, interpretation, and referral for subsequent indicated care. To accomplish this, a facility shall:

(a) Provide through physicians, qualified nurses, social workers, or specially trained and qualified counselors for appropriate assistance and counseling as needed.

(b) Maintain liaison with and make indicated referrals to community counseling, family planning, or other social and health service agencies to help assure appropriate and adequate subsequent care of the patient.

(c) Provide such counseling or assistance without coercion.

(2) Counselors, other than a responsible physician, should consult with the physician concerning results of counseling and the initiation of any referrals that seem necessary.

(3) An appropriate method for providing information to and receiving information from legitimate referral sources shall be established, including adequate mechanisms for the scheduling and fulfilling of advance appointments requested by a referral source.

History: 1954 ACS 86, p. 52, Eff. Feb. 10, 1976.

R 325.3834 Medical supervision and administrative management.

Rule 34. (1) The medical care provided in a facility shall be under the direction of a qualified licensed physician.

(2) There shall be a designated responsible person in overall administrative charge of a facility who may be the owner, a co-owner, or person employed by the owner to fulfill this responsibility. If qualified, the person may also be the medical director who shall be responsible for the medical direction of the facility as well as for the nonprofessional administrative activities, or a suitably qualified nonmedical administrator may be employed to assume nonprofessional administrative and business management responsibility.

History: 1954 ACS 86, p. 52, Eff. Feb. 10, 1976.

R 325.3835 Physician qualifications; records.

Rule 35. (1) A physician, podiatrist, or dentist performing surgery in a facility shall possess adequate qualifications acquired by special training and experience to evaluate the medical, podiatric or dental conditions, potential risks, recognize and adequately treat emergency complications encountered in any procedure undertaken, and perform the procedure in accordance with the usual standards of *medical, podiatric, or dental* practice.

(2) The facility shall maintain a record of the educational training and experience background of each person granted privileges to perform surgery in a facility.

(3) A qualified anesthesiologist or anesthetist shall be on the staff and, when medically indicated, participate in the selection of the most appropriate anesthetic agent to be used and be present to supervise or actually administer the anesthetic when procedures are undertaken which require such participation.

History: 1954 ACS 86, p. 52, Eff. Feb. 10, 1976.

R 325.3836 Medical policies; rules.

Rule 36. (1) In a hospital-owned and operated facility, the medical staff rules, regulations, and policies adopted by the hospital for such care shall prevail.

(2) In a nonhospital-owned and operated facility, comparable written medical staff rules, regulations, and policies shall be developed and adopted by the medical staff.

History: 1954 ACS 86, p. 53, Eff. Feb. 10, 1976.

R 325.3837 Medical consultations.

Rule 37. Consultation and assistance in any needed medical specialty field shall be readily available and used as indicated prior to and, when necessary, following a surgical procedure. If there is any doubt concerning the patient's medical status, appropriate consultation shall be required and written reports of the consultants' findings and recommendations shall be entered in the patient's clinical record. A facility shall maintain a current record of the identities of consultants serving the facility.

History: 1954 ACS 86, p. 53, Eff. Feb. 10, 1976.

R 325.3838 Medical reviews.

Rule 38. The conduct of the work of a facility shall be regularly and frequently reviewed by the appropriate medical staff committee (tissue, medical audit or utilization, medical records) in a hospital operated facility to assure maintenance of high standards and quality of care. In other facilities, comparable arrangements acceptable to the director for impartial medical surveillance and review of the quality of care provided shall be made.

History: 1954 ACS 86, p. 53, Eff. Feb. 10, 1976.

R 325.3839 Scrub procedures; policy.

Rule 39. A facility shall have a written policy adopted by the medical staff to provide for adequate handwashing and surgical scrub-up procedures between patient examinations when actual contact with a patient occurs and between surgical operative procedures in accord with generally accepted standards for sanitation and surgical scrub-up cleanliness.

History: 1954 ACS 86, p. 53, Eff. Feb. 10, 1976.

R 325.3840 Nurse qualifications.

Rule 40. (1) Nursing care in a facility shall be under the direction of a currently registered professional nurse who possesses additional qualifications acquired by training and experience essential to the proper and safe conduct of the surgical procedure undertaken and nursing care attention to the postoperative observation and needs of the patients.

(2) A registered professional nurse who possesses the special skills and experience necessary to supply or supervise all nursing care needs of patients in preparation for and during the surgical procedure and the recovery period until discharge by the responsible physician, shall be on duty.

(3) A licensed practical nurse with special training and experience, working under appropriate supervision and direction, may be used to complement the registered professional nursing staff to perform duties within the scope of his competence and restrictions of the nursing practice act.

History: 1954 ACS 86, p. 53, Eff. Feb. 10, 1976.

R 325.3841 Ancillary personnel.

Rule 41. Ancillary personnel participating in patient care who are adequately trained and working under appropriate direction or supervision may be employed to assist within the areas of their competence in the conduct of the work of the facility.

History: 1954 ACS 86, p. 53, Eff. Feb. 10, 1976.

R 325.3842 Supplies, equipment, and processing.

Rule 42. (1) Supplies of appropriate drugs, medications, fluids, electrolyte solutions (including plasma volume expanders), sterile linens (gowns, drapes, towels, and so forth), gloves, dressings, bandages and so forth shall be maintained in sufficient quantities for regular and emergency use. The drug storage, dispensing, and administration system shall comply fully with applicable state laws and rules.

(2) Such surgical instruments, accessory and operating room lights, and resuscitation equipment as are appropriate for the types of surgery and surgical risks which may be encountered in a facility shall be provided and maintained in clean and sterile condition.

(3) Adequate supplies of linens shall be maintained, sufficient to provide for all indicated changes after 1 use.

(4) There shall be appropriate provision for the satisfactory laundering of linens and garments.

History: 1954 ACS 86, p. 53, Eff. Feb. 10, 1976.

R 325.3843 Beverages and nourishments.

Rule 43. Hot and cold beverages and appropriate light nourishments shall be provided and offered to patients, especially for those patients kept for observation for periods longer than the 3-hour minimum observation period specified in R 325.3868(1). These shall be stored and served in an appealing and sanitary manner.

History: 1954 ACS 86, p. 54, Eff. Feb. 10, 1976.

R 325.3844 Housekeeping.

Rule 44. (1) The building, supplies, equipment, and furnishings shall be maintained in a clean, sanitary, safe, and usable condition.

(2) A facility shall have a housekeeping manual stating frequency and procedure for cleaning various areas in the facility. These procedures shall be followed to assure a sanitary environment.

(3) The building, equipment, fixtures, and operation shall comply with applicable local and state fire, safety, and sanitation codes.

History: 1954 ACS 86, p. 54, Eff. Feb. 10, 1976.

R 325.3845 Laboratory services.

Rule 45. (1) Provision shall be made for the performance of indicated services by a laboratory that is licensed or exempt from licensing, and provides competent personnel and adequate equipment to make accurate determinations. Written documents of the arrangements shall be available for inspection.

(2) While laboratory services to be performed on a particular patient are matters of medical judgment, it is expected that those tests appropriate to the individual case will be performed and results recorded in the patient's clinical record. A facility shall adopt and maintain written policies specifying such minimal laboratory procedures as are required for specific types of surgical procedures.

(3) A facility shall provide for the services of a qualified pathologist to be available to it for the pathological examination and reportings of findings of all surgical specimens removed at the facility which in the judgment of the surgeon require pathological examination. Tissues not examined by a pathologist shall be described and identified in the clinical record by the operating surgeon.

History: 1954 ACS 86, p. 54, Eff. Feb. 10, 1976.

R 325.3846 X-ray services.

Rule 46. (1) In a facility offering services which ordinarily require diagnostic x-ray examinations, appropriate arrangements shall be made to assure their availability.

(2) Depending on the volume and urgency of x-ray needs, the facility shall do 1 of the following:

(a) Arrange with a nearby radiology service operated by a qualified radiologist for the provision of the examination.

(b) Provide appropriate x-ray equipment with necessary staff within the facility. In such installations, the service shall be maintained under the direction of a physician qualified for the responsibility and shall include protection of patients and personnel from overexposure to radiation or electric shock.

(3) A report of a finding on an x-ray examination made shall be entered in the patient's record.

(4) Radiographic equipment shall be maintained in accord with existing law and rules.

History: 1954 ACS 86, p. 54, Eff. Feb. 10, 1976.

R 325.3847 Medical records.

Rule 47. (1) Medical records shall be originated on all patients undergoing surgery, signed by the responsible physician, indexed, and so filed as to assure their ready access and future availability. They shall be maintained in accordance with a written retention policy acceptable to the director. In a hospital operated facility, the recordkeeping shall be incorporated into the hospital medical records system, including and subject to its established retention policies.

(2) Medical records shall contain as a minimum:

(a) Patient identification, including name, address, marital status, and birthdate.

(b) Medical history.

(c) Physical examination.

(d) Medical orders signed by the responsible physician.

(e) Laboratory findings.

(f) Special examination findings, for example, x-ray or electrocardiogram.

(g) Preoperative and final diagnosis.

(h) Nurses' notes which shall include a recording of vital signs, pre- and postoperatively, color, appearance, and other relevant observations with such frequency postoperatively as to document the patient's stabilized condition at time of discharge.

(i) Record of the sedation and anesthetic used by product name and dosage, identity of anesthetist if other than the surgeon, procedure, and any pertinent information concerning results or reactions.

(j) Written consultation reports signed by the consultant.

(k) Social or social service information relevant to the case.

(l) Surgeon's operative note including naming of procedure performed, physician performing surgery, anesthetic agent used, names of assistants (whether another physician, a nurse or specially trained technician), duration of procedure and any unusual problems or occurrences encountered, and surgeon's description of gross appearance of tissues removed.

(m) Physician's progress notes and discharge note. The physician's progress and discharge notes may be combined in the patient's clinical record.

(n) Summary of instructions given for followup observation and care as well as recording of all referrals for counseling, family planning or other medical conditions requiring further attention.

(o) Identification of the physician who actually discharges the patient.

(3) Medical records shall be available for survey and review of content at any time by authorized members of the department.

(4) Medical records shall be maintained as confidential documents with the following exceptions:

(a) Information required under these rules.

(b) Information required by law.

(c) Information authorized for disclosure by written release by the patient.

(5) A facility in which pregnancy terminations are performed shall maintain records of the procedures, and shall file reports and furnish statistical and such other information as may be required by the director. These shall be reported on forms provided by the director in accord with definitions and notification procedures as he may specify. They shall be signed in each instance by the physician performing the procedure. The report forms shall not require identification of the patient undergoing the procedure.

(6) Failure or refusal of a facility to file the notification of termination of pregnancy properly executed and personally signed by the responsible physician is sufficient cause for immediately beginning proceedings for revoking the license and closing the facility.

(7) Information submitted by a referral source shall become an integral part of the clinical record of the patient.

History: 1954 ACS 88, p. 54, Eff. Feb. 10, 1976.

R 325.3848 Medical records; storage.

Rule 48. Adequate space shall be provided for the storage of medical records so located as to assure their confidentiality and protect them from access by unauthorized persons. Additional work space in or adjacent to the medical records storage area shall be provided for the assembly, completion and review of medical records.

History: 1954 ACS 88, p. 55, Eff. Feb. 10, 1976.

R 325.3851 Pregnancy terminations.

Rule 51. If pregnancy terminations procedures are to be performed in the facility, the owner or governing body shall adopt and enforce written policies to govern the procedures. Policies shall include the restriction that only uncomplicated pregnancies of not over 14 weeks' duration may be performed in a facility unattached to or physically remote from a parent hospital. Duration is computed from the first day of the woman's last menstrual period or by other clinical evaluative methods documented in the record.

History: 1954 ACS 86, p. 55, Eff. Feb. 10, 1976.

R 325.3855 Plans and specifications.

Rule 55. (1) A floor plan of the facility with description of rooms showing size, door locations and fixed equipment shall be on file in the facility and at the department.

(2) Complete plans and specifications for new buildings, additions, major building changes and conversion of existing facilities for use as a facility shall be submitted to the department for review and approval.

(3) Plans and specifications meeting the requirements of the law and these rules shall be approved by the department and a permit for construction issued.

(4) Construction of new buildings, additions, major building changes, and conversion of existing structures for use as a facility shall not begin until the plans and specifications have been approved by the department and a permit for construction issued.

History: 1954 ACS 86, p. 56, Eff. Feb. 10, 1976.

R 325.3856 Exterior.

Rule 56. (1) The premises of a facility shall be maintained in a safe and sanitary condition and in a manner consistent with the public health and welfare.

(2) At least 1 entrance to a facility shall provide safe and easy access for the physically handicapped.

(3) Exterior ramps and steps shall have a handrail on both sides.

(4) Sufficient light for an exterior ramp or steps shall be provided for the safety of persons using the facility.

History: 1954 ACS 86, p. 56, Eff. Feb. 10, 1976.

R 325.3857 Interior construction.

Rule 57. (1) A building shall be of safe construction and shall be free from hazards to patients, personnel or visitors.

(2) Each area of a facility shall be provided with lighting adequate for the use to be made of the location and in accord with generally recognized lighting standards.

(3) Each area of a facility shall be provided with a type and amount of ventilation commensurate with its use, to minimize the occurrence of transmissible disease, control odors and contribute to the comfort of patients and personnel.

(4) Corridors, hallways, passageways, and doorways shall be kept free from obstruction at all times.

(5) Floors, walls, and ceilings shall be covered and finished in a manner that permit maintenance of a sanitary environment.

(6) Emergency electrical service shall be permanently installed to provide lighting in corridors, exits, procedure rooms, recovery rooms, congregate rooms, nurse stations, and other critical areas. In new construction or renovations, an

emergency generator with automatic transfer switch or an alternative source of immediate electrical power acceptable to the director shall be provided for lighting and operation of equipment necessary to patient care.

(7) Patient examination, procedure, and recovery rooms shall have a minimum door width of 3 feet.

History: 1954 ACS 86, p. 56, Eff. Feb. 10, 1976.

R 325.3858 Elevators.

Rule 58. An elevator shall be provided where patient care is provided at different floor levels. The cab size of the elevator shall be sufficient to accommodate a stretcher and attendant.

History: 1954 ACS 86, p. 56, Eff. Feb. 10, 1976.

R 325.3859 Public and personnel areas.

Rule 59. (1) Space shall be provided for adequate reception, waiting, interviewing, administrative, and business office functions.

(2) Space provided for admission, interviewing and consultation functions shall be so located as to provide privacy. This shall include adequate office space and furnishings for the social worker if one is employed by a facility and for counselors and outside agency workers, when indicated, to interview and advise patients in reasonable privacy.

(3) One or more rooms equipped with toilet and lavatory facilities shall be provided near the waiting and reception areas.

(4) Locker room space or other security resources shall be provided for employee's personal effects.

(5) In new construction or renovations, an approved type public drinking fountain shall be provided.

History: 1954 ACS 86, p. 56, Eff. Feb. 10, 1976.

R 325.3860 Communications.

Rule 60. Adequate telephone communication and a nurse call system shall be provided for patient and staff use appropriate for the size of a facility and scope of services rendered.

History: 1954 ACS 86, p. 57, Eff. Feb. 10, 1976.

R 325.3866 Clinical facilities.

Rule 66. (1) Examination rooms shall be provided adequate to meet the volume of work to be accomplished, and each room shall provide a minimum of 70 square feet of usable floor space. In new construction or renovations, 80 square feet of usable floor space shall be provided.

(2) An examining room shall have a handwash lavatory within the room, equipped with a gooseneck inlet and wrist, knee or foot controls.

(3) A change area shall be provided for patients and provision made for the safe storage of their personal effects.

(4) Operating or procedure rooms shall be provided adequate to meet the volume of work to be accomplished, and each room shall provide a minimum of 120 square feet of usable floor space. In new construction, 150 square feet of usable floor space shall be provided.

(5) Explosive anesthetic agents shall not be used in the rooms.

(6) A supply of oxygen with appropriate masks or other means of administration shall be available in each room.

(7) The room shall be designed to permit transfer of a patient from the table to a stretcher and to permit sufficient clearance on either side and at the foot of the table with necessary equipment and supplies in place.

(8) A nurse call signal shall be provided from the procedure and examining room to a central control station.

(9) A scrub sink with gooseneck outlet shall be available in or adjacent to the procedure rooms.

(10) Single use soap, scrub brushes and towels shall be utilized in patient care areas.

(11) The room shall contain a suitable operating table and other equipment necessary for the types of procedures to be accommodated.

(12) Space for and sterilization equipment shall be provided to process all medical supplies which require sterilization between uses. Equipment shall have sufficient capacity to accommodate the work load of the facility, and controls acceptable to the director shall be used to check effectiveness and assure sterilization.

History: 1954 ACS 86, p. 57, Eff. Feb. 10, 1976.

R 325.3867 Medication and storage areas.

Rule 67. (1) Medication work and storage areas shall be provided adequate to meet the volume of work to be accomplished.

(2) A shelf or desk shall be provided for the nurse's use in preparing and administering medications and recording of information in patients' records and shall be within and readily accessible to all patient care areas for which that nursing station has responsibility.

(3) A medication storage and preparation area equipped with a sink with a gooseneck inlet and hot and cold water and locked storage for medications shall be provided. This shall include adequate space for the safe storage of medications, fluids and electrolyte solutions in a safe and sanitary manner.

(4) Space shall be available for the storage of clean linens, equipment, supplies, wheelchairs and stretchers.

(5) A soiled utility room shall be available for temporary holding of waste materials and cleaning of items to be reused.

(6) A janitor's closet with service sink shall be available.

History: 1954 ACS 86, p. 57, Eff. Feb. 10, 1976.

R 325.3868 Patient observation and recovery areas.

Rule 68. (1) Patient observation and recovery areas shall be provided in sufficient numbers to accommodate the patient load with a planned minimum of a 3-hour recovery period and longer when necessary for individual patients. They shall be comfortably furnished and adequately equipped for the patient's safe postoperative observation and recovery.

(2) A facility shall provide at least 1 recovery room equipped for the use by and observation of patients requiring recumbent care post-surgically. A minimum of 1 hospital-type bed or wheeled recovery room stretcher shall be provided for each 10 post-surgical patients to be cared for at any one time.

(3) Single bed/stretcher recovery rooms shall provide a minimum of 100 square feet of usable floor space.

(4) Multiple bed/stretcher recovery rooms shall provide a minimum of 80 square feet of floor space per bed or stretcher.

(5) A recovery room shall be designed to provide a minimum of 3 feet between beds or stretchers and 4 feet of clearance at the foot of the bed or stretcher.

(6) Comfortably furnished congregate rooms equipped with either reclining or lounge type chairs or cots may be provided for the post-surgical observation of patients not needing bed or stretcher accommodations. Each congregate-type room shall provide a minimum of 50 square feet of usable floor space for each patient to be accommodated. A congregate room shall not contain accommodations for more than 12 patients.

(7) A toilet and lavatory shall be provided for each 6 recovery patients as a minimum. One or more bathing facilities are recommended.

(8) Corridors used for patient entry, egress and for surgical care areas in a facility shall have a minimum width of 6 feet.

History: 1954 ACS 86, p. 57, Eff. Feb. 10, 1976.

R 325.3869 Capacities.

Rule 69. The numerical capacity of a facility shall be determined by the number of observation and recovery units provided. The post-surgical occupancy of a facility shall not exceed the determined capacity.

History: 1954 ACS 86, p. 58, Eff. Feb. 10, 1976.

R 325.3871 Heating and electrical systems.

Rule 71. (1) A safe heating system shall be provided.

(2) A room used for patient care shall be maintained at a temperature of at least 70 degrees Fahrenheit with a maximum temperature of 78 degrees Fahrenheit as measured 3 feet above floor level.

(3) Duplex electrical outlets with a 3-wire system shall be provided in sufficient numbers to meet the needs of the areas served.

(4) Electrical equipment shall be maintained in good repair and properly grounded.

History: 1954 ACS 86, p. 58, Eff. Feb. 10, 1976.

R 325.3872 Water supply system.

Rule 72. (1) A facility located in an area served by a public water system shall connect to and use that system.

(2) When a public water system is not available, the location and construction of a well and the operation of a private water system shall comply with the department rules "Minimum Standards For The Location And Construction Of Certain Water Supplies," being R 325.1451 to R 325.1461 of the Michigan Administrative Code.

(3) There shall be no cross-connections between water systems that are safe for human consumption and those that are, or may become, unsafe for human consumption.

(4) Minimum water pressure available to each plumbing fixture shall exceed 20 pounds per square inch.

(5) The plumbing system shall supply an adequate amount of hot water at all times to meet the needs of each patient and the functioning of the various service areas.

(6) Hot water temperatures at fixture outlets shall be regulated to provide tempered water in range of 110 to 125 degrees Fahrenheit.

History: 1954 ACS 86, p. 58, Eff. Feb. 10, 1976.

R 325.3873 Liquid wastes.

Rule 73. (1) Liquid wastes shall be discharged into a public sanitary sewage *system when such a system is* available.

(2) When a public sanitary sewage system is not available and a private liquid waste disposal system is used, the type, size, construction and alteration of, or major repairs to, the system shall be approved by the department.

(3) The liquid waste disposal system shall be maintained in a sanitary manner.

History: 1954 ACS 86, p. 58, Eff. Feb. 10, 1976.

R 325.3874 Solid wastes.

Rule 74. (1) The collection, storage, and disposal of solid wastes, including garbage, refuse, and dressings, shall be accomplished in a safe and sanitary manner to minimize the danger of disease transmission and avoid creating a public nuisance or a breeding place for insects and rodents.

(2) Suitable containers for garbage, refuse, dressings, and other solid wastes shall be provided, emptied at frequent intervals, and maintained in a clean and sanitary condition.

(3) Dressings, bandages, and similar materials shall be disposed of in an incinerator provided with auxiliary fuel or in some other manner approved by the director.

(4) A facility shall have and enforce a written policy to govern storage, transportation and disposal of surgical specimens. Surgical specimens not sent to a pathology laboratory shall be disposed of in a medically acceptable manner.

History: 1954 ACS 86, p. 58, Eff. Feb. 10, 1976.

R 325.3877 Miscellaneous storage.

Rule 77. (1) Hazardous and toxic materials shall be stored in a safe manner.

(2) A central general storage room shall be provided with space necessary to meet storage needs of the facility.

History: 1954 ACS 86, p. 59, Eff. Feb. 10, 1976.

HEALTH FACILITY CERTIFICATES OF NEED

R 325.3901—R 325.3946 Expired.

History: 1954 ACS 84, p. 36, Eff. Aug. 13, 1975.
Editor's note: The above rules expired December 31, 1976, pursuant to R 325.3946.

OFFICE OF SUBSTANCE ABUSE SERVICES

SUBSTANCE ABUSE SERVICES PROGRAMS

(By authority conferred on the office of substance abuse services by section 10 of Act No. 56 of the Public Acts of 1973, being §325.720 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 325.4001 Definitions; A to C.

Rule 1. (1) The terms defined in the act have the same meaning when used in these rules.

(2) "Act" means Act No. 56 of the Public Acts of 1973, being §§325.711 to 325.735 of the Michigan Compiled Laws.

(3) "Admission" means the formal act of initiating services to an individual, groups of individuals or a legally constituted public or private entity as a recipient of substance abuse *services.*

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(4) "Applicant" means a substance abuse treatment, rehabilitation, or prevention entity applying for a license or renewal thereof.

(5) "Casefinding" means those activities that are primarily involved with the detection and identification of substance abusers.

(6) "Certified social worker" means a person who has been ascribed the rights, duties, privileges, and title of certified social worker in accordance with Act No. 352 of the Public Acts of 1972, being §§338.1752 to 338.1766 of the Michigan Compiled Laws.

(7) "Client" means an individual including, but not limited to, an inpatient, outpatient or resident; groups of individuals; or a legally constituted public or private entity receiving substance abuse services.

(8) "Controlled substance" means a substance which is controlled as designated by Act No. 196 of the Public Acts of 1971, as amended, being §§335.301 to 335.367 of the Michigan Compiled Laws.

(9) "Correctional institutions" means those criminal justice detention facilities operated by state, county, or local governments.

(10) "Counselor" means a person who provides counseling services as defined in the act.

(11) "Crisis intervention" means the provision of short-term emergency counseling or referral service to a substance abuser or persons concerned with the well-being of a substance abuser, including, but not limited to, emergency telephone services.

History: 1954 ACS 80, p. 15, Eff. July 10, 1974.

R 325.4002 Definitions; D to I.

Rule 2. (1) "Detoxification" means the systematic and orderly withdrawal of a person from an addictive substance.

(2) "Emergency telephone services" means a substance abuse service program providing information by telephone about substances and substance abuse treatment, rehabilitation and prevention services, and emergency treatment services.

(3) "Facility" means the building or building space in which a substance abuse program is located.

(4) "Foster care" means the provision of supervision, assistance, protection, or personal care in a residential setting.

(5) "Inpatient" means a person assigned a bed and being provided with treatment for the abuse of substances in a medical or psychiatric facility that is licensed in accordance with standards for hospitals or a person assigned a bed in a state hospital operated by the department of mental health.

(6) "Intake" means the recording of a client's admission into a substance abuse program.

History: 1954 ACS 80, p. 16, Eff. July 10, 1974.

R 325.4003 Definitions; L to O.

Rule 3. (1) "License" means an authorization under the act for a program to perform substance abuse services.

(2) "Licensee" means a program licensed by the office.

(3) "Methadone maintenance" means the scheduled administration of methadone in accordance with federal or state rules or regulations.

(4) "Nurse" means a person who is a registered nurse or licensed practical nurse *in accordance with* Act No. 149 of the Public Acts of 1967, as amended, being *§§338.1151 to 338.1175 of the* Michigan Compiled Laws.

(5) "Outpatient" means a person receiving services as a substance abuser who is seen systematically and periodically in a therapeutic setting but is not assigned a bed in the facility where the service is being provided.

History: 1954 ACS 80, p. 16, Eff. July 10, 1974.

R 325.4004 Definitions; P.

Rule 4. (1) "Physician" means a person licensed to practice in accordance with Act No. 185 of the Public Acts of 1973, being §§338.1801 to 338.1818 of the Michigan Compiled Laws or Act No. 162 of the Public Acts of 1903, as amended, being §§338.101 to 338.109 of the Michigan Compiled Laws.

(2) "Prescription drug" means a drug prescribed by a physician in accordance with the existing state laws.

(3) "Program" means a service providing prevention, care, treatment, counseling, rehabilitation or aftercare to substance abusers or substance dependent individuals and others offered by an individual, public or private agency, corporation, partnership, society, or association through name, advertisement, practice, or reputation.

(4) "Program director" means the staff person who is described in the program's personnel manual as having responsibility for the operations of the program for each site location.

(5) "Psychiatrist" means a person who is a licensed physician in this state and has spent 3 years in a psychiatric residency recognized by the American board of psychiatry and is board eligible.

(6) "Psychologist" means a person who is licensed in this state in accordance with Act No. 257 of the Public Acts of 1959, as amended, being §§338.1001 to 338.1019 of the Michigan Compiled Laws.

(7) "Public subscription funds" means solicited funds, except when they are received as donations from an unincorporated internal membership. Public subscription funds do not include patient fees, third-party payments, or public funds.

History: 1954 ACS 80, p. 16, Eff. July 10, 1974.

R 325.4005 Definitions; R, S.

Rule 5. (1) "Resident" means a person occupying a bed in a live-in facility for the treatment of substance abusers.

(2) "Residential program" means a program in a live-in facility, staffed by trained personnel and offering treatment to substance abusers.

(3) "Special projects" means those programs of limited scope and duration which are research oriented or demonstrational in nature and are not licensable under parts 3, 4, 5, 6, and 8 of these rules.

(4) "Staff" includes paid and volunteer workers with regularly scheduled work hours who are covered under the program's personnel policies and procedures.

History: 1954 ACS 80, p. 17, Eff. July 10, 1974.

R 325.4006 Definitions; T to V.

Rule 6. (1) "Target population" means those individuals toward whom the services of a program are directed.

(2) "Trained" means having completed training as prescribed by the office or in the judgment of the office having training commensurate with that prescribed by the office.

(3) "Training" means an on-going educational process of communicating information and improving functional skills and standards of performance.

(4) "Treatment" means the provision of substance abuse services to persons including, but not limited to, inpatient, outpatient, residential, and prevention services in an effort to rehabilitate the persons.

(5) "Volunteer" means a person who offers or gives services to a substance abuse services program without receiving monetary remuneration.

History: 1954 ACS 80, p. 17, Eff. July 10, 1974.

R 325.4007 Licensing and services.

Rule 7. A single license will be issued for each qualifying substance abuse services program. The license will delineate 1 or more categories of services the program is authorized to provide. The categories of services for which licenses will be issued are:

(a) Inpatient services.
(b) Outpatient services.
(c) Residential care services.
(d) Prevention services.
(e) Special projects.
(f) Correctional institutions program services.

History: 1954 ACS 80, p. 17, Eff. July 10, 1974.

R 325.4008 License exemptions.

Rule 8. (1) Alcoholics anonymous and narcotics anonymous as they are presently constructed, being fellowships that do not receive or request public funds, patient fees or third-party payments, or receive or request funds through public subscription for the treatment-rehabilitation or prevention of substance abuse are not subject to licensing under the act. Other similar programs may be exempted by the administrator, after notice to the commission and after consideration of the commission's advice.

(2) A single county or multi-county coordinating agency, designated by the administrator under the act, shall not be licensed under these rules and shall not provide direct services to clients.

History: 1954 ACS 80, p. 17, Eff. July 10, 1974.

R 325.4009 Types of licenses; nonassignability.

Rule 9. (1) Three types of licenses may be issued by the administrator.

(2) A standard renewable license may be issued for 1 year after the administrator has determined the applicant is in compliance with these rules.

(3) A provisional license may be issued for a total of not more than 1 year to an applicant who is determined by the administrator to be temporarily unable to comply with these rules. A provisional license may not be renewed or extended more than once.

(4) A temporary permit may be issued for 3 months when the administrator determines that additional time is needed to make proper investigation or to undertake remedial action. A temporary permit is not renewable.

(5) When a program is discontinued, the current license is void immediately and shall be returned to the office. A license is not transferable.

History: 1954 ACS 80, p. 17, Eff. July 10, 1974.

R 325.4010 Applications.

Rule 10. An applicant for a license shall submit at least the following information on forms provided by the office:

(a) The name and address of the substance abuse service program.

Digitized by Google

(b) The names and addresses of the director and the fiscal officer of the substance abuse service program.

(c) The names and addresses of the members of the board of directors, sponsors and advisory boards of the substance abuse service program.

(d) The names and addresses of all physicians, other professionally trained personnel, medical facilities and other individuals or programs with whom the substance abuse service program has a direct referral agreement or is otherwise affiliated if such referral agreements or other affiliations exist.

(e) A description of the nature of services employed by the substance abuse program setting forth the program goals and objectives, a description of the methodology and a description of the staff organization and its qualifications in light of these goals, objectives and methodology.

(f) The source of present and projected funds used to finance the program, and the approximate annual budget of the program.

(g) Proof that the applicant meets applicable zoning standards.

History: 1954 ACS 80, p. 18, Eff. July 10, 1974.

R 325.4011 Review.

Rule 11. (1) The office shall develop a review process through which applications for licensing may be evaluated. The review process may include, but is not limited to, review and comments of programs by coordinating agencies, program self-review and on-site inspections.

(2) The applicant shall be notified of approval or denial of a license or a request for additional information within 45 calendar days after receipt of the application by the office.

(3) An application for renewal shall be made on forms provided by the office at least 60 calendar days before the expiration of the current license.

History: 1954 ACS 80, p. 18, Eff. July 10, 1974.

R 325.4012 Denial of applications.

Rule 12. (1) When the administrator, under supervision of the director, determines that an applicant's request for licensing should be denied, he shall notify the applicant, by certified mail, return receipt requested, that the office intends to deny the application.

(2) The notice of intention to deny licensing shall contain a statement explaining the reasons for the denial and a statement that the denial of the application shall become final unless, within 30 days, the applicant submits to the administrator written objections stating why the denial should not become final. If objections to the intended denial are submitted to the administrator, a full opportunity for adjustment, compromise and settling of all issues shall be provided.

(3) If a settlement of the issues in contention cannot be made or if objections to the notice of intention to deny are not submitted, or if for any other reason an application is denied, the applicant may request a hearing within 15 days after the denial becomes final, which request shall be granted.

History: 1954 ACS 80, p. 18, Eff. July 10, 1974.

R 325.4013 Suspension and revocation of licenses.

Rule 13. (1) The administrator, under supervision of the director, may suspend or revoke a license for any of the following reasons:

(a) Violation by the program, its directors or staff, of any rule promulgated by the office pertaining to substance abuse programs.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(b) Permitting, aiding or abetting the commission of an unlawful act within the facilities maintained by the program, or permitting, aiding or abetting the commission of an unlawful act using drugs provided by the program.

(c) Conduct or practices found by the administrator to be detrimental to the welfare of a participant in the program.

(d) Deviation by the program from the plan of operation originally licensed which, in the judgment of the administrator, adversely affects the character, quality or scope of services intended to be provided to substance abusers under the care of the program.

(2) When the administrator, under supervision of the director, determines that a licensed program may have committed an act, or may have engaged in conduct or practices justifying suspension or revocation of license, the administrator shall notify the program by certified mail, return receipt requested, of his intent to suspend or revoke the license.

(3) If the suspension or revocation is protested within 30 days after receipt of the notice, the administrator or his designee shall conduct a hearing determining the issue of suspension or revocation of the license. Notice of the hearing shall be mailed at least 10 days before the date of the hearing. The notice shall state the matters of law and fact to be determined at the hearing, and the date, time and place of the hearing.

(4) Pursuant to section 92 of Act No. 306 of the Public Acts of 1969, if the administrator, under the supervision of the director, finds that the public health, safety or welfare requires emergency action and incorporates this finding in the order, summary suspension of a license may be ordered effective on the date specified in the order or on service of a certified copy of the order on the licensee, whichever is later, and effective during the proceedings.

(5) A hearing to determine issues relating to the denial, suspension or revocation of a license shall conform to the administrative procedures act of 1969, being Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws.

(6) Upon proper application, a court of competent jurisdiction shall hold unlawful and set aside a decision of the administrator if substantial rights of the program have been prejudiced because the decision or order is:

(a) In violation of the constitution or statute.

(b) In excess of the statutory authority or jurisdiction of the agency.

(c) Made upon unlawful procedure resulting in material prejudice to a party.

(d) Not supported by competent, material and substantial evidence on the whole record.

(e) Arbitrary, capricious or clearly an abuse or unwarranted exercise of discretion.

(f) Affected by other substantial and material error of law.

History: 1954 ACS 80, p. 18, Eff. July 10, 1974.

R 325.4014 Confidentiality.

Rule 14. A client's records shall be kept confidential and shall be handled in compliance with section 18 of the act and of other applicable federal and state statutes and rules, including the requirements of part 2 of the Code of Federal Regulations (C.F.R.) published in the Federal Register, Volume 40, Number 127, Part IV, on July 1, 1975. Copies are available at a cost of 75 cents from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, or from the Licensing Division, Office of Substance Abuse Services,

R 325.4015 Funding.

Rule 15. The issuance of a license for a program is not a commitment by the office for funding.

History: 1954 ACS 80, p. 19, Eff. July 10, 1974.

R 325.4016 Monitoring.

Rule 16. (1) A designated agent or employee of the office, after proper identification, may have access to the premises of a facility at any reasonable time to determine the state of compliance of a program conducted therein with the act and these rules. This shall include the right to inspect records to assess the quality of services being provided to clients. The right of entry and inspection extends to any premises wherein the office has reason to believe a program in violation of section 16 of the act is being conducted.

(2) To insure client confidentiality, records inspected by a designated agent or employee of the office shall be handled in compliance with section 18 of the act and other applicable federal and state statutes and rules.

History: 1954 ACS 80, p. 19, Eff. July 10, 1974.

R 325.4017 Evaluation.

Rule 17. A program shall provide information in a form required by the office to facilitate its compliance with the requirement in the act that it conduct program evaluations.

R 325.4018 Waivers.

Rule 18. After notice to the commission and after consideration of the commission's advice, the administrator, under supervision of the director, may waive any rule promulgated by the office under the act.

History: 1954 ACS 80, p. 20, Eff. July 10, 1974.

R 325.4019 Rescission.

Rule 19. The rules of the Michigan state board of alcoholism, being R 436.901 to R 436.906 of the Michigan Administrative Code and appearing on pages 130 to 132 of the 1955 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 80, p. 20, Eff. July 10, 1974.

PART 2. RULES FOR ALL PROGRAMS

R 325.4021 Program management.

Rule 21. (1) One individual shall be identified as having primary responsibility for overall program operation. One individual shall also be identified as having primary fiscal responsibility for the program. These individuals may be the same person.

(2) A program shall have a formally designated board of directors or advisory group. A record of this group including names, addresses, occupations, places of employment and relationship to any staff member of the program shall be maintained by the program director. A written set of bylaws which specifies, at a minimum, the method of selection or appointment, the size of the membership,

the length of members' terms and the frequency of meetings shall also be maintained. Minutes of meetings shall be kept and available for inspection. A board of directors or advisory group shall be representative of the community being served.

History: 1954 ACS 80, p. 20, Eff. July 10, 1974.

R 325.4022 Records, reports, and procedures manual.

Rule 22. (1) A program shall maintain financial, client and personnel records in a systematic fashion. The records shall be safeguarded from access by unauthorized persons.

(2) A program shall furnish to the office required regular reports and special reports as are required from time to time.

(3) A program shall develop and maintain a manual of its operating procedures. The procedures shall be sufficiently clear to be easily understood and provide sufficient detail to accurately reflect program activity. Revisions shall be entered with the date and the name of the person making the entries.

History: 1954 ACS 80, p. 20, Eff. July 10, 1974.

R 325.4023 Personnel policies and training.

Rule 23. (1) A program shall develop and maintain an up-to-date manual of personnel policies.

(2) Substance abuse service programs shall establish policies for handling staff members suspected of having substance abuse problems. The policies shall be published in the personnel policy manual and shall be made available and discussed thoroughly with the staff members.

(3) The policies may require urinalyses of staff members suspected of having substance abuse problems.

(4) If there are different personnel policies for former substance abusers than those applied to other staff members, the policies shall be included in the program personnel policies manual.

(5) A program may use volunteers, when appropriate. The volunteers shall operate under the supervision of the program director or designee.

(6) A program shall develop and conduct inservice training for staff members. Records of the conduct of the training and attendance shall be maintained. All program staff members shall avail themselves of the training provided through the office, in accordance with guidelines established by the office. Training opportunities available through the office shall be published and made available to all substance abuse program staff members.

History: 1954 ACS 80, p. 20, Eff. July 10, 1974.

R 325.4024 Relationships with agencies.

Rule 24. (1) A program shall designate 1 or more staff members to act as liaison with the single county or multi-county coordinating agency established or designated for that program by the administrator. The program shall provide and collect the information and file the reports as the designated coordinating agency requires in order to comply with the act.

(2) A program, to the extent feasible, shall develop formal and informal working relationships with the public or private organizations which can assist in carrying out the program. The relationship may involve sources of referral to the program or service resources from it.

R 325.4025 Community notification.

Rule 25. An applicant for an initial license shall notify churches, schools, and incorporated nonprofit civic organizations within its defined service areas of its intention to provide such services and shall provide to the appropriate single county or multi-county coordinating agency evidence that the notification was given.

History: 1954 ACS 80, p. 21, Eff. July 10, 1974.

R 325.4026 Referrals.

Rule 26. A program shall develop an appropriate system of referral, including, but not limited to, a current listing of all agencies, organizations, and individuals to whom referrals may be made, and a brief description of the range of service available from each of these referral resources. A record of all referrals made to or received from other service resources shall be maintained. Agencies from whom referrals are received shall be notified at intake of a client referred by them, providing that the client has given written consent.

History: 1954 ACS 80, p. 21, Eff. July 10, 1974.

R 325.4027 Internal evaluation.

Rule 27. (1) A program shall develop and implement a plan for ongoing internal evaluation of the effectiveness of its program. The plan is subject to review by the office.

(2) In accordance with the act, technical assistance shall be made available through the office and the designated coordinating agency to develop evaluation procedures.

History: 1954 ACS 80, p. 21, Eff. July 10, 1974.

R 325.4028 Substance use.

Rule 28. The unlawful, illicit or unauthorized use of substances of abuse on or within the facility of a program is prohibited.

History: 1954 ACS 80, p. 21, Eff. July 10, 1974.

PART 3. INPATIENT PROGRAMS

R 325.4031 Facilities; hours.

Rule 31. (1) A facility providing inpatient substance abuse treatment services, not operated by the state department of mental health, shall conform to the rules of state minimum standards for hospitals promulgated by the department. These rules, being R 325.1021 to R 325.1026 and R 325.1027 of the Michigan Administrative Code, specify space and furnishings requirements which relate to patients' safety and comfort.

(2) The facility shall also comply with other appropriate federal, state and local acts, ordinances and rules, and amendments thereto.

(3) Hours of operation shall be during periods which make these services reasonably accessible to patients.

History: 1954 ACS 80, p. 21, Eff. July 10, 1974.

R 325.4032 Program staffing.

Rule 32. (1) An inpatient substance abuse treatment program shall conform to rules of state minimum standards for hospital programs, promulgated by the department. This rule, being R 325.1027 of the Michigan Administrative Code, covers hospital staffing requirements.

(2) An inpatient program shall have a physician as a medical director.

(3) For purposes of these rules, "full-time" means 40 hours of service per week, 52 weeks per year.

(4) The equivalent of 1 or more full-time trained counselors shall be available for approximately every 10 clients.

History: 1954 ACS 80, p. 21, Eff. July 10, 1974.

R 325.4033 Admission policies and procedures.

Rule 33. (1) A program shall develop program admission criteria which are subject to review by the office.

(2) A trained counselor shall interview each newly admitted or readmitted patient. The intake staff shall have a complete personal history on each client, including: name, address, family, education, occupation, legal and court related areas; substance abuse history, including: kind of substances abused, when begun, prior treatment attempts and other relevant information. Treatment plans shall be developed for each patient and shall be reviewed and evaluated periodically by trained treatment personnel. Evidence of these reviews shall be recorded in each patient's record. A written treatment plan shall be developed and include:

(a) A statement of short- and long-term goals for treatment.

(b) A delineation of the type and frequency of counseling services to be provided.

(c) A delineation of the supportive services needed by the patient.

(3) Each newly admitted or readmitted patient shall have a physical examination.

History: 1954 ACS 80, p. 21, Eff. July 10, 1974.

R 325.4034 Patient care.

Rule 34. An inpatient substance abuse treatment program shall conform to rules of state minimum standards for hospital programs, promulgated by the department. This rule, being R 325.1027 of the Michigan Administrative Code, specifies the personal care which patients shall receive.

History: 1954 ACS 80, p. 22, Eff. July 10, 1974.

R 325.4035 Drug treatment.

Rule 35. (1) Programs employing modalities which utilize controlled substances, for which there are no federal or state rules specific to their use in treatment programs, or when utilizing other prescription drugs, shall comply with all federal and state rules and amendments thereto. These programs shall include the following services: complete medical history, physical examination and the necessary laboratory examination performed by qualified personnel.

(2) Programs employing modalities which utilize controlled substances, for which there are federal or state rules specific to their use in treatment programs shall comply with those rules and all amendments thereto.

History: 1954 ACS 80, p. 22, Eff. July 10, 1974.

R 325.4036 Professional services.

Rule 36. The services of a psychiatrist, psychologist, or certified social worker *shall be* available to the program.

R 325.4037 Client activities.

Rule 37. Ten hours or more per week of scheduled activities shall be available to a client. Included in these activities shall be 2 hours or more of formalized individual, group or family counseling, which shall be conducted under the supervision of trained personnel.

History: 1954 ACS 80, p. 22, Eff. July 10, 1974.

R 325.4038 Support and rehabilitative services.

Rule 38. At least the following support and rehabilitative services shall be available to all clients either internally or through the referral process:

(a) Education.
(b) Vocational counseling and training.
(c) Job development and placement.
(d) Financial counseling.
(e) Legal counseling.
(f) Spiritual counseling.

History: 1954 ACS 80, p. 22, Eff. July 10, 1974.

PART 4. RESIDENTIAL PROGRAMS

R 325.4041 Facilities; hours.

Rule 41. (1) A residential substance abuse treatment facility shall comply with applicable federal, state, and local acts, ordinances, and rules and amendments thereto.

(2) A residential substance abuse treatment program shall operate 24 hours per day, 7 days per week.

History: 1954 ACS 80, p. 22, Eff. July 10, 1974.

R 325.4042 Program staffing.

Rule 42. (1) During hours of operation the program shall have trained staff members in attendance.

(2) For purposes of these rules, "full-time" means 40 hours of service per week, 52 weeks per year.

(3) The equivalent of 1 or more full-time trained counselors shall be available for approximately 10 clients.

History: 1954 ACS 80, p. 22, Eff. July 10, 1974.

R 325.4043 Intake procedures.

Rule 43. (1) A trained counselor shall interview each newly admitted or readmitted client. The intake staff shall have a complete personal history for each client, including name, address, family, education, occupation, legal and court related areas; substance abuse history including kinds of substances abused, when begun, prior treatment attempts and any other relevant information. A specific treatment plan shall be developed for each client. An individual treatment plan shall be reviewed by trained treatment personnel at least every 90 days. Evidence of the reviews shall be recorded in the client's record. A written treatment plan shall be developed and shall include:

(a) A statement of short- and long-term goals for treatment.

(b) A delineation of the types and frequency of counseling services to be provided.

(c) A delineation of the supportive services needed by the client.

(2) As a criteria for admission, a newly admitted or readmitted client shall have a physical examination performed by a physician within a reasonable period of

time. Evidence of such examination and information relevant to the client's health status shall be included in the client's records.

History: 1954 ACS 80, p. 23, Eff. July 10, 1974.

R 325.4044 Drug treatment.

Rule 44. (1) Programs employing modalities which utilize controlled substances, for which there are no federal or state rules specific to their use in treatment programs, or when utilizing other prescription drugs, shall comply with all federal and state rules and amendments thereto. These programs shall include the following services: complete medical history, physical examination and the necessary laboratory examination performed by qualified personnel.

(2) There shall be the equivalent of 1 full-time physician available for every 300 clients to render the medical services described herein. Programs treating less than 300 clients shall adjust their physician-client ratio so that it approximates that of a program treating 300 clients.

(3) There shall be the equivalent of 2 full-time nurses available for every 300 clients for the administration of medication and render other appropriate nursing services. Programs treating less than 300 clients shall adjust their nurse-client ratio so that it approximates that of a program treating 300 clients.

(4) Programs employing modalities which utilize controlled substances, for which there are federal or state rules specific to their use in treatment programs shall comply with those rules and all amendments thereto.

History: 1954 ACS 80, p. 23, Eff. July 10, 1974.

R 325.4045 Urinalysis.

Rule 45. (1) Urine specimens from each client may be collected, under appropriate supervision, on a randomly scheduled basis, at least once a week, and analyzed for morphine, methadone, cocaine, codeine, amphetamines, barbiturates, and other substances if indicated.

(2) A laboratory used for urine testing and analysis shall comply with all federal and state proficiency testing programs.

(3) Programs requiring urinalysis shall develop policies concerning measures to be employed when urine specimens of clients are found to contain substances listed in subrule (1). These policies shall be subject to review by the office.

History: 1954 ACS 80, p. 23, Eff. July 10, 1974.

R 325.4046 Professional services.

Rule 46. (1) An agreement shall exist between a licensee and 1 or more licensed medical service facilities, for the provision of emergency, inpatient and ambulatory medical services as appropriate. If such a facility does not exist within 40 miles of the licensee's facility, an agreement shall exist between the licensee and a physician to provide emergency services.

(2) An agreement shall exist between the licensee and at least 1 physician to provide medical services described herein.

(3) An agreement shall exist between the licensee and at least 1 psychiatrist, psychologist, certified social worker, or licensed mental health facility for purposes of reviewing cases, referral, and client management.

History: 1954 ACS 80, p. 23, Eff. July 10, 1974.

R 325.4047 Client activities.

Rule 47. (1) Initially, 10 hours or more per week of scheduled activities shall *be available to a client.* Included in these activities shall be 2 hours or more of

formalized individual, group or family counseling, which shall be conducted under supervision of trained personnel.

(2) The client's response to scheduled activities and the reason for reducing counseling hours shall be documented in the client's records and the number of hours adjusted as needed.

History: 1954 ACS 80, p. 24, Eff. July 10, 1974.

R 325.4048 Support and rehabilitative services.

Rule 48. (1) At least the following support and rehabilitative services shall be available to all clients either internally or through a referral process:

(a) Education.
(b) Vocational counseling and training.
(c) Job development and placement.
(d) Financial counseling.
(e) Legal counseling.
(f) Spiritual counseling.

(2) As soon as appropriate, but not later than 180 days after the date of admission, a client shall be enrolled in an education or job training program or be gainfully employed. Noncompliance with this rule shall be reported and explained in the client's progress notes and is subject to review by the office.

History: 1954 ACS 80, p. 24, Eff. July 10, 1974.

PART 5. OUTPATIENT PROGRAMS

R 325.4051 Facilities; hours.

Rule 51. (1) An outpatient substance abuse treatment facility shall be maintained and adequately furnished in a clean and safe condition in compliance with appropriate federal, state, and local codes and other laws, and amendments thereto.

(2) Hours of operation should be during periods which make these services reasonably accessible to clients.

(3) When the program does not operate, the program's hours of operation shall be displayed conspicuously so as to communicate those hours to the general public.

History: 1954 ACS 80, p. 24, Eff. July 10, 1974.

R 325.4052 Program staffing.

Rule 52. (1) For purposes of these rules, "full-time" means 40 hours of service per week, 52 weeks per year.

(2) The equivalent of 1 or more full-time trained counselors shall be available for approximately 40 clients.

History: 1954 ACS 80, p. 25, Eff. July 10, 1974.

PART 6. PREVENTION SERVICES

R 325.4061 Facilities; hours.

Rule 61. (1) A prevention services substance abuse facility shall be maintained and adequately furnished in a clean and safe condition in compliance with applicable federal, state and local acts, ordinances and rules.

(2) A prevention services program shall operate during hours which make its services reasonably accessible to its target population.

(3) When the program does not operate, the program's hours of operation shall be displayed conspicuously so as to be communicated to the general public.

(4) Emergency telephone services shall function 24 hours per day, 7 days per week. When staff members are not present, arrangements shall be made for telephone recordings or answering services to provide clients with information concerning alternate community resources that might be utilized.

History: 1954 ACS 80, p. 25, Eff. July 10, 1974.

R 325.4062 Program staffing.

Rule 62. A prevention services program shall be staffed appropriately to meet the needs of the clients as determined by the program director and stated in the policies procedures manual.

History: 1954 ACS 80, p. 26, Eff. July 10, 1974.

R 325.4063 Intake procedures.

Rule 63. A prevention services program shall develop intake procedures appropriate to its methods of operation. These procedures are subject to review by the office.

History: 1954 ACS 80, p. 26, Eff. July 10, 1974.

R 325.4064 Services.

Rule 64. The following services are among those which may be provided by a prevention services program:

(a) Public information and education.

(b) Emergency counseling and referral.

(c) Case finding.

History: 1954 ACS 80, p. 26, Eff. July 10, 1974.

R 325.4065 Public information and education.

Rule 65. A prevention services program staff shall familiarize itself with the public information and education services and materials provided by the office, shall avail itself of such services when appropriate, and shall keep its clients informed of the availability of these services and materials.

History: 1954 ACS 80, p. 26, Eff. July 10, 1974.

R 325.4066 Crisis intervention staff.

Rule 66. (1) Trained staff members shall supervise operations of a crisis intervention program.

(2) Telephone workers and other staff members shall attain skills in talking down bad trips and develop expertise in referrals procedures.

(3) Technical facts about substance use and abuse, legal aspects of substance use and abuse, and available community substance abuse treatment- rehabilitation resources shall be the minimum knowledge requirement for all staff members.

(4) Crisis intervention staff members shall also avail themselves of professional consultation with psychiatrists or psychologists to increase staff working skills with their clients.

History: 1954 ACS 80, p. 26, Eff. July 10, 1974.

R 325.4067 Casefinding services.

Rule 67. Casefinding programs such as alcohol highway safety projects and court related educational programs shall be concerned with detection of potential or existing substance abusers and in making appropriate referrals.

History: 1954 ACS 80, p. 26, Eff. July 10, 1974.

PART 7. SPECIAL PROJECTS

R 325.4071 Special research and demonstration programs.

Rule 71. The administrator, under supervision of the director, may issue a license for special research or demonstration programs which offer significant potential benefits to substance abusing and substance dependent persons.

History: 1954 ACS 80, p. 26, Eff. July 10, 1974.

PART 8. CORRECTIONAL INSTITUTIONS PROGRAMS

R 325.4081 Licensing.

Rule 81. (1) Substance abuse services programs operating within department of corrections facilities, county and city jails and other detention facilities shall be licensed under the act.

(2) The license shall specify the services provided to clients for which the license is issued.

History: 1954 ACS 80, p. 26, Eff. July 10, 1974.

Programs treating less than 300 clients shall adjust their nurse-client ratio so that it approximates that of a program treating 300 clients.

(4) Programs employing modalities which utilize controlled substances, for which there are federal or state rules specific to their use in treatment programs shall comply with those rules and all amendments thereto.

History: 1954 ACS 80, p. 27, Eff. July 10, 1974.

R 325.4083 Professional services.

Rule 83. (1) The health care of a client shall be under the supervision of a physician. Each client shall have a physical examination performed by a physician.

(2) An agreement shall exist between the licensee and at least 1 psychiatrist, psychologist, certified social worker, or licensed mental health facility for purposes of reviewing cases, referral and client management.

History: 1954 ACS 80, p. 27, Eff. July 10, 1974.

R 325.4084 Client activities.

Rule 84. Five hours or more per week of scheduled activities shall be available to a client which shall include individual, group, or family counseling, conducted under the supervision of trained personnel.

History: 1954 ACS 80, p. 27, Eff. July 10, 1974.

PROGRAM MATCH REQUIREMENTS

(By authority conferred on the office of substance abuse services by section 5 of Act No. 56 of the Public Acts of 1973, being §325.715 of the Michigan Compiled Laws)

R 325.4151 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 56 of the Public Acts of 1973, as amended, being §325.711 et seq. of the Michigan Compiled Laws.

(b) "Cash contribution" means the local cash outlay reflected in the program budget submitted to the office by a coordinating agency and subsequently supported by expenditure reports and records.

(c) "Federal funds" means federal monies received by the local agency directly from the federal government.

(d) "Fees and collections" means funds derived from the sale of products, supplies, services, and related income items, including payments received from patients or third parties. All such fees and collections shall be treated as the first source of program funding.

(e) "Third party or patient reimbursements and payments" means payments received from patients or third parties, such as private insurance, medicaid, medicare, or other applicable titles of the social security act, directly related to the cost of providing patient care or services.

(f) "In-kind contributions" means the value of authorized non-cash contributions justified by the coordinating agency and approved by the Michigan department of public health under R 325.4152.

(g) "Office" means office of substance abuse services.

(h) "Program budget" means the total financial plan, including both state and non-state shares, submitted for approval to the office by a coordinating agency, to carry out the purposes of the program plan.

(2) The terms used in the act have the same meanings when used in these rules.

History: 1954 ACS 91, p. 36, Eff. Apr. 1, 1977.

R 325.4152 Allowable match.

Rule 2. (1) The allowable match may consist of:

(a) Cash contributions.

(b) Fees and collections as defined under R 325.4151.

(c) In-kind contributions limited to facility and equipment use charges and other authorized noncash contributions which are a direct benefit to the program and approved by the Michigan department of public health.

(2) The type and basis for determining the value of in-kind contributions shall be documented by the coordinating agency and approved by the Michigan department of public health. All approved in-kind contributions charged to the program shall directly benefit the program, be documented in the records of the coordinating agency, and be appropriately reported as prescribed by the Michigan department of public health.

(3) Local funds already used as match for some other state or federal program may not be used as match.

(4) State reimbursements shall be limited to costs in excess of all allowable local matching funds, subject to the availability of funds and in accordance with the terms of the agreement between the Michigan department of public health and the coordinating agency.

History: 1954 ACS 91, p. 37, Eff. Apr. 1, 1977.

R 325.4153 Coordinating agency program budget match requirements.

Rule 3. Except as otherwise provided in these rules, a coordinating agency program budget approved by the office shall contain a local match of at least 10% of the program budget, excluding direct federal and other state funds. If the total budget is modified during the project period, the local match shall be maintained at a level of at least 10% of the total, excluding direct federal and other state funds.

History: 1954 ACS 91, p. 37, Eff. Apr. 1, 1977.

R 325.4154 Transition procedures.

Rule 4. In order to provide for an orderly and equitable transition to the match requirements set forth in these rules, the following procedures shall apply:

(a) The base year shall be the 1975/76 state fiscal year.

(b) For the base year, a percentage shall be calculated for each coordinating agency's approved program, which shall be that percentage of total approved expenditures, excluding direct federal and other state funds, reported to the department of public health and identified in the local agency's records as local *support.*

(c) For the 1976/77 state fiscal year, a coordinating agency whose program base year match percentage is less than 5% shall increase the match to at least 5%. For each subsequent year, the coordinating agency shall increase the match by at least an additional 1% until the match equals at least 10% of the program budget, excluding direct federal and other state funds.

(d) For the 1976/77 state fiscal year, a coordinating agency whose program base year match percentage is at least 5%, but less than 10%, shall increase the match by at least an additional 1%. For each subsequent year, the coordinating agency shall increase the match by at least an additional 1% until the match equals at least 10% of the program budget, excluding direct federal and other state funds.

History: 1954 ACS 91, p. 37, Eff. Apr. 1, 1977.

BUREAU OF ENVIRONMENTAL AND OCCUPATIONAL HEALTH

IONIZING RADIATION

R 325.5001—R 325.5511

History: 1954 ACS 85, p. 23, Eff. Dec. 3, 1975; 1954 ACS 98, p. 34, Eff. Mar. 9, 1979.

Editor's note: By request of the department of public health and pursuant to section 57 of Act No. 306 of the Public Acts of 1969, as amended, being §24.257 of the Michigan Compiled Laws, these rules are not published in the Michigan Administrative Code. They may be obtained upon application to the Department of Public Health, 3500 North Logan, Lansing, Michigan 48914.

PEACETIME NUCLEAR INCIDENTS

(By authority conferred on the department of public health by sections 3 and 7 of Act No. 305 of the Public Acts of 1972, by section 7 of Act No. 146 of the Public Acts of 1919, and by sections 9 and 427 of Act No. 380 of the Public Acts of 1965, being §§325.453, 325.457, 325.7, 16.109, and 16.527 of the Michigan Compiled Laws)

PART 1. DEFINITIONS

R 325.5901 Definitions; A to E.

Rule 1. (1) "Acceptable" means acceptable to the division of radiological health of the department pursuant to part 3.

(2) "Agreement state" means a state with which the nuclear regulatory commission has entered into an effective agreement pursuant to section 247b of the federal atomic energy act of 1954, as amended.

(3) "Department" means the department of public health.

(4) "Emergency equipment" means equipment to be used during a nuclear incident for activities such as monitoring, communicating, minimizing contamination, and decontaminating.

(5) "Exclusion area" means that area surrounding a nuclear facility from which the owner has the authority to exclude or remove people and property.

History: 1954 ACS 90, p. 17, Eff. Jan. 19, 1977.

R 325.5902 Definitions; M to O.

Rule 2. (1) "Michigan emergency plan" means the state emergency plan developed by the state police pursuant to Act No. 154 of the Public Acts of 1953, as amended, being §30.221 et seq. of the Michigan Compiled Laws.

(2) "Michigan nuclear facility emergency plan" means the plan developed as a component of the Michigan emergency plan, which sets forth the actions to be taken by state agencies in response to a nuclear incident at a nuclear facility.

(3) "Nuclear facility" means a nuclear production or utilization facility.

(4) "Nuclear incident" means an event which creates a class A, class B, or class C condition, as classified in part 2, or an event which creates the probability that such a condition will happen, including:

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(a) An event which requires the movement of members of the general public who are outside of the protected area.

(b) An event which will, or may, result in the release of radioactive material in excess of the concentrations listed in 10 C.F.R., Part 20, Appendix B, Table II, as amended, offsite without indication from the liquid or gaseous monitoring system.

(c) A civil disturbance threat.

(d) A threat which may affect the health or safety of the public.

(5) "Nuclear reactor" means an apparatus, other than an atomic weapon, designed or used to sustain nuclear fission in a self-supporting chain reaction.

(6) "Offsite" means outside of the exclusion area.

(7) "Onsite" means within the exclusion area.

(8) "Owner" means the owner, operator, or licensee of a nuclear facility and any agent thereof.

History: 1954 ACS 90, p. 18, Eff. Jan. 19, 1977.

R 325.5903 Definitions; P.

Rule 3. (1) "Plant" means a nuclear facility.

(2) "Plant emergency plan" means the procedures which are to be implemented by the owner in case of a nuclear incident at a specific nuclear facility and maps, documents, or information sheets attached thereto.

(3) "Production facility" means any of the following:

(a) A nuclear reactor designed or used primarily for the formation of plutonium or uranium-233.

(b) A facility designed or used for the separation of the isotopes of uranium or the isotopes of plutonium, except laboratory scale facilities designed or used for experimental or analytical purposes only.

(c) A facility designed or used for the processing of irradiated materials containing special nuclear material, except:

(i) Laboratory scale facilities designed or used for experimental or analytical purposes.

(ii) Facilities in which the only special nuclear materials contained in the irradiated material to be processed are uranium enriched in the isotope U-235 and plutonium produced by the irradiation, if the material processed contains not more than 10^{-6} grams of plutonium per gram of U-235 and has fission product activity not in excess of 0.25 millicuries of fission products per gram of U-235.

(iii) Facilities in which processing is conducted pursuant to a license issued under 10 C.F.R., Part 30, and 10 C.F.R., Part 70, or equivalent regulations of an agreement state, for the receipt, possession, use, and transfer of irradiated special nuclear material, which authorizes the processing of the irradiated material on a batch basis for the separation of selected fission products and limits the process batch to not more than 100 grams of uranium enriched in the isotope 235 and not more than 15 grams of any other special nuclear material.

(4) "Protected area" means the area encompassed by a continuous fence or other physical barrier surrounding a nuclear facility, inside of which members of the public are allowed only with a personal escort.

(5) "Public interest occurrence" means an event or condition which is not a nuclear incident, but which reasonably would be of concern to the agencies of the state and local units of government in the performance of their duty to protect the public health and safety, including:

(a) Abnormal occurrences which shall be reported to the nuclear regulatory commission pursuant to the plant technical specifications.

(b) Indication of unusual results from the plant effluent or environs monitoring *systems.*

(c) Facility start-up or shut-down.

(d) Impending offsite nuclear fuel or other radioactive material movement, transferral, or shipment which requires federal department of transportation specified marking of a package or vehicle.

History: 1954 ACS 90, p. 18, Eff. Jan. 19, 1977.

R 325.5904 Definitions; S to U.

Rule 4. (1) "Source material" means uranium or thorium, or a combination thereof, in any physical or chemical form, or ores which contain by weight 0.05% or more of uranium, thorium, or a combination thereof. Source material does not include special nuclear material.

(2) "Special nuclear material" means plutonium, uranium-233, or uranium enriched in the isotope 233 or in the isotope 235, or a material artificially enriched by any of the foregoing, but does not include source material.

(3) "Utilization facility" means a nuclear reactor other than one designed or used primarily for the formation of plutonium or uranium-233.

History: 1954 ACS 90, p. 19, Eff. Jan. 19, 1977.

PART 2. NUCLEAR INCIDENTS AND PUBLIC INTEREST OCCURRENCES

R 325.5911 Classification of nuclear incidents.

Rule 11. A nuclear incident shall be classified by the owner according to R 325.5912 as the first class appearing in the table which meets the incident conditions.

History: 1954 ACS 90, p. 19, Eff. Jan. 19, 1977.

R 325.5912 Table of nuclear incident classes.

Rule 12.

Class	Projected Public Individual Exposure Dose or Dose Rate[1]	Organ or Media Involved	Liquid Effluent Concentration For a Single Radio-isotope[2]	Liquid Effluent Concentration For a Mixture of Radio-isotopes[3]
Class A	0.5 rem in 2 hrs. or 5 rems in 30 days	Whole body, including eyes, gonads, and blood-forming organs.	500 x MPC_w[4]	500
	2.5 rems in 2 hrs. or 25 rems in 30 days	Thyroid		
Class B	0.5 rem in 30 days	Whole body, including eyes, gonads, and blood-forming organs.	50 x MPC_w[4]	50
	2.5 rems in 30 days	Thyroid		
Class C	2 millirems in any one hour	Whole body, including eyes, gonads, and blood-forming organs.	3 x MPC_w[4]	3

[1]An exposure dose or dose rate which equals or exceeds the standard listed will result in classification as specified.

[2]A liquid concentration which equals or exceeds the standard listed will result in classification as specified. The concentration may be averaged over a period of 24 hours.

[3]A sum of the ratios of each radionuclide to its MPC_w which equals or exceeds the standard listed, will result in classification as specified. The concentration may be averaged over 24 hours.

[4]MPC_w—see 10 C.F.R., Part 20, Appendix B, Table II, Column 2, as amended.

History: 1954 ACS 90, p. 19, Eff. Jan. 19, 1977.

R 325.5913 Notification of nuclear incident; confirmation.

Rule 13. (1) When a nuclear incident occurs, the owner shall immediately notify the department by contacting the state police. Notification shall be immediate, without delay for offsite or onsite area radiation readings. Favorable meteorological conditions shall not be considered justification for lack of notification.

(2) A notification pursuant to this rule shall be followed by written confirmation.

History: 1954 ACS 90, p. 20, Eff. Jan. 19, 1977.

R 325.5914 Notification of public interest occurrence; confirmation.

Rule 14. (1) When a public interest occurrence happens, the owner shall promptly notify the department by telephone during normal working hours or as otherwise specified by the department.

(2) A notification pursuant to this rule shall be followed by written confirmation.

History: 1954 ACS 90, p. 20, Eff. Jan. 19, 1977.

PART 3. EMERGENCY PLANS

R 325.5921 Michigan nuclear facility emergency plan.

Rule 21. An owner shall maintain and have available a current copy of the Michigan nuclear facility emergency plan at all times.

History: 1954 ACS 90, p. 20, Eff. Jan. 19, 1977.

R 325.5922 Plant emergency plan; formulation; evaluation and filing; review; compliance.

Rule 22. An owner shall formulate a plant emergency plan prior to operation. A copy of the plan and of each amendment shall be submitted to the department for evaluation and filing. Upon request of the department, the plan shall be reviewed by the owner and revised if an amendment is necessary. For designation as an acceptable plan by the department, the plan shall conform to the requirements of this part.

History: 1954 ACS 90, p. 20, Eff. Jan. 19, 1977.

R 325.5923 Plant emergency plan; offsite actions.

Rule 23. (1) In case of a class A nuclear incident, the offsite actions of the owner shall be in accordance with the plant emergency plan and the applicable provisions of the Michigan nuclear facility emergency plan, unless otherwise directed by the governor or by his authorized representative.

(2) In case of a class B or C nuclear incident, the offsite actions of the owner shall be in accordance with the plant emergency plan and the applicable provisions of the Michigan nuclear facility emergency plan, unless otherwise directed by the department.

History: 1954 ACS 90, p. 20, Eff. Jan. 19, 1977.

R 325.5924 Plant emergency plan; conformity; procedures; evacuation routes; personnel reassembly and monitoring areas; emergency survey and stations.

Rule 24. A plant emergency plan shall:

(a) Conform to the Michigan nuclear facility emergency plan and this part for designation as an acceptable plan by the department.

(b) Establish specific procedures to be followed in case of a nuclear incident.

Digitized by Google

(c) Establish procedures to provide the most expeditious means of evaluating the hazard and to provide systematic notification and response in case of a nuclear incident.

(d) Include plant area maps which shall indicate evacuation routes from the plant, personnel reassembly and monitoring areas, and geographically preselected emergency survey and sampling stations.

History: 1954 ACS 90, p. 20, Eff. Jan. 19, 1977.

R 325.5925 Plant emergency plan; assessment methods; decisional aids.

Rule 25. A plant emergency plan shall:

(a) Delineate the radiological and meteorological assessment methods and equipment to be employed in determining the magnitude and disposition of any radioactive materials released into the air, ground, or water.

(b) Include decisional aids, such as graphs, maps, lists, and overlays, to aid appropriate state agencies in the classification of nuclear incidents and in the determination of radiation doses in the environs.

History: 1954 ACS 90, p. 20, Eff. Jan. 19, 1977.

R 325.5926 Plant emergency plan; notification of nuclear incident.

Rule 26. A plant emergency plan shall:

(a) Establish criteria for notification of appropriate state and federal agencies and local units of government in case of a nuclear incident.

(b) Establish methods and procedures, such as call trees or lists, for notifying the state police in case of a nuclear incident. A plan shall provide for immediate notification from the plant to the state police, regardless of the time of day or week that such an incident occurs.

(c) Establish a list of information to be included in a notification of a nuclear incident.

History: 1954 ACS 90, p. 20, Eff. Jan. 19, 1977.

R 325.5927 Plant emergency plan; onsite contamination control.

Rule 27. A plant emergency plan shall:

(a) Establish procedures for restriction of the public from onsite areas, normally accessible to the public, which become contaminated with radioactive material.

(b) Provide that radioactive contamination testing data from public access areas shall be available to the department for review in the event of a nuclear incident.

(c) Provide that written notification of intent to release such areas for public use shall be received by the department from the plant not less than 24 hours prior to release.

History: 1954 ACS 90, p. 21, Eff. Jan. 19, 1977.

R 325.5928 Plant emergency plan; offsite contamination control.

Rule 28. A plant emergency plan shall:

(a) Provide assurance that, with the approval of the property owner, the plant owner will assist in decontamination and disposal of contaminated materials from a nuclear incident resulting in offsite contamination.

(b) Provide that offsite radioactive contamination testing data in the possession of the plant owner shall be available to the department for review in the event of a nuclear incident.

History: 1954 ACS 90, p. 21, Eff. Jan. 19, 1977.

R 325.5929 Plant emergency plan; emergency equipment, vehicles, or services.

Rule 29. A plant emergency plan shall:

(a) Include an inventory of the emergency equipment resources of the owner that can be marshalled at the plant itself and in areas surrounding the plant in case of a nuclear incident. The inventory shall note the normal location and availability of emergency equipment.

(b) List available emergency equipment from other private and public sources.

(c) Provide assurance that emergency vehicles are adequately equipped for the transportation of radiological and other casualties. The plan shall indicate the names and physical locations of the vehicles or services.

History: 1954 ACS 90, p. 21, Eff. Jan. 19, 1977.

R 325.5930 Plant emergency plan; medical support.

Rule 30. A plant emergency plan shall:

(a) Provide assurance that prior arrangements have been made to secure medical support facilities, such as hospitals, clinics, or doctors' offices, on a 24-hour basis for the treatment of radiological and other casualties.

(b) Provide assurance that medical personnel trained in the treatment of radiological and other casualties are identified and designated.

(c) Provide assurance that adequate monitoring instruments and decontamination equipment are available at the designated facilities.

History: 1954 ACS 90, p. 21, Eff. Jan. 19, 1977.

R 325.5931 Plant emergency plan; radiation records.

Rule 31. A plant emergency plan shall provide that records of radiation dose measurements or estimations for radiological casualties and exposed persons, in the event of a nuclear incident, shall be available for department review.

History: 1954 ACS 90, p. 21, Eff. Jan. 19, 1977.

R 325.5932 Plant emergency plan; emergency response services; offsite assistance groups.

Rule 32. A plant emergency plan shall:

(a) Establish a list of qualified emergency response services readily available to the owner to augment his response in case of a nuclear incident.

(b) Include a list of offsite assistance groups such as governmental agencies, medical facilities, and other nuclear facilities with which the owner has emergency planning agreements.

History: 1954 ACS 90, p. 21, Eff. Jan. 19, 1977.

R 325.5933 Plant emergency plan; annual test; amendments; review.

Rule 33. A plant emergency plan shall:

(a) Provide that tests shall be conducted annually by the owner to determine plan adequacy and the need for updating.

(b) Provide that plan amendments upon adoption shall be submitted for review by the department.

History: 1954 ACS 90, p. 22, Eff. Jan. 19, 1977.

R 325.5934 Plant emergency plan; modification of requirements.

Rule 34. The department may modify requirements for designation of a specific plant emergency plan as acceptable when necessary for the protection of the public health and safety.

History: 1954 ACS 90, p. 22, Eff. Jan. 19, 1977.

DEPARTMENT OF PUBLIC HEALTH

BUREAU OF HEALTH CARE ADMINISTRATION

DEPARTMENT OF COMMERCE

INSURANCE BUREAU

HEALTH MAINTENANCE ORGANIZATIONS

(By authority conferred on the director of public health and the insurance commissioner, department of commerce, by section 10 of Act No. 264 of the Public Acts of 1974, being §325.910 of the Michigan Compiled Laws)

PART 1. DEFINITIONS

R 325.6101 Definitions; A, B.

Rule 101. (1) The terms defined in the act have the same meaning when used in these rules.

(2) As used in these rules:

(a) "Act" means Act No. 264 of the Public Acts of 1974, being §325.901 et seq. of the Michigan Compiled Laws, known as the health maintenance organization act.

(b) "Actuarially sound" means the ability and resources of the health maintenance organization to adequately deliver contractual health care services at its approved rate structure.

(c) "Authorized representative" means the individual designated in writing by the governing body to make application for the issuance of a license, to make amendments to the application, to provide the director and commissioner with all information necessary to make a determination in connection with the issuance of a license, and to enter into agreements with the director and the commissioner in connection with the issuance of a license.

(d) "Areawide regional comprehensive health planning agency" means that agency defined in the act or its successor agency as created by Public Law 93-641.

(e) "Bargaining representative" means a representative designated for the purposes of collective bargaining under section 9(a) of the national labor relations act, as amended, 29 U.S.C. 151 et seq., or under the railway labor act, as amended, 45 U.S.C. 151 et seq., or under applicable state statute.

History: 1954 ACS 99, p. 44, Eff. Mar. 30, 1979.

R 325.6105 Definitions; C, D.

Rule 105. As used in these rules:

(a) "Carrier" means a voluntary association, corporation, partnership, or other nongovernmental organization which is engaged in providing, paying for, or reimbursing all or part of the cost of health benefits under group insurance policies and contracts, or under medical or hospital service agreements, in consideration of premiums or other periodic charges payable to the carrier.

(b) "Clinical pharmacy services," either in conjunction with, or independent of, a prescription drug benefit, means, at a minimum, the monitoring of patient medication therapy and the counseling of physicians and enrollees on medications and drug utilization.

(c) "Collective bargaining agreement" means an agreement entered into between an employer and the bargaining representative of its employees, and

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

includes such agreements entered into on behalf of groups of employers with the bargaining representative of their employees under the national labor relations act, as amended, being 29 U.S.C. 151 et seq., or under the railway labor act, as amended, being 45 U.S.C. 151 et seq., or under the applicable state statute.

(d) "Compensation" means salary, pay, or emolument given as compensation or wages for work done or services rendered, in cash or kind, and includes, but is not limited to, the following: salaries, wages, bonuses, commissions, fees, tips, incentive payments, severance pay, vacation pay, and sick pay.

(e) "Designee" means any person or entity authorized to act on behalf of an employer to offer the option of membership in a licensed health maintenance organization to the employer's eligible employees.

(f) "Doing business" means an enterprise, activity, profession, or undertaking of any nature conducted or ordinarily conducted for profit, gain, or service by any person.

History: 1954 ACS 99, p. 45, Eff. Mar. 30, 1979.

R 325.6110 Definitions; E, F.

Rule 110. As used in these rules:

(a) "Eligible employee" means an employee who meets the terms and conditions established by an employer or its designee to participate in a health benefits plan.

(b) "Emergency health service" means medical care rendered by affiliated or non-affiliated providers, whether in or out of the service area, under unforeseen conditions requiring services necessary for the repair of accidental injury, relief of acute pain, elimination of acute infection, protection of the public health, and the amelioration of illness which, if not immediately diagnosed and treated, would result in physical impairment or loss of life. In an emergency, the principle of medical necessity, as determined by the health maintenance organization, prevails over all other considerations.

(c) "Employee" means any individual employed by an employer, whether on a full- or part-time basis.

(d) "Employee's eligible dependent" means an eligible employee's dependent who meets the terms and conditions established by an employer or its designee to participate in a health benefits plan.

(e) "Employer" shall have the same meaning as defined in section 3(d) of the fair labor standards act of 1938, as amended, being 29 U.S.C. 203, or as defined in Act No. 154 of the Public Acts of 1964, as amended, being §408.381 et seq. of the Michigan Compiled Laws.

(f) "Employer-employee contract" means a legally enforceable agreement, other than a collective bargaining agreement, between an employer and its employees for the provision of, or payment for, health benefits.

(g) "Freestanding outpatient facility" means a facility, not otherwise licensed, in which health maintenance services are provided to enrollees, and which is owned, leased by, or otherwise under the direct management or operational control of a health maintenance organization.

History: 1954 ACS 99, p. 45, Eff. Mar. 30, 1979.

R 325.6115 Definitions; G to I.

Rule 115. As used in these rules:

(a) "Group enrollment period" means the period of not less than 10 working days each calendar year during which each eligible employee is given the *opportunity to select among* the alternatives included in a health benefits plan.

(b) "Health benefits" means an arrangement for the provision of, or payment for, health services under the terms of a health benefits plan.

(c) "Health benefits contract" means an agreement between an employer, or its designee, and a carrier for the provision of, or payment for, health benefits for eligible employees or for eligible employees and the employee's eligible dependents.

(d) "Health benefits plan" means an arrangement for the provision of, or payment for, any of the primary, basic, or supplemental health services offered to eligible employees and the employee's eligible dependents by, or on behalf of, an employer.

(e) "Health care evaluation" means an organized approach to the review of a particular aspect of the program of care to assure that health care services are appropriate to patient needs, are of appropriate quality, and that health care organization and administration support the timely and efficient provision of quality care.

(f) "Health facility service areas" means the 77 geographic areas as defined in Michigan state plan for hospital and medical facility construction, 1973-74, published by the Michigan department of public health.

(g) "Home health services" means those services provided in an enrollee's home by a home health agency certified under title XVIII of the social security act or by health care personnel as prescribed or directed by the attending physician or other authority designated by the health maintenance organization.

(h) "Initial date of operation" means date of licensure or date of eligibility for health maintenance services by the initial enrollees of a licensed health maintenance organization, whichever is later.

History: 1954 ACS 99, p. 46, Eff. Mar. 30, 1979.

R 325.6120 Definitions; L.

Rule 120. As used in these rules, a "licensed health facility" means:

(a) A county medical care facility established under sections 58 to 58c of Act No. 280 of the Public Acts of 1939, being §§400.58 to 400.58c of the Michigan Compiled Laws.

(b) A freestanding outpatient surgical facility licensed under Act No. 274 of the Public Acts of 1974, being §331.471 et seq. of the Michigan Compiled Laws.

(c) A hospital licensed under Act No. 17 of the Public Acts of 1968, as amended, being §331.411 et seq. of the Michigan Compiled Laws.

(d) A laboratory licensed under Act No. 235 of the Public Acts of 1968, being §325.81 et seq. of the Michigan Compiled Laws.

(e) A nursing home licensed under Act No. 139 of the Public Acts of 1956, as amended, being §331.651 et seq. of the Michigan Compiled Laws.

(f) A pharmacy licensed pursuant to Act No. 151 of the Public Acts of 1962, as amended, being §338.1101 et seq. of the Michigan Compiled Laws, and Act No. 196 of the Public Acts of 1971, as amended, being §335.301 et seq. of the Michigan Compiled Laws.

(g) A psychiatric hospital or psychiatric unit of a general hospital licensed under Act No. 107 of the Public Acts of 1974, being §330.701 et seq. of the Michigan Compiled Laws, or Act No. 258 of the Public Acts of 1974, as amended, being §330.1001 et seq. of the Michigan Compiled Laws.

(h) A state facility for the mentally retarded operated by the department of mental health under Act No. 258 of the Public Acts of 1974, as amended, being §330.1001 et seq. of the Michigan Compiled Laws.

(i) A state hospital for the mentally ill operated by the department of mental health under Act No. 258 of the Public Acts of 1974, as amended, being §330.1001 et seq. of the Michigan Compiled Laws.

(j) A substance abuse program licensed under Act No. 56 of the Public Acts of 1973, as amended, being §325.711 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 99, p. 46, Eff. Mar. 30, 1979.

R 325.6125 Definitions; M to P.

Rule 125. As used in these rules:

(a) "Medical audit" means the retrospective examination and evaluation of the clinical application of medical knowledge as revealed in the clinical patient record for the purposes of education, accountability, and quality assurance.

(b) "Nutritionist or dietitian" means a person who has a baccalaureate degree with major studies in food and nutrition, and is eligible for registration by the American dietetic association.

(c) "Out-of-area services" means a medically neccessary referral by the health maintenance organization on behalf of an enrollee or emergency care rendered to an enrollee in the geographic area beyond the health maintenance organization's defined service area under circumstances wherein it is not feasible for the enrollee to secure those services from the health maintenance organization.

(d) "Preventive health services" means services designated to maintain an individual in optimum health and to prevent unnecessary injury, illness, or disability, and services, including, but not limited to, immunizations, voluntary family planning, routine physical examinations, diagnostic screening procedures specific as to age or sex, and health education designed to heighten an individual's awareness and knowledge regarding the prevention of accidental injury or poisoning, or disease or disability, caused or exacerbated by personal health practices.

(e) "Primary care center" means a facility, not otherwise licensed, which provides primary care physician services and which is owned or leased by, or contractually affiliated with, a health maintenance organization.

(f) "Primary care physician" means a licensed physician in general practice or a physician board eligible or certified in 1 of the following specialties:

(i) Family practice.

(ii) Pediatrics.

(iii) Internal medicine.

(iv) Obstetrics and gynecology.

History: 1954 ACS 99, p. 47, Eff. Mar. 30, 1979.

R 325.6130 Definitions; Q to U.

Rule 130. As used in these rules:

(a) "Quality assurance program" means the planned and systematic management actions which assure the consistent rendering of high quality health care services through the use of monitoring techniques.

(b) "Service area" means a defined geographical area in which health maintenance services are generally available and readily accessible to enrollees, and wherein health maintenance organizations may market their contracts to employers subject to section 43 of the act.

(c) "To offer a health benefits plan" means to make participation in a health benefits plan available to eligible employees or to eligible employees and the *employee's eligible dependents.*

(d) "Utilization review" means prospective, concurrent, and retrospective review and analysis of data related to utilization of health care resources in terms of cost, effectiveness, efficiency, control, and quality.

History: 1954 ACS 99, p. 47, Eff. Mar. 30, 1979.

PART 2. STATE ADMINISTRATION

R 325.6201 Filing and transmittal of submissions; concurrence in actions taken.

Rule 201. (1) A submission required by the act or these rules shall be filed with the director. The director shall, within 5 working days, transmit the original or copy of the submission to the commissioner.

(2) Actions of the director or the commissioner referenced in these rules shall be with their respective concurrence or advice as required by the act.

History: 1954 ACS 99, p. 47, Eff. Mar. 30, 1979.

R 325.6205 License required.

Rule 205. A health maintenance organization or legal entity, other than one initially exempted by the act from the requirement for licensure, shall not enter into a health maintenance or similar contract without a valid license issued by the director with the concurrence of the commissioner.

History: 1954 ACS 99, p. 47, Eff. Mar. 30, 1979.

R 325.6210 Service areas.

Rule 210. (1) An applicant or potential applicant shall file with the director a description of the geographical area of service defined by the boundaries of political subdivisions, census tracts, U.S. postal zip codes, or health facility service areas.

(2) The service area shall not exceed the boundaries of a health facility service area wherein an affiliated acute care hospital and a primary care center are located unless the population density of the representative health facility service area exceeds a population density of 1,000 per square mile. The director may approve an extension of the service area into contiguous health facility service areas having a population density of more than 1,000 per square mile and which are adjacent to a health facility service area having an affiliated acute care hospital and a primary care center when satisfied that accessibility to health care has not been compromised.

(3) The service area shall be subject to the approval of the director.

History: 1954 ACS 99, p. 48, Eff. Mar. 30, 1979.

R 325.6215 Letter of intent; submission; confirmation of receipt.

Rule 215. (1) A potential applicant for an initial license under the act shall submit 5 copies of a letter of intent to make application to the director and 1 additional copy to each areawide regional comprehensive health planning agency responsible for health planning in the area projected to be served by the potential applicant.

(2) The applicant shall certify to the director that a copy of the letter of intent has been submitted to the appropriate areawide regional comprehensive health planning agency.

(3) The director and the commissioner shall jointly confirm the receipt of a letter of intent to the applicant with a copy to the appropriate areawide regional comprehensive health planning agency.

History: 1954 ACS 99, p. 48, Eff. Mar. 30, 1979.

R 325.6220 Letter of intent; form; contents.

Rule 220. (1) The letter of intent shall be submitted on forms provided by the director.

(2) The letter of intent shall include a brief narrative description of the proposed health maintenance organization, including preliminary information regarding:

(a) Its organizational structure.

(b) Service area.

(c) Type and location of facilities to be utilized.

(d) Projected population to be served and number of enrollees.

(e) Description of marketing concepts and procedures proposed.

(f) Estimated cost for establishment and for first-year operation.

(g) Proposed sources of financing for the organization, including estimated amounts.

(h) Services to be provided.

(i) Such additional information as the director or commissioner may require.

(3) To the extent possible, the letter of intent shall include those documents and information required to be submitted with the license application.

(4) The letter of intent shall include designation of the authorized representative.

History: 1954 ACS 99, p. 48, Eff. Mar. 30, 1979.

R 325.6225 Letter of intent; period for submission; waiver.

Rule 225. (1) The letter of intent shall be submitted to the director not less than 90 days prior to submission of an application for licensure. The 90-day period may be waived by the director when:

(a) Review by the areawide regional comprehensive health planning agency has been conducted and a recommendation prepared.

(b) The director determines, upon request of the applicant, that the 90-day period may be waived without compromising the review and evaluation of the application.

(2) The letter of intent shall be valid for 6 months from the date of receipt by the director.

(3) The areawide regional comprehensive health planning agency shall submit a preliminary report to the director within 70 calendar days of the receipt of letter of intent.

History: 1954 ACS 99, p. 48, Eff. Mar. 30, 1979.

R 325.6230 Licensure; application forms.

Rule 230. Application for initial and renewal licensure shall be made on forms available from the director.

History: 1954 ACS 99, p. 49, Eff. Mar. 30, 1979.

R 325.6235 Initial license; application; filing; withdrawal; amended application.

Rule 235. (1) An applicant for an initial license for a health maintenance organization shall file 5 copies of the application with the director and submit a copy to each areawide regional comprehensive health planning agency responsible for health planning in the area to be served by the health maintenance organization no earlier than 90 days after the submission of a letter of intent, unless a portion or all of the 90-day period has been waived.

(2) An application shall be deemed filed when all information necessary to *properly process the application* has been received by the director.

(3) On 1 occasion only, an applicant for an initial license may, upon written notice giving reasonable cause, request withdrawal of an application, and may resubmit an amended initial application within 90 days after the withdrawal without having to pay an additional fee. The amended application shall be processed as a new application. Requests for additional information and data by the director or the commissioner, after the application has been deemed properly filed, shall not be considered to constitute an amendment to the initial application.

History: 1954 ACS 99, p. 49, Eff. Mar. 30, 1979.

R 325.6240 Initial license; application; confirmation of receipt; issuance or denial of licensure; time; notice.

Rule 240. (1) The director and the commissioner shall, within 30 days of receipt, jointly confirm by certified mail the receipt of an application, with a copy to the appropriate areawide regional comprehensive health planning agency. The confirmation shall state the date the application is deemed filed or state the information necessary for the application to be deemed filed.

(2) The director and the commissioner shall issue or deny a license within 90 calendar days of the filing of the application, unless the applicant is notified 30 days prior that the review has been extended an additional 30 days. The notice shall include the reason for the extension.

History: 1954 ACS 99, p. 49, Eff. Mar. 30, 1979.

R 325.6245 Renewal license; application; filing; review and evaluation.

Rule 245. (1) An applicant for renewal of a health maintenance organization license shall file 5 copies of the renewal application 90 days prior to the date the license is due to be renewed, and submit a copy to each areawide regional comprehensive health planning agency in the area to be served by the health maintenance organization.

(2) Review by the areawide regional comprehensive health planning agency shall be completed, and evaluation comments and recommendations transmitted to the director in writing, within 45 calendar days of its receipt of the renewal application.

History: 1954 ACS 99, p. 49, Eff. Mar. 30, 1979.

R 325.6250 Planning certificate of authority; application; filing; contents of application; duration of certificate; extensions.

Rule 250. (1) An application for a planning certificate of authority may be filed with the director by a person or group of persons engaged in the planning and development of a health maintenance organization.

(2) An original application for a planning certificate of authority, and a copy, shall be filed with the director, and a copy shall be submitted to the appropriate areawide regional comprehensive health planning agency for written comments and recommendations.

(3) An application for a planning certificate of authority shall include:

(a) Details of the purpose of the request.

(b) Objectives and goals of the applicant.

(c) The manner in which the goals and objectives are to be achieved through an organized work plan.

(d) Details regarding planned surveys, feasibility studies, grants, loans, or acquisition of other funds in connection with the proposed planning and development of a health maintenance organization.

(e) Plans to meet the requirements for initial license under the act and these rules.

(f) Certification of submission of the application for a planning certificate of authority to the areawide regional comprehensive health planning agency.

(4) A planning certificate of authority shall be for a period of 1 year. The director may grant 2 extensions of the certificate upon the applicant's request.

(5) The commissioner and the areawide regional comprehensive health planning agency shall have up to 45 calendar days to respond to the director with comments and recommendations regarding the application for a planning certificate of authority.

(6) The director may revoke a planning certificate of authority if he determines that the application for the certificate was materially false or misrepresented the purpose for which the certificate was issued.

History: 1954 ACS 99, p. 49, Eff. Mar. 30, 1979.

R 325.6255 Evaluation comments and recommendations.

Rule 255. Evaluation comments and recommendations prepared by the areawide regional comprehensive health planning agency shall be transmitted to the director in writing and shall:

(a) Be in accord with regional plans, rules, and standards developed and published by the agency.

(b) Include written justification for the recommendations.

History: 1954 ACS 99, p. 50, Eff. Mar. 30, 1979.

R 325.6260 Provisional renewal license.

Rule 260. (1) The director may issue a provisional renewal license pursuant to section 15 of the act.

(2) The director may cause to have endorsed on a provisional renewal license the total number of subscribers for which the applicant is authorized to enter into contract.

(3) If the health maintenance organization has not achieved a fiscal breakeven point upon application for renewal licensure, the director may issue a provisional renewal license. A plan projected to achieve fiscal viability shall be submitted and approved by the commissioner prior to the issuance of a provisional renewal license.

History: 1954 ACS 99, p. 50, Eff. Mar. 30, 1979.

R 325.6265 Legal entity proposing to operate health care system; letter of intent; application for license; hearing; renewal of license.

Rule 265. (1) A legal entity proposing to operate a system of health care delivery and financing similar to a health maintenance organization, but with variations resulting in significant differences from a health maintenance organization, shall submit a letter of intent according to these rules and shall include in the letter of intent the written justification for requesting licensure under section 13(2) of the act.

(2) The legal entity shall submit an application for a license in accordance with these rules to the director prior to the notice and public hearing required by section 13(2) of the act. The hearing shall be held in the geographic area in which the proposed health care delivery system is located. The time and place shall be determined by the director.

(3) The legal entity shall be licensed and regulated in exactly the same manner as a health maintenance organization under the act, except to the extent that the

director and commissioner, with the approval of the commission, agree that a requirement of the act or a rule is inappropriate.

(4) A legal entity applying for renewal of a license shall submit a renewal application pursuant to these rules.

History: 1954 ACS 99, p. 50, Eff. Mar. 30, 1979.

R 325.6270 License or planning certificate nontransferable; notice of change in ownership or control.

Rule 270. (1) A license or planning certificate of authority, issued pursuant to the act and these rules, is not transferable from one health maintenance organization or legal entity to another health maintenance organization or legal entity.

(2) The director shall be notified when there is a change in the officers of the corporation, the governing body, or stock ownership, or when there is other action which represents a major change in policy or direction of the health maintenance organization.

(3) The commissioner shall determine whether a change in the ownership or control of the health maintenance organization represents a major change which warrants action by the director or the commissioner, including, but not limited to, requiring licensure of the changed entity, limitation of a license, or revocation of a license.

History: 1954 ACS 99, p. 50, Eff. Mar. 30, 1979.

R 325.6275 Substantive information change; filing.

Rule 275. (1) The applicant or licensee shall file, within 30 calendar days, any substantive change in information submitted in the application pursuant to which a planning certificate of authority, license, provisional license, or renewal license has been or may be issued.

(2) A substantive information change shall include, but not be limited to, a change in the officers of the corporation, the governing body, the controlling stock ownership, or the health maintenance organization administration, and any change in the organizational documents or bylaws.

History: 1954 ACS 99, p. 51, Eff. Mar. 30, 1979.

R 325.6280 Limitation or revocation of license; notice; prohibitions; proceedings.

Rule 280. (1) The director, after notice to the licensee, may limit or revoke a license or provisional license for failure to comply with the act or these rules. The limitation or revocation of a license or provisional license shall be accompanied by a written justification signed jointly by the commissioner and the director.

(2) The director shall provide the commission and the appropriate areawide regional comprehensive health planning agency with notice of a limitation or revocation of a license or provisional license.

(3) When the license of a health maintenance organization is revoked, or a renewal license is denied, the commissioner shall commence proceedings against the health maintenance organization for the purpose of liquidating, rehabilitating, or conserving the health maintenance organization.

(4) A notice of limitation or revocation of a license or provisional license shall be transmitted to the applicant or licensee by personal service, by a representative of the department, or by certified mail.

History: 1954 ACS 99, p. 51, Eff. Mar. 30, 1979.

R 325.6285 Posting license.

Rule 285. The current license, provisional license, or renewal license shall be posted in a conspicuous area of the health maintenance organization's principal office.

History: 1954 ACS 99, p. 51, Eff. Mar. 30, 1979.

R 325.6290 Fees.

Rule 290. A fee shall be paid by a certified check made payable to the state of Michigan in the appropriate amount. A fee shall not be refunded. These shall be as follows:

(a) Initial license fee - $500.00.

(b) Renewal license fee - $1,000.00.

(c) Planning certificate of authority - $100.00.

(d) A financial examination fee shall be on the same basis as charged to other companies examined by the commissioner.

History: 1954 ACS 99, p. 51, Eff. Mar. 30, 1979.

PART 3. BUSINESS AND OPERATIONAL REQUIREMENTS FOR HEALTH MAINTENANCE ORGANIZATIONS

R 325.6301 Governing body; nomination and election procedures for subscriber representatives.

Rule 301. (1) A procedure shall be established to assure that the election of subscriber representatives to the governing body shall take place within 12 months of the date of initial operation. A written description of the proposed procedure shall be submitted for approval by the commissioner not less than 90 days prior to the election.

(2) The nomination and election procedure for subscriber representatives shall meet the following minimum requirements:

(a) Provide an opportunity for subscribers to nominate candidates for the governing body.

(b) Provide notice to subscribers of the nomination and election procedures.

(c) Provide an opportunity for subscribers to vote for subscriber representatives through a balloting procedure.

History: 1954 ACS 99, p. 51, Eff. Mar. 30, 1979.

R 325.6305 Administrator; medical director; conflict of interest.

Rule 305. (1) A governing body shall employ an administrator or designate an executive officer who shall be responsible to the governing body for the daily conduct and operations of the health maintenance organization.

(2) A governing body shall assure the designation of a Michigan licensed physician as medical director, who shall be responsible for the medical aspects of the operation, including, but not limited to, review of medical care provided, medical professional continuing education, medical professional aspects of provider contracts, and other areas of responsibility as may be designated by the governing body.

(3) A governing body shall develop policies and procedures whereby full disclosure and discovery of any present or potential conflict of interest of promoters, incorporators, a partnership or association, directors, trustees, members of the governing body and officers of a health maintenance organization, chief actuary, general counsel, and controller shall be made known to the *governing body within 30 working* days. The policies and procedures shall be in

accordance with section 11(c) of the act and the rules, and shall be filed with the director for review and approval by the commissioner with initial and renewal licensure applications. Changes shall be submitted within 5 working days.

History: 1954 ACS 99, p. 51, Eff. Mar. 30, 1979.

R 325.6310 Operation of health maintenance organization; policies and procedures.

Rule 310. A governing body shall assure the adoption and implementation of written policies and procedures governing the operation of the health maintenance organization. Policies and procedures shall be dated, reviewed at least annually, and revised when indicated, and shall include:

(a) Enrollee grievance procedure which ensures governing body review of individual complaints where indicated and receipt of reports at least quarterly.

(b) An arrangement for formal and regular communication between administrators, medical directors, providers, enrollees, and the governing body.

(c) Marketing and enrollment policies.

(d) Enrollee health care and related policies to ensure the provision of the appropriate level of continuity and quality of enrollee health care.

(e) Contractual arrangements with outside resources required to complement and supplement services available to enrollees.

History: 1954 ACS 99, p. 52, Eff. Mar. 30, 1979.

R 325.6315 Governing body meetings; quorum; record of proceedings; notice of meetings; minutes.

Rule 315. (1) A governing body shall meet at least quarterly.

(2) A quorum for a governing body meeting shall be defined in the health maintenance organization bylaws.

(3) A governing body shall keep a permanent record of its proceedings, including those of all subordinate committees.

(4) A governing body meeting shall be open to enrollees of the health maintenance organization, except that a closed meeting, or a closed portion of a meeting, may be held to handle specific and confidential matters which could prejudice or cause irreparable harm to an individual employee, provider, or enrollee's reputation or livelihood. Notice of meetings shall be made available to subscribers upon request.

(5) The minutes of a governing body open meeting shall be available for enrollee inspection at the principal office of the health maintenance organization during normal working hours.

(6) The minutes of a closed meeting or a closed portion of the meeting shall include written justification for the necessity of a closed meeting and a complete documentation of all topics discussed, and shall be maintained in a manner that assures confidentiality. A closed meeting, and the reasons therefor, shall be noted in the general minutes.

(7) The director or the commissioner may review all governing body and subordinate committee minutes and may attend governing body meetings to assess the governing body's compliance with these rules.

History: 1954 ACS 99, p. 52, Eff. Mar. 30, 1979.

R 325.6320 Principal office.

Rule 320. A health maintenance organization shall maintain a principal office at which complete business and financial records of the organization and operation are maintained.

History: 1954 ACS 99, p. 52, Eff. Mar. 30, 1979.

R 325.6325 Use and changes of name; notice of new officers or directors; notice of stock transfer.

Rule 325. (1) A name other than that certified by the director shall not be used. The name of the health maintenance organization shall not be changed without prior approval of the director and the commissioner.

(2) A health maintenance organization shall notify the director within 30 days of the appointment or election of any new officers or directors or the transfer of stock which results in any 1 person holding 10% or more of the voting shares of the health maintenance organization.

History: 1954 ACS 99, p. 53, Eff. Mar. 30, 1979.

R 325.6330 Fiscal year; accounting procedures; financial and budgeting projections.

Rule 330. (1) A health maintenance organization may, with the approval of the commissioner, adopt a fiscal year not coinciding with a calendar year, if the commissioner is satisfied that financial and actuarial data may be extracted on a calendar-year basis.

(2) A health maintenance organization shall implement and utilize accounting procedures acceptable to the commissioner, which may include, but are not limited to, uniform chart of accounts, uniform accounting procedures, and uniform financial report forms.

(3) Financial and budgetary projections for the health maintenance organization shall be prepared in accordance with procedures acceptable to the commissioner.

History: 1954 ACS 99, p. 53, Eff. Mar. 30, 1979.

R 325.6335 Financial plan.

Rule 335. A health maintenance organization shall have a financial plan satisfactory to the commissioner. The financial plan shall:

(a) Identify the means of achieving and maintaining a positive cash flow, including provisions for retirement of existing or proposed indebtedness.

(b) Demonstrates an approach to the risk of insolvency which allows for the continuation of benefits for the duration of the contract period for which payment has been made, including the continuation of benefits to members who are confined on the date of insolvency in an inpatient facility until their discharge and includes the payment to providers for services rendered, or for coverage of projected operating expenses, for a designated period of time, based on such factors as:

(i) A financial guarantee contract insured by a surety bond issued by an independent insurer.

(ii) A reinsurance contract issued by an authorized and approved insurance company.

(iii) A contract which the health maintenance organization has with physicians, hospitals, clinics, or insurers.

(iv) A guaranteed group of subscribers with a minimum number to be enrolled.

(v) A guaranteed line of credit.

(vi) Projected fixed developmental costs.

(vii) Provisions for the establishment of a contingency reserve fund in an amount equal to 5% of the annual projected prepaid health care revenue.

(viii) Other factors which may affect the cash flow of the organization.

(c) Provide for an appropriate amount of working capital.

History: 1954 ACS 99, p. 53, Eff. Mar. 30, 1979.

R 325.6340 Rates, co-payments, and deductibles.

Rule 340. (1) A rate, co-payment, or deductible charged by the health maintenance organization shall be filed and approved, prior to becoming effective, pursuant to section 25 of the act.

(2) A health maintenance organization shall submit a written description of the methodology used to determine prepayment rates by category for approval by the commissioner.

(3) A health maintenance organization shall submit supporting data used in the development of a prepayment rate and all other data sufficient to establish the financial soundness of the prepayment plan.

(4) A rate submitted shall reflect substantial cost containment efforts.

(5) A change in a prepayment rate or nominal payment shall be submitted pursuant to sections 25 and 26 of the act. An annual rate filing may be required as determined by the commissioner.

History: 1954 ACS 99, p. 53, Eff. Mar. 30, 1979.

R 325.6345 Provider contracts or amendments.

Rule 345. (1) A health maintenance organization shall enter into contracts with providers through which health care services are usually provided to enrollees under the health maintenance organization plan. The commissioner may waive this requirement where the health maintenance organization has demonstrated it is unable to obtain a contract, and accessibility to patient care would not be compromised.

(2) A contract or amendment shall not take effect until a copy of the contract or amendment has been filed with the director. A contract or amendment shall not be effective until 30 days after filing unless approved within the 30 days. If the commissioner is not satisfied within the 30-day period that a contract or amendment is lawful, fair, and reasonable, and contains appropriate cost containment provisions, the health maintenance organization shall be notified, and the health maintenance organization shall not make effective the contract or amendment.

(3) The commissioner may, upon not less than 60 days' written notice to a health maintenance organization, withdraw approval, deemed or actual, or a provider contract or amendment. Written notice shall state the reasons for withdrawal of approval.

(4) The commissioner or the director may require the submission, by any party to a provider contract, of information deemed necessary for a determination under this rule.

History: 1954 ACS 99, p. 54, Eff. Mar. 30, 1979.

R 325.6350 Reinsurance contracts or amendments.

Rule 350. (1) A health maintenance organization shall obtain a reinsurance contract, as may be necessary or required by the commissioner, to ensure solvency or provider coverage for undue risk. The reinsurance contract may include, but shall not be limited to, individual stop-loss insurance. A reinsurance contract shall be with a company which meets the requirements for conducting business in Michigan.

(2) A reinsurance contract or amendment shall be filed with the director within 5 working days of the finalization of a contract or amendment and shall be subject to the approval of the commissioner.

(3) A reinsurance contract and amendment shall be deemed approved after 30 days unless disapproved in writing prior to the thirtieth day of receipt by the commissioner.

(4) A reinsurance contract or amendment shall clearly state all services to be received by the health maintenance organization, including, but not limited to, actuarial services, marketing services, and enrollee portability coverage.

History: 1954 ACS 99, p. 54, Eff. Mar. 30, 1979.

R 325.6355 Insurance against loss; self-insurance arrangements.

Rule 355. (1) A health maintenance organization shall maintain insurance coverage to protect the health maintenance organization from excessive loss, which may include, but is not limited to, fire, theft, general liability, and malpractice insurance.

(2) Coverage against loss shall be subject to review by the commissioner.

(3) A proposed self-insurance arrangement shall be filed with, and approved by, the commissioner prior to becoming effective.

History: 1954 ACS 99, p. 54, Eff. Mar. 30, 1979.

R 325.6360 Verification of eligibility.

Rule 360. (1) A health maintenance organization shall establish a system, approved by the commissioner, to verify an enrollee's eligibility for services.

(2) A person presenting appropriate identification of membership shall not be denied services because of provider's inability to verify eligibility.

History: 1954 ACS 99, p. 54, Eff. Mar. 30, 1979.

R 325.6365 Grievance procedures.

Rule 365. (1) A health maintenance organization shall establish an internal enrollee grievance procedure for approval by the commissioner which, at a minimum:

(a) Provides for a designated person responsible for administering the grievance system.

(b) Provides a designated person or phone number for receiving complaints.

(c) Ensures full investigation of a complaint.

(d) Provides for timely notification to the enrollee as to the progress of an investigation.

(e) Provides enrollee access to the governing body.

(f) Provides for notification to the enrollee of the results of the health maintenance organization's investigation and for advisement of the enrollee's right to a review of the grievance by the commission.

(g) Provides summary data on the number and types of complaints filed.

(h) Provides for periodic management and governing body review of the data to assure that appropriate actions have been taken.

(2) Copies of all complaints and responses shall be available at the principal office of the health maintenance organization for inspection by the commissioner or the director for 2 years following the year the complaint was filed.

History: 1954 ACS 99, p. 54, Eff. Mar. 30, 1979.

PART 4. SUBSCRIBER CONTRACTS, COVERAGE, AND RELATED REQUIREMENTS

R 325.6401 Health maintenance contracts; evidence of coverage and rates; filing.

Rule 401. (1) A proposed health maintenance contract, or other evidence of *coverage for subscribers,* and the rate shall be filed for approval. A contract and

rate developed and proposed subsequent to licensure shall be filed with the director pursuant to section 25 of the act.

(2) A proposed amendment, rider, or change in a contract, or other evidence of coverage, or a rate shall be filed with the director pursuant to sections 25, 26(2), and 27 of the act.

History: 1954 ACS 99, p. 55, Eff. Mar. 30, 1979.

R 325.6405 Health maintenance contracts; contents.

Rule 405. (1) A contract between the health maintenance organization and a subscriber shall include any approved riders, amendments, and the enrollment application.

(2) A health maintenance contract shall include at least the following:

(a) Name, address, general description of the plan, and statement of purpose.

(b) Definition of terms subject to interpretation.

(c) Effective date and duration of coverage.

(d) Conditions of eligibility.

(c) Effective date and duration of coverage.

(d) Conditions of eligibility.

(e) Responsibility for payments.

(f) Description of specific benefits and services available under the contract, within the service area, with respective co-payments.

(g) Description of emergency and out-of-area services.

(h) A specific description of any limitation, exclusion, and exception, including any pre-existing condition limitation, grouped together with captions in boldface type.

(i) Covenants which address confidentiality, enrollee's right to choose or change primary care physician or other providers, availability of services, accessibility, and any rights of the enrollee to inspect and review records.

(j) Covenants of the subscriber shall address: timely payment, non-assignment of benefits, truth in application and statements, notification of change in address, and theft of membership identification.

(k) Enrollee participation in the health maintenance organization, including at least a statement of subscriber representation, election of the governing body, and a statement of responsibilities and rights regarding the grievance procedure.

(l) A statement regarding subrogation and coordination of benefits provisions, including any responsibility of the enrollee to cooperate.

(m) A statement regarding conversion rights.

(n) Provisions for adding new family members or other acquired dependents, including conversion of individual contracts to family contracts and vice versa, and time constraints imposed.

(o) Provisions for grace periods for late payments.

(p) Description of any specific terms under which the health maintenance organization or the subscriber can terminate the contract.

(q) Non-assignability of contract.

History: 1954 ACS 99, p. 55, Eff. Mar. 30, 1979.

R 325.6410 Health maintenance contracts; cancellation generally.

Rule 410. (1) A non-group subscriber, in addition to other rights available to revoke an offer, may cancel a health maintenance contract within 72 hours after signing. Any deposit or prepayment made shall be promptly refunded. A non-group subscriber shall be responsible for payment of reasonable fees for any services received during the 72 hours.

(2) Cancellation shall occur when written notice of cancellation is mailed or hand delivered to the organization or to its agent or representative.

(3) Notice of cancellation shall be sufficient if it indicates the intention of the person not to be bound by the contract or application.

(4) The right of cancellation shall appear in boldface type on the same page the individual subscriber signs to bind the contract.

History: 1954 ACS 99, p. 55, Eff. Mar. 30, 1979.

R 325.6415 Health maintenance contracts; conditions of cancellation; enrollee's rights and options; effect of continued prepayment during appeal.

Rule 415. (1) A health maintenance contract shall clearly delineate all conditions under which the health maintenance organization may cancel coverage for an enrollee.

(2) A health maintenance contract for non-group subscribers, or group subscribers not subject to section 25(2) of the act, shall specify an enrollee's rights and options in the case of a proposed amendment or change in the contract or the rate charged, and such contract shall be in accord with section 26(3) of the act and these rules.

(3) Continued prepayment by the subscriber during the period for appeal, and while an appeal is in progress, shall not be deemed to constitute acceptance of the proposed amendment or rate change.

History: 1954 ACS 99, p. 56, Eff. Mar. 30, 1979.

R 325.6420 Hearing on termination of coverage.

Rule 420. (1) When a hearing is requested in conjunction with a termination, the subscriber shall have the right to continued coverage during the pendency of the hearing and a period of not more than 30 days after the decision of the commission is made known, with prepayment consistent with the respective period of coverage.

(2) Upon receipt of a request for a hearing, the director shall:

(a) In conjunction with the chairperson of the commission, advise the appellant, within 20 days after receipt of the appeal, as to the date, time, and place of the scheduled hearing.

(b) In conjunction with the chairperson of the commission, notify the commissioner, the health maintenance organization, and the enrollee of the time and place of the hearing.

(3) The burden of proof shall be upon the health maintenance organization to show that it has good cause for cancellation, except that, when the cancellation is for nonpayment of charges, the burden of proof shall be upon the enrollee to show a tender of payment before the date of cancellation, or that the nominal charges act as a barrier to services.

(4) Within a reasonable time after the conclusion of the hearing, the commission shall notify both parties, in writing, of its decision.

History: 1954 ACS 99, p. 56, Eff. Mar. 30, 1979.

R 325.6425 Identification as evidence of enrollment.

Rule 425. (1) A subscriber shall receive identification as evidence of enrollment under a health maintenance contract.

(2) A health maintenance organization shall cause to be inscribed on, or otherwise affixed to, the identification the mailing address and telephone number *of the plan.*

(3) The identification shall be accepted as evidence of enrollment by all affiliated providers unless ineligibility is otherwise verified.

History: 1954 ACS 99, p. 56, Eff. Mar. 30, 1979.

R 325.6430 Information to which subscriber entitled; filing; changes.

Rule 430. (1) In addition to the health maintenance contract and identification, a subscriber shall receive at the time of enrollment or be mailed or delivered within 15 days:

(a) Address, telephone numbers, and hours of appropriate primary care facilities, including the names, addresses, and telephone numbers of ambulances, hospitals, other facilities, and answering services with which the health maintenance organization has arrangements for emergency service.

(b) Delineation of services available.

(c) Instructions on choosing a primary care site and physician, and how to obtain services of other health care professionals.

(d) Procedures for appointments, walk-ins, and urgent conditions.

(e) Procedures to be followed in cases of emergency or out-of-area services.

(f) The telephone number, address, and clear instructions on where and how the enrollee can file complaints or grievances.

(g) A listing, which identifies the subscriber representatives, of the names of the members of the governing body.

(h) Procedures for enrollee contact with members of the governing body.

(i) A concise description of the process and methods of election and participation of governing board members.

(2) The information shall be filed prior to licensure. Changes shall be submitted for approval not less than 15 days prior to use, and shall be deemed approved if not disapproved within 15 days.

History: 1954 ACS 99, p. 56, Eff. Mar. 30, 1979.

PART 5. MARKETING AND ENROLLMENT

R 325.6501 Marketing and enrollment plan.

Rule 501. (1) A health maintenance organization shall at the time of initial state licensure, and with each application for renewal license, submit to the director for approval by the commissioner a marketing and enrollment plan.

(2) The plan shall be in accord with sections 11(g), 12(c), 23, 24, and 32 of the act and these rules, and shall include:

(a) Description of the data, information, methodology, and assumptions used in projecting enrollment levels by enrollment category, including at least a 2-year projection for enrollment.

(b) Description of proposed marketing and enrollment methods.

(c) Description of type and number of marketing and enrollment people, including internal staff; proposed external solicitors, agents, or other enrollment representatives; insurance company or other third-party consultation or services in relation to marketing enrollment; and designation of the administrator primarily responsible for marketing and enrollment.

(d) Description of methods and mechanisms employed to ensure accountability of enrollment representatives.

(e) All proposed promotional, advertising and informational materials, including, but not limited to, descriptive literature, form letters, advertising copy, and scripts and illustrations for radio, television, or films.

(f) Description of the enrollment process, including, but not limited to, the application or related forms, application procedures, processing steps, and projected time frame for processing applications.

(3) The commissioner may withdraw approval, deemed or actual, of any marketing or enrollment method or material, and shall provide the health maintenance organization, not less than 20 days in advance of the effective date of the withdrawal, written notice of withdrawal, stating the reasons and advisement of the right to request a hearing.

History: 1954 ACS 99, p. 57, Eff. Mar. 30, 1979.

R 325.6505 Advertising; solicitation materials.

Rule 505. (1) Advertising, solicitation materials, and similar copy for public or enrollee information shall be truthful and not misleading in fact or implication.

(2) A word or phrase, the meaning of which is unclear or the understanding of which depends upon familiarity with technical terminology, shall not be used.

(3) All printed or published materials shall contain the name and address of the health maintenance organization as filed with the director.

(4) All advertising performed by or on behalf of a health maintenance organization shall either relate to enrollment, rates, benefits provided or benefits changed, or shall be of an educational nature in content.

(5) A health maintenance organization shall maintain at its principal office a complete file containing every printed, published, or prepared advertising brochure; form letter of solicitation; evidence of coverage, certificate, agreement or contract; and a copy of all radio and television forms disseminated in this or any other state. The file shall be maintained for a period of not less than 2 years.

History: 1954 ACS 99, p. 57, Eff. Mar. 30, 1979.

R 325.6510 Agents, solicitors, and enrollment representatives.

Rule 510. (1) An agent, solicitor, or other enrollment representative of a health maintenance organization engaged in soliciting or enrolling subscribers is bound by these rules, and the health maintenance organization is responsible for the acts of its representatives in soliciting and enrolling subscribers.

(2) The commissioner may require full disclosure of all sales arrangements, including methods of payment to sales representatives, and may review such arrangements for approval or disapproval.

(3) A health maintenance organization shall immediately report to the commissioner any judgment or injunction entered against an agent, solicitor, or other enrollment representative of the health maintenance organization on the basis of conduct deemed to have involved fraud, deceit, misrepresentation, or other violation, as well as all complaints or charges of misconduct lodged against him with the health maintenance organization, with a public agency of this state or another state, or with the federal government.

History: 1954 ACS 99, p. 57, Eff. Mar. 30, 1979.

R 325.6515 Enrollment of individuals and groups representative of population; limitations.

Rule 515. A health maintenance organization accepting enrollment of the general public shall use its best efforts to enroll individuals and groups who are representative of the population within the health maintenance organization service area, except that enrollees of a health maintenance organization covered *under medicaid and medicare* contracts shall not constitute more than 50% of the

total enrollment unless it is demonstrated there is good cause, and the commissioner, with the advice of the director, waives the requirement.

History: 1954 ACS 99, p. 58, Eff. Mar. 30, 1979.

PART 6. STANDARDS FOR SERVICES, STAFFING, QUALITY ASSURANCE AND UTILIZATION REVIEW

R 325.6601 Quality assurance program; conduct; contents.

Rule 601. A health maintenance organization shall have formal organizational arrangements for an ongoing quality assurance program, which shall be conducted in accordance with a written plan approved by the governing body and the director. At a minimum, the plan shall include:

(a) The role and responsibilities of the medical director.

(b) An organizational structure created for the purpose of monitoring, reviewing, and evaluating the quality of health care services provided and the appropriateness of health care resources utilized.

(c) The establishment of standards and the development of criteria against which the quality of health services can be assessed.

(d) Arrangements for the ongoing collection and review of utilization data.

(e) Mechanisms assuring that data collected is based on the total enrolled population or on a valid sample.

(f) Provisions for combining utilization data and financial data into management reports which shall be available to the director and the commissioner.

(g) Arrangements for routine reporting of results of quality assurance program activities to the governing body, administration, providers, enrollees, and the director.

(h) Provisions for initiating corrective actions where deficiencies in individual provider or organizational performance are identified.

(i) Provisions for re-evaluating previously identified problem areas in which corrective action has been initiated.

History: 1954 ACS 99, p. 58, Eff. Mar. 30, 1979.

R 325.6605 Review procedure for inpatient health facility utilization.

Rule 605. The health maintenance organization shall assure an internal review procedure for inpatient health facility utilization, which shall contain provisions for:

(a) Prior plan authorization of elective admissions to inpatient health facilities.

(b) Certification of need by affiliated physician for elective admissions to inpatient health facilities.

(c) Establishment of concurrent review procedures for all inpatient health facility admissions, including assignment of estimated length-of-stays based upon published norms specific to admitting diagnosis, adjusted for age and applicable operative status, and developed by recognized abstracting services or third-party payors.

(d) The role of the medical director in concurrent and retrospective analyses of inpatient stays which exceed recognized norms.

History: 1954 ACS 99, p. 58, Eff. Mar. 30, 1979.

R 325.6610 Medical audits; clinical indexing procedure.

Rule 610. (1) The health maintenance organization shall conduct, at least quarterly, medical audits for the purpose of:

(a) Assuring the adequacy, maintenance, and documentation of clinical patient data in the clinical records.

Digitized by Google

(b) Evaluating continuity and coordination of patient care.

(c) Assessing the quality of health and medical care provided.

(2) The medical record system shall include a clinical indexing procedure for the purpose of retrieval of clinical patient records by diagnosis or category of service.

History: 1954 ACS 99, p. 59, Eff. Mar. 30, 1979.

R 325.6615 Health care evaluations.

Rule 615. (1) The health maintenance organization shall assure that health care evaluations are conducted to promote the effective and efficient use of available health facilities, services, and personnel consistent with enrollee needs and professionally recognized standards of health care, including nursing care.

(2) The evaluations shall emphasize identification and analysis of patterns of patient care and recommend appropriate changes for maintaining consistently high quality patient care as well as effective and efficient use of services.

(3) The health care evaluations shall utilize criteria and standards established by the members of the quality assurance program.

(4) At least 1 evaluation shall be in progress at any given time and at least 1 study shall be completed each year.

History: 1954 ACS 99, p. 59, Eff. Mar. 30, 1979.

R 325.6620 Quality assurance program; minutes and records.

Rule 620. (1) Minutes and records of quality assurance program activity shall be maintained for a period of 3 years.

(2) The minutes and records shall be available to the director for purposes of examination and review.

History: 1954 ACS 99, p. 59, Eff. Mar. 30, 1979.

R 325.6625 Diagnostic and therapeutic radiology services; pharmacy services; clinical pharmacy services; nutrition and dietetic services.

Rule 625. (1) Diagnostic and therapeutic radiology services shall be provided under the direction of a licensed physician. Radiographic interpretation services shall be under the direction of a board certified or board eligible radiologist. Radiographic x-ray equipment shall be registered with the division of radiological health, Michigan department of public health, with evidence of compliance with the ionizing radiation rules of the Michigan department of public health.

(2) Pharmacy services or clinical pharmacy services, when provided, shall be under the control and direction of a licensed pharmacist. Pharmacy services or clinical pharmacy services shall be consistent with standard professional practice.

(3) Nutrition and dietetic services, when identified as a service, shall be provided by, or with the consultation of, a professionally qualified nutritionist or dietitian, and shall consist of nutrition education and counseling.

History: 1954 ACS 99, p. 59, Eff. Mar. 30, 1979.

R 325.6630 Preventive health services.

Rule 630. In support of the provision of health services, a health maintenance organization shall make available to its members the following:

(a) Screening or physical examination specific as to age or sex.

(b) Preventive health education services and education in the appropriate use of health services and in the contribution each member can make to the maintenance of his own health.

(c) Information about the health maintenance organization's services.

History: 1954 ACS 99, p. 59, Eff. Mar. 30, 1979.

R 325.6635 Professional staff.

Rule 635. (1) A health maintenance organization shall assure the maintenance of professional staff sufficient to meet the needs of its membership. Disclosure of the ratio of full-time equivalent physicians and other health professionals to prepaid enrollees shall be made to the director.

(2) The specialty mix of physicians shall be consistent with the projected health needs of the population enrolled or to be enrolled, the experienced need of like organizations both within and without the state, and accepted standards consistent with the practice of quality medicine. Physicians identified as specialists shall be certified by the appropriate specialty boards or shall be qualified to take the examinations offered by the specialty boards.

(3) Each health maintenance organization shall have available at least 2 licensed physicians to ensure the provision of adequate patient care 24 hours a day.

(4) A health maintenance organization shall provide assurance that all physicians and other health professionals engaged in the provision of health services to enrollees are currently licensed or certified by the state to practice their respective profession. Services provided by health professionals performing their art in an adjacent state shall be licensed, if required, by their resident state.

History: 1954 ACS 99, p. 59, Eff. Mar. 30, 1979.

R 325.6640 Nonprofessional staff.

Rule 640. Nonprofessional health care staff shall perform their health care functions under the direction of a licensed physician or appropriate health professional affiliated with the health maintenance organization.

History: 1954 ACS 99, p. 60, Eff. Mar. 30, 1979.

PART 7. FACILITY STANDARDS

R 325.6701 Utilization of licensed or certified facilities; requirements as to laboratories exempt from licensure; x-ray facilities and equipment.

Rule 701. (1) A health maintenance organization shall utilize only health facilities which are licensed or certified by the director or by another state agency.

(2) A laboratory exempt from licensure under Act No. 235 of the Public Acts of 1968, as amended, may be used by the primary care physician who owns and operates it for his own patients. The laboratory shall be directed by a physician licensed to practice medicine or osteopathy in this state and the laboratory must conform to administrative rules for laboratory operations, performance evaluation, and quality control procedures as apply to licensed laboratories, being R 325.2351 to R 325.2369 of the Michigan Administrative Code.

(3) X-ray facilities and equipment shall be in compliance with existing codes, standards, and law.

History: 1954 ACS 99, p. 60, Eff. Mar. 30, 1979.

R 325.6705 Narrative facility program.

Rule 705. A health maintenance organization shall provide to the director, as part of its initial or renewal application for a license, a narrative facility program for review and approval. A narrative facility program shall include, for other than licensed health facilities, a description of the internal spatial, operational, and departmental relationships; service elements to be accommodated; and other information as the director may require to evaluate the adequacy and acceptability of existing or proposed facilities.

History: 1954 ACS 99, p. 60, Eff. Mar. 30, 1979.

R 325.6710 Premises; building, equipment, fixtures, and operations; administrative offices.

Rule 710. (1) The premises of the health maintenance organization's facilities, including those of affiliated providers, shall be maintained in a safe and sanitary condition in a manner consistent with the public health and welfare, and shall be of safe construction and free from hazards to patients, personnel, and visitors.

(2) The building, equipment, fixtures, and operation shall comply with applicable fire, safety, and sanitation codes.

(3) The health maintenance organization administrative office shall comply with applicable zoning and building ordinances and codes. The administrative office shall be adequate in size and functional in configuration to permit and promote efficient program administration.

History: 1954 ACS 99, p. 60, Eff. Mar. 30, 1979.

R 325.6715 The exterior of a freestanding outpatient facility; requirements.

Rule 715. The exterior of a freestanding outpatient facility shall have:

(a) At least 1 entrance providing safe and easy access for the physically handicapped, and shall comply with Act No. 1 of the Public Acts of 1966, as amended, being §125.1351 et seq. of the Michigan Compiled Laws.

(b) Handrails on both sides of ramps and stairs.

(c) Sufficient lighting of ramps and stairs to assure the safety of persons using the facility.

History: 1954 ACS 99, p. 60, Eff. Mar. 30, 1979.

R 325.6720 Lighting; ventilation; corridors, hallways, passageways, and doorways; floors, walls, and ceilings; emergency electrical service; door width; freestanding outpatient facility.

Rule 720. (1) Each area of the facility shall be provided with lighting adequate for the use to be made of the location and in accord with generally recognized lighting standards.

(2) Each area of the facility shall be provided with a type and amount of ventilation commensurate with its use, to minimize the occurrence of transmissible disease, to control odors, and to contribute to the comfort of patients and personnel.

(3) Corridors, hallways, passageways, and doorways shall be kept free from obstruction at all times.

(4) Floors, walls, and ceilings shall be covered and finished in a manner that will permit maintenance of a sanitary environment.

(5) Emergency electrical service shall be permanently installed to provide lighting in corridors, exits, and other critical areas.

(6) Patient examination and procedure rooms shall have a minimum door width of 30 inches. New construction or remodeled areas shall have a door width of 3 feet.

History: 1954 ACS 99, p. 61, Eff. Mar. 30, 1979.

R 325.6725 Elevators; freestanding outpatient facility.

Rule 725. In new construction, after the effective date of these rules, an elevator shall be required when patient care is provided at different floor levels. The cab size of the elevator shall be sufficient to accommodate a stretcher and attendant.

History: 1954 ACS 99, p. 61, Eff. Mar. 30, 1979.

R 325.6730 Required areas and rooms; drinking fountain; freestanding outpatient facility.

Rule 730. (1) Space shall be provided for adequate reception, waiting, interviewing, and administrative and business office functions.

(2) One or more rooms equipped with water closets and lavatory facilities shall be provided near the waiting and reception areas.

(3) In new construction or renovations, an approved-type public drinking fountain shall be provided.

History: 1954 ACS 99, p. 61, Eff. Mar. 30, 1979.

R 325.6735 Sinks; sterilization equipment; storage space; freestanding outpatient facility.

Rule 735. (1) A sink with gooseneck outlet shall be available in, or adjacent to, examination and procedure rooms.

(2) Sterilization equipment shall be provided to process all medical supplies which require sterilization between uses. Equipment shall have sufficient capacity to accommodate the work load of the facility. Adequate space for sterilization equipment shall be provided.

(3) Storage space shall be available for the storage of clean linen, equipment, supplies, wheelchairs, and stretchers.

(4) Space shall be available for temporary holding of waste materials and cleaning of items to be reused.

(5) A janitor's closet with service sink shall be available.

History: 1954 ACS 99, p. 61, Eff. Mar. 30, 1979.

R 325.6740 Examination rooms; heating system; electrical outlets and equipment; freestanding outpatient facility.

Rule 740. (1) Examination rooms shall be provided adequate to meet the volume of work to be accomplished, and each room shall provide a minimum of 70 square feet of usable floor space. In new construction or renovations, 80 square feet of usable floor space shall be provided.

(2) A safe central heating system shall be provided.

(3) Duplex electrical outlets with a 3-wire system shall be provided in sufficient numbers to meet the needs of the areas served.

(4) Electrical equipment shall be maintained in good repair and shall be properly grounded.

History: 1954 ACS 99, p. 61, Eff. Mar. 30, 1979.

R 325.6745 Water system; freestanding outpatient facility.

Rule 745. (1) A facility located in an area served by a public water system shall connect to and use that system.

(2) When a public water system is not available, the location and construction of a well and the operation of a private water system shall comply with the Michigan department of public health rules entitled "Minimum Standards for the Location and Construction of Water Supplies," being R 325.1451 to R 325.1461 of the Michigan Administrative Code.

(3) There shall be no cross-connections between water systems that are safe for human consumption and those that are, or may become, unsafe for human consumption.

(4) Minimum water pressure available to each plumbing fixture shall exceed 20 pounds per square inch.

(5) The plumbing system shall supply an adequate amount of hot water at all times to meet the needs of the various service areas. Hot water accessible to the public shall be tempered to a range of 110 to 125 degrees Fahrenheit.

History: 1954 ACS 99, p. 62, Eff. Mar. 30, 1979.

R 325.6750 Liquid waste disposal; freestanding outpatient facility.

Rule 750. (1) Liquid wastes shall be discharged into a public sanitary sewage system when such a system is available.

(2) When a public sanitary sewage system is not available and a private liquid wastewater disposal system is used, the type, size, construction, and alteration of, or major repair to the system shall be approved by the director.

(3) The wastewater disposal system shall be maintained in a sanitary manner.

History: 1954 ACS 99, p. 62, Eff. Mar. 30, 1979.

R 325.6755 Solid waste disposal; freestanding outpatient facility.

Rule 755. (1) The collection, storage, and disposal of solid wastes, refuse, and dressings shall be accomplished in a safe and sanitary manner to minimize the danger of disease transmission and to avoid creating a public nuisance or a breeding place for insects and rodents.

(2) Suitable containers for refuse, dressings, and other solid wastes shall be provided, emptied at frequent intervals, and maintained in a clean and sanitary condition.

(3) Needles, dressings, bandages, and similar materials shall be disposed of in a safe manner.

History: 1954 ACS 99, p. 62, Eff. Mar. 30, 1979.

R 325.6760 Storage of hazardous and toxic materials; central general storage room; supplies of linens, dressings, and similar items; drugs; freestanding outpatient facility.

Rule 760. (1) Hazardous and toxic materials shall be stored in a safe manner.

(2) A central general storage room shall be provided with space necessary to meet storage needs of the facility.

(3) Supplies of linens (gowns, drapes, towels, etc.), gloves, dressings, bandages, and similar items shall be maintained in sufficient quantities for regular use.

(4) The drug storage, dispensing, and administration system shall comply with applicable state laws and administrative rules.

History: 1954 ACS 99, p. 62, Eff. Mar. 30, 1979.

R 325.6765 Construction; requirements; plans and specifications; permit; certification of fire safety.

Rule 765. (1) New construction of a freestanding outpatient facility shall meet the requirements of section 9 of the publication entitled "Outpatient Facilities, Minimum Requirements of Construction and Equipment for Hospital and Medical Facilities," 1974, published by the U.S. department of health, education and welfare. A copy of the above publication shall be available for public inspection in the office of the bureau of health care administration, Michigan department of public health, Lansing, Michigan. Copies of the publication shall be made available, at cost and upon request, by the bureau of health care administration, Michigan department of public health, Lansing, Michigan.

(2) A health maintenance organization planning new construction, or an addition to, the modernization of, or other structural building change which involves relocation of services, in a facility other than a licensed health facility, but *including a freestanding* outpatient facility, shall, through its governing body,

owner, authorized representative, architect, or professional engineer, submit plans and specifications to the director for review and approval.

(3) Start of new construction, or an addition to, the modernization of, or major building change in, a facility, or conversion of an existing building to use as a facility, shall not be initiated until the health maintenance organization has received a construction permit from the director pursuant to section 10(1)(b) of the act or applicable state statute.

(4) A construction permit shall be valid for 12 months from the date of issue.

(5) Certification of fire safety shall be filed with the director prior to occupancy.

History: 1954 ACS 99, p. 62, Eff. Mar. 30, 1979.

R 325.6770 Inspection or review of facilities.

Rule 770. (1) The director shall routinely, or upon complaint, inspect freestanding outpatient facilities to ensure compliance with the act, these rules, and any applicable federal, state, and local ordinance, code, law, and rule.

(2) The director may review affiliated providers' unlicensed facilities to determine that the facilities are maintained in a safe and sanitary condition in a manner consistent with the public health and welfare and free from hazards to patients, personnel, and visitors.

History: 1954 ACS 99, p. 63, Eff. Mar. 30, 1979.

PART 8. ENROLLEE CLINICAL RECORDS: REPORTS AND INSPECTIONS

R 325.6801 Clinical patient records; medical records service; record administrator or technician.

Rule 801. (1) The health maintenance organization shall assure the maintenance of a clinical patient record in accordance with accepted professional standards and practices.

(2) A clinical patient record of health maintenance services provided on an inpatient basis in licensed health facilities shall be the responsibility of the inpatient facility, and shall be available to the health maintenance organization and to the director or his authorized representative for purposes of examination, investigation, and review.

(3) The medical records service shall have sufficient staff, facilities, and equipment to maintain clinical records that are complete and accurately documented, readily accessible, and organized so as to facilitate retrieval and compilation of information.

(4) A person in each primary care site of the health maintenance organization shall be designated as the person with the responsibility for assuring the records are maintained, completed, and preserved. The designated individual shall, if not already a registered medical record administrator or accredited record technician, be trained by, and shall receive consultation from, a registered record administrator or an accredited record technician.

History: 1954 ACS 99, p. 63, Eff. Mar. 30, 1979.

R 325.6805 Clinical patient records; contents; entries; organization; reports.

Rule 805. (1) The health maintenance organization shall assure the maintenance of a unit clinical record and to the extent possible shall assure that each person receiving services shall have an initial medical evaluation as outlined in subdivision (b) below. The record shall be current and shall include:

(a) An identification sheet, including the enrollee's name, date of birth or age, sex, and name of next-of-kin, responsible person or person to contact in case of emergency.

(b) An initial medical evaluation, including past medical history, personal history, family history, and documentation of the results of a base line physical examination or age sex specific screening.

(c) Laboratory and radiology reports.

(d) Consultation reports.

(e) Dental reports.

(f) Vision reports.

(g) Copies of discharge summaries from inpatient health facilities.

(h) Copies of reports of services by affiliated and non-affiliated providers.

(i) Physicians' and other health professionals' clinical or progress notes documenting the reason for each encounter or visit provided to the enrollee.

(j) Drug reactions.

(k) Allergies.

(l) Immunization record.

(2) An entry in a clinical patient record shall be dated and signed by the provider of the service.

(3) The clinical patient record shall be organized and maintained in a manner that facilitates review and reporting of clinical information.

(4) A report of external referral or inpatient service shall be entered into the clinical patient record within 60 calendar days following the completion of services by the provider.

History: 1954 ACS 99, p. 63, Eff. Mar. 30, 1979.

R 325.6810 Clinical patient records; confidentiality; disclosure; availability; storage and preservation.

Rule 810. (1) Information contained in the clinical patient record shall be treated as confidential, shall be disclosed only to authorized persons, and shall be available at all times to the director or authorized representative for purposes of examination and review.

(2) An inactive record shall be safely stored and preserved as an original record or microfilm and shall afford a basis for a complete examination and evaluation of professional information and provider clinical performance.

(3) The health maintenance organization shall establish a contingency program to assure the availability of enrollee clinical records for a 5-year period in the event of dissolution of the health maintenance organization.

History: 1954 ACS 99, p. 64, Eff. Mar. 30, 1979.

R 325.6815 Annual report; contents; submission of cumulative data.

Rule 815. (1) In addition to the requirements of section 38 of the act, the annual report shall include, but not be limited to:

(a) Summary statistics relative to the enrolled population, including distribution by age and sex, method of payment, contract type, and family size.

(b) Aggregate data of service utilization, expressed as a ratio of total encounters by service to the number of enrollee months.

(c) Descriptive summaries of health care evaluation undertaken and completed during the year.

(d) Report of the number of contract cancellations by subscribers.

(2) The director and the commissioner may require that the cumulative data for the verified annual report be submitted on a quarterly basis.

History: 1954 ACS 99, p. 64, Eff. Mar. 30, 1979.

R 325.6820 Encounter data.

Rule 820. (1) The health maintenance organization shall submit valid sampling of encounter data in accordance with methodology approved by the director.

(2) The encounter data sampling shall be current and submitted monthly during the initial licensure period or any period of provisional licensure and quarterly during an unrestricted renewal licensure.

History: 1954 ACS 99, p. 64, Eff. Mar. 30, 1979.

R 325.6825 Annual financial report; periodic interim reports.

Rule 825. (1) The annual financial report of the health maintenance organization shall be in accord with section 38(2)(a) of the act, and shall contain information and be prepared on forms prescribed by the commissioner.

(2) The commissioner may require interim reports from a health maintenance organization on such forms as the commissioner may prescribe.

History: 1954 ACS 99, p. 64, Eff. Mar. 30, 1979.

R 325.6830 Periodic examination of health care services; financial examinations.

Rule 830. (1) Periodic examination by the director regarding the quality of health care services being provided by the health maintenance organization shall include, but not be limited to, the following:

(a) Evaluation of the results of the quality assurance program and utilization review activities, and, if applicable, external review process.

(b) Evaluation of the availability, accessibility, and continuity of services.

(c) Inspection and evaluation of the clinical record system.

(d) Compliance with these rules and the act.

(2) Commissioner shall conduct a financial examination of the health maintenance organization not less than every 3 years. The commissioner may require annual financial examinations.

History: 1954 ACS 99, p. 64, Eff. Mar. 30, 1979.

R 325.6835 Grievance reports.

Rule 835. An annual report, in the form prescribed, shall be submitted to the director and contain a compilation and analysis of the complaints filed and their disposition.

History: 1954 ACS 99, p. 65, Eff. Mar. 30, 1979.

R 325.6840 Annual report to subscribers.

Rule 840. The annual report to subscribers shall be in accord with the act and shall include a summary of the most recent annual financial statement, the annual enrollment figures, a summary of current activities of the health maintenance organization, the current members of the governing body with identification of the subscriber representatives, and the procedures for enrollee contact with the governing body members.

History: 1954 ACS 99, p. 65, Eff. Mar. 30, 1979.

PART 9. HEALTH MAINTENANCE ORGANIZATION INCLUSION IN HEALTH BENEFIT PLANS

R 325.6901 Request for inclusion in employer's health benefits plan.

Rule 901. (1) A request for inclusion in an employer's health benefits plan by a health maintenance organization shall be received by the employer not less than 180 days before the expiration or renewal date of a health benefits contract or

employer-employee contract and not less than 90 days before the expiration date of a collective bargaining agreement, unless otherwise agreed to by the health maintenance organization and the employer or its designee.

(2) A health benefits contract with a carrier that has no fixed term or has a term in excess of 1 year shall be treated as renewable on the anniversary date of the contract.

(3) For an employer who is self-insured, the budget year shall be considered the term of the existing contract.

(4) An employer with a collective bargaining agreement that is automatically renewable and without fixed term, or is for a fixed term but has provisions for periodically changing the wages, hours, or conditions of employment, shall be treated as renewable on the anniversary date of the collective bargaining agreement if it has no fixed term, or at such other times, not less than annually, as may be provided by the agreement for discussion of changes in its provision.

(5) The request for inclusion in an employer's health benefits plan by a health maintenance organization shall:

(a) Be in writing and directed to the employer at the site to be solicited or to the employer's designee specifying the designated sites for solicitation.

(b) Provide a current financial report.

(c) Describe the area served by the health maintenance organization or the proposed service area.

(d) Describe the location of facilities where health services are provided or shall be provided, and the dates and hours the services shall be available.

(e) Include proposed contracts to be entered into between the health maintenance organization and the employer, or the employer's designee.

(f) Include sample copies of marketing brochures and membership literature.

(g) State the prepayment rate for primary and basic health services for various categories of membership.

(h) Identify the staff and ownership of the health maintenance organization and facilities providing health maintenance services for the organization.

(i) State the health maintenance organization's capacity to enroll new members and the likelihood of any future limitations on enrollment.

History: 1954 ACS 99, p. 65, Eff. Mar. 30, 1979.

R 325.6905 Option of membership in health maintenance organization generally.

Rule 905. (1) An employer is not required to include in a health benefits plan offered to eligible employees the option of membership in a health maintenance organization which initially requested inclusion in the health benefits plan in a timely manner, but may select 1 or more other health maintenance organizations that may have not made a timely request, but wish to be included.

(2) The employer may include in the health benefits plan offered to employees the option of membership in additional health maintenance organizations as he may decide to include, provided that, if the employer is subject to section 8 of the national labor relations act, 29 U.S.C. 158, or applicable state statute, the selection among competing health maintenance organizations shall be made in accordance with the collective bargaining process of the act.

History: 1954 ACS 99, p. 65, Eff. Mar. 30, 1979.

R 325.6910 Option of membership in health maintenance organization; offers generally.

Rule 910. (1) Each employer subject to section 43 of the act shall offer the option of membership in a licensed health maintenance organization to each *eligible employee.*

(2) For an employee represented by a collective bargaining representative, the offer of the health maintenance organization option is subject to the collective bargaining process.

(3) For an employee not represented by a collective bargaining representative, the offer of the health maintenance organization option shall be made directly by the employer.

(4) Employee eligibility for participation in a health benefits plan is established under the employer's existing procedures.

History: 1954 ACS 99, p. 66, Eff. Mar. 30, 1979.

R 325.6915 Group enrollment period; affirmative written selection; coordination of benefits.

Rule 915. (1) An employer or designee including the option of membership in a health maintenance organization as part of the health benefits plan offered to eligible employees shall provide a group enrollment period of at least 10 working days each calendar year during which eligible employees may enroll in a health maintenance organization or may transfer from a health maintenance organization to any other alternative without application of a waiting period for pre-existing conditions.

(2) During the group enrollment period in which the alternative of membership in a licensed health maintenance organization is offered to a group of employees for the first time, the health benefits plan alternative shall be presented to each eligible employee, with the requirement that an affirmative written selection shall be made among the different alternatives included in the health benefits plan. In subsequent group enrollment periods, when selection among alternatives is available, written selection is required only when the eligible employee elects to transfer from one alternative to another.

(3) These rules shall not preclude the uniform application of coordination of benefits arrangements between the health maintenance organization and other alternatives included in the health benefits plan at the time of transfer from one alternative to another.

History: 1954 ACS 99, p. 66, Eff. Mar. 30, 1979.

R 325.6920 Option of membership in health maintenance organization; availability to certain eligible employers; affirmative written selection.

Rule 920. (1) The option of membership in a health maintenance organization shall be available to new employees who become eligible, eligible employees who have transferred or otherwise changed their place of employment resulting in eligibility for membership in a health maintenance organization, and eligible employees covered by an alternative which ceases to be included in the employer's health benefits plan. The option of membership in a health maintenance organization shall be available without a waiting period.

(2) A newly eligible employee, eligible employee transferred from one employer location to another, and an eligible employee covered by an alternative which ceases to be included in an employer's health benefits plan shall make an affirmative written selection among the different alternatives included in the health benefits plan.

History: 1954 ACS 99, p. 66, Eff. Mar. 30, 1979.

R 325.6925 Access to employees during group enrollment periods.

Rule 925. (1) The employer shall provide each health maintenance organization which is included in its health benefits plan fair and reasonable access during group enrollment periods to eligible employees for purposes of presenting

and explaining the health services plan of the health maintenance organization. This access shall include, at a minimum, the opportunity for distribution of educational literature, brochures, announcements, and other relevant printed information approved by the commissioner.

(2) In no event shall the access to eligible employees provided to health maintenance organizations be more restrictive or less favorable than that provided other offerers of alternatives included in the health benefits plan, whether or not the representatives of the other alternatives elect to avail themselves of such access.

(3) The employer or designee and the bargaining representative shall be afforded the opportunity to review and approve all materials prior to distribution to employees. The review shall be conducted in a timely manner to preclude a delay in the group enrollment period.

History: 1954 ACS 99, p. 67, Eff. Mar. 30, 1979.

R 325.6930 Option of membership in health maintenance organization; time of offer.

Rule 930. (1) The employer or designee shall offer eligible employees the option of membership in a health maintenance organization at the earliest date permitted under the terms of existing collective bargaining agreements or employer-employee contracts.

(2) If an existing collective bargaining agreement is in force at the time the request for inclusion in the health benefits plan is made, the request shall be raised in the collective bargaining process when a new contract is negotiated, or, if the bargaining agreement is automatically renewable, then on its anniversary date or at such other times as may be provided by the agreement for discussion of changes in its provisions.

(3) In the absence of a collective bargaining agreement, if there is an existing employer-employee contract, health benefits contract, or any other arrangement which provides for a health benefits plan, the option shall be included in any health benefits plan offered to eligible employees when the existing contract is renewed or when a new health benefits contract or other arrangement is negotiated. If an employer-employee contract or health benefits contract has no fixed term or has a term in excess of 1 year, the contract shall be treated as renewable on the earliest annual anniversary date of the contract.

(4) If the employer is self-insured, the budget year shall be treated as the term of the existing contract.

(5) For an employer with multiple contracts or other arrangements included as part of the health benefits plan, which may have different expiration or renewal dates, the offer shall be included for each contract or arrangement at the time each contract or arrangement is offered to employees.

History: 1954 ACS 99, p. 67, Eff. Mar. 30, 1979.

R 325.6935 Selection of co-payment levels and supplemental services.

Rule 935. (1) For eligible employees represented by a bargaining representative, the selection of supplemental services and co-payment levels shall be subject to the collective bargaining process.

(2) For eligible employees not represented by a bargaining representative, the selection of co-payment levels and supplemental services to be offered to eligible employees shall be made through the decision-making process that exists with respect to the existing health benefits plan.

History: 1954 ACS 99, p. 67, Eff. Mar. 30, 1979.

R 325.6940 Terms of health maintenance organization alternative; employer's contribution or designee's costs.

Rule 940. (1) The health maintenance organization alternative shall be included in the health benefits plan on terms no less favorable than those on which the other alternatives in the health benefits plan are included.

(2) The administrative expense incurred in connection with offering any alternative in the health benefits plan shall not be considered in determining the amount of the employer's contribution to the health maintenance organization.

(3) The amount of the employer's contribution or designee's costs may exclude the portions of the contribution allocable to other fringe benefits for which eligible employees, or eligible employees and their eligible dependents, will continue to be covered, notwithstanding selection of membership in the health maintenance organization, and which benefits are not offered on a prepaid basis by the health maintenance organization to the employer's eligible employees.

History: 1954 ACS 99, p. 67, Eff. Mar. 30, 1979.

R 325.6945 Employer's contribution fixed by agreement or law.

Rule 945. (1) Where the specific amount of the employer's contribution for health benefits is fixed by a collective bargaining agreement, by an employer-employee contract, or by law, the amount so determined shall constitute the employer's obligation for contribution toward the health maintenance organization prepaid rate on behalf of eligible employees or eligible employees and their eligible dependents.

(2) Where the employer's contribution for health benefits is determined by a collective bargaining agreement, but the amount fixed includes a contribution for benefits in addition to health benefits, the employer shall determine, or shall instruct its designee to determine, that portion of the employer's contribution applicable directly to health benefits.

History: 1954 ACS 99, p. 68, Eff. Mar. 30, 1979.

R 325.6950 Employer's contribution not fixed by agreement.

Rule 950. In the absence of a collective bargaining agreement or employer-employee contract specifying the level of contribution for health benefits, the employer's contribution to the health maintenance organization on behalf of eligible employees or eligible employees and their eligible dependents, unless otherwise agreed to by the health maintenance organization and the employer or its designee, shall be based upon the total costs of such health benefits offered to the employees for the most recent period for which experience is available, reduced by the amounts identified in accordance with these rules.

History: 1954 ACS 99, p. 68, Eff. Mar. 30, 1979.

R 325.6955 Determination of employer's contribution or designee's costs; retention and review of data.

Rule 955. (1) An employer's contribution or designee's costs for the alternatives within the health benefits plan, other than the health maintenance organization option, shall be determined in the following manner, unless otherwise agreed to by the health maintenance organization and the employer or its designee.

(a) If the employer's contribution or designee's cost for health benefits with respect to the non-health maintenance organization alternative is determined solely on the basis of a fixed prospective amount, not subject to retrospective

adjustment, contributed by the employer or paid by the designee, then the organizational alternative for the provision of health benefits to eligible employees, or to eligible employees and their eligible dependents, under the alternatives shall be used as the basis for determining the employer's level of contribution toward the health maintenance organization prepaid rate.

(b) If the employer's contribution or designee's cost for health benefits with respect to the non-health maintenance organization alternative is determined by a contract with a carrier on any form of retrospective experience rating basis, any billing contract arrangement, any plan of self insurance, any direct service plan provided by the employer or its designee, or any other form of health benefit plan wherein the actual cost to the employer or its designee is determined retrospectively, an estimated cost shall be used to determine the level of contribution toward the health maintenance organization's prepaid rate. The estimated cost shall be determined by the employer or its designee taking into consideration factors relating to:

(i) The cost experience of the non-health maintenance organization alternative.

(ii) Allowance for inflation.

(iii) Cost differences experienced in the provision of health benefits for separate regional or local areas of employment.

(iv) Anticipated changes in the composition and experience of the covered population actually served by the non-health maintenance organization alternative attributable to the shift of enrollment to the health maintenance organization.

(v) Changes in health benefits provided by non-health maintenance organization alternatives.

(vi) Other material change in the experience rating basis under any health benefits contract for the contract year.

(2) An employer or designee shall retain for not less than 3 years the data used to compute its level of monetary contribution to the alternatives included in the health benefits plan. The data may be reviewed by the commissioner to determine whether the levels of contribution determined by the employer comply with these rules.

History: 1954 ACS 99, p. 68, Eff. Mar. 30, 1979.

R 325.6960 Summary report to employer.

Rule 960. The health maintenance organization included as an alternative in the employer's health benefits plan shall annually provide the employer with a summary report including the same information provided subscribers pursuant to section 39 of the act.

History: 1954 ACS 99, p. 69, Eff. Mar. 30, 1979.

R 325.6965 Consistency with federal law.

Rule 965. The obligation of an employer to include the option of membership in a licensed health maintenance organization in any health benefits plan offered to its eligible employees represented by a collective bargaining agent, as specified in section 43 of the act, shall be consistent with the collective bargaining provisions of the national labor relations act and the railway labor act.

History: 1954 ACS 99, p. 69, Eff. Mar. 30, 1979.

DEPARTMENT OF PUBLIC HEALTH

BUREAU OF ENVIRONMENTAL AND OCCUPATIONAL HEALTH

SUPPLYING WATER TO PUBLIC

(By authority conferred on the department of public health by sections 33 and 63 of Act No. 306 of the Public Acts of 1969, and sections 5 and 14 of Act No. 399 of the Public Acts of 1976, being §§24.233, 24.263, 325.1005, and 325.1014 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 325.10101 Purpose.

Rule 101. These rules are promulgated by the department for the purpose of protecting the public health and implementing the act, and to specify certain standards and criteria for public water supplies which are consistent and compatible with the provisions of the act and the federal act.

History: 1954 ACS 94, p. 25, Eff. Jan. 12, 1978.

R 325.10102 Definitions; A, B.

Rule 102. As used in these rules:

(a) "Act" means Act No. 399 of the Public Acts of 1976, being §§325.1001 to 325.1023 of the Michigan Compiled Laws, and known as the safe water drinking act.

(b) "Advisory board" means the advisory board of examiners appointed by the director pursuant to subsection (2) of section 9 of the act.

(c) "Alteration" means the modification of, or addition to, an existing water-works system, or a portion thereof, which affects flow, capacity, system service area, source, treatment, or reliability.

(d) "Approved basement" means a basement with walls and floor constructed of concrete or its equivalent, essentially watertight, effectively drained, and in daily use.

(e) "Aquifer" means an underground water-bearing formation that is saturated and transmits water in sufficient quantities to serve as a source of water supply.

(f) "Artesian" means a condition of internal pressure which causes the water level in a well to rise above the aquifer used to supply water at the well location.

(g) "Bottled drinking water" means water which is ultimately sold, provided, or offered for human consumption in a closed container.

History: 1954 ACS 94, p. 25, Eff. Jan. 12, 1978.

R 325.10103 Definitions; C.

Rule 103. As used in these rules:

(a) "Casing" means an impervious durable pipe placed in a well to prevent the soil from caving and to seal off surface drainage or undesirable water, gases, contaminants, or other fluids and prevent their entering the well and the aquifer supplying the well.

(b) "Casing vent" means an outlet at the upper terminal of a well casing to provide atmospheric pressure in the well and to allow the escape of gases when present.

(c) "Certificate" means a document which is issued by the department to a person meeting the qualification requirements for operation of a treatment system or for operation or maintenance of a distribution system, or a portion thereof.

(d) "Certified operator" means an operator who holds a certificate.

(e) "Check sample" means a sample collected and analyzed to confirm the results of routine monitoring and analysis.

(f) "Community supply" means a public water supply which provides year-round service to not less than 15 living units or which regularly provides year-round service to not less than 25 residents.

(g) "Complete treatment system" means a treatment system employing disinfection, coagulation, sedimentation and filtration units which function collectively to effect control over water quality characteristics to produce a finished water meeting the state drinking water standards.

(h) "Construction" means the erection, installation, or alteration of a waterworks system, or any portion thereof, which affects flow, capacity, system service area, source, treatment, or reliability.

(i) "Contested cases" means matters of issue involving orders, exemptions, variances, stipulations, consent agreements, permits, licenses, or certificates issued by the director, the department, or the division pursuant to the act and these rules, and other matters which are within the definition of a contested case as set forth by subsection (3) of section 3 of Act No. 306 of the Public Acts of 1969, as amended, being §24.203 of the Michigan Compiled Laws.

(j) "Contested case hearing" means a hearing initiated by the department or a person pursuant to chapters 4, 5, and 6 of Act No. 306 of the Public Acts of 1969, as amended, being §§24.271 to 24.306 of the Michigan Compiled Laws.

(k) "Contaminant" means a physical, chemical, biological, or radiological substance or matter in water.

(l) "Contingency plan" means a plan for use by a supplier of water in the event of an emergency.

(m) "Cross-connection" means a connection or arrangement of piping or appurtenances through which a backflow could occur.

History: 1954 ACS 94, p. 26, Eff. Jan. 12, 1978.

R 325.10104 Definitions; D, E.

Rule 104. As used in these rules:

(a) "Department" means the department of public health or its authorized agent or representative.

(b) "Deviation" means an exception to a department rule establishing minimum standards or requirements issued in writing or as a condition to a permit to a supplier of water.

(c) "Director" means the director of public health or his authorized agent or representative.

(d) "Distribution system" means a system of piping, transmission or distribution mains, pumps, pumping stations, storage tanks, controls, and associated appurtenances through which water is distributed, and used or intended for use for drinking or household purposes.

(e) "Division" means the division of water supply of the bureau of environmental and occupational health of the department.

(f) "Drawdown" means the difference between the static water level and the pumping water level in a well, or for a flowing artesian well, the difference *between an established datum* above ground and the pumping water level.

(g) "Emergency" means a situation in a public water supply resulting in the contamination, loss of pressure, lack of adequate supply of water, or other condition which poses an imminent hazard or danger to the public health.

(h) "EPA" means the United States environmental protection agency.

(i) "Established ground surface" means the intended or actual finished grade or elevation of the surface of the ground at the site of a water supply facility.

(j) "Exemption" means an order, with appropriate conditions, time schedules, and compliance requirements issued by the director to a supplier of water permitting a public water supply to be in temporary noncompliance with a state drinking water standard, including a specified treatment technique.

History: 1954 ACS 94, p. 26, Eff. Jan. 12, 1978.

R 325.10105 Definitions; F to L.

Rule 105. As used in these rules:

(a) "Federal act" means the safe drinking water act, 42 U.S.C. 300f, and 40 C.F.R., part 35, 35.600f; 40 C.F.R., part 141; and 40 C.F.R., part 142, promulgated by EPA pursuant thereto, or any subsequent revisions, modifications, or additions thereto.

(b) "Finished water" means water which is ready for distribution to the customers or users of a public water supply.

(c) "Firm capacity," as applied to wells, pumping stations, or units of treatment systems, means the production capability of each respective part of the waterworks system with the largest well, pump, or treatment unit out of service.

(d) "Gravity storage tank" means an elevated or ground level finished water storage reservoir which, during normal use, operates under atmospheric pressure.

(e) "Groundwater" means the water in the zone of saturation in which all of the pore spaces of the subsurface material are filled with water.

(f) "Grout" means neat cement, concrete, or other sealing material approved by the department used to seal a well casing in a well.

(g) "Imminent hazard" means that in the judgment of the director, there is a violation, or a condition which may cause a violation of the state drinking water standards at a public water supply requiring immediate action to prevent endangering the health of people.

(h) "License" means the license issued by the department to a water hauler, or for a water hauling tank, pursuant to section 18 of the act.

(i) "Living unit" means a house, apartment, or other domicile occupied or intended to be occupied on a day-to-day basis by an individual, family group, or equivalent.

History: 1954 ACS 94, p. 27, Eff. Jan. 12, 1978.

R 325.10106 Definitions; M to O.

Rule 106. As used in these rules:

(a) "MCL" means the maximum contaminant level for a contaminant identified under the state drinking water standards permissible in water delivered to a free flowing outlet of the ultimate user of a public water supply. In the case of turbidity, the maximum permissible level is measured at the point of entry to a distribution system. An MCL does not apply to substances added to the water under circumstances controlled by the user. An MCL does apply to contaminants resulting from corrosion of piping and plumbing caused by water quality.

(b) "Monitoring requirement" means a schedule, frequency, and location for sampling and analysis of water required by part 7 of these rules to determine

whether a public water supply is in compliance with the state drinking water standards.

(c) "Noncommunity supply" means a public water supply which is not a community supply, but which has not less than 15 service connections or which serves not less than 25 individuals on an average daily basis for not less than 60 days out of the year.

(d) "One hundred-year drought elevation" means the minimum projected water surface elevation which would occur at a location once in a period of 100 years.

(e) "One hundred-year flood elevation" means the maximum projected water surface elevation which would occur at a location once in a period of 100 years.

(f) "Operator" means an individual who operates a treatment system or operates or maintains a distribution system, or portion thereof.

(g) "Operator in charge" means an individual designated by the owner of a public water supply as the responsible individual in overall charge of a treatment system or a distribution system.

History: 1954 ACS 94, p. 27, Eff. Jan. 12, 1978.

R 325.10107 Definitions; P to R.

Rule 107. As used in these rules:

(a) "Permit" means a public water supply construction permit issued to a supplier of water by the department pursuant to section 4 of the act.

(b) "Person" means an individual, partnership, copartnership, cooperative, firm, company, public or private association or corporation, political subdivision, agency of the state, agency of the federal government, trust, estate, joint structure company, or any other legal entity, or their legal representative, agent, or assigns.

(c) "Pitless adapter" means a device or assembly of parts which permits water to pass through the wall of a well casing or extension thereof, and which provides access to the well and to the parts of the water system within the well in a manner to prevent entrance of contaminants into the well and the water produced.

(d) "Plans and specifications" means drawings, data, and a true description or representation of an entire waterworks system, or parts thereof, as it exists or is to be constructed, and a statement on how a waterworks system is to be operated.

(e) "Political subdivision" means a city, village, township, charter township, county, district, authority, or portion or combination thereof.

(f) "Production well" means a well that has been approved for use for a public water supply in accordance with part 8 of these rules.

(g) "Public hearing" means a hearing conducted by the director or the department on matters relating to the functions and responsibilities of the division for which public input is sought or desired.

(h) "Public water supply" means a waterworks system which provides water for drinking or household purposes to persons other than the supplier of water, except those waterworks systems which supply water to only 1 living unit. Those waterworks systems serving 2 to 14 living units shall be subject to only those provisions of the act necessary to assure proper construction and operation such that the quality of water distributed meets the state drinking water standards; specifically, the provisions of sections 4 and 10 shall not apply to waterworks systems serving 2 to 14 living units.

(i) "Pumping water level" means the distance measured from an established datum at or above ground to the water surface in a well being pumped at a known *rate for a known period of time.*

(j) "Raw water" means water obtained from a source by a public water supply before a supplier of water provides any treatment, or distributes the water to its customers.

(k) "Regional administrator" means the EPA region V administrator.

(l) "Resident" means an individual who owns or occupies a living unit.

History: 1954 ACS 94, p. 28, Eff. Jan. 12, 1978.

R 325.10108 Definitions; S.

Rule 108. As used in these rules:

(a) "Sanitary survey" means an evaluation, including an on-site review of a waterworks system, or a portion thereof, for existing or potential health hazards, including sampling, design, operation, and maintenance, for the purpose of determining the ability of the public water supply to produce, treat, and distribute adequate quantities of water meeting state drinking water standards.

(b) "Service connection" means a direct connection from a distribution watermain to a living unit or other facility for the purpose of providing water for drinking or household purposes. A service connection is not designed to be an integral part of the network of distribution watermains.

(c) "Shift operator" means an operator, other than the operator in charge, who is in charge of a work shift of a treatment system at a surface water supply.

(d) "Source" means the point of origin of raw water, or treated water which is purchased or obtained by a public water supply, by a water hauler, or by a person providing bottled water.

(e) "State drinking water standards" means quality standards setting limits for contaminant levels or establishing treatment techniques to meet standards necessary to protect the public health.

(f) "Static water level" means the distance measured from an established datum at or above ground to the water surface in a well not being pumped, not under the influence of pumping, nor flowing under artesian pressure.

(g) "Suction line" means a pipe or line connected to the inlet side of a pump or pumping equipment.

(h) "Supplier of water" or "supplier" means a person who owns or operates a public water supply, and includes a water hauler.

(i) "Surface water" means water that rests or flows on the surface of the ground.

History: 1954 ACS 94, p. 28, Eff. Jan. 12, 1978.

R 325.10109 Definitions; T to Y.

Rule 109. As used in these rules:

(a) "Test well" means a well drilled on a site which has not been approved for use as a production well in accordance with part 8 of these rules.

(b) "Treatment system" means a facility or structure and associated appurtenances installed for the purpose of treating drinking water prior to delivery to a distribution system.

(c) "Treatment technique" means a minimum treatment requirement or a necessary methodology or technology employed by a supplier of water for the control of the chemical, physical, biological, or radiological characteristics of the public water supply.

(d) "Variance" means an order, with appropriate conditions and compliance schedules and requirements, issued by the director to a supplier of water permitting a public water supply to be in noncompliance with a state drinking water standard, including a specified treatment technique.

(e) "Water hauler" means a person engaged in bulk vehicular transportation of water to other than the water hauler's own household which is intended for use or used for drinking or household purposes.

(f) "Water transportation tank" means a tank associated with an over-the-road vehicle used for bulk transport of drinking water.

(g) "Waterworks system" or "system" means a system of pipes and structures through which water is obtained and distributed, including, but not limited to, wells and well structures, intakes and cribs, pumping stations, treatment plants, storage tanks, pipelines and appurtenances, or a combination thereof, actually used or intended for use for the purpose of furnishing water for drinking or household purposes.

(h) "Year-round service" means the ability to provide drinking water by a supplier of water on a continuous basis to any living unit or facility.

History: 1954 ACS 94, p. 29, Eff. Jan. 12, 1978.

R 325.10110 Definitions; parts 6 and 7.

Rule 110. As used in part 6 and part 7 of these rules:

(a) "Dose equivalent" means the product of the absorbed dose from ionizing radiation and such factors as account for differences in biological effectiveness due to the type of radiation and its distribution in the body as specified by the ICRU.

(b) "Gross alpha particle activity" means the total radioactivity due to alpha particle emission as inferred from measurements on a dry sample.

(c) "Gross beta particle activity" means the total radioactivity due to beta particle emission as inferred from measurements on a dry sample.

(d) "ICRU" means the international commission on radiological units and measurements.

(e) "Man-made beta particle and photon emitters" means all radionuclides emitting beta particles or photons, or both, listed in "Maximum Permissible Body Burdens and Maximum Permissible Concentration of Radionuclides in Air or Water for Occupational Exposure," NBS Handbook 69, except the daughter product of thorium 232, uranium 235, and uranium 238.

(f) "Picocurie" or "pCi" means that quantity of radioactive material producing 2.22 nuclear transformations per minute.

(g) "Rem" means the unit of dose equivalent from ionizing radiation to the total body or any internal organ or organ system. A millirem is $\frac{1}{1000}$ of a rem.

History: 1954 ACS 94, p. 29, Eff. Jan. 12, 1978.

R 325.10111 Authorized agents or representatives of department and director.

Rule 111. (1) The chief of the bureau of environmental and occupational health of the department, the division chief, the technical staff of the division, and other persons specifically designated by the division chief are authorized agents or representatives of the department and the director for the purpose of implementing the act.

(2) For the purposes of implementing the act, the chief of the bureau of environmental and occupational health of the department is designated as the authorized agent or representative of the director to initiate contested cases and to appoint hearing officers pursuant to chapters 4 and 5 of Act No. 306 of the Public Acts of 1969, as amended, being §§24.271 to 24.292 of the Michigan Compiled Laws, and pursuant to part 2 of these rules. The director shall make the final *department decision in all con*tested cases arising under the act.

(3) The chief of the bureau of environmental and occupational health of the department is designated by the director as his representative to seek the initiation of injunctive action or other action by the department of the attorney general to enforce the act, a condition or provision of an order, permit, license, certificate, variance, or exemption or these rules.

History: 1954 ACS 94, p. 29, Eff. Jan. 12, 1978.

R 325.10112 Adoption by reference.

Rule 112. The department incorporates by reference, and adopts as a part of these rules, the publication entitled "Maximum Permissible Body Burdens and Maximum Permissible Concentration of Radionuclides in Air and Water for Occupational Exposure," NBS Handbook 69, as referred to in parts 1 and 6 of these rules. Copies of the adopted matter are available for inspection at the offices of the department in Escanaba and Lansing. Copies may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. at a cost of 35 cents and from the Department of Public Health, 3500 North Logan Street, P.O. Box 30035, Lansing, Michigan 48909, at no cost.

History: 1954 ACS 94, p. 30, Eff. Jan. 12, 1978.

R 325.10113 Compliance with rules; guidance information.

Rule 113. Suppliers of water may use the information set forth in the following publications for general guidance in complying with the provisions of these rules:

(a) Recommended standards for water works, prepared by the Great Lakes—upper Mississippi river board of state sanitary engineers, is available for inspection at the department offices in Lansing and Escanaba, and may be purchased at a cost of $1.50 from the Health Education Services, P.O. Box 7283, Albany, New York 12224.

(b) The American water works association manual M-19, emergency planning for water utility management, 1973, as referred to in part 23, is available for inspection at the department offices in Lansing and Escanaba, and may be purchased at a cost of $8.00 from the American Water Works Association, 6666 West Quincy Avenue, Denver, Colorado 80235.

History: 1954 ACS 94, p. 30, Eff. Jan. 12, 1978.

R 325.10114 Rescissions.

Rule 114. The following rules of the department are rescinded:

(a) Rules entitled "Municipal Water Supplies," being R 325.480 to R 325.491 of the Michigan Administrative Code, and appearing on pages 2263 to 2264 of the 1954 volume of the Code.

(b) Rules entitled "Regulations Providing Minimum Standards for the Location and Construction of Certain Water Supplies in the State of Michigan," being R 325.1451 to R 325.1461 of the Michigan Administrative Code, and appearing on pages 3205 to 3210 of the 1964-65 Annual Supplements to the Code.

(c) Rules entitled "Operation of Plants Furnishing Water Supply," being R 325.371 to R 325.374 of the Michigan Administrative Code, and appearing on page 2253 of the 1954 volume of the Code.

(d) Rules entitled "Certification of Water Treatment Plant Personnel," being R 325.551 to R 325.572 of the Michigan Administrative Code, and appearing on pages 2278 to 2282 of the 1954 volume of the Code.

(e) Rules entitled "Water Supply Cross-Connections," being R 325.431 to R 325.440 of the Michigan Administrative Code, appearing on pages 6129 to 6131 of the 1972 Annual Supplement to the Code.

History: 1954 ACS 94, p. 30, Eff. Jan. 12, 1978.

R 325.10115 Remedies and penalties.

Rule 115. A person who violates any of the provisions of these rules shall be subject to the remedies and penalties as prescribed by sections 21 and 22 of the act.

History: 1954 ACS 94, p. 30, Eff. Jan. 12, 1978.

PART 2. HEARINGS AND CONTESTED CASES

R 325.10201 Public hearings; applicable law.

Rule 201. Public hearings conducted by the division pursuant to the act and these rules shall be in accordance with, and subject to, Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws.

History: 1954 ACS 94, p. 30, Eff. Jan. 12, 1978.

R 325.10202 Requests for public hearings.

Rule 202. (1) If a person requests the division to schedule a public hearing, the request shall be made in writing and shall include all of the following information:

(a) The name, address, and telephone number of the person requesting the public hearing.

(b) A brief statement of the reason for the request and the relationship of the person to the subject for which the public hearing is requested.

(c) A brief statement of the information that the person requesting the public hearing intends to submit at the public hearing.

(2) After receipt of the request for public hearing, the chief of the bureau of environmental and occupational health shall make a determination as to the need for a hearing. If the chief of the bureau grants the public hearing, it shall be scheduled and conducted in accordance with, and subject to, Act No. 306 of the Public Acts of 1969, as amended.

(3) If the chief of the bureau denies the public hearing, he shall notify the person requesting the public hearing in writing of his decision and shall state his reasons for denial of the hearing.

History: 1954 ACS 94, p. 31, Eff. Jan. 12, 1978.

R 325.10203 Contested cases; applicable law; appearances; service of notices and orders.

Rule 203. (1) Division administrative procedures in contested cases and judicial review thereof shall be in accordance with, and subject to, chapters 4, 5, and 6 of Act No. 306 of the Public Acts of 1969, as amended, being §§24.271 to 24.306 of the Michigan Compiled Laws.

(2) Appearances at a contested case hearing shall be either in person or by duly authorized agent. Legal counsel may represent a person in a contested case.

(3) Service of notices, orders, and final orders shall be by personal service or by certified mail, or both, upon the parties named in the proceedings.

History: 1954 ACS 94, p. 31, Eff. Jan. 12, 1978.

R 325.10204 Initiation of contested case hearing.

Rule 204. (1) Contested case hearings may be initiated by the chief of the bureau of environmental and occupational health. Except in the case of suspen*sion or revocation of a license*, permit, order, variance, or exemption, the chief of

the bureau shall initiate a contested case hearing by notice mailed by certified mail not less than 21 days prior to the hearing.

(2) A person requesting a contested case hearing shall file a petition with the division in Lansing, Michigan. The petition shall state the legal authority under which the hearing is requested, a brief statement of the matters asserted, a statement of the relationship of the petitioner to the issue, and a statement of relief sought.

History: 1954 ACS 94, p. 31, Eff. Jan. 12, 1978.

R 325.10205 Notice of contested case hearing.

Rule 205. When a contested case hearing is initiated, the division shall provide notice to those known persons who may be materially affected by the proceedings. The notice shall be by mail or by publication, or both, as may be necessary.

History: 1954 ACS 94, p. 31, Eff. Jan. 12, 1978.

R 325.10206 Hearing officer; record of proceedings; proposal for decision.

Rule 206. That portion of a contested case hearing in which testimony and evidence is to be taken may be referred to a hearing officer who shall be designated and authorized by the director to preside at the hearing. The hearing officer shall hear the evidence and prepare a record of the proceedings and a proposal for decision, including findings of fact and conclusions of law. The record of the proceedings and proposal for decision shall be filed at the office of the director as soon as possible after completion of the hearing. A copy of the proposal for decision shall be served by certified mail on all other parties to the proceedings.

History: 1954 ACS 94, p. 31, Eff. Jan. 12, 1978.

R 325.10207 Division files and records; availability; evidence.

Rule 207. The files and records of the division specified in notices of determination and hearing, except those materials exempted by section 13 of Act No. 442 of the Public Acts of 1976, being §15.243 of the Michigan Compiled Laws, shall be available before or at contested case hearings held by the director or by the hearing officer, and the whole, or a part thereof, may be offered at a hearing as evidence on behalf of the division.

History: 1954 ACS 94, p. 31, Eff. Jan. 12, 1978.

R 325.10208 Stipulations and consent orders; final orders.

Rule 208. (1) A person cited to appear at a hearing noticed by the division, and who desires to dispose of the contested case by stipulation or consent order, may mail to the director not later than 10 days before the date set for hearing his written consent to the terms and conditions of the proposed order or other form of action as set forth in the notice of determination and hearing. Agreement between the parties on the terms and conditions of a stipulation or consent order shall constitute sufficient cause for the director to dispose of the contested case without further hearing.

(2) After the hearing officer has submitted his proposal for decision, the director shall issue a final order on the matter. A certified copy of the final order shall be prepared and served by certified mail on the contesting parties or their attorneys together with the director's finding containing a resume of the facts and grounds for decision.

History: 1954 ACS 94, p. 32, Eff. Jan. 12, 1978.

PART 3. VARIANCES AND EXEMPTIONS

R 325.10301 Purpose.

Rule 301. The purpose of this part is to prescribe procedures by which the department may grant or deny a variance or exemption from a state drinking water standard pursuant to the provisions of section 20 of the act and in accordance with the federal act.

History: 1954 ACS 94, p. 32, Eff. Jan. 12, 1978.

R 325.10302 Form.

Rule 302. If a variance or exemption is granted by the department to a supplier of water, it shall be in the form of an enforceable administrative order, approved as to form by the department of the attorney general. The order shall contain applicable conditions, specific compliance requirements, and time schedules for compliance.

History: 1954 ACS 94, p. 32, Eff. Jan. 12, 1978.

R 325.10303 Request for variance or exemption generally.

Rule 303. (1) A supplier of water who wishes to request a variance or exemption shall make that request in writing to the department not less than 90 days prior to the date on which the supplier of water wishes the variance or exemption. The request shall be made in a manner prescribed by the department and shall contain all information required by this part and the federal act.

(2) Requests for variances or exemptions for more than 1 MCL or treatment technique shall be made separately.

History: 1954 ACS 94, p. 32, Eff. Jan. 12, 1978.

R 325.10304 Variance from MCL or treatment technique; required finding.

Rule 304. Variances from an MCL or treatment technique may be granted by the director only upon his specific finding that either of the following exist:

(a) The supplier of water demonstrates that the characteristics of the raw water source or sources which are reasonably available to the public water supply do not permit the public water supply to meet the maximum contaminant level specified in a state drinking water standard despite application of the best available treatment technology, techniques, or other means which the department finds are generally available, taking costs into consideration, and that the granting of a variance will not result in an unreasonable risk to the health of persons served by the public water supply.

(b) The supplier of water demonstrates that a specific treatment technique is not necessary to protect the health of persons served by the public water supply, and that the granting of the variance will not result in an unreasonable risk to the health of persons served by the public water supply.

History: 1954 ACS 94, p. 32, Eff. Jan. 12, 1978.

R 325.10305 Request for variance; included information.

Rule 305. A supplier of water who requests a variance from the department shall include on the request for variance the following information, where applicable:

(a) The nature and duration of the variance requested.

(b) Relevant water quality data of the public water supply, including the results of tests conducted pursuant to part 7 of these rules and the act.

(c) An explanation and evidence of the best available treatment technology *and techniques, where applicable.*

(d) Economic and legal factors relevant to the ability to comply with an MCL or treatment technique.

(e) Raw water quality data relevant to the variance requested.

(f) A proposed compliance schedule including the date by which each step toward compliance shall be achieved. A compliance schedule shall include, but not necessarily be limited to, all of the following:

(i) The date by which an arrangement for an alternative raw water source or improvement of the existing raw water source shall be completed.

(ii) The anticipated date of initiation of the connection to the alternative raw water source or the improved existing raw water source.

(g) A plan for interim control measures during the duration of the variance requested, including the provision of safe drinking water in the case of a rise in the contaminant level.

(h) A statement that the supplier of water shall perform monitoring and other reasonable requirements as may be prescribed by the director as a condition to a variance.

(i) Other information believed to be pertinent to the request for variance by the director or the supplier of water.

History: 1954 ACS 94, p. 32, Eff. Jan. 12, 1978.

R 325.10306 Exemption from MCL or treatment technique; required finding.

Rule 306. Exemptions from an MCL or treatment technique may be granted by the director only upon his specific finding that all of the following exist:

(a) Due to compelling factors, including, but not limited to, economic factors, a public water supply is not able to comply with an MCL or treatment technique.

(b) A public water supply for which an exemption is requested was in operation on the effective date of the state drinking water standard.

(c) The supplier of water demonstrates that the granting of an exemption will not result in an unreasonable risk to the health of persons using the public water supply.

History: 1954 ACS 94, p. 33, Eff. Jan. 12, 1978.

R 325.10307 Request for exemption; included information.

Rule 307. A supplier of water who requests an exemption from the department shall include on the request for an exemption all of the following information:

(a) The nature and duration of the exemption requested.

(b) Relevant water quality data of the public water supply, including the results of tests conducted pursuant to part 7 of these rules and the act.

(c) The date the public water supply was put into operation.

(d) A complete explanation of the compelling factors, including, but not limited to, time and economic factors which prevent the public water supply from achieving compliance.

(e) A proposed compliance schedule, including a date by which each step toward compliance shall be achieved.

(f) The date by which final compliance is to be achieved.

(g) Other information believed by the director or the supplier of water to be pertinent to the request for exemption.

History: 1954 ACS 94, p. 33, Eff. Jan. 12, 1978.

R 325.10308 Review of request for variance or exemption.

Rule 308. In his review of a request for a variance or an exemption the director shall take at least the following into consideration:

(a) The availability and effectiveness of all methods which may be employed by the supplier of water to comply with the MCL or treatment technique for which the variance or exemption is requested.

(b) Cost and other economic considerations, such as implementing treatment, improving the quality of the raw water source, using an alternative raw water source, or otherwise bringing the public water supply into compliance.

(c) The quality of the raw water source, including water quality data and pertinent sources of contamination.

(d) Source protection measures employed by the public water supply.

(e) Construction or modification of treatment equipment or systems.

(f) The time required to put into operation a new treatment system to replace an existing treatment system which is not in compliance, or other facilities or other means to bring the public water supply into compliance.

(g) Risk to the health of persons served by the public water supply.

History: 1954 ACS 94, p. 33, Eff. Jan. 12, 1978.

R 325.10309 Disposition of requests for variances or exemptions; public notices and opportunity for public hearings.

Rule 309. (1) Prior to issuing an order granting a variance from an MCL, the director shall provide public notice of his intent and shall provide an opportunity for any person to request a public hearing on the proposed order and the proposed compliance schedule.

(2) Prior to finalizing a compliance schedule which is to be a part of an exemption from an MCL or treatment technique or a variance from a specified treatment technique, the director shall provide public notice thereof and shall provide an opportunity for any person to request a public hearing on the compliance schedule.

(3) Public notices issued by the director pursuant to subrules (1) and (2) shall be circulated in a manner designed to inform interested persons of the proposed order or compliance schedule, or both.

(4) The public notice issued by the director pursuant to subrules (1) and (2) shall contain a summary of proposed conditions, compliance programs, compliance schedules, restrictions, and other information relating to the request for a variance or exemption.

(5) Notices issued and public hearings conducted pursuant to this rule may include more than 1 order or compliance schedule, or both.

(6) Public hearings conducted by the director pursuant to this rule shall be in accordance with, and subject to, R 325.10201 and R 325.10202.

History: 1954 ACS 94, p. 34, Eff. Jan. 12, 1978.

R 325.10310 Order granting a variance or exemption or prescribing compliance schedule; denial of request.

Rule 310. After receipt of a request for a variance or exemption from a supplier of water, or following a public hearing conducted by the director pursuant to R 325.10309, the director shall issue an administrative order to the supplier of water granting a variance or exemption or prescribing a compliance schedule, or both, or shall deny the request.

History: 1954 ACS 94, p. 34, Eff. Jan. 12, 1978.

R 325.10311 Term of exemption; reissuance.

Rule 311. An exemption granted by the director to a supplier of water shall *have a fixed term not to exceed* 5 years. A supplier of water who wishes to extend

an exemption beyond the date specified in the administrative order shall submit a request for reissuance of an exemption pursuant to R 325.10307. Exemptions issued or reissued by the director pursuant to this part shall not be inconsistent in any manner with the provisions of the federal act.

History: 1954 ACS 94, p. 34, Eff. Jan. 12, 1978.

R 325.10312 Remedies and penalties.

Rule 312. A supplier of water who submits false information in connection with a request for a variance or exemption, or who violates any of the provisions of an order issued by the director granting a variance or exemption, shall be subject to immediate revocation of the order and to the remedies and penalties specified by the act.

History: 1954 ACS 94, p. 34, Eff. Jan. 12, 1978.

PART 4. PUBLIC NOTIFICATION

R 325.10401 Purpose.

Rule 401. The purpose of this part is to prescribe requirements of owners of public water supplies to provide public notification to customers or users of a public water supply when the public water supply fails to comply with an MCL; is granted a variance or exemption; or fails to comply with the requirements of a compliance schedule prescribed by a variance or exemption.

History: 1954 ACS 94, p. 34, Eff. Jan. 12, 1978.

R 325.10402 Public notices generally.

Rule 402. Public notices issued pursuant to this part shall be conspicuous, shall not use unduly technical language, unduly small print, or other methods which frustrate the purpose of the notice.

History: 1954 ACS 94, p. 34, Eff. Jan. 12, 1978.

R 325.10403 Notice of variance or exemption from MCL granted to a type I public water supply.

Rule 403. (1) If a variance or exemption from an MCL is granted to a type I public water supply by the director pursuant to part 3 of these rules, the owner of the public water supply shall provide notice thereof to all customers or users of that type I public water supply. The notice shall include, but not necessarily be limited to, the date the variance or exemption was granted by the director, the specific reasons for the variance or exemption, the specific MCL for which the variance or exemption was granted, the compliance schedule contained in the variance or exemption, and any preventive measures which shall be taken by users to protect the public health.

(2) Notification made by the owner of the type I supply pursuant to subrule (1) shall be made in water bills or by direct mail not later than 3 months from the date the variance or exemption was granted. The department may require such notification to be repeated at a frequency determined by the department.

History: 1954 ACS 94, p. 34, Eff. Jan. 12, 1978.

R 325.10404 Notice of variance or exemption from MCL granted to type II public water supply.

Rule 404. If a variance or exemption from an MCL is granted to a type II public water supply by the director pursuant to part 3 of these rules, the owner of the public water supply shall provide notice thereof by conspicuous posting of the

notice in a location or locations where it can reasonably be expected to be observed by the customers or users of the type II public water supply. The notice shall be posted not later than 30 days after the date of granting the variance or exemption, and shall include, but not necessarily be limited to, the date the variance or exemption was granted by the director, the specific reasons for the variance or exemption, the specific MCL for which the variance or exemption was granted, the compliance schedule contained in the variance or exemption, and any preventive measures which shall be taken by the users to protect the public health.

History: 1954 ACS 94, p. 35, Eff. Jan. 12, 1978.

R 325.10405 Notice of failure of type I supply to comply with MCL or compliance schedule prescribed by variance or exemption.

Rule 405. (1) If a type I public water supply fails to comply with an MCL, or a compliance schedule prescribed by a variance or exemption, the public water supply shall provide notice thereof to all customers or users of that type I public water supply affected by the failure. Notification required by this rule shall include all material facts relating to the violation of the MCL or variance or exemption schedule, including the nature of the problem, a clear statement that an MCL or variance or exemption schedule has been violated, and the steps being taken to correct the violation. In addition, the notice shall explain the significance of the violation to the public health and any preventive or precautionary measures that shall be taken by the customers or users of the type I public water supply.

(2) Notification by the owner of the type I public water supply pursuant to subrule (1) shall be made in water bills or by direct mail not later than 3 months from the date of the violation. In the case of a violation of an MCL, such notice shall be repeated not less than once every 3 months so long as the violation continues. In the case of a violation of a variance or exemption schedule, the department may require such notification to be repeated at a frequency determined by the department.

(3) If a type I public water supply has failed to comply with an MCL and does not correct the failure promptly after discovery, the owner of that supply shall, in addition to the requirements of subrules (1) and (2), provide other general public notice of the failure in a manner as may be determined by the department. Additional notice as may be required by this subrule may consist of notice by newspaper advertisement, press release, or other appropriate means.

History: 1954 ACS 94, p. 35, Eff. Jan. 12, 1978.

R 325.10406 Failure of owner of type II public water supply to comply with MCL; public notification.

Rule 406. Upon a determination that an owner of a type II public water supply has failed to comply with an MCL, or a compliance schedule prescribed by a variance or exemption, the owner of the public water supply shall provide public notification in a manner prescribed by R 325.10404.

History: 1954 ACS 94, p. 35, Eff. Jan. 12, 1978.

R 325.10407 Notification of customers of public water supply that imminent hazard exists.

Rule 407. In situations where the director determines that an imminent hazard to the public health exists, the director may order the owner of a public water supply to make immediate notification to all customers or users of that public *water supply. The notice shall* contain the preventive or precautionary measures

that should be taken by the customers or users of the public water supply to protect the public health.

History: 1954 ACS 94, p. 35, Eff. Jan. 12, 1978.

R 325.10408 Periodic progress reports; correction of violations and notification of customers.

Rule 408. The department may require an owner of a public water supply to submit periodic reports on progress being made to correct a violation of an MCL, order, or a variance or exemption, and to notify the customers or users of the public water supply of that progress.

History: 1954 ACS 94, p. 36, Eff. Jan. 12, 1978.

R 325.10409 Failure of owner to provide adequate public notice.

Rule 409. If deemed necessary by the department, when an owner of a public water supply fails to provide adequate public notice, the department may do so with costs incurred by the department charged to the owner of the public water supply. Action taken by the department pursuant to this rule shall not provide immunity to an owner of a public water supply from the remedies and penalties prescribed by the act.

History: 1954 ACS 94, p. 36, Eff. Jan. 12, 1978.

PART 5. TYPES OF PUBLIC WATER SUPPLIES

R 325.10501 Purpose.

Rule 501. The purpose of this part is to implement section 8 of the act by establishing a basic classification system for public water supplies. The basic classification system established by this part may be modified in other parts of these rules, as applicable, to reflect the need for further breakdown due to specific criteria, requirements, or standards which may apply within a public water supply.

History: 1954 ACS 94, p. 36, Eff. Jan. 12, 1978.

R 325.10502 Classification of public water supplies.

Rule 502. (1) For purposes of implementing the act, public water supplies are classified by the department into 3 types as follows:

(a) Type I: All community supplies are classified as type I public water supplies.

(b) Type II: All noncommunity supplies are classified as type II public water supplies.

(c) Type III: All water supplies which are not type I or type II public water supplies shall be classified as type III public water supplies.

(2) Type II public water supplies are further classified by the department as follows:

(a) Type IIa: Type IIa public water supplies are type II public water supplies with an average daily water production for the maximum month equal to or greater than 20,000 gallons per day.

(b) Type IIb: Type IIb public water supplies are type II public water supplies with an average daily water production for the maximum month of less than 20,000 gallons per day.

(3) When a supplier of water is unable to determine average daily water production, the department may use other criteria based on similar public water supplies to make a determination of classification for purposes of subrule (2).

History: 1954 ACS 94, p. 36, Eff. Jan. 12, 1978.

R 325.10503 Two or more waterworks systems under same ownership or operation.

Rule 503. Two or more waterworks systems owned or operated by the same person at the same general location, not individually meeting the definition of a community supply or a noncommunity supply, but collectively meeting the definition of a community supply or a noncommunity supply, shall be considered by the department to be a single public water supply.

History: 1954 ACS 94, p. 36, Eff. Jan. 12, 1978.

R 325.10504 General requirements of type I public water supplies.

Rule 504. Suppliers of water of type I public water supplies shall meet the following general requirements and other specific requirements as prescribed by the act and these rules:

(a) Certified operators of treatment systems and distribution systems are required.

(b) Suppliers of water shall monitor for contaminants at prescribed frequencies as required by part 7 of these rules.

(c) Suppliers of water shall submit waterworks system operation reports and shall maintain records.

(d) Except for those type I public water supplies serving facilities which are licensed annually by the department, including, but not limited to, mobile home parks and health care facilities, suppliers of water shall comply with the provisions of part 14 of these rules, and suppliers of water of all type I public water supplies shall comply with all applicable state and local plumbing codes.

(e) Owners of type I public water supplies shall submit plans and specifications and obtain permits from the department in accordance with the provisions of the act and part 13 of these rules, except those type I public water supplies serving less than 15 living units.

History: 1954 ACS 94, p. 36, Eff. Jan. 12, 1978.

R 325.10505 General requirements of type II public water supplies.

Rule 505. Suppliers of water of type II public water supplies shall meet the following general requirements and other specific requirements as prescribed by the act and these rules:

(a) Certified operators of treatment systems where treatment is employed to protect the public health are required.

(b) Suppliers of water shall monitor for contaminants at prescribed frequencies as required by part 7 of these rules.

(c) Suppliers of water shall submit waterworks system operation reports where treatment is employed to protect the public health, and shall maintain records as required by the department.

(d) Suppliers of water shall comply with all applicable state and local plumbing codes.

(e) Owners of type II public water supplies shall obtain permits from the department in accordance with the provisions of the act and part 13 of these rules.

History: 1954 ACS 94, p. 37, Eff. Jan. 12, 1978.

R 325.10506 General requirements of type III public water supplies.

Rule 506. Suppliers of water of type III public water supplies shall meet the following general requirements and other specific requirements as prescribed by *the act and these rules:*

(a) Suppliers of water shall meet requirements for groundwater sources and surface water sources in accordance with the provisions of the act and these rules, as those requirements pertain to type III public water supplies.

(b) If required by the department, suppliers of water shall monitor for contaminants at prescribed frequencies as required by part 7 of these rules.

(c) Suppliers of water shall comply with all applicable state and local plumbing codes.

History: 1954 ACS 94, p. 37, Eff. Jan. 12, 1978.

PART 6. STATE DRINKING WATER STANDARDS AND ANALYTICAL TECHNIQUES

R 325.10601 Purpose.

Rule 601. Maximum contaminant levels for organic and inorganic chemicals, microbiological contaminants, and turbidity contained in the federal act are incorporated by reference in section 6 of the act. The purpose of this part is to establish certain MCL's for specific contaminants which are not adopted by reference by section 6 of the act or which are different than the MCL's contained in the federal act; and which shall be met by a supplier of water to assure protection of the public health; and to specify methods to be used in the analyses of water samples from public water supplies to determine compliance with the state drinking water standards.

History: 1954 ACS 94, p. 37, Eff. Jan. 12, 1978.

R 325.10602 MCL's for coliform bacteria.

Rule 602. Compliance with the MCL for coliform bacteria shall be determined in accordance with part 7 of these rules. The following are the MCL's for coliform bacteria applicable to all public water supplies:

(a) When the membrane filter technique is used, the number of coliform bacteria shall be less than 1 per 100 milliliters in any sample collected and analyzed.

(b) When the fermentation tube method and either 10 milliliter or 100 milliliter standard portions are used, coliform bacteria shall not be present in any portion of any sample collected and analyzed.

History: 1954 ACS 94, p. 37, Eff. Jan. 12, 1978.

R 325.10603 MCL's for radium 226, radium 228, and gross alpha particle radioactivity in type I public water supplies.

Rule 603. The MCL's for radium 226, radium 228, and gross alpha particle radioactivity for type I public water supplies are as follows:

(a) Combined radium 226 and radium 228—5 pCi per liter.

(b) Gross alpha particle activity, including radium 226 but excluding radon and uranium—15 pCi per liter.

History: 1954 ACS 94, p. 37, Eff. Jan. 12, 1978.

R 325.10604 MCL's for beta particle and photon radioactivity from man-made radionuclides in type I public water supplies.

Rule 604. (1) The average annual concentration of beta particle and photon radioactivity from man-made radionuclides in drinking water of type I public water supplies shall not produce an annual dose equivalent to the total body or any internal organ greater than 4 millirems per year.

(2) Except for the radionuclides listed in table 1, the concentration of man-made radionuclides in type I public water supplies causing 4 millirems total body

or organ dose equivalents shall be calculated on the basis of a 2 liter per day drinking water intake using the 168-hour data listed in "Maximum Permissible Body Burdens and Maximum Permissible Concentration of Radionuclides in Air or Water for Occupational Exposure," NBS Handbook 69, as amended August, 1963, U.S. department of commerce. If 2 or more radionuclides are present, the sum of their annual dose equivalent to the total body or to any organ shall not exceed 4 millirems per year.

TABLE I

Average Annual Concentrations Assumed to Produce a Total Body or Organ Dose of 4 Millirems Per Year

Radionuclide	Critical Organ	pCi per liter
Tritium	Total body	20,000
Strontium 90	Bone marrow	8

History: 1954 ACS 94, p. 38, Eff. Jan. 12, 1978.

R 325.10605 Analytical techniques for contaminants, turbidity, and radioactivity; incorporation by reference.

Rule 605. The analytical techniques for bacteriologic contaminants, inorganic chemical contaminants, organic chemical contaminants, turbidity, and radioactivity which are contained in the national interim primary drinking water regulations contained in 40 C.F.R., Part 141, and which have been promulgated by EPA under authority of the federal act before the effective date of these rules are hereby incorporated by reference. Copies of the adopted material may be obtained from U.S. Environmental Protection Agency, Region V, Water Supply Branch, 230 South Dearborn Street, Chicago, Illinois, or from the Department of Public Health, 3500 North Logan Street, P.O. Box 30035, Lansing, Michigan 48909, at no cost.

History: 1954 ACS 94, p. 38, Eff. Jan. 12, 1978.

R 325.10606 Alternative analytical techniques.

Rule 606. With the written permission of the department, and upon approval by EPA, an alternative analytical technique may be employed. The use of the alternative analytical technique shall not decrease the frequency of monitoring required by part 7.

History: 1954 ACS 94, p. 38, Eff. Jan. 12, 1978.

R 325.10607 List of approved alternative analytical techniques; maintenance and availability.

Rule 607. A list of those alternative analytical techniques approved pursuant to R 325.10606 shall be maintained by the department and shall be available from the department offices in Lansing and Escanaba.

History: 1954 ACS 94, p. 38, Eff. Jan. 12, 1978.

PART 7. SURVEILLANCE, INSPECTION, AND MONITORING

R 325.10701 Purpose.

Rule 701. The purpose of this part is to specify inspection and surveillance activities by the department to assure compliance by a public water supply with the act and these rules; to prescribe certain monitoring requirements and proce-

dures for suppliers of water in accordance with the act and the federal act; and to establish a schedule of fees for the collection and analysis of water samples by the department as required by the act.

History: 1954 ACS 94, p. 38, Eff. Jan. 12, 1978.

R 325.10702 Evaluation of adequacy and condition of public water supplies generally.

Rule 702. In accordance with the provisions of section 3 of the act, the department shall make sanitary surveys, on-site inspections, surveillance observations, or special purpose investigations for the purpose of evaluating the adequacy and condition of public water supplies at a frequency which may be determined by the department.

History: 1954 ACS 94, p. 38, Eff. Jan. 12, 1978.

R 325.10703 On-site inspections and surveillance observations.

Rule 703. On-site inspections and surveillance observations of public water supplies may include, but are not necessarily limited to, a review of all of the following:

(a) Waterworks system physical facilities and equipment.

(b) Administration and recordkeeping.

(c) Sampling techniques, and monitoring activities for water quality.

(d) The maintenance program for the waterworks system.

(e) The design and operation of the waterworks system.

(f) Compliance with operator certification requirements for treatment systems and distribution systems.

(g) A cross-connection control program.

(h) The reliability of the waterworks system.

(i) Security measures provided to protect water quality and the operation of the waterworks system.

History: 1954 ACS 94, p. 39, Eff. Jan. 12, 1978.

R 325.10704 Collection and analysis of samples for coliform bacteria generally.

Rule 704. (1) Suppliers of water of type I and type II public water supplies shall collect samples and cause analyses to be made for coliform bacteria to determine compliance with the state drinking water standards.

(2) The department may require samples to be collected and analyzed for coliform bacteria for type III public water supplies at a frequency as may be deemed necessary by the department.

History: 1954 ACS 94, p. 39, Eff. Jan. 12, 1978.

R 325.10705 Collection and analysis of samples for coliform bacteria; type I public water supply.

Rule 705. (1) A supplier of water of a type I public water supply shall collect samples of water from representative locations on a distribution system to be analyzed for the presence of coliform bacteria at regular time intervals and in numbers according to the population served by the system. The frequency of sampling shall be as set forth in table 1 in R 325.10737 or such other frequency as may be determined by the department and concurred in by the regional administrator.

(2) The department, based on a sanitary survey, may vary the frequency of sampling for a type I public water supply serving less than 1,000 persons, and

supplied solely by a protected groundwater source, but in no case shall the frequency be less than once per quarter.

History: 1954 ACS 94, p. 39, Eff. Jan. 12, 1978.

R 325.10706 Collection and analysis of samples for coliform bacteria; type II public water supply.

Rule 706. (1) After June 24, 1979, a supplier of water of a type II public water supply shall collect samples of water and cause analyses to be made for the presence of coliform bacteria on a quarterly basis at such locations deemed appropriate by the department.

(2) The department, based on a sanitary survey of a type II public water supply with a protected groundwater source, may vary the frequency of sampling.

History: 1954 ACS 94, p. 39, Eff. Jan. 12, 1978.

R 325.10707 Collection and analysis of check sample; reporting and notification.

Rule 707. (1) When a sample exceeds an MCL for coliform bacteria, 1 check sample shall be collected from the same sampling point and analyzed. If a subsequent sample has already been collected from the same sampling point, it shall be considered the check sample.

(2) When the analysis of the check sample required in subrule (1) shows the presence of coliform organisms, the supplier of water shall do both of the following:

(a) Report to the department within 48 hours.

(b) Initiate an investigation, including the collection and analysis of a check sample from the same point and other sampling points in the area, to define the extent of the problem.

(3) Following the investigation required in subrule (2) and if contamination is demonstrated by that investigation, the supplier of water shall notify the public in the area affected by the indicated contamination in accordance with the requirements contained in part 4 of these rules, unless the department determines that the positive samples resulted from sampling error.

(4) The department may, at its discretion, require check samples to be collected and analyzed at a specified frequency from the same sampling point and other sampling points in the area to identify and eliminate suspected public health hazards when a sample exceeds the maximum contaminant level set forth in the state drinking water standards, even if the check sample required in subrule (1) does not indicate the presence of coliform bacteria.

(5) When the cause of the indicated contamination has been determined and corrected, additional check samples shall be collected at a frequency as directed by the department.

(6) The location at which the check samples were taken pursuant to subrule (1) shall not be eliminated from future sampling without approval of the department.

History: 1954 ACS 94, p. 39, Eff. Jan. 12, 1978.

R 325.10708 Unreliable analysis results caused by factors beyond control of supplier; collection of additional samples.

Rule 708. The department may determine that unreliable analytical results for a sample collected in a discrete monitoring period pursuant to R 325.10705 and R 325.10706 were caused by factors beyond the control of the supplier of water. Those factors may include, but are not necessarily limited to, excessive transit time between collection and analysis of the sample, sample being broken in *transit, or interference in test* results when the membrane filter technique is used.

If this is the case and the supplier of water does not learn of these results until the following monitoring period, another sample collected immediately thereupon may be used in determining compliance with R 325.10705 and R 325.10706. However, a single sample may not be attributed to more than 1 monitoring period.

History: 1954 ACS 94, p. 40, Eff. Jan. 12, 1978.

R 325.10709 Nonroutine sampling.

Rule 709. Check samples, samples with unreliable analytical results, and special purpose samples such as those taken following water main placement, replacement, or repair shall not be used to determine compliance with R 325.10705 and R 325.10706, except as provided in R 325.10708.

History: 1954 ACS 94, p. 40, Eff. Jan. 12, 1978.

R 325.10710 Collection and analysis of samples for inorganic chemicals generally.

Rule 710. (1) Suppliers of water of type I and type II public water supplies shall collect water samples and cause analyses to be made for inorganic chemicals to determine compliance with the state drinking water standards.

(2) The department may require samples to be collected and analyzed at a prescribed frequency for inorganic chemicals for type III public water supplies.

History: 1954 ACS 94, p. 40, Eff. Jan. 12, 1978.

R 325.10711 Collection and analysis of samples for inorganic chemicals; type I public water supplies.

Rule 711. (1) For type I public water supplies utilizing surface water sources, samples shall be collected from the distribution system and analyses performed for the purpose of determining compliance with state drinking water standards for inorganic chemicals before June 24, 1978, and shall be repeated annually.

(2) For type I public water supplies utilizing only groundwater sources, samples shall be collected from the distribution system and analyses performed for the purpose of determining compliance with state drinking water standards for inorganic chemicals before June 24, 1979, and shall be repeated at 3-year intervals.

History: 1954 ACS 94, p. 40, Eff. Jan. 12, 1978.

R 325.10712 Collection and analysis of samples for nitrate; type II and type III public water supplies.

Rule 712. (1) For type II public water supplies, whether supplied by surface or groundwater sources, samples shall be collected from the waterworks system and analyses shall be performed for nitrate concentration before June 24, 1979, and at subsequent intervals as may be determined by the department.

(2) For type III public water supplies, the department may require samples to be collected and analyses performed for nitrate concentration as deemed necessary by the department.

History: 1954 ACS 94, p. 40, Eff. Jan. 12, 1978.

R 325.10713 Acceptability of existing data for inorganic chemical analyses.

Rule 713. For the initial analyses required by R 325.10711 and R 325.10712, data for type I and type II public water supplies utilizing surface water sources acquired after June 24, 1976, and for groundwater sources acquired after June 24, 1974, shall be deemed acceptable by the department.

History: 1954 ACS 94, p. 40, Eff. Jan. 12, 1978.

R 325.10714 Inorganic chemicals; reporting and notification.

Rule 714. (1) If the result of an analysis made pursuant to R 325.10711 and R 325.10712 indicates that the concentration of any inorganic chemical contaminant exceeds the MCL, the supplier of water shall report to the division within 7 days and initiate 3 additional analyses at the same sampling point within 1 month.

(2) When the average of 4 analyses made pursuant to subrule (1) for the inorganic chemical in question exceeds the MCL, the supplier of water shall notify the division and shall give notice to the public pursuant to part 4 of these rules. Monitoring after public notification shall be at a frequency determined by the department and shall continue until the MCL has not been exceeded in 2 successive samples or until a monitoring schedule, as a condition to a variance, exemption, or enforcement action, becomes effective.

(3) For purposes of this rule, compliance with the MCL for nitrate shall be determined on the basis of the mean of 2 analyses.

History: 1954 ACS 94, p. 41, Eff. Jan. 12, 1978.

R 325.10715 Nitrates; reporting and notification.

Rule 715. When a level exceeding the MCL for nitrate is found, a second analysis shall be initiated within 24 hours after being notified of the results and if the mean of the 2 analyses exceeds the MCL, the supplier of water shall report his findings to the division within 48 hours and shall make public notification as prescribed by part 4 of these rules.

History: 1954 ACS 94, p. 41, Eff. Jan. 12, 1978.

R 325.10716 Collection and analysis of samples for organic chemicals; type I, type II, and type III public water supplies.

Rule 716. (1) Suppliers of water of type I public water supplies shall collect samples and cause analyses to be made for organic chemicals to determine compliance with the state drinking water standards.

(2) For type II and type III public water supplies, the department may require samples to be collected and analyzed at prescribed frequencies for organic chemicals.

History: 1954 ACS 94, p. 41, Eff. Jan. 12, 1978.

R 325.10717 Collection and analysis of samples for organic chemicals; type I public water supplies.

Rule 717. (1) Samples shall be collected from the distribution system and analyses performed for the purpose of determining compliance with the MCL's for organic chemicals for type I public water supplies utilizing surface water sources before June 24, 1978. All analyses of water for organic chemicals shall be repeated at 3-year intervals, or more frequently if deemed necessary by the department.

(2) For type I public water supplies specified by the department utilizing only groundwater sources, samples shall be collected from the distribution system and analyses performed at prescribed frequencies for the purpose of determining compliance with the MCL's for organic chemicals.

History: 1954 ACS 94, p. 41, Eff. Jan. 12, 1978.

R 325.10718 Acceptability of existing data for organic chemical analyses.

Rule 718. For the initial analyses required by R 325.10717, data for public *water supplies utilizing surface* water sources acquired after June 24, 1976, and for

public water supplies utilizing only groundwater sources acquired after June 24, 1974, shall be deemed acceptable by the department.

History: 1954 ACS 94, p. 41, Eff. Jan. 12, 1978.

R 325.10719 Organic chemicals; reporting and notification.

Rule 719. (1) If the result of an analysis made pursuant to R 325.10717 indicates that the concentration of any organic chemical contaminant exceeds the MCL, the supplier of water shall report to the division within 7 days and initiate 3 additional analyses at the same sampling point within 1 month.

(2) When the average of 4 analyses made pursuant to subrule (1) for the organic chemical in question exceeds the MCL, the supplier of water shall notify the division within 48 hours and shall give notice to the public pursuant to part 4 of these rules. Monitoring after public notification shall be at a frequency determined by the department and shall continue until the MCL has not been exceeded in 2 successive samples or until a monitoring schedule, as a condition to a variance, exemption, or enforcement action, becomes effective.

History: 1954 ACS 94, p. 41, Eff. Jan. 12, 1978.

R 325.10720 Collection and measurement of samples for turbidity; type I and type II water supplies.

Rule 720. (1) Suppliers of water of all type I and type II public water supplies utilizing surface water sources shall collect samples and perform measurements for turbidity at a representative entry point to the water distribution system to determine compliance with the state drinking water standards.

(2) Suppliers of water of type I and type II water supplies utilizing surface water sources shall collect samples at least once daily, preferably more frequently, while the treatment system is in operation.

History: 1954 ACS 94, p. 42, Eff. Jan. 12, 1978.

R 325.10721 Turbidity resampling; reporting and notification.

Rule 721. (1) If the result of a turbidity measurement pursuant to R 325.10720 indicates that the MCL has been exceeded, the sampling and measurement shall be confirmed by resampling as soon as possible, preferably within 1 hour. The repeat sample shall be the sample used for the purpose of calculating the daily average and the monthly average.

(2) Except as noted in subrule (1) of this rule, the daily average and monthly average shall be determined from the normally scheduled turbidity measurements and shall not include special purpose samples.

(3) If the daily average of turbidity measurements exceeds the MCL, the supplier of water shall notify the division within 48 hours. If the monthly average of the daily turbidity measurements exceeds the MCL or if the average of turbidity measurements taken on 2 consecutive days exceeds 5 turbidity units, a supplier of water shall report to the division within 48 hours and shall make public notification as prescribed by part 4 of these rules.

History: 1954 ACS 94, p. 42, Eff. Jan. 12, 1978.

R 325.10722 Collection and analysis of samples for natural radionuclides.

Rule 722. (1) Suppliers of water of type I public water supplies shall collect samples of water and have analyses performed for natural radionuclides to determine compliance with the state drinking water standards.

(2) Suppliers of water of type I public water supplies shall initiate sampling to determine compliance with R 325.10603 of part 6 of these rules before June 24,

1979, and the analyses shall be completed before June 24, 1980. Compliance shall be based on the analysis of an annual composite of 4 consecutive quarterly samples or the average of the analyses of 4 samples obtained at quarterly intervals.

(3) A gross alpha particle activity measurement may be substituted for the required radium 226 and radium 228 analyses provided that the measured gross alpha particle activity does not exceed 5 pCi/1 at a confidence level of 95%.

(4) In localities where radium 228 may be present in drinking water, the department may require radium 226 or radium 228 analyses, or both, when the gross alpha particle activity exceeds 2 pCi/1.

(5) When the gross alpha particle activity exceeds 5 pCi/1, the same or an equivalent sample shall be analyzed for radium 226. If the concentration of radium 226 exceeds 3 pCi/1, the same, or an equivalent sample, shall be analyzed for radium 228.

History: 1954 ACS 94, p. 42, Eff. Jan. 12, 1978.

R 325.10724 Radiological monitoring; acceptability of existing data.

Rule 724. For the initial analysis required by R 325.10722, data acquired after June 24, 1976, shall be accepted by the department.

History: 1954 ACS 94, p. 42, Eff. Jan. 12, 1978.

R 325.10725 Radiological monitoring; additional requirements.

Rule 725. (1) After the initial analysis required by R 325.10722, suppliers of water of type I public water supplies shall monitor for radiological contaminants at least once every 4 years following the procedures prescribed by R 325.10722. When an annual record taken pursuant to the procedures in R 325.10722 has established that the average annual concentration is less than half the MCL, an analysis of a single sample may be substituted for the quarterly sampling procedure at the discretion of the department.

(2) The department may require more frequent monitoring by suppliers of water in the vicinity of operations which may contribute alpha particle radioactivity to either surface or groundwater sources of drinking water, or in the event of possible contamination or when changes in the distribution system or treatment processing occur which may increase the concentration of radioactivity in finished water. Annual monitoring may be required by the department of any public water supply in which the radium 226 concentration exceeds 3 pCi/1.

(3) A supplier of water of a type I public water supply which is new or which is introducing a new, completely different source shall monitor in conformance with R 325.10722 within 1 year of the introduction of the water source.

(4) A supplier of water of a type I public water supply using 2 or more sources of drinking water having different concentrations of radioactivity shall monitor source water in addition to water from a free flowing tap when determined necessary by the department to protect the public health.

(5) Monitoring for compliance with state drinking water standards after the initial period need not include radium 228 unless determined necessary by the department, provided that the average annual concentration of radium 228 has been assayed at least once using the quarterly sampling procedure required by subrule (1).

History: 1954 ACS 94, p. 42, Eff. Jan. 12, 1978.

R 325.10726 Collection and analysis of samples for man-made radionuclides.

Rule 726. (1) Suppliers of water of type I public water supplies using surface *water sources and serving more* than 100,000 persons and such other type I public

water supplies as may be designated by the department shall collect samples of water and have analyses performed for man-made radionuclides to determine compliance with the state drinking water standards.

(2) Suppliers of water of type I public water supplies utilizing surface water sources and serving more than 100,000 persons and such other type I public water supplies as may be designated by the department shall initiate sampling for beta particle and photon radioactivity from man-made radionuclides before June 24, 1979, and the analyses shall be completed before June 24, 1980. Compliance shall be based on the analysis of a composite of 4 consecutive quarterly samples or an average of the analysis of 4 quarterly samples. Compliance may be assumed without further analysis if the average annual concentration of beta activity is less than 50 pCi/1 and if the average annual concentrations of tritium and strontium 90 are less than those listed in table 1 of this part, provided that if both radionuclides are present, the sum of their annual dose equivalents to bone marrow shall not exceed 4 millirems per year.

(3) If the gross beta particle activity exceeds 50 pCi/1, an analysis of the sample shall be required to identify the major radioactive constituents present and the appropriate organ and total body doses shall be calculated to determine compliance with the state drinking water standards.

(4) Suppliers of water utilizing only groundwater sources may be required to monitor for man-made radioactivity as may be deemed necessary by the department.

History: 1954 ACS 94, p. 43, Eff. Jan. 12, 1978.

R 325.10728 Acceptability of existing data and other data.

Rule 728. (1) For the initial analyses required by R 325.10726, data acquired after June 24, 1976, may be accepted by the department.

(2) The department may allow the substitution of environmental surveillance data taken in conjunction with a nuclear facility for direct monitoring of man-made radioactivity by a supplier of water where the department determines that data is applicable to a particular type I public water supply.

History: 1954 ACS 94, p. 43, Eff. Jan. 12, 1978.

R 325.10729 Additional monitoring requirements for man-made radioactivity.

Rule 729. (1) After the initial analysis, suppliers of water shall monitor at least every 4 years following the procedures prescribed by R 325.10726.

(2) Prior to June 24, 1979, suppliers of water of any type I public water supply designated by the state as using waters contaminated by effluents from nuclear facilities shall initiate quarterly monitoring for gross beta particle and iodine 131 radioactivity and annual monitoring for strontium 90 and tritium.

(3) Quarterly monitoring for gross beta particle activity shall be based on the analysis of monthly samples or the analysis of the composite of 3 monthly samples. If the gross beta particle activity in a sample exceeds 15 pCi/1, the same or an equivalent sample shall be analyzed for strontium 89 and cesium 134. If the gross beta particle activity exceeds 50 pCi/1, an analysis of the sample shall be required to identify the major radioactive constituents present and the appropriate organ and total body doses shall be calculated to determine compliance with the state drinking water standards.

(4) For iodine 131, a composite of 5 consecutive daily samples shall be analyzed once each quarter. As ordered by the department, more frequent monitoring shall be conducted by a supplier of water when iodine 131 is identified in the finished water.

(5) Annual monitoring for strontium 90 and tritium shall be conducted by means of an analysis of a composite of 4 consecutive quarterly samples or the average of the analysis of 4 quarterly samples.

History: 1954 ACS 94, p. 43, Eff. Jan. 12, 1978.

R 325.10730 Radioactivity; reporting requirements.

Rule 730. (1) If the average annual MCL for gross alpha particle activity or total radium as set forth in part 6 is exceeded, the supplier of water shall notify the division within 48 hours and shall notify the public pursuant to part 4 of these rules. Monitoring at quarterly intervals shall be continued until the annual average concentration no longer exceeds the state drinking water standard.

(2) If the average annual MCL for man-made radioactivity as prescribed in part 6 is exceeded, the supplier of water shall notify the division within 48 hours and shall provide notice to the public pursuant to part 4 of these rules. Monitoring at monthly intervals shall be continued until the concentration no longer exceeds the state drinking water standard.

History: 1954 ACS 94, p. 44, Eff. Jan. 12, 1978.

R 325.10731 Sample analyses; approved laboratories and personnel.

Rule 731. For the purpose of determining compliance with the monitoring requirements prescribed by this part, samples shall be considered valid only if they have been analyzed by a laboratory approved by the department, except that measurements for turbidity may be performed by personnel acceptable to the department.

History: 1954 ACS 94, p. 44, Eff. Jan. 12, 1978.

R 325.10732 Specific testing frequencies; sample locations and parameters.

Rule 732. (1) The department may require a supplier of water to monitor raw water, water during stages in the treatment system if treatment is employed, and water from the distribution system at frequencies and for parameters as specified by the department.

(2) Parameters required by subrule (1) may include other constituents than the MCL's including, but not limited to, chlorine residual.

History: 1954 ACS 94, p. 44, Eff. Jan. 12, 1978.

R 325.10733 Modification of monitoring requirements for type I public water supplies which supply water to additional public water supplies.

Rule 733. When a type I public water supply supplies water to 1 or more other public water supplies, the department may modify the monitoring requirements prescribed by this part to the extent that the interconnection of the public water supplies justifies treating them as a single water supply for monitoring purposes. Modified monitoring shall be conducted pursuant to a schedule specified by the department and concurred in by the regional administrator.

History: 1954 ACS 94, p. 44, Eff. Jan. 12, 1978.

R 325.10734 Reporting to the division; general requirements.

Rule 734. (1) Except where a shorter reporting period is specified in this part, a supplier of water shall report to the division the results of that measurement or analysis within 40 days following a measurement or analysis required by this part.

(2) Unless otherwise specified in this part, a supplier of water shall report to the division within 48 hours of a failure to comply with an MCL including failure to *comply with a monitoring* requirement as prescribed by this part.

(3) A supplier of water shall not be required to report analytical results to the division in cases where the department laboratory performs the analysis and reports the results to the division.

History: 1954 ACS 94, p. 44, Eff. Jan. 12, 1978.

R 325.10735 Vigilance of threats or hazards; notification to division.

Rule 735. (1) A supplier of water shall maintain continued vigilance of activities posing threats or hazards of undue contamination to the source of water.

(2) In the event of a threat of contamination of a public water supply source, a supplier of water shall immediately notify the division.

History: 1954 ACS 94, p. 44, Eff. Jan. 12, 1978.

R 325.10736 Schedule of fees.

Rule 736. The supplier of water shall collect and analyze water samples or have them collected and analyzed as specified in this part. If the supplier of water fails to meet this responsibility, the department shall collect and analyze the water samples routinely as specified in this part and charge the supplier for these services according to the fee schedule established in table 2 in R 325.10738.

History: 1954 ACS 94, p. 44, Eff. Jan. 12, 1978.

R 325.10737 Table 1.

Rule 737. Table 1 reads as follows:

Population served	Minimum number of samples per month	Population served	Minimum number of samples per month
25 to 1,000	1	22,301 to 23,200	26
1,001 to 2,500	2	23,201 to 24,000	27
2,501 to 3,300	3	24,001 to 24,900	28
3,301 to 4,100	4	24,901 to 25,000	29
4,101 to 4,900	5	25,001 to 28,000	30
4,901 to 5,800	6	28,001 to 33,000	35
5,801 to 6,700	7	33,001 to 37,000	40
6,701 to 7,600	8	37,001 to 41,000	45
7,601 to 8,500	9	41,001 to 46,000	50
8,501 to 9,400	10	46,001 to 50,000	55
9,401 to 10,300	11	50,001 to 54,000	60
10,301 to 11,100	12	54,001 to 59,000	65
11,101 to 12,000	13	59,001 to 64,000	70
12,001 to 12,900	14	64,001 to 70,000	75
12,901 to 13,700	15	70,001 to 76,000	80
13,701 to 14,600	16	76,001 to 83,000	85
14,601 to 15,500	17	83,001 to 90,000	90

History: 1954 ACS 94, p. 45, Eff. Jan. 12, 1978.

R 325.10738 Table 2.

Rule 738. Table 2 reads as follows:

Type of sample collected and analyzed or measured	Fee per sample when collected by the department
Bacteriologic	$35.00
Turbidity	$35.00
Others	No fee

History: 1954 ACS 94, p. 45, Eff. Jan. 12, 1978.

PART 8. GROUNDWATER SOURCES

R 325.10801 Purpose.

Rule 801. The purpose of this part is to establish certain requirements and objectives for the isolation and construction of wells which shall be met by public water supplies to provide a continuous, adequate quantity of water meeting the state drinking water standards.

History: 1954 ACS 94, p. 45, Eff. Jan. 12, 1978.

R 325.10802 Applicability; approval of deviation from minimum standards and requirements.

Rule 802. (1) The provisions of this part apply to wells used to supply groundwater for a public water supply. These rules are minimum standards and requirements which shall be considered by the department in the issuance of permits or approvals for waterworks systems.

(2) Deviations from the minimum standards and requirements prescribed by *this part may be approved* by the department upon a showing by an owner of a

public water supply that a deviation will not adversely affect the public health. Deviations from this part shall be by permit condition for type I or type II public water supplies, and in writing by the department for type III public water supplies.

History: 1954 ACS 94, p. 46, Eff. Jan. 12, 1978.

R 325.10804 Type III public water supplies; applicability of other rules.

Rule 804. Suppliers of water of type III public water supplies shall comply with the applicable provisions of rules of the department promulgated pursuant to Act No. 294 of the Public Acts of 1965, as amended, being §§325.221 to 325.240 of the Michigan Compiled Laws, and entitled "Part 1. Well Construction Code," being R 325.1601 to R 325.1676 of the Michigan Administrative Code, except where specific requirements for type III public water supplies prescribed by this part are more restrictive.

History: 1954 ACS 94, p. 46, Eff. Jan. 12, 1978.

R 325.10805 Retroactivity of rules; significant changes or major repairs made to existing well; utilization of well not in compliance with this part.

Rule 805. (1) This part is not retroactive for individual well installations constructed before the effective date of these rules except:

(a) When water quality from the well does not meet the state drinking water standards.

(b) Upon a determination by the department that continued use of a well represents a health hazard, or

(c) When a well is found to be in violation of previous rules of the department which were in effect at the time of construction.

(2) Significant changes or major repairs made to an existing well after the effective date of these rules shall conform to the provisions of this part. Those changes shall include, but are not necessarily limited to, replacing the casing, modifying the depth of a well, installing new pumping equipment of a different type or of higher capacity, or modifying the pump setting. In general, a significant change or major repair shall be considered to have occurred if the pumping capacity is increased above the original capacity as a result of the work. A significant change or major repair shall not include routine maintenance or incidental repairs.

(3) A supplier of water proposing to utilize water from a well or well field not in compliance with this part may be required to provide continuous treatment of the water in a manner acceptable to the department and shall obtain written approval from the department before utilizing that well or well field as part of a public water supply.

(4) A supplier of water employing a complete treatment system to treat a groundwater source may be granted special consideration by the department for the location and construction of wells used as a raw water source prior to treatment.

History: 1954 ACS 94, p. 46, Eff. Jan. 12, 1978.

R 325.10806 Change in classification of public water supply.

Rule 806. Requirements or criteria prescribed by this part for the various types of public water supplies shall be based on the facilities which the public water supply is intended to serve. If the volume of water used or the type of facilities or number of units served by a public water supply changes in such a way as to cause

a change in the classification of a public water supply, the supplier of water shall meet requirements applicable to the new classification.

History: 1954 ACS 94, p. 46, Eff. Jan. 12, 1978.

R 325.10807 Location of well.

Rule 807. A well shall be located with due consideration given to the extent of the property, the contour of the land, elevation of the site, the depth to the water table, other geological characteristics, local groundwater conditions, and other factors necessary to provide a safe and reliable public water supply. A well shall meet all of the following requirements:

(a) Located so the well and its surrounding area is controlled and protected from potential sources of contamination.

(b) Adequate in size, design, and development for the intended use.

(c) Constructed to maintain existing natural protection against contamination of water-bearing formations and to prevent all known sources of contamination from entering the well.

(d) Protected against the entry of surface water.

History: 1954 ACS 94, p. 46, Eff. Jan. 12, 1978.

R 325.10808 Standard isolation area generally.

Rule 808. The standard isolation areas from any existing or potential sources of contamination, including, but not limited to, storm and sanitary sewers, pipelines, septic tanks, drain fields, dry wells, cesspools, seepage pits, leaching beds, barnyards, or any surface water, other area or facility from which contamination of the groundwater may occur, are established for public water supplies as follows:

(a) For type I and type IIa public water supplies, the standard isolation area is an area measured with a radius of 200 feet in all directions from the well.

(b) For type IIb and type III public water supplies, the standard isolation area is an area measured with a radius of 75 feet in all directions from the well.

History: 1954 ACS 94, p. 47, Eff. Jan. 12, 1978.

R 325.10809 Standard isolation area; modification; approval.

Rule 809. (1) Modifications of the standard isolation area, if any, shall be determined for a site based on a study of hydrogeological conditions provided to the department by a supplier of water pursuant to R 325.10813 and R 325.10814.

(2) The department may require an increase or approve a decrease in the standard isolation area of a well.

(3) Approval of the isolation area shall be obtained from the department before construction of a production well used for drinking or household purposes as part of a public water supply.

History: 1954 ACS 94, p. 47, Eff. Jan. 12, 1978.

R 325.10810 Standard isolation area for type I public water supplies; ownership or control.

Rule 810. (1) A supplier of water of a type I public water supply shall be required to own the approved isolation area except as provided by subrule (2) to prevent use of the property which could result in contamination of the public water supply.

(2) If a supplier of water of a type I public water supply adequately demonstrates to the department that ownership of the isolation area is not *possible, adequate* control of the isolation area shall be required. Adequate

control may be a long-term lease or easement including provisions to prevent use of the isolation area which could result in contamination of the well.

History: 1954 ACS 94, p. 47, Eff. Jan. 12, 1978.

R 325.10811 Sewers within approved isolation area.

Rule 811. (1) A storm or sanitary sewer shall not be located within the approved isolation area of a well for a type I or type IIa public water supply.

(2) A buried sewer, located within the approved isolation area for a type IIb or type III public water supply, shall be constructed with materials and joints as approved in writing by the department.

History: 1954 ACS 94, p. 47, Eff. Jan. 12, 1978.

R 325.10812 Location of wells with respect to major sources of contamination.

Rule 812. Wells serving type I and type IIa public water supplies shall be located a minimum distance of 2,000 feet, and wells serving type IIb and type III public water supplies shall be located a minimum distance of 800 feet, from known major sources of contamination, including, but not limited to, large scale waste disposal sites, land application of sanitary wastewater or sludges, sanitary landfills, and chemical or waste chemical storage or disposal facilities. Based on hydrogeological studies, the department may require an increase or approve a decrease in the 2,000-foot distance for type I or type IIa public water supplies or the 800-foot distance for type IIb or type III public water supplies.

History: 1954 ACS 94, p. 47, Eff. Jan. 12, 1978.

R 325.10813 Study of hydrogeological conditions by supplier of water of type I and type IIa public water supplies.

Rule 813. (1) A supplier of water of a type I or type IIa public water supply shall prepare a study of hydrogeological conditions for determination of an isolation area and the acceptability of a proposed location of a well. The study shall be provided to the department and approval obtained.

(2) Previous studies of hydrogeological conditions shall be considered by the department in determining the scope of or need for a study required by this rule.

(3) A study of hydrogeological conditions shall mean investigations and a compilation and evaluation of data necessary to determine the isolation area, acceptability of a well location and construction, and the availability of water at that location. The study of hydrogeological conditions may include the following:

(a) The type of public water supply.

(b) The proposed well capacity.

(c) The proposed well depth and well construction features.

(d) Identification of geological formations, including the thickness and characteristics of the aquifer, the number and thicknesses of protective layers, and if deemed necessary by the department, the areal extent of the protective formations.

(e) Location of the well relative to sources of contamination.

(f) Susceptibility of the area to flooding.

(g) Depth to the water table from the established ground surface.

(h) Proximity of the well to surface water.

(i) A yield test of the well in accordance with R 325.10830.

(j) Water quality analyses.

(4) The scope of the hydrogeological study may vary depending upon the capacity of the proposed well in relation to the aquifer capacity, the need for a modification of a standard isolation area, or other factors; and may include

additional determinations required by the department, such as the general aquifer characteristics and interference relative to other wells in proximity to the well site.

History: 1954 ACS 94, p. 47, Eff. Jan. 12, 1978.

R 325.10814 Studies of suppliers of water of type IIb and type III public water supplies.

Rule 814. If a modification of the standard isolation area is requested by a supplier of water of a type IIb or type III public water supply, the supplier shall submit to the department and obtain approval for a study of hydrogeological conditions consistent with the capacity of the well and the capacity of the aquifer.

History: 1954 ACS 94, p. 48, Eff. Jan. 12, 1978.

R 325.10815 Procedures for department approval of a proposed well for type I and type II public water supplies.

Rule 815. (1) In reviewing the location and acceptability of a proposed well for a type I or type II public water supply, the department shall determine whether the following procedures have been followed by a supplier of water:

(a) Approval has been obtained from the department for each proposed land parcel on which a test well is to be located.

(b) For type I public water supplies, ownership or adequate control as required by R 325.10810 or an option for ownership or adequate control of the required isolation area has been secured.

(c) Where required, a study of hydrogeological conditions has been approved by the department.

(d) Satisfactory yield tests have been completed on the test well or the well capacity has been established to the satisfaction of the department.

(e) Water quality analyses show results meeting the state drinking water standards.

(2) When the department finds that a proposed well, its location, and its construction features meet the requirements of this part, the department shall authorize construction of a production well or conversion of a test well to a production well.

History: 1954 ACS 94, p. 48, Eff. Jan. 12, 1978.

R 325.10816 Location of well in area subject to flooding.

Rule 816. (1) A well shall not be located in an area subject to flooding unless the well is protected as approved in writing by the department. The ground surface immediately adjacent to a well casing shall be graded so that surface water is diverted away from the casing. Surface flooding shall not be allowed closer than 25 feet from the well.

(2) The top of a well casing, any other opening into the well casing, well appurtenances, and controls shall be not less than 2 feet above the greater of the following:

(a) One hundred-year flood elevation.

(b) The maximum recorded flood elevation.

History: 1954 ACS 94, p. 48, Eff. Jan. 12, 1978.

R 325.10817 Top of well casing; elevation.

Rule 817. The top of a well casing shall terminate not less than 12 inches above the established ground surface, or the floor of a pump room, well room, or well *house. In addition, for type* IIb and type III public water supplies the top of a well

casing may terminate not less than 12 inches above the floor of an approved basement offset.

History: 1954 ACS 94, p. 49, Eff. Jan. 12, 1978.

R 325.10818 Minimum well casing depth.

Rule 818. Casings for all wells serving public water supplies shall extend not less than 25 feet below the established ground surface.

History: 1954 ACS 94, p. 49, Eff. Jan. 12, 1978.

R 325.10819 Well casing in rock formation.

Rule 819. (1) In an area where a well is to be developed in fractured, jointed, or cavernous rock, the well shall not be approved as a production well unless all of the following conditions exist:

(a) Adequate protective material above the aquifer.

(b) No evidence of aquifer contamination.

(c) No direct flow from surface or near surface sources to the rock aquifer.

(2) The department may also approve a well developed in fractured, jointed, or cavernous rock based on special well construction features and a hydrogeologic study.

History: 1954 ACS 94, p. 49, Eff. Jan. 12, 1978.

R 325.10820 Water suction lines.

Rule 820. (1) A casing shall not be used as a suction line unless protected by a permanent outer casing.

(2) For type I and type IIa public water supplies, a buried water suction line extending outside the well casing is prohibited.

(3) For type IIb and type III public water supplies, a buried water suction line extending outside the well may be used if protected in a manner approved by the department.

(4) Any buried pump discharge line shall be under positive pressure at all times.

History: 1954 ACS 94, p. 49, Eff. Jan. 12, 1978.

R 325.10821 Casing materials.

Rule 821. All casings used for wells serving a public water supply shall be of materials approved in writing by the department.

History: 1954 ACS 94, p. 49, Eff. Jan. 12, 1978.

R 325.10822 Grouting.

Rule 822. (1) Grouting may be required by a method approved by the department to obtain a tight bond between the well casing and the undisturbed natural earth formations, thus preventing the entrance of any surface water or near surface contaminants to the groundwater source.

(2) Grouting may be required to protect the well casing from corrosion, where necessary.

(3) Grouting may be required by the department where a reduction in the standard isolation area of a well is proposed.

History: 1954 ACS 94, p. 49, Eff. Jan. 12, 1978.

R 325.10823 Flowing artesian wells; well construction.

Rule 823. In areas where flowing artesian wells are commonly encountered, the well construction methods proposed by a supplier of water to protect a

flowing artesian aquifer and confining strata shall be submitted to the department by the supplier of water and approval obtained prior to the start of construction.

History: 1954 ACS 94, p. 49, Eff. Jan. 12, 1978.

R 325.10824 Flowing artesian wells; flow control.

Rule 824. For flowing artesian wells, a direct connection between a discharge pipe for flow control and a sewer or other source of contamination is prohibited.

History: 1954 ACS 94, p. 49, Eff. Jan. 12, 1978.

R 325.10825 Elevation of discharge from well casing; location of connection to well casing.

Rule 825. (1) For type I and type IIa public water supplies, a discharge from a well casing at an elevation less than 12 inches above the established ground surface is prohibited, except where an installation with an approved pitless adapter is permitted by the department.

(2) For type IIb and type III public water supplies, a connection to a well casing may be at least 12 inches above the floor of an approved basement offset, pump room, or well room, or the requirements of subrule (1) shall be met.

History: 1954 ACS 94, p. 49, Eff. Jan. 12, 1978.

R 325.10826 Construction and location of room housing pumping equipment or room housing top of well casing.

Rule 826. (1) For type I and type IIa public water supplies, a room housing pumping equipment or a room housing the top of a well casing, where used, shall be constructed above the established ground surface allowing access to the pump for maintenance or repair.

(2) For type IIb and type III public water supplies, a room housing pumping equipment may be located below the established ground surface if it is located in, or attached to, an approved basement or is drained to the ground surface by gravity.

History: 1954 ACS 94, p. 50, Eff. Jan. 12, 1978.

R 325.10827 Tail pipe or pump suction pipe; termination.

Rule 827. In screened wells, the bottom of a tail pipe or pump suction pipe shall terminate not less than 5 feet above the top of the screen.

History: 1954 ACS 94, p. 50, Eff. Jan. 12, 1978.

R 325.10828 Casing vents; sampling tap; relief valves.

Rule 828. (1) Casing vents shall be:

(a) Provided on all wells and constructed to prevent the entrance of contaminants into the well.

(b) Extended to the outside atmosphere above the roof level if toxic or flammable gases are present.

(2) Provisions shall be made for collection of water samples by installation of a proper sampling tap in a convenient location as close to each well as possible.

(3) Air-vacuum relief valves, where used, shall be constructed to prevent entrance of contaminants into the well.

History: 1954 ACS 94, p. 50, Eff. Jan. 12, 1978.

R 325.10829 Well appurtenances; type I public water supplies.

Rule 829. (1) The following is required of each well serving type I public *water supplies:*

(a) Each well shall be equipped with a meter or other acceptable means to measure the volume of water produced.

(b) Each well shall be provided with an electrical outlet energized with the pump motor, chemical injection taps, and space necessary for the addition of chemicals so that treatment equipment can be readily connected to the well discharge line in the event the department requires chemical treatment to protect the public health.

(c) Each well shall be equipped to allow pumping to waste without interrupting normal service in the distribution system.

(d) Each well shall be equipped with a means to measure the water level.

(2) Subdivisions (a) and (b) of subrule (1) do not apply to individual wells which are a part of a multiple well field serving a type I public water supply if the multiple well field is equipped in accordance with the provisions of subdivisions (a) and (b) or where a well is a raw water source for a treatment system when the treatment system is equipped with a meter or other acceptable means to measure the volume of water produced.

History: 1954 ACS 94, p. 50, Eff. Jan. 12, 1978.

R 325.10830 Yield or performance testing requirements.

Rule 830. (1) Each well constructed to serve a public water supply shall be tested for yield or performance, by a method approved by the department, after installation of a production well and prior to use of a well to supply water to a waterworks system.

(2) For type I and type IIa public water supplies, yield tests or performance tests shall be performed on the test well or production well. The tests may be required to:

(a) Determine the adequacy of well depth and development.

(b) Secure water samples for quality analyses.

(c) Determine well capacity and production on a long-term basis.

(d) Determine drawdown.

(e) Select permanent pumping equipment.

(f) Evaluate well efficiency.

(g) Assure proper utilization and protection of groundwater aquifers.

(3) For type IIb and type III public water supplies, yield tests or performance tests of wells shall demonstrate that water can be safely withdrawn from an aquifer in sufficient quantity to provide water for drinking and household purposes and of a quality meeting the state drinking water standards.

History: 1954 ACS 94, p. 50, Eff. Jan. 12, 1978.

R 325.10831 New or reconditioned well; disinfection; water samples.

Rule 831. (1) A new or reconditioned well or pump installation or well facility which is opened for maintenance or inspection shall be pumped to waste until the water is as clear as reasonably possible. Thereafter the well and pumping equipment shall be properly disinfected.

(2) Prior to placing a new or reconditioned well or a well facility which is opened for maintenance or inspection into service, not less than 2 consecutive water samples for bacteriological analyses shall be collected from the installation and each analysis shall show results meeting state drinking water standards. Analyses for other contaminants may be required by the department.

R 325.10832 Abandoned wells.

Rule 832. An abandoned well shall be properly filled and sealed to prevent it from becoming a hazard or serving as a channel for contamination of the groundwater or the escape of subterranean gas.

History: 1954 ACS 94, p. 51, Eff. Jan. 12, 1978.

R 325.10833 Sanitary protection of groundwater sources.

Rule 833. Water from groundwater sources with limited or no sanitary protection, including springs, shall not be used as a water source for a public water supply, unless followed by complete treatment prior to distribution.

History: 1954 ACS 94, p. 51, Eff. Jan. 12, 1978.

PART 9. SURFACE WATER SOURCES

R 325.10901 Purpose.

Rule 901. The purpose of this part is to establish certain requirements for the location and use of raw water intakes in surface water sources to assure a continuously adequate quantity of the best quality raw water available for treatment and distribution to the public.

History: 1954 ACS 94, p. 51, Eff. Jan. 12, 1978.

R 325.10902 Applicability; approval of deviations from minimum standards and requirements.

Rule 902. (1) The provisions of this part apply to all public water supplies utilizing surface water sources. These rules are minimum standards and requirements which shall be considered by the department in the issuance of permits or approvals for waterworks systems or portions thereof.

(2) Deviations from the minimum standards and requirements prescribed by this part may be approved by the department upon a showing by an owner of a public water supply that a deviation will not adversely affect the public health. Deviations from this part shall be by permit condition for type I and type II public water supplies, and in writing by the department for type III public water supplies.

History: 1954 ACS 94, p. 51, Eff. Jan. 12, 1978.

R 325.10904 Retroactivity of rules.

Rule 904. This part is not retroactive for intakes in surface water sources constructed before the effective date of these rules, except upon a determination by the department that continued use of the intake or surface water source poses a health hazard.

History: 1954 ACS 94, p. 51, Eff. Jan. 12, 1978.

R 325.10905 Sanitary survey of proposed surface water source.

Rule 905. (1) A sanitary survey of a proposed surface water source shall be performed by the owner of a public water supply. The scope or need for the sanitary survey shall be established in advance by the department after consultation with the owner.

(2) All of the following shall be determined for each alternate location of a surface water intake:

(a) The normal water quality.

(b) Any significant variations in water quality.

(c) Any existing or potential hazards to public health.

(d) The suitability of the water for treatment.

(e) The availability of an adequate and dependable source.

(3) Previous sanitary surveys of the same surface water source may be considered by the department in determining the scope or need for a sanitary survey required by subrule (1).

(4) The results of the sanitary survey shall be submitted to the department for review, and approval shall be obtained prior to the issuance of a permit for the construction or use of an intake in a surface water source.

(5) Where the water quality of the proposed surface water source is unknown, the department may require sampling and analyses by the supplier of water for a period not to exceed 1 year to determine water quality and suitability of the water for treatment.

History: 1954 ACS 94, p. 51, Eff. Jan. 12, 1978.

R 325.10906 Intake from surface water source; design capacity.

Rule 906. An intake from a surface water source shall be designed to withdraw raw water in no greater quantity than the available yield at the 100-year drought elevation or flow.

History: 1954 ACS 94, p. 52, Eff. Jan. 12, 1978.

R 325.10907 Intake inlet and pipeline.

Rule 907. (1) The intake inlet shall be submerged so that hazards of the source waters, including physical hazards, icing hazards, and shipping hazards are minimized.

(2) Approval of the intake inlet configuration and construction materials shall be based on protection of the structure and control of the inlet velocity.

(3) The intake pipeline shall be constructed to reasonably protect against physical hazards associated with the surface water source.

History: 1954 ACS 94, p. 52, Eff. Jan. 12, 1978.

R 325.10908 Approval of intake materials.

Rule 908. Classes and types of materials used for intake pipelines, joints, and intake inlets shall be as approved by the department.

History: 1954 ACS 94, p. 52, Eff. Jan. 12, 1978.

R 325.10909 Pressure testing required.

Rule 909. Pressure testing is required and the intake line shall meet the requirements of the pressure test prior to placing a new intake line into service.

History: 1954 ACS 94, p. 52, Eff. Jan. 12, 1978.

PART 10. TREATMENT SYSTEMS AND PUMPING FACILITIES

R 325.11001 Purpose.

Rule 1001. The purpose of this part is to establish requirements to be met by suppliers of water providing treatment of surface water sources or other sources of water requiring treatment, and to establish requirements for water pumping facilities operated by suppliers of water to provide a continuously adequate quantity of water meeting the state drinking water standards.

History: 1954 ACS 94, p. 52, Eff. Jan. 12, 1978.

R 325.11002 Applicability; approval of deviations from minimum standards and requirements.

Rule 1002. (1) The provisions of this part apply to all public water supplies using surface water sources, to all complete treatment systems, and to certain other treatment systems; and to all water pumping facilities. These rules are minimum standards and requirements which shall be considered by the department for issuance of permits or approvals for waterworks systems.

(2) Deviations from the minimum standards and requirements prescribed by this part may be approved by the department upon a showing by an owner of a public water supply that the deviation will not adversely affect public health. Deviations shall be by permit condition for type I and type II public water supplies, and in writing by the department for type III public water supplies.

History: 1954 ACS 94, p. 52, Eff. Jan. 12, 1978.

R 325.11004 Treatment requirements for surface water sources and other sources.

Rule 1004. (1) Exceptions to this rule, except as provided by subrule (4), shall be by variance or exemption only.

(2) A complete treatment system shall be provided for all public water supplies using a surface water source.

(3) A complete treatment system may be required for certain other sources of water which, in the judgment of the department, cannot be continuously protected against contamination.

(4) The department may grant a deviation from subrule (2) or (3) where a treatment system which includes filtration is demonstrated to be capable of producing finished water meeting the state drinking water standards.

(5) All treatment systems for public water supplies using a surface water source or any source of water requiring complete treatment shall provide sufficient disinfectant contact time at the rated treatment capacity before entry of the water to the distribution system to assure adequate disinfection.

(6) Equipment provided for disinfection required under subrule (5) shall be capable of treating at the rated treatment capacity with the largest unit removed from service.

(7) Disinfection shall be provided for public water supplies employing phosphate treatment systems or certain iron removal treatment systems.

History: 1954 ACS 94, p. 52, Eff. Jan. 12, 1978.

R 325.11005 Treatment system; measurement of volume and rate of finished water flow.

Rule 1005. Each treatment system shall be provided with a means to measure the volume and rate of finished water produced.

History: 1954 ACS 94, p. 53, Eff. Jan. 12, 1978.

R 325.11006 Rated capacity of a complete treatment system.

Rule 1006. (1) The department shall establish the rated capacity of new or existing complete treatment systems.

(2) The department shall notify the supplier of water of its determination of rated capacity within 1 year from the effective date of these rules or on the permit for a new complete treatment system or on the permit for an existing complete treatment system which undergoes alterations which affect rated capacity.

(3) The rated capacity of the complete treatment system is the smallest of the *following rated capacities* for each element or unit of the system:

(a) Intake—The rated capacity of the intake is the lesser of the intake capacity at the 100-year drought elevation or the intake capacity at the time of the lowest recorded elevation of surface water at the point of intake.

(b) Raw water supply—The rated capacity of the raw water supply is the firm capacity of raw water pumping units or the total flow from a system supplying raw water by gravity under minimum source water elevation conditions.

(c) Treatment processes—The rated capacity of treatment processes including coagulation, precipitation, sedimentation, and filtration is the established maximum allowable treatment rate. Where less than 4 filters are provided, the rated capacity of the filters is the maximum allowable treatment rate with the largest filter removed from service.

(d) Finished water supply—The rated capacity of the finished water supply to the distribution system or storage is the firm capacity of pumping systems or the total flow from a system supplying finished water by gravity under the limiting head condition.

History: 1954 ACS 94, p. 53, Eff. Jan. 12, 1978.

R 325.11007 Retroactivity of rules.

Rule 1007. R 325.11008 is not retroactive for existing complete treatment systems except upon a determination by the department that continued use of the existing system represents a health hazard.

History: 1954 ACS 94, p. 53, Eff. Jan. 12, 1978.

R 325.11008 Complete treatment system; requirements.

Rule 1008. (1) A minimum of 2 units shall be provided for each treatment process for coagulation, sedimentation, and filtration.

(2) Firm filter backwash capacity at the approved backwash rate is required.

(3) Essential chemical systems for application of disinfectants, primary coagulants, and other chemicals, as required by the department, shall be equipped to provide service at the maximum allowable treatment rate with the largest unit removed from service.

(4) Storage of essential chemicals shall be provided to assure continuity of supply for treatment process requirements.

(5) Application points for disinfection shall be provided, or be available, at all of the following:

(a) Before coagulation.

(b) Immediately preceding filtration.

(c) Immediately following filtration.

(d) Immediately before entry of finished water into the distribution system.

(6) Each unit or element of a complete treatment system shall be provided with a means to remove it from service without interrupting the treatment process. However, a complete bypass of the coagulation, sedimentation, or filtration processes is prohibited.

(7) Each unit or element of a complete treatment system shall be provided with a means to drain and with overflow control sufficient to prevent flooding of the facility.

(8) There shall be no common walls between finished water and water of lesser quality.

(9) Each complete treatment system shall be provided with a means to measure the volume and rate of raw water supplied and finished water produced.

(10) A complete treatment system shall be protected from the highest recorded flood elevation or the 100-year flood elevation, whichever is greater.

(11) Components of a complete treatment system essential for protection of public health and required for production of drinking water on a continuous basis shall be protected from flooding.

History: 1954 ACS 94, p. 53, Eff. Jan. 12, 1978.

R 325.11009 Treatment system operator.

Rule 1009. An operator certified in accordance with part 19 of these rules shall be present at all times during operation of the treatment processes at a complete treatment system or other treatment system using a surface water source.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

R 325.11010 Applicability of pumping facility.

Rule 1010. R 325.11011 and R 325.11012 apply to all raw water, finished water, and distribution system pumping installations in type I and type IIa public water supplies, except distribution system pumping facilities where service is provided to less than 50 service connections or to less than 200 individuals.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

R 325.11011 Pumping facility; capacity.

Rule 1011. (1) A pumping facility shall have sufficient capacity to meet the service area demands with the largest unit removed from service.

(2) Compliance with this rule for public water supplies in operation on the effective date of these rules shall be achieved by January 1, 1985.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

R 325.11012 Pumping facility; servicing.

Rule 1012. Each unit of a pumping facility shall be provided with a means to remove it from service without interrupting service to the distribution system.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

R 325.11013 Pumping facility; storage and demand.

Rule 1013. All pumping facilities operating with hydropneumatic storage systems or with less than adequate gravity storage systems shall have capacity equal to, or greater than, peak instantaneous demands. This rule shall apply to all public water supplies.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

R 325.11014 Pumping facility; protection from flooding.

Rule 1014. (1) A pumping facility shall be protected from the highest recorded flood elevation or the 100-year flood elevation, whichever is greater.

(2) Components of a pumping facility essential for protection of public health and required for pumping water on a continuous basis shall be protected from flooding.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

R 325.11015 Pumping facility; pressure.

Rule 1015. (1) All finished water pumping facilities shall be designed to maintain a minimum pressure of 5 psi gauge in all buried suction piping and *suction piping subject to flooding.*

(2) For finished water pumping facilities taking direct suction from a distribution system, an adequate pressure shall be maintained in the distribution system on the low pressure side of the facility.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

R 325.11016 Protection of treatment systems and pumping facilities.

Rule 1016. Suppliers of water shall take reasonable precautions to protect treatment systems and pumping facilities from trespassers and to prevent introduction of contaminants into the waterworks system.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

PART 11. DISTRIBUTION SYSTEMS AND STORAGE TANKS

R 325.11101 Purpose.

Rule 1101. The purpose of this part is to establish certain requirements for distribution systems and water storage tanks to assure a continuously adequate quantity and quality of water for drinking and household purposes.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

R 325.11102 Applicability; approval of deviations from minimum standards and requirements.

Rule 1102. (1) The provisions of this part apply to all public water supplies. These rules are minimum standards and requirements which shall be considered by the department in the issuance of permits or approvals for waterworks systems.

(2) Deviations from the minimum standards and requirements prescribed by this part may be approved by the department upon a showing by an owner of a public water supply that a deviation will not adversely affect the public health. Deviations from this part shall be by permit condition for type I public water supplies, and in writing by the department for type II and type III public water supplies.

History: 1954 ACS 94, p. 54, Eff. Jan. 12, 1978.

R 325.11104 Retroactivity of rules.

Rule 1104. This part is not retroactive for existing distribution systems and water storage tanks except upon a determination by the department that continued use of a distribution system or storage tank poses a health hazard.

History: 1954 ACS 94, p. 55, Eff. Jan. 12, 1978.

R 325.11105 Capacity of distribution system; fire hydrants; inadequately sized watermains.

Rule 1105. (1) Distribution systems shall have sufficient capacity to meet peak demands, including fire flow demands where fire protection is provided, while continuously maintaining positive pressure adequate for service.

(2) The department may prohibit installation of fire hydrants where watermain capacity, system source capacity, storage capacity, or pressure is inadequate to sustain fire flow demands in addition to normal user demands.

(3) Replacement of inadequately sized watermains with watermains of the same size is prohibited.

History: 1954 ACS 94, p. 55, Eff Jan. 12, 1978.

R 325.11106 Watermain and joint materials.

Rule 1106. Classes and types of materials used for watermains and joints shall be as approved in writing by the department.

History: 1954 ACS 94, p. 55, Eff. Jan. 12, 1978.

R 325.11107 Isolation of watermains from sources of contamination.

Rule 1107. All public water supplies shall maintain adequate vertical and horizontal isolation of watermains from sources of contamination.

History: 1954 ACS 94, p. 55, Eff. Jan. 12, 1978.

R 325.11108 Distribution system valves.

Rule 1108. (1) Sufficient valves shall be provided on distribution systems to minimize interruptions in service and minimize sanitary hazards during construction or repairs.

(2) Automatic air relief and automatic vacuum relief valves, if provided on the distribution system, shall be installed and maintained to prevent contaminants from entering the distribution system.

(3) Buried stop-and-waste valves on service lines and the installation of other valves with openings subject to flooding are prohibited.

History: 1954 ACS 94, p. 55, Eff. Jan. 12, 1978.

R 325.11109 Type I public water supplies; pressure testing of new watermains.

Rule 1109. For type I public water supplies, pressure testing is required for new watermains, and the requirements of the pressure test shall be met prior to placing a new watermain in service.

History: 1954 ACS 94, p. 55, Eff. Jan. 12, 1978.

R 325.11110 Distribution systems; flushing, disinfection, and water analysis.

Rule 1110. (1) Proper techniques shall be followed during construction to keep watermains clean and dry. New watermains shall be flushed thoroughly prior to disinfection.

(2) Disinfection of new watermains is required.

(3) Prior to placing a new watermain in service, not less than 2 consecutive water samples for bacteriological analysis shall be collected and each analysis shall show results meeting state drinking water standards. Analyses for other contaminants may be required by the department.

(4) Those public water supplies in which all or part of a distribution system is not in year-round service shall disinfect the distribution system before resuming use. Bacteriological sampling and analysis shall be performed and shall show results meeting the state drinking water standards before resuming use.

History: 1954 ACS 94, p. 55, Eff. Jan. 12, 1978.

R 325.11111 Distribution system records.

Rule 1111. A supplier of water shall maintain adequate records on the operation of the water distribution system, on the location and type of maintenance performed, and on the type of materials and appurtenances used.

History: 1954 ACS 94, p. 55, Eff. Jan. 12, 1978.

R 325.11112 Storage tanks generally.

Rule 1112. All storage tanks, including hydropneumatic or gravity storage tanks which are used for the storage of finished water, shall meet all of the *following requirements:*

(a) Be watertight below the maximum water level elevation.

(b) Be constructed with materials and coatings approved by the department pursuant to part 21 of these rules.

(c) Have no unprotected openings.

(d) Be provided with access to the inside of the tank for inspection or repair.

(e) Be capable of being isolated from the distribution system and drained without interrupting service to users or customers.

(f) Prevent sediment or debris which may collect in the tank from entering the distribution system.

History: 1954 ACS 94, p. 56, Eff. Jan. 12, 1978.

R 325.11113 Gravity storage tanks.

Rule 1113. All gravity storage tanks shall be provided with all of the following:

(a) A watertight and properly drained roof.

(b) A vent of sufficient size.

(c) An overflow line of sufficient size.

(d) A high and low level warning device.

History: 1954 ACS 94, p. 56, Eff. Jan. 12, 1978.

R 325.11114 Ground level gravity storage tanks.

Rule 1114. (1) The bottom of a ground level gravity storage tank shall be above the highest groundwater level.

(2) The bottom of a ground level gravity storage tank shall be located at least 1 foot above the 100-year flood elevation or the maximum recorded flood elevation, whichever is greater.

(3) The site of a ground level gravity storage tank shall be graded to direct surface drainage away from the tank.

History: 1954 ACS 94, p. 56, Eff. Jan. 12, 1978.

R 325.11115 Hydropneumatic storage tanks.

Rule 1115. (1) For type I and type IIa public water supplies, a hydropneumatic tank shall be located above the established ground surface and installed in a wellhouse, except it shall be acceptable to expose 1 end of the hydropneumatic tank and the controls in a wellhouse and mound earth cover material over the remainder of the tank.

(2) For type IIb and type III public water supplies, a hydropneumatic tank may be partially buried if controls are located in an approved basement or in a room or pit drained by gravity to the ground surface. A totally buried hydropneumatic tank may be used if manufactured and installed as approved by the department.

History: 1954 ACS 94, p. 56, Eff. Jan. 12, 1978.

R 325.11116 Type I public water supplies; pressure testing of new storage tanks.

Rule 1116. For type I public water supplies, hydrostatic pressure testing is required for new storage tanks, and the requirements of the pressure test shall be met prior to placing a new storage tank into service.

History: 1954 ACS 94, p. 56, Eff. Jan. 12, 1978.

R 325.11117 Storage tanks; disinfection and water analysis.

Rule 1117. (1) Proper techniques shall be followed during construction to keep storage tanks clean and dry.

PART 12. RELIABILITY

R 325.11201 Purpose.

Rule 1201. The purpose of this part is to establish certain requirements for maintaining the reliability of public water supply systems to assure a continuous supply of water for drinking and household purposes.

History: 1954 ACS 94, p. 56, Eff. Jan. 12, 1978.

R 325.11202 Applicability; approval of deviations from minimum requirements.

Rule 1202. (1) The provisions of this part apply to all type I public water supplies and are minimum requirements of the department.

(2) Deviations from the minimum requirements prescribed by this part may be approved in writing by the department.

History: 1954 ACS 94, p. 57, Eff. Jan. 12, 1978.

R 325.11203 Study of water supply requirements for type I public water supply; proposal for compliance.

Rule 1203. (1) The owner of a type I public water supply shall conduct a study to determine the quantity of water supply needed for the waterworks system and shall propose a method of compliance in accordance with R 325.11204.

(2) The study required by subrule (1) shall be based upon 10-year projections of water use by the public water supply. The study shall be updated every 5 years unless this requirement is waived by the department.

(3) As a minimum, the information presented in this study shall include all of the following:

(a) The present and projected average daily demand.

(b) The present and projected maximum daily demand.

(c) The present and projected maximum hourly demand.

(d) The present and projected peak instantaneous demand for systems using hydropneumatic storage.

(e) The present and projected fire flow demand.

(f) The basis of demand projections.

(4) The initial study to determine the quantity of water supply needed, as required by subrule (1), shall be submitted to the department by January 1, 1981, or at the time a new finished water source is proposed.

(5) If the owner of a type I public water supply fails to provide an adequate study of water supply requirements, the department may determine the quantity *of water supply needed* for that public water supply and notify the owner of its

determination. A permit shall not be issued by the department to a public water supply unless an approved study of water supply quantity requirements is available or unless a determination is made by the department pursuant to this subrule.

History: 1954 ACS 94, p. 57, Eff. Jan. 12, 1978.

R 325.11204 Required capacity of waterworks system; compliance date; applicability.

Rule 1204. (1) A supplier of water of a type I public water supply shall provide sufficient capacity in the waterworks system to meet the approved finished water supply requirements. That capacity may be 1 or any combination of the following:

(a) Rated capacity from an approved surface water supply or complete treatment system.

(b) Firm capacity from an approved groundwater supply where firm capacity equals the flow with the largest producing well out of service.

(c) The available capacity obtained under contract and capable of delivery from another approved public water supply.

(d) Finished water storage capacity in excess of the established normal waterworks system requirements.

(2) Compliance with this rule by type I public water supplies in operation on the effective date of these rules is required by January 1, 1985. If compliance is achieved prior to January 1, 1985, the requirements of this rule shall be met thereafter.

(3) Compliance with this rule may be required by the department prior to January 1, 1985, pursuant to an administrative order issued by the director.

History: 1954 ACS 94, p. 57, Eff. Jan. 12, 1978.

R 325.11205 Minimum number of wells; compliance date.

Rule 1205. (1) For type I public water supplies where groundwater is the sole source of water supply, a minimum of 2 wells, with separate pumping units as required, shall be provided.

(2) Compliance with this rule for public water supplies in operation on the effective date of these rules is required within 5 years from the effective date of these rules.

History: 1954 ACS 94, p. 57, Eff. Jan. 12, 1978.

R 325.11206 Interruption of power service; applicability; compliance date.

Rule 1206. (1) For a type I public water supply, a means shall be provided to continuously supply finished water to the entire distribution system during periods when the normal power service is interrupted.

(2) This rule does not apply to type I public water supplies serving less than 50 service connections or serving less than 200 individuals, or to those public water supplies serving facilities which are licensed annually by the department including, but not limited to, mobile home parks and health care facilities.

(3) Compliance with this rule is required by January 1, 1985.

History: 1954 ACS 94, p. 57, Eff. Jan. 12, 1978.

R 325.11207 Interruption in water service to distribution system.

Rule 1207. If an interruption in water service to the distribution system occurs due to a failure in the source of supply, the water shall be disinfected in a manner approved by the department and compliance with the state drinking water

standards shall be demonstrated by additional bacteriological monitoring. The department may require the supplier of water to provide notice to customers or users of the public water supply in accordance with the provisions of part 4.

History: 1954 ACS 94, p. 58, Eff. Jan. 12, 1978.

PART 13. CONSTRUCTION PLANS AND SPECIFICATIONS AND PERMITS

R 325.11301 Purpose.

Rule 1301. The purpose of this part is to prescribe requirements of suppliers of water of type I and type II public water supplies regarding the submission of plans and specifications or other pertinent information for the construction or alteration of a waterworks system, or a portion thereof, and the procedures for issuance of permits by the department for that construction or alteration.

History: 1954 ACS 94, p. 58, Eff. Jan. 12, 1978.

R 325.11302 Submission of plans and specifications for construction or alteration of waterworks system; guidance material.

Rule 1302. (1) For type I public water supplies, before the construction or alteration of any waterworks system, or a portion thereof, plans and specifications shall be submitted to the department by a supplier of water or his designated agent for review, approval, and issuance of a permit, unless otherwise accepted by subrule (2) of R 325.11304.

(2) A transmittal letter shall be submitted with the plans and specifications, shall identify and summarize plans or projects, and, if applicable, shall indicate the authorization of the designated agent for the supplier of water.

(3) A supplier of water shall use the materials set forth in the recommended standards for water works, prepared by the Great Lakes-Upper Mississippi board of state sanitary engineers, whenever applicable, as guidance when preparing plans and specifications for submission to the department for a waterworks system, or portion thereof.

History: 1954 ACS 94, p. 58, Eff. Jan. 12, 1978.

R 325.11303 Engineering report or basis of design; approval.

Rule 1303. (1) If requested by the department, a supplier of water shall submit an engineering report for a significant project or a basis of design, or both, for approval by the department, before plans and specifications are submitted for the construction or alteration of any portion of a waterworks system.

(2) The department may reject or return any plans and specifications submitted by a supplier of water for the construction or alteration of a waterworks system, or any portion thereof, unless an engineering report or basis of design, or both, as requested by the department, have been approved.

History: 1954 ACS 94, p. 58, Eff. Jan. 12, 1978.

R 325.11304 Type I and type II public water supplies; construction details and sketch of proposed waterworks system; replacement of watermains and appurtenances; permit.

Rule 1304. (1) Suppliers of water of type II public water supplies shall submit construction details and an acceptable scaled drawing properly dimensioned showing important aspects of the general layout of a proposed waterworks system, or portion thereof, and shall obtain a permit for the construction or alteration of all source facilities and any treatment facilities which are to be *employed for public* health purposes prior to construction.

(2) Suppliers of water of type I public water supplies are not required to submit plans and specifications or to obtain a permit for the replacement of an adequately sized watermain or other appurtenance on a distribution system which does not affect flow or capacity.

History: 1954 ACS 94, p. 58, Eff. Jan. 12, 1978.

R 325.11305 Review of plans and specifications by department.

Rule 1305. (1) Upon receipt of plans and specifications or other pertinent information for the construction or alteration of a waterworks system, or any portion thereof, the department shall review them as soon as practicable to determine their completeness with regard to the minimum requirements specified by these rules, and to determine their adequacy. In making its review, the department shall not approve the plans and specifications unless it determines that the waterworks system, or portion thereof, is designed to protect the public health.

(2) If the department determines that plans and specifications or other pertinent information are incomplete or inadequate, it shall notify the supplier of water or authorized agent and may request the submission of revised plans and specifications or other pertinent information with appropriate corrections or additions. The department shall not grant an approval of these submittals or issue a permit until the plans and specifications or other pertinent information are complete and are judged to be adequate.

(3) The department may designate an agent or representative, including a local health department, for the purposes of reviewing information submitted and issuing permits for type II public water supplies, where appropriate.

History: 1954 ACS 94, p. 59, Eff. Jan. 12, 1978.

R 325.11306 Approval of plans and specifications; permit.

Rule 1306. (1) Upon a determination by the department that the plans and specifications or other pertinent information for the construction or alteration of a waterworks system, or portion thereof, are complete and adequate, the department shall mark the plans or scaled drawing showing approval and shall issue a permit to the supplier of water.

(2) A permit issued pursuant to the act and these rules shall expire unless construction or alteration commences within 2 years from the date of issuance. A supplier of water may apply for a permit extension in accordance with these rules prior to expiration of a permit. A request for a permit extension shall be submitted in writing identifying the project and the number on the permit issued by the department for which the extension is requested and the reason for requesting the extension.

History: 1954 ACS 94, p. 59, Eff. Jan. 12, 1978.

R 325.11307 Denial of permit.

Rule 1307. The department may deny a permit request when it determines that a public water supply cannot provide a continuous and adequate supply of water meeting the state drinking water standards.

History: 1954 ACS 94, p. 59, Eff. Jan. 12, 1978.

R 325.11308 Permit terms and conditions.

Rule 1308. The department may attach any term or condition to a permit issued pursuant to the act and these rules to a supplier of water that it deems

necessary to assure proper construction, alteration, and operation of a waterworks system, or a portion thereof, to protect the public health.

History: 1954 ACS 94, p. 59, Eff. Jan. 12, 1978.

R 325.11309 Revision of approved plans and specifications.

Rule 1309. (1) Changes from approved plans or specifications or other pertinent information which would affect the well or watermain isolation or capacity, flow, treatment, or operation of the waterworks system, or portion thereof, shall be submitted to the department and approval obtained before construction of the changes. Changes from approved proposals shall be submitted in advance of any construction work which will be affected by the changes to allow sufficient time for review and approval by the department.

(2) Revisions or minor changes not affecting isolation, capacity, flows, treatment, or operation may be allowed during construction without the approval of the department.

(3) As built plans, clearly showing the work as constructed, shall be submitted to the department upon request.

History: 1954 ACS 94, p. 59, Eff. Jan. 12, 1978.

R 325.11310 Construction program minimizing operational interference with existing waterworks system.

Rule 1310. The department may request a supplier of water to submit for approval a program for construction which minimizes operational interference with an existing waterworks system, and which allows the supplier of water to maintain continuous service of water to customers or users of that waterworks system in a safe and reliable manner. If requested, the program shall be submitted before commencing construction or an alteration of a waterworks system.

History: 1954 ACS 94, p. 59, Eff. Jan. 12, 1978.

R 325.11311 Revocation of permit.

Rule 1311. The department may revoke a permit if it determines that a supplier of water or a designated agent thereof is not constructing or making an alteration to a waterworks system in accordance with approved plans and specifications, other approved information, or the act. The department shall notify the supplier of water prior to revocation of the permit and afford him the opportunity to take any corrective action as may be required. The department shall revoke the permit and simultaneously order the supplier of water to halt any construction authorized by that permit if the supplier of water does not effect the corrections within a reasonable period of time.

History: 1954 ACS 94, p.60, Eff. Jan. 12, 1978.

PART 14. CROSS-CONNECTIONS

R 325.11401 Definitions.

Rule 1401. As used in this part:

(a) "Backflow" means water of questionable quality, wastes, or other contaminants entering a public water supply system due to a reversal of flow.

(b) "Safe air gap" means the minimum distance of a water inlet or opening above the maximum high water level or overflow rim in a fixture, device, or container to which public water is furnished which shall be not less than 2 times the inside diameter of the water inlet pipe, but shall not be less than 1 inch and need not be more than 12 inches.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(c) "Secondary water supply" means a water supply system maintained in addition to a public water supply, including, but not limited to, water systems from ground or surface sources not meeting the requirements of Act No. 399 of the Public Acts of 1976, being §§325.1001 to 325.1023 of the Michigan Compiled Laws, or water from a public water supply which in any way has been treated, processed, or exposed to any possible contaminant or stored in other than an approved storage facility.

(d) "Submerged inlet" means a water pipe or extension thereto from a public water supply terminating in a tank, vessel, fixture, or appliance which may contain water of questionable quality, waste or other contaminant, and which is unprotected against backflow.

(e) "Water utility" means a governmental unit, municipal or private corporation, association, partnership, or individual engaged in furnishing water to the public for household or drinking purposes.

History: 1954 ACS 94, p. 60, Eff. Jan. 12, 1978.

R 325.11402 Compliance with regulations and local codes.

Rule 1402. A connection with a public water supply system shall comply with existing laws, ordinances, and rules including:

(a) Act No. 266 of the Public Acts of 1929, as amended, being §§338.901 to 338.917 of the Michigan Compiled Laws.

(b) Local ordinances or rules providing acceptable protection against cross-connections.

History: 1954 ACS 94, p. 60, Eff. Jan. 12, 1978.

R 325.11403 Cross-connections prohibited.

Rule 1403. (1) A cross-connection shall not be made between a public water supply system and a secondary water supply.

(2) A cross-connection shall not be made by submerged inlet.

(3) A cross-connection shall not be made between a public water supply and piping which may contain sanitary waste or a chemical contaminant.

(4) A cross-connection shall not be made between a public water supply system and piping immersed in a tank or vessel which may contain a contaminant.

History: 1954 ACS 94, p. 60, Eff. Jan. 12, 1978.

R 325.11404 Local cross-connection control programs.

Rule 1404. (1) A water utility shall develop a comprehensive control program for the elimination and prevention of all cross-connections. The plan for the program shall be submitted to the department of public health for review and approval within 1 year after the effective date of these rules. When the plan is approved, the water utility shall implement the program for removal of all existing cross-connections and prevention of all future cross-connections.

(2) The program shall include, but not be limited to, all of the following:

(a) A complete description of the method of administering the program, including the designation of inspection and enforcement agency or agencies. The local authority for implementation of the program shall be indicated, preferably by ordinance.

(b) A time schedule for inspection and reinspection of all water utility customers' premises for possible cross-connections. The periodic reinspection shall be used to ascertain whether or not safe air gaps or required protective devices are in place and in working order.

(c) A description of the methods and devices, as approved by the department of public health, used to protect the public water supply.

History: 1954 ACS 94, p. 60, Eff. Jan. 12, 1978.

R 325.11405 Corrections and protective devices.

Rule 1405. (1) A user of public water shall obtain written approval by the water utility or authorized inspection agency of any proposed corrective action or protective device before using or installing it.

(2) The total time allowed for completion of the necessary corrections shall be contingent upon the degree of hazard involved and include the time required to obtain and install equipment. If the cross-connection has not been removed, after a reasonable period of time, the water utility shall physically separate the public water supply from the onsite piping system in such a manner that the 2 systems cannot again be connected by any unauthorized person.

(3) A water utility shall report annually to the department of public health on the status of the cross-connection control program on a form provided by the department.

History: 1954 ACS 94, p. 61, Eff. Jan. 12, 1978.

R 325.11406 Piping identification.

Rule 1406. When a secondary water source is used in addition to a public water supply system, exposed public water and secondary water piping shall be identified by distinguishing colors or tags and so maintained that each pipe may be traced readily in its entirety. If piping is so installed that it is impossible to trace it in its entirety, it will be necessary to protect the public water supply at the service connection in a manner acceptable to the department of public health.

History: 1954 ACS 94, p. 61, Eff. Jan. 12, 1978.

R 325.11407 Private water storage tanks.

Rule 1407. A private water storage tank supplied from a public water supply system shall be deemed a secondary water supply unless it is designed and approved for potable water usage.

History: 1954 ACS 94, p. 61, Eff. Jan. 12, 1978.

PART 15. OPERATION REPORTS AND RECORDKEEPING

R 325.11501 Purpose.

Rule 1501. The purpose of this part is to establish requirements of certain suppliers of water for the periodic submission of operation reports and for the retention of certain records as required by the provisions of the act and the federal act.

History: 1954 ACS 94, p. 61, Eff. Jan. 12, 1978.

R 325.11502 Monthly operation reports required from suppliers of water employing treatment.

Rule 1502. (1) A supplier of water of a type I public water supply where treatment is employed, or of a type II public water supply where treatment is employed for public health purposes, shall prepare an operation report on a form provided by the department for each month of operation. The report shall include, but not necessarily be limited to, all of the following:

(a) General operation data.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(b) A summary of samples analyzed, including distribution system sampling and chlorine residual sampling.

(c) Information on daily treatment system pumpage.

(d) Information on chemical application.

(e) Analyses of general parameters relating to the quality of the treated drinking water.

(2) The operation report shall be submitted to the division during the month following the month for which the operation report was prepared, except that results of bacteriological analyses and turbidity measurements shall be submitted as required by R 325.11503.

(3) The department may waive specific type I public water supplies from submitting a monthly operation report.

History: 1954 ACS 94, p. 61, Eff. Jan. 12, 1978.

R 325.11503 Submission of results of sample analyses or measurements.

Rule 1503. (1) Suppliers of water of all public water supplies which monitor for bacteriological contamination or turbidity, or both, shall prepare and submit to the department the results of sample analyses or measurements on a form provided by the department as required by part 7 of these rules. In no case shall sample results be submitted to the department later than 40 days from the date of analysis or measurement of the sample.

(2) Sample results of all contaminants not meeting the MCL's shall be reported to the department in accordance with the provisions of part 7 of these rules.

History: 1954 ACS 94, p. 62, Eff. Jan. 12, 1978.

R 325.11504 Annual reports.

Rule 1504. (1) At the end of the first calendar year after the effective date of these rules and each subsequent year, each type I public water supply which does not submit a monthly operation report shall submit an annual report on a form provided by the department. The department may require certain type II public water supplies to submit annual reports. The report shall include, but not necessarily be limited to, a summary of water pumpage and water use.

(2) The supplier of water shall submit the annual report to the division on or before March 31 following the year for which the report is prepared.

History: 1954 ACS 94, p. 62, Eff. Jan. 12, 1978.

R 325.11505 Additional reports required by department.

Rule 1505. (1) The department may require a supplier of water to submit reports required pursuant to this part on a more frequent basis if the department finds that discrepancies, violations, or other problems are or may be occurring based on the department's review of a monthly or annual operation report or based on a sanitary survey, on-site inspection, surveillance observation, or special investigation conducted by the department.

(2) The department may require a supplier of water to submit other reports as it deems necessary to evaluate the adequacy of the public water supply.

History: 1954 ACS 94, p. 62, Eff. Jan. 12, 1978.

R 325.11506 Retention of records.

Rule 1506. (1) A supplier of water of a type I or type II public water supply shall retain on its premises, or at a convenient location near its premises, all of the following records:

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253

(a) Records of bacteriological analyses required pursuant to part 7 of these rules shall be kept for not less than 5 years.

(b) Records of chemical analyses required pursuant to part 7 of these rules shall be kept for not less than 10 years.

(c) Records of turbidity analyses required pursuant to part 7 of these rules shall be kept for not less than 5 years.

(d) Records of radiological analyses required pursuant to part 7 of these rules shall be kept for not less than 10 years.

(2) Actual laboratory reports for chemical, bacteriological, turbidity, and radiological analyses shall be kept, or the data thereon may be transferred to tabular summaries, if all of the following information is included:

(a) The date, place, and time of sampling and the name of the person who collected the sample.

(b) Identification of the sample as a routine distribution system sample, check sample, raw or treated water sample, or other special purpose sample.

(c) The date of the analysis.

(d) The laboratory and the person responsible for performing the analysis.

(e) The analytical technique or method used.

(f) The results of the analysis.

(3) Records of action taken by a public water supply to correct violations of the state drinking water standards shall be kept for not less than 3 years after the last action taken with respect to the particular violation.

(4) Copies of any written reports, summaries, or communications relating to sanitary surveys of the public water supply conducted by the public water supply itself, by a private consultant, by the division, or by any local, state, or federal agency shall be kept for not less than 10 years after completion of the sanitary survey involved.

(5) Records concerning a variance or an exemption granted to a public water supply shall be kept for not less than 5 years following the expiration date of the variance or exemption.

(6) Records concerning any emergency or public notification regarding a public water supply shall be kept for not less than 3 years after the emergency or public notification.

History: 1954 ACS 94, p. 62, Eff. Jan. 12, 1978.

PART 16. GENERAL PLANS

R 325.11601 Purpose.

Rule 1601. It is the purpose of this part to establish requirements of certain suppliers of water for the submission and updating of waterworks system general plans to satisfy the requirements of subsection (1) of section 4 of the act.

History: 1954 ACS 94, p. 63, Eff. Jan. 12, 1978.

R 325.11602 Type I and type II public water supplies; submission of general plans to department.

Rule 1602. (1) General plans for type I public water supplies shall be submitted to the department within 2 years after the effective date of these rules, except that this subrule shall not apply to those type I public water supplies serving less than 50 service connections or less than 200 persons and those serving facilities which are licensed annually by the department, including, but not limited to, mobile home parks and health care facilities.

(2) The department, by written notice, may require suppliers of water of *specific type II public* water supplies to provide a copy of a general plan of a

waterworks system. A supplier of water so notified shall provide a copy of a general plan to the department within 1 year after receipt of the written notice.

History: 1954 ACS 94, p. 63, Eff. Jan. 12, 1978.

R 325.11603 Acceptability of previous general plans; updating requirements.

Rule 1603. (1) Suppliers of water having previously provided a general plan to the department meet the requirements of this part unless the department determines that the plans previously submitted are inadequate.

(2) The department may require the updating of a waterworks system general plan required pursuant to this part on a periodic basis by providing written notice to the supplier of water. The supplier of water so notified shall provide an updated general plan to the department within 6 months after receipt of the written notice.

History: 1954 ACS 94, p. 63, Eff. Jan. 12, 1978.

R 325.11604 Contents of general plans.

Rule 1604. (1) The required general plan for a waterworks system shall contain, at a minimum, all of the following information, where pertinent:

(a) The general layout of the entire waterworks system, including treatment systems and distribution systems, and the location of valves, hydrants, storage tanks, watermains, and their size, pumps, wells, and pumping facilities.

(b) An identification of locations in the distribution system where the pressure may be less than 20 psi during peak flow.

(c) An identification of the entire area served or proposed to be served by the public water supply.

(d) Rated capacity of the waterworks system, including capacity of the developed water source, treatment system, storage tanks, pumping facilities, and equipment to maintain system reliability.

(2) A supplier of water may include with the general plan additional information, including, but not necessarily limited to, the number of service connections, fire fighting capabilities, location of access roads, chemical delivery features, standby power, laboratory facilities, location of sampling stations, and a description of the meter system.

History: 1954 ACS 94, p. 63, Eff. Jan. 12, 1978.

PART 17. OWNERSHIP OF PUBLIC WATER SUPPLIES

R 325.11701 Purpose.

Rule 1701. The purpose of this part is to prescribe certain requirements and procedures in accordance with section 10 of the act for private ownership of certain type I public water supplies when public ownership cannot be achieved.

History: 1954 ACS 94, p. 63, Eff. Jan. 12, 1978.

R 325.11702 Intent.

Rule 1702. Regulatory jurisdiction over public water supplies in this state is for the declared purpose of protecting the public health and to assure that public water supplies and waterworks systems are properly planned, constructed, maintained, and operated. It is a well established principle in this state that type I public water supplies be operated and maintained in an effective manner at all times and that adequate provision be made for a continuing administrative authority to accomplish this objective. Department procedures which have been in effect have strongly encouraged public ownership of all type I public water

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

supplies. Accordingly, it is the department's belief that all avenues must be thoroughly explored with local governmental units to achieve public ownership of those public water supplies. If it is determined by the department that a local unit of government will not accept responsibility for ownership and operation of a type I public water supply, specific procedures must be established prior to issuance of a permit for construction of waterworks systems associated therewith.

History: 1954 ACS 94, p. 64, Eff. Jan. 12, 1978.

R 325.11703 Applicability.

Rule 1703. (1) After January 4, 1979, these rules shall apply to all privately owned type I public water supplies except those serving facilities which are licensed annually by the department, including, but not limited to, mobile home parks and health care facilities.

(2) This part applies to all type I public water supplies which are proposed to be constructed after the effective date of these rules, and to any proposed substantial additions or modifications to a type 1 public water supply which is privately owned on the effective date of these rules, if the department determines that the operation of that public water supply does not meet the requirements of the act or these rules.

History: 1954 ACS 94, p. 64, Eff. Jan. 12, 1978.

R 325.11704 Delegation of acceptance of ownership and operational responsibility of water supply by city, village, or township.

Rule 1704. A city, village, or township may delegate to a county, authority, district, or other public entity the acceptance of ownership and operational responsibility of any water supply within its jursidiction. This delegation may be considered by the department to be adequate public ownership to meet the requirements of the act and these rules.

History: 1954 ACS 94, p. 64, Eff. Jan. 12, 1978.

R 325.11705 Private ownership of type I public water supply permitted; proof of refusal to accept ownership or operational responsibility by governmental entity.

Rule 1705. (1) If the division determines that ownership and operation of a type I public water supply by a local governmental agency is not practical for a particular public water supply, private ownership shall be allowed with adequate provisions to assure a continuous operation of the public water supply which meets the requirements of the act and these rules.

(2) The department shall not accept plans and specifications from, nor shall a permit be issued to, an owner of a proposed type I public water supply which is to be privately owned unless proof of refusal to accept ownership or operational responsibility of that public water supply is submitted in a formal resolution of the governing body of a city, county, village, township, or other governmental entity under whose jurisdiction the public water supply is included, or where proof of refusal is established to the satisfaction of the department.

History: 1954 ACS 94, p. 64, Eff. Jan. 12, 1978.

R 325.11706 Stipulations by owner of privately owned type I public water supply.

Rule 1706. (1) At the time an owner of a type I public water supply which is, or is proposed to be, privately owned submits plans and specifications to the *department, the* owner shall stipulate that the public water supply shall be

operated in such a manner as to assure the customers or users thereof a sufficient quantity of water under adequate pressure and a quality of water meeting the state drinking water standards.

(2) The owner of a type I public water supply, which is proposed to be privately owned, shall stipulate to transfer the ownership and operation of the entire public water supply to a governing body of a city, village, or township, or its designated public entity, by an acceptable agreement between the parties, and with prior approval by the department.

History: 1954 ACS 94, p. 64, Eff. Jan. 12, 1978.

R 325.11707 Escrow fund.

Rule 1707. (1) In accordance with section 10 of the act, the owner of a type I public water supply, which is proposed to be privately owned, shall establish a continuing cash escrow fund prior to the issuance of a permit, which fund shall be available to the department for immediate repair or maintenance of the public water supply if the owner fails to meet the responsibilities under the act and these rules.

(2) The amount of the escrow fund required shall be calculated on the basis of $100.00 per living unit proposed to be served by the public water supply, but in no case shall the escrow fund amount be less than $5,000.00, or exceed $50,000.00.

(3) Upon establishment of a written agreement between the owner of a privately owned public water supply and the governing body of a city, village, or township which establishes a date certain by which the privately owned public water supply ownership shall be transferred to that governing body, the department may reduce the amount of the required escrow fund.

(4) When the ownership of a privately owned public water supply is transferred to the governing body of a city, village, or township, the department shall authorize return of the escrow fund and accrued interest to the owner of the privately owned waterworks system.

History: 1954 ACS 94, p. 65, Eff. Jan. 12, 1978.

R 325.11708 Removal of funds from escrow account.

Rule 1708. (1) Upon a determination by the department that removal of funds from an escrow account is required, only the director or his designated agent may remove funds from the escrow account to make the necessary corrections.

(2) It is the responsibility of the owner of a privately owned waterworks system to replace all funds removed from the account by the director or his designated agent as required for needed improvements or corrections to the waterworks system within 90 days after removal of the funds to maintain the account at the original level.

History: 1954 ACS 94, p. 65, Eff. Jan. 12, 1978.

R 325.11709 Privately owned public water supply; easements; isolation area for wells; abandonment of wells.

Rule 1709. (1) The owner of a public water supply which is proposed to be privately owned shall provide or obtain all necessary easements for any portion of the waterworks system which is not located in the public right-of-way.

(2) The isolation area for wells serving a public water supply which is, or is proposed to be, privately owned shall be defined in the plans and specifications submitted to the department pursuant to the act and part 13 of these rules and shall be considered to be a part of the waterworks system.

(3) If the wells associated with a privately owned waterworks system are abandoned, ownership or easements shall be retained as may be necessary for the operation of the remainder of the waterworks system. The procedures for abandonment of wells shall be in accordance with the requirements of the act and part 8 of these rules.

History: 1954 ACS 94, p. 65, Eff. Jan. 12, 1978.

R 325.11710 Privately owned waterworks system; additional service connections.

Rule 1710. The owner of a privately owned waterworks system shall not provide additional service connections to other living units or facilities in excess of the total number specified on, and approved by issuance of, a permit by the department. If an owner of a privately owned waterworks system wishes to provide service to additional living units or facilities, a permit shall be obtained from the department.

History: 1954 ACS 94, p. 65, Eff. Jan. 12, 1978.

R 325.11711 Transfer of ownership of a privately owned waterworks system.

Rule 1711. If ownership of a privately owned waterworks system is transferred to another private owner, the former owner shall notify and receive approval from the department not less than 90 days prior to the change in ownership. The escrow fund established for that waterworks system shall be maintained by the new owner.

History: 1954 ACS 94, p. 65, Eff. Jan. 12, 1978.

R 325.11712 Filing names of operation personnel.

Rule 1712. The owner of a privately owned waterworks system shall file with the department the name, address, and telephone number of not less than 2 persons having direct responsibility for the daily operation and maintenance of the waterworks system who can be contacted in the event of any emergency or requirement relative to its operation.

History: 1954 ACS 94, p. 65, Eff. Jan. 12, 1978.

R 325.11713 Approval of a privately owned public water supply.

Rule 1713. The department shall approve a privately owned public water supply only by issuance of a permit, and in addition, shall stipulate with the owner for entry of a consent order outlining the specific operation and maintenance requirements of that waterworks system and the amount of the escrow fund required. If the owner of the privately owned waterworks system refuses to stipulate to the entry of a consent order, the department shall not issue a permit for the privately owned waterworks system.

History: 1954 ACS 94, p. 66, Eff. Jan. 12, 1978.

PART 19. EXAMINATION AND CERTIFICATION OF OPERATORS

R 325.11901 Classification of treatment systems.

Rule 1901. (1) Complete treatment systems are classified in 4 classes based on population served by the public water supply or designed treatment capacity of the treatment system as follows:

(a) Class F-1: Complete treatment systems for type I public water supplies serving a population greater than 20,000, or with a designed treatment capacity *greater than* 5.0 million gallons of water per day.

Digitized by Google

(b) Class F-2: Complete treatment systems for type I public water supplies serving a population from 4,000 to 20,000, or with a designed treatment capacity from 2.0 to 5.0 million gallons of water per day.

(c) Class F-3: Complete treatment systems for type I public water supplies serving a population from 1,000 to 4,000 or with a designed treatment capacity from 0.5 to 2.0 million gallons of water per day.

(d) Class F-4: Complete treatment systems for type I public water supplies serving a population of less than 1,000 or with a designed treatment capacity less than 0.5 million gallons of water per day.

(2) Those treatment systems including, but not limited to, disinfection, fluoridation, iron removal, zeolite softening, phosphate application, or filtration other than complete treatment are classified in 4 classes based on population served by the public water supply or designed treatment capacity of the treatment system; and a limited class as follows:

(a) Class D-1: Treatment systems for type I public water supplies serving a population greater than 20,000, or with a designed treatment capacity greater than 5.0 million gallons of water per day.

(b) Class D-2: Treatment systems for type I public water supplies serving a population from 4,000 to 20,000, or with a designed treatment capacity from 2.0 to 5.0 million gallons of water per day.

(c) Class D-3: Treatment systems for type I public water supplies serving a population from 1,000 to 4,000, or with a designed treatment capacity from 0.5 to 2.0 million gallons of water per day.

(d) Class D-4: Treatment systems of type I public water supplies serving a population of less than 1,000, or with a designed treatment capacity less than 0.5 million gallons of water per day.

(e) Class D-SL: A limited classification, and a special limited certificate for an operator of a treatment system for a specific type II public water supply where treatment is employed for health related purposes and where it is determined by the department that the public health will be adequately protected if an oral examination is given and an on-site evaluation of the operator's skill is conducted by the division. An operator with a D-SL certificate shall not be certified to operate a treatment system at another public water supply.

History: 1954 ACS 94, p. 66, Eff. Jan. 12, 1978.

R 325.11902 Classification of distribution systems.

Rule 1902. The following 4 classifications are assigned to distribution systems for type I public water supplies:

(a) Class S-1: Distribution systems for type I public water supplies serving a population greater than 20,000.

(b) Class S-2: Distribution systems for type I public water supplies serving a population from 4,000 to 20,000.

(c) Class S-3: Distribution systems for type I public water supplies serving a population from 1,000 to 4,000.

(d) Class S-4: Distribution systems for type I public water supplies serving a population of less than 1,000.

History: 1954 ACS 94, p. 66, Eff. Jan. 12, 1978.

R 325.11903 Change in classification of treatment system or distribution system.

Rule 1903. For purposes of this part, treatment systems and distribution systems in any classification established by R 325.11901 and R 325.11902 may be placed in a different classification by the department by reason of incorporation

in the treatment system of special features of design, making operation different from usual, by reason of a particularly difficult type of raw water, upon a finding that the population served has changed or for other reasons deemed necessary by the department.

History: 1954 ACS 94, p. 67, Eff. Jan. 12, 1978.

R 325.11904 Notification of change in classification.

Rule 1904. (1) A supplier of water of a public water supply affected by a change in classification shall be notified by the department by mail not less than 6 months prior to the next operator certification examination. A change in classification by the department shall be effective 6 months after the date of the next applicable examination.

(2) The classification of a newly constructed F-1, F-2, F-3, or F-4 treatment system shall be effective at the time of initial operation.

History: 1954 ACS 94, p. 67, Eff. Jan. 12, 1978.

R 325.11905 Certification of operators.

Rule 1905. (1) An operator in charge of a treatment system or a distribution system at a type I public water supply, or of a treatment system at a type II public water supply where treatment is employed for health related purposes, shall hold certification in an assigned classification established by R 325.11901 or R 325.11902, unless a deviation is authorized by the department or a waiver is authorized by the department pursuant to R 325.11906. Certified operators holding an F certificate meet the qualifications to operate a D treatment system.

(2) Where treatment is employed at a type II public water supply the department may require the owner or operator thereof to take a written examination in 1 of the classes established by R 325.11901.

(3) A certified shift operator shall be in charge of operation during each work shift at a type I public water supply where a treatment system in the F classification is routinely operated when the certified operator in charge is absent. In the case of treatment systems at type I public water supplies in the D classification, certified shift operators are required where water from a surface source is treated.

(4) Shift operators at treatment systems in the F classification are required to hold a certificate in the F classification, except that shift operators at complete treatment systems treating more than 100 million gallons of water per day shall hold a F-3 or higher classification. Shift operators at surface water treatment systems in the D classification are required to hold a certificate in either a D or F classification, regardless of the population served or the amount of water treated by the public water supply.

(5) For purposes of training a shift operator to occupy a vacant position, the department may authorize a deviation from the requirements of subrule (3) by granting a provisional certification for a period of time not to exceed 2 years. A person occupying a position pursuant to this subrule shall otherwise be qualified to become certified by examination during this time and shall be titled an operator trainee.

History: 1954 ACS 94, p. 67, Eff. Jan. 12, 1978.

R 325.11906 Waiver of operator certification requirements.

Rule 1906. The requirements of R 325.11905 relating to treatment system and distribution system operator certification may be waived by the department for *certain type* I public water supplies if the treatment employed is used only for the

control of hardness, iron, or other characteristics primarily of an aesthetic concern; if the treated water is limited in distribution; or if the distribution system is limited in extent, such as at an apartment building, condominium, or other similar residential facility.

History: 1954 ACS 94, p. 67, Eff. Jan. 12, 1978.

R 325.11907 Advisory board; terms of office.

Rule 1907. The members of the advisory board shall be appointed by the director pursuant to section 9 of the act for terms of 3 years each. Of the members of the advisory board first appointed by the director, 3 shall be appointed for 1-year terms, 3 shall be appointed for 2-year terms and 3 shall be appointed for 3-year terms. Thereafter, 3 shall be appointed each year for a 3-year term. Vacancies in an unexpired term shall be filled in the same manner as original appointments.

History: 1954 ACS 94, p. 67, Eff. Jan. 12, 1978.

R 325.11908 Advisory board; powers and duties.

Rule 1908. (1) The advisory board shall meet not less than twice each year at designated times and places. The advisory board shall assist the department in examining all persons making application for certification who meet the minimum requirements established by the department pursuant to R 325.11911. The advisory board shall schedule at least 1 annual examination for treatment system operators and at least 1 annual examination for distribution system operators, and shall provide public notice of the date, time, and place for each examination not less than 90 days before the date set for the examination.

(2) After review of the application and the results of the examination, the advisory board shall recommend that the department issue or deny an applicant a certificate in the appropriate treatment system or distribution system classification.

History: 1954 ACS 94, p. 68, Eff. Jan. 12, 1978.

R 325.11909 Advisory board; election of chairman; quorum; expenses and compensation.

Rule 1909. The members of the advisory board, as soon as appointed, shall organize and at the first meeting in each year thereafter elect from their number a chairman. Five members of the advisory board constitute a quorum. Members of the advisory board shall not be compensated, but shall be entitled to all actual and necessary expenses incurred in the performance of their official duties in accordance with the rates established by the latest edition of the standard travel regulations of this state.

History: 1954 ACS 94, p. 68, Eff. Jan. 12, 1978.

R 325.11910 Application for examination.

Rule 1910. (1) An individual who desires to be certified for the operation of a treatment system or a distribution system shall submit to the department, not less than 45 days before the announced examination date, an application for examination on a form provided by the department. The information contained on the application shall be evaluated by the department and by the advisory board and shall constitute a part of the examination. The department may require verification of education and experience of an applicant for an examination.

(2) Not less than 15 days before the examination, the department shall notify all applicants of its findings, and shall notify those applicants accepted for examination of the date, time, and place of the examination.

History: 1954 ACS 94, p. 68, Eff. Jan. 12, 1978.

R 325.11911 Applicant for certification; references; grading.

Rule 1911. (1) An applicant for a certificate shall submit as part of an application the names of 4 persons, other than relatives, who may be used as references.

(2) Applicants for certification shall be graded in 3 major divisions as follows:

(a) Educational qualifications of the applicant.

(b) Experience qualifications of the applicant.

(c) The written examination.

(3) Applicants shall satisfy the minimum criteria established by the department for educational qualifications prior to admission to the written examination.

(4) Criteria used for grading shall be determined by the division subject to the approval of the advisory board, and shall be made available by the department.

History: 1954 ACS 94, p. 68, Eff. Jan. 12, 1978.

R 325.11912 Examination.

Rule 1912. (1) A written examination shall be prepared by the division with the concurrence of the advisory board for each of the distribution system classifications, and for each of the treatment system classifications, except the D-SL classification.

(2) Examinations shall be administered by the division staff, subject to review by the advisory board.

History: 1954 ACS 94, p. 68, Eff. Jan. 12, 1978.

R 325.11913 Equivalent certificate; D-M certificate; limited certificate.

Rule 1913. (1) The division shall prepare an application form to be used by persons desiring an equivalent certificate. Treatment system operators holding certificates which were issued pursuant to R 325.551 to R 325.572 of the Michigan Administrative Code who submit a complete application for an equivalent certificate within 1 year after the application form becomes available from the department shall be issued certificates in the new treatment system classifications in accordance with table 1 in subrule (3).

(2) A special D-M certificate shall be issued to those certified operators previously holding M certificates and who do not also hold D-1 or D-2 certificates issued pursuant to previous rules of the department. The special D-M certificate is acceptable for operation of a treatment system where disinfection is not employed and the treatment is limited to that for which the operator was previously certified. The special D-M certificate shall designate the treatment for which the operator is certified.

(3) Distribution system operators who hold certificates issued under the former division program governing the voluntary certification of operators of distribution systems, and who submit a complete application for an equivalent certificate within 1 year after the application form becomes available from the department, shall be issued equivalent certificates in the new distribution system classifications in accordance with table 1:

(4) An individual presently in charge of a distribution system and not entitled to a distribution system operator certificate pursuant to this rule may be issued a limited certificate to operate the distribution system for which the individual is presently in charge. An operator with a limited certificate is not certified to operate a distribution system at a different public water supply. Application for a limited certificate shall be made by the owner of the distribution system on behalf of the individual on a form provided by the department and shall be made within 1 year of the date on which application forms are made available by the department.

(5) An individual presently in charge of a shift at an F treatment system or D treatment system using a surface water source who is not otherwise entitled to a certificate satisfying the requirements of subrule (3) of R 325.11905 may be issued a certificate to operate a shift at that treatment system. Application for a limited certificate shall be made by the owner of the treatment system on behalf of the individual on a form provided by the department, and shall be made within 1 year after the date on which application forms are made available by the department.

History: 1954 ACS 94, p. 68, Eff. Jan. 12, 1978.

R 325.11914 Reciprocity.

Rule 1914. A treatment system or distribution system operator certificate in a comparable classification may be issued by the department, without examination, to an individual who holds a similar operator certificate in another state, a territory or possession of the United States, or another country, if the requirements for certification of operators under which the certificate was issued are comparable to the requirements prescribed by this part.

History: 1954 ACS 94, p. 69, Eff. Jan. 12, 1978.

R 325.11915 Term of certification.

Rule 1915. Certificates issued pursuant to the act and these rules shall automatically become inactive after 5 years during which the holder is not employed by, or working with, public water supplies. A certificate shall not become inactive while a person is in military service. A certificate shall be considered inactive if the mailing address of the holder remains unknown to the department for a period of 2 years. Inactive certificates may be made active by the department provided sufficient proof of competency is presented to the advisory board by the holder of the certificate.

History: 1954 ACS 94, p. 70, Eff. Jan. 12, 1978.

R 325.11916 Additional educational or training requirements.

Rule 1916. The department, with the concurrence of the advisory board, may require certified operators of treatment systems or distribution systems in any classification to obtain additional education or training as a condition for maintaining certification.

History: 1954 ACS 94, p. 70, Eff. Jan. 12, 1978.

R 325.11917 Suspension or revocation of certificates.

Rule 1917. The director may suspend or revoke a certificate of an operator who, after a hearing before the advisory board, is judged incompetent or unable to properly perform the duties of a treatment system or distribution system operator or who has, with respect to water supply, committed fraud or has falsified an application, report, or record or who has been negligent in the discharge of properly assigned duties or responsibilities. Notice of suspension or revocation shall be provided in writing to the operator and to the owner of the public water supply where the operator is employed.

History: 1954 ACS 94, p. 70, Eff. Jan. 12, 1978.

R 325.11918 Appeals.

Rule 1918. An individual who feels aggrieved by an action of the department pursuant to the act or this part, or who wishes to appeal any other action of the department with respect to certification may request a hearing pursuant to Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws, and part 2 of these rules.

History: 1954 ACS 94, p. 70, Eff. Jan. 12, 1978.

PART 21. APPROVAL OF CHEMICALS AND OTHER MATERIALS

R 325.12101 Purpose.

Rule 2101. The purpose of this part is to prescribe certain requirements for the approval of chemicals, materials, coatings, additives, or other substances proposed to be used in the treatment or during the distribution of drinking water, or which are proposed to be used in contact with drinking water prior to, or during, distribution to the customer or user of a public water supply; and to prohibit a person from using unapproved chemicals or materials which may come into contact with, or serve as an additive to, drinking water.

History: 1954 ACS 94, p. 70, Eff. Jan. 12, 1978.

R 325.12102 Approval of chemicals and other materials.

Rule 2102. (1) Approval by the department is required for all chemicals, coatings or paints, proprietary products, and similar materials of whatever description, that are used or are proposed for use in, or in contact with, drinking water at any point in the waterworks system from the source to the ultimate point of distribution of the water.

(2) The supplier of water is responsible for determining that approval for a chemical or material has been granted by the department and determining the special conditions or limitations under which that approval was granted.

History: 1954 ACS 94, p. 70, Eff. Jan. 12, 1978.

R 325.12103 Approval criteria.

Rule 2103. Approval by the department of chemicals and other materials shall be based on a determination that the chemical or material and its component parts

singly or together will not be detrimental to public health. It is the responsibility of the manufacturer or distributor to provide the data upon which a determination may be made by the department.

History: 1954 ACS 94, p. 70, Eff. Jan. 12, 1978.

R 325.12104 Change in product designation or composition.

Rule 2104. (1) Written approval by the department for a product, material, or chemical shall not extend to a change in composition or designation thereof. It is the responsibility of the manufacturer or distributor to make application to the department for approval of a product with a changed composition or designation.

(2) The department may contact a manufacturer or distributor to determine the status of a chemical or material previously approved. If contact with the manufacturer or distributor cannot be made, previous approval of a chemical or material manufactured or distributed by that manufacturer or distributor may be suspended.

History: 1954 ACS 94, p. 70, Eff. Jan. 12, 1978.

R 325.12105 Generic approval.

Rule 2105. The department may grant approval to specified chemicals or materials commonly used in the treatment or distribution of drinking water. Generic approvals may reference nationally recognized specifications such as those of the American waterworks association, the American society for testing materials, and others.

History: 1954 ACS 94, p. 71, Eff. Jan. 12, 1978.

R 325.12106 Specific approval of proprietary products.

Rule 2106. Specific approval is required by the department for the use of proprietary products. Approval shall include the complete name or other manufacturer's designation of the product, the purpose and condition of use, and, if applicable, the maximum acceptable dose to be applied to drinking water.

History: 1954 ACS 94, p. 71, Eff. Jan. 12, 1978.

R 325.12107 Form of approval.

Rule 2107. Approval given by the department for a chemical or material shall be by letter or a form describing the product, its intended use, and any special conditions or limitations attached to the written approval. Approval by the department shall not be an endorsement of any material, chemical, or product, but shall be based on its toxicity with regard to public health.

History: 1954 ACS 94, p. 71, Eff. Jan. 12, 1978.

R 325.12108 Rescission or suspension of approval.

Rule 2108. Upon finding that a manufacturer or distributor of a chemical or a material which may come into contact with drinking water has submitted false information regarding that chemical or material, or upon finding that a chemical or material previously approved has changed in composition, or upon finding at a later date that a chemical or material or constituent thereof may pose a hazard to the public health, the department shall rescind or suspend approval of that chemical or material for use in a waterworks system.

History: 1954 ACS 94, p. 71, Eff. Jan. 12, 1978.

R 325.12109 Introduction of chemical or material into waterworks system by unauthorized person prohibited.

Rule 2109. No person, except the supplier of water, his duly authorized agent, or the department, shall introduce, or cause to be introduced, any chemical or material into a waterworks system, or a portion thereof, regardless of whether that chemical or material has been previously approved by the department pursuant to this part.

History: 1954 ACS 94, p. 71, Eff. Jan. 12, 1978.

R 325.12110 Effect of approval.

Rule 2110. Approval of a chemical or material by the department does not imply that a chemical or material may be used in a waterworks system without submitting necessary plans and specifications for approval by the department and for the issuance of a permit pursuant to part 13 of these rules.

History: 1954 ACS 94, p. 71, Eff. Jan. 12, 1978.

PART 23. CONTINGENCY PLANS

R 325.12301 Purpose.

Rule 2301. The purpose of this part is to establish requirements of suppliers of water of type I public water supplies and certain type II public water supplies to prepare contingency plans for implementation in the event of emergencies.

History: 1954 ACS 94, p. 71, Eff. Jan. 12, 1978.

R 325.12302 Preparation; timetable; exceptions.

Rule 2302. (1) Unless specifically waived by the department, suppliers of water of type I public water supplies, including suppliers of water purchasing water from another supplier of water, shall prepare, or cause to be prepared, contingency plans for waterworks systems within 2 years after the effective date of these rules.

This subrule shall not apply to type I public water supplies serving less than 50 service connections or less than 200 individuals or those type I public water supplies serving facilities which are licensed annually by the department, including, but not limited to, mobile home parks and health care facilities.

(2) The department may require suppliers of water of certain type II public water supplies to prepare contingency plans in accordance with the requirements of this part.

(3) If a supplier of water has an existing contingency plan, it may be updated to include any requirements specified by this part, and upon updating, shall be deemed to meet the requirements of this part.

History: 1954 ACS 94, p. 71, Eff. Jan. 12, 1978.

R 325.12303 Contents.

Rule 2303. (1) A contingency plan prepared by a supplier of water shall, as a minimum, outline a program for rapid correction or mitigation of emergencies. The contingency plan may contain an inventory of necessary standby personnel, equipment, chemicals, and other materials readily available for correction of problems, including emergency treatment measures in the event of contamination, a plan for interconnection with adjacent public water supplies or agreements with water haulers in the event of waterworks system failures or loss of pressure, and appropriate means for notification of customers or users of a public water *supply affected by* an emergency. Public notification shall include a description

of precautions or measures to be taken to protect the health of those customers or users.

(2) A contingency plan prepared by a supplier of water pursuant to this part shall include the general plan of the public water supply owned or operated by the supplier of water as required pursuant to subsection (1) of section 4 of the act.

(3) A supplier of water shall identify in a contingency plan the type, number, and capacity of standby power sources to operate a waterworks system in the event of a power outage or other situation requiring the use of other power sources.

(4) The contingency plan shall outline duty assignments for waterworks personnel and shall contain a schedule for updating the plan.

(5) The contingency plan shall include a listing of critical customers or users for whom the provision of a continuous supply of safe drinking water is most urgent.

(6) Contingency plans prepared pursuant to this part shall be located and distributed as necessary to assure effective use thereof by all necessary waterworks system personnel.

(7) For purposes of consistency in developing contingency plans, suppliers of water may use the American waterworks association manual M-19, emergency planning for water utility management, 1973, as guidance material.

History: 1954 ACS 94, p. 72, Eff. Jan. 12, 1978.

R 325.12304 Emergency procedure.

Rule 2304. (1) When an emergency affecting a public water supply is discovered, the supplier of water shall immediately notify the division by telephone of that emergency. The supplier of water shall indicate in that notification the type of emergency, its discovery, the cause, the corrective actions planned to meet the emergency, and plans for notification to customers or users of the public water supply affected.

(2) A supplier of water shall, within 90 days after an emergency, file a written report with the department outlining in detail its discovery, the cause, the corrective actions taken by the supplier of water to meet the emergency, and the procedures by which its customers or users were notified. The report shall outline in detail the area of the waterworks system affected by the emergency, its duration, and the ability of the supplier of water to cope with the emergency by providing an adequate supply of safe drinking water.

History: 1954 ACS 94, p. 72, Eff. Jan. 12, 1978.

PART 24. WATER HAULING EQUIPMENT STANDARDS

R 325.12401 Purpose.

Rule 2401. The purpose of this part is to prescribe standards for tanks and equipment used by water haulers to transport drinking water which shall serve as criteria by which a water hauler may obtain a license for a water transportation tank pursuant to part 25 of these rules.

History: 1954 ACS 94, p. 72, Eff. Jan. 12, 1978.

R 325.12402 Water transportation tank materials and coatings.

Rule 2402. Materials or coatings on a water transportation tank or its appurtenances which come into contact with drinking water shall be of approved steel, stainless steel, fiberglass, metal, plastic, rubber, or other nontoxic materials given written approval by the department. Materials used in the construction of, or transported by, a water transportation tank shall not impart any substances to the

water which may result in a violation of the state drinking water standards, or impart other undesirable physical properties to the water.

History: 1954 ACS 94, p. 72, Eff. Jan. 12, 1978.

R 325.12403 Water transportation tank; outlets.

Rule 2403. The outlet from a water transportation tank shall be located to provide complete drainage of the tank or any compartment thereof. Outlet valves shall be of sanitary construction and readily cleanable. Valve outlets, unless equipped with a permanent hose, shall be provided with a sanitary cap.

History: 1954 ACS 94, p. 73, Eff. Jan. 12, 1978.

R 325.12404 Manhole covers and openings.

Rule 2404. (1) Manhole covers and openings shall be constructed to allow reasonable access for cleaning purposes and to protect the sanitary quality of the water.

(2) Manholes and other openings in the top of the tank shall be higher than the surrounding area and shall be designed to prevent drainage from entering the opening.

History: 1954 ACS 94, p. 73, Eff. Jan. 12, 1978.

R 325.12405 Fill connections.

Rule 2405. If used, a fill connection shall be constructed in a manner to prevent contamination and shall be capped at all times when not in use.

History: 1954 ACS 94, p. 73, Eff. Jan. 12, 1978.

R 325.12406 Baffles.

Rule 2406. If used, baffles shall not interfere with free drainage of the water transportion tank. Baffles shall be constructed to allow accessibility to all areas for inspection and cleaning purposes.

History: 1954 ACS 94, p. 73, Eff. Jan. 12, 1978.

R 325.12407 Pumps.

Rule 2407. If used, pumps shall be operated in a sanitary manner, and all couplings or connections shall be capped or otherwise protected from contamination when not in use.

History: 1954 ACS 94, p. 73, Eff. Jan. 12, 1978.

R 325.12408 Transfer hose and piping.

Rule 2408. (1) Connections between the pump and the water transportation tank may be made with flexible tubing. Hose connectors shall be attached to the hose to allow easy removal for cleaning.

(2) Transfer hose or piping shall be constructed of nontoxic materials, maintained in a sanitary condition, and used in such manner to prevent contamination of the water and to prevent cross-connections.

(3) If 2 or more lengths of flexible transfer hose are used, they shall be connected either by the use of sanitary couplings or a piece of sanitary tubing with clamps. Sanitary caps shall be furnished for each end of the hose, the pump, and the outlet valve.

(4) A hose carrier bracket shall be provided to adequately support the hose and a means shall be provided to support the loose end of the hose to prevent contamination.

History: 1954 ACS 94, p. 73, Eff. Jan. 12, 1978.

PART 25. LICENSING OF WATER HAULERS

R 325.12501 Purpose.

Rule 2501. The purpose of this part is to implement section 18 of the act by specifying certain criteria and requirements for licensing of water haulers and for their containers, equipment, and operation.

History: 1954 ACS 94, p. 73, Eff. Jan. 12, 1978.

R 325.12502 License.

Rule 2502. A person shall not engage in, or carry on the business of, hauling bulk water for drinking or household purposes, except for his own household use, without a license issued pursuant to the act and these rules. Compliance with this rule may be waived in emergency situations upon approval by the department.

History: 1954 ACS 94, p. 73, Eff. Jan. 12, 1978.

R 325.12503 Application for license.

Rule 2503. Within 2 years after the effective date of these rules, a person engaged in the business of hauling water for drinking or household purposes shall apply for a license using a license application form provided by the department.

History: 1954 ACS 94, p. 73, Eff. Jan. 12, 1978.

R 325.12504 Issuance of license.

Rule 2504. If the department, after such investigations as it deems necessary, is satisfied that a water hauler has the qualifications and equipment to perform water hauling services in a manner consistent with these rules, it shall issue a license to the water hauler. A license issued pursuant to this rule is not transferable.

History: 1954 ACS 94, p. 74, Eff. Jan. 12, 1978.

R 325.12505 Source and quality of water; chlorine; storage tanks.

Rule 2505. (1) All water hauled by a water hauler shall meet state drinking water standards and shall be from a public water supply or other source approved by the department.

(2) A water hauler shall add chlorine, in an amount specified by the department, when receiving water from a source and upon delivery of the water after hauling. The amount of chlorine to be added in each instance shall be specified on the license issued by the department for the water transportation tank. The department may require chlorine residual tests of the water hauled upon receipt of the water from the source, after addition of chlorine, and at delivery of the water. At the point of delivery of the water, a free chlorine residual of 1.0 mg/l is required. The department may approve an alternate means of disinfection upon written request by a water hauler.

(3) When transporting water to a public water supply, a water hauler shall deliver water only to tanks or facilities approved by the department.

History: 1954 ACS 94, p. 74, Eff. Jan. 12, 1978.

R 325.12506 Licensing of water hauler's water transportation tanks.

Rule 2506. (1) All tanks used to transport or to carry water shall be licensed annually by the department.

(2) At the same time a water hauler applies for a water hauling license pursuant to R 325.12503, an application for a license for each water transportation tank used for the bulk transport of water for drinking or household purposes shall also be made on an application form provided by the department.

(3) If the department, after such investigations as it deems necessary, determines that the water transportation tank and appurtenances are in compliance with part 24 of these rules, it shall issue a license for the tank to be used for hauling water.

(4) The license issued by the department shall be kept available in the water hauling vehicle for inspection.

(5) The license is not transferable from 1 water transportation tank to another. In addition to the license issued by the department, there shall be displayed on both sides of the tank, in letters not less than 2 inches high, the words "Licensed Water Hauling Tank." Directly adjacent to the words shall be affixed a seal furnished by the department which shall designate the calendar year of the license.

History: 1954 ACS 94, p. 74, Eff. Jan. 12, 1978.

R 325.12507 Expiration and renewal of licenses.

Rule 2507. All licenses issued under the provisions of this part expire on the last day of June of each year. Application for renewal of a license may be made after March 31 of each year.

History: 1954 ACS 94, p. 74, Eff. Jan. 12, 1978.

R 325.12508 Trip records.

Rule 2508. A water hauler licensed by the department shall maintain trip records of all water hauled. The water hauler shall retain trip records for 2 years.

History: 1954 ACS 94, p. 74, Eff. Jan. 12, 1978.

R 325.12509 Denial of license.

Rule 2509. If the department finds that water hauling equipment is not in compliance with part 24 of these rules, the department shall not issue or renew a license for the water transportation tank. If the department finds that a water hauler is not in compliance with the provisions of this part, the department shall not issue or renew the license for the water hauler. In each case, the water hauler shall be notified in writing of the license denial and the reasons for denial by the department. The water hauler may request a hearing before the department if aggrieved by the department's decision, pursuant to the provisions of Act No. 306 of the Public Acts of 1969, as amended, and part 2 of these rules.

History: 1954 ACS 94, p. 74, Eff. Jan. 12, 1978.

R 325.12510 Suspension or revocation of license.

Rule 2510. If the department determines that a water hauler licensed under the provisions of the act and these rules is not operating in an approved manner, is hauling water that does not meet state drinking water standards, or is operating a business or vehicles under conditions which may cause a hazard to the public health, the department shall notify the licensee and shall provide an opportunity for the water hauler to take corrective action as may be required. If the licensee does not effect the corrections within a reasonable time, the department shall suspend or revoke the license of the water hauler.

History: 1954 ACS 94, p. 74, Eff. Jan. 12, 1978.

PART 26. BOTTLED WATER

R 325.12601 Applicability.

Rule 2601. The provisions of this part apply to all persons providing bottled drinking water for drinking or household purposes.

History: 1954 ACS 94, p. 75, Eff. Jan. 12, 1978.

Digitized by Google

R 325.12602 Application for approval of source.

Rule 2602. (1) A person providing bottled drinking water shall submit an application to the department requesting approval of the source of water being used or planned to be used for bottled water. A person may request approval of more than 1 source of water on a single application.

(2) After receipt of the application, the department may approve the source or sources of water upon a finding that the source or sources meet the state drinking water standards and the requirements of the act and these rules.

(3) A person shall not use a source of water for bottled water unless prior approval from the department has been obtained.

History: 1954 ACS 94, p. 75, Eff. Jan. 12, 1978.

R 325.12603 Sources of water; monitoring.

Rule 2603. If water is obtained from a source other than a type I or type II public water supply, the department may require a person providing bottled water to sample the source of water from time to time and submit records of that sampling to the department.

History: 1954 ACS 94, p. 75, Eff. Jan. 12, 1978.

R 325.12604 Out-of-state sources.

Rule 2604. (1) A person providing bottled drinking water and utilizing an out-of-state source of water shall submit an application to the department as required by R 325.12602. The application shall show proof of approval of the source from the state agency with jurisdiction.

(2) After consultation with the state agency having jurisdiction, the department shall approve the source for bottled water if the other state's inspection, surveillance, and approval procedures are acceptable to the department, and the source meets the state drinking water standards.

History: 1954 ACS 94, p. 75, Eff. Jan. 12, 1978.

R 325.12605 Maintenance of records.

Rule 2605. A person providing bottled drinking water shall maintain records of all sources from which water is purchased or obtained for bottled water and shall submit those records to the department on an annual basis.

History: 1954 ACS 94, p. 75, Eff. Jan. 12, 1978.

R 325.12606 Rescission or suspension of approval.

Rule 2606. Upon its finding that a person has submitted false information on an application submitted to the department for approval of a source for bottled water pursuant to R 325.12602, or if a source for bottled water does not meet the state drinking water standards, or if a person has violated the provisions of the act or this part, the department may rescind or suspend approval of the source for bottled water.

History: 1954 ACS 94, p. 75, Eff. Jan. 12, 1978.

OCCUPATIONAL HEALTH STANDARDS COMMISSION

OCCUPATIONAL HEALTH STANDARDS

(By authority conferred upon the occupational health standards commission by section 24 of Act No. 154 of the Public Acts of 1974, as amended, being §408.1024 of the Michigan Compiled Laws)

PART 1. COKE OVEN EMISSIONS

R 325.50101 Definitions; A to E.

Rule 101. As used in these rules:

(a) "Authorized person" means a person specifically required by the employer to enter a regulated area, or a person entering such an area as a designated representative of employees for the purpose of observing the monitoring and measuring procedures under R 325.50135.

(b) "Beehive oven" means a coke oven in which the products of carbonization other than coke are not recovered, but are released into the ambient air.

(c) "Coke oven" means a retort in which coke is produced by the destructive distillation or carbonization of coal.

(d) "Coke oven battery" means a structure containing a number of slot-type coke ovens.

(e) "Coke oven emissions" means the soluble fraction of total particulate matter present during the destructive distillation or carbonization of coal for the production of coke as determined by benzene extraction or an equivalent analytical method.

(f) "Director" means the director of the Michigan department of public health or his or her authorized representative.

(g) "Emergency" means an occurrence such as, but not limited to, equipment failure which is likely to, or does, result in a massive release of coke oven emissions.

(h) "Existing coke oven battery" means a battery in operation or under construction on January 20, 1977, and which is not a rehabilitated coke oven battery.

History: 1954 ACS 97, p. 18, Eff. Nov. 13, 1978.

R 325.50102 Definitions; G to S.

Rule 102. As used in these rules:

(a) "Green push" means coke which, when removed from the oven, results in emissions due to the presence of incompletely coked coal.

(b) "O.H. rule" means an occupational health rule adopted by reference in accordance with section 14 of Act No. 154 of the Public Acts of 1974, as amended. Copies of these rules are available from the Michigan department of public health.

(c) "Pipeline charging" means an apparatus used to introduce coal into an oven which uses a pipe or duct permanently mounted onto an oven and through which coal is charged.

(d) "Rehabilitated coke oven battery" means a battery which is rebuilt, overhauled, renovated, or restored such as from the pad up, after January 20, 1977.

(e) "Sequential charging" means a procedure, usually automatically timed, by which a predetermined volume of coal in each larry car hopper is introduced into an oven such that no more than 2 hoppers commence or finish discharging simultaneously although, at some point, all hoppers are discharging simultaneously.

(f) "Stage charging" means a procedure by which a predetermined volume of coal in each larry car hopper is introduced into an oven such that no more than 2 hoppers are discharging simultaneously.

History: 1954 ACS 97, p. 18, Eff. Nov. 13, 1978.

R 325.50103 Permissible exposure limits.

Rule 103. An employer shall assure that an employee in the regulated area is not exposed to coke oven emissions at concentrations greater than 150 micrograms per cubic meter of air (150 ug/m^3), averaged over any 8-hour period.

History: 1954 ACS 97, p. 18, Eff. Nov. 13, 1978.

R 325.50104 Regulated areas.

Rule 104. An employer shall establish the following regulated areas and shall limit access to them to authorized persons:

(a) The coke oven battery, including topside and its machinery, pushside and its machinery, coke side and its machinery, and the battery ends, the wharf, and the screening station.

(b) The beehive oven and its machinery.

History: 1954 ACS 97, p. 19, Eff. Nov. 13, 1978.

R 325.50105 Exposure monitoring and measurements; accuracy of methods; notifications to employees; corrective actions.

Rule 105. (1) An employer who has a place of employment where coke oven emissions are present shall monitor employees working in the regulated area to measure their exposure to coke oven emissions.

(2) An employer shall obtain measurements which are representative of each employee's exposure to coke oven emissions over an 8-hour period. All measurements shall determine exposure without regard to the use of respiratory protection.

(3) An employer shall collect full-shift (for not less than 7 continuous hours) personal samples, or shall employ other equivalent monitoring procedures, including at least 1 sample during each shift for each battery and each job classification, including maintenance personnel, within the regulated areas.

(4) An employer shall repeat the monitoring and measurements required by this rule at least once every 3 months.

(5) If a production, process, or control change is made which may result in new or additional exposure to coke oven emissions, or whenever the employer has any other reason to suspect an increase in employee exposure, the employer shall repeat the monitoring and measurements required by this rule for those employees affected by such change or suspected increase.

(6) An employer shall use a method of monitoring and measurement which has an accuracy (with a confidence level of 95%) of not less than plus or minus 35% for concentrations of coke oven emissions greater than, or equal to, 150 ug/m^3.

(7) An employer shall provide written notice to each employee of the exposure measurements which represent that employee's exposure within 5 working days after the receipt of the results of measurements required by this rule.

(8) If exposure measurements indicate that the representative employee exposure exceeds the permissible exposure limit, the employer shall, in such notification, inform each employee of that fact and of the corrective action being taken to reduce exposure to or below the permissible exposure limit.

History: 1954 ACS 97, p. 19, Eff. Nov. 13, 1978.

R 325.50106 Compliance programs.

Rule 106. (1) An employer shall establish and implement a written program to reduce exposures to coke oven emissions solely by means of the engineering and work practice controls required in R 325.50107 to R 325.50116.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253

(2) The written program shall include at least the following:

(a) A description of each coke oven operation by battery, including work force and operating crew, coking time, operating procedures, and maintenance practices.

(b) Engineering plans and other studies used to determine the controls for the coke battery.

(c) A report of the technology considered in meeting the permissible exposure limit.

(d) A monitoring program in accordance with R 325.50105.

(e) A detailed schedule for the implementation of the engineering and work practice controls required in R 325.50110, R 325.50111, and R 325.50112.

(f) Other relevant information.

(3) If, after implementing all controls required by R 325.50110, R 325.50111, and R 325.50112 or after completion of a new or rehabilitated battery, the permissible exposure limit is still exceeded, an employer shall develop a detailed written program and schedule for the development and implementation of any additional engineering controls and work practices necessary to reduce exposure to or below the permissible exposure limit.

(4) A written plan for a compliance program shall be submitted, upon request, to the director and shall be available at the worksite for examination and copying by the director, the employee, and an authorized representative. The plan shall be revised and updated at least once every 6 months to reflect the current status of the program.

History: 1954 ACS 97, p. 19, Eff. Nov. 13, 1978.

R 325.50107 Methods of compliance; existing coke oven batteries.

Rule 107. (1) An employer shall institute the engineering and work practice controls listed in R 325.50110, R 325.50111, and R 325.50112 in existing coke oven batteries at the earliest possible time, but not later than January 20, 1980, except to the extent that the employer can establish that such controls are not feasible.

(2) If, after implementing all controls required by R 325.50110, R 325.50111, and R 325.50112 or after January 20, 1980, whichever is sooner, employee exposures still exceed the permissible exposure limit, an employer shall research, develop, and implement any other engineering and work practice controls necessary to reduce exposure to or below the permissible exposure limit, except to the extent that the employer can establish that such controls are not feasible.

(3) Where the engineering and work practice controls which can be instituted are not sufficient to reduce employee exposures to or below the permissible exposure limit, an employer shall nonetheless use them to reduce exposures to the lowest level achievable by these controls and shall supplement them by the use of respiratory protection which complies with the requirements of R 325.50117 to R 325.50119.

History: 1954 ACS 97, p. 20, Eff. Nov. 13, 1978.

R 325.50108 Methods of compliance; new or rehabilitated coke oven batteries.

Rule 108. (1) An employer shall institute the best available engineering and work practice controls on all new or rehabilitated coke oven batteries to reduce and maintain employee exposure at or below the permissible exposure limit, except to the extent that the employer can establish that such controls are not feasible.

(2) If, after implementing the best available engineering and work practice controls required by these rules, employee exposures still exceed the permissible

exposure limit, an employer shall research, develop, and implement any other engineering and work practice controls necessary to reduce exposure to or below the permissible exposure limit, except to the extent that the employer can establish that such controls are not feasible.

(3) If the engineering and work practice controls which can be instituted are not sufficient to reduce employee exposures to or below the permissible exposure limit, an employer shall nonetheless use them to reduce exposures to the lowest level achievable by these controls and shall supplement them by the use of respiratory protection which complies with the requirements of R 325.50117 to R 325.50119.

History: 1954 ACS 97, p. 20, Eff. Nov. 13, 1978.

R 325.50109 Methods of compliance; beehive ovens.

Rule 109. (1) An employer shall institute engineering and work practice controls on beehive ovens at the earliest possible time to reduce and maintain employee exposures at or below the permissible exposure limit, except to the extent that the employer can establish that such controls are not feasible.

(2) If, after implementing all engineering and work practice controls required by subrule (1), employee exposures still exceed the permissible exposure limit, an employer shall research, develop, and implement any other engineering and work practice controls necessary to reduce exposures to or below the permissible exposure limit, except to the extent that the employer can establish that such controls are not feasible.

(3) If the engineering and work practice controls which can be instituted are not sufficient to reduce employee exposures to or below the permissible exposure limit, an employer shall nonetheless use them to reduce exposure to the lowest level achievable by these controls and shall supplement them by the use of respiratory protection which complies with the requirements of R 325.50117 to R 325.50119.

History: 1954 ACS 97, p. 20, Eff. Nov. 13, 1978.

R 325.50110 Existing coke oven battery; engineering controls during charging operations.

Rule 110. An employer shall equip and operate existing coke oven batteries with all of the following engineering controls to control coke oven emissions during charging operations:

(a) One of the following methods of charging:

(i) Stage charging as described in R 325.50113(2).

(ii) Sequential charging as described in R 325.50113(2), except that R 325.50113(2)(b)(iv) does not apply to sequential charging.

(iii) Pipeline charging or other forms of enclosed charging in accordance with this rule, except that subdivisions (b), (d), (e), (f), and (h) do not apply.

(b) Drafting from 2 or more points in the oven being charged, through the use of double collector mains or a fixed or moveable jumper pipe system to another oven, to effectively remove the gases from the oven to the collector mains.

(c) Aspiration systems designed and operated to provide sufficient negative pressure and flow volume to effectively move the gases evolved during charging into the collector mains, including sufficient steam pressure, and steam jets of sufficient diameter.

(d) Mechanical volumetric controls on each larry car hopper to provide the proper amount of coal to be charged through each charging hole so that the tunnel head will be sufficient to permit the gases to move from the oven into the collector mains.

(e) Devices to facilitate the rapid and continuous flow of coal into the oven being charged, such as stainless steel liners, coal vibrators, or pneumatic shells.

(f) Individually operated larry car dropsleeves and slidegates or equivalent charge systems designed and maintained so that the gases are effectively removed from the oven into the collector mains.

(g) Mechanized gooseneck and standpipe cleaners.

(h) Air seals on the pusher machine leveler bars to control air infiltration during charging.

(i) Roof carbon cutters or a compressed air system, or both, on the pusher machine rams to remove roof carbon.

History: 1954 ACS 97, p. 20, Eff. Nov. 13, 1978.

R 325.50111 Existing coke oven battery; engineering controls during coking operations.

Rule 111. An employer shall control coke oven emissions from existing coke oven batteries during coking operations by:

(a) A pressure control system on each battery to obtain uniform collector main pressure.

(b) Ready access to door repair facilities to facilitate the prompt and efficient repair of doors, door sealing edges, and all door parts.

(c) An adequate number of spare doors available for replacement purposes.

(d) Chuck door gaskets to control chuck door emissions until such door is repaired or replaced.

(e) Heat shields on door machines.

History: 1954 ACS 97, p. 21, Eff. Nov. 13, 1978.

R 325.50112 Filtered air.

Rule 112. (1) An employer shall provide positive-pressure, temperature-controlled filtered air for larry car, pusher machine, door machine, and quench car cabs.

(2) An employer shall provide standby pulpits equipped with positive-pressure, temperature-controlled filtered air on the battery topside, at the wharf, and at the screening station.

History: 1954 ACS 97, p. 21, Eff. Nov. 13, 1978.

R 325.50113 Work practice controls; charging.

Rule 113. (1) An employer shall establish and implement a detailed, written inspection and cleaning procedure for the charging of existing coke oven batteries, consisting of at least the following elements:

(a) Prompt and effective repair or replacement of all engineering controls.

(b) Inspection and cleaning of goosenecks and standpipes prior to each charge to a specified minimum diameter sufficient to effectively move the evolved gases from the oven to the collector mains.

(c) Inspection for roof carbon buildup prior to each charge and removal of roof carbon as necessary to provide an adequate gas channel so that the gases can effectively move from the oven into the collector mains.

(d) Inspection of the steam aspiration system prior to each charge so that sufficient pressure and volume are maintained to effectively move the gases from the oven to the collector mains.

(e) Inspection of steam nozzles and liquor sprays prior to each charge and *cleaning as necessary* so that the steam nozzles and liquor sprays are clean.

(f) Inspection of standpipe caps prior to each charge and cleaning and luting, or both, as necessary so that the gases can effectively move from the oven to the collector mains.

(g) Inspection of charging holes and lids for cracks, warpage, and other defects prior to each charge and removal of carbon to prevent emissions, and application of luting material to standpipe and charging hole lids where necessary to obtain a proper seal.

(2) An employer shall establish and implement a detailed written charging procedure, designed and operated to eliminate emissions during charging for each battery, consisting of at least the following:

(a) Larry car hoppers filled with coal to a predetermined level in accordance with the mechanical volumetric controls required under R 325.50110(d) so as to maintain a sufficient gas passage in the oven to be charged.

(b) The larry car aligned over the oven to be charged so that the dropsleeves fit tightly over the charging holes.

(c) The oven charged in accordance with the following sequence of requirements:

(i) The aspiration system shall be turned on.

(ii) The coal shall be charged through the outermost hoppers, either individually or together, depending on the capacity of the aspiration system to collect the gases involved.

(iii) The charging holes used under subrule (2)(a)(ii) relidded or otherwise sealed off to prevent leakage of coke oven emissions.

(iv) If 4 hoppers are used, the third hopper shall be discharged and relidded or otherwise sealed off to prevent leakage of coke oven emissions.

(v) The final hopper shall be discharged until the gas channel at the top of the oven is blocked and then the chuck door shall be opened and the coal leveled.

(vi) If the coal from the final hopper is discharged and the leveling operation complete, the charging hole shall be relidded or otherwise sealed off to prevent leakage of coke oven emissions.

(vii) The aspiration system shall be turned off only after the charging holes have been closed.

(3) An employer shall establish and implement a detailed written charging procedure, designed and operated to eliminate emissions during charging of each pipeline or enclosed charged battery.

History: 1954 ACS 97, p. 21, Eff. Nov. 13, 1978.

R 325.50114 Work practice controls; coking.

Rule 114. An employer shall establish and implement a detailed written coking procedure for existing coke oven batteries, consisting of at least the following elements:

(a) Checking oven back pressure controls to maintain uniform pressure conditions in the collecting main.

(b) Repair, replacement, and adjustment of oven doors and chuck doors, and replacement of door jambs to provide a continuous metal-to-metal fit.

(c) Cleaning of oven doors, chuck doors, and door jambs after each coking cycle to provide an effective seal.

(d) An inspection system and corrective action program to control door emissions to the maximum extent possible.

(e) Luting of doors that are sealed by luting after each coking cycle and reluting, replacing, or adjusting as necessary to control leakage.

History: 1954 ACS 97, p. 22, Eff. Nov. 13, 1978.

R 325.50115 Work practice controls; pushing.

Rule 115. An employer shall control coke oven emissions during pushing operations by quenching coke and coal spillage as soon as practicable and not shoveling them into a heated oven, and by a detailed written procedure for each battery established and implemented for the control of emissions during pushing consisting of the following elements:

(a) Dampering off the ovens and removal of charging hole lids to effectively control coke oven emissions during the push.

(b) Heating the coal charge uniformly for a sufficient period to obtain proper coking, including the prevention of green pushes.

(c) Prevention of green pushes to the maximum extent possible.

(d) Inspection, adjustment, and correction of heating flue temperatures and defective flues at least once weekly and after any green push, to prevent green pushes.

(e) Cleaning of heating flues and related equipment at least once weekly and after any green push to prevent green pushes.

History: 1954 ACS 97, p. 22, Eff. Nov. 13, 1978.

R 325.50116 Work practice controls; maintenance and repair.

Rule 116. An employer shall establish and implement a detailed written procedure of maintenance for existing coke oven batteries which shall consist of the following elements:

(a) Regular inspection of all controls, including goosenecks, standpipes, standpipe caps, charger hole lids, and castings; regular inspection of jumper standings, jumper pipes, and air seals for cracks, misalignment, or other defects; and prompt implementation of the necessary repairs as soon as possible.

(b) Maintaining the regulated area in a neat, orderly condition free of coal and coke spillage and debris.

(c) Regular inspection of the damper system, aspiration system, and collector main for cracks or leakage, and prompt implementation of the necessary repairs.

(d) Regular inspection of the heating system and prompt implementation of the necessary repairs.

(e) Prevention of miscellaneous fugitive topside emissions.

(f) Regular inspection and patching of oven brickwork.

(g) Maintenance of battery equipment and controls in good working order.

(h) Maintenance and repair of coke oven doors, chuck doors, door jambs and seals.

(i) Installation of chuck door gaskets prior to the next coking cycle.

(j) Instituting and completing repairs as soon as possible, including temporary repair measures instituted and completed where necessary, which include, but are not limited to, the requirements of subdivisions (e) and (i) of this rule.

History: 1954 ACS 97, p. 23, Eff. Nov. 13, 1978.

R 325.50117 Respiratory protection.

Rule 117. (1) Where respiratory protection is required under these rules, an employer shall provide and assure the use of respirators which comply with the requirements of this rule. Compliance with the permissible exposure limit shall not be achieved by the use of respirators except in any of the following:

(a) During the time period necessary to install or implement feasible engineering and work practice controls.

(b) In work situations where feasible engineering and work practice controls are not yet sufficient to reduce exposure to or below the permissible exposure *limit.*

(c) In work operations such as maintenance and repair activity in which engineering and work practice controls are not technologically feasible.

(d) In emergencies.

(2) Where respirators are required, an employer shall select, provide and assure the use of the appropriate respirator or combination of respirators on the basis of table 1.

TABLE 1

Respiratory Protection for Coke Oven Emissions

Airborne Concentration of Coke Oven Emissions	Approved Respirator
a. Any concentration	1. A type C supplied-air respirator operated in pressure demand or other positive pressure or continuous flow mode; or 2. A powered air-purifying particulate filter respirator for dust and mist; or 3. A powered air-purifying particulate filter respirator or combination chemical cartridge and particulate filter respirator for coke oven emissions.
b. Concentrations not greater than 1500 ug/m^3	1. Any particulate filter respirator for dust and mist except single-use respirator; or 2. Any particulate filter respirator or combination chemical cartridge and particulate filter respirator for coke oven emissions; or 3. Any respirator listed in this rule.

(3) Where a respirator is required by this rule for concentrations not greater than 1500 ug/m^3, an employer shall provide, at the option of each affected employee, either a particulate filter respirator or a powered air-purifying respirator as described in table 1.

(4) An employer shall select respirators appropriate for coke oven emissions from among those approved for protection against dust and mist by the United States department of health, education, and welfare, national institute for occupational safety and health (NIOSH) under the provisions of the Code of Federal Regulations, title 30, Mineral Resources, chapter I, subchapter B, part 11, as amended through December 30, 1977. The Code of Federal Regulations, title 30, is incorporated herein by reference and made a part hereof and may be inspected at the Lansing office of the department of public health and may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, or from the Michigan Department of Public Health, 3500 North Logan, Box 30035, Lansing, Michigan 48909, at a cost of $4.80.

(5) An employer shall institute a respiratory protection program in accordance with O.H. rule 3502, general respiratory protection.

(6) An employer shall assure that a respirator issued to an employee exhibits minimum facepiece leakage and that the respirator is fitted properly. An employer shall perform quantitative fit tests annually for each employee who uses a non-powered, particulate filter respirator.

(7) An employer shall allow each employee who uses a filter respirator to change the filter elements whenever an increase in breathing resistance is detected and shall maintain an adequate supply of filter elements for this purpose.

(8) An employer shall allow employees who wear respirators to wash their faces and respirator facepieces as necessary to prevent skin irritation associated with respirator use.

History: 1954 ACS 97, p. 23, Eff. Nov. 13, 1978.

R 325.50118 Protective clothing and equipment; provision and use.

Rule 118. An employer shall provide and assure the use of appropriate protective clothing and equipment, such as, but not limited to, all of the following:

(a) Flame-resistant jacket and pants.

(b) Flame-resistant gloves.

(c) Devices that insulate footwear from hot surfaces.

(d) Face shields or vented goggles which comply with R 408.13501 to R 408.13569 of the Michigan Administrative Code administered and enforced by the Michigan department of labor.

(e) Safety shoes which comply with R 408.13101 to R 408.13135 of the Michigan Administrative Code administered and enforced by the Michigan department of labor.

(f) Protective helmets which comply with R 408.13201 to R 408.13241 of the Michigan Administrative Code administered and enforced by the Michigan department of labor.

History: 1954 ACS 97, p. 24, Eff. Nov. 13, 1978.

R 325.50119 Protective clothing and equipment; cleaning and replacement.

Rule 119. Where protective clothing is required by these rules, an employer shall do all of the following:

(a) Provide the protective clothing required by R 325.50118(a) and (b) in a clean and dry condition at least once weekly.

(b) Clean, launder, or dispose of protective clothing required by R 325.50118(a) and (b).

(c) Repair or replace the protective clothing and equipment as needed to maintain their effectiveness.

(c') Assure that all protective clothing is removed at the completion of a work shift and only in change rooms required by these rules.

(e) Assure that contaminated protective clothing, which is to be cleaned, laundered, or disposed of, is placed in a closable container in the change room.

(f) Inform any person who cleans or launders protective clothing required by this rule of the potentially harmful effects of exposure to coke oven emissions.

History: 1954 ACS 97, p. 24, Eff. Nov. 13, 1978.

R 325.50120 Emergencies.

Rule 120. If an emergency occurs, the next coking cycle shall not begin until the cause of the emergency is determined and corrected, unless the employer can establish that it is necessary to initiate the next coking cycle in order to determine the cause of the emergency.

History: 1954 ACS 97, p. 24, Eff. Nov. 13, 1978.

R 325.50121 Hygiene facilities and practices; change rooms, showers, and lavatories.

Rule 121. (1) An employer shall provide clean change rooms equipped with storage facilities for street clothes and separate storage facilities for protective clothing and equipment whenever employees are required to wear protective *clothing and equipment in* accordance with R 325.50118.

(2) An employer shall assure that employees working in a regulated area shower at the end of the work shift.

(3) An employer shall provide shower facilities in accordance with O.H. rule 4201(4), sanitation - washing facilities.

(4) An employer shall assure that employees working in the regulated area wash their hands and face prior to eating.

(5) An employer shall provide lavatory facilities in accordance with O.H. rule 4201(4), sanitation - washing facilities.

(6) An employer shall provide lunchroom facilities which have a temperature controlled, positive-pressure, filtered air supply, and which are readily accessible to employees working in the regulated area.

History: 1954 ACS 97, p. 25, Eff. Nov. 13, 1978.

R 325.50122 Acts prohibited in regulated areas.

Rule 122. (1) An employer shall assure that in a regulated area, food or beverages are not present or consumed, smoking products are not present or used, and cosmetics are not applied, except that these activities may be conducted in the lunchrooms, change rooms, and showers required by these rules.

(2) Drinking water may be consumed in a regulated area.

History: 1954 ACS 97, p. 25, Eff. Nov. 13, 1978.

R 325.50123 Medical surveillance; general requirements.

Rule 123. (1) An employer shall institute a medical surveillance program for all employees who are employed in a regulated area for not less than 30 days per year.

(2) This program shall provide that medical examinations and procedures in accordance with subrule (1) be made available, at the employer's cost, to each employee during scheduled working hours or at other times agreeable to both the employee and the employer.

(3) An employer shall inform an employee who refuses a required medical examination of the possible health consequences of such refusal and shall obtain a signed statement from the employee indicating that the employee understands the risk involved in the refusal to be examined.

(4) An employer shall assure that all medical examinations and procedures are performed by, or under the supervision of, a licensed physician.

History: 1954 ACS 97, p. 25, Eff. Nov. 13, 1978.

R 325.50124 Medical surveillance; initial examinations.

Rule 124. At the time of initial assignment to a regulated area or upon the institution of the medical surveillance program, an employer shall provide a medical examination for employees covered under R 325.50123(1), which shall include at least the following elements:

(a) A work history and medical history, which shall include smoking history and the presence and degree of respiratory symptoms, such as breathlessness, cough, sputum production, and wheezing.

(b) A 14- x 17-inch posterior-anterior chest x-ray film. An international labour office UICC/Cincinnati (ILO U/C) rating is recommended.

(c) Pulmonary function tests, including forced vital capacity (FVC) and forced expiratory volume at 1 second (FEV 1.0), with recording of type of equipment used.

(d) Weight.

(e) A skin examination.

(f) Urinalysis for sugar, albumin, and hematuria.
(g) A sputum cytology examination.
(h) A urinary cytology examination.

History: 1954 ACS 97, p. 25, Eff. Nov. 13, 1978.

R 325.50125 Medical surveillance; periodic examinations.

Rule 125. (1) An employer shall provide the examinations specified in R 325.50124(a) to (d) at least annually for employees covered under R 325.50123(1).

(2) The employer shall provide the examinations specified in R 325.50124(a) to (h) at least once semiannually for employees 45 years of age or older or with 5 or more years' employment in the regulated area.

(3) If an employee who is 45 years of age or older, or who has 5 or more years' employment in the regulated area, transfers or is transferred from employment in a regulated area, the employer shall continue to provide the examinations specified in R 325.50124(a) to (h) once semiannually as long as such employee is employed by the same employer or a successor employer.

(4) If an employee has not taken the examinations specified in subrules (1) to (3) within the 6 months preceding the termination of employment, the employer shall provide such examinations to the employee upon termination of employment.

History: 1954 ACS 97, p. 25, Eff. Nov. 13, 1978.

R 325.50126 Medical surveillance; information provided to physicians.

Rule 126. An employer shall provide all of the following information to the examining physician:

(a) A copy of these rules, the substance information sheet, and the air monitoring and medical surveillance guide for coke oven emissions.

(b) A description of the affected employee's duties as they relate to the employee's exposure.

(c) The employee's exposure level or estimated exposure level.

(d) A description of any personal protective equipment used or to be used.

(e) Information from previous medical examinations of the affected employee which is not readily available to the examining physician.

History: 1954 ACS 97, p. 26, Eff. Nov. 13, 1978.

R 325.50127 Medical surveillance; physician's written opinions.

Rule 127. (1) An employer shall obtain a written opinion from the examining physician, which shall include all of the following:

(a) The results of the medical examinations.

(b) The physician's opinion as to whether the employee has any detected medical conditions which would place the employee at increased risk of material impairment of the employee's health from exposure to coke oven emissions.

(c) Any recommended limitations upon the employee's exposure to coke oven emissions or upon the use of protective clothing or equipment such as respirators.

(d) A statement that the employee has been informed by the physician of the results of the medical examination and any medical conditions which require further explanation or treatment.

(2) An employer shall instruct the physician not to reveal in the written opinion specific findings or diagnoses unrelated to occupational exposure.

(3) An employer shall provide a copy of the written opinion to the affected employee.

History: 1954 ACS 97, p. 26, Eff. Nov. 13, 1978.

R 325.50128 Employee information and training.

Rule 128. (1) An employer shall institute a training program for employees who are employed in a regulated area and shall assure their participation.

(2) The training program shall be provided as of the effective date of these rules for employees who are employed in the regulated area at that time or at the time of initial assignment to a regulated area.

(3) The training program shall be provided at least annually for all employees who are employed in the regulated area, except that training regarding the occupational safety and health hazards associated with exposure to coke oven emissions and the purpose, proper use, and limitations of respiratory protective devices shall be provided at least quarterly for the first year after the initiation of the training program.

(4) The training program shall include informing each employee of all of the following:

(a) The information contained in the substance information sheet for coke oven emissions.

(b) The purpose, proper use, and limitations of respiratory protective devices required in accordance with R 325.50117 to R 325.50119.

(c) The purpose for and a description of the medical surveillance program required by R 325.50123 to R 325.50127, including information on the occupational safety and health hazards associated with exposure to coke oven emissions.

(d) A review of all written procedures and schedules required under R 325.50106 to R 325.50116.

(e) A review of these rules.

History: 1954 ACS 97, p. 26, Eff. Nov. 13, 1978.

R 325.50129 Access to training materials.

Rule 129. (1) An employer shall make a copy of these rules, the substance information sheet, and the air monitoring and medical surveillance guide for coke oven emissions readily available to all persons employed in the regulated area.

(2) An employer shall provide, upon request, all materials relating to the employee information and training program to the director.

History: 1954 ACS 97, p. 27, Eff. Nov. 13, 1978.

R 325.50130 Precautionary signs and labels.

Rule 130. (1) An employer shall assure that a statement does not appear on or near any sign required by these rules which contradicts or detracts from the effects of the required sign.

(2) An employer shall assure that signs required by these rules are illuminated and cleaned as necessary so that the legend is readily visible.

(3) An employer shall post signs in the regulated area bearing the following legends:

DANGER

CANCER HAZARD

AUTHORIZED PERSONNEL ONLY

NO SMOKING OR EATING

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253

(4) In addition, the employer shall post signs in the areas where the permissible exposure limit is exceeded bearing the legend:

DANGER

RESPIRATOR REQUIRED

(5) The employer shall apply precautionary labels to all containers of protective clothing contaminated with coke oven emissions bearing the following legend:

CAUTION

CLOTHING CONTAMINATED WITH COKE EMISSIONS

DO NOT REMOVE DUST BY BLOWING OR SHAKING

History: 1954 ACS 97, p. 27, Eff. Nov. 13, 1978.

R 325.50131 Exposure measurements.

Rule 131. (1) An employer shall establish and maintain an accurate record of all measurements taken to monitor employee exposure to coke oven emissions required in R 325.50105. The record shall include all of the following:

(a) Name, social security number, and job classification of the employees monitored.

(b) The date or dates, number, duration, and results of each of the samples taken, including a description of the sampling procedure used to determine representative employee exposure where applicable.

(c) The type of respiratory protective devices worn, if any.

(d) A description of the sampling and analytical methods used and evidence of their accuracy.

(e) The environmental variables that could affect the measurement of employee exposure.

(2) An employer shall maintain this record for not less than 40 years or for the duration of employment plus 20 years, whichever period is longer.

History: 1954 ACS 97, p. 27, Eff. Nov. 13, 1978.

R 325.50132 Medical records.

Rule 132. (1) An employer shall establish and maintain an accurate record for each employee subject to medical surveillance as required by R 325.50123(1). The record shall include all of the following:

(a) The name, social security number, and description of duties of the employee.

(b) A copy of the physician's written opinion.

(c) The signed statement of any refusal to take a medical examination under R 325.50123(3).

(d) Any employee medical complaints related to exposure to coke oven emissions.

(2) An employer shall keep, or assure that the examining physician keeps, all of the following medical records:

(a) A copy of the medical examination results, including medical and work *history required under* R 325.50124(a).

Digitized by Google

(b) A description of the laboratory procedures used and a copy of any standards or guidelines used to interpret the test results.

(c) The initial x-ray film.

(d) The x-ray films for the most recent 5 years.

(e) Any x-ray film with a demonstrated abnormality and all subsequent films.

(f) The initial cytologic examination slide and written description.

(g) The cytologic examination slides and written descriptions for the most recent 10 years.

(h) Any cytologic examination slides with demonstrated atypia, if such atypia persists for 3 years, and all subsequent slides and written descriptions.

(3) The employer shall maintain medical records required under this rule for not less than 40 years, or for the duration of employment plus 20 years, whichever period is longer.

History: 1954 ACS 97, p. 27, Eff. Nov. 13, 1978.

R 325.50133 Availability of records.

Rule 133. (1) An employer shall make available upon request all records required to be maintained by R 325.50131 and R 325.50132 to the director for examination and copying.

(2) An employer shall make available, upon request, records of employee exposure measurements required by R 325.50131 for inspection and copying to affected employees and their designated representatives.

(3) An employer shall make available upon request employee medical records required to be maintained by R 325.50132 to a physician designated by the affected employee or former employee.

(4) An employer shall make available upon request records of employee exposure measurements required by R 325.50131 for inspection and copying to former employees and their designated representatives which indicate the former employees' own exposures.

History: 1954 ACS 97, p. 28, Eff. Nov. 13, 1978.

R 325.50134 Transfer of records.

Rule 134. (1) If an employer ceases to do business, the successor employer shall receive and retain all records required to be maintained by R 325.50131 and R 325.50132.

(2) If an employer ceases to do business and there is no successor employer to receive and retain the records for the prescribed period, these records shall be transmitted by registered mail to the director.

(3) At the expiration of the retention period for the records required to be maintained under R 325.50131 and R 325.50132, an employer shall transmit the records by registered mail to the director or shall continue to retain such records.

History: 1954 ACS 97, p. 28, Eff. Nov. 13, 1978.

R 325.50135 Observations of monitoring.

Rule 135. (1) An employer shall provide affected employees or their representatives an opportunity to observe any measuring or monitoring of employee exposure to coke oven emissions conducted pursuant to R 325.50105.

(2) If observation of the measuring or monitoring of employee exposure to coke oven emissions requires entry into an area where the use of protective clothing or equipment is required, an employer shall provide the observer with, and assure the use of, such equipment and shall require the observer to comply with all other applicable safety and health procedures.

(3) Without interfering with the measurement, an observer shall be entitled to all of the following:

(a) An explanation of the measurement procedures.

(b) Observe all steps related to the measurement of coke oven emissions performed at the place of exposure.

(c) Record the results obtained.

History: 1954 ACS 97, p. 28, Eff. Nov. 13, 1978.

R 325.50136 Availability of rules, information sheets, and guides.

Rule 136. (1) A copy of these rules, the substance information sheet, and the air monitoring and medical surveillance guides for coke oven emissions, shall be provided to each employer by the Michigan Department of Public Health, P.O. Box 30035, Lansing, Michigan 48909.

(2) Permission to reproduce each or all of these documents in full is granted by the director.

History: 1954 ACS 97, p. 28, Eff. Nov. 13, 1978.

PART 2. TUNNELS, SHAFTS, CAISSONS, AND COFFERDAMS

R 325.50201 Applicability.

Rule 201. These rules apply to the construction, modification, and major repair of tunnels, shafts, caissons, and cofferdams and the use and maintenance of equipment used in those operations. These rules do not apply to the routine maintenance of an existing structure.

History: 1954 ACS 97, p. 29, Eff. Nov. 22, 1978.

R 325.50202 Definitions; A to D.

Rule 202. As used in these rules:

(a) "Absolute pressure" (p.s.i.a.) means the sum of the atmospheric pressure and gauge pressure (p.s.i.g.).

(b) "Atmospheric pressure" means the pressure of air at sea level, usually 14.7 p.s.i.a. (1 atmosphere), or zero p.s.i.g.

(c) "Bulkhead" means a structure which is used to separate 1 area from another.

(d) "Caisson" means a structure or chamber which is placed in the ground or water for the purpose of excavating earth.

(e) "Cfm" means cubic feet of air per minute.

(f) "Cofferdam" means a temporary structure used to control the flow of water and other material from an area of operation during construction.

(g) "Compressed air" means that environment which has a pressure greater than atmospheric pressure.

(h) "Decanting" means a method used for decompressing under emergency circumstances.

(i) "Decompression" means that operation which provides for the return of compressed air environment to atmospheric pressure.

(j) "Director" means the director of the Michigan department of public health or his authorized representative.

History: 1954 ACS 97, p. 29, Eff. Nov. 22, 1978.

R 325.50203 Definitions; E to M.

Rule 203. As used in these rules:

(a) "Emergency lock" means a lock designed to hold and permit the quick *passage of an entire shift* of employees.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) "Gauge pressure" (p.s.i.g.) means pressure measured by a gauge and indicates a pressure differing from atmospheric pressure.

(c) "High air" means pressurized air other than the air supplied to pressurize a working chamber or lock.

(d) "L.E.L." means the lower explosive limit, percent by volume, of a flammable gas or vapor in air.

(e) "Low air" means pressurized air supplied to pressurize a working chamber or lock.

(f) "Man lock" means a chamber through which an employee passes from 1 air pressure environment into another.

(g) "Man-material lock" means a single chamber through which an employee, material, or equipment passes from 1 air pressure environment into another.

(h) "Material lock" means a chamber through which material or equipment passes from 1 air pressure environment into another.

(i) "Medical lock" means a special chamber in which an employee is treated for decompression illness.

(j) "Mg/m^3" means milligrams of particulate per cubic meter of air.

History: 1954 ACS 97, p. 29, Eff. Nov. 22, 1978.

R 325.50204 Definitions; N to W.

Rule 204. As used in these rules:

(a) "NIOSH" means the national institute of occupational safety and health.

(b) "Normal condition" means that exposure to compressed air is limited to a single continuous working period followed by a single decompression in any given 24-hour period; the total time of exposure to compressed air during the single continuous working period is not interrupted by exposure to atmospheric pressure, and a second exposure to compressed air does not occur until not less than 12 consecutive hours of exposure to normal atmospheric pressure have elapsed since an employee has been under pressure.

(c) "O.H. rule" means an occupational health rule adopted by reference in accordance with section 14 of Act No. 154 of the Public Acts of 1974, as amended. Copies of these rules are available from the Michigan Department of Public Health, 3500 North Logan Street, Box 30035, Lansing, Michigan 48909.

(d) "Ppm" means parts of vapor or gas per million parts of air by volume at 25 degrees Celsius and 760 millimeters of mercury pressure.

(e) "Portal" means a large, horizontal or inclined opening excavated below ground level to permit access to underground operations.

(f) "Pressure" means a force acting on a unit area, usually measured as pounds per square inch (p.s.i.).

(g) "Scfm" means cubic feet of air per minute at standard conditions of temperature and pressure (70 degrees Fahrenheit and 29.92 inches of mercury).

(h) "Qualified employee" means a person who by extensive knowledge, training, and experience has successfully demonstrated the ability to solve or resolve problems relating to the subject matter, the work, or the project.

(i) "Shaft" means a vertical or inclined opening excavated below ground level.

(j) "Standard air" means air of a density of 0.075 pounds per cubic foot, usually defined as dry air at sea level pressure and 70 degrees Fahrenheit.

(k) "Tunnel" means a generally horizontal excavation or facility, more than 14 inches in diameter and more than 6 feet long, below ground or water. Facilities used for the acquisition of minerals, ores, and fossil fuels, which are commonly known as mines, are excluded from this definition.

(l) "Working chamber" means a space or compartment under air pressure in which the work is being done.

History: 1954 ACS 97, p. 29, Eff. Nov. 22, 1978.

R 325.50205 First aid requirements.

Rule 205. (1) A first aid kit equipped as described in this rule or as prescribed by a consulting physician shall be provided at each tunnel project regardless of the number of persons employed. Transportation suitable for a litter case shall be available at each project.

(2) In underground work areas, there shall be a first aid kit as described in this rule and a woolen blanket, both stored in weatherproof containers, and a stretcher.

(3) Each project shall have a qualified employee in attendance at all times to render first aid.

(4) Where tunnels are being excavated from portals more than 5 road miles apart, transportation facilities shall be available at each portal.

(5) A first aid kit shall contain the following items:

(a) Adhesive bandages.
(b) Burn compound, if prescribed by a consulting physician.
(c) Ammonia inhalants.
(d) Antiseptic swabs.
(e) Two-inch bandage compresses.
(f) Four-inch bandage compresses.
(g) Triangular bandages.
(h) Adhesive tape.
(i) Scissors.
(j) Tweezers.
(k) Cleansing tissues.
(l) Oxygen, if prescribed by a consulting physician.

History: 1954 ACS 97, p. 30, Eff. Nov. 22, 1978.

R 325.50206 Respiratory protective equipment.

Rule 206. (1) A person entering a work area suspected to contain excessive concentrations of hazardous air contaminants or of being deficient in oxygen shall be equipped with appropriate respiratory protective devices which conform to the requirements of the provisions of the Code of Federal Regulations, title 30, Mineral Resources, chapter I, subchapter B, part 11, as amended through December 30, 1977. The Code of Federal Regulations, title 30, is incorporated herein by reference and made a part hereof and may be inspected at the Lansing office of the department of public health and may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, or from the Michigan Department of Public Health, 3500 North Logan, Box 30035, Lansing, Michigan 48909, at a cost of $4.80.

(2) A respirator shall not be substituted for environmental control measures. However, its use is permitted where environmental controls have not yet been developed, or when necessary by the nature of the work involved, for example, welding, sand blasting, or lead burning. An employee may work for short periods of time in concentrations of airborne contaminants which exceed the air quality limits in R 325.50211 if the employee wears a respiratory protective device as *described in the publication* incorporated by reference in subrule (1).

(3) An employee who is required to wear a respirator shall be trained in its use and in the degree and type of protection which it affords. A record shall be kept of the training provided to an employee.

(4) If a respirator is required for employee use, the employer shall provide for its regular maintenance and cleanliness as required to assure its adequate and continued function.

History: 1954 ACS 97, p. 30, Eff. Nov. 22, 1978.

R 325.50207 Sanitation requirements.

Rule 207. (1) Sanitation facilities shall be provided in accordance with the requirements of O.H. rule 6615, sanitation.

(2) An ample supply of clean potable water shall be available in all work areas.

(3) Each work area, man lock, man-material lock, material lock, and medical lock used by an employee shall be kept in a sanitary condition.

History: 1954 ACS 97, p. 31, Eff. Nov. 22, 1978.

R 325.50208 Lighting requirements.

Rule 208. Lighting shall be in accordance with O.H. rule 6605, illumination.

History: 1954 ACS 97, p. 31, Eff. Nov. 22, 1978.

R 325.50209 Internal combustion engines.

Rule 209. Internal combustion engines other than mobile diesel-powered equipment shall not be used underground. Diesel-powered equipment used underground shall conform to the provisions of the Code of Federal Regulations, title 30, Mineral Resources, chapter I, subchapter E, parts 31, 32, and 36, as amended through December 30, 1977. The Code of Federal Regulations, title 30, is incorporated herein by reference in R 325.50206(1).

History: 1954 ACS 97, p. 31, Eff. Nov. 22, 1978.

R 325.50210 Permissible noise exposure.

Rule 210. Permissible noise exposures shall conform to those specified in O.H. rule 6260, occupational noise exposure.

History: 1954 ACS 97, p. 31, Eff. Nov. 22, 1978.

R 325.50211 Air quality generally.

Rule 211. (1) When 1.00% by volume of methane (20% L.E.L.) or other flammable gas in air is detected in an underground work area, all employees shall be withdrawn and the power shall be cut off to the portion of the area endangered by such flammable gas except to any explosion-proof lighting and the general egress route lighting until the concentration of such gas is reduced to 0.50% (10% L.E.L.) or less.

(2) An employee shall not be permitted, except in an emergency, to work in an environment where the oxygen content of the air is less than 19.5% by volume. In no case shall an employee be permitted to work alone under this condition.

(3) An employee's exposure to airborne contaminants shall not exceed the 8-hour time-weighted average concentration for:

Carbon monoxide	50 ppm	
Carbon dioxide 0.50%	5,000 ppm	
Nitric oxide	25 ppm	
Nitrogen dioxide	5 ppm	
Hydrogen sulfide	10 ppm	Maximum = 20 ppm
Quartz (respirable)	$\frac{10 \text{ mg/m}^3\text{*}}{\% \text{ SiO}_2+2}$	
Other contaminants	Exposure limit as specified in O.H. rule 6201, gas, vapors, fumes, dusts and mists.	

*In the application of this limit, both concentration and percent of SiO_2 are to be determined from the fraction passing a size-selector with the following characteristics:

Aerodynamic diameter (Unit density sphere)	Percent passing selector
2	90
2.5	75
3.5	50
5.0	25
10	0

(4) An employee shall be withdrawn from an area in which there is a concentration of an airborne contaminant which exceeds the 8-hour time-weighted average concentration or maximum concentration listed for that contaminant, except as provided in subrule (2).

(5) When drilling a hole in rock or concrete, precautions shall be taken to control the dust.

(6) Where dry rock or other material is being handled and a dust problem exists, the muck piles shall be wet down prior to mucking and kept wet during the mucking operation in order to control the dust. Where water may have a harmful effect on the material being worked, other means of dust control may be used.

History: 1954 ACS 97, p. 31, Eff. Nov. 22, 1978.

R 325.50212 Air quality; testing.

Rule 212. (1) Electrically operated testing equipment shall conform to the provisions of the Code of Federal Regulations, title 30, Mineral Resources, chapter I, subchapter D, parts 22 and 27, as amended through December 30, 1977. The Code of Federal Regulations, title 30, is incorporated herein by reference in R 325.50206(1). Testing equipment may also be approved by the director for use in underground operations if such equipment is approved as intrinsically safe by Factory Mutual Engineering Laboratory, 1151 Boston-Providence Turnpike, Norwood, Massachusetts 02062.

(2) A test shall be made of the air in all work areas. The results, date, and location of all tests shall be recorded and kept on file at the jobsite for review, upon request, by the director.

(3) Testing equipment shall be used and maintained in accordance with the manufacturer's instructions. Testing equipment shall be checked before each daily use. Equipment used to test for methane gas shall be checked and calibrated at least weekly for its response to an established gas concentration. In the event of damage to an instrument, its gas response shall be rechecked before its reuse. A record shall be kept of the maintenance, calibration, and repair of test equipment and shall be available for review by the director.

(4) A required test shall be made by a qualified employee.

(5) If the ventilation system has been shut down with all employees out of the work area or if the employees have been withdrawn in accordance with R 325.50211, the work area shall be tested on foot after the ventilation system has been operated for a period of time to provide at least 1 air change in the tunnel or shaft. No employee, other than those conducting the tests, shall be permitted to enter the work area until the air quality has been assured.

(6) If there has been a failure of the ventilation system or low air compressors or the system has been shut down for other reasons, the work area shall be tested hourly to confirm that the contaminant levels do not exceed the concentrations specified in R 325.50211. Hourly tests shall continue until the ventilation system or low air compressors have been restored to service and the air quality has been assured.

History: 1954 ACS 97, p. 32, Eff. Nov. 22, 1978.

R 325.50213 Air quality; test procedures and schedules; flammable gases, hydrogen sulfide, oxygen, carbon monoxide, nitric oxide, and nitrogen dioxide; other contaminants.

Rule 213. (1) For methane and other flammable gases, test procedures and schedules shall be as follows:

(a) A continuous sampling and indicating combustible gas testing system shall be provided in each caisson and tunnel heading. The sensor shall be placed as high in the work area and as close to the working face as is practicable. The system shall be designed, installed, and maintained to provide a visual alarm when gas readings reach 0.50% by volume of methane in air (10% L.E.L.) and a visual and audible alarm when gas readings reach 1.00% (20% L.E.L.).

(b) If electrically powered excavating equipment is used in a tunnel, the continuous sampling gas testing system shall automatically disconnect the equipment from the power supply when the gas concentration reaches 1.00% by volume of methane in air (20% L.E.L.).

(c) If a portable automatic gas alarm is used, there shall be a disconnecting switch installed in the work area to cut off electrical power to areas that could become endangered by flammable gas.

(d) A manual test shall be conducted in all work areas at the beginning and midpoint of each shift. When a test shows that gas concentrations reach 0.25% by volume of methane in air (5% L.E.L.), a test shall be conducted at least hourly and steps shall be taken to increase the ventilation air volume or otherwise reduce gas concentrations.

(2) For hydrogen sulfide, test procedures and schedules shall be as follows:

(a) A manual test shall be conducted in all work areas at the beginning and midpoint of each shift.

(b) If hydrogen sulfide is detected in an amount exceeding 10 ppm, a continuous sampling and indicating hydrogen sulfide gas testing system shall be provided in each caisson or tunnel heading. The sensor shall be placed as close to the face as is practicable. This system shall be designed, installed, and maintained to provide a visual and audible alarm when the gas readings reach 20 ppm.

(3) For oxygen, a test shall be conducted in all work areas at the beginning and midpoint of each shift.

(4) For carbon monoxide, nitric oxide, and nitrogen dioxide, when diesel-powered equipment is used underground, a test shall be conducted at the beginning and midpoint of each shift.

(5) If ventilating fans or compressors are diesel or gasoline engine driven, an initial test shall be made of the inlet air with the engines operating to insure that the air supply is not contaminated.

(6) For other contaminants, in special circumstances the director may require that other tests be made to insure against hazardous concentrations.

History: 1954 ACS 97, p. 32, Eff. Nov. 22, 1978.

R 325.50214 Ventilation of occupied work areas.

Rule 214. (1) An occupied work area shall be equipped with a mechanical ventilation system sufficient to maintain air quality as specified in R 325.50211. The ventilation system shall have a capacity sufficient to provide 200 scfm for each employee in the work area. In determining the number of employees in the work area, allowance shall be made for service and other personnel.

(2) If a concentration of 0.50% by volume of methane in air (10% L.E.L.) is detected, the minimum ventilation air volume shall be 30 scfm per square foot of tunnel cross-sectional area. The director may permit a lesser or require a greater rate of ventilation as required to maintain air quality.

(3) Ventilation shall be accomplished by exhausting air from the work area and introducing fresh air. The director shall permit other systems of ventilation which will provide equal air quality.

(4) The fresh air inlet shall be arranged to insure that the air supplied to the tunnel is free of contamination from exhausts of internal combustion engines and other contaminants.

(5) Ventilation doors shall be used as necessary to control air movement in sections of a tunnel. When not operated mechanically, the doors shall be designed and installed to be self-closing.

(6) Ventilating fans, fan houses, ducts, elbows, and other fittings shall be constructed of flame-retardant material. The use of flexible ductwork extensions of a combustible type constitutes a permissible variance.

(7) Ventilating fans shall be designed or installed to permit reversal of airflow in the tunnel.

(8) Electric motors and starters on ventilating fans shall conform to the national electrical code, 1978 edition, chapter 5, article 500—hazardous (classified) locations, and article 501—class I locations which are incorporated herein by reference and may be inspected at the Lansing office of the Michigan department of public health. This code may be purchased at a cost of $6.25, plus mailing costs, by ordering NFPA #70-1978 from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210 or from the Michigan Department of Public Health, 3500 North Logan, Box 30035, Lansing, Michigan 48909.

(9) When a failure of the ventilation system would not be apparent to employees underground, a visual alarm system shall be provided to alert the employees to the failure.

History: 1954 ACS 97, p. 33, Eff. Nov. 22, 1978.

R 325.50215 Existing underground structures.

Rule 215. (1) If a working face under compressed air approaches a bulkhead or existing sewer, the air pressure in the working chamber shall be eliminated or reduced to a safe low pressure to minimize the danger of a blowout.

(2) If the air quality beyond a bulkhead or in a sewer does not meet the requirements of R 325.50211, the air shall first be cleared before an employee is allowed to enter. If the air cannot be cleared by natural ventilation, such as by removal of manhole covers, mechanical ventilation shall be provided and *operated to maintain* a forced draft adequate to provide the required air quality.

(3) A completed section of a tunnel, a sewer, or other underground structure which is normally unoccupied shall be tested to insure that the air quality meets the requirements of R 325.50211 before an employee is allowed to enter.

(4) A completed section of a tunnel, a sewer, or any other underground structure which connects to a working area shall be tested weekly for air quality at various locations.

(a) If a test shows that there is 0.25% or more by volume of methane in air (5% L.E.L.), steps shall be taken to improve the ventilation as described in subrule (2). Tests for methane shall be taken hourly until the amount of gas is reduced to less than 0.25% (5% L.E.L.). Thereafter, tests shall be taken at the beginning of each working day.

(b) If improved ventilation does not prevent the gas concentration from reaching 1.00% by volume of methane in air (20% L.E.L.), all employees shall be withdrawn from the working area until the gas concentration is reduced to less than 0.50% (10% L.E.L.).

(5) Work shall not be performed on a completed section of a tunnel, a sewer, or any other underground structure which connects to a work area unless:

(a) The air quality in the completed section of the tunnel, sewer, or underground structure is tested and found to meet the requirements of R 325.50211 prior to and during the performance of the work.

(b) All employees are withdrawn from a connecting work area prior to and during the performance of the work.

History: 1954 ACS 97, p. 34, Eff. Nov. 22, 1978.

R 325.50216 Compressed air conditions; employee safety and health instructions; physician; employee identification; employee record; air temperature; lighting in air lock; change house.

Rule 216. (1) An employee shall be instructed in the rules which concern his safety and health and that of others while working under compressed air conditions.

(2) There shall be retained 1 or more licensed physicians familiar with and experienced in the physical requirements and the medical aspects of compressed air work and the treatment of decompression illness. He shall be available for consultation at all times while work is in progress in order to provide medical attention for employees employed in compressed air work.

(3) A badge or other means of identification shall be furnished to each employee who is exposed to air pressure greater than 12 p.s.i.g., indicating that the wearer is a compressed air worker. A record shall be kept of all identification issued. The identification shall give the employee's name, address of the medical lock, the telephone number of the retained physician for the project, and shall contain instructions that in case of illness or emergency of unknown cause the wearer shall be taken to the medical lock. The identification shall be carried at all times on and off the job while working under compressed air conditions.

(4) A record of employees shall be kept outside the lock near the entrance for each shift. This record shall show the time period each employee spends in the working chamber and the time taken for decompression. A copy of this record shall be available to the retained physician.

(5) The air temperature of a working chamber shall not exceed a daily arithmetic mean dry bulb temperature of 85 degrees Fahrenheit.

(6) Lighting in an air lock shall be electrical.

(7) A change house shall be provided which shall have a dressing room with benches and locker facilities, a separate area with sufficient heat to dry clothing,

and shower baths with hot and cold running water. Toilet facilities shall conform to the specifications of O.H. rule 6615, sanitation.

History: 1954 ACS 97, p. 34, Eff. Nov. 22, 1978.

R 325.50217 Air compressor systems.

Rule 217. (1) The air compressor plant shall be housed in an enclosed weatherproof and fire-retardant structure.

(2) When an employee is in the working chamber, there shall be a qualified employee on duty at the air control valves. The employee may control multiple working chambers providing that the gauges and controls are in 1 location.

(3) An air compressor which delivers air to a working chamber shall be cooled to prevent combustion or decomposition of the lubricating oil. Thermostatically operated shutoff devices shall be provided to shut down an overheated compressor. The exhausts of all low air compressors shall be muffled to minimize noise.

(4) A basic installation of low air system compressor units shall have a capacity sufficient to provide 200 scfm for each employee in the working chamber and maintain the necessary pressures in the working chambers and locks without overloading the equipment. In determining the number of employees, allowance shall be made for service and other personnel.

(5) If a caisson or tunnel is under water or otherwise liable to flooding or if the working chamber pressure exceeds 12 p.s.i.g., a standby low air compressor unit shall be provided in accordance with the following requirements:

(a)

Number of Compressors	Basic Installation	Standby Installation	Total
	1	1	2
	2	2	4
	3	2	5
	4	2	6
	5	2	7

(b) Designed, installed, and operated to meet emergency conditions by quick shifting operations among the compressors.

(6) There shall be not less than 2 independent and separate sources of power for low air compressors and each source of power shall be capable of operating the basic low air system and its accessory system.

(7) There shall be periodic switching from 1 independent power supply to the other to insure the workability of the equipment and procedures in an emergency.

(8) Duplicate low air feedlines and regulating valves shall be provided from the compressor plant to all working chambers.

(9) High air and low air feedlines shall be equipped with check valves.

(10) The low air system shall be regulated automatically. In addition, manually operated valves shall be provided for emergency use.

(11) Gauges indicating the working chamber pressure shall be installed in the air compressor plant and at the lock attendant's station.

(12) A visual or audible system shall be provided to warn an employee in a caisson or tunnel of the failure of the low air system.

History: 1954 ACS 97, p. 35, Eff. Nov. 22, 1978.

R 325.50218 Medical examinations generally.

Rule 218. (1) Only an employee who is examined and certified to be medically *fit to perform assigned* tasks shall be employed in a compressed air environment.

(2) An employer shall provide each employee with all medical examinations required by this rule, at the employer's cost.

(3) Medical examinations required by these rules shall be performed by, or under the direction of, a physician.

History: 1954 ACS 97, p. 35, Eff. Nov. 22, 1978.

R 325.50219 Medical examinations; frequency.

Rule 219. A medical examination shall be provided as follows:

(a) Prior to initial compressed air work with an employer, unless an equivalent medical examination has been given within the preceding 12 months and the employer has obtained the results of the examination and an opinion from the examining physician of the employee's medical fitness to work under compressed air.

(b) At 1-year intervals from the date of initial examination or last equivalent examination.

(c) After an injury or illness requiring hospitalization of more than 24 hours.

History: 1954 ACS 97, p. 35, Eff. Nov. 22, 1978.

R 325.50220 Medical examinations; information provided to the physician.

Rule 220. An employer shall provide the following information to the examining physician:

(a) A copy of the medical requirements of this rule.

(b) A summary of the pressures to which the employee will be exposed, including types of work to be assigned.

History: 1954 ACS 97, p. 36, Eff. Nov. 22, 1978.

R 325.50221 Medical examinations; procedures.

Rule 221. (1) Medical examinations conducted initially and annually shall consist of the following:

(a) Medical history.

(b) Pressure-related work history.

(c) Basic physical examination.

(d) The tests required by table 1.

(e) Any additional tests the physician considers necessary.

(2) Table 1 is as follows:

TABLE 1

Tests for Compressed Air Examination

Tests	Initial Examination	Annual Reexamination
Chest x-ray	X	X
Visual acuity	X	X
Color blindness	X	
EKG: standard 12L	X	X*
Hearing test	X	X
Hematocrit or hemoglobin	X	X
Sickle cell index	X	
Urinalysis	X	X
White blood count	X	X

*To be given to the employee annually at age 35 and over.

(3) A medical examination conducted after an injury or illness which required hospitalization of more than 24 hours shall be appropriate to the nature and extent of the injury or illness as determined by the examining physician.

History: 1954 ACS 97, p. 36, Eff. Nov. 22, 1978.

R 325.50222 Medical examinations; physician's written report.

Rule 222. (1) After any medical examination required by this rule, the employer shall obtain a written report prepared by the examining physician which contains the following:

(a) The results of the medical examination.

(b) The examining physician's opinion of the employee's fitness to be exposed to compressed air, including any recommended restrictions or limitations to such exposure.

(2) The following disorders may restrict or limit occupational exposure to a compressed air environment depending on severity, presence of residual effects, response to therapy, number of occurrences, type of work, or degree and duration of isolation:

(a) History of seizure disorder other than early febrile convulsions.

(b) Active malignancies, unless treated and without recurrence for 5 years.

(c) Chronic inability to equalize sinus or middle ear pressure, or both.

(d) Cystic or cavitary disease of the lungs.

(e) Impaired organ function caused by alcohol or drug use.

(f) Conditions requiring continuous medication for control, for example, antihistamines, steroids, barbiturates, mood-altering drugs, or insulin.

(g) Meniere's disease.

(h) Hemoglobinopathies.

(i) Obstructive or restrictive lung disease.

(j) Vestibular end organ destruction.

(k) Pneumothorax.

(l) Cardiac abnormalities, for example, pathological heart block, valvular disease, intraventricular conduction defects other than isolated right bundle branch block, angina pectoris, arrhythmia, and coronary artery disease.

(m) Juxta-articular osteonecrosis.

(3) An employer shall provide the employee with a copy of the physician's written report.

(4) An employer shall determine the extent and nature of the employee's employment in compressed air activities consistent with the recommendations in the examining physician's report.

History: 1954 ACS 97, p. 36, Eff. Nov. 22, 1978.

R 325.50223 Medical locks generally.

Rule 223. (1) If the pressure of the working chamber exceeds 12 p.s.i.g., a medical lock shall be established and maintained in immediate working order.

(2) A medical lock that is manufactured after the effective date of these rules shall conform to the requirements of the ASME boiler and pressure vessel code, 1974 edition, section VIII, Pressure Vessels, and the addenda hereto which are incorporated herein by reference and may be inspected at the Lansing office of the Michigan department of public health. This section of the code may be purchased at a cost of $100.00 by ordering from the American Society of Mechanical Engineers, United Engineering Center, 345 East Forty-Seventh Street, New York, New York 10017 or from the Michigan Department of Public Health, *3500 North Logan, Box* 30035, Lansing, Michigan 48909. A medical lock manu-

factured before the effective date of these rules shall be maintained in conformity with the code requirements to which they were built.

History: 1954 ACS 97, p. 37, Eff. Nov. 22, 1978.

R 325.50224 Medical locks; specifications.

Rule 224. A medical lock shall satisfy all of the following requirements:

(a) Be of sufficient size to accommodate the occupant or occupants and those rendering treatment and shall have not less than 2 compartments.

(b) Be readily accessible to employees working under compressed air. For the purposes of this rule, "readily accessible" means not more than 45 minutes travel time from the jobsite.

(c) Be properly lighted, ventilated, and capable of being maintained at a temperature, in use, not to exceed 90 degrees Fahrenheit, nor be less than 70 degrees Fahrenheit for a prolonged period of time.

(d) Be illuminated from the exterior to permit visual observation of the occupant or occupants from the exterior, as necessary, through a shatterproof port.

(e) Be provided with sources of air, free of oil and carbon monoxide, for normal and emergency use, which are capable of raising the air pressure in the lock from 0 to 75 p.s.i.g. in 5 minutes.

(f) Be equipped with internal air pressure controls which may be overridden by external controls.

(g) Be provided with air pressure gauges to show the pressure within each compartment to observers inside and outside the lock.

(h) Be in the charge of an attendant under the direct control of the retained physician. The attendant shall be trained in the use of the lock and suitably instructed regarding steps to be taken in the treatment of employees exhibiting symptoms compatible with a diagnosis of decompression illness.

(i) Be designed and equipped to eliminate combustible materials and sources of ignition within the lock, to the extent feasible.

(j) Be installed with an exhaust line guard on the exhaust outlet on the inside of the lock.

(k) Be equipped with an operating, 2-way audio-communication system which is intrinsically safe in an oxygen atmosphere.

History: 1954 ACS 97, p. 37, Eff. Nov. 22, 1978.

R 325.50225 Medical locks; oxygen systems.

Rule 225. (1) If an oxygen piping system is used in a medical lock, it shall meet the following requirements:

(a) All hard piping systems, fittings, and tubing carrying pure, high-pressure oxygen shall be made of corrosion-resistant metals.

(b) Internal oxygen outlets shall have nonreturn or shut-off valves.

(c) Shut-off valves used in an oxygen system above 125 p.s.i. shall be of the slow-opening type, such as a needle-type valve.

(2) If an oxygen breathing system is used in a medical lock it shall meet the following requirements:

(a) Adequate ventilation shall be provided to prevent the oxygen concentration in any compartment from rising above 25%.

(b) If ventilation is the sole method used, the oxygen concentration shall be continuously monitored.

(c) If an overboard oxygen dump system is used, the oxygen concentration shall be monitored at least once every 15 minutes.

History: 1954 ACS 97, p. 37, Eff. Nov. 22, 1978.

R 325.50226 Material air locks.

Rule 226. (1) A material air lock shall be installed in each tunnel. This lock may also be used as a man lock when equipped as specified in R 325.50227.

(2) If a combination man-material lock is used, the lock shall be of sufficient capacity to hold the employees constituting 2 successive shifts.

(3) The lock shall be capable of withstanding an air pressure of not less than 25 p.s.i.g. Lock doors shall be free swinging and provided with a shatterproof viewing port.

(4) Air valves and piping shall be provided and arranged so that the locks may be operated from either within or without. Provisions shall be made, through valve and piping arrangements, so that air may be fed into the lock from the low pressure air supply or the working chamber.

(5) Two indicating air pressure gauges shall be installed on the free air side of the lock, 1 indicating the air pressure within the lock and the other indicating the air pressure in the working chamber. A third indicating air pressure gauge shall be installed within the lock to indicate the differential air pressure between the working chamber and the lock. All air gauges shall be of rugged, sturdy, moisture-proof construction suitable for the intended service. Indicating gauges shall have not less than a 4-inch diameter face capable of being easily read to the nearest ½ pound on the suitable scale range having clear graduations and numbers.

(6) A recording air pressure gauge shall be installed on the free air side of the air lock or such other location which records the air pressures in the working chamber. The gauge shall record clearly the air pressures on a chart that shows the air pressure to the nearest pound per square inch at the nearest 15-minute time interval. The gauge shall be provided with a keyed lock.

History: 1954 ACS 97, p. 38, Eff. Nov. 22, 1978.

R 325.50227 Man locks.

Rule 227. (1) If a man lock is provided, an employee shall not pass through the material lock. The man lock shall be used exclusively by employees.

(2) A man lock shall be of sufficient size to provide not less than 30 cubic feet of space per employee. Seating facilities shall be arranged to provide not less than 22 inches of width per employee. The capacity shall be posted at the entrance to the lock.

(3) The lock attendant shall be given special training and instructions in proper air lock operation. He shall be stationed at the lock controls on the free air side during the period of compression and decompression and shall remain at the lock control station whenever an employee is in the working chamber or in the man lock.

(4) Except where air pressure in the working chamber is below 12 p.s.i.g., a man lock shall be equipped with automatic controls which shall regulate decompression.

(5) A manual control, to override the automatic mechanism which can be used in the event of an emergency, shall be placed on both the inside and outside of all doors.

(6) A clock, thermometer, and 2 indicating air pressure gauges shall be installed on the free air side of each man lock, 1 gauge to indicate air pressure in the lock and the other to indicate air pressure in the working chamber. A continuous recording air pressure gauge shall be installed in a protected location. A recording chart shall be of sufficient size to register a legible record of variations in pressure within the man lock. In addition, a pressure gauge, clock, and thermometer shall *be installed in* each man lock.

(7) A man lock shall have shatterproof viewing ports located in such a position that all occupants of the man lock may be observed from the working chamber and from the free air side of the lock.

(8) If the man lock is not in use and an employee is in the working chamber, the heading door of the man lock shall be kept open to the working chamber where the danger of rapid flooding exists, otherwise the lock doors shall remain closed.

(9) If the regularly established working period requires a total time of decompression which exceeds 75 minutes, the man lock shall include the following:

(a) Adequate toilet facilities with a privacy screen and washing facilities shall be provided.

(b) Clean potable water by either piping water into the chamber and providing drinking fountains, or by providing individual canteens, or by other sanitary means. A community drinking vessel is prohibited.

(c) Refuse or discarded material of any kind shall not be permitted to accumulate, and the chamber shall be kept clean.

History: 1954 ACS 97, p. 38, Eff. Nov. 22, 1978.

R 325.50228 Compression of employees.

Rule 228. (1) An employee going under air pressure for the first time shall be instructed on how to avoid excessive discomfort.

(2) During the compression of an employee, the pressure shall not be increased to more than 3 p.s.i.g. within the first minute. The pressure shall be held at 3 p.s.i.g. and again at 7 p.s.i.g. sufficiently long to determine if an employee is experiencing discomfort.

(3) After the first minute, the pressure shall be raised uniformly and at a rate not to exceed 10 p.s.i.g. per minute.

(4) If an employee complains of discomfort, the pressure shall be held to determine if the symptoms are relieved. If, after 5 minutes the discomfort does not disappear, the lock attendant shall gradually reduce the pressure until the employee signals that the discomfort has ceased. If the employee indicates that the discomfort has disappeared the compression cycle shall be resumed. If he does not indicate that the discomfort has disappeared, the lock attendant shall reduce the pressure to atmospheric and the employee shall be released from the lock.

(5) An employee shall not be subjected to pressure exceeding 50 p.s.i.g. except in an emergency.

History: 1954 ACS 97, p. 39, Eff. Nov. 22, 1978.

R 325.50229 Decompression of employees.

Rule 229. (1) Decompression to atmospheric pressure, except in an emergency, shall be in accordance with the decompression tables listed in R 325.50231.

(2) The required time of decompression shall be posted at all times in each lock used by employees. The time shall be posted in the form as follows:

TIME OF DECOMPRESSION FOR THIS LOCK
FOR _____ HOUR SHIFT AT _____ POUNDS
_____ pounds to _____ pounds in _____ minutes
_____ pounds to _____ pounds in _____ minutes
(Signed by) _____
(Superintendent)
WARNING: Additional decompression time may be required for any shift exceeding _____ hours.

(3) If the operating pressure exceeds 12 p.s.i.g. and it is necessary for an employee to be in compressed air more than once in a 24-hour period, the retained physician is responsible for the establishment of methods and procedures of decompression applicable to repetitive exposures.

(4) The retained physician shall establish decanting procedures prior to the use of compressed air. The period of time that the employees spend at atmospheric pressure between the decompression and recompression shall not exceed 5 minutes.

(5) Forced ventilation shall be provided when necessary to maintain air quality in the lock as specified in R 325.50211.

History: 1954 ACS 97, p. 39, Eff. Nov. 22, 1978.

R 325.50230 Caissons.

Rule 230. (1) If an employee is exposed to a compressed air working environment, the requirements contained in R 325.50216 to R 325.50229 and R 325.50231 apply. In addition, there shall be a qualified employee on duty at the air control valves for each caisson.

(2) If air pressure exceeds 12 p.s.i.g. and there is danger of rapid flooding, a caisson having a working area greater than 150 square feet shall have a man lock for the exclusive use of employees.

(3) A lock on a caisson shall be so located that the bottom door shall be not less than 3 feet above the water level surrounding the caisson on the outside.

History: 1954 ACS 97, p. 39, Eff. Nov. 22, 1978.

R 325.50231 Decompression tables and examples.

Rule 231. (1) The decompression tables set forth in this rule are computed for working chamber pressures from 0 to 14 pounds, and from 14 to 50 p.s.i.g. inclusive by 2-pound increments and for exposure times for each pressure extending from ½ to over 8 hours inclusive. Decompressions shall be conducted in 2 or more stages with a maximum of 4 stages, the latter for a working chamber pressure of 40 p.s.i.g. or over.

(2) Stage 1 consists of a reduction in ambient pressure ranging from 10 to a maximum of 16 p.s.i.g., but in no instance shall the pressure be reduced below 4 pounds at the end of stage 1. This reduction in pressure in stage 1 will always take place at a rate not greater than 5 pounds per minute.

(3) Further reduction in pressure shall take place during stage 2 and subsequent stages as required at a slower rate, but in no event at a rate greater than 1 pound per minute.

(4) Decompression table no. 1 indicates in the body of the table the total decompression time in minutes for various combinations of working chamber pressure and exposure time.

(5) Decompression table no. 2 indicates for the same various combinations of working chamber pressure and exposure time the following:

(a) The number of stages required.

(b) The reduction in pressure and the terminal pressure for each required stage.

(c) The time in minutes through which the reduction in pressure is accomplished for each required stage.

(d) The pressure reduction rate in minutes per pound for each required stage.

(6) The pressure reduction in each stage is accomplished at a uniform rate. Do not interpolate between values shown on the tables. Use the next higher value of working chamber pressure or exposure time should the actual working chamber

pressure or the actual exposure time, respectively, fall between those for which calculated values are shown in the body of the tables.

(7) The following are computation examples:

(a) Example No. 1:
4 hours working period at 20 pounds gage.
Decompression table no. 1:
20 pounds for 4 hours, total decompression time..... 43 minutes.
Decompression table no. 2:
Stage 1: Reduce pressure from 20 pounds to 4 pounds at the uniform rate of 5 pounds per minute.
Elapsed time stage 1: 1⅘ ..... 3 minutes.
Stage 2 (final stage): Reduce pressure at a uniform rate from 4 pounds to 0-pound gage over a period of 40 minutes.
Rate—0.10 pound per minute or 10 minutes per pound.
Stage 2 (final) elapsed time..... 40 minutes.
Total time..... 43 minutes.

(b) Example No. 2:
5-hour working period a: 24 pounds gage.
Decompression table no. 1:
24 pounds for 5 hours, total decompression time..... 117 minutes.
Decompression table no. 2:
Stage 1: Reduce pressure from 24 pounds to 8 pounds at the uniform rate of 5 pounds per minute.
Elapsed time stage 1: 1⅘ ..... 3 minutes.
Stage 2: Reduce pressure at a uniform rate from 8 pounds to 4 pounds over a period of 4 minutes.
Rate, 1 pound per minute elapsed time, stage 2.... 4 minutes.
Transfer men to special decompression chamber maintaining the 4-pound pressure during the transfer operation.
Stage 3 (final stage): In the special decompression chamber, reduce the pressure at a uniform rate from 4 pounds to 0-pound gage over a period of 110 minutes. Rate, 0.037 pound per minute or 27.5 minutes per pound. Stage 3 (final) elapsed time... 110 minutes.
Total time..... 117 minutes.

(8) Decompression table no. 1 is as follows:

DECOMPRESSION TABLE NO. 1
Total Decompression Time

Work pressure	Working period hours										
p.s.i.g.	½	1	1½	2	3	4	5	6	7	8	Over 8

History: 1954 ACS 97, p. 40, Eff. Nov. 22, 1978.

PART 3. DIVING OPERATIONS

R 325.50301 Applicability.

Rule 301. These rules apply to diving and related support operations. These rules do not apply to any diving operation performed solely for recreational instruction purposes using open-circuit, compressed-air SCUBA and conducted within the no-decompression limits.

History: 1954 ACS 99, p. 69, Eff. June 16, 1979.

R 325.50302 Deviations from rules; emergencies; duty to notify.

Rule 302. An employer may deviate from the requirements of these rules to the extent necessary to prevent or minimize a situation that is likely to cause death, serious physical harm, or major environmental damage, provided that the employer complies with the following:

(a) Notifies the department of labor within 72 hours of the onset of the emergency situation indicating the nature of the emergency and extent of the deviation from these rules.

(b) Upon request from the department of labor or the department of public health, submits such information in writing.

History: 1954 ACS 99, p. 69, Eff. June 16, 1979.

R 325.50303 Duties as employer.

Rule 303. An employer shall be responsible for compliance with the following:

(a) All provisions of these rules of general applicability.

(b) All requirements pertaining to specific diving modes to the extent diving operations are conducted in such modes.

History: 1954 ACS 99, p. 70, Eff. June 16, 1979.

R 325.50304 Definitions; A to C.

Rule 304. As used in these rules:

(a) "Acfm" means actual cubic feet per minute.

(b) "ATA" means atmosphere absolute.

(c) "Bell" means an enclosed compartment, a pressurized, closed bell, or an unpressurized, open bell, that allows the diver to be transported to and from the underwater work area and which may be used as a temporary refuge during a diving operation.

(d) "Bottom time" means the total elapsed time, measured in minutes, from the time when a diver leaves the surface in descent to the time that the diver begins ascent.

(e) "Bursting pressure" means the pressure at which a pressurized device would fail structurally.

(f) "Cylinder" means a pressure vessel for the storage of gases.

History: 1954 ACS 99, p. 70, Eff. June 16, 1979.

R 325.50305 Definitions; D.

Rule 305. As used in these rules:

(a) "Decompression chamber" means a pressure vessel for human occupancy such as a surface decompression chamber, pressurized bell, or deep diving system used to decompress a diver and to treat decompression sickness.

(b) "Decompression sickness" means a condition with a variety of symptoms that may result from gas or bubbles in the tissues of a diver after pressure reduction.

(c) "Decompression table" means a profile or set of profiles of depth-time relationships for ascent rates and breathing mixtures to be followed after a specific depth-time exposure or exposures.

(d) "Dive location" means a surface or vessel from which a diving operation is conducted.

(e) "Dive-location reserve breathing gas" means a volume tank or an independent supply of air or mixed gas at the dive location sufficient under standard operating conditions to allow the diver to reach the surface.

(f) "Dive team" means divers and support employees involved in a diving operation, including the designated person in charge.

(g) "Diver" means an employee in the water using underwater apparatus that supplies compressed breathing gas at the ambient pressure.

(h) "Diver-carried reserve breathing gas" means a diver-carried supply of air or mixed gas sufficient under standard operating conditions to allow the diver to reach the surface, a bell, or to be rescued by a standby diver.

(i) "Diving mode" means a type of diving requiring specific equipment, procedures, and techniques, such as SCUBA, surface-supplied air, or mixed gas.

History: 1954 ACS 99, p. 70, Eff. June 16, 1979.

R 325.50306 Definitions; F to M.

Rule 306. As used in these rules:

(a) "Fsw" means feet of seawater or equivalent static pressure head.

(b) "Heavy gear" means diver-worn deep-sea dress, including helmet, breastplate, dry suit, and weighted shoes.

(c) "Hyperbaric conditions" means pressure conditions in excess of surface pressure.

(d) "Inwater stage" means a suspended underwater platform that supports a diver in the water.

(e) "Liveboating" means the practice of supporting a surface-supplied air or mixed gas diver from a vessel that is underway.

(f) "Mixed gas diving" means a diving mode in which a diver is supplied in the water with a breathing gas other than air.

History: 1954 ACS 99, p. 70, Eff. June 16, 1979.

R 325.50307 Definitions; N to S.

Rule 307. As used in these rules:

(a) "No-decompression limits" means a combination of the depth of a dive and bottom time that permits a diver to return to the surface without decompression, as expressed in the U.S. navy diving manual. The U.S. navy diving manual, volume no. 1, air diving, 1973, as amended to December, 1975, and volume no. 2, mixed gas diving, 1973, as amended through December, 1975, are incorporated herein by reference and may be inspected at the Lansing office of the Michigan department of public health. The manual may be purchased at a cost of $3.25 for each volume by ordering from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, or from the Michigan Department of Public Health, 3500 North Logan, Box 30035, Lansing, Michigan 48909.

(b) "Psig" means pounds per square inch, gauge.

(c) "Qualified employee" means one who, by extensive knowledge, training, and experience, has successfully demonstrated the ability to solve or resolve problems relating to the subject matter, the work, or the project.

(d) "SCUBA diving" means a diving mode independent of surface supply in which a diver uses open circuit, self-contained, underwater breathing apparatus.

(e) "Standby diver" means a diver at the dive location available and in a sufficient state of readiness to assist a diver in the water.

(f) "Surface-supplied air diving" means a diving mode in which the diver in the water is supplied from the dive location with compressed air for breathing.

History: 1954 ACS 99, p. 71, Eff. June 16, 1979.

R 325.50308 Definitions; T to W.

Rule 308. As used in these rules.

(a) "Treatment table" means a depth-time and breathing gas profile used in the treatment of decompression sickness.

(b) "Umbilical" means the composite hose bundle between a dive location and a diver or bell, or between a diver and a bell, which may supply a diver or bell with breathing gas, communications, power, and heat, and may include a safety line.

(c) "Volume tank" means a pressure vessel connected to the outlet of a compressor and used as an air reservoir.

(d) "Working pressure" means the maximum pressure to which a pressure containment device may be exposed under standard operating conditions.

History: 1954 ACS 99, p. 71, Eff. June 16, 1979.

R 325.50309 Dive team; training and experience.

Rule 309. (1) An employer shall assure that a dive team member has the experience and training necessary to perform assigned tasks in a safe and healthful manner. The training and experience shall include the following:

(a) The use of tools, equipment, and systems relevant to assigned tasks.

(b) Techniques of the assigned diving mode.

(c) Diving operations and emergency procedures.

(d) Familiarity with the contents of the safe practices manual required by R 325.50317.

(2) All dive team members shall be trained in cardiopulmonary resuscitation and first aid by American red cross or equivalent organization.

(3) A dive team member who is exposed to or controls the exposure of others to hyperbaric conditions shall be trained in diving-related physics and physiology.

History: 1954 ACS 99, p. 71, Eff. June 16, 1979.

R 325.50310 Dive team; supervisor designation; assignments; hyperbaric exposure.

Rule 310. (1) An employer or an employee designated by the employer shall be at the dive location in charge of all aspects of the diving operations affecting the health of a dive team member.

(2) The designated person in charge shall have experience and training in the conduct of the assigned diving operation.

(3) Each dive team member shall be assigned tasks in accordance with the employee's experience or training, except that limited additional tasks may be assigned to an employee undergoing training if these tasks are performed under the direct supervision of an experienced dive team member.

(4) An employer shall not require a dive team member to be exposed to hyperbaric conditions against the employee's will, except when necessary to complete decompression or treatment procedures.

(5) An employer shall not permit a dive team member to dive or be otherwise exposed to hyperbaric conditions for the duration of any temporary physical impairment or condition that is known to the employer and is likely to adversely affect the health of a dive team member.

History: 1954 ACS 99, p. 71, Eff. June 16, 1979.

R 325.50311 Medical examinations; duty to determine fitness; availability of reports; performance of examination.

Rule 311. (1) An employer shall determine by medical examination whether a dive team member who is, or is likely to be, exposed to hyperbaric conditions is medically fit to perform an assigned task in a safe and healthful manner.

(2) An employer shall make available to each dive team member who is, or is likely to be, exposed to hyperbaric conditions, all medical examinations required by these rules at the employer's cost, except as provided in R 325.50316(2).

(3) All medical examinations required by these rules shall be performed by, or under the direction of a physician.

History: 1954 ACS 99, p. 72, Eff. June 16, 1979.

R 325.50312 Medical examinations; frequency; following injury or illness.

Rule 312. A medical examination shall be provided as follows:

(a) Prior to initial hyperbaric exposure with an employer, unless an equivalent medical examination has been given within the preceding 12 months and the employer has obtained the results of the examination and has obtained an opinion from the examining physician of an employee's medical fitness to dive or to be otherwise exposed to hyperbaric conditions.

(b) At 1-year intervals from the date of initial examination or last equivalent examination.

(c) After an injury or illness requiring hospitalization of more than 24 hours.

History: 1954 ACS 99, p. 72, Eff. June 16, 1979.

R 325.50313 Medical examinations; information provided to examining physician.

Rule 313. An employer shall provide the following information to the examining physician:

(a) A copy of R 325.50311 to R 325.50316, including table 1, and the guide to the determination of hyperbaric fitness, which may be obtained from the Michigan Department of Public Health, 3500 North Logan, Box 30035, Lansing, Michigan 48909.

(b) A summary of the nature and extent of hyperbaric conditions to which the dive team member will be exposed, including diving modes and types of work to be assigned.

History: 1954 ACS 99, p. 72, Eff. June 16, 1979.

R 325.50314 Medical examinations; contents; following injury or illness.

Rule 314. (1) Medical examinations conducted initially and annually shall consist of the following:

(a) Medical history.

(b) Diving-related work history.

(c) Basic physical examination.

(d) The tests required by table 1.

(e) Any additional tests the physician considers necessary.

(2) Medical examinations conducted after an injury or illness requiring hospitalization of more than 24 hours shall be appropriate to the nature and extent of the injury or illness as determined by the examining physician.

TABLE 1

Tests for Diving Medical Examination

Tests	Initial Examination	Annual Reexamination
Chest x-ray	X	X
Visual acuity	X	X
Color blindness	X	
EKG: standard 12L	X	X*
Hearing test	X	X
Hematocrit or hemoglobin	X	X
Sickle cell index	X	
White blood count	X	X
Urinalysis	X	X

*To be given to the employee annually, at age 35 and over.

History: 1954 ACS 99, p. 72, Eff. June 16, 1979.

R 325.50315 Medical examinations; physician's report; employee copy.

Rule 315. (1) After any medical examination required by the rules in this part, an employer shall obtain a written report prepared by the examining physician that includes the following:

(a) The results of the medical examination.

(b) The examining physician's opinion of the employee's fitness to be exposed to hyperbaric conditions, including any recommended restrictions or limitations to such exposure.

(2) The employer shall provide an employee with a copy of the physician's written report.

History: 1954 ACS 99, p. 73, Eff. June 16, 1979.

R 325.50316 Medical examinations; determination of employee fitness; restrictions; second opinion; third opinion; assignment pending determination.

Rule 316. (1) An employer shall determine the extent and nature of a dive team member's fitness to engage in diving or to be otherwise exposed to hyperbaric conditions consistent with the recommendations in the examining physician's report.

(2) If the examining physician has recommended a restriction or limitation on the dive team member's exposure to hyperbaric conditions, and the affected employee does not concur, a second physician may be retained to render a medical opinion on the nature and extent of the restriction or limitation, if any. The second physician shall be provided the information required by R 325.50313.

(3) If the recommendation of the second opinion differs from that of the first examining physician, and if the employer and employee are unable to agree on the nature and extent of the restriction or limitation, an opinion from a third physician selected by the first 2 physicians shall be obtained at the employer's cost. The employer's determination of the dive team member's fitness shall be consistent with the medical opinion of the third physician, unless the employer and employee reach an agreement that is otherwise consistent with the recommendation or opinion of not less than 2 of the physicians involved.

(4) Nothing in this procedure shall be construed to prohibit either a dive team member from accepting, or an employer from offering, an assignment that is otherwise consistent with at least 1 medical opinion while a final determination on the employee's fitness is pending.

History: 1954 ACS 99, p. 73, Eff. June 16, 1979.

R 325.50317 Safe practices manual; availability; contents.

Rule 317. (1) An employer shall develop and maintain a safe practices manual that shall be made available to each dive team member at the dive location.

(2) The safe practices manual shall contain a copy of these rules, the employer's policies for implementing their requirements, and the following:

(a) Operating procedures and checklists for diving operations.

(b) Assignments and responsibilities of the dive team members.

(c) Equipment procedures and checklists.

(d) Emergency procedures for fire, equipment failure, adverse environmental conditions, and medical illness and injury.

History: 1954 ACS 99, p. 73, Eff. June 16, 1979.

R 325.50318 Pre-dive procedures; emergency aid.

Rule 318. A list shall be kept at the dive location including a telephone or call number for each of the following:

(a) An operational decompression chamber, if not at the dive location.

(b) Accessible hospitals.

(c) Available physicians.

(d) Available means of transportation.

(e) The nearest U.S. coast guard rescue coordination center.

History: 1954 ACS 99, p. 74, Eff. June 16, 1979.

R 325.50319 Pre-dive procedures; required first aid kit; first aid handbook; oxygen inhalation unit.

Rule 319. (1) A first aid kit, appropriate for the diving operation and approved by a physician, shall be available at the dive location.

(2) When used in a decompression chamber or bell, the first aid kit shall be suitable for use under hyperbaric conditions.

(3) In addition to other first aid supplies, an American red cross standard first aid handbook or equivalent, and an oxygen inhalation unit shall be available at the dive location.

History: 1954 ACS 99, p. 74, Eff. June 16, 1979.

R 325.50320 Pre-dive procedures; health planning and assessment.

Rule 320. (1) Planning of a diving operation shall include an assessment of the safety and health aspects of the following:

(a) Diving mode.

(b) Surface and underwater conditions and hazards.

(c) Breathing gas supply, including reserves.

(d) Thermal protection.

(e) Diving equipment and systems.

(f) Dive team assignments and physical fitness of dive team members, including any impairment known to the employer.

(g) Repetitive dive designation or residual inert gas status of dive team members.

(h) Decompression and treatment procedures, including altitude corrections.

(i) Decompression tables.

(j) Emergency procedures.

(2) Decompression tables, repetitive tables, and no-decompression tables, as appropriate, shall be at the dive location.

History: 1954 ACS 99, p. 74, Eff. June 16, 1979.

R 325.50321 Pre-dive procedures; coordination with other activities.

Rule 321. To minimize hazards to the dive team, a diving operation shall be coordinated with other activities in the vicinity that are likely to interfere with the diving operation.

History: 1954 ACS 99, p. 74, Eff. June 16, 1979.

R 325.50322 Pre-dive procedures; employee briefing; physical fitness inquiry.

Rule 322. (1) A dive team member shall be briefed on all of the following:

(a) The tasks to be undertaken.

(b) Operating procedures for the diving mode.

(c) Any unusual hazards or environmental conditions likely to affect the safety of the diving operation.

(d) Any modifications of operating procedures necessitated by the specific diving operation.

(2) Prior to making individual dive team member assignments, an employer shall inquire into a dive team member's current state of physical fitness, and indicate to the dive team member the procedure for reporting physical problems or adverse physiological effects during and after the dive.

History: 1954 ACS 99, p. 74, Eff. June 16, 1979.

R 325.50323 Pre-dive procedures; communication system.

Rule 323. An operational 2-way voice communication system shall be provided as follows:

(a) At the dive location to obtain emergency assistance.

(b) Between each surface-supplied air or mixed-gas diver and a dive team member at the dive location and bell.

(c) Between the bell and the dive location.

History: 1954 ACS 99, p. 74, Eff. June 16, 1979.

R 325.50324 Pre-dive procedures; equipment inspection.

Rule 324. The breathing gas supply system, including reserve breathing gas supplies, masks, helmets, and gauges, and timekeeping devices, thermal protection, and bell handling mechanism, when appropriate, shall be inspected prior to each dive.

History: 1954 ACS 99, p. 75, Eff. June 16, 1979.

R 325.50325 Diving procedures; dive profiles.

Rule 325. A depth-time profile, including, when appropriate, any breathing gas changes shall be maintained at the dive location for each diver during the dive, including decompression.

History: 1954 ACS 99, p. 75, Eff. June 16, 1979.

R 325.50326 Termination of dive.

Rule 326. The working interval of a dive shall be terminated when any of the following occurs:

(a) A diver requests termination.

(b) A diver fails to respond correctly to communications or signals from a dive team member.

(c) Communications are lost and cannot be quickly reestablished between the diver and a dive team member at the dive location, and between the designated person in charge and the person controlling the vessel in a liveboating operation.

(d) A diver begins to use diver-carried reserve breathing gas or the dive location reserve breathing gas.

(e) When a scheduled work interval has expired.

History: 1954 ACS 99, p. 75, Eff. June 16, 1979.

R 325.50327 Post-dive procedures generally.

Rule 327. An employer shall comply with the following requirements, which are applicable after each diving operation:

(a) Check the physical condition of the diver.

(b) Instruct the diver to report any physical problems or adverse physiological effects including symptoms of decompression sickness.

(c) Advise the diver of the location of a decompression chamber that is ready for use.

(d) Alert the diver to the potential hazards of flying after diving.

(e) Instruct the diver to remain awake and in the vicinity of the dive location for not less than 1 hour after a dive that requires a decompression chamber.

History: 1954 ACS 99, p. 75, Eff. June 16, 1979.

R 325.50328 Post-dive procedures; recording and maintaining information.

Rule 328. (1) The following information shall be recorded and maintained for each diving operation:

(a) Names of dive team members, including designated person in charge.

(b) Date, time, and location.

(c) Diving modes used.

(d) General nature of work performed.

(e) Approximate underwater and surface conditions, such as visibility, water temperature, wind velocity, and current.

(f) Maximum depth and bottom time for each diver.

(2) For each dive for which a decompression chamber is required, the following additional information shall be recorded and maintained:

(a) Depth-time and breathing gas profiles.

(b) Decompression table designation, including any modification.

Digitized by Google

(c) Elapsed time since last pressure exposure, if less than 24 hours, or repetitive dive designation for each diver.

(3) For each dive in which decompression sickness is suspected or symptoms are evident, the following additional information shall be recorded and maintained:

(a) Description of decompression sickness symptoms, including depth and time of onset.

(b) Description and results of treatment.

History: 1954 ACS 99, p. 75, Eff. June 16, 1979.

R 325.50329 Post-dive procedures; decompression procedure assessment; corrective action; written evaluation.

Rule 329. (1) An employer shall investigate and evaluate each incident of decompression sickness based on the recorded information, consideration of the past performance of decompression table used, and individual susceptibility.

(2) Appropriate corrective action shall be taken by an employer to reduce the probability of recurrence of decompression sickness.

(3) A written evaluation of the decompression procedure assessment, including any corrective action taken, shall be prepared by the employer within 45 days of the incident of decompression sickness.

History: 1954 ACS 99, p. 75, Eff. June 16, 1979.

R 325.50330 SCUBA diving; restrictions.

Rule 330. SCUBA diving shall not be conducted:

(a) At depths greater than 130 fsw.

(b) At depths greater than 100 fsw or outside the no-decompression limits, unless a decompression chamber is ready for use.

(c) Against currents exceeding 1 knot, unless line-tended.

(d) In enclosed or physically confining spaces, unless line-tended.

History: 1954 ACS 99, p. 76, Eff. June 16, 1979.

R 325.50331 SCUBA diving; procedures.

Rule 331. (1) A diver shall be line-tended from the surface, or accompanied by another diver in the water in continuous visual or physical contact during the diving operation.

(2) A standby diver shall be available while a line-tended diver is in the water. The standby diver shall be dressed to enter the water except for fins, mask, and breathing apparatus, which shall be readily available.

(3) A diver shall be stationed at the underwater point of entry when line-tended diving is conducted in enclosed or physically confining spaces.

(4) Each diver shall be equipped with the following functioning equipment:

(a) A low-air supply warning device, or

(b) An independent reserve cylinder with a separate regulator or connected to the underwater breathing apparatus.

History: 1954 ACS 99, p. 76, Eff. June 16, 1979.

R 325.50332 Surface-supplied air diving generally.

Rule 332. (1) Surface-supplied air diving shall not be conducted at depths deeper than 190 fsw, except that dives with bottom times of 30 minutes or less may be conducted to depths of 220 fsw.

(2) A decompression chamber shall be ready for use at the dive location for any dive outside the no-decompression limits or deeper than 100 fsw.

(3) A bell shall be used for dives with an inwater decompression time greater than 120 minutes, except when heavy gear is worn or diving is conducted in physically confining spaces.

History: 1954 ACS 99, p. 76, Eff. June 16, 1979.

R 325.50333 Surface-supplied air diving; procedures.

Rule 333. (1) Each diver shall be continuously tended while in the water.

(2) A diver shall be stationed at the underwater point of entry when diving is conducted in enclosed or physically confining spaces.

(3) Each diving operation shall have a primary breathing gas supply sufficient to support divers for the duration of the planned dive, including decompression.

(4) For dives deeper than 100 fsw or outside the no-decompression limits, the following procedures shall apply:

(a) A separate dive team member shall tend each diver in the water.

(b) A standby diver shall be available while a diver is in the water. A standby surface-supplied diver shall be dressed to enter the water except for helmet or mask and weights, which shall be readily available. A standby SCUBA diver shall be dressed in accordance with R 325.50331(2).

(c) A diver-carried reserve breathing gas supply shall be provided for each diver except when heavy gear is worn.

(d) A dive-location on-line reserve breathing gas supply shall be provided.

(5) For heavy-gear diving deeper than 100 fsw or outside the no-decompression limits, the following procedures shall apply:

(a) An extra breathing gas hose capable of supplying breathing gas to the diver in the water shall be available to the standby diver.

(b) An inwater stage shall be provided to a diver in the water.

(6) Except when heavy gear is worn or where physical space does not permit, a diver-carried reserve breathing gas supply shall be provided whenever a diver is prevented by the configuration of the dive area from ascending directly to the surface.

History: 1954 ACS 99, p. 76, Eff. June 16, 1979.

R 325.50334 Mixed-gas diving generally.

Rule 334. Mixed-gas diving shall be conducted only when the following occur:

(a) A decompression chamber when required by R 325.50341(1)(c) is ready for use at the dive location.

(b) A bell is used at depths greater than 220 fsw or when the dive involves inwater decompression time of greater than 120 minutes, except when heavy gear is worn or when diving in physically confining spaces.

(c) A pressurized bell is used at depths greater than 300 fsw, except when diving is conducted in physically confining spaces.

History: 1954 ACS 99, p. 77, Eff. June 16, 1979.

R 325.50335 Mixed-gas diving; procedures; required equipment.

Rule 335. (1) A separate dive team member shall tend each diver in the water.

(2) A standby diver shall be available while a diver is in the water.

(3) A diver shall be stationed at the underwater point of entry when diving is conducted in an enclosed or physically confining space.

(4) Each diving operation shall have a primary breathing gas supply sufficient to support divers for the duration of the planned dive including decompression.

(5) Each diving operation shall have a dive-location on-line reserve breathing gas supply.

(6) When heavy gear is worn the following shall be provided:

(a) An extra breathing gas hose capable of supplying breathing gas to a diver in the water shall be available to the standby diver.

(b) An inwater stage shall be provided to a diver in the water.

(7) An inwater stage shall be provided for a diver without access to a bell for a dive deeper than 100 fsw or outside the no-decompression limits.

(8) When a pressurized bell is used, 1 dive team member in the bell shall be available and tend the diver who is in the water.

(9) Except when heavy gear is worn or where physical space does not permit, a diver-carried reserve breathing gas supply shall be provided for each diver who engages in the following:

(a) Diving deeper than 100 fsw or outside the no-decompression limits.

(b) Prevented by the configuration of the dive area from directly ascending to the surface.

History: 1954 ACS 99, p. 77, Eff. June 16, 1979.

R 325.50336 Liveboating; prohibitions.

Rule 336. A diving operation involving liveboating shall not be conducted during any of the following conditions:

(a) With an inwater decompression time of greater than 120 minutes.

(b) Using surface-supplied air at depths deeper than 190 fsw, except that a dive with bottom time of 30 minutes or less may be conducted to depths of 220 fsw.

(c) Using mixed gas at depths greater than 220 fsw.

(d) In rough seas with a wave height of more than 3 feet.

(e) In other than daylight hours.

History: 1954 ACS 99, p. 77, Eff. June 16, 1979.

R 325.50337 Liveboating; procedures.

Rule 337. (1) The propeller of the vessel shall be stopped before a diver enters or exits the water.

(2) A device shall be used that minimizes the possibility of entanglement of a diver's hose in the propeller of the vessel.

(3) Two-way voice communication between the designated person in charge and the person controlling the vessel shall be used while a diver is in the water.

(4) A standby diver shall be available while a diver is in the water. The standby diver shall be dressed in accordance with R 325.50333(4)(b).

(5) A diver-carried reserve breathing gas supply shall be carried by each diver engaged in a liveboating operation.

History: 1954 ACS 99, p. 77, Eff. June 16, 1979.

R 325.50338 Equipment; record of service.

Rule 338. Equipment modification, repair, test, calibration, or maintenance service shall be recorded by means of a tagging or logging system, and include the date and nature of work performed, and the name or initials of the person performing the work.

History: 1954 ACS 99, p. 77, Eff. June 16, 1979.

R 325.50339 Equipment; air compressor system; required equipment; location; supplied air; testing output; valves.

Rule 339. (1) A compressor used to supply air to a diver shall be equipped with a volume tank with a check valve on the inlet side, a pressure gauge, a relief valve, and a drain valve.

(2) An air compressor intake shall be located away from an area containing exhaust or other contaminants.

(3) Respirable air supplied to a diver shall not contain the following:

(a) A level of carbon monoxide (CO) greater than 20 ppm.

(b) A level of carbon dioxide (CO_2) greater than 1,000 ppm.

(c) A level of oil mist greater than 5 milligrams per cubic meter.

(d) A noxious or pronounced odor.

(4) The output of an air compressor system shall be tested for air purity every 6 months by means of samples taken at the connection to the distribution system, except that non-oil lubricated compressors need not be tested for oil mist.

(5) Slow-opening on-off valves shall be used when the system operating pressure exceeds 500 psig.

History: 1954 ACS 99, p. 78, Eff. June 16, 1979.

R 325.50340 Equipment; buoyancy control; exhaust valve; buoyancy compensator; flotation device.

Rule 340. (1) A helmet or mask connected directly to the dry suit or other buoyancy-changing equipment shall be equipped with an exhaust valve.

(2) A dry suit or other buoyancy-changing equipment not directly connected to the helmet or mask shall be equipped with an exhaust valve.

(3) When used for SCUBA diving, a buoyancy compensator shall have an inflation source separate from the breathing gas supply.

(4) Except when the diver is wearing a variable volume suit, an inflatable flotation device capable of maintaining the diver at the surface in a face-up position, having a manually activated inflation source independent of the breathing supply, an oral inflation device, and an over-pressure relief device or exhaust valve shall be used for SCUBA diving.

History: 1954 ACS 99, p. 78, Eff. June 16, 1979.

R 325.50341 Decompression chambers; availability and location.

Rule 341. (1) A decompression chamber capable of recompressing a diver at the surface to a minimum of 165 fsw (6 ATA) shall be available to the dive location when any of the following occur:

(a) Surface-supplied air dives are conducted between 100 fsw and 220 fsw and require less than 30 minutes in-water decompression time, except that inspection or research dives within no-decompression limits may be conducted to 130 fsw.

(b) Surface-supplied air dives between 100 fsw and 220 fsw require an in-water decompression time of 30 minutes or greater.

(c) Mixed gas dives are conducted beyond 130 fsw.

(2) A decompression chamber capable of recompressing a diver at the surface to the maximum depth of the dive shall be available to the dive location for dives greater than 220 fsw.

(3) A decompression chamber shall be located within 15 minutes surface travel time from the dive location for dives described in subrule (1)(a) and within 5 minutes surface travel time from the dive location for all other dives.

History: 1954 ACS 99, p. 78, Eff. June 16, 1979.

R 325.50342 Decompression chambers; operation; qualified employee; required equipment; inspection.

Rule 342. (1) A qualified employee shall be available to operate the decompression chamber for not less than 1 hour after a dive for which a decompression chamber is required. The qualified employee may be a dive team member or another employee qualified to operate the decompression chamber.

(2) The decompression chamber operator shall have available at the chamber location necessary treatment tables, treatment gas appropriate to the diving *mode,* and sufficient gas to conduct treatment.

(3) A muffler on each decompression intake and exhaust line and the suction guard on the exhaust line shall be regularly inspected and maintained.

(4) A 2-way voice communication system shall be provided between the occupants of other separately pressurized compartments and a dive team member at the chamber location.

(5) A decompression chamber shall be maintained and operated to minimize sources of ignition and combustible materials in each compartment.

History: 1954 ACS 99, p. 78, Eff. June 16, 1979.

R 325.50343 Decompression chambers; construction requirements.

Rule 343. (1) A decompression chamber manufactured after October 20, 1977, shall be built, stamped, and maintained in accordance with ASME code, section VIII, 1974, and the addenda thereto through December 31, 1976, and the PVHO-1, 1977 edition, which are incorporated herein by reference and may be inspected at the Lansing office of the Michigan department of public health. Section VIII of the ASME code may be purchased at a cost of $100.00 and the PVHO-1 may be purchased at a cost of $10.00 by ordering from the American Society of Mechanical Engineers, United Engineering Center, 345 East Forty-Seventh Street, New York, New York 10017, or from the Michigan Department of Public Health, 3500 North Logan, Box 30035, Lansing, Michigan 48909.

(2) A decompression chamber manufactured prior to October 20, 1977, shall be maintained in conformity with the code requirements to which it was built, or their equivalent.

(3) A decompression chamber shall be of dual lock construction and shall be large enough to accommodate a diver and a person or persons to render treatment.

(4) A decompression chamber shall be equipped with all of the following:

(a) An interior and exterior pressure gauge for each compartment designed for human occupancy.

(b) A built-in breathing system with a minimum of 1 mask per occupant.

(c) A means to maintain the oxygen level in the chamber atmosphere below 25% by volume.

(d) A viewport that allows all bunks to be seen from the exterior for their entire length.

(e) Illumination sufficient to light the interior to allow viewing of the occupants, the reading of gauges by an occupant, and operation of installed systems within each compartment.

(f) A sound-powered telephone system or other emergency backup communications system.

(g) A means of operating all installed man-way locking devices from both sides of a closed hatch.

(h) A capability to supply breathing mixtures at the maximum rate required by all occupants sufficient to maintain the interior atmosphere below 2% surface equivalent carbon dioxide by volume.

(i) A means of overriding and controlling from the exterior all interior breathing and pressure supply controls.

(5) Electrical equipment installed inside the chamber shall be explosion-proof.

History: 1954 ACS 99, p. 79, Eff. June 16, 1979.

R 325.50344 Equipment; gauges and timekeeping devices.

Rule 344. (1) Gauges indicating diver depth that can be read at the dive location shall be used for all surface-supplied dives.

(2) Each depth gauge shall be dead-weight tested or calibrated against a master reference gauge initially and every 6 months thereafter, and when there is a

discrepancy greater than plus or minus 2% of full scale between any 2 equivalent gauges.

(3) A timekeeping device shall be available and monitored at each surface-supplied dive location.

(4) A cylinder pressure gauge capable of being monitored by the diver during the dive shall be worn by each SCUBA diver.

(5) A timekeeping device shall be worn by each SCUBA diver in a position to be monitored by the diver.

History: 1954 ACS 99, p. 79, Eff. June 16, 1979.

R 325.50345 Equipment; masks and helmets.

Rule 345. (1) Surface-supplied air and mixed-gas masks and helmets shall have the following:

(a) A non-return valve at the attachment point between helmet or mask and hose that shall close readily and positively.

(b) An exhaust valve.

(2) Surface-supplied air masks and helmets shall have a minimum ventilation rate capability of 4.5 acfm at any depth at which they are operated or the capability of maintaining the diver's inspired carbon dioxide partial pressure below 0.02 ATA when the diver is producing carbon dioxide at the rate of 1.6 standard liters per minute.

History: 1954 ACS 99, p. 79, Eff. June 16, 1979.

R 325.50346 Equipment; oxygen service; cleaning; shutoff valves.

Rule 346. (1) Equipment used with oxygen or mixtures containing over 40% by volume oxygen shall be designed for oxygen service.

(2) Components, except umbilicals, exposed to oxygen or mixtures containing 40% by volume shall be cleaned of flammable materials before use.

(3) Oxygen systems over 125 psig and compressed-air systems over 500 psig shall have slow-opening shutoff valves.

History: 1954 ACS 99, p. 80, Eff. June 16, 1979.

R 325.50347 Occupational injuries; recording and reporting.

Rule 347. (1) An employer shall record and report occupational injuries and illnesses in accordance with requirements of Part 11. Recording and Reporting of Occupational Injuries and Illnesses, being R 408.22101 et seq. of the Michigan Administrative Code, administered and enforced by the Michigan department of labor.

(2) In addition, an employer shall record the occurrence of any diving-related injury or illness that requires any dive team member to be hospitalized for 24 hours or more, specifying the circumstances of the incident and the extent of any injuries or illnesses.

History: 1954 ACS 99, p. 80, Eff. June 16, 1979.

R 325.50348 Recordkeeping; availability of records.

Rule 348. (1) Upon the request of the director of the department of labor or the director of the department of public health, an employer shall make available for inspection and copying any record or document required by these rules.

(2) Upon request by an employee, former employee, or authorized representative, an employer shall make available for inspection and copying any record or document required by these rules that pertains to the individual employee or former employee.

(3) Records and documents required by these rules shall be retained by the *employer for the following* period:

OFFICE OF DIRECTOR

DELAYED REGISTRATION OF BIRTHS

(By authority conferred on the director of public health by section 3 of Act No. 35 of the Public Acts of 1931, as amended, and section 9 of Act No. 380 of the Public Acts of 1965, being §§326.33 and 16.109 of the Michigan Compiled Laws)

R 326.1 Right to file delayed registrations of births.

Rule 1. A living person born in Michigan whose birth is not recorded, or his parent, guardian or legal representative, or an older person having knowledge of the facts of his birth, may file a delayed registration of birth subject to these rules.

History: 1954 ACS 63, p. 16, Eff. Aug. 14, 1970.

R 326.2 Facts for delayed registrations.

Rule 2. The minimum facts to be established for a delayed registration of birth shall be:
(a) The full name of the person at the time of birth.
(b) The date and place of his birth.
(c) His mother's full maiden name and her birthplace.
(d) His father's full name and his birthplace, except that, if his mother was not married to his father at the time of his birth or during the 10 months preceding his birth, the name of his father shall not be entered on the delayed registration, except upon acknowledgment of paternity or court determination.

History: 1954 ACS 63, p. 16, Eff. Aug. 14, 1970.

R 326.3 Documents for delayed registrations.

Rule 3. (1) A delayed registration of birth shall be on a form prescribed by the state director of public health. The date and place of birth shall be supported by 3 documents from different sources, except that only 2 documents are required if 1 of the documents existed before the fifth birthday of the registrant, or is a certification from the physician attending the birth made from his official records, or is a transcript of the hospital records. Only 1 affidavit of personal knowledge may be used as a document.

(2) Facts of parentage may be supported by only 1 document which may be 1 of the documents described in subrule (1) other than an affidavit of personal knowledge.

(3) A document, other than an affidavit of personal knowledge, shall be at least 5 years old or have existed before the fifth birthday of the registrant. Documents shall be originals or certified or true copies thereof.

(4) A delayed registration of birth shall be signed and sworn to before an official authorized to administer oaths by the person whose birth is to be registered if the person is 16 years of age or older and is competent to sign and

swear to the accuracy of the facts stated therein. If the person is not 16 years of age or older or is not competent to sign and swear to the accuracy of the facts stated therein, the registration shall be signed and sworn to by 1 of the parents, guardian, legal representative, or older person having knowledge of the facts of birth.

History: 1954 ACS 63, p. 16, Eff. Aug. 14, 1970.

R 326.4 Abstracts of documents.

Rule 4. The state director of public health or his designated representative shall abstract on the delayed birth registration: a description of each document submitted in support of the delayed birth registration; the name and address of the affiant of personal knowledge, or of the custodian of an original document or a certified copy thereof; the date of the original document; and the information as to the date of birth, place of birth, and parentage as shown on the document.

History: 1954 ACS 63, p. 17, Eff. Aug. 14, 1970.

R 326.5 Copies to county clerks.

Rule 5. A copy of a delayed registration of birth filed with the state department of public health shall be sent to the county clerk of the county of birth to be filed with the birth records of the county.

History: 1954 ACS 63, p. 17, Eff. Aug. 14, 1970.

DISTRICT AND COUNTY HEALTH DEPARTMENTS

(By authority conferred on the director of public health by section 2 of Act No. 306 of the Public Acts of 1927, as amended, being §327.202 of the Michigan Compiled Laws)

PART 1. SERVICES

R 327.1 General provisions.

Rule 1. (1) A district health department and a county health department, hereinafter referred to as a department, shall establish and maintain a program of basic public health services and meet minimum standards of performances as prescribed in these rules.

(2) A biennial program plan shall be filed with the state department of public health, within a format established by it, on or before January 1 of the first year of each biennium.

(3) A department shall participate in the implementation of comprehensive health planning.

(4) Uniform records shall be gathered and examined in a systematic manner and maintained to provide information on the state of health of the community and on budgets and expenditures.

(5) A community health education service shall be in effect using recognized techniques of communication.

(6) Services shall be provided without discrimination on the basis of race, religion, color, sex, national origin or political opinions. A department shall establish a civil rights grievance procedure for receiving, investigating and resolving complaints alleging discrimination. The nondiscrimination policy and the civil rights grievance procedure shall be publicized.

History: 1954 ACS 52, p. 44, Eff. Nov. 15, 1967; 1954 ACS 61, p. 47, Eff. Feb. 16, 1970; 1954 ACS 76, p. 30, Eff. Aug. 30, 1954 ACS 82, p. 19, Eff. Jan 31, 1975.

R 327.2 Personnel standards and physical facilities.

Rule 2. (1) A department shall employ qualified personnel, on the basis of fitness and merit, to provide basic public health services.

(2) Written personnel policies and procedures shall cover all departmental employees. These policies shall provide for selection and hiring procedures, salaries, fringe benefits, conditions of employment and discharge and grievance procedures. They shall be in accordance with federal and state laws and related standards. These policies and procedures shall be applied without discrimination on the basis of race, religion, color, sex, national origin, or political opinion.

(3) Physical facilities of adequate size to accommodate the services described in the plan shall be provided. The plan of organization shall show that facilities are safe, sanitary, attractive, well lighted and heated, and conveniently accessible to the public.

History: 1954 ACS 61, p. 48, Eff. Feb. 16, 1970; 1954 ACS 76, p. 30, Eff. Aug. 30, 1973; 1954 ACS 82, p. 19, Eff. Jan. 31, 1975.

R 327.3 Environmental health services.

Rule 3. (1) A department shall provide environmental health services, including activities related to land, water, food, air, wastes, vectors, shelters, working environment, recreation, and safety. A legal base for these services shall be in effect throughout the jurisdiction of a department.

(2) A department, through the use of qualified personnel, shall be available to serve in an advisory capacity to engineers, architects, local officials, and others, including, but not limited to, services provided in the program areas of land planning, school site selection, school plan review, and mobile home park and campground development.

(3) An establishment requiring a health oriented license or permit shall not operate without the license or permit.

(4) A department shall keep a record which represents actual conditions as observed during the last inspection of any premises to which services are provided.

History: 1954 ACS 76, p. 30, Eff. Aug. 30, 1973.
Editor's note: Former R 327.3, deriving from 1954 ACS 52, p. 44, Eff. Nov. 15, 1967, was rescinded by 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

R 327.4 Maternal and child health services.

Rule 4. A department, in collaboration with other community agencies and health professionals, shall provide effective maternal and child health services responsive to the health needs in its jurisdiction. These shall include, but not be limited to:

(a) Health supervision of children who are well and arrangements for care of sick children of families who cannot obtain private care.

(b) Early identification of high risk maternity patients and direction to health services including public health nursing.

(c) Identification of high risk infants as soon after birth as possible by referral mechanisms and provision of public health nursing service.

(d) Immunizations, according to the state department of public health recommended schedule, for infants and children who cannot obtain it privately.

(e) Family planning service for persons who desire it and who have financial or other access problems.

(f) Vision and hearing screening and follow through to treatment for preschool and school children.

(g) Public health consultation and evaluation by contract for child care facilities and programs according to statewide standards.

(h) Preventive and remedial dental health services.

(i) Identification and evaluation of children with handicapping conditions and referral in order that their health needs be met. Records shall be kept which

permit annual review to assess changing needs and plans for meeting them. Children with handicapping conditions shall be reported according to section 298c of Act No. 269 of the Public Acts of 1955, being §340.298c of the Michigan Compiled Laws, to school authorities for the purpose of planning for these individuals in school.

History: 1954 ACS 76, p. 30, Eff. Aug. 30, 1973.

R 327.5 Tuberculosis control programs.

Rule 5. A department shall develop a tuberculosis control program, including prevention, casefinding, treatment, caseholding, and education to insure that:

(a) Tuberculosis service is available to all patients, regardless of ability to pay and without residency requirements.

(b) Adequate outpatient service is available in tuberculosis clinics, physicians' offices and hospitals; and efforts are made to use selected general hospitals for inpatient care.

(c) Ninety-five percent of newly diagnosed active tuberculosis cases who were or become noninfectious remain noninfectious.

(d) Ninety-five percent of newly diagnosed active tuberculosis cases complete their prescribed uninterrupted chemotherapy.

(e) Seventy-five percent of positive tuberculosis cases achieve sputum conversion by 3 months and 95% by 6 months.

(f) Ninety-five percent of individuals, identified as risk of developing tuberculosis and starting on preventive INH treatment, complete their prescribed drug regimen.

History: 1954 ACS 76, p. 31, Eff. Aug. 30, 1973.
Editor's note: Former R 327.5, deriving from 1954 ACS 52, p. 44, Eff. Nov. 15, 1967, was rescinded by 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

R 327.6 Venereal disease programs.

Rule 6. A department shall develop a venereal disease prevention program, including casefinding, caseholding, education and treatment of known cases and contacts to known cases. The program shall include the following:

(a) A department shall keep a confidential venereal disease register reflecting reported cases and persons suspected of having venereal disease.

(b) A department shall provide instruction in basic venereal disease casefinding techniques to at least 1 department employee.

(c) Ninety-five percent of primary, secondary and early latent (less than 1 year duration) syphilis cases shall be interviewed within 7 days after the case is reported to a department.

(d) At least 80% of male cases with gonorrhea reported by a private physician shall be interviewed within 5 days after receipt of the report. Department clinic cases shall be interviewed immediately.

(e) At least 80% of named resident contacts of cases of early syphilis shall be examined and placed under treatment, if indicated, within 30 days after the case is reported to a department.

(f) At least 80% of named resident contacts of cases of gonorrhea in males shall be examined and placed under treatment, if indicated, within 30 days after the case is reported to a department.

(g) A department shall assure the administration of prophylactic treatment to at least 85% of initially noninfected primary and secondary syphilis contacts, exposed within 60 days. For contacts where this proves impossible, monthly serology examinations shall be performed for 3 months after the date of last exposure.

(h) A department shall make available to the general public, professional organizations and schools, current literature, films, program consultants and speakers on venereal diseases.

History: 1954 ACS 76, p. 31, Eff. Aug. 30, 1973.

R 327.7 Other communicable diseases.

Rule 7. (1) A department shall make a medical epidemiological study of every suspected or reported case of those diseases designated by the state director of public health.

(2) A department shall conduct a communicable disease control program based on the state department of public health rules for the control of communicable diseases, being R 325.1 to R 325.54 of the Michigan Administrative Code. A department may establish additional requirements if they are not less stringent than the state rules.

(3) A department shall conduct immunization clinics and maintain records of immunizations given to all infants and children. Not less than 65% of infants and children beginning immunizations at the clinics should complete the basic immunization series.

(4) Prompt measures, such as special immunization clinics, shall be taken when an outbreak of diphtheria, pertussis, polio, measles or rubella is apparent.

History: 1954 ACS 76, p. 31, Eff. Aug. 30, 1973.

Editor's note: Former R 327.7, deriving from 1954 ACS 52, p. 44, Eff. Nov. 15, 1967, was rescinded by 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

R 327.8 Substance abuse control programs.

Rule 8. (1) A department, in cooperation with other community health agencies and professionals, shall provide for a comprehensive program of substance abuse control, including alcohol and drugs.

(2) Minimal services shall include, but not be limited to, prevention (including education and counseling), early detection, treatment and rehabilitation.

(3) Unless otherwise provided for, a department is responsible for the coordination, proper administration and evaluation of community services in which state substance abuse funds and federal substance abuse funds, administered by the state department of public health, participate.

(4) When designated by the state department of public health, a department shall act as fiscal agent for such state and federal substance abuse funds and sub-contracts may be initiated with appropriate community agencies for purpose of program operation.

History: 1954 ACS 76, p. 32, Eff. Aug. 30, 1973.

Editor's note: Former R 327.8, deriving from 1954 ACS 52, p. 44, Eff. Nov. 15, 1967, was rescinded by 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

R 327.9 Dental programs.

Rule 9. A department shall develop a dental program incorporating elements of prevention, including education, early detection, diagnosis, and treatment using all available local, state, and federal resources, including consultation and funding. It shall:

(a) Assist communities not now fluoridating water to comply with Act No. 346 of the Public Acts of 1968, being §§325.191 and 325.192 of the Michigan Compiled Laws, by providing counseling and consultation.

(b) Promote fluoridation of school water supplies where communal water supply is not available or is not fluoridated.

(c) Provide or promote a summer or school year topical fluoride program for eligible preschool, second, fifth, and eighth grade children and a plaque control

program of brushing and flossing in the schools as a means of reducing dental decay and periodontal disease.

(d) Develop an educational program that provides information, instruction, and motivation leading to good dental health practices, including personal care, proper diet, and oral habits.

(e) Identify and marshal resources at the federal, state, and local level that can be used to develop a program making emergency and remedial care available, accessible, and acceptable for those to whom such services would not be otherwise available, especially children, promoting the concept of increment dental care.

History: 1954 ACS 76, p. 32, Eff. Aug. 30, 1973.

Editor's note: Former R 327.9, deriving from 1954 ACS 52, p. 44, Eff. Nov. 15, 1967, was rescinded by 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

R 327.10 Chronic disease programs.

Rule 10. (1) A department shall provide a chronic disease control program, including basic methods of prevention, early detection, and rehabilitation. A department shall designate an individual to be responsible for planning, developing, and initiating this program.

(2) A department shall develop or assist in the development and promotion of a chronic disease information and referral service.

(3) Home health services shall be available in the jurisdiction on an organized basis (health department, visiting nurses association, combined health department-visiting nurses association, or other) and shall be of sufficient quality to be certified for medicare and medicaid.

(4) A department shall assist physicians, hospitals, and interested consumer groups in developing and initiating programs of early detection of chronic diseases.

(5) Periodically a department shall inform physicians, dentists, hospital superintendents, and clinic directors of the requirement of reporting cancer to the state department of public health on forms provided.

History: 1954 ACS 76, p. 32, Eff. Aug. 30, 1973.

R 327.11—R 327.15 Rescinded.

History: 1954 ACS 52, pp. 44-46, Eff. Nov. 15, 1967; rescinded 1954 ACS 61, p. 47, Eff. Feb. 16, 1970.

PART 2. PERSONNEL CLASSIFICATION AND QUALIFICATIONS

R 327.41 Exemptions and existing personnel.

Rule 41. (1) A seasonal or part-time employee is not covered by these rules.

(2) A person employed before these rules become effective may retain his position classification regardless of education and experience, or professional registration not otherwise required by law.

History: 1954 ACS 55, p. 19, Eff. Aug. 14, 1968.

R 327.45 Maximum age of personnel.

Rule 45. (1) No person shall be a salaried employee of a county or district health department who has reached an age established for compulsory retirement in the department's retirement plan or personnel policies.

(2) No person shall become a salaried employee who has reached age 70.

History: 1954 ACS 55, p. 19, Eff. Aug. 14, 1968.

R 327.47. Health officers; qualifications.

Rule 47. (1) The state director of public health shall approve the appointment of a county or district health officer who has either of the following qualifications:

(a) A physician licensed to practice in Michigan who has a master's degree in public health or public administration from a recognized college or university, and sufficient other training and experience as judged by the state director of public health to qualify for appointment.

(b) A non-physician who has a master's degree in public health administration or public administration from a recognized college or university and sufficient other training and experience as judged by the state director of public health to qualify for appointment.

(2) When the health officer or acting health officer is not a physician, provision shall be made for appropriate public health medical direction which shall be documented and which shall be reviewed periodically by the state director of public health.

(3) The board of health shall appoint an acting health officer to serve for the duration of a health officer vacancy.

History: 1954 ACS 55, p. 19, Eff. Aug. 14, 1968; 1954 ACS 64, p. 26, Eff. Nov. 6, 1970; 1954 ACS 82, p. 19, Eff. Jan. 31, 1975.

R 327.51 Nurses; classification.

Rule 51. A district or county health department shall employ nurses according to the following classifications:

(a) Licensed practical nurse.
(b) Registered nurse.
(c) Public health nurse.
(d) Public health nurse supervisor.
(e) Public health nurse consultant.
(f) Public health nurse director.

History: 1954 ACS 55, p. 19, Eff. Aug. 14, 1968.

R 327.53 Licensed practical nurses; qualifications.

Rule 53. A licensed practical nurse shall meet the following requirements:

(a) Graduation from a school of practical nursing approved by the state board of nursing at the time of graduation.

(b) Licensure to practice as a licensed practical nurse in Michigan.

History: 1954 ACS 55, p. 19, Eff. Aug. 14, 1968.

R 327.55 Registered nurses; qualifications.

Rule 55. A registered nurse shall meet the following requirements:

(a) Graduation from a school of nursing approved by the state board of nursing.

(b) Licensure to practice as a registered nurse in Michigan.

History: 1954 ACS 55, p. 19, Eff. Aug. 14, 1968.

R 327.57 Public health nurses; qualifications.

Rule 57. A public health nurse shall meet the following requirements:

(a) Completion of a baccalaureate degree program accredited by the national professional nursing organization for public health nursing preparation, or post-baccalaureate study which includes content approved by the national professional nursing organization for public health nursing preparation.

(b) Licensure to practice as a registered nurse in Michigan.

History: 1954 ACS 55, p. 19, Eff. Aug. 14, 1968.

R 327.59 Public health nurse supervisors; qualifications.

Rule 59. A public health nurse supervisor shall qualify as a public health nurse, and in addition shall have:

(a) A master's degree from an institution with a program accredited by the national professional nursing organization or the American public health association which includes preparation in a specialized area of nursing practice, and in supervision or administration or both.

(b) Two years of public health nursing experience.

History: 1954 ACS 55, p. 19, Eff. Aug. 14, 1968.

R 327.61 Public health nurse consultants; qualifications.

Rule 61. A public health nurse consultant shall qualify as a public health nurse supervisor, and shall have an additional 2 years of nursing supervisory or teaching experience.

History: 1954 ACS 55, p. 20, Eff. Aug. 14, 1968.

R 327.63 Public health nurse directors; qualifications.

Rule 63. A public health nurse director shall qualify as a public health nurse consultant, and shall have an additional 1 year of experience in either nursing supervision, consultation, administration or any combination thereof.

History: 1954 ACS 55, p. 20, Eff. Aug. 14, 1968.

R 327.65 Environmental health personnel; classification and qualifications.

Rule 65. A staff, supervisory, or administrative environmental health worker shall be classified, and shall meet the requirements, as specified in the following plan. (See following page.)

R 325.67 Environmental health personnel; substitute qualifications.

Rule 67. (1) An environmental health worker with position designation AI may be given credit for 1 year of education for each 5 years of experience.

(2) An environmental health worker with 8 or more years of experience at position designation II or higher may qualify for any position requiring a graduate degree if he meets the professional registration requirements.

History: 1954 ACS 55, p. 22, Eff. Aug. 14, 1968.

R 327.69 Environmental health personnel; modification of qualifications.

Rule 69. (1) If the education or experience requirements of a local civil service system or its equivalent vary from the requirements of the classification plan in R 327.65, the employing agency shall decide which requirements shall prevail.

(2) The classification plan listed in R 327.65 establishes only minimum position designations; higher position designations may be established by the employer.

History: 1954 ACS 55, p. 22, Eff. Aug. 14, 1968.

R 327.71 Public health educators; classification.

Rule 71. A district or county health department shall employ public health educators according to the following classifications:

(a) Associate health educator.

(b) Public health educator.

(c) Public health education director.

History: 1954 ACS 55, p. 22, Eff. Aug. 14, 1968.

DEPARTMENT OF MENTAL HEALTH

DIRECTOR OF MENTAL HEALTH

GENERAL RULES

(By authority conferred on the director of mental health by section 3 of Act No. 271 of the Public Acts of 1945, as amended, sections 4, 42a, 52, and 53 of Act No. 151 of the Public Acts of 1923, as amended, Act No. 197 of the Public Acts of 1952, as amended, and sections 9, 402, and 403 of Act No. 380 of the Public Acts of 1965, being §§330.3, 330.14, 330.52a, 330.62, 330.63, 24.101 et seq., 16.109, 16.502, and 16.503 of the Michigan Compiled Laws)

PART 1. PATIENT MOVEMENT

R 330.1—R 330.17 Superseded.

History: 1944 ACS 11, pp. 62-68; 1944 ACS 17, p. 7; 1954 AC, pp. 2401-2408; superseded by R 330.20—R 330.70.

R 330.20 Admissions and transfers.

Rule 20. (1) Hospital and home and training school districts:

Except as otherwise herein provided, each state hospital and state home and training school shall limit admissions of committed patients to orders issued by the probate courts of those counties, hereinafter listed, which constitute a district for that hospital or home and training school. Acceptance of an application for admission as a voluntary patient shall be limited to a person having a domicile in the designated district of the state hospital or state home and training school. Districts are designated as follows:

(a) Mentally Ill

Thumb Treatment Assistance Center			
Huron	Saginaw	Sanilac	Tuscola
Riverside Center			
Clinton	Gratiot	Ionia	Montcalm
Eaton	Ingham		
Kalamazoo State Hospital			
Allegan	Branch	Kalamazoo	St. Joseph

(c) Epileptic

Commitment orders shall be directed to the hospital for mentally ill which serves the county in which the commitment is issued, as indicated under subrule (1)(a) above.

(2) Waiver of district requirements:

(a) For good and sufficient reasons, patients may be admitted to a hospital other than the one serving the county of domicile when approved by the department of mental health.

(i) In the case of a committed patient, request for such action may be presented by the committing judge or other interested person. If approved, the department will issue to such judge a "waiver of district requirements" order, a copy of which shall be directed to the medical superintendent of the hospital so authorized to accept the patient.

(ii) In case of a voluntary patient, request for such action may be presented by the patient or any interested person. The written permission of the department shall be sufficient authority for a waiver of district requirements.

(b) A patient possessing legal residence in a county outside the district of the probate court which is considering the petition for commitment shall be committed to the hospital serving such court with the following exception: when such patient is within the county wherein commitment proceedings are instituted while on a temporary visit and not intending to remain there, or in the instance when such patient is in a public or private institution for care and treatment and under either circumstance maintains a domicile in a county outside the hospital district concerned. In this event, the committing court or other interested persons shall request of the department of mental health a "waiver of district requirements" and commitment shall be to the hospital serving the county of permanent domicile.

(3) Transfers of patients between hospitals:

(a) Each hospital of the department of mental health shall be designated by type as providing care for 1 or more of the following legal classifications of mental disorder: mentally ill, mentally handicapped, or epileptic.

(b) A patient may be transferred between hospitals of the department, including the Wayne county child development center, the Wayne county general hospital, and the university of Michigan neuropsychiatric institute, for good and sufficient reasons when approved by the department. A transfer may be made before or after admission to the institution to which committed. Approval by the department shall be expressed by an order of transfer, a copy of which shall be directed to the superintendent of each hospital involved. A request for a transfer may be submitted by a hospital superintendent or any interested person.

(c) When a patient is transferred to a veterans' facility within this state, the movement shall be entered statistically as a "transfer out." The patient shall not be discharged from the order of commitment.

(4) Whenever any hospital shall receive an order for admission of a patient designated by the committing court as a nonresident of the state, or when it shall appear from any other information that a patient is not a resident of this state, the

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

medical superintendent shall so inform the department of mental health and furnish all available pertinent facts concerning residence. A similar procedure shall be followed whenever a state-at-large order for admission is received, that is, when a patient is not a resident of any county of the state of Michigan.

(5) Every patient shall be carefully examined by a member of the hospital medical staff immediately upon admission and a full record of such examination shall be made with careful note of bruises, scars, marks and possible fractures and other injuries.

(6) Voluntary patients:

(a) A voluntary patient may be admitted to state hospitals pursuant to statute, but shall be given the same care and treatment and required to follow the same hospital routine as a committed patient.

(i) An adult patient who has been admitted on his own application and who leaves a hospital without permission shall be placed on escape status for not more than 5 days, and may be readmitted during such period without signing a new application for admission. If the patient is not readmitted within 5 days, he shall be discharged and not permitted to reenter voluntarily without signing a new application.

(ii) A minor voluntary patient who has been admitted upon the signed application of a parent or guardian, who leaves the hospital without permission, shall be placed on escape status until the hospital superintendent has secured from the parent or guardian a written notice indicating a desire to withdraw the patient from the hospital, after which the patient shall be discharged. A minor patient shall be permitted to reenter the hospital upon the original application until a discharge has been entered.

(b) A hospital may not accept a voluntary patient residing outside the hospital district without permission of the department of mental health, which will be granted for good and sufficient reasons.

(c) A voluntary patient released from a hospital after improvement or recovery shall be discharged, unless it is planned by the hospital that he will return for further treatment in which case convalescent status may be granted.

(i) An adult voluntary patient shall not be returned to a hospital if he objects. When an adult voluntary patient leaves the hospital without permission, the parent or guardian or next of kin shall be immediately notified. If such a patient, in the opinion of the superintendent, is dangerous to self or others and no relative or guardian is available to assume responsibility for the patient, or the patient is not readily traceable and his whereabouts are unknown, the hospital shall also notify appropriate police authorities. If such a patient is apprehended and is unwilling to return to the hospital, the hospital shall advise the police authorities to petition an appropriate court for a determination as to whether the patient should be committed. If hospitalization seems necessary and desirable pending a commitment proceeding, the hospital shall cooperate with police authorities in rehospitalizing the patient under the authority of a temporary order issued pursuant to the provisions of either sections 9 or 11 of Act No. 151 of the Public Acts of 1923, as amended, being §§330.19 and 330.21 of the Michigan Compiled Laws.

(ii) When a minor voluntary patient leaves the hospital without permission, the parent or guardian shall be immediately notified and all indicated steps shall be taken to locate the patient, including notification of appropriate police authorities when indicated. When such patient is found, he may be returned to the hospital even though he objects, unless the person who signed the application for his admission files a written notice indicating a desire to withdraw the patient from the hospital. If in the opinion of the hospital a return to inpatient status would not

R 330.21 Releases.

Rule 21. (1) Convalescent status:

(a) Placing a patient on convalescent status shall constitute a conditional and revocable release to the patient's own custody or to the custody of another person, granted on the basis that the patient is potentially capable of making a satisfactory adjustment in the open community.

(b) A visit shall constitute a conditional and revocable release to the patient's own custody or to the custody of another person, granted for temporary purposes on the basis that the patient is not as yet able to make a satisfactory adjustment in the open community.

(c) No patient, while in the custody of the hospital, shall be permitted to go on convalescent status or visit, who in the judgment of the medical superintendent is homicidal, suicidal, destructive, or dangerous either to himself or others.

(d) No patient shall be placed on convalescent status or visit into another state without the approval of the department of mental health.

(i) In the instance where relatives have travelled long distances, it is permissible to allow the patient to leave with them to go to another state; provided that the department of mental health is notified immediately of the circumstances.

(ii) In any case where the patient is placed on convalescent status in Michigan but the medical superintendent has reason to believe that the relatives will transport him to another state, arrangements of convalescent status must be deferred until approval is obtained from the department of mental health.

(e) A hospital shall not accept liability for expenses incurred by or for a patient on convalescent status, visit or escape unless such expense is authorized by the hospital.

(f) Agencies of the department of mental health shall not have the responsibility for the return to the hospital of a patient on convalescent status. Exceptions to this general policy may be made in special instances.

(g) Agencies of the department shall not assume responsibility for medical or hospital care or drugs for patients while on convalescent status, visit or escape, except when authorized by the hospital or an authorized agency. Unauthorized bills shall be referred to the guardian, family, or proper local officials. If the patient has funds on deposit at the hospital, they may be used for payment of such expense upon the order of the superintendent, if there is no guardian.

(2) Escape:

(a) Upon the escape of a patient, prompt and vigorous measures shall be taken to secure his return, including such search by hospital employees as the circumstances warrant. Relatives or other interested parties must be immediately notified by telephone or telegraph, if possible. The hospital shall immediately notify the state police, the local police, and sheriff in the area of the hospital, and the local police, and sheriff in the areas of the patient's home or former place of residence. A record shall be kept of the officers notified and the time of notification.

(b) A patient on escape, if not returned to the hospital at the end of 1 year or placed on convalescent status before that time, may be finally discharged by the medical superintendent unless information as to his whereabouts or condition is available which makes it inadvisable to issue a discharge. A discharge under this

Digitized by Google Original from UNIVERSITY OF MICHIGAN

rule at the end of 1 year shall only be issued after a careful review of the case record by the superintendent personally or a designated member of the medical staff.

(c) A patient returned to the hospital after escape shall be carefully examined and a record made of such examination in the same manner as a newly admitted patient.

(d) If an escaped patient is not returned to the hospital after 3 days, notice that he is on escape shall be sent to the committing court.

(e) Although the statutes provide that an escaped patient may be brought back to the hospital at any time, this is not to be interpreted to mean that he can be brought back without a new court commitment, if he has been discharged by the superintendent. After discharge, he cannot be returned to the hospital without a new court order.

(3) Discharge:

(a) According to statute final discharge shall constitute the release of a patient from the jurisdiction of the hospital, and no patient so discharged may be returned to the hospital as a committed patient without a new adjudication and a new order for admission.

(b) When a patient is finally discharged, the medical superintendent shall report such change in status to the probate court of commitment, and indicate in such report which of the following factors have brought about such discharge:

(i) Expiration of temporary order, no permanent order having been issued.

(ii) Patient legally transferred to another state or country.

(iii) Patient, in the opinion of the medical superintendent, not mentally ill, mentally handicapped, or epileptic at the time of discharge.

(iv) Patient believed sufficiently recovered so as not to be detrimental to himself or the public.

(v) Patient recovered.

(vi) Patient ordered by court to be discharged.

(vii) Patient discharged by a court.

(viii) Death of patient.

(ix) Patient discharged after 1 year on escape.

(x) Patient discharged for any other purpose under the statutes or procedures of the department of mental health.

History: 1954 ACS 1, p. 16, Eff. Mar. 18, 1955; 1954 ACS 35, p. 47, Eff. Aug. 14, 1963; 1954 ACS 58, p. 27, Eff. May 15, 1969.

PART 2. PATIENT CARE

R 330.30 Special care.

Rule 30. In no instance shall hospitals arrange for any type of special or discriminatory care in regard to food, housing, and clothing for any patient regardless of the contribution of the relatives or guardian. This is not to be interpreted to prohibit the relatives from bringing or sending such special items of food or material which the hospital allows for the benefit of any particular patient.

History: 1954 ACS 1, p. 17, Eff. Mar. 18, 1955.

R 330.31 Abuse of patients.

Rule 31. Any employee of the hospital who abuses a patient in any way shall be subject to immediate dismissal. Continued complaints from the patient regarding an employee shall be thoroughly investigated and, if substantiated, his employment shall be terminated.

History: *1954 ACS 1, p. 17, Eff. Mar. 18, 1955.*

R 330.32 Accident, injury, and sudden death reports.

Rule 32. The medical superintendent shall cause to be prepared a report of all facts and circumstances on serious accidents and injuries to patients, accidents in which an employee may be involved in a patient's injury, and suicides and sudden deaths, and maintain such reports at the hospital for inspection and review by department representatives.

History: 1954 ACS 1, p. 17, Eff. Mar. 18, 1955; 1954 ACS 58, p. 29, Eff. May 15, 1969.

R 330.33 Accident, injury, and illness reports to relatives.

Rule 33. The medical superintendent shall notify the closest relatives and cause a record of such notice to be placed in the patient's hospital record when the patient has incurred a serious accident or injury or is seriously ill. The notice shall be transmitted by any means which in the opinion of the superintendent insures its receipt by the relative.

History: 1954 ACS 1, p. 18, Eff. Mar. 18, 1955; 1954 ACS 58, p. 29, Eff. May 15, 1969.

R 330.34 Permission for surgery or convulsive treatment.

Rule 34. When in the medical opinion of the medical superintendent or his medical staff, convulsive treatments are recommended as a part of the treatment procedure or when surgery is advisable and needed, permission from the patient's guardian or legally responsible relative shall be obtained in advance of such treatments or surgery. When the superintendent or his medical staff are of the medical opinion that surgery or convulsive treatment is required which is not elective and is needed to sustain life or to prevent endangering life, or to prevent substantial irreparable harm to the patient, every effort shall be made to obtain permission for the surgery or convulsive treatment from the guardian or legally responsible relative. If permission is not obtainable for any reason or if the need for the surgery or convulsive treatment is so urgent that it is not possible to obtain permission, the surgery or convulsive treatment shall be performed after the medical necessity for the procedure has been supported by 3 members of the medical staff. In such instance the signed written opinion of the 3 physicians shall be entered in the patient's record.

History: 1954 ACS 1, p. 18, Eff. Mar. 18, 1955; 1954 ACS 58, p. 29, Eff. May 15, 1969.

R 330.35 Autopsies.

Rule 35. (1) Permission to perform an autopsy shall always be obtained from the next of kin.

(2) In the instance where the next of kin has given the hospital permission to perform an autopsy prior to the death of the patient, the hospital need not obtain such permission again after the patient's death.

(3) When the body of a patient is not claimed by a relative, personal friend, or legal representative, and when the deceased has made no provision for disposition and there is no fund on deposit at the hospital for burial purposes, such body shall become available to the department of public health in accordance with Act No. 138 of the Public Acts of 1958, as amended, being §§328.11 to 328.23 of the Michigan Compiled Laws.

History: 1954 ACS 1, p. 18, Eff. Mar. 18, 1955; 1954 ACS 35, p. 47, Eff. Aug. 14, 1963; 1954 ACS 58, p. 29, Eff. May 15, 1969.

R 330.36 Restraint.

Rule 36. Mechanical restraint or seclusion shall only be used by order of the medical superintendent for satisfactory surgical or medical reasons, or to prevent a patient from injuring himself or others.

History: 1954 ACS 1, p. 18, Eff. Mar. 18, 1955.

R 330.37 Religious services.

Rule 37. The medical superintendent shall arrange for the conduct of religious services through the hospital chaplains, or the employment of local clergymen. The contractual rate of pay for local clergymen shall be set at a rate per service to be determined by the director of the department of mental health for not more than 1 religious service per week for each of the 3 major religious groups. Arrangements shall be made to provide for the ministration of the last rites to all patients of the Catholic or Jewish faith and others when desired.

History: 1954 ACS 1, p. 18, Eff. Mar. 18, 1955; 1954 ACS 14, p. 8, Eff. May 14, 1958.

PART 3. BUSINESS ADMINISTRATION

R 330.40 Hospital censuses.

Rule 40. (1) A hospital patient day shall begin at 12:01 a.m. and continue to 12:00 midnight of the same day. A patient in the hospital as of 12:00 midnight shall be considered in the hospital for the hospital day ending at that hour, regardless of the length of time spent in the hospital during that day. If a patient is not in the hospital at 12:00 midnight, he shall not be considered as present for that day, even though he may have spent the greater portion thereof in the hospital.

(2) A daily hospital census shall be compiled to consist of the number of patients physically in the hospital at the end of each patient day.

(3) The daily hospital census shall be the basis for computing all hospital patient days or population data and shall be the population or census data reported to the department of mental health, the department of revenue, and any federal, state, or county agency requiring or requesting population data from the hospital.

History: 1954 ACS 1, p. 18, Eff. Mar. 18, 1955; 1954 ACS 14, p. 8, Eff. May 14, 1958; 1954 ACS 58, p. 29, Eff. May 15, 1969.

R 330.41 Patient property.

Rule 41. (1) In all cases of unclaimed moneys exceeding $50.00 and not in excess of $200.00, the indicated provisions of Act No. 145 of the Public Acts of 1947 shall be followed. In instances where it proves impossible to obtain action from the committing probate judge of the county wherein the hospital is located, a petition shall be presented to the attorney general's office setting forth the name of the patient, relatives involved, and description of property, requesting the attorney general to intervene and aid in the disposal of the property.

(2) Whenever a patient is admitted to the hospital only those items of personal property which are essential to his welfare while in the hospital shall be retained by the admitting office. An official receipt shall be issued for all such items. All other property in possession of the patient at the time of admittance which is not deemed essential to his welfare in the hospital shall be immediately mailed to the closest legally responsible relatives, with a return receipt requested. This receipt, upon return to the hospital, shall be filed with a list of the property which was mailed.

(3) In the instance where a patient is admitted with items in his possession which require formal attention, and cannot be handled under subrule (2) above, to prevent becoming valueless the medical superintendent shall immediately petition the court for the appointment of a guardian. Such items as bank accounts, stocks, bonds, insurance policies, storage receipts, etc., shall receive immediate attention so as to properly release the hospital from all liability. In no event shall they be retained at the hospital, without suitable measures being instituted. Where it proves impossible to deliver such property to the patient or next of kin, it shall *be considered* as unclaimed and handled under the provisions of subrule (7).

(4) Hospitals shall make every effort to make certain that when placing a patient on convalescent status or discharge, the patient takes with him the personal effects held in the property office. Any items which are inadvertently overlooked shall be immediately mailed to the patient with a return receipt requested.

(5) Upon the death of a patient, every effort shall be made by the hospital to divest itself of personal effects of the patient to the next of kin.

(a) The hospital will notify the next of kin by registered mail, return receipt requested, listing the personal effects being held and calling attention to the statute providing for disposition.

(b) Where there is some question as to rival claims to the personal effects, the property may be held by the hospital until the claimants have their claims determined in the probate court.

(c) Whenever it is impossible to contact the next of kin, the hospital will notify by registered mail, return receipt requested, the person who paid the funeral expenses, listing all the articles being held and calling attention to the statute providing for disposition.

(d) If there are no claims to the personal effects of patients who have died, the property shall be considered to be unclaimed and can be handled under the provisions of subrule (7).

(6) In the instance where a patient has escaped and his whereabouts are unknown, the superintendent shall retain custody of the property and handle it in the same manner as other unclaimed property.

(7) Whenever the personal effects or moneys of patients not in excess of $50.00 become unclaimed and cannot be disposed of under any of the points mentioned earlier, and have been held for 7 years, the following procedure shall be followed:

(a) On or before the thirtieth day of June each year, the hospital shall file with the state board of escheats a report in duplicate on the prescribed form, containing a full and itemized statement of all unclaimed property in possession, which was not previously listed. This report shall list such property in possession as of the last preceding first day of June.

(b) After the filing of this report, the property is to be retained pending notification from this department as to where it is to be sent for disposition.

History: 1954 ACS 1, p. 18, Eff. Mar. 18, 1955.

R 330.42, R 330.43 Rescinded.

History: 1954 ACS 1, pp. 19, 20, Eff. Mar. 18, 1955; rescinded 1954 ACS 58, p. 25, Eff. May 15, 1969.

R 330.44 Profits of canteens, snack bars, or employee stores.

Rule 44. (1) In those hospitals where an employee organization operates a canteen, snack bar, or employee store, the wages of manager, clerks and all other expenses of the operation shall be paid from gross receipts. Profits from the operation shall be divided between the patient benefit fund and the employee organization on the basis of 60% and 40% respectively.

(2) Where the canteen, snack bar, or employee store is operated by the hospital, all profits shall be credited to the patient benefit fund.

(3) A canteen, snack bar, or similar activity, which is being operated by the hospital at the time this rule is adopted, can be transferred to an employee organization for operation whenever the employee organization agrees that all profits at the time of transfer shall be credited to the patient benefit fund. Henceforth, profits shall be divided on the basis of 60% to the patient benefit fund and 40% to the employee organization.

R 330.46 Profits from occupational therapy materials.

Rule 46. A hospital patient may receive the profits from the sale of items produced by him as a part of his occupational therapy activities.

History: 1954 ACS 1, p. 20, Eff. Mar. 18, 1955; 1954 ACS 53, p. 18, Eff. Feb. 14, 1968.

R 330.47 Hospital patients' benefit fund.

Rule 47. (1) The medical superintendent shall establish, maintain, and account for a fund to be known as the hospital patients' benefit fund. He shall deposit in the fund moneys received from the following sources: interest earned from the hospital patients' trust fund; profits from the operation of canteens, snack bars, or employee stores as provided by R 330.44; unclaimed money in the hospital patients' trust fund; and grants and gifts if so provided by the grantor or otherwise.

(2) Grants and gifts to the hospital patients' benefit fund shall be accepted in the name of the superintendent, and no such grant or gift in excess of an amount to be set by the department shall be accepted without approval of the director of mental health. Grants and gifts may be accepted for a specific purpose if the purpose is within the general purposes for which the hospital patients' benefit fund may be used. Such gifts shall be used for the specified purpose, and sub-accounts of such expenditures shall be maintained.

(3) A hospital patients' benefit fund may be expended for purposes which enhance the hospital's program of care and treatment for all patients or a specific group of patients and in special cases provide aid to indigent patients. Aid to an indigent patient may include burial expense. No programs or projects may be started from the fund which would commit the hospital to complete or continue the program or project from state funds, unless proper authority to expend state funds for such purposes is obtained in advance. Expenditures from the fund shall be made through the hospital's business office in the name of the medical superintendent.

(4) The medical superintendent shall submit a report of the receipts and expenditures of the hospital patients' benefit fund to the director of mental health within 30 days following the end of each fiscal year.

History: 1954 ACS 53, p. 18, Eff. Feb. 14, 1968; 1954 ACS 64, p. 29, Eff. Oct. 1, 1970.

R 330.48 Charges for services.

Rule 48. The agencies of the department shall levy a charge for all services rendered to patients, except those services which are classified as consisting solely of training or educational services. The rate of charge shall be based on estimated average costs by type of services exclusive of capital costs, except as otherwise provided by law. A person shall not be denied service because of inability to pay or because of race, color, creed, or national origin.

PART 4. GENERAL ADMINISTRATION

R 330.50 Use of hospital facilities.

Rule 50. Hospital auditoriums, conference rooms, and similar meeting rooms may be used, where available, by any organized groups whose objectives and activities are harmonious with the fundamental purposes of the hospital and are interested in those purposes, providing permission is obtained from the medical superintendent.

History: 1954 ACS 1, p. 20, Eff. Mar. 18, 1955.

R 330.51 Soliciting on hospital grounds.

Rule 51. Soliciting of employees during working hours shall not be permitted except at the discretion of the superintendent.

History: 1954 ACS 1, p. 20, Eff. Mar. 18, 1955.

R 330.52 Service of legal process.

Rule 52. (1) Any citation, order, or process required by law to be served on a patient resident in any state hospital shall be served by the medical superintendent or someone designated by him in accordance with the provisions of section 35 of Act No. 151 of the Public Acts of 1923, as amended.

(2) At the time of the service of any such process upon a patient, the nature of the process, the date of the same, name of the court out of which it is issued, and the date of its service shall be entered in the patient's case record. A copy of the process served and a copy of the judge's order, if there be one, shall be filed with the papers relating to the patient. If the nature of the process so warrants, a copy of an explanatory letter shall be forwarded to the guardian of the patient, if there be one, or if there is no guardian, to the nearest known relative or next friend.

(3) The medical superintendent shall immediately notify the attorney general in the instance where notice of legal process has been served upon any officer of the hospital or patient.

History: 1954 ACS 1, p. 20, Eff. Mar. 18, 1955.

R 330.53 Political advertisements.

Rule 53. The medical superintendent shall deny permission to place any political advertisements on hospital bulletin boards or other hospital property. He shall, further, remove or cause to be removed any such material so placed.

History: 1954 ACS 1, p. 20, Eff. Mar. 18, 1955.

R 330.54 Rescinded.

The purpose and activities of the clinics shall be directed toward the remediation, amelioration, and prevention of psychological and social malfunction, and toward the support, cultivation, and enhancement of the psychological well-being and social competency of individuals or family units.

(2) A community clinic is considered as a direct operation of the department of mental health and shall conform to the established policies and plans of the department. The scope of operations and services offered by a clinic shall be specifically authorized and approved by the department.

(3) An application or proposal on behalf of a community or mental health service area for a new clinic may be submitted to the department of mental health, with information necessary to demonstrate the need for such a clinic and to enable the department to make a proper evaluation of the application.

(4) Fees charged to recipients of services rendered by the clinic shall be in accordance with fee policies established by the department of mental health.

History: 1954 ACS 53, p. 19, Eff. Feb. 14, 1968.

R 330.62 Clinic boards of directors.

Rule 62. When a clinic is to be established, a local citizen board may be formed which shall participate in the establishment and continuing support of the clinic. The board shall be known as the clinic board of directors, shall be composed of citizens representing the area served by the clinic, and shall be legally incorporated as a nonprofit corporation. A clinic board shall establish within its membership an executive committee to serve as advisor to the director of the clinic.

History: 1954 ACS 53, p. 19, Eff. Feb. 14, 1968.

R 330.63 Clinic staffing.

Rule 63. (1) Staffing of the clinic shall be in accord with personnel qualifications and standards established by the department of mental health.

(2) A clinic shall have a director, appointed by the department of mental health, who is responsible for administration of the clinic under the general direction and supervision of the department.

(3) Personnel of the clinic may be composed of employees of the state as represented by the department of mental health, or of the community as represented by the clinic board, or both. The appointing authority for employees of the state shall be the director of mental health. Such appointments shall be made in accordance with established personnel policies of the department and applicable controlling requirements of the state civil service. The appointing authority for employees of the community shall be the director of the clinic and the appointments shall be made in accordance with personnel policies established by the clinic board.

History: 1954 ACS 53, p. 19, Eff. Feb. 14, 1968.

R 330.64 Funds, property, and case records.

Rule 64. (1) The department of mental health and the clinic board have joint responsibilities for obtaining, providing, and insuring funds for operation of the clinic. These joint responsibilities shall be divided between the department and the board by mutual agreement, subject to review and readjustment on a periodic basis or upon request of either party. However, the board has the responsibility of providing for the quarters, furnishings, and equipment required by the clinic, and the responsibilities of the department shall be in accordance with limitations *imposed upon the* department by law.

(2) Real estate, furnishings, and equipment acquired through funds supplied by the clinic board become the property of the board.

(3) Case records maintained within the clinic are privileged in accordance with prevailing medical ethics, and such records or information therein can only be released by the director of the clinic. Such records shall remain the property of the department of mental health.

History: 1954 ACS 53, p. 19, Eff. Feb. 14, 1968.

PART 6. ADMINISTRATIVE PROCEDURE FOR HEARINGS

R 330.70 Hearings.

Rule 70. (1) Notification of any hearing before the department of mental health will be by registered mail, and will state the date, time, place, issues involved, and reasons for holding said hearing. Such notice will be mailed at least 15 days prior to said hearing. Unless indicated otherwise, all hearings will be held in the department offices, fifth floor, Lewis Cass building, Lansing.

(2) When an appearance is made at a hearing, it shall be made either in person or by a duly authorized representative, or by counsel.

(3) The person or persons who have been served with a notice of hearing may, at his option, file a written answer thereto prior to the date set for hearing, or at said hearing may appear and present an oral statement on the charges contained in the notice of hearing. When written briefs or arguments are presented, a copy shall be served upon the department of mental health and opposite parties at least 5 days prior to the date set for the hearing.

(4) If the person or persons who have been previously served with a notice of hearing fail to appear at a noticed hearing, the designated representative of the department of mental health may proceed with a hearing of the cases brought before him and may, on the evidence presented, make his decision.

(5) When a hearing is requested, the party requesting the hearing shall submit in writing a fair and accurate statement of the facts to the department of mental health and all interested parties. The facts shall be accepted as evidence unless a written answer is filed denying said facts and stating new facts relied upon with the department of mental health and all interested parties.

(6) No hearing shall be adjourned or continued except upon an order of the department of mental health, or the department employee conducting the hearing. All motions and requests for an adjournment or a continuance shall be in writing, which instrument shall state concisely the reasons why an adjournment or continuance is necessary. No motion or request for an adjournment or continuance will be considered unless the same is filed with the department of mental health at least 5 days prior to the date assigned for the hearing of the application, complaint, or petition except upon order of the department of mental health, which exception will be granted only upon a showing that for reasons not within the control of the person or party making the motion or request, the motion or request could not be filed within the time limited.

(7) The parties to any hearing before the department of mental health may, by a stipulation in writing filed with the department of mental health, agree upon the facts or any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence on the hearing. Parties are requested to thus agree upon the facts whenever practicable.

(8) Depositions shall only be taken upon written authority of the department of mental health where it is proved in writing to the department of mental health that it is impractical or impossible to otherwise obtain the evidence. Where depositions are permitted, they shall be taken according to the rules for taking depositions in civil cases in the state of Michigan, being §617.6 et seq. of the Michigan Compiled

Laws, with all parties given an opportunity to cross-examine the witness under oath.

History: 1954 ACS 1, p. 26, Eff. Mar. 18, 1955.

PART 7. HAWTHORN CENTER

R 330.80 Hawthorn center.

Rule 80. (1) The hospital established under the jurisdiction and control of the department of mental health, known as Hawthorn center, is designated as a psychiatric residential treatment facility for emotionally disturbed children, together with the outpatient functions related thereto, and as a training, teaching, and research center in child psychiatry and related disciplines.

(2) The center shall be under the administrative and clinical direction of a director appointed by the director of the department.

(3) The program of the center shall be specially designed for emotionally disturbed children who are in need of intensive psychiatric treatment in a controlled setting. Committed or voluntary admission to the inpatient service shall only take place with the approval of the director of the center or his representative, after a clinical evaluation of each case. Local psychiatric resources, such as physicians, child guidance clinics, and comparable agencies, shall be used to assist the director in making a determination as to the suitability of cases for inpatient care.

(4) Mentally ill children 16 years of age or younger who are committed by the Wayne county probate court will be admitted for treatment and care to the extent there is room for such admissions. The department may transfer a patient committed by a probate court or a patient detained under a temporary detention order of a probate court, as provided in section 11 of Act No. 151 of the Public Acts of 1923, as amended, being §330.21 of the Michigan Compiled Laws, into Hawthorn center from any of the state hospitals for mentally ill or mentally handicapped, or from the Wayne county general hospital or the Wayne county child development center, if it is believed to be valuable for clinical or research purposes. Such transferred patients shall be received back into the hospitals from which transferred as soon as the treatment or the clinical or research work for which they were transferred is concluded.

(5) A child who is in need of treatment in the center and whose admission has been approved by the director of the center may be accepted as a voluntary admission. Such voluntary admissions shall be in accordance with section 9a of Act No. 151 of the Public Acts of 1923, as amended, being §330.19a of the Michigan Compiled Laws, and R 330.20(6) of the Michigan Administrative Code.

(6) Any child in the temporary or permanent custody of the juvenile division of the probate court who is emotionally disturbed and in need of psychiatric treatment and care may be placed in the Hawthorn center by an order of disposition issued by the court in accordance with the provisions of section 18, chapter 12A of Act No. 288 of the Public Acts of 1939, providing the child is acceptable for treatment and care in said facility as determined by the director of the center.

(7) The department of mental health shall levy a charge for the care of patients admitted to the inpatient service at Hawthorn center. The amount to be charged shall be a daily rate equal to and the same as the rate fixed by the department for the state hospitals for mentally ill, according to the provisions of section 31 of Act No. 151 of the Public Acts of 1923.

(8) Patients seen and treated in the outpatient service of the center shall be charged a reasonable fee for each interview. No patient shall be refused service solely because of inability to pay the established fees, which shall be based upon a recommended fee schedule fixed by the department of mental health.

History: 1954 ACS 9, p. 10, Eff. Feb. 14, 1957; 1954 ACS 64, p. 29, Eff. Oct. 1, 1970; 1954 ACS 71, p. 28, Eff. Mar. 29, 1972.

PART 8. SPECIAL PROGRAMS

R 330.81 Community placement.

Rule 81. The department may fund and directly operate, or operate by contract, programs for mentally ill or mentally retarded (handicapped) persons in local community settings. These programs are to be known as foster family care or community living facilities and shall offer 24-hour, 7-days-per-week supervised living, guidance and counseling, and may include sheltered workshop activities. A mentally ill or mentally retarded (handicapped) resident of the state is eligible for this program when he lacks an adequate home setting equal to his needs, but is not in need of care and treatment in a state hospital, state home and training school or similar program, and he has been accepted for care and treatment by a department hospital or home and training school. Community facilities established by contract shall operate in accordance with standards and procedures established by the department. As so determined in the treatment program, the patient may be required to pay all or part of the cost to the contracting facility and the payment will be deducted from the state cost for services rendered.

History: 1954 ACS 58, p. 30, Eff. May 15, 1969; 1954 ACS 71, p. 28, Eff. Mar. 29, 1972.

R 330.82 Foster family care.

Rule 82. (1) The department shall provide care and management for selected residents of its institutional facilities by placing them through contracts in private family homes in groups of less than four. This form of care and management shall be known as foster family care. The legal status of persons so placed shall be under all governing statutes the same as if they were in the institutional facility, except for charges to the placed person or his legally responsible relatives or guardian for the cost of the foster family care provided to him. Foster family care homes shall operate in accordance with standards established by the department.

(2) The superintendents of the individual institutional facilities shall annually recommend to the director of the department for his approval both a maximum daily rate per placed person to be paid to the managers of foster family care homes and a maximum per diem amount to be paid to provide for personal needs of the placed person.

(3) The charge for patients who are placed in foster family care homes shall be an amount equal to the daily foster family care rate as approved by the director of the department, including the allowance for the patients' personal needs.

History: 1954 ACS 58, p. 30, Eff. May 15, 1969; 1954 ACS 71, p. 29, Eff. Mar. 29, 1972.

R 330.83 Community living placement.

Rule 83. (1) The department shall provide care and management for selected residents of its institutional facilities by placing them through contract in selected residential facilities. These facilities may be operated as private, local public governmental, or nonprofit corporate entities, for groups of 4 or more patients and such forms of care and management shall be known as community living placement. The legal status of patients so placed shall be under all governing statutes the same as if they were in the institutional facility except for charges to the placed person or his legally responsible relatives or guardian for the cost of the community living placement care provided to him. Community living placement facilities shall operate in accordance with standards established by the department.

(2) The superintendents of the individual institutional facilities shall annually recommend to the director of the department for his approval both a maximum daily rate per placed person to be paid to the managers of community living

placement facilities and a maximum per diem amount to be paid to provide for the personal needs of the placed person. The institutional facility making placements shall set a specific rate for each placement which shall be within the established maximum.

(3) The charge for patients who are placed in community living placement facilities shall be an amount equal to the daily rate as fixed by the hospital, with the approval of the director of the department including the allowance for the patients' personal needs.

History: 1954 ACS 58, p. 41, Eff. May 15, 1969; 1954 ACS 71, p. 29, Eff. Mar. 29, 1972.

R 330.84 Community adult activity centers.

Rule 84. (1) Community adult activity centers when sponsored and funded by the department shall offer services for severely retarded (handicapped) persons, over the age of majority, including basic day care and habilitative activities, for approximately 6 hours per day for not less than 5 days per week. A mentally retarded (handicapped) resident of the state who does not qualify for, or who has been legitimately excluded from, educational programs in accordance with eligibility standards established by the state department of education is eligible for this program. Adult activity centers may be operated by contract or grant between the department and local community governmental or nonprofit agencies, and shall operate in accordance with standards and procedures established by the department.

(2) A resident patient of a department hospital who is released to the community for participation in an adult activity center shall be placed on convalescent status or discharge.

History: 1954 ACS 71, p. 29, Eff. Mar. 29, 1972.

PART 9. PRIVATE MENTAL HOSPITALS AND FACILITIES

R 330.90 Rescinded.

History: 1954 ACS 14, p. 9, Eff. May 14, 1958; rescinded 1954 ACS 56, p. 9, Eff. Nov. 14, 1968.

R 330.91 Definitions.

Rule 91. As used in this part:

(a) "Mental hospital" means a hospital or a distinct portion or section of a hospital which as its primary function regularly accepts mentally ill or mentally retarded persons for 24-hour care, and also offers these persons a program of psychiatric diagnosis and treatment.

(b) "Residential facility" means a facility which regularly accepts mentally ill or mentally retarded persons in supervised 24-hour living accommodations, and provides an organized program of training and recreational activities.

History: 1954 ACS 14, p. 10, Eff. May 14, 1958; 1954 ACS 56, p. 9, Eff. Nov. 14, 1968.

R 330.92 Applicability of rules.

Rule 92. A mental hospital or a residential facility is subject to these rules, whether owned and operated by an individual, partnership, nonprofit organization, corporation, or governmental body other than this state or the United States.

History: 1954 ACS 14, p. 10, Eff. May 14, 1958; 1954 ACS 56, p. 10, Eff. Nov. 14, 1968.

R 330.93 Licenses; necessity, applications, and transfers.

Rule 93. (1) A mental hospital or a residential facility subject to these rules *shall receive and have a* license from the department of mental health.

(2) An application for a license as a mental hospital or a residential facility shall be filed with the department of mental health on prescribed forms. A license shall be issued for 1 year and may be renewed on an annual basis by the submission of a new application. An initial and a renewal application shall be accompanied by the statutory fee.

(3) When a mental hospital or residential facility does not meet all requirements for licensing, the department of mental health may issue a provisional license for a period not to exceed 6 months if, in the judgment of the department, the hospital or facility demonstrates it can and will comply with all requirements during the period of provisional licensing.

(4) A license for a mental hospital or residential facility is not transferable. When there is a change in ownership or the person or entity responsible for the operation, the department shall be notified and the existing license shall be void as of the date of such change. The new owner or operator shall apply for a new license.

History: 1954 ACS 14, p. 10, Eff. May 14, 1958; 1954 ACS 56, p. 10, Eff. Nov. 14, 1968.

R 330.94 Fire safety and health standards.

Rule 94. (1) A mental hospital or a residential facility shall submit evidence with its application that its physical plant has been approved for fire safety by the state fire marshal or the local fire safety authority, whichever agency has primary jurisdiction over the institution.

(2) A mental hospital or a residential facility shall submit evidence with its application that it is in conformity with the standards and requirements of the local health department and the state department of public health with respect to water supply, sewage system, and general sanitation. It shall maintain and execute procedures to insure that all employees are in good health, including a tuberculin test followed by a chest x-ray if the test is positive. An application for a license shall contain a description of the procedures and practices followed to insure the good health of the employees, and records thereof shall be maintained and made available for examination by the department of mental health.

History: 1954 ACS 14, p. 11, Eff. May 14, 1958; 1954 ACS 56, p. 10, Eff. Nov. 14, 1968.

R 330.95 Personnel lists and physical plant plans.

Rule 95. (1) A mental hospital or a residential facility shall submit with its application, and in accordance with directions contained in the application form, a listing of employees involved in the professional care and treatment of patients.

(2) A mental hospital or a residential facility shall submit with its application an outline plan of the space devoted to patients or resident care and activities. The plan shall illustrate the exact inside dimensions of each patient care room, the number of beds in each room, and the dimensions of other patient activity areas.

History: 1954 ACS 14, p. 11, Eff. May 14, 1958; 1954 ACS 56, p. 10, Eff. Nov. 14, 1968.

R 330.96 Hospital accreditation and maximum number of patients.

Rule 96. (1) A mental hospital shall indicate in its application whether or not it is a member of any state or national hospital association, whether it is accredited by the joint commission on accreditation of hospitals, and if not, whether it has applied for accreditation, and if disapproved, why it was disapproved.

(2) A license issued by the department of mental health shall specify the maximum number of patients allowable in the mental hospital or residential facility, and a hospital or residential facility shall not at any time have more patients than the authorized capacity.

History: 1954 ACS 14, p. 11, Eff. May 14, 1958; 1954 ACS 56, p. 10, Eff. Nov. 14, 1968.

R 330.97 Noncompliance with rules; effect.

Rule 97. Failure to comply with the requirements of R 330.94 to R 330.96 constitutes grounds for refusal to issue or renew a license.

History: 1954 ACS 14, p. 11, Eff. May 14, 1958; 1954 ACS 56, p. 11, Eff. Nov. 14, 1968.

R 330.98 Inspection and evaluation.

Rule 98. (1) A mental hospital or residential facility shall be open to inspection at any time by duly appointed representatives of the department of mental health.

(2) The department of mental health, when it considers it advisable, will make an on-the-site inspection and comprehensive evaluation of the program of a mental hospital or residential facility. Evaluation shall be made in accordance with recommended standards for operations of licensed mental hospitals or residential facilities, which standards are available upon request. If the inspection and evaluation result in a finding of demonstrable deficiencies in the program, operating practices or conditions as compared to the recommended standards, such findings shall be grounds for refusal to issue or renew a license. In such instance, the department shall list and describe the deficiencies upon which its action is based.

History: 1954 ACS 14, p. 12, Eff. May 14, 1958; 1954 ACS 56, p. 11, Eff. Nov. 14, 1968.

R 330.99 Operation standards.

Rule 99. (1) Recommended standards for operation of a mental hospital shall include the following: Administrative management; patient care; physician services; nursing services; dietary services; medications; diagnostic services; social services; patient activities; clinical records; physical environment; housekeeping services; and disaster plan.

(2) Recommended standards for operation of a residential facility shall include the following: Administrative management; resident care; resident program activities; dietary services; housekeeping services; physical environment; and disaster plan.

History: 1954 ACS 14, p. 12, Eff. May 14, 1958; 1954 ACS 56, p. 11, Eff. Nov. 14, 1968.

PART 10. COMMUNITY MENTAL HEALTH SERVICES

R 330.100 Rescinded.

History: 1954 ACS 38, p. 51, Eff. May 15, 1964; 1954 ACS 41, p. 12, Eff. Feb. 14, 1965; rescinded 1954 ACS 64, p. 30, Eff. Jan. 1, 1971.

R 330.101 Definitions.

Rule 101. As used in this part:

(a) "Local government" means a city of more than 500,000 population or a county.

(b) "Local legislative body" means a county board of commissioners or a city council.

(c) "Chief executive officer" of a local government means the chairman of the county board of commissioners or the mayor of a city of more than 500,000 population.

(d) "Community services law" means Act No. 54 of the Public Acts of 1963, as amended, being §§330.601 to 330.614 of the Michigan Compiled Laws.

(e) "Department" means the Michigan department of mental health.

(f) "Mental health authority" means a community mental health board formed under the community services law.

History: 1954 ACS 38, p. 51, Eff. May 15, 1964; 1954 ACS 41, p. 12, Eff. Feb. 14, 1965; 1954 ACS 64, p. 30, Eff. Jan. 1, 1971.

R 330.102 Eligibility for program review and state funds.

Rule 102. (1) In order for a local government to be eligible for program review and approval by the department and to receive state funds, the local legislative body of the local government involved shall act pursuant to section 2 of the community services law and shall send a copy of the original resolution establishing a community mental health services program.

(2) State funds shall be made available for a range of services in accordance with section 1 of the community services law, whether furnished by direct operation of the mental health authority or by contract with public or private agencies.

History: 1954 ACS 38, p. 52, Eff. May 15, 1984; 1954 ACS 41, p. 12, Eff. Feb. 14, 1985; 1954 ACS 64, p. 30, Eff. Jan. 1, 1971.

R 330.103 Establishment; certification; directors' qualifications; membership.

Rule 103. (1) If a local government resolves to establish a community mental health program, it shall officially establish by action of the local legislative bodies involved a local mental health authority in accordance with 1 of the following plans:

(a) A community mental health services board empowered as a local mental health authority of local government and required to select and appoint a director of community mental health services, who shall be the chief executive officer of the mental health authority. The director of community mental health services shall have such training and experience as approved by the director of the department.

(b) A community mental health services board empowered as a mental health authority of local government to administer a mental health services program in which case the community mental health services board may employ staff and shall designate an official liaison representative to the department.

(2) A local government shall certify to the department the plan established for the local mental health authority and any subsequent changes in the plan.

(3) The membership of a local community mental health services board shall be appointed and maintained as prescribed in the community services law, and a roster of the current membership shall be kept on file with the department.

History: 1954 ACS 38, p. 53, Eff. May 15, 1984; 1954 ACS 41, p. 14, Eff. Feb. 14, 1985; 1954 ACS 64, p. 30, Eff. Jan. 1, 1971.

R 330.104 Program plans and budget requests.

Rule 104. (1) A local mental health authority shall submit annually a program plan and budget request, signed by the director or official liaison representative to the department, for the department's approval and for state aid. It shall cover the fiscal year beginning July 1 through June 30 of the following year and shall be submitted to the department not later than the date established by the department, which date shall be between August 15 and November 1 before commencement of the state fiscal year for which state aid is requested.

(2) The program plan and budget request shall contain descriptive details for all activities of the local program in a form prescribed and furnished by the department annually.

(3) The program plan and budget request shall include certifications of indorsement and approval by:

(a) The legislative body of the sponsoring local government or governments.

(b) The community mental health services board.

(4) The program plan and budget request shall be supported by the following additional documents to be kept on file with the department:

(a) Copies of operational contracts and contract revisions between the local mental health authority and independent subagencies which supply services or operate mental health facilities.

(b) Copies of revisions in the original resolution of the sponsoring local government which resolves to establish a local mental health program and local mental health authority under the provisions of the community services law and these rules.

History: 1954 ACS 38, p. 54, Eff. May 15, 1964; 1954 ACS 41, p. 15, Eff. Feb. 14, 1965; 1954 ACS 64, p. 31, Eff. Jan. 1, 1971.

R 330.105 General program requirements.

Rule 105. (1) The program of a local mental health authority shall be designed to provide direct treatment services consisting minimally and initially of nonhospital treatment activities and at least emergency hospitalization capabilities, and to provide consultation to general human service agencies in the community it serves.

(2) A local mental health authority and subagency shall make services available without discrimination as to race, color, religion, national origin, or lack of ability to pay. This policy shall be stated in the program statements of the local mental health authority and in all contractual agreements which provide for the supplying of services.

(3) A local mental health authority and subagency shall specifically adopt and operate under a personnel practices policy which does not discriminate against an employee or applicant for employment with respect to his hire, tenure, terms, conditions, or privileges of employment, or any matter directly or indirectly related to employment, because of his race, color, religion, national origin, ancestry, age, or sex, except if a requirement as to either age or sex is based on a bona fide occupational qualification.

(4) A local direct service agency shall establish a charge schedule for its services and a collection schedule based upon ability to pay. Initial consultation and diagnosis may be provided to any person referred by courts, public schools, health or welfare agencies without charge. A current copy of the charge schedule shall be filed with the department.

(5) Fees collected shall be included as local revenue to match state grants, unless the fee revenue is used for purposes other than those which qualify for grants under these rules, but reimbursement of charges for hospital care from insurance or the patient's ability to pay shall be deducted before matching.

(6) A local mental health authority shall report to the department the activities of its programs and its actual expenditures and receipts on forms prescribed and furnished by the department.

History: 1954 ACS 38, p. 55, Eff. May 15, 1964; 1954 ACS 41, p. 17, Eff. Feb. 14, 1965; 1954 ACS 64, p. 31, Eff. Jan. 1, 1971.

R 330.106 Review and evaluation.

Rule 106. The department shall review and evaluate the operations of programs funded under the law. Evaluation shall be made to determine compliance with the provisions of the community services law and the administrative rules. If the evaluation results in a finding of demonstrable deficiencies in the program or operating practices, the department shall list and describe the deficiencies and make recommendations thereon to the local community mental health board and its director.

History: 1954 ACS 38, p. 56, Eff. May 15, 1964; 1954 ACS 64, p. 31, Eff. Jan. 1, 1971.

R 330.107 Eligible expenditures from state funds.

Rule 107. The following expenditures are eligible for state matching funds in accordance with the approved program and budget:

(a) Salaries, wages, and the cost of fringe benefits for employees' services.

(b) Operational maintenance and service costs, including expenditures for equipment, upkeep, supplies, office services, rental of space, and travel expenses of employees.

(c) The cost of services rendered by or purchased from other agencies or professionals on a contractual basis.

(d) Per diem costs and travel expenses of members of community mental health boards.

(e) Expenditures for other costs that are specifically approved and authorized by the department.

History: 1954 ACS 38, p. 56, Eff. May 15, 1964; 1954 ACS 41, p. 18, Eff. Feb. 14, 1965; 1954 ACS 64, p. 32, Eff. Jan. 1, 1971; 1954 ACS 71, p. 30, Eff. Mar. 29, 1972.

R 330.108 Ineligible expenditures from state funds.

Rule 108. (1) State funds shall not be used for capital expenditures including costs of facility construction, remodeling, building attachments, or customized appurtenances, fixtures, or amortization payments on a mortgage or lien.

(2) State funds shall not be used for general medical or surgical activities, except those which are necessary for the diagnosis or treatment of conditions of emotional disturbance, mental illness, or mental retardation.

(3) State funds shall not be made available to mental health clinics operated exclusively to service a specific school or to serve court referrals unless the mental health clinic is operated or administered by or has a contract with the local mental health authority.

(4) Other funds and costs not eligible for state matching are:

(a) State and federal funds provided in direct or indirect support (fees) of community mental health programs through other legislative authorizations. Such funds shall be deducted from the gross local program expenditures before state matching.

(b) Local expenditures required by statute for county support of care of patients in state mental health institutions and for the costs of court procedures attendant upon commitment proceedings.

(c) Charges of any type for use of space in a publicly owned building also occupied by other public governmental agencies without charge.

(d) That portion of a salary paid in a local program which is not in accordance with an established local government personnel and pay scale system, or which exceeds the state civil service pay schedule.

History: 1954 ACS 38, p. 56, Eff. May 15, 1964; 1954 ACS 41, p. 18, Eff. Feb. 14, 1965; 1954 ACS 64, p. 32, Eff. Jan. 1, 1971; 1954 ACS 71, p. 30, Eff. Mar. 29, 1972.

R 330.109 Special provisions.

Rule 109. (1) If a community mental health clinic operating under the joint administration of the department and a local nonprofit clinic board, or state operated aftercare service is included in the program of a local mental health authority by either direct administration or contractual arrangement, a state civil service employee of the clinic or center may remain under the state civil service employment and be assigned to the local mental health authority upon the request of the employee and the local authority with the approval of the department. The total cost of salaries of the clinic or center employees allowed to remain under the

state civil service, plus retirement costs, other fringe benefits, or any costs directly related to the payment of the employees, shall be deducted from the gross amount of the state support allocation to the community mental health authority and expended directly by the department on behalf of the local program.

(2) The department may withdraw funds from any program which is not being administered in accordance with the approved plan and budget after written notice and opportunity for response. The department shall review the budgets and expenditures quarterly and if funds are not needed or were not used for a program for which they were allocated for the period budgeted, it may withdraw the unused funds. It may reallocate the unused funds to other community mental health programs. Unused state funds on hand locally at the close of the fiscal year shall be carried forward to apply against the next year's state support allocation.

(3) Authorized representatives of the department may visit, examine and inspect a service or facility operating under the community services law for purposes of review and evaluation.

(4) Authorized representatives of the department of mental health and the department of treasury may examine the financial records and accounts of a community mental health program receiving or requesting state aid.

(5) Authorized representatives of the department may examine and review clinical case records of a community mental health program or subagency receiving or requesting state aid pursuant to the community services law.

(6) A local mental health authority shall require all contractual agencies receiving state aid pursuant to the community services law to furnish it with an accounting of all fee revenue received from patients, or from persons paying on behalf of patients. The local mental health authority, in determining its total annual program and budget, may adjust and vary the percentage of state funds to be allocated to each contractual agency after considering the amount of fee revenue available to meet program costs. The department, in reviewing and approving local programs, shall apply the 75% state fund matching formula to the total approved program and budget and not to each program entity.

(7) When private practice of professionals outside of regular full or part-time employment is to be permitted, the terms of such policy or agreements, including the control of agency referrals and use of agency property, shall be stated in the minutes as approved by the community mental health services board. The extension of such policy to contract services shall be included in the terms of the contract.

PART 11. COMMUNITY MENTAL HEALTH CENTERS

R 330.111 Definitions.

Rule 111. As used in this part:

(a) "Community mental health center" means an organization of services that may be under 1 or several service entities which affiliate for the purpose of providing a comprehensive range of mental health services to all persons in a fixed geographical area containing a population of not less than 75,000 and not more than 200,000 and as defined in Public Law 88-164, being the community mental health centers act of 1963 and the federal regulations issued thereunder.

(b) "Department" means the Michigan department of mental health.

(c) "Service entity" means a governmental or nongovernmental organization supplying 1 or more elements of mental health services as a part of a community mental health center.

(d) "Service element" means 1 of the mental health services listed in the federal regulations issued under Public Law 88-164, being the community mental health centers act of 1963, as follows: The 5 essential elements are: inpatient services; outpatient services; partial hospitalization services, such as day care, night care, weekend care; emergency services 24 hours per day; and consultation and educational services to community agencies and professional personnel. Five additional elements are: diagnostic services, rehabilitative services, including vocational and educational programs; pre-care and aftercare services in community, including foster home placement, home visiting and half-way houses; training; and research and evaluation.

History: 1954 ACS 64, p. 33, Eff. Jan. 1, 1971.

R 330.112 Certification; necessity, application, and transfers.

Rule 112. (1) Each of the service entities supplying 1 or more service elements of a mental health center established in this state shall be certified by the department in accordance with the provisions of section 53 of Act No. 151 of the Public Acts of 1923, as amended, being §330.63 of the Michigan Compiled Laws.

(2) Each service entity functioning as a part of a community mental health center shall file an application with the department on forms prescribed and furnished by it for a certificate of approval for the service elements it is supplying, and the service entity shall not continue to function as a part of a mental health center unless it qualifies for and obtains certification.

(3) If a service entity does not meet all requirements for certification for a service element which it offers, the department may issue a provisional certificate of approval for a period not to exceed 6 months, if the department decides that the service element in question can and will be upgraded to comply with all requirements during the period of provisional certification.

(4) A certificate of approval shall be issued without term, but shall be subject to inspection and reevaluation at any time. A certificate of approval is not transferable. A service entity shall notify the department of a change in its sponsorship and operation of any service element by the certified service entity and the existing approval for that service element shall be void as of the date of change. A new sponsoring service entity shall apply for a new certificate of approval.

History: 1954 ACS 64, p. 33, Eff. Jan. 1, 1971.

R 330.113 Formal agreements.

Rule 113. If the service elements of a center are provided by more than 1 service entity, the relationship between the individual elements shall be evidenced by an appropriate compact, interagency contract, or other formal written agreement between or among the multiple service entities, which shall make specific provisions for assuring compliance with these rules.

History: 1954 ACS 64, p. 34, Eff. Jan. 1, 1971.

R 330.114 Fire safety and health standards.

Rule 114. (1) The sponsoring service entity shall submit evidence that the service elements of a community mental health center are approved for fire safety by the state fire marshal or the local fire safety authority which has primary jurisdiction over the facilities.

(2) The sponsoring service entity shall submit evidence that the service elements of a community mental health center conform with the requirements of the local health department and the state department of public health with respect to water supply, sewage system, and general sanitation.

History: 1954 ACS 64, p. 34, Eff. Jan. 1, 1971.

R 330.115 Comprehensive range of services.

Rule 115. In order to qualify for certification to function as a part of a mental health center, a service element shall be adequately staffed with qualified professional and other personnel, who are functioning within policies and practices established and agreed to by the service element and its sponsoring service entity, which permit and facilitate the delivery of its service as a part of a comprehensive range of services. The range of services shall be organized and interrelated to insure continuity of care and to permit a patient to move easily from 1 type of treatment to another as his needs change.

History: 1954 ACS 64, p. 34, Eff. Jan. 1, 1971.

R 330.116 Program operation.

Rule 116. In order to qualify for certification to function as a part of a mental health center, a service entity shall incorporate in its policies and practices and agree, in the performance of its service delivery function:

(a) That clinical information concerning a patient which is obtained within 1 service element shall be made available to those responsible for that patient's care within another element.

(b) That those responsible for a patient's care within 1 service element, when practicable and when not clinically contraindicated, shall be permitted to continue to serve that patient within any of the other elements.

(c) That a person shall not be denied service on the basis of race, color, creed or inability to pay.

(d) That a service entity shall not deny service to a person solely on the ground that the person does not meet a requirement for a minimum period of residence in the service area.

(e) That individual records shall be kept on each patient and shall include the findings from diagnostic studies, the course of treatment, evaluation and disposition recommended.

(f) That a service entity shall collect and maintain relevant data concerning patient characteristics and staff activities, and provide reports of such data as required by the mental health center agreement and as required by the department.

History: 1954 ACS 64, p. 34, Eff. Jan. 1, 1971.

R 330.117 Licensure for mental hospitals and residential care facilities.

Rule 117. A mental hospital or residential care facility functioning as a part of a community mental health center shall be licensed by the department pursuant to sections 51 and 52 of Act No. 151 of the Public Acts of 1923, as amended, being §§330.61 and 330.62 of the Michigan Compiled Laws, and part 9 of these rules.

History: 1954 ACS 64, p. 35, Eff. Jan. 1, 1971.

OFFICE OF LEGAL AND LEGISLATIVE AFFAIRS

GENERAL PROVISIONS

(By authority conferred on the department of mental health by sections 114, 130, 136, 206, 244, 842, 844, and 908 of Act No. 258 of the Public Acts of 1974, as amended, being §§330.1114, 330.1130, 330.1136, 330.1206, 330.1244, 330.1842, *330.1844, and 330.1908 of* the Michigan Compiled Laws)

PART 1. DEPARTMENT OF MENTAL HEALTH
SUBPART 1. GENERAL PROVISIONS

R 330.1001 General definitions.

Rule 1001. (1) As used in these rules, except as otherwise defined in a particular part of a subpart:

(a) "Act" means Act No. 258 of the Public Acts of 1974, as amended, being §330.1001 et seq. of the Michigan Compiled Laws.

(b) "Certified social worker" means a person certified pursuant to Act No. 352 of the Public Acts of 1972, as amended, being §338.1751 et seq. of the Michigan Compiled Laws.

(c) "Child care worker" means a person who has compiled a specialized training program in child care mental health services approved by the department, and who is working under the direct supervision of a mental health professional.

(d) "Department" means the department of mental health.

(e) "Director" means the director of the department or his designee.

(f) "Mental health counselor" means a person who has a graduate degree in counseling, with specific training in mental health, from an accredited university whose graduate counseling program has been approved by the association for counselor education and supervision or the American psychological association.

(g) "Mental health professional" means a person trained and experienced in the areas of mental illness or mental retardation, and who is any 1 of the following:

(i) A physician licensed to practice medicine or osteopathic medicine in Michigan, and who has substantial experience with mentally ill, mentally retarded, or developmentally disabled recipients for 1 year immediately preceding his involvement with a recipient under these rules.

(ii) A psychologist.

(iii) A certified social worker.

(iv) A registered nurse.

(v) A professional person, other than those defined, who is designated by the director or a facility director in written policies and procedures. This mental health professional shall have a graduate degree in his profession and be recognized by his respective professional association as being trained and experienced in the field of mental health.

(h) "Mental health service" means a service directed to the areas of mental illness, mental retardation, developmental disability, or other organic brain and other neurological impairment or disease, alcoholism, or substance abuse pursuant to section 208 of the act.

(i) "Physician" means a person licensed to practice medicine or osteopathic medicine in Michigan, or a holder of a temporary license as provided by law.

(j) "Psychologist" means a person certified as a consulting psychologist, psychologist, or psychological examiner pursuant to Act No. 257 of the Public Acts of 1959, as amended, being §338.1001 et seq. of the Michigan Compiled Laws.

(k) "Registered nurse" means a person licensed to practice in Michigan and who has graduated from a state-approved school of nursing, has a current license, and has 1 year of experience with mentally ill, mentally retarded, or developmentally disabled individuals.

(l) "Trained mental health worker" means a person who has completed a special training program in mental health services approved by the department and who is working under the direct supervision of a mental health professional.

(2) Terms not defined in these rules shall be used as defined in the act.

History: 1954 ACS 34, p. 25, Eff. Jan. 9, 1979.

R 330.1005 Gifts, grants, bequests, and donations; approval.

Rule 1005. (1) Gifts, grants, bequests, and donations with a value of more than $500.00 shall not be accepted by a department facility without approval by the director of the department.

(2) An annual report shall be submitted to the department by department facilities identifying all gifts, grants, bequests, and donations.

History: 1954 ACS 98, p. 36, Eff. Jan. 9, 1979.

R 330.1010 Alcoholism or substance abuse; duplication of program.

Rule 1010. (1) Agencies of the department and county community mental health boards shall not develop, initiate, or maintain support for programs directed toward alcoholism or substance abuse when they are operated or planned by another agency or department of the state or federal government serving the same service area and intended for the same target population.

(2) Agencies of the department and county community mental health boards may provide by contract mental health services for alcoholism or substance abuse programs of the department of public health.

History: 1954 ACS 98, p. 36, Eff. Jan. 9, 1979.

R 330.1015 Research.

Rule 1015. Research initiated, conducted, or supported by the department, or engaged in by staff of department facilities, licensed or certified agencies, or agencies with whom it has contracts, shall be subject to administrative rules, department policies and procedures, and shall follow federal guidelines.

History: 1954 ACS 98, p. 36, Eff. Jan. 9, 1979.

SUBPART 2. COMMUNITY MENTAL HEALTH CENTERS

R 330.1021 Definitions.

Rule 1021. As used in this subpart:

(a) "Community mental health center" or "center" means either of the following:

(i) An organization of service which consists of 1 or more affiliated service entities, certified by the department, for the purpose of assuring a comprehensive range of mental health services to persons in a geographical area containing a population which meets federal requirements and funded under the community mental health centers act of 1963, 42 U.S.C. 2661 et seq., and the federal regulations issued thereunder.

(ii) An organization of services which consists of 1 or more affiliated service entities, certified by the department, for the purpose of assuring a comprehensive range of mental health services to persons within a service area, and which is designated by the department as a community mental health center.

(b) "Service element" means 1 of the mental health services listed in the federal regulations issued under Public Law 88-164, as amended. The 5 essential elements are: (1) inpatient services; (2) outpatient services; (3) partial hospitalization services, such as day care, night care, and weekend care; (4) emergency services, 24 hours per day; and (5) consultation and educational services to community agencies and professional personnel. Five additional elements are: (1) diagnostic services; (2) rehabilitative services, including vocational and educational programs; (3) pre-care and aftercare services in the community, including foster home placement, home visiting, and halfway houses; (4) training; and (5) research *and evaluation.*

(c) "Service entity" means an organization supplying 1 or more elements of mental health service as a part of a community mental health center.

History: 1954 ACS 98, p. 36, Eff. Jan. 9, 1979.

R 330.1025 Designation of center; certification of service entity.

Rule 1025. (1) Only an organization composed of 1 or more service entities certified by the department may be designated as a community mental health center. A service entity supplying 1 or more service elements of a community mental health center shall be certified by the department pursuant to section 130 of the act. A service entity intended to function as a part of a community mental health center shall file an application with the department on forms prescribed and furnished by it for a certificate of approval for the service elements the entity intends to supply.

(2) Certification as a service entity shall be based on the following requirements:

(a) A service entity shall insure that the service elements it provides are organized and related to insure continuity of care and to permit recipients to move easily from one type of service to another as recipient needs change.

(b) A service entity shall assure, in policies and procedures and in delivery of service, that:

(i) A person shall not be denied service on the basis of race, color, nationality, religious or political belief, sex, age, county of residence, or ability to pay. This assurance shall be specified in program statements of the service entity and in all contractual agreements which provide for supply of services.

(ii) A person shall not be denied service on the basis that the person does not meet a requirement for a minimum period of residence in a service area.

(iii) Inpatient psychiatric services shall be licensed by the department pursuant to sections 134 to 150 of the act and administrative rules promulgated thereunder.

(iv) Recipients have the rights guaranteed by the act and the rules promulgated thereunder.

(v) Personnel policy and procedures shall not discriminate against employees or applicants for employment with respect to hiring, tenure, terms, conditions or privileges of employment, or any matter directly or indirectly related to employment because of race, color, nationality, religious or political belief, sex, or age, unless a requirement of sex or age is based on a bona fide occupational qualification.

History: 1954 ACS 98, p. 37, Eff. Jan. 9, 1979.

R 330.1028 Service entity; records.

Rule 1028. (1) A service entity shall maintain administrative records, including all of the following:

(a) Recipient contacts and referrals.
(b) Personnel policies and practices.
(c) Job descriptions.
(d) Personnel procedures.

(2) A service entity shall maintain case records for each recipient, including, where appropriate:

(a) Identification data and consent forms.
(b) Personal history.
(c) Evaluations and examinations.
(d) Individualized treatment plans.
(e) Termination summaries.

History: 1954 ACS 98, p. 37, Eff. Jan. 9, 1979.

R 330.1031 Service entity; provisional certificate of approval.

Rule 1031. If a service entity does not meet requirements for certification for a service element which it offers, the department may issue a provisional certificate of approval for a period not to exceed 6 months, based on a judgment that the service element in question will comply with these requirements before the end of the period of provisional certification.

History: 1954 ACS 98, p. 37, Eff. Jan. 9, 1979.

R 330.1034 Service entity; biannual certificate of approval.

Rule 1034. An eligible service entity shall be issued a certificate of approval biannually. A service entity shall be subject to inspection and reevaluation by the department at any time. A certificate of approval is not transferable. A service entity shall notify the department of a change in sponsorship or operation of the service entity or of any service element. Existing approval shall be void on the date of change, and the service entity shall apply for a new certificate of approval.

History: 1954 ACS 98, p. 37, Eff. Jan. 9, 1979.

R 330.1037 Contracts or agreements between service entities and service elements.

Rule 1037. If service elements of a center are provided by more than 1 service entity, the relationship between the service entities and the service elements shall be by contract or formal written agreement, which shall make specific provision for assuring compliance with these rules. Copies of contracts and formal written agreements shall be included with applications for certification.

History: 1954 ACS 98, p. 38, Eff. Jan. 9, 1979.

R 330.1041 Evidence of fire safety approval.

Rule 1041. When applying for certification and during inspections, a service entity shall submit evidence that the facilities of service elements are approved for fire safety by the state fire marshal or a local fire safety authority, whichever has primary jurisdiction.

History: 1954 ACS 98, p. 38, Eff. Jan. 9, 1979.

R 330.1045 Service element; staff; policies and procedures; space and facilities.

Rule 1045. (1) A service element shall be staffed with qualified professional, nonprofessional, and supporting personnel.

(2) A service element shall have written policies and procedures which facilitate delivery of service as part of a comprehensive range of services, established and agreed to by the service element and the sponsoring service entity.

(3) A service element shall have space and facilities which meet the standards of the department.

History: 1954 ACS 98, p. 38, Eff. Jan. 9, 1979.

R 330.1051 Center; location and accessibility of services.

Rule 1051. (1) Services of a center shall be conveniently located for the population of the defined service area. Factors such as density of population, geographic and chronological distances, and availability of public transportation shall be considered in the determination.

(2) A center shall be free of physical obstacles to recipients whose mobility is *impaired by physical* handicaps.

(3) A center shall offer services at times which are compatible with the schedules of its service population to enable recipients to receive services with a minimum of disruption to other essential aspects of their lives.

History: 1954 ACS 98, p. 38, Eff. Jan. 9, 1979.

R 330.1053 Center; requirements generally.

Rule 1053. (1) A center shall identify all of the following:

(a) Service agency which delivers services.

(b) Recipients.

(c) The amount of service given to each recipient.

(d) The type of service and rationale for services offered, including indirect services.

(2) A center shall insure:

(a) That policies and procedures governing protection of stored recipient information are developed, maintained, and followed.

(b) That copies of signed release-of-information forms are included in the case records of recipients.

(c) That there is periodic review of client case records to determine whether they contain the required service documentation and release-of-information records.

History: 1954 ACS 98, p. 38, Eff. Jan. 9, 1979.

R 330.1055 Center; fiscal management.

Rule 1055. A center shall insure efficient distribution of funds according to procedures which include uniform accounting and purchasing policies, unit cost analyses, annual audits, contracts, and a preliminary plan of expenditures, and shall be based on the following:

(a) Clear, up-to-date records of expenditures.

(b) A unit cost analysis of services performed not less than annually.

(c) Purchasing policies which require systematic approval by responsible agency staff of expenditure for supplies, equipment, and contracted services.

(d) Spending reports made available annually to the department.

History: 1954 ACS 98, p. 38, Eff. Jan. 9, 1979.

R 330.1057 Management information system; program evaluation; staff evaluation.

Rule 1057. (1) A center shall have a management information system consistent with that of the department, and consistent with that of the local community mental health board when the board contracts with the centers, which provides sufficient information about the functioning of the center to help determine to what degree programs are meeting their goals, including mechanisms for collecting pertinent, accurate data; provisions for interpreting data in a form that is useful for decision makers; a means for communicating information to program managers; mechanisms for making program changes as needed; and mechanisms for refining program evaluation systems to improve usefulness, economy of effort, and accuracy.

(2) A center shall provide opportunities for users of the evaluation system to influence initial planning and ongoing refinement of the system.

(3) Information for program evaluation shall be based on data which is sufficiently current to facilitate program decisions.

(4) A center staff evaluation program shall provide periodic assessments of the degree to which each staff person is adequately performing the functions of his

position. Assessments shall be clearly communicated to the evaluated staff person and program managers involved in staff placement and training.

History: 1954 ACS 98, p. 38, Eff. Jan. 9, 1979.

R 330.1059 Center; duties.

Rule 1059. (1) A center shall adopt purpose and service definitions that are in harmony with the needs of the population of the defined service area, contractual agreements with funding sources, limitations of resources, and legal and other constraints.

(2) A center shall coordinate its services with other mental health services and pertinent human services to assure that needs of the center's recipients are met in a comprehensive manner without fragmentation or duplication. To accomplish this, a center shall:

(a) Participate in community and regional planning, including health systems agency planning.

(b) Establish continuity of care agreements between appropriate service entities and with appropriate agencies providing services to the population of the center's service area, including department facilities.

(c) Whenever possible, provide the mental health component of health services established in the service area by health maintenance organizations and community health centers.

History: 1954 ACS 98, p. 39, Eff. Jan. 9, 1979.

SUBPART 3. MENTAL RETARDATION SERVICE FACILITIES

R 330.1075 Certification.

Rule 1075. A mental retardation service facility established under Public Law 88-164, 42 U.S.C. 2661 et seq., or Public Law 90-170, 42 U.S.C. 2661 et seq., shall obtain and maintain certification by the department.

History: 1954 ACS 98, p. 39, Eff. Jan. 9, 1979.

SUBPART 4. LICENSING AND REGULATION OF MENTAL HOSPITALS, PSYCHIATRIC FACILITIES, AND PSYCHIATRIC UNITS

R 330.1201 Definitions.

Rule 1201. As used in this subpart:

(a) "Active treatment" means services that are:

(i) Provided under an individualized plan of services.

(ii) Directed toward improving or maintaining the patient's condition.

(iii) Provided, or supervised and evaluated, by a mental health professional.

(b) "Activity area" means a space made available to patients for diversional and social activities.

(c) "Certified social worker," "social worker," or "social work technician" means certified by the board of examiners of social workers pursuant to Act No. 352 of the Public Acts of 1972, as amended, being §338.1751 et seq. of the Michigan Compiled Laws.

(d) "Hospital" means a mental hospital, psychiatric hospital, or psychiatric unit not operated by the department of mental health or by the federal government.

(e) "Major construction" means any change or addition to, or renovation of, an existing structure that would require an architect or an engineer to design a plan or that would cost over $100,000.00.

(f) "Medical record librarian" or "accredited record technician" means a *person who has successfully* passed an appropriate examination conducted by the

American medical record association, or who has an accepted equivalent of that examination.

(g) "Mental health counselor" means a person who has a graduate degree in counseling with specific training in mental health from an accredited university whose counseling program has been approved by the association for counselor education and supervision or the American psychological association.

(h) "Mental health professional" within a licensed hospital means a psychiatrist, as defined in chapter 4 of the act, a pediatrician, a psychologist, a certified social worker, or a registered nurse.

(i) "Mental hospital" or "psychiatric hospital" means a free-standing establishment offering inpatient services for observation, diagnosis, active treatment, and overnight care of persons with a mental disease, or with a chronic mental condition requiring daily direction or supervision of physicians and mental health professionals licensed to practice in this state.

(j) "Physician" means an individual who is licensed to practice medicine or osteopathic medicine in Michigan.

(k) "Psychiatric unit" means a coordinated psychiatric inpatient program of a general hospital offering services for observation, diagnosis, active treatment, and overnight care of persons with a mental disease, or with a chronic mental condition requiring the daily direction or supervision of physicians or mental health professionals licensed or certified to practice in this state.

(l) "Psychologist" means a person certified as a consulting psychologist, psychologist, or psychologist examiner pursuant to Act No. 257 of the Public Acts of 1959, as amended, being §338.1001 et seq. of the Michigan Compiled Laws.

(m) "Registered music therapist" means a person professionally educated in a curriculum approved by the national association for music therapy, inc., at a university holding membership in the national association of schools of music, who holds current registration with the national association of music therapists.

(n) "Registered nurse" means a professional nurse licensed to practice in Michigan and who has graduated from a state-approved school of nursing, possesses a current license, and has at least 1 year of experience with mentally ill, mentally retarded, or developmentally disabled individuals.

(o) "Registered occupational therapist" means a person professionally educated in a curriculum jointly accredited by the American medical association council on education and the American occupational therapy association, who has a baccalaureate degree, and holds current registration with the American occupational therapy association.

(p) "Registered recreational therapist" means a person professionally educated in a curriculum that is approved by the national recreation and park association, who has a major in therapeutic recreation specialists, or master therapeutic recreation specialist with the national therapeutic recreation society.

History: 1954 ACS 98, p. 39, Eff. Jan. 9, 1979.

R 330.1210 License; application; duration; renewal; qualifications.

Rule 1210. (1) A hospital shall not be established or maintained in this state, nor shall the terms "mental hospital," "psychiatric hospital," or "psychiatric unit" be used without first obtaining a license from the department.

(2) A license as a mental hospital, psychiatric hospital, or psychiatric unit shall not be issued by the department without first receiving an application for a license, filed with the department on prescribed forms.

(3) A license shall be issued for 1 year and may be renewed on an annual basis.

(4) To be considered for licensing a hospital shall:

(a) Be in compliance with parts 1, 4, and 7 of these rules.

(b) Have approval of the state fire marshal.

(5) A copy of the applicable standards shall be furnished with each application for license and the applicant shall acknowledge receipt of the standards and agree to comply with them by signing a form provided for that purpose. The form shall be filed with the application for license.

History: 1954 ACS 98, p. 40, Eff. Jan. 9, 1979.

R 330.1213 Temporary permit.

Rule 1213. A nonrenewable temporary permit may be issued by the director for a period of not more than 6 months if a hospital does not meet the program requirements for licensing. The time period covered by the temporary permit shall be used to conduct an investigation and to undertake remedial action. Application shall be filed with the department on the prescribed forms and shall be accompanied by the statutory fee.

History: 1954 ACS 98, p. 40, Eff. Jan. 9, 1979.

R 330.1214 Provisional licenses.

Rule 1214. A provisional license may be issued to a hospital unable to comply with rules relating to physical facilities for any length of time up to 1 year, but shall not exceed 2 years. Application shall be filed with the department on prescribed forms and shall be accompanied by the statutory fee.

History: 1954 ACS 98, p. 41, Eff. Jan. 9, 1979.

R 330.1215 Construction permits.

Rule 1215. A construction permit shall be obtained from the department before a licensed hospital begins major construction. Application shall be filed with the department on prescribed forms, shall be accompanied by the statutory fee, and if also licensed by the department of public health, shall comply with the provisions of Act No. 256 of the Public Acts of 1972, being §331.451 et seq. of the Michigan Compiled Laws, covering certificate of need, and if not, shall comply with provisions of section 1122 of amendments of the social security act of 1972, Public Law 92-603, 42 U.S.C. 401 et seq., 1395, 26 U.S.C. 1401, 1402, 3111, 3121, and 6143.

History: 1954 ACS 98, p. 41, Eff. Jan. 9, 1979.

R 330.1220 Transferral of hospital license.

Rule 1220. (1) A hospital license is not transferable. A change in location, ownership, or program shall require a new application for license.

(2) The department shall be notified in advance of a change. The existing license shall be void as of the date of the change and returned to the department.

(3) A change of ownership shall be reported to the department when there is a sale or transfer of 10% or more of the stock of a corporation owning a licensed hospital. The existing license shall be void as of the date of this change and returned to the department.

History: 1954 ACS 98, p. 41, Eff. Jan. 9, 1979.

R 330.1223 Application for license.

Rule 1223. Application for a hospital license shall be filed on forms prescribed by the department and shall contain all of the following:

(a) The names of the individual stockholders and percentage of stock owned *by each, and the names* of the individuals composing the governing body.

(b) An indication of whether the hospital is a member of any state or national association.

(c) An indication of whether the hospital is accredited by the joint commission on accreditation of hospitals. If it has applied for accreditation and was disapproved, it shall attach to the application a copy of the joint commission on accreditation of hospitals notification of disapproval, including the list of recommendations. If it is already accredited, it shall attach to the application a copy of the joint commission on accreditation of hospitals notification of accreditation, including the list of recommendations.

(d) A description of procedures and practices followed to insure the physical health of employees.

(e) A narrative description of the program plan of the hospital.

(f) Current staffing patterns and list of employees involved in the professional care and treatment of patients, with their respective license or certification numbers with the date of expiration.

(g) Evidence of conformity with standards and requirements of the department of public health.

(h) A floor plan of the space devoted to patient care and activities. This plan shall illustrate the exact inside dimensions of each patient care room, the number of beds in each room, and the dimensions and use of other activity areas. Seclusion or quiet rooms and their dimensions shall be specifically identified.

(i) For a mental hospital or psychiatric hospital, a written agreement with a general hospital or group of physicians concerning provision of necessary medical care, including emergency care not provided in the hospital.

History: 1954 ACS 98, p. 41, Eff. Jan. 9, 1979.

R 330.1226 Emergency medical certification.

Rule 1226. A licensed hospital shall provide initial medical certification, as defined in chapter 4 of the act, by a qualified staff person when an individual is presented for examination at a time when a qualified staff person is on duty.

History: 1954 ACS 98, p. 41, Eff. Jan. 9, 1979.

R 330.1228 Probate court hearing.

Rule 1228. A licensed hospital shall provide appropriate space for probate court hearings on involuntary admissions if a court deems it practicable to convene at the hospital.

History: 1954 ACS 98, p. 42, Eff. Jan. 9, 1979.

R 330.1232 Inspections.

Rule 1232. (1) The state fire marshal or his designee may enter and inspect the premises of an applicant or licensee at any reasonable time.

(2) The director of the department of public health or his designee may enter the premises of an applicant or licensee at any reasonable time for the purpose of determining whether the hospital meets the physical and operational standards or other requirements of the department of public health.

(3) The director or his designee shall be permitted to make on-site inspections and comprehensive evaluations of the program of a hospital at any reasonable time.

(4) Copies of inspection reports shall be sent to the applicant or licensee.

History: 1954 ACS 98, p. 42, Eff. Jan. 9, 1979.

R 330.1235 Physical environment.

Rule 1235. A hospital shall be:

(a) Constructed, equipped, and maintained to insure the safety of patients, employees, and the public.

(b) In compliance with all applicable state and local codes governing hospital construction.

History: 1954 ACS 98, p. 42, Eff. Jan. 9, 1979.

R 330.1250 Refusal to issue or renew and suspension or revocation of license.

Rule 1250. If an inspection and evaluation results in findings of demonstrable deficiencies in the program, operating practices, or physical conditions of a hospital, as specified in the act or these rules, those findings shall be grounds for refusal to issue or renew a license or for suspension or revocation of a license:

(a) The department shall list and describe deficiencies upon which it bases refusal to issue or renew or for suspension or revocation of a license.

(b) This list and description shall be sent to the applicant or licensee, stating proposed action and date for hearing.

History: 1954 ACS 98, p. 42, Eff. Jan. 9, 1979.

R 330.1252 Public inspection of license application records.

Rule 1252. The department shall make available for public inspection records pertaining to the application for continued licensure of a hospital.

(a) Records shall be available for public inspection in the department's office in Lansing, Michigan, during regular office hours.

(b) A report of department inspections shall be available 30 days after the department mails or otherwise delivers a copy of an inspection report to the applicant or licensee.

(c) Records shall include all of the following:

(i) A copy of the application for license.

(ii) A copy of the license if one has been issued, or a record of its contents and date of issue if a copy has not been retained.

(iii) Copies of reports of inspections made by the department to the applicant or licensee and responses, if any, of the applicant or licensee.

(iv) Copies of final orders or decisions in contested cases and the records on which they were based.

(d) The department may delete from records to be inspected matters described in section 13 of Act No. 442 of the Public Acts of 1976, being §15.243 of the Michigan Compiled Laws.

(e) Copies of records pertaining to licenses processed by the department will be available to the public by application to the department and at the expense of the applicant.

History: 1954 ACS 98, p. 42, Eff. Jan. 9, 1979.

R 330.1255 Disaster plan and emergency procedures.

Rule 1255. (1) A hospital shall have written procedures to be followed in case of fire, explosion, or other emergency, including all of the following:

(a) Persons to be notified.

(b) Location of alarm signals and fire extinguishers.

(c) Evacuation routes.

(d) Procedures for evacuation of helpless patients.

(e) Assignment of specific tasks and responsibilities to personnel on each shift.

(2) Frequency of, and procedures for, fire drills and simulated disaster drills shall be included in the written policy of a hospital.

(3) A hospital shall conduct a simulated drill to test the effectiveness of the disaster plan not less than 3 times a year.

(4) The disaster plan and frequency of simulated drills shall be prominently posted and made available to all employees.

(5) A psychiatric unit within a general hospital licensed by the department of public health shall follow the written emergency procedures of the hospital. If the hospital is unlicensed, the psychiatric unit shall establish and follow written emergency procedures.

(6) A hospital shall have written procedures by which patients can be speedily removed from restraint or seclusion in the case of emergency.

(7) A hospital shall assure that personnel are trained to perform tasks assigned to them in emergency plans.

History: 1954 ACS 98, p. 42, Eff. Jan. 9, 1979.

R 330.1260 Rights of recipients.

Rule 1260. A hospital shall insure, in written policy and in practice, that individuals receiving services shall be entitled to the rights guaranteed by the act and the rules promulgated thereunder.

History: 1954 ACS 98, p. 43, Eff. Jan. 9, 1979.

R 330.1265 Governing body.

Rule 1265. (1) A hospital licensed by the department shall have a governing body responsible for all of the following:

(a) Administration and management of the hospital.

(b) Selection of medical staff and quality of care rendered by the hospital.

(c) Assuring that physicians and other personnel for whom a state license, certification, or registration is required are currently licensed, certified, or registered.

(2) The governing body of a licensed hospital shall adopt bylaws that are in accordance with legal requirements.

(3) The governing body of a licensed hospital shall certify to the department that the hospital does not discriminate against any person on the basis of race, color, nationality, religious or political belief, sex, or age in any area of its operation. This includes the areas of:

(a) Employment.

(b) Patient admission and care.

(c) Professional and nonprofessional training programs.

(4) The governing body shall direct the administration of the hospital to take action to assure that the hospital adheres to nondiscriminatory practices.

History: 1954 ACS 98, p. 43, Eff. Jan. 9, 1979.

R 330.1267 Administrator and chief of service.

Rule 1267. (1) The governing body of a licensed hospital other than a psychiatric unit shall appoint a person, responsible to them, as an administrator, whose primary duties shall be to:

(a) Organize and oversee daily administrative functions of the hospital.

(b) Maintain effective liaison between the staff, departments of the hospital, and the governing body.

(2) The administrator, acting in behalf of the governing body, shall appoint a psychiatrist with a current license in the state of Michigan as the chief of service responsible for:

(a) The general character of professional diagnostic and treatment care provided.

(b) Recommendations to the administration concerning equipment, routine procedures, and other matters concerning patient care.

History: 1954 ACS 98, p. 43, Eff. Jan. 9, 1979.

R 330.1269 Available services.

Rule 1269. (1) A hospital shall have available the services of a sufficient number of appropriately qualified mental health professionals and supporting staff to develop and carry out the program plan. These shall include all of the following:

(a) Educators.
(b) Occupational, music, or recreational therapists.
(c) Registered nurses.
(d) Psychiatrists and other physicians.
(e) Psychologists.
(f) Social workers.
(g) Vocational counselors.
(h) Mental health counselors.

(2) The administrator of a hospital which has a separate, formal program for adolescents or children, or both, shall insure that the fundamental needs of the patients are met and shall have available services of a sufficient number of appropriately qualified mental health professionals and support staff as necessary to develop and carry out the program plan. These shall include all of the following:

(a) Child care workers.
(b) Educators.
(c) Mental health counselors.
(d) Occupational, music, or recreational therapists.
(e) Psychiatrists and other physicians.
(f) Psychologists.
(g) Registered nurses.
(h) Social workers.
(i) Speech, hearing, and language specialists.
(j) Vocational counselors.

History: 1954 ACS 98, p. 43, Eff. Jan. 9, 1979.

R 330.1274 Notification of deaths.

Rule 1274. The administrator or his designee shall inform the department, as soon as administratively possible, of all deaths.

History: 1954 ACS 98, p. 44, Eff. Jan. 9, 1979.

R 330.1276 Records.

Rule 1276. (1) A licensee shall maintain and make records available for examination by the department on:

(a) Employee health:

(i) Policies and procedures followed by the hospital to insure that employees *are in good physical* and mental health.

(ii) Documentation which substantiates that these policies and procedures have been uniformly implemented.

(b) Periodic inspection by local and state fire marshals.

(c) Execution of fire and simulated disaster plan drills.

(d) Health inspections, including both of the following:

(i) Inspections by state or local health authorities.

(ii) Documentation of actions taken to comply with department of public health recommendations.

(e) Reports of the joint commission on accreditation of hospitals, including both of the following:

(i) Notification of accreditation and a list of recommendations.

(ii) Notification of disapproval and a list of recommendations.

(2) A licensee shall maintain and make available for examination by the department administrative records that shall include all of the following:

(a) Admissions, discharges, transfers, and deaths.

(b) Complete and accurately written:

(i) Personnel policies and procedures.

(ii) Job descriptions.

(iii) Personnel assignments.

(c) Written policies and procedures relating to the notification of responsible persons in the event of a significant change in the physical or mental condition of a patient.

(d) Records of all of the following:

(i) Unusual deaths of patients.

(ii) Unusual behavior of, or incidents regarding, patients.

(iii) Accidents or injuries.

(e) Patient movement, in and out of the hospital.

(3) A licensee shall maintain an adequate medical record for every patient in the hospital, including all of the following:

(a) Identification data and consent forms.

(b) History of the patient.

(c) Reports of:

(i) Psychiatric evaluation.

(ii) Neurological and physical examination.

(iii) Other diagnostic procedures and examinations.

(d) Individualized plan of services.

(e) Medical orders.

(f) Observations.

(g) Reports of actions, findings, and conclusions.

(h) Discharge summary.

(4) Medical records shall be confidential, as required by section 748 of the act, and shall be current and accurate.

(5) A qualified medical record librarian or an accredited record technician shall be employed on a full-time or part-time basis, in order to facilitate accurate processing, checking, indexing, and filing of medical records.

(6) The medical record service shall maintain a system of identification and filing to facilitate prompt location of patient's medical records.

R 330.1281 Physician responsibility.

Rule 1281. (1) Health care of every patient shall be under the supervision of a physician, from time of admission to discharge.

(2) The type, duration, and amount of medications and medical treatment shall be ordered by a patient's physician, or by a hospital physician if the patient's physician is not available.

History: 1954 ACS 98, p. 45, Eff. Jan. 9, 1979.

R 330.1285 Nursing.

Rule 1285. (1) A facility shall have an organized nursing service adequate to care for the patients.

(2) A nursing service shall have a written plan that delineates its functional structure and its mechanism for cooperative planning and decision making, including periodic review and evaluation of the plan.

(3) A nursing service shall have written policies and procedures, including a system of annual review and update, for provisions of nursing services, and for direction of nursing personnel in performance of their duties.

(4) A nursing service shall be under the direction of a qualified professional nurse who shall have at a minimum:

(a) A bachelor's degree.

(b) Three years' psychiatric nursing work experience.

(c) A current Michigan license as a registered nurse.

(5) Administrative and clinical consultation shall be available to the director of nursing from a qualified psychiatric nursing specialist with a master's degree, unless the director of nursing is so qualified.

(6) There shall be not less than 1 licensed registered nurse with 1 year of psychiatric nursing experience on duty on each work shift within a hospital.

(7) A licensed hospital shall provide a ratio of clinical nursing personnel to number of patients 24 hours a day to carry out the individual service plan for each patient.

(a) Determination of the ratio shall be made in accordance with the nursing program requirements for each nursing unit of the hospital.

(b) Once determined it shall be stated in the nursing organization plan and program and thereafter maintained not less than the stated level until there is a change in the type of patient care required.

(8) Orientation and staff development programs in psychiatric nursing shall be provided for all psychiatric nursing personnel.

History: 1954 ACS 98, p. 45, Eff. Jan. 9, 1979.

R 330.1287 Social service staff requirements.

Rule 1287. (1) A hospital shall have an organized social services program and staff adequate to meet the social service needs of the patients.

(2) A social service program shall have a written plan describing arrangements for the provisions of the services.

(3) A social services program shall have written policies and procedures for provision of social services, including a system of review and annual update, to guide social service personnel in the performance of their duties.

(4) A social services program shall be under the supervision of a certified social worker on a full-time or part-time basis.

(5) Staff social workers shall be certified.

(6) Orientation and staff development programs shall be provided for social service personnel.

History: 1954 ACS 98, p. 45, Eff. Jan. 9, 1979.

R 330.1289 Psychological services.

Rule 1289. (1) A psychological services program shall have a written plan arrangement for the provision of services.

(2) A psychological services program shall have written policies and procedures for provision of psychological services, including a system of review and annual update, to guide psychological services personnel in the performance of their duties.

(3) A psychological services program shall be under the supervision of a certified consulting psychologist on a full-time or part-time basis.

(4) When the hospital has psychological staff in its employ, orientation and staff development programs shall be provided.

History: 1954 ACS 98, p. 46, Eff. Jan. 9, 1979.

R 330.1291 Activity therapy service staff requirements.

Rule 1291. (1) A hospital staff shall have an organized activity therapy services program and staff adequate to meet the therapeutic activity needs of the patients.

(2) An activity therapy services program shall have a written plan describing arrangements for the provision of services.

(3) An activity therapy services program shall have written policies and procedures for provision of activity services, including a system of review and annual update, to guide activity services personnel in the performance of their duties.

(4) An activity therapy services program shall be under the supervision of a registered occupational, music, or recreational therapist, on a full-time or part-time basis. The program may be directed by a mental health professional.

(5) Orientation and staff development programs shall be provided for activity therapy services personnel.

History: 1954 ACS 98, p. 46, Eff. Jan. 9, 1979.

R 330.1295 Posting of license and fire regulations.

Rule 1295. (1) A current license shall be prominently posted in a conspicuous place in the hospital.

(2) Fire regulations shall be prominently posted and carefully observed.

History: 1954 ACS 98, p. 46, Eff. Jan. 9, 1979.

R 330.1299 Waiver of licensure requirements.

Rule 1299. (1) The director may issue a temporary waiver of a requirement for licensure when:

(a) There is justifiable and documented reason why the requirement cannot be met.

(b) Temporary waiver of the requirement would not significantly reduce effective treatment, nor adversely affect the health of patients.

(c) All other requirements are met.

(d) The provisions of the mental health code are not violated.

(2) A waiver of a requirement shall be for 1 year and may be renewed if:

(a) The applicant shows evidence that significant attempts were made to meet the requirement.

(b) Services to residents were not significantly affected because the licensee has not met the requirement.

(3) A request for waiver, and supporting arguments, shall accompany the original application for license and subsequent annual renewals, when applicable.

(4) A waiver shall only apply to rules between R 330.1210 to R 330.1295 of these rules.

History: 1954 ACS 98, p. 46, Eff. Jan. 9, 1979.

PART 2. COMMUNITY MENTAL HEALTH PROGRAMS
SUBPART 1. COMMUNITY MENTAL HEALTH SERVICES

R 330.2005 Minimum services to be provided.

Rule 2005. A community mental health board shall insure that the following minimum types and scopes of mental health services are provided to all age groups either directly by the board, by contract, or by formal agreement with public or private agencies or individuals:

(a) Twenty-four hour intervention services.
(b) Prevention services.
(c) Outpatient services.
(d) Aftercare services.
(e) Day program and activity services.
(f) Public information services.

History: 1954 ACS 98, p. 46, Eff. Jan. 9, 1979.

R 330.2006 Twenty-four hour emergency intervention services.

Rule 2006. (1) Emergency intervention services shall include both of the following:

(a) A 24-hour telephone service by which mental health professionals or trained mental health workers evaluate client-defined emergencies and provide counseling and referrals to insure rapid provision of appropriate intervention.

(b) Provision for immediate backup services appropriate for the range of needs presented to the 24-hour crisis telephone service, including face-to-face counseling, hospitalization, residential service, and home visits.

(2) Policies and procedures of the agency providing emergency service shall insure that every request for service in a client-defined emergency receives at least an immediate initial evaluation of the degree of urgency.

(3) A community mental health board shall publish telephone numbers of emergency service telephones in telephone directories and shall further disseminate these numbers to community agencies and the public.

History: 1954 ACS 98, p. 47, Eff. Jan. 9, 1979.

R 330.2007 Prevention services.

Rule 2007. (1) Each county's proposed budget shall contain a proportion, for prevention services related to populations at risk, and collaborative programming with other agencies.

(2) Department policies and procedures for programs of prevention shall be used in establishing prevention services.

History: 1954 ACS 98, p. 47, Eff. Jan. 9, 1979.

R 330.2008 Outpatient services.

Rule 2008. (1) Outpatient services shall include all of the following:

(a) Diagnostic and evaluation service.
(b) Referral service.
(c) Counseling service by arrangement at scheduled intervals and in non-scheduled visits at times of increased stress.
(d) Service to families of individuals in mental hospitals or residential facilities, as appropriate and as requested.
(e) Life consultation and planning for the mentally retarded, and persons with *developmental disabilities* as defined in section 500(h) of the act.

(f) Treatment service to individuals in mental hospitals or residential facilities when appropriate with the consent of the individual and the hospital or facility staff person in charge of the individual's plan of service.

(2) Outpatient services shall be made available at times of the day and week appropriate to meet the needs of the population served.

(3) Outpatient services shall be accessible to the population served.

(4) There shall be provision for adequate and appropriate space to deliver services, including provision for privacy and the special needs of children, adolescents, and physically handicapped persons.

History: 1954 ACS 98, p. 47, Eff. Jan. 9, 1979.

R 330.2009 Aftercare services.

Rule 2009. (1) Aftercare services shall only be provided with prior consent of an individual over the age of 18, a parent if the individual is under 18, or a legally empowered guardian.

(2) These aftercare services shall include both of the following:

(a) Follow-up services to assist individuals released from a hospital or facility or who have received other services from a community mental health program.

(b) Mental health services for individuals placed in foster care, family care, or community placement in the service area, unless otherwise provided. Collaborative programming and planning for provision of services shall take place before the time of placement.

(3) Aftercare services shall be available to individuals located within the service area regardless of whether or not the individual was a resident of the county or counties of the service area prior to admission to a hospital or facility.

(4) A county may be billed for services rendered to its residents pursuant to section 306 of the act.

(5) Aftercare services shall be offered by a community mental health agency without a request for service by a released individual, when authorized by the individual, and upon notification from a hospital or facility.

History: 1954 ACS 98, p. 47, Eff. Jan. 9, 1979.

R 330.2010 Day program and activity services.

Rule 2010. Day program and activity services shall include providing habilitative and rehabilitative treatment and training activity for mentally ill children, mentally ill adults, mentally retarded children, mentally retarded adults, and persons with a developmental disability requiring services similar to those provided mentally retarded persons.

History: 1954 ACS 98, p. 48, Eff. Jan. 9, 1979.

R 330.2011 Public information services.

Rule 2011. Public information services shall include all of the following:

(a) Coordinating with community agencies and individuals involved with the mental health and general health of the community to provide a unified mental health information service with the cooperation of the department information office.

(b) A program of increasing the visibility of community mental health services.

(c) Distribution and dissemination of relevant mental health information, including mental health trends and priority of mental health needs of the population served.

History: 1954 ACS 98, p. 48, Eff. Jan. 9, 1979.

R 330.2022 Waiver of minimum services.

Rule 2022. (1) If a community mental health board cannot insure minimum services to all age groups, the board shall request a waiver of type or scope of services, or both, from the director of the department.

(a) Twenty-four hour emergency intervention services to all age groups shall not be waived.

(b) The board shall initiate a waived type or scope of service within 24 months after the date application for a waiver is approved, contingent upon availability of funds. This may be accomplished with the cooperation of another board or boards.

(c) To the extent fiscally possible, the board shall make arrangements for referral of those residents needing a waived service and for follow-up and continuity of care services in order that residents of the service area may obtain minimum direct services during the waived period.

(2) An application for waiver of specific types or scopes of minimum services shall be included in the proposed program and budget requests.

(3) An application for waiver shall include all of the following:

(a) The types or scopes of services to be waived.

(b) The justification for a waiver, in detail.

(c) A description of the services to be waived.

(d) A description of the manner in which waived services may be provided by the end of the waiver period, including plans and dates for their initiation.

(e) A description and plan as to how the residents of the service area may receive waived minimum services during the waiver period. Plans shall include arrangements for referral, follow-up, and continuity of care.

History: 1954 ACS 98, p. 48, Eff. Jan. 9, 1979.

SUBPART 2. COMMUNITY MENTAL HEALTH BOARD REPORTS

R 330.2035 Community assessment report.

Rule 2035. (1) One year from the establishment of a community mental health board pursuant to the act and on dates specified by the department, a community mental health board, with the assistance of the department, shall prepare a written assessment of community needs, including all of the following:

(a) A description of the population served, including demographic information, geographic descriptions, economic data, and estimates of the types and extent of significant social and health problems.

(b) A description of the human service systems serving the population.

(c) Estimates of the types and extent of mental health-related problems, including social indicator data, characteristics of case loads of mental health-related agencies, and observations by service agencies.

(d) An assessment of existing services dealing with the estimated mental health-related programs, including an evaluation of the degree to which the services match the estimated problems.

(e) A projection of the type and amount of mental health services required to adequately serve the comprehensive mental health needs of the client population, including a description of the methods and data used to project need.

(2) The community mental health board shall annually review and update as needed the community assessment report and submit this information as part of the proposed annual plan and budget to accurately reflect the current needs of the community.

R 330.2038 Annual program plan and proposed budget.

Rule 2038. A community mental health board shall prepare a written program plan and projected budget for continuing programs and proposed new programs for each fiscal year, which shall be submitted to the department on the dates designated by the department and shall include all of the following:

(a) A description of how existing and proposed mental health programs fit service need projections, including the priority of new programs and estimated dates of implementation.

(b) A narrative description of the types and scopes of services.

(c) Projected service output described in quantitative terms.

(d) Breakdowns of the projected costs according to forms and procedures made available by the department.

(e) Other documents and data required in department policies, procedures, and guidelines.

(f) Certifications of endorsement or approval by both of the following:

(i) The county board of commissioners.

(ii) The community mental health services board.

(g) Copies of proposed operational contracts, and contract revisions, between the community mental health board and independent subagencies which supply services or operate mental health facilities. Contracts and contract revisions shall be reviewed and approved by the director of the department.

History: 1954 ACS 98, p. 49, Eff. Jan. 9, 1979.

R 330.2041 Filing of documents.

Rule 2041. The following documents shall be kept current and on file with the department:

(a) Copies of the original resolution of the county board of commissioners, and revisions, which establish a community mental health program and community mental health board under the act and promulgated rules thereof.

(b) Copies of operational contracts, contract revisions, and agreements between the community mental health board and agencies which supply services or operate mental health or mental retardation facilities.

History: 1954 ACS 98, p. 49, Eff. Jan. 9, 1979.

R 330.2044 Department information.

Rule 2044. The department shall provide written information annually to community mental health boards regarding all of the following:

(a) Program planning and development priorities based on community program data, findings, and evaluations.

(b) The availability of funds for programs and services.

(c) Funding priorities, policies and criteria to be used for allocating funds.

(d) Instructions and forms for submitting program proposals.

(e) Cost guidelines to indicate acceptable levels of budgeted costs.

(f) Guidelines which will be the basis for approval or rejection of proposed programs.

History: 1954 ACS 98, p. 49, Eff. Jan. 9, 1979.

SUBPART 3. DEPARTMENT REVIEW AND EVALUATION

R 330.2051 Determination of compliance.

Rule 2051. The department shall review and evaluate community mental health boards, including operations, programs, services, and facilities operated

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

directly by the board and those providing services by contract with the board, receiving or requesting state aid. Determination of compliance with the act, administrative rules, standards, and procedures shall be made. When there is a finding of noncompliance or demonstrable deficiency in a program or operating practice, the department shall list and describe deficiencies and make recommendations to the community mental health board.

History: 1954 ACS 98, p. 49, Eff. Jan. 9, 1979.

R 330.2052 Withdrawal or reallocation of state funds.

Rule 2052. (1) The department may withdraw state funds from a board for a program not being administered in accordance with an approved plan and budget after written notice and opportunity for response. The department shall review budgets and expenditures at least quarterly, and if funds are not needed or were not used for a program for which they were allocated for the period budgeted, it may withdraw the unused funds, with concurrence of the board.

(2) The department may reallocate unused state funds to other community mental health programs. Unused state funds on hand locally at the close of the fiscal year shall be returned to the state.

(3) A county director or a board may request a review by the director of the department of any department action proposing to make final disapproval, withdrawal, or allocation of funds to a county program.

History: 1954 ACS 98, p. 50, Eff. Jan. 9, 1979.

R 330.2055 Visits, examinations, and inspections by department.

Rule 2055. (1) Authorized representatives of the department may visit, examine, and inspect at any time a service or facility operating directly or providing services by contract under the act for purposes of review and evaluation.

(2) Authorized representatives of the department may examine at any time the financial records and accounts of a community mental health board receiving or requesting state aid, or the financial records or accounts of a service or facility operated directly or providing services by contract with a community mental health board.

(3) Authorized representatives of the department may examine and review at any time clinical case records of a community mental health program or subagency receiving or requesting state aid, or the clinical case records of an agency providing services by contract with the board, if the examination and review is necessary in order for the department to discharge its responsibility to review and evaluate the relevancy, quality, effectiveness, and efficiency of the county program pursuant to section 244(b)(i) and section 748(4)(e) of the act. The department shall not collect information that would make it possible to identify by name an individual who receives a service from a county program.

(4) A contract between a community mental health board and an entity or program providing services shall contain provisions of this rule.

History: 1954 ACS 98, p. 50, Eff. Jan. 9, 1979.

R 330.2058 Programs ineligible for state financial support.

Rule 2058. Programs ineligible for state financial support shall include all of the following:

(a) Programs other than those directed at mental illness or mental retardation or concerned with the prevention of mental illness or mental retardation, if programs for the appraised and perceived needs of the community's mentally ill *and mentally retarded* do not exist.

Digitized by Google

(b) Programs and services which directly or indirectly violate the act and the rules promulgated thereunder.

(c) Programs that do not meet the needs of the community.

(d) Programs determined by the department as unnecessary or inappropriate to insure reasonable use of state funds and insure a legitimate interest of the state.

History: 1954 ACS 98, p. 50, Eff. Jan. 9, 1979.

SUBPART 4. COMMUNITY MENTAL HEALTH BOARD

R 330.2063 Roster of board membership.

Rule 2063. The membership of a community mental health services board shall be appointed and maintained as prescribed in chapter 2 of the act and the department shall be provided a current roster of membership.

History: 1954 ACS 98, p. 50, Eff. Jan. 9, 1979.

R 330.2067 Community mental health board responsibilities.

Rule 2067. A community mental health board shall do all of the following:

(a) Insure that a person is not denied service on the basis of race, color, nationality, religious or political belief, sex, age, county of residence, or ability to pay. This policy shall be stated in the program statements of the community mental health board and in contractual agreements which provide for supply of services.

(b) Operate under personnel practices which do not discriminate against an employee or applicant for employment with respect to hiring, tenure, terms, conditions or privileges of employment, or any matter directly or indirectly related to employment, because of race, color, religion, national origin, age, or sex, except if a requirement of age or sex is based on a bona fide occupational qualification.

(c) Report to the department on the types and scopes of services directly operated by the board, on services provided by contract with the board and expenditures and receipts on forms prescribed and furnished by the department.

(d) Require agencies providing services by contract or agreement with the board receiving state aid to furnish it with an accounting of fee revenue received from patients or from persons paying on behalf of patients.

(e) Coordinate its services with other pertinent human services to insure that the total needs of the population of the service area are met in a comprehensive manner without fragmentation or duplication of services. To accomplish this, a board shall:

(i) Participate in community and regional planning, including health systems planning.

(ii) Establish or cause to be established continuity of care agreements between appropriate service entities and with appropriate agencies providing services to the population served by the boards, including department facilities.

(iii) Whenever possible, provide the mental health component of health services established in the service area by health maintenance organizations and community health centers.

(iv) Whenever possible, collaborate with existing agencies rather than establishing competing services.

History: 1954 ACS 98, p. 50, Eff. Jan. 9, 1979.

PART 3. STATE AND COUNTY FINANCIAL RESPONSIBILITY

R 330.3005 Inclusion of capital depreciation costs for state services.

Rule 3005. For the purpose of determining county liability for the cost of services provided to county residents in accordance with section 304 of the act, the department shall include depreciation costs of equipment and capital investment in operating costs.

History: 1954 ACS 98, p. 51, Eff. Jan. 9, 1979.

R 330.3007 Department definition of approved community mental health program costs.

Rule 3007. The department shall define in policy those programs and expenditures approvable for state financing in accordance with chapters 2 and 3 of the act. Those policies shall be contained in department program and budget development instructions and in the department allocations to community mental health boards of available state appropriations.

History: 1954 ACS 98, p. 51, Eff. Jan. 9, 1979.

R 330.3009 Matchable financing of community mental health programs.

Rule 3009. The net cost of approved community mental health programs for which the state shall be proportionately financially responsible in accordance with sections 308, 310, and 318 of the act shall include those expenditures supported by appropriations and grants from local units of government, from the united fund, and from grants or contributions from private sources for purposes other than the care or treatment for an individual person. Net costs of approved community mental health programs shall not include payments and reimbursements from state agencies, except for the state financed portion of payments made in behalf of individuals pursuant to the federal and state medical assistance program; the state financed portion of payments for social services provided to individuals pursuant to federal and state social services programs; and the state financing of local general government and local general education operations.

History: 1954 ACS 98, p. 51, Eff. Jan. 9, 1979.

R 330.3010 County financial liability for mental health services provided by other community mental health programs.

Rule 3010. A county shall be financially responsible for the cost of services provided to its residents who have been released but not discharged from state programs, when the services are provided for these residents by the board of a community mental health district which does not include the county of residence. The community mental health board of the county of residence, or the county of residence, shall reimburse the community mental health board providing these services for the net cost of the services provided. These net costs shall be included as part of the approved cost of community programs for the county of residence. If the county of residence fails to reimburse the community mental health board which provided the service, the department shall reimburse the community mental health board which provided the service for the total net costs of the services provided and shall charge the community mental health board of the county of residence that county's share of the cost pursuant to section 304 and 318 of the act.

History: 1954 ACS 98, p. 51, Eff. Jan. 9, 1979.

R 330.3013 Reporting of community mental health costs.

Rule 3013. For the purposes of determining net cost pursuant to section 310 of the act, the costs and revenues of community mental health boards shall be reported to the department in a manner specified by the department. The department may withhold state reimbursement pending complete submission of required reports.

History: 1954 ACS 98, p. 52, Eff. Jan. 9, 1979.

R 330.3015 Determination of county financial responsibility in base year.

Rule 3015. The department shall determine the base year of county financial responsibility pursuant to section 318 of the act based upon the sum of the locally financed net approved expenditures for approved community mental health programs plus the county liability for state services to county residents, as a percentage of the sum of the net approved costs of approved community mental health programs plus the net costs of state services to county residents.

History: 1954 ACS 98, p. 52, Eff. Jan. 9, 1979.

R 330.3016 Custodian of funds.

Rule 3016. The county treasurer shall be the custodian of funds received and expended for the purpose of conducting community mental health programs and for payments of the state of county liability for the services by state programs to county residents. In the case of a multi-county health district, the treasurer of the county in which the district administration is situated shall be the custodian of funds.

History: 1954 ACS 98, p. 52, Eff. Jan. 9, 1979.

R 330.3017 Determination of county of residence.

Rule 3017. For the purpose of determining county financial liability for the net cost of services, the department shall determine county of residence for patients receiving service from state mental health programs pursuant to section 306 of the act.

History: 1954 ACS 98, p. 52, Eff. Jan. 9, 1979.

PART 4. ADMINISTRATIVE ACTION FOR MENTALLY ILL PERSONS REQUIRING TREATMENT AND THOSE DEEMED CLINICALLY SUITABLE FOR HOSPITALIZATION

SUBPART 1. DESIGNATED HOSPITALS

R 330.4005 State hospital regional designation.

Rule 4005. (1) Acceptance of an application for admission as a voluntary patient shall be limited to a person having a domicile in the designated region of a state hospital. Except as otherwise herein provided, a state hospital shall limit involuntary admissions to persons on orders issued by the probate courts of those counties which constitute a region for the hospital. State hospitals shall hospitalize an individual for examination by a psychiatrist or physician, or both, upon application and medical certification, or upon presentation and application by a peace officer, or by court order. Hospital regional designation may be made by department policy or administrative rule.

(2) Voluntary applications for admission of mentally ill children through the age of 16 years shall be received by state hospitals as designated by department policy to provide services to children and serving specific districts, regions, or catchment areas.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(3) Hospitals designated as statewide facilities and not restricted to regional admissions are as follows:

Lafayette Clinic
Oakland Medical Center
Center for Forensic Psychiatry

Statewide hospitals do not receive individuals for examination for medical certification, except that the center for forensic psychiatry shall admit for examination an individual found by a court to be not guilty by reason of insanity or whom a court refers for an evaluation as to competency to stand trial.

(4) Hospitals and facilities of the department or licensed or certified by the department of mental health are designated as regional diagnostic centers for the purpose of section 1 of Act No. 288 of the Public Acts of 1939, as amended, being §701.1 of the Michigan Compiled Laws, in order that court hearings may be held in these quarters.

History: 1954 ACS 98, p. 52, Eff. Jan. 9, 1979.

R 330.4008 Waiver of regional requirements.

Rule 4008. (1) An individual may be admitted to a hospital other than the one serving the county of domicile, or the county of the probate court which ordered hospitalization, when a waiver is approved by the director of the department.

(2) In the case of a voluntary admission, request for waiver shall be presented in writing by the individual applying for admission or by any interested person. Written approval of the director of the department shall constitute authority for a waiver of regional requirements.

(3) In the case of a court-ordered admission, request for waiver may be presented by the probate judge or other interested person. If approved, the director of the department shall provide the probate judge with a "waiver of regional requirements" notice, a copy of which shall be sent to the director of the hospital authorized to admit the individual.

History: 1954 ACS 98, p. 53, Eff. Jan. 9, 1979.

SUBPART 2. TRANSFER REQUIREMENTS

R 330.4011 Transfer between state hospitals.

Rule 4011. (1) A patient may be transferred between hospitals, including the Wayne county general hospital and the university of Michigan neuro-psychiatric institute or other facilities of the department which are not hospitals, for good and sufficient clinical reasons when approved by the department. Approval by the department shall be expressed by an order of transfer, a copy of which shall be forwarded to the director of each hospital involved. A request for a transfer may be submitted by a hospital director, a patient, or other interested person.

(2) Before an approved transfer is acted upon, the director of the hospital in which the patient is currently residing shall notify in writing, not less than 7 days prior to transfer, the patient and his guardian or his nearest relative and up to 2 other persons designated by the patient, except if the transfer is necessitated by an emergency as determined by the hospital director and documented in hospital records. Under emergency circumstances, the hospital director shall effect a transfer as soon as necessary and issue the appropriate notices not more than 24 hours after transfer.

(3) The notification period of not more than 7 days prior to transfer may be reduced if the patient or his guardian or nearest relative approves the transfer in person, by telephone, or in writing, and this approval is documented. Written *approval shall be obtained* as soon as administratively possible.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(4) Notice of transfer by a hospital director shall inform the patient and his guardian or nearest relative of the right to object to the transfer. Upon receipt of a written objection, an appeal hearing shall be held promptly, under procedures established by the department. If an objection is made, transfer shall be delayed until a ruling of the appeal hearing indorses it, unless an emergency as determined and documented by the hospital director necessitates an immediate transfer. An emergency transfer is revocable by decision of the director of the department or by order of the appeal referee.

(5) Administrative transfer of a patient to another department hospital for purposes of supervision in connection with convalescent leave or other community placement may be appealed if it is alleged that the supervision or administrative control of the leave or placement, by the hospital to which the administrative transfer is made, and not the leave or placement itself, would be detrimental to the patient.

(6) Each hospital shall establish procedures through which patients, guardians, or responsible relatives may participate in the planning or selection of a leave or placement.

History: 1954 ACS 98, p. 53, Eff. Jan. 9, 1979.

R 330.4013 Transfer to a facility other than a state hospital.

Rule 4013. (1) A patient may be temporarily transferred to a nondepartment hospital or other facility for emergency medical reasons as determined and documented by a hospital director.

(2) With written consent of an adult patient or legally empowered guardian, or the parent, legally authorized guardian, or person in loco parentis of a patient under the age of 18, a patient may be transferred to a hospital or facility in this state other than those designated by the department as a state hospital, or from a hospital or facility other than those designated by the department to a state hospital. If a patient objects to a transfer that has been consented to by a person in loco parentis, transfer will be delayed until an appeal hearing established by the department has made a determination.

(3) Transfer of a patient to or from a hospital or facility that is not a department designated hospital shall not constitute a discharge from an order of hospitalization from a probate court.

(4) Transfer of an involuntary patient out of state shall be governed by interstate compact agreements.

History: 1954 ACS 98, p. 53, Eff. Jan. 9, 1979.

R 330.4015 Transfer under the interstate compact.

Rule 4015. (1) An individual shall be admitted to a state hospital from another state under the interstate compact only if that individual meets the criteria for admission as specified in the act.

(2) An individual under 18 years of age shall be transferred to a facility of another state under the interstate compact if the parents of that individual establish residence in that state.

History: 1954 ACS 98, p. 54, Eff. Jan. 9, 1979.

SUBPART 3. ADMISSION CONDITIONS

R 330.4025 Equality of care.

Rule 4025. A hospital shall not discriminate, or give differential care to any individual admitted to that hospital, based on the type of admission or income

Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253

Original from UNIVERSITY OF MICHIGAN

status of the individual. Patients shall receive the highest possible quality of care and treatment without regard to race, nationality, religious or political belief, sex, or age.

History: 1954 ACS 98, p. 54, Eff. Jan. 9, 1979.

R 330.4028 Physical inspection.

Rule 4028. A patient shall be inspected by a physician or registered nurse upon admission and notation shall be made in the clinical record of bruises, scars, marks, and possible fractures or other injuries.

History: 1954 ACS 98, p. 54, Eff. Jan. 9, 1979.

R 330.4031 Voluntary admission.

Rule 4031. (1) An application for voluntary admission shall not be considered as lacking voluntariness because an individual has agreed to that action as a result of a probate court proceeding.

(2) The hospital director or his designee shall evaluate an individual's clinical suitability for informal or formal voluntary admission and shall include the following criteria in making the determination.

(a) The individual has a condition that the hospital director determines can benefit from the inpatient treatment that is provided by the hospital.

(b) Appropriate alternatives to hospitalization have been considered by the hospital, and with the consent of the individual, the community mental health program in the individual's county of residence.

(c) Adequate alternative treatment is not available or suitable at the time of admission as determined by the hospital, and with the consent of the individual, the community mental health program in the individual's county of residence.

History: 1954 ACS 98, p. 54, Eff. Jan. 9, 1979.

R 330.4033 Informal voluntary admission.

Rule 4033. (1) When an individual 18 years of age or older has requested informal voluntary admission, and the hospital director or his designee has determined the individual to be clinically suitable, the hospital shall admit the individual without formal application. An oral request, if permitted by the hospital director, shall be recorded in the case record with the name of the hospital staff member who received the request. A written request, if required by the hospital director, shall be made part of the case record. A written request shall be required for informal voluntary admission when proceedings are pending in a probate court.

(2) The individual, when determined to be clinically suitable for admission as an informal voluntary patient, shall be orally advised of his right to terminate hospitalization at any time, the procedures to be followed, and the hospital's responsibility to discharge him. The patient shall be allowed to terminate his hospitalization either at any time during normal day shift hours, or immediately, at the discretion of the hospital director.

(3) A written statement of the individual's right to terminate an informal voluntary admission and the procedure to be followed shall be provided to the individual upon admission.

History: 1954 ACS 98, p. 54, Eff. Jan. 9, 1979.

R 330.4035 Formal voluntary admission.

Rule 4035. (1) When an individual requests formal voluntary admission and *the hospital director or his* designee determines the individual to be clinically

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:48 GMT / http://hdl.handle.net/2027/mdp.49015002898253
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

suitable for that form of admission, the hospital shall admit the individual and shall include the application as part of the case record.

(2) An individual under 18 years of age shall be admitted as a formal voluntary patient if deemed clinically suitable by the hospital director, upon the application of a parent, guardian, or in their absence, a person in loco parentis.

(3) For the purpose of determining who may execute an application for formal voluntary admission or file written notice to terminate hospitalization:

(a) "Guardian" means a court-appointed plenary guardian or guardian of the person of an individual deemed legally incompetent, or a guardian appointed for a minor by a court.

(b) "Parent" means the natural or adoptive parent, whether married or not. A parent whose parental rights have been terminated by a probate court or who has been deprived of legal custody by a probate or circuit court, or their equivalent in another state, is barred from executing an admission application.

(c) "Person in loco parentis" means a person who assumes the rights, duties, and responsibilities of a parent as demonstrated by the fact that the person exercises parental functions, such as care and supervision of the child. Determination of status as a person in loco parentis shall be made by the hospital director or his designee, and may consider, in addition to the aforementioned, any of the following criteria:

(i) The person is the sibling, or adopted or stepsibling, grandparent, blood aunt or uncle, nephew, niece, or first cousin of the individual minor.

(ii) The minor was placed by a parent, guardian, or court in the keeping of a person to whom the child is not related as can be documented by written authorization executed by the parent or guardian or the sworn affidavits of 2 other adult persons that the minor was left in that person's keeping by the parent or guardian.

(iii) The person is a member of the household in which the minor resides.

(iv) The person is responsible for the maintenance of the minor's home.

(v) A probate court, juvenile division, which has found the minor to be within the jurisdiction of that court.

(4) Action shall not be taken on an application for formal voluntary admission of an individual under 18 years of age executed by a person in loco parentis until the hospital director or his designee determines the whereabouts and legal responsibility of the parents or guardian. When the whereabouts or legal responsibility of the parents or guardian cannot be determined after reasonable effort, the director may proceed to take action on an application by a person in loco parentis.

(5) When an individual under 18 years of age, who was admitted as a formal voluntary patient, becomes 18 years of age, he shall be released or shall be offered the opportunity to request voluntary admission.

History: 1954 ACS 98, p. 55, Eff. Jan. 9, 1979.

R 330.4039 Denial by director of voluntary admission.

Rule 4039. (1) If the hospital director or his designee does not deem an individual clinically suitable for hospitalization as an informal or formal voluntary patient, he shall deny the request and shall refer the individual to an appropriate community mental health or other service. Reason for denial shall be made known to the applicant, shall be documented, and a copy of the document shall be given to the applicant. If the individual consents, the community mental health or other service shall be notified of the referral.

(2) If the hospital director denies admission, he may offer partial admission on a day, night, or weekend basis if the service is available and the individual is deemed suitable for partial admission. The criteria for suitability for partial admission shall parallel that of other forms of voluntary admission.

History: 1954 ACS 98, p. 55, Eff. Jan. 9, 1979.

R 330.4043 Objection and appeal of formal voluntary hospitalization of a minor.

Rule 4043. (1) A minor patient informing the hospital of a desire to object to hospitalization shall be assisted by a person assigned by the hospital director in properly submitting the objection to the court.

(2) An individual not less than 13 years of age shall be assisted in preparing a proper written objection for the court and shall be made aware of the appropriate time intervals at which objection may be made. When an objection is complete, the hospital director or his designee shall submit it to the probate court within 24 hours, excluding Saturdays, Sundays, and holidays.

(3) Upon notification of an objection by an individual under the age of 13, the hospital director or his designee shall notify the probate court of the objection and request the probate court appoint a guardian ad litem for the individual.

History: 1954 ACS 98, p. 55, Eff. Jan. 9, 1979.

R 330.4045 Involuntary admissions.

Rule 4045. (1) For the purpose of establishing the point at which hospitalization begins, 1 of the following conditions shall be met:

(a) When an individual arrives at or is at a hospital and an application for hospitalization is completed and given to a hospital staff member and a certificate by a physician is complete.

(b) When an individual arrives at or is at a hospital under a court order for immediate hospitalization, other than an order to undergo an examination, after a petition has been filed with the court.

(c) When an individual is at a hospital after giving written notice of an intention to terminate formal voluntary hospitalization and the director of the hospital or his designee has filed with a court an application for admission by medical certification and certificates of 2 physicians, at least 1 of whom is a psychiatrist.

(2) For the purpose of establishing when an individual may complete a reasonable number of telephone calls and when a preliminary hearing shall be convened if the person is not released, the time an individual is received for hospitalization by medical certification, or court-ordered immediate hospitalization, is any time the individual arrives at the hospital. A formal voluntary patient who is being admitted as an involuntary patient by application of a hospital director is considered received for hospitalization at the time application and certificates are filed with a probate court.

(3) When an individual is presented to a hospital, the hospital shall do all of the following:

(a) Require that the application for hospitalization, if any, meet the requirements of section 424 of the act.

(b) Require that the physician's certificate accompanying the application, if any, meet the requirements of section 400(j) of the act.

(c) Determine if the individual presented is clinically suitable for informal and formal voluntary hospitalization. If this determination is affirmative, immediately offer the individual the opportunity to apply for hospitalization as an informal or formal voluntary patient, and as many times thereafter as deemed appropriate by *the hospital director* until an order of hospitalization, alternative treatment, or

discharge is received. If the individual is hospitalized as a voluntary patient, the hospital director shall inform the court, and recommend whether dismissal of pending proceedings would or would not be in the best interest of the individual or the public.

(d) Allow the individual to complete not less than 2 phone calls. If the individual does not have sufficient funds on his person, calls shall be made at hospital expense with the condition that they be limited to persons who are willing to receive the calls. The hospital director or his designee may determine the appropriateness of a call or calls that are at hospital expense and may limit their length to a reasonable duration, but a call shall not be limited to less than 5 minutes. If the hospital director or his designee restricts the call, appropriate written documentation of the reasons for the restriction shall be noted in the case record. Under circumstances in which the individual cannot make a call, or if it is necessary to restrict calls that are at hospital expense, the hospital shall place the calls for the individual if so requested.

(e) Provide to the individual, not more than 12 hours after hospitalization, a copy of the application for admission asserting that the individual is a person requiring treatment, a written statement that the individual will be examined by a psychiatrist within 24 hours of the hospitalization, and a written statement in simple terms explaining the right of the individual to request a preliminary hearing, to be present at the preliminary hearing, and to be represented by legal counsel, if he is certified by the medical examiner or examiners as a person requiring treatment; and a written statement in simple terms explaining the right of the individual to a full court hearing, to be present at the hearing, to be represented by legal counsel, to a jury trial, and to an independent medical evaluation, and copy of each certificate executed in connection with the individual's hospitalization if available. Each certificate shall be delivered to the individual within 24 hours of either a certificate's completion or receipt of a certificate by the hospital from a source outside the hospital.

(f) If the individual is unable to read or understand the written materials, every effort shall be made to explain them to him in a language he understands, and a note of the explanation and by whom made shall be entered in the case record.

(g) The admission officer, as soon as administratively possible after receiving an individual by medical certification who has been certified by a physician as a person requiring treatment, shall:

(i) Notify the probate court by phone.

(ii) Obtain when available the tentative date of the preliminary or full court hearing and the name and address of counsel appointed by the court.

(iii) Notify the patient of this information.

History: 1954 ACS 98, p. 56, Eff. Jan. 9, 1979.

R 330.4047 Admission by medical certification.

Rule 4047. (1) A state hospital, as designated in R 330.4005, shall receive and detain for examination by a psychiatrist any individual presented to the hospital who is accompanied by a physician's certificates and an executed application. A psychiatrist, either from the hospital staff or from outside the hospital, shall examine an individual not more than 24 hours after admission. The hospital director shall provide a room and other equipment necessary to provide a complete examination.

(2) A hospital staff physician who has examined a patient shall be permitted by the hospital director adequate time to be deposed or to testify, if so required, at a probate court hearing regarding that patient.

History: 1954 ACS 98, p. 57, Eff. Jan. 9, 1979.

R 330.4049 Examination upon application by peace officer or court order.

Rule 4049. (1) A state hospital, as designated in R 330.4005, shall receive and detain an individual for examination by a physician and a psychiatrist if that individual is presented to the hospital by a peace officer who has executed an application for admission. The hospital shall also receive and detain for examination any individual ordered by the court to be examined. A physician, either from the hospital staff or from outside the hospital, shall examine the individual within 24 hours. A psychiatrist, either from the hospital staff or from outside the hospital, shall examine the individual, if necessary, within 24 hours of the completion of the physician's certificate. The hospital director shall provide a room and other equipment necessary to provide a complete examination.

(2) If a psychiatrist or physician from a hospital staff examines an individual presented, the hospital director shall permit adequate time for them to be deposed or to testify, if so required, at a probate court hearing.

History: 1954 ACS 98, p. 57, Eff. Jan. 9, 1979.

R 330.4051 Admission by petition.

Rule 4051. An individual shall be admitted to a hospital on a petition pending a hearing only upon order of immediate hospitalization by a probate court. The hospital director shall have the individual examined within 24 hours of hospitalization. If the required examination has not been accomplished within 24 hours, the hospital director shall release the individual and document in the records the reasons the examination was not completed. The hospital shall notify the probate court.

History: 1954 ACS 98, p. 57, Eff. Jan. 9, 1979.

R 330.4055 Probate court hearings at hospital.

Rule 4055. (1) It shall be the hospital director's responsibility to provide adequate facilities on the hospital grounds in which to conduct probate court hearings on petitions for hospitalization, discharge, and to hear objections to voluntary admissions and appeals of returns.

(2) The hospital director shall provide prompt access to the patient by his attorney upon proper notice, and shall provide a room where the patient and his attorney may confer in private.

(3) The hospital director shall develop rules and procedures establishing visiting rights by attorneys and requirements for proper notice.

History: 1954 ACS 98, p. 57, Eff. Jan. 9, 1979.

R 330.4059 Admission of persons 65 and older.

Rule 4059. An individual 65 or older who comes or is brought to a hospital for hospitalization shall be examined, preferably while in the community, within 7 days of presentation to the hospital, but shall not be hospitalized for this purpose for more than 5 days. In addition to an examination by a physician and psychiatrist, a hospital social worker or community mental health worker shall complete a comprehensive social history and appraisal of the individual's family and community situation. The hospital staff and the community mental health representative from the county of the individual's domicile shall confer in planning alternative treatment to hospitalization. Only if an alternative to hospitalization is not preferable and available, the hospital director shall admit the individual as provided by statute.

History: *1954 ACS 98, p. 57, Eff. Jan. 9, 1979.*

SUBPART 4. PERIODIC REVIEW

R 330.4065 Periodic review of involuntary patients.

Rule 4065. (1) The hospital director shall, every 6 months from the date of the order of continuing hospitalization, make a determination for each patient as to the individual's status as a person requiring treatment and in need of hospitalization. This periodic review and determination shall be filed by the hospital director within 5 days after the review with the court which last ordered the patient's hospitalization and in the case record. Notice of the results of this report shall be provided to the patient, his attorney, and his nearest relative or guardian and a proof of service of the notice of results to the patient shall be filed with the probate court.

(2) If the hospital determination is that the patient is one who continues to require treatment and hospitalization, a petition for discharge form shall be provided to the patient with results of the periodic review. The individual shall be informed of his rights to file a petition for discharge.

(3) If the patient returns a completed petition for discharge to the hospital within 7 days, excluding Saturdays, Sundays and holidays, of receipt of results of the periodic review, the hospital shall transmit, within 24 hours, the petition for discharge to the probate court which ordered hospitalization.

History: 1954 ACS 98, p. 58, Eff. Jan. 9, 1979.

R 330.4067 Periodic review of voluntary patients.

Rule 4067. The hospital director shall review, not less than every 6 months, the clinical suitability for continuing hospitalization of voluntary patients. If the hospital director determines that a patient is not clinically suitable for continued hospitalization, he shall discharge the patient. Results of this review shall be documented in the case record.

History: 1954 ACS 98, p. 58, Eff. Jan. 9, 1979.

SUBPART 5. RELEASE AND DISCHARGE

R 330.4075 Notification of a community mental health program.

Rule 4075. Whenever an individual leaves or is released or discharged from a hospital, if the individual or legally authorized representative consents to the notification, the hospital shall notify the community mental health program in the area in which the individual plans to locate and that of the individual's county of residence.

History: 1954 ACS 98, p. 58, Eff. Jan. 9, 1979.

R 330.4077 Discharge of voluntary patients.

Rule 4077. (1) An informal voluntary patient shall be discharged either during normal day shift hours or immediately, at the discretion of the hospital director, after either of the following:

(a) A request is made by patient to terminate hospitalization.

(b) The hospital director deems it clinically suitable.

(2) A formal voluntary patient shall be discharged as soon as possible, but not later than 3 days, excluding Sundays and holidays, after either of the following:

(a) Written notice of intent to terminate hospitalization is given by the person who executed the application for formal voluntary admission.

(b) The hospital director deems that it would be clinically suitable.

(3) A formal voluntary patient under the age of 18 who has had an objection to hospitalization sustained by a court shall be discharged immediately upon notification to the hospital by the court.

(4) If, after notice of intent to terminate hospitalization has been given, and if not withdrawn, the hospital director has determined that a formal voluntary patient is a person requiring treatment and in need of hospitalization, he shall file with the court no later than 3 days from notice to terminate hospitalization, excluding Sundays and holidays, certificates from 2 physicians at least 1 being a psychiatrist, and an application. Unless the application and certificates are filed, the patient shall be released as requested at the end of the 3-day period, excluding Sundays and holidays.

(5) A person other than the patient may give written notice of an intention to terminate hospitalization if the person is the individual who executed the application for admission.

(6) If a guardian has been appointed for a patient subsequent to the execution of an application for formal voluntary admission, only the patient may give written notice of an intention to terminate hospitalization.

(7) If a parent or guardian of a patient under 18 years of age dies subsequent to execution of an application for formal voluntary admission, or otherwise loses legal custody of the patient, the surviving parent, if any, or guardian appointed by a court to replace the deceased or departed parents or guardian may give written notice of an intention to terminate hospitalization.

(8) If an application for formal voluntary admission of an individual under 18 years of age has been executed, notice of intention to terminate hospitalization may be given by the patient upon his eighteenth birthday.

History: 1954 ACS 98, p. 58, Eff. Jan. 9, 1979.

R 330.4081 Authorized leave for voluntary patients.

Rule 4081. (1) A leave for a visit shall constitute a conditional and revocable release of a patient, granted for temporary purposes to provide a short-term experience outside a hospital for an individual not yet thought to be capable of making a satisfactory adjustment on a long-term basis.

(2) Convalescent leave shall constitute a conditional and revocable release of a patient in his own custody or in the custody of another person, granted for purposes of continuing treatment within a hospital while providing a longer term experience outside the hospital for an individual not yet thought to be capable of making a satisfactory adjustment without this treatment. At the time the hospital director determines the suitability of this release for a voluntary patient, consideration of discharge shall have preference. An adult voluntary patient's approval shall be obtained before convalescent leave is initiated.

(3) A patient, while in the custody of a hospital, shall not be permitted leave, when in the judgment of the hospital director it would be detrimental or dangerous to the patient or others.

(4) Convalescent leave for a patient intending to go to another state shall not be granted without the approval of the director of the department.

(5) A hospital shall not accept liability for expenses incurred by or for a patient on leave, unless the expense is authorized in advance.

History: 1954 ACS 98, p. 59, Eff. Jan. 9, 1979.

R 330.4083 Unauthorized leave by voluntary patients.

Rule 4083. (1) An adult patient who has been admitted as an informal voluntary patient and who leaves a hospital without proper notification of intention to terminate shall be placed on unauthorized leave status for 24 hours. After this *period, the hospital shall* administratively discharge the patient.

(2) An adult patient who has been admitted as a formal voluntary patient and who leaves a hospital without permission shall be placed on unauthorized leave status for not more than 3 days, and shall be readmitted during that period without signing a new application for admission. If the patient does not return within 3 days, he shall be discharged.

(3) An adult patient who is absent from a hospital without having given notification of intention to terminate shall be designated as a missing person. Prompt and vigorous measures shall be taken to find the patient, including immediate search by hospital employees as warranted by circumstances, and notification of other public agencies if there is a substantial probability of harm to the patient or other persons pursuant to section 748(6)(c) of the act. Relatives or other interested parties shall be notified if the patient had given prior authorization to notify those persons in the event of an emergency. A record shall be kept of persons notified and the time of notification. Upon locating a missing patient, the hospital shall inform those notified and determine if the patient:

(a) Desires to return voluntarily.

(b) Desires to terminate hospitalization.

(c) Meets other statutory provisions for treatment.

(4) When a minor voluntary patient leaves the hospital without permission, the parent, guardian, or person in loco parentis shall immediately be notified by telephone or telegraph and steps shall be taken to locate the patient, including notification of appropriate police authorities when indicated. When the patient is found, he may be returned to the hospital even though he objects, unless the person who signed the application for admission files a written notice indicating a desire to withdraw the patient from the hospital. If, in the opinion of the hospital director, return to the hospital would not be in the best interest of the patient, the minor may be discharged. If the minor is discharged, the hospital shall act pursuant to R 330.4043.

History: 1954 ACS 98, p. 59, Eff. Jan. 9, 1979.

R 330.4086 Objection to return to hospital.

Rule 4086. (1) An adult voluntary patient shall not be returned to a hospital if he objects.

(2) When an adult voluntary patient who, in the judgment of a hospital director is a person requiring treatment, leaves the hospital without permission, the parent, guardian, or nearest relative shall be immediately notified. If the patient is not easily traceable and his whereabouts are unknown, the hospital shall notify appropriate law enforcement authorities. When the patient is located and is unwilling to return to the hospital, the hospital director shall make application to the appropriate court for determination as to whether the patient is a person requiring treatment.

(3) A patient on authorized leave who was admitted to a hospital on an application for formal voluntary admission executed by someone other than himself may be returned over his objection unless the parent, guardian, or person in loco parentis objects.

(4) A patient returned to a hospital over his objection, from authorized leave in excess of 10 days, shall be notified by the hospital director of his right to appeal return to the hospital. Within 24 hours of the return of the patient, excluding Sundays and holidays, the hospital director shall file with a probate court a proof of service of the notice of the right to appeal.

History: 1954 ACS 98, p. 60, Eff. Jan. 9, 1979.

R 330.4089 Discharge of involuntary patient.

Rule 4089. (1) Discharge shall constitute release of a patient from jurisdiction of a hospital, by action of the hospital director or by court order, or if the court rejects an application or petition or fails to hold a requested preliminary hearing or final hearing within the required time or a continuance was not granted. A patient discharged may not be returned to the hospital without a new order for admission or application for voluntary admission.

(2) When a patient is discharged, the hospital director shall report the change in status to the probate court which ordered admission and indicate in this report which of the following factors have brought about this discharge:

(a) Patient legally transferred out of state.

(b) Patient, in the opinion of the hospital director, not mentally ill.

(c) Patient not reasonably expected to seriously physically injure himself or others.

(d) Patient no longer clinically suitable for this form of hospitalization.

(e) Death of patient.

(f) Patient, on an order of continuing hospitalization, after 1 year of continuous leave.

(g) Any other reason acceptable under the act or procedures of the department.

History: 1954 ACS 98, p. 60, Eff. Jan. 9, 1979.

R 330.4091 Authorized leave for involuntary patients.

Rule 4091. (1) A leave for visit constitutes a conditional and revocable release of a patient, granted for temporary purposes to provide a short-term experience outside a hospital for an individual not yet thought to be capable of making a satisfactory adjustment on a long-term basis.

(2) Convalescent leave shall constitute a conditional and revocable release of a patient in his own custody or in the custody of another person, granted for purposes of continuing treatment within a hospital while providing a longer term experience outside the hospital for an individual not yet thought to be capable of making a satisfactory adjustment without this form of treatment. At the time the hospital director determines the suitability of release for an involuntary patient, consideration for discharge shall have preference.

(3) A patient, while in the custody of a hospital, shall not be permitted leave, when, in the judgment of the hospital director, it would be dangerous to the patient or others.

(4) Convalescent leave for a patient intending to go to another state shall not be granted without the approval of the director of the department.

(5) A hospital shall not accept liability for expenses incurred by or for a patient on leave unless this expense is authorized in advance.

(6) The department is not responsible for providing transportation for the return to a hospital of a patient on convalescent leave. Exceptions to this may be made in special instances with the approval of the director of the department.

History: 1954 ACS 98, p. 60, Eff. Jan. 9, 1979.

R 330.4093 Unauthorized leave by involuntary patients.

Rule 4093. (1) Upon unauthorized leave, prompt and vigorous measures shall be taken to secure the patient's return, including immediate search by hospital employees as warranted by circumstances. sible. The hospital shall immediately notify the state police, the local police, and the sheriff in the area of the hospital, and the local police and sheriff in the area of the patient's home or former place of residence. A record shall be kept of who is notified and the time of notification.

(2) A patient on unauthorized leave who does not return to the hospital at the end of 1 year or is not given convalescent leave before that time shall be discharged by the hospital director.

(3) A patient who returns to a hospital after unauthorized leave shall be physically inspected and a record made of the inspection in the same manner as required for a newly admitted patient.

(4) If a patient on unauthorized leave does not return to the hospital within 3 days, notice that he is on unauthorized leave shall be sent to the court.

(5) A patient on unauthorized leave that has been discharged by the hospital director may not be brought back to the hospital without a new court adjudication that the individual is a person requiring treatment or appropriate application for voluntary hospitalization. Appropriate police authorities shall be notified when the patient is administratively discharged.

(6) The department shall not be responsible for medical or hospital care or drugs for patients on unauthorized leave, except when authorized by a hospital director or the director of the department. These unauthorized bills shall be referred to the guardian family, or proper local officials.

History: 1954 ACS 98, p. 61, Eff. Jan. 9, 1979.

R 330.4095 Involuntary patient objection to return to hospital.

Rule 4095. (1) A patient returned to a hospital over his objection, from authorized leave in excess of 10 days, shall be notified by the hospital director of his right to appeal return to the hospital. Within 24 hours of the return of the patient, excluding Sundays and holidays, the hospital director shall file with the appropriate probate court a proof of service of the notice of the right to appeal.

(2) A patient making an objection to return shall be subject to administrative review procedures established by the department.

History: 1954 ACS 98, p. 61, Eff. Jan. 9, 1979.

PART 5. ADMINISTRATIVE ACTION FOR MENTALLY RETARDED PERSONS REQUIRING CARE AND TREATMENT

SUBPART 1. DESIGNATED RESIDENTIAL FACILITIES

R 330.5005 Regional designation of residential facilities.

Rule 5005. (1) Acceptance of an application for a temporary or administrative admission shall be limited to a person having a domicile in the designated region of a facility. Except as otherwise herein provided, a facility shall limit judicial admissions of mentally retarded persons to orders issued by the probate courts of those counties which constitute a region for the facility. These facilities may admit an individual for preadmission examination with an application for temporary or administrative admission. Facility regional designation may be made by departmental policy or administrative rule.

(2) Facilities of the department or licensed or certified by the department are designated as regional diagnostic and treatment centers for the purposes of section 1 of Act No. 288 of the Public Acts of 1939, as amended, being §701.1 of the Michigan Compiled Laws, in order that court hearings may be held in these quarters.

(3) An entity, or portion thereof, operated by, or under contract with, a public agency, or licensed by the state, is a facility for purposes of temporary,

administrative and judicial admission, and for purposes of the duties, responsibilities, and powers of a facility in civil admission and discharge procedures for mentally retarded and developmentally disabled persons if:

(a) It regularly admits residents in any of the following categories or combination of categories:

(i) Severely or profoundly retarded persons.

(ii) Mildly or moderately retarded persons with multi-handicapping conditions or specific maladaptive behavior or behavior problems.

(iii) Developmentally disabled persons who require residential services similar to those required by, and provided for, mentally retarded persons.

(b) It provides supervised 24-hour living accommodations in accordance with department standards with an organized program of services, including guidance and counseling, and activity services to meet the needs of individual mentally retarded or developmentally disabled residents.

(c) It provides to its residents, while on the premises, a program of habilitation service, training service, and supervised personal care or domiciliary care service, including any of the following:

(i) Basic self-help, personal skills training, and habilitation training.

(ii) Socialization training.

(iii) Tutorial and special skills training.

(iv) Personal and community living adjustment.

(v) Medical and health services.

(vi) Vocational training.

(vii) Specialized physician or nursing services appropriate to the individual needs of mentally retarded or developmentally disabled persons.

(viii) Other professional habilitative and therapeutic services providing intervention to halt, control, or reverse processes or conditions which cause, aggravate, or complicate developmentally related impairment, such as surgery, dietary control, chemotherapy, physical therapy, speech therapy, behavioral modification, dentistry, medical treatments, psychotherapeutic modalities, and psychosocial services.

History: 1954 ACS 98, p. 61, Eff. Jan. 9, 1979.

R 330.5008 Waiver of regional requirements.

Rule 5008. (1) An individual may be admitted to a facility other than the one serving the county of domicile, or the county of the probate court which ordered admission, when a waiver is approved by the director of the department of mental health.

(2) In the case of a temporary or administrative admission, request for waiver shall be presented in writing by the individual applying for admission or any interested person. Written approval of the director of the department shall constitute authority for a waiver of regional requirements.

(3) In the case of a judicial admission, request for waiver may be presented by a probate judge or other interested person. If approved, the director of the department shall provide the probate judge with a "waiver of regional requirements" notice, a copy of which shall be sent to the director of the facility authorized to admit the individual.

History: 1954 ACS 98, p. 62, Eff. Jan. 9, 1979.

SUBPART 2. TRANSFER REQUIREMENTS

R 330.5011 Transfer between designated facilities.

Rule 5011. (1) A resident may be transferred between designated facilities or *to department hospitals* for good and sufficient clinical reasons and when

approved by the department. Approval by the department shall be expressed by an order of transfer a copy of which shall be forwarded to the director of each facility involved. A request for a transfer may be submitted by a facility director, the resident, or other interested person.

(2) Before an approved transfer is acted upon, the director of the facility in which the resident is currently residing shall notify in writing, not less than 7 days prior to the transfer, the resident and his guardian or his nearest relative and up to 2 other persons designated by the resident, except if the transfer is necessitated by an emergency as determined by the facility director and documented in facility records. Under emergency circumstances, the facility director shall effect the transfer as necessary, and issue the appropriate notices not more than 24 hours after transfer.

(3) The notification period of not more than 7 days prior to transfer may be reduced if the resident or his guardian or nearest relative approve the transfer in person, by telephone, or in writing, and this approval is documented. Written approval shall be obtained as soon as administratively possible.

(4) Notice of transfer by the facility's director shall inform the resident and his guardian or nearest relative of the right to object to the transfer. Upon receipt of a written objection, an appeal hearing shall be held promptly under procedures established by the department. If an objection is made, the transfer shall be delayed until a ruling of the appeal hearing endorses it, unless an emergency as determined and documented by the facility director necessitates an immediate transfer. An emergency transfer is revocable by decision of the director of the department or by order of the appeal referee.

(5) Administrative transfer of a resident to another department facility for purposes of supervision in connection with convalescent leave or other community placement may be appealed if it is alleged that the supervision or administrative control of the leave or placement, by the facility to which the administrative transfer is made, and not the leave or placement itself, would be detrimental to the resident.

(6) Each facility shall establish procedures through which residents, guardians, or responsible relatives may participate in the planning or selection of a leave or placement.

History: 1954 ACS 98, p. 62, Eff. Jan. 9, 1979.

R 330.5013 Transfer to a facility other than one designated by the department.

Rule 5013. (1) A resident may be temporarily transferred to a nondepartment hospital or facility for emergency medical reasons, as determined and documented by a hospital or facility director.

(2) With written consent of an adult resident or legally empowered guardian, or the parent, legally authorized guardian, or person in loco parentis of a resident under 18 years of age, a resident may be transferred to a hospital or facility in this state other than those designated by the department as a state hospital, or from a hospital or facility other than those designated by the department to a state residential facility. If a patient objects to a transfer that has been consented to by a person in loco parentis, transfer will be delayed until an appeal hearing established by department has made a determination.

(3) Transfer of an individual to or from a facility that is not designated as a residential facility shall not constitute a discharge from a judicial order of admission from the probate court.

(4) Transfer out of state shall be governed by interstate compact agreements.

History: 1954 ACS 98, p. 62, Eff. Jan. 9, 1979.

R 330.5015 Transfer under the interstate compact.

Rule 5015. (1) An individual shall be admitted to a residential facility from another state under the interstate compact only if that individual meets the criteria for admission as specified in the act.

(2) An individual under 18 years of age shall be transferred to a facility of another state under the interstate compact if the parents of that individual establish residence in that state.

History: 1954 ACS 98, p. 63, Eff. Jan. 9, 1979.

SUBPART 3. ADMISSION CONDITIONS

R 330.5025 Equality of care.

Rule 5025. A facility shall not discriminate, or give differential care to any individual admitted to that facility, based on the type of admission or income status of the individual or his family. Individuals shall receive the highest possible quality of care and habilitation without discrimination, pursuant to Act No. 453 of the Public Acts of 1976, being §37.2101 of the Michigan Compiled Laws.

History: 1954 ACS 98, p. 63, Eff. Jan. 9, 1979.

R 330.5028 Physical inspection.

Rule 5028. Upon admission, an individual shall be inspected by a physician or registered nurse of the facility or a physician contracted by the facility, and notation shall be made in the clinical record of bruises, scars, marks, and possible fractures or other injuries.

History: 1954 ACS 98, p. 63, Eff. Jan. 9, 1979.

R 330.5031 Temporary and administrative admission.

Rule 5031. (1) An application for temporary or administrative admission shall not be considered as lacking in voluntariness because an individual has agreed to the action as a result of a probate court decision.

(2) When a legally empowered person makes application for temporary or administrative admission of an individual under 18 years of age and the facility director or his designee determines the individual to be suitable for admission, the facility shall admit the individual and shall include the application as part of the case record. A person is legally empowered to execute an application for temporary admission if he is a parent, guardian, or in their absence, a person in loco parentis.

(3) An individual, 18 years or older, competent and deemed suitable by the director, shall be admitted as an administrative admittee upon application. A guardian shall execute the application if the individual is not competent.

(4) An individual under 18 years of age shall be admitted as an administrative admission if deemed suitable by the facility director upon the application of a parent, guardian, or in their absence, a person in loco parentis.

(5) For the purpose of determining who may execute an application for temporary or administrative admission or file written notice to leave a facility:

(a) "Guardian" means a court appointed plenary guardian or guardian of the person of an individual deemed legally incompetent or a guardian appointed for a minor by a court.

(b) "Parent" means the natural or adoptive parent, whether married or not. A parent whose parental rights have been terminated by the probate court or who has been deprived of legal custody by the probate or circuit court, or the *equivalent in another state,* is barred from executing an admission application.

(c) "Person in loco parentis" means a person who assumes the rights, duties, and responsibilities of a parent as demonstrated by the fact that the person exercises parental functions, such as the care and supervision of the child. Determination of status as a person in loco parentis shall be made by the facility director or his designee and may consider, in addition to the aforementioned, any of the following criteria:

(i) The person is the sibling or adopted or stepsibling, grandparent, blood aunt or uncle, nephew, niece or first cousin of the individual minor.

(ii) The minor was placed by a parent or guardian in the keeping of a person to whom the child is not related as can be documented by some written authorization executed by the parent or guardian or the sworn affidavits of 2 other adult persons that the minor was left in that person's keeping by the parent or guardian.

(iii) The person is a member of the household in which the minor resides.

(iv) The person is responsible for the maintenance of the minor's home.

(v) A probate court, juvenile division, which has found the minor to be within the jurisdiction of that court.

(6) Action shall not be taken on an application for temporary or administrative admission of an individual under 18 years of age executed by a person in loco parentis until the facility director or his representative determines the whereabouts and legal responsibility of the parent or guardian. When the whereabouts or legal responsibility of the parents or guardian cannot be determined after reasonable effort, the director may proceed to take action.

(7) A mentally retarded or developmentally disabled individual may be deemed suitable for admission as a temporary or administratively admitted resident. The facility director shall determine suitability and may utilize documentation, previous test results, or physician's statements in establishing these conditions for a temporary admission. Suitability for an administrative admission shall be made with the assistance of a preadmission examination and in consultation with the community mental health agency serving the individual's county of residence or county of placement. A preadmission examination may be completed by a community mental health agency or private individual if the agency or individuals are under contract with the facility to provide this examination. An individual shall not be administratively admitted unless the director concludes on the basis of the preadmission examination, department admission policies, and other available information that admission is suitable in that:

(a) The facility is the least restrictive setting feasible for the individual.

(b) Services and programs in the community cannot provide necessary adequate habilitation program or special service required by the individual.

(c) The individual is either:

(i) A severely or profoundly retarded person or substantially developmentally disabled.

(ii) A mildly or moderately retarded person with either multihandicapping conditions or specific maladaptive behavior or behavior problems.

(8) An individual who does not meet the aforementioned criteria may be admitted on a temporary basis at the discretion of the director.

(9) An individual may not be administratively admitted unless a preadmission examination, including mental, physical, social, and educational evaluations are completed. The facility director, in cooperation with the community mental health agency, shall designate a professional person to supervise the examination and prepare a report regarding the individual's suitability for admission and the most appropriate living arrangement.

(10) The facility director shall effect, at least annually, a reexamination of each

administratively admitted resident for the purpose of determining whether he continues to meet the criteria for administrative admission.

(11) When an individual under 18 years of age, who was admitted on a temporary or administrative basis, becomes 18 years of age, he shall be released or shall be offered the opportunity to request administrative admission if competent. A guardian may execute the application if the individual is not competent.

History: 1954 ACS 98, p. 63, Eff. Jan. 9, 1979.

R 330.5039 Denial by director of administrative admission.

Rule 5039. (1) If the facility director or his designee does not deem an individual suitable for admission as a temporary or administrative admission, he shall deny the request. Reason for denial shall be made known to the applicant, and with consent, to the community mental health agency serving the county of the individual's residence and shall be documented in the record of the resident. A copy of the document shall be given to the applicant.

(2) If the director denies admission, he may offer partial admission on a day, night, or weekend basis if the service is available and the individual is deemed suitable for partial admission. The criteria for suitability for partial admission shall parallel that of other forms of temporary and administrative admission.

History: 1954 ACS 98, p. 65, Eff. Jan. 9, 1979.

R 330.5043 Objection and appeal of an administrative admission of a minor.

Rule 5043. (1) A minor resident informing the facility of a desire to object to his admission shall be assisted by a person assigned by the facility director in properly submitting the objection to the court.

(2) An individual not less than 13 years of age shall be assisted in preparing a proper written objection for the court and shall be made aware of the appropriate time intervals at which objection shall be made. When the objection is complete, the facility director or his designee shall submit it to the probate court within 24 hours, excluding Saturdays, Sundays, and holidays.

(3) Upon notification of an objection by an individual under the age of 13, the facility director or his designee shall notify the probate court of the objection and request the probate court appoint a guardian ad litem for the individual.

History: 1954 ACS 98, p. 65, Eff. Jan. 9, 1979.

R 330.5045 Right to request preliminary hearing.

Rule 5045. (1) If an individual is ordered immediately admitted by the probate court, the facility shall cause him to receive within 12 hours after admission: a written statement in simple terms explaining the right of the individual to request a preliminary hearing, to be present at the preliminary hearing, and to be represented by legal counsel, and a copy of the report on his examination.

(2) If the individual is unable to read or understand the written materials, every effort shall be made to explain them to him in a language he understands, and a note of the explanation and by whom made shall be entered in the case record.

History: 1954 ACS 98, p. 65, Eff. Jan. 9, 1979.

SUBPART 4. PERIODIC REVIEW

R 330.5065 Periodic review of judicially admitted resident.

Rule 5065. (1) A facility director shall, every 6 months from the date of the order of judicial admission, make a determination for each resident as to the *individual's status as a person* meeting the criteria for judicial admission. This

periodic review and determination shall be filed by the facility director within 5 days after the review with the court which last ordered the judicial admission and in the resident's record. Notice of the results of this report shall be provided to the resident, his attorney, and his nearest relative or guardian and a proof of service of the notice of results to the resident shall be filed with the probate court.

(2) If the facility determination is that the resident is one who continues to meet the criteria for judicial admission, a petition for discharge form shall be provided to the resident with results of the periodic review.

(3) If the resident returns a completed petition for discharge to the facility within 7 days of receipt of results of the periodic review, the facility shall transmit, within 24 hours, the petition for discharge to the probate court which ordered judicial admission.

History: 1954 ACS 98, p. 65, Eff. Jan. 9, 1979.

R 330.5067 Periodic review of administratively admitted resident.

Rule 5067. A facility director shall evaluate not less than once every 12 months, each administratively admitted resident to determine whether he continues to meet the criteria for administrative admission. If the facility director determines that the resident does not meet the criteria, he shall discharge the resident. Results of this review shall be documented in the case record.

History: 1954 ACS 98, p. 66, Eff. Jan. 9, 1979.

SUBPART 5. RELEASE AND DISCHARGE

R 330.5075 Notification of a community mental health program.

Rule 5075. Whenever an individual leaves or is released or discharged from a facility, if the individual or legally authorized representative consents to the notification, the facility shall notify the community mental health program in the area in which the individual plans to locate and that of the individual's county of residence.

History: 1954 ACS 98, p. 66, Eff. Jan. 9, 1979.

R 330.5077 Discharge of administratively admitted residents.

Rule 5077. (1) An administratively admitted resident shall be discharged as soon as possible, but not later than 3 days after either of the following:

(a) A written notice of intent to terminate admission is given by the person who executed the application for administrative admission.

(b) The facility director deems that it would be clinically suitable.

(2) An administratively admitted resident under the age of 18 who has had an objection to admission sustained by a court shall be discharged immediately upon notification to the facility by the court.

(3) A person other than the resident may give written notice of an intention to terminate administrative admission if the person is the individual who executed the application for admission.

(4) If a guardian has been appointed for a resident subsequent to the execution of an application for administrative admission, only the guardian may give written notice of an intention to terminate an administrative admission.

(5) If a parent or guardian of a resident dies subsequent to execution of an application for administrative admission or otherwise loses legal custody of the resident, the surviving parent of a minor, if any, or guardian appointed by a court to replace the deceased or departed parents or guardian, may give written notice of an intention to terminate administrative admission.

(6) If an application for administrative admission of an individual under 18 years of age has been executed by a proper person, notice of intention to terminate administrative admission may be made by the resident upon his eighteenth birthday unless a guardian of the resident has been appointed.

History: 1954 ACS 98, p. 66, Eff. Jan. 9, 1979.

R 330.5081 Authorized leave for administratively admitted residents.

Rule 5081. (1) A leave for a visit shall constitute a conditional and revocable release of a resident, granted for temporary purposes to provide a short-term experience outside a facility for an individual not yet thought to be capable of making a satisfactory adjustment on a long-term basis.

(2) Convalescent leave shall constitute a conditional and revocable release of a resident in his own custody or in the custody of another person, granted for purposes of continuing treatment by a facility while providing a longer term experience outside the facility for an individual not yet thought to be capable of making satisfactory adjustment without this care and treatment. At the time a facility director determines the suitability of this release for an administratively admitted resident, consideration of discharge shall have preference. An administratively admitted resident's approval shall be obtained before convalescent leave is initiated if he is over 18 years of age.

(3) A resident, while in the custody of a facility, shall not be permitted leave when in the judgment of the facility director it would be detrimental or dangerous to the resident or others.

(4) The department shall not be responsible for providing transportation for the return to a facility of a resident on convalescent leave. Exceptions to this may be made in special instances with the approval of the director of the department.

(5) Convalescent leave for a resident intending to go to another state shall not be granted without the approval of the director of the department.

(6) A facility shall not accept liability for expenses incurred by or for a resident on a leave unless the expense is authorized in advance.

History: 1954 ACS 98, p. 66, Eff. Jan. 9, 1979.

R 330.5083 Unauthorized leave by administratively admitted residents.

Rule 5083. (1) An adult resident who has been admitted on his own application as an administratively admitted resident and who leaves a facility without permission shall be placed on unauthorized leave status for not more than 3 days, and shall be readmitted during this period without signing a new application for admission. If the resident does not return within 3 days, he shall be discharged and not permitted to reenter voluntarily without signing a new application.

(2) A resident who is absent from a facility without having given notification of intention to terminate shall be designated as a missing person. Prompt and vigorous measures shall be taken to find the resident, including immediate search by hospital employees as warranted by circumstances, and notification of other public agencies if there is a substantial probability of harm to the resident or other persons pursuant to section 748(6)(c) of the act. Relatives or other interested parties shall be notified if the resident had given prior authorization to notify those persons in the event of an emergency. A record shall be kept of persons notified and the time of notification. Upon locating a missing resident, the facility shall inform those notified and shall determine if the resident:

(a) Desires to return voluntarily.

(b) Desires to terminate residential care.

(c) Meets other statutory provisions for habilitation.

(3) When a minor resident leaves the facility without permission, the parent, guardian, or person in loco parentis, shall be immediately notified and steps shall be taken to locate the resident, including notification of appropriate police authorities when indicated. When the resident is found, he may be returned to the facility even though he objects, unless the person who signed the application for his admission files a written notice indicating a desire to withdraw the resident from the facility. If in the opinion of the facility director a return to resident status would not be in the best interest of the resident, the minor may be discharged and notification shall be given to the community mental health agency serving the county of the individual's residence.

(4) A resident who has been admitted upon the signed application of parent, guardian, or person in loco parentis, who leaves the facility without permission, shall be placed on unauthorized leave status until the facility director has secured from the parent, guardian, or person in loco parentis a written notice indicating a desire to withdraw the resident from the facility, after which the resident shall be discharged. A minor resident shall be permitted to reenter the facility upon the original application until discharged without notification. The notification shall be given to the community mental health program serving the county of the individual's residence. If the resident is not discharged, the facility shall take action pursuant to R 330.5043.

History: 1954 ACS 98, p. 67, Eff. Jan. 9, 1979.

R 330.5086 Objection to return to facility by administratively admitted resident.

Rule 5086. (1) An adult administratively admitted resident shall not be returned to a facility if he objects.

(2) When an adult administratively admitted resident, who, in the judgment of a facility director, meets the criteria for judicial admission, leaves the facility without permission, the parent, guardian, or nearest relative shall be immediately notified. If the resident is not readily traceable and his whereabouts are unknown, the facility shall notify appropriate police authorities. When the resident is located and if unwilling to return to the facility, the facility director shall make application to an appropriate court for determination as to whether the resident meets the criteria for a judicial admission. If judicial admission seems necessary and desirable, the facility shall continue admission status pending court hearing, after making application.

(3) A resident on authorized leave who was admitted to a facility on an application for administrative admission executed by someone other than himself may be returned over his objection unless the parent, guardian, or person in loco parentis objects.

(4) A resident returned to a facility over his objection from authorized leave in excess of 10 days, shall be notified by the facility director of his right to appeal a return to the facility. Within 24 hours of the return of the resident, excluding Sundays and holidays, the facility director shall file with a probate court a proof of service of the notice of the right to appeal.

(5) A resident making an objection to return shall be subject to administrative review procedures established by the department of mental health.

History: 1954 ACS 98, p. 67, Eff. Jan. 9, 1979.

R 330.5089 Discharge of judicially admitted resident.

Rule 5089. (1) Discharge shall constitute release of a resident from jurisdiction of a facility, by action of the facility director or by court order, or if the court rejects an application or petition or fails to hold a hearing within the required

time. A resident discharged may not be returned to the facility as a resident without a new order for admission or application for administrative admission.

(2) When a resident is discharged, the facility director shall report the change in status to the probate court which ordered admission and indicate in this report which of the following factors have brought about this discharge:

(a) Resident legally transferred out of state.

(b) Resident, in the opinion of the facility director, is not mentally retarded.

(c) Resident not reasonably expected to seriously injure himself or others physically.

(d) Death of resident.

(e) Resident, on a court order, after 1 year of continuous leave.

(f) Any other reason provided for in statutes or procedures of the department.

History: 1954 ACS 98, p. 68, Eff. Jan. 9, 1979.

R 330.5091 Authorized leave of judicially admitted residents.

Rule 5091. (1) A leave for a visit constitutes a conditional and revocable release of a resident, granted for temporary purposes to provide a short-term experience outside the facility for an individual not yet thought to be capable of making a satisfactory adjustment on a long-term basis.

(2) Convalescent leave shall constitute a conditional and revocable release of a resident in his own custody or in the custody of another person, granted for purposes of continuing care and treatment by a facility while providing a longer term experience outside the facility for an individual not yet thought to be capable of making a satisfactory adjustment without this form of treatment. At the time a facility director determines the suitability of release for a judicially admitted resident, consideration for discharge shall have preference.

(3) A resident, while in the custody of a facility, shall not be permitted leave when in the judgment of the facility director it would be harmful to the resident or others.

(4) The department shall not be responsible for providing transportation for the return to a facility of a resident on convalescent leave. Exceptions to this may be made in special instances with the approval of the director of the department.

(5) Convalescent leave for a resident intending to go to another state shall not be granted without the approval of the director of the department.

(6) A facility shall not accept liability for expenses incurred by or for a resident on leave unless this expense is authorized in advance.

History: 1954 ACS 98, p. 68, Eff. Jan. 9, 1979.

R 330.5093 Unauthorized leave by judicially admitted residents.

Rule 5093. (1) Upon unauthorized leave, prompt and vigorous measures shall be taken to secure the resident's return, including immediate search by facility employees as warranted by circumstances. Relatives or other interested parties, including the community mental health program, shall immediately be notified by telephone or telegraph, when possible. The facility shall immediately notify the state police, the local police and sheriff in the area of the resident's home or former place of residence. A record shall be kept of who is notified and the time of notification.

(2) A resident on unauthorized leave who does not return to the facility at the end of 1 year or is not given convalescent leave before that time shall be discharged by the facility director.

(3) A resident who returns to a facility after unauthorized leave shall be physically inspected and a record made of the inspection in the same manner as *required for a newly* admitted resident.

(4) If a resident on unauthorized leave does not return to the facility within 3 days, notice that he is on unauthorized leave shall be sent to the court.

(5) A resident on unauthorized leave who has been discharged by a facility director may not be brought back to the facility without a new court determination that the individual meets the criteria of judicial admission. Appropriate police authorities shall be notified when the resident is administratively discharged.

(6) The department shall not be responsible for medical, hospital care, or drugs for residents on unauthorized leave, except when authorized by a facility director or the director of the department. These unauthorized bills shall be referred to the guardian, family, or proper local officials.

History: 1954 ACS 98, p. 68, Eff. Jan. 9, 1979.

R 330.5095 Objection to return to facility by a judicially admitted resident.
